

National Meeting on Nephrotic Syndrome

12 May 2013: 8 am to 5 pm

Lecture Theater II, All India Institute of Medical Sciences, New Delhi

Pathogenesis of Nephrotic Syndrome

Understanding the cause

Genetics of nephrotic syndrome: Experience from India

Mechanisms underlying podocyte dysfunction

Does histopathology contribute to management?

Disease Cohorts of Nephrotic Syndrome

Applications of Systems Biology Approach

Establishing an Indian Network: Opportunities and Challenges

Supportive care

Non-immunosuppressive therapies for proteinuria

Management of refractory edema

Challenges in Therapy

Corticosteroid therapy: What has changed?

Levamisole: Is there evidence to justify its use?

Efficacy and safety of mycophenolate mofetil

Evidence base for calcineurin inhibitors

Rituximab: Carving a niche?

Guest lecture

Nephrotic syndrome: Evidence based guidelines

Future prospects

Chair: Vineeta Bal, AK Dinda

Aditi Sinha

Anil Vasudevan

Shailaja Sopory

AK Dinda

Chair: Bindu Dey

Debbie Gipson

Arvind Bagga

Chair: Sanjeev Gulati

Pankaj Hari

M. Vijayakumar

Chair: SK Agarwal, M. Vijayakumar

OP Mishra

Indira Agarwal

Sushmita Banerjee

Arvind Bagga
