

AIIMS CADAVER Arthroplasty Course 2011

**All India Institute of Medical Sciences,
New Delhi, INDIA**

26th-27th March, 2011

**COURSE DIRECTOR
Dr. C. S. Yadav**

Supported by
stryker®

Course Overview

After the overwhelming response of the two cadaver courses conducted, we are pleased to announce a 3rd cadaver course on 26th & 27th March 2011.

The AIIMS Cadaver Arthroplasty Course is designed to introduce the art of Joint Replacement Surgery to budding orthopaedic surgeons from all over the country.

The module is designed for an orthopaedic surgeon who desires to begin or has started Joint Replacement Surgery and wants to consolidate the basics in this subject.

The course is standardized and has inputs from eminent faculty members drawn from teaching medical colleges and practicing surgeons both domestic as well as international.

There is a strong emphasis on individual attention. The course gives the participants an opportunity to practice the demonstrated technique on **Cadavers** as well as Saw Bone. Detailed information about Primary Joint Arthroplasty through dialectic lectures, handouts, booklets and CDs will be provided.

Through faculty supervised hands-on training, the participants will be given a better understanding of the art of the Joint Replacement, thus enhancing surgery and improving patient care. **Kindly bring in your difficult cases/problems to discuss with the experts and there will be unlimited opportunities to share ideas and experiences with the Masters.**

We look forward to seeing you in AIIMS Cadaver Arthroplasty Course 2011

Dr. C.S. Yadav
Course Director
