We have very distinguished neurosurgeons from abroad as our guest faculty. In addition, eminent national faculty would participate and disseminate their expertise.

India is a country of staggering topographical variations, whose rich and incredibly diverse cultural heritage has been shaped by 5000 years of history, making it an ideal travel destination. The conference will be held in the capital city of India, Delhi, that mirrors the glorious culture and traditions of our country as well as the modernity of our times. Delhi has a pleasant weather in the month of April. The temperature ranges from 25°-30° Celsius.
