

Vision Statement

AIIMS has become a household name in India and abroad with people from all strata of society looking up to it to provide unbiased, affordable and quality healthcare. This stature and trust from fellow citizens has not come overnight. It has taken decades of extreme hard work by our founding fathers to reach to this level. I believe that there is immense untapped potential in AIIMS which with the proper nurturing can make AIIMS a truly global brand. Let me assure you all that I will work with single minded determination to take the AIIMS brand to new heights globally.

We all know that AIIMS caters to an ever increasing patient load and although the statistics seem overwhelming, a lot can be done to improve patient care and satisfaction. It is often said that this patient 'load' actually hampers education and research activities which are the actual mandate of AIIMS. You may remember how the railways and banking industry reinvented themselves in India using computerisation in the 1990's. I firmly believe that by leveraging the same patient 'load', computerisation can similarly bring a turnaround in patient care at AIIMS besides revolutionising research and education activities.

I thank you all for reposing this trust in me and am sure that you will support me in realising this shared dream.

- Director, AIIMS
