ANNUAL REPORT
2024–2025

ALL INDIA INSTITUTE OF MEDICAL SCIENCES

NEW DELHI -110029

Edited Jointly By:

Dr. Sandeep Agarwala, HOD, Department of Paediatric Surgery

Dr. Pratap Sharan, HOD, Psychiatry

Dr. Kalpana Luthra, HOD, Biochemistry

Dr. Archna Singh, Professor of Biochemistry

Dr. R. Lakshmi, Professor of Cardiac Biochemistry

Dr. Purva Mathur, Professor of Laboratory Medicine, JPNATC

Dr. Rashmi Ramachandran, Professor of Anaesthesiology

Dr. Deepti Vibha, Professor of Neurology

Dr. Rakesh Garg, Professor of Onco-anaesthesiology

Dr. Sanjeev Kumar, Addl. Professor of Cardiac Radiology

Dr. Surbhi Gupta, Addl. Professor of Reproductive Biology

Dr. Tony George Jacob, Addl. Professor of Anatomy

Dr. Anjan Dhua, Addl. Professor of Paediatric Surgery

Dr. Amrita Chawla, Addl. Professor of CDER

Dr. Vivek Gupta, Addl. Professor of Community Ophthalmology

Dr. Kunaal Dhingra, Addl. Professor of CDER

Dr. Sidharth Sarkar, Addl. Professor of Psychiatry

Dr. Nasreen Akhtar, Addl. Professor of Physiology

Dr. Uma Kanga, Addl. Professor of TII

Dr. Neetu Bhari, Addl. Professor of Dermatology & Venereology

Dr. Siddharth Jain, Addl. Professor of Urology, JPNATC

Dr. Rakhee Yadav, Addl. Professor of Biochemistry

Dr. Sumit Rathore, Assoc. Professor of Biotechnology

Dr. Jitender Sodhi, Assoc. Professor of Hospital Administration

Dr. Manpret Panwar, Assoc. Professor of Dr. RP Centre for Ophthalmic Sciences

Dr. Shalini Singh, Assoc. Professor of Psychiatry, NDDTC

Dr. Anu Gupta, Assoc. Professor of Neurology

Dr. Soumya Jagannath Mahapatra, Asst. Professor of Gastroenterology

Dr. Sachit Anand, Asst. Professor of Paediatric Surgery

Dr. Nishita Chawla, Asst. Professor of Psychiatry, JPNATC

Shri V. K. Vishwkarma, Chief Librarian (Officiating), BB Dikshit Library

Dr. Rakesh Lodha, Professor of Paediatrics & Associate Dean (Acad.)

Dr. G. P. Rath, Professor of Neuro-Anaesthesiology & Registrar

The Hindi translation was done by Mrs. Anita Rai Saxena, Mr. Pramod Kumar and
Mr. Vijay Kumar under the supervision of Mr. Padam Singh, F&CAOs

All India Institute of Medical Sciences

The All India Institute of Medical Sciences (AIIMS) was established in 1956 as an institution of national importance by an Act of Parliament to develop patterns of teaching in undergraduate and postgraduate medical education in all its branches so as to demonstrate a high standard of medical education to all medical colleges and other allied institutions in India; to bring together in one place educational facilities of the highest order for the training of personnel in all important branches of health activity and to attain self-sufficiency in postgraduate medical education.

The Institute has comprehensive facilities for teaching, research and patient care. The AIIMS, New Delhi conducts teaching programs in medical and para-medical courses both at the undergraduate and postgraduate levels and awards its own degrees. Teaching and research is conducted in nearly 100 disciplines. The Institute is a leader in the field of medical research with over Rs 193 crores in extramural grants received by its researchers in a year. The Institute also runs a College of Nursing.

Various departments and centres manage practically all types of disease conditions with support from para-clinical departments. The Institute also runs a 50-bedded hospital and the Comprehensive Rural Health Centre at Ballabgarh in Haryana and provides health cover to nearly 8 lakh people through the Centre for Community Medicine.

Shri Jagat Prakash Nadda

Hon'ble Union Minister

1. Director's Review

I feel privileged to present the sixty-ninth Annual Report, and audited statement of accounts for the year 2024–2025.

AIIMS is a running laboratory of the Gita's Karma Yoga

Thus, spoke the Hon'ble President of India, Smt. Droupadi Murmu, while addressing the 49th annual convocation of the All India Institute of Medical Sciences, New Delhi (AIIMS-New Delhi). The Hon'ble President stated that "AIIMS is a proud 'made-in-India' success story, and is a model worth emulating across the country."

Over the past year, building on earlier efforts, our teams have worked with unwavering dedication to elevate standards in patient care, research, and education to ensure that AIIMS-New Delhi remains not only relevant, but also transformative. I extend my deepest and heartfelt gratitude to our doctors, nurses, paramedics, researchers, administrators, and support staff, who have played an indispensable role in the functioning of the Institute to solve Indian society's most pressing challenges related to health and well-being and illuminating the path ahead for the rest of the country. I am privileged to lead and serve this exceptional institution and wish to highlight some of its extraordinary achievements in this report.

Service and Leadership

Shri Jagat Prakash Nadda, Union Minister of Health and Family Welfare, also speaking on the occasion of the 49th convocation, congratulated AIIMS-New Delhi for making massive advancements with respect to its infrastructure and healthcare services. Bed capacity in AIIMS has been expanded by 34%, intensive care and surgical capacity by 40%, and diagnostic facilities have improved through technology and efficient management of resources.

We, at AIIMS New Delhi, believe in advancing patient care with compassion, and in the last twelve months, our institution has focused on providing a health ecosystem that is affordable, accessible, and quality-assured to ensure patient satisfaction.

The main hospital and our centres—Cardiothoracic and Neurosciences Centre (CN Centre), Jai Prakash Narain Apex Trauma Centre (JPNATC), Dr BR Ambedkar Institute Rotary Cancer Hospital (BRAIRCH) and National Cancer Institute (NCI), Jhajjar, Dr Rajendra Prasad Centre for Ophthalmic Sciences (RPCOS), Centre for Dental Education and Research (CDER), and National Drug Dependence Treatment Centre (NDDTC), Ghaziabad— now have a total bed strength of more than 4000. During the year 2024–2025, AIIMS-New Delhi attended to about 50 lakh outpatients and 3.5 lakh inpatients, and performed over 3 lakh surgical procedures at optimal patient care service parameters like bed occupancy of about 83%, average hospital stay of 9.6 days; and a low net death rate of 1.1% - a testament to our clinical excellence and operational scale.

The AIIMS-New Delhi has been placed in the top 100 in the 'World's Best Hospitals 2024' ranking published by Newsweek and Statista GmbH, following evaluation of over 2,400 hospitals across 30 countries based on clinical outcomes, patient satisfaction, hygiene standards and peer recommendations. This milestone marks a notable advancement in AIIMS Delhi's global standing and reflects India's growing presence in top-tier health-care institutions.

Strengthening of infrastructure

AIIMS-New Delhi has expanded and optimized its critical care infrastructure and deployed advanced monitoring systems for real-time clinical decision-making. Our MRI services, now streamlined, have benefitted more than 15,000 patients in the last year alone.

Most laboratories of the Department of Microbiology are now accredited with the National Accreditation Board for Testing and Calibration Laboratories (NABL). The department has established the country's first HIV Drug Resistance Testing Laboratory, sanctioned by National AIDS Control Organization (NACO); and a Department of Health Research (DHR) Infectious Disease Research and Diagnostic Laboratory (IRDL) under the Pradhan Mantri Ayushman Bharat Health Infrastructure Mission (PM-ABHIM) scheme. This year, the scope of testing at the laboratories in JPNATC, Department of Laboratory Medicine, CDER (Oral Pathology), Department of Nephrology, Cardiac Biochemistry, and Clinical Porphyria Testing Laboratory were also accredited with the NABL. The Burns and Plastic Surgery Block received National Accreditation Board for Hospitals & Healthcare Providers (NABH) certification.

The Department of Surgical Disciplines expanded its surgical services with the installation of robotic surgical system in the operating area and dialysis facility within the surgical critical care area. It also added specialty clinics for Gastrointestinal diseases & gallstones, Coloproctology, and Renal Transplant and Arteriovenous Fistula, among others. The RPCOS introduced new clinics for myopia, uveitis (with the Department of Rheumatology), and vitreo-retinal dystrophy. It also initiated an i-DRONE services for transporting cornea for transplantation in collaboration with Indian Council for Medical Research (ICMR) and Dr. Shroff's Charity Eye Hospital (SCEH).

The Division of Neonatology of the Department of Paediatrics established a Comprehensive Lactation Management Center, 'Payodhi,' to addresses the donor milk needs of sick babies in the Neonatal ICUs; and mentored Safdarjung Hospital, New Delhi, and BP Koirala Institute of Health Sciences, Nepal to establish similar services. The Department of Geriatric Medicine at the National Centre for Aging expanded it specialized services with the addition of Geriatric Oncology and Fragility Fracture Clinics. The NDDTC initiated a Tobacco Cessation Clinic in collaboration with the Department of Pulmonology.

Patient centric endeavours

Eliciting a word of praise from the Hon'ble President was a proud moment for us, but also an aspirational one, because she added "the responsibility of AIIMS goes beyond healthcare, education and research. It extends to fostering an environment where every stakeholder's voice is heard, where resources are utilised judiciously, and where excellence is the norm". At AIIMS-New Delhi, we take up the mantle of health equity with pride and resolve. We have achieved a 95% satisfaction rate in patient feedback surveys, reflecting our unwavering commitment to empathy, efficiency, and excellence.

In an effort to align with the government's mission to make quality healthcare accessible and efficient, our Computer Facility has developed many software in-house to facilitate services at AIIMS-New Delhi. We have introduced a new patient-redressal portal named 'SANTUSHT' which allows patients to submit complaints in text, audio or video format and track their resolution in real time. The portal is currently live in the Mother & Child Block. We have also begun a pilot roll-out of artificial intelligence (AI)-enabled CCTV cameras at key locations, such as the Emergency department, main gate and entry/exit points of the Mother & Child Block to improve security via facial recognition, anomaly detection and tamper-proof surveillance.

In line with our commitment to innovation and excellence in health care delivery, we have also operationalized '*TRED (Triage Register for Emergency Department)*,' a web-based application designed to enhance patient management and operational efficiency in Emergency Departments; and the '*AIIMS Inter Referral System*,' a centralized platform that can enable seamless patient referrals across the entire AIIMS network in India, ensuring coordinated and efficient inter-institutional care.

AIIMS-New Delhi is implementing the ABPMJAY scheme earnestly. Our Ayushman Bharat Kendras operate round-the clock (24X7) for the smooth implementation of the scheme. Taking our role in the implementation of the Ayushman Bharat Digital Mission (ABDM) earnestly, we have created more than 700,000 ABHA IDs and over 2 million 'scan and share' ABHA tokens. The institute has treated more than 30,000 patients under the Pradhan Mantri Jan Arogya Yojana (PM-JAY), demonstrating its role as a key public-sector provider offering subsidized care under government healthcare-initiatives.

We have also introduced an electric bus (e-bus) service to provide last-mile connectivity for patients, attendants and caregivers travelling from nearby metro stations and bus stops to various facilities within our sprawling campus. The e-buses feature wheelchair access, air-conditioning and regular stops on campus, ensuring comfort and accessibility for all users.

Research and Innovation

The Research Section of AIIMS-New Delhi provides capacity building support to the AIIMS faculty and student researchers through the Centralized Core Research Facility (CCRF) and Clinical Research Unit (CRU) for basic and clinical sciences, respectively. The Centre for Medical Innovation & Entrepreneurship (CMIE) provides critical support and guidance for promoting innovations in research. The CRU holds a distinguished position as an affiliate centre of the **Cochrane India Network** and functions as an advanced hub for clinical trials. It also plays an active role in the **Indian Clinical Trial & Education Network (INTENT)** initiative led by the **ICMR**, contributing significantly to the advancement of clinical research capacity and standards in the country.

The Research Section managed 958 extramural funded research projects and 369 intramural research grants amounting to over Rs. 288 crores; of which about 50 crores were obtained through international funding agencies during the year 2024-2025. The funding agencies included ICMR, DHR, Council for Scientific and Industrial Research (CSIR), Department of Biotechnology (DBT), Department of Science and Technology (DST), Defence Research and Development Organization (DRDO), World Health Organization (WHO), and United Nations Children's Fund (UNICEF). The institute continues to invest deeply in our community's scientific and scholarly endeavours. Philanthropic funds were raised to promote participation of younger faculty members and students in research through various competitive grants. The research section introduced a new intramural funding scheme for NCI-AIIMS, Jhajjar to encourage cancer research this year.

The research community at AIIMS-New Delhi contributed significantly to scholarship through its leadership in innovations and publications. During the year the faculty and scientists of the Institute published over 2500 research papers in national and international journals and over 365 monographs, books, and chapters in books.

AIIMS-New Delhi continues to support multiple Centre for Advanced Research (CAR) projects of the ICMR: Paediatric Nephrology, Paediatric Pulmonology, Childhood Neurodevelopmental Disorders (Department of Paediatrics), Virtual Autopsy (Department of Forensic Medicine), Pancreatic Disease and Intestinal diseases (Department of Gastroenterology and Human Nutrition), Neuromodulation (Department of Psychiatry), Disability and Assistive Technology (Department of Biomedical Engineering), Nephrology (Department of Nephrology), and Pulmonology (Department of Pulmonary, Critical Care and Sleep Medicine). Department of Cardiology, Division of Paediatric Pulmonology & Intensive Care (Department of Paediatrics), and Department of Burns & Plastic Surgery continue as ICMR Collaborating Centres of Excellence (ICMR-CCoE). This year, AIIMS-New Delhi established the Centre for Advanced Research on Addictive Behaviours (CAR-AB), to address the growing public-health challenge of internet and technology addiction among children and youth. The initiative will also develop an AI-based predictive model to identify at-risk individuals through behavioural-data analytics. The project will leverage partnerships with schools, colleges, educators, parents, medical institutions and technology specialists to build a national network that can provide optimum support.

This year, the RPCOS launched a Retinomics Facility, India's first multidisciplinary AI-based health research platform; and developed an indigenous bio-engineered corneal implant, advancing the vision of Atmanirbhar Bharat. The Department of Biotechnology initiated research in new fields like Cardiogenomics, Bioinformatics, Bioenergetics of Infectious diseases, and Molecular cancer therapeutics.

Collaborative research

The institute's prodigious resources, collaborative energy, and ability to convene have led to memoranda of understanding (MoU) with many organizations for research projects focused on fundamental research, clinical care, and health care delivery.

AIIMS-New Delhi hosted the inaugural Pan-AIIMS Research Consortium, bringing together Deans (Research) from across the AIIMS network to foster collaborative, multi-centric research on national health priorities. The institute also formalized a MoU with the Armed Forces Medical Services (AFMS) to collaborate on joint research, academic programmes, patient-care services and faculty exchange, especially in the fields of high-altitude, aerospace, and marine medicine.

The institute entered into a collaboration with Osaka University, Japan to establish a new 'National Centre for Medical Device Development, Validation and Skill Training' on its Jhajjar campus. Under the 'Make in India' initiative, the centre

will provide a platform for surgeons, physicians and biomedical engineers to jointly conceptualise, design, prototype and test medical devices aligning with the goal of reducing India's dependency on imported medical equipment. A Trilateral MoU was also executed between AIIMS, UCL, and IIT Delhi to focus on advancing MedTech research. New MoUs were also signed with CSIR, CSIR-Centre for Cellular & Molecular Biology (CCMB), National Forensic Science University (NFSU), and Ministry of Tribal Affairs (MoTA).

The quality of Institute's science is strengthened by collaborations with biotechnology, pharmaceutical, robotics, and AI establishments. Many of these connections are spearheaded by the CMIE at AIIMS, which breaks down silos between academia and industry to create unique learning opportunities and accelerate the translation of brilliant ideas into new therapies. The CMIE is among the first bio-incubators in a public hospital setting. It nurtures medical innovations, bridges academia and industry, and aligns with national missions such as Make-in-India, Start-up India, and the Atal Innovation Mission. CMIE currently incubates 26 start-ups, with 6 graduated ventures, and 5 in-house faculty-led innovations.

The MoH&FW signed a tripartite MoU with the Institute of Medical Sciences, Banaras Hindu University (IMS, BHU) and the Ministry of Education (MoE). Under the MoU, AIIMS Delhi will mentor IMS BHU in upgrading clinical infrastructure, research and postgraduate training. Further, the agreement envisions faculty and student exchanges, methodological cooperation in robotic surgery, hospital administration, governance, and shared academic-research ventures between AIIMS-New Delhi and IMS, BHU. The Union Health Minister, Shri JP Nadda Ji, described the pact as an embodiment of the 'whole-of-government' approach.

Artificial intelligence

Artificial intelligence presents an inflection point in history, and we are expanding its potential to drive discovery. The institute has committed more than Rs. 300 crore towards developing advanced digital infrastructure and integrating artificial-intelligence (AI) solutions to benefit basic, clinical and health service research. We have inaugurated a dedicated Centre of Excellence for Artificial Intelligence in Healthcare, which is expected to deliver AI-based tools for chest-X-ray evaluation, and early diabetic-retinopathy and skin-lesion identification.

AIIMS-New Delhi has entered into a MoU with Wipro GE Healthcare Pvt Ltd to establish an 'AI Health Innovations Hub' aimed at transforming diagnostic and treatment services through AI. The five-year collaboration aims at developing intelligent systems in cardiology, oncology and neurology, along with real-time patient-data tracking and advanced diagnostics. The initiative aligns with broader national goals of advancing digital health and positioning India as a leader in med-tech innovation, leveraging AI for predictive, personalised and preventive care.

The Department of Diagnostic and Interventional Onco-Radiology at BRAIRCH is deeply engaged in research across a range of fields including AI, machine learning, medical devices, and medical robotics.

Clinical innovation

AIIMS-New Delhi houses some of the greatest experts in health sciences in the country, who strive relentlessly in areas of medicine and the life sciences. Paediatric surgeons at AIIMS-New Delhi successfully conducted a minimally invasive (keyhole) surgical procedure to treat a rare case of pancreatic cancer in a child. The achievement highlights our surgeons' willingness to adopt state-of-the-art, child-appropriate surgical techniques, in complex cases. The Department of Otorhinolaryngology successfully conducted its first auditory brain stem implant. It is now among a group of select global institutions with such experience.

A team at AIIMS-New Delhi achieved a first-in-India (and eighth in the world) medical milestone by successfully performing intrauterine blood transfusions for a fetus suffering from severe anaemia due to a rare maternal–fetal blood-group incompatibility (anti-Rh17 antibody).

Our clinician-researchers have also initiated development of a novel, low-cost adaptive cellular therapy aimed at treating patients with multiple myeloma. The effort is part of AIIMS-New Delhi's broader strategy to promote indigenous innovation in oncology therapeutics.

The Department of Transplant Immunology & Immunogenetics has introduced prenatal diagnosis for primary immunodeficiencies using flow cytometry-based immunophenotyping. Early detection paves the way for timely genetic counselling, informed decision-making for families, and preparation for early interventions, where feasible.

Teaching and Learning

AIIMS-New Delhi was conceived as an institution of excellence in Medical Education and training and it embodies the hopes of a new India. We have stayed true to that vision. With its 9 centres and 43 stand-alone Departments, and a manpower of over 15,000, including over 800 faculty members, AIIMS-New Delhi trains medical undergraduates, graduates, specialists (MD/ MS/ MDS), super-specialists (DM/ MCh/ Fellows), PhD scholars and allied health and basic sciences experts,

including nurses and paramedical professionals. During the year, we enrolled about 1250 scholars in various graduate and postgraduate courses. The Institute also provided postgraduate exposure to about 550 short-term trainees.

AIIMS-New Delhi reaffirmed its position as India's top-ranked medical institution, maintaining the first rank among all medical colleges for the eighth consecutive year under the National Institutional Ranking Framework (NIRF). In recognition of its legacy, the institute has been designated the National Resource Centre for the National Medical College Network (NMCN), supporting over 100 medical colleges through the learning-management platform 'SAKSHAM'.

Rapid advances in health technology and precision medicine techniques require physicians of the future to engage with new models of care. Training at AIIMS involves traditional methods, enhanced mentorship and simulation-based learning. To support academic excellence, AIIMS-New Delhi is undergoing a digital transformation. We launched the AIIMS Digital Learning Hub last year, offering over 300 hours of curated content, virtual labs, and interactive case modules. We have also launched a state-of-the-art surgical robotics training facility for our resident doctors and faculty at the SET (Skills, e-learning, telemedicine) facility.

Contemporary medical education requires placing emphasis on professionalism, cultural humility, social awareness and leadership so that graduating students become capable and compassionate clinicians, scientists, and humanists. The Union Health Minister, Shri JP Nadda, in his convocation address exhorted those passing out of our portals by saying, "Your education at AIIMS has equipped you with not only the requisite knowledge and skills to excel in your chosen fields, but also the values of empathy, integrity, and service. These core values will serve as your guiding principles as you navigate the complexities of the medical profession and endeavour to make a positive impact on the lives of those you serve".

We continue to be the top choice of students not only for our cutting-edge facilities, superb faculty and exposure to vast patient inflow, but also for our eager embrace of latest technology like AI. The Institute offers world-class facilities that promote both professional and personal growth, like the central library (among the best in Asia), which offers access to thousands of medical journals, e-resources and research databases, dedicated reading zones and 24X7 digital access; and a students' wellness wing that supports scholars to thrive. Being a student at AIIMS-New Delhi is more than pursuing a degree, it is a transformative experience that equips doctors with the skills and confidence to become leaders in healthcare.

The KL Wig Centre for Medical Education and Technology (CMET) organized multiple in-house training programmes for various categories of staff members. In particular, it conducted faculty development programs in medical ethics, leadership, and pedagogy, strengthening our academic ecosystem.

AIIMS-New Delhi provides innovative learning opportunities to help professionals and other stakeholders develop their potential to shape the future of medicine and health care. We offered Continuing Professional Development education to thousands of clinician and science leaders working in healthcare fields to acquaint them with new trends in science and health care delivery. We organized/hosted over 260 workshops, symposia, conferences and training programmes in collaboration with various national and international agencies.

It is said that assessments decide education. AIIMS-New Delhi has developed a formidable reputation of rigour in conducting high-stakes examinations. We successfully conducted 123 examinations for over 11 lakh candidates last year. We have now implemented a landmark block chain system to securely record examination transactions, ensuring transparency and data integrity. AIIMS-New Delhi also led the Common Recruitment Examination 2024, a major national exercise for 28 AIIMS and central institutes, covering 712 posts across 66 groups, for over 4,600 vacancies.

Public Health and Community Building

AIIMS-New Delhi provides a discerning understanding of how to leverage the complex interaction of social, economic, and medical factors to improve health policy and enhance people's ability to participate in society in meaningful ways.

The Centre for Community Medicine provided technical support to national health programmes of ministry of health, Government of India through the National Centre of Excellence and Advanced Research on Anemia Control, WHO Collaborating Centre for capacity development and research in community-based NCD prevention and control, National Institute for HIV Sentinel Surveillance, Viral Hepatitis Control Programme, Innovation and Learning Centre for implementation of Comprehensive Primary Health Care, Cause of Death in India through SRS-based verbal autopsy, and Centre of Excellence for Air Pollution and Health.

The Department of Obstetrics and Gynaecology houses the WHO-Collaborating Centre (WHO-CC) for Research in Human Reproduction, and Cervical Cancer Prevention and Research. In the Department of Paediatrics, the Division of Neonatology is a WHO-CC for Training and Research, and the Division of Genetics is a WHO-CC for Training in Clinical and Laboratory Genetics for developing countries. AIIMS-New Delhi also houses the WHO-CC for Training and Research in Tuberculosis (Department of Medicine), Substance Abuse (NDDTC), Prevention of Blindness (RPCOS), Oral Health Promotion (CDER) and Emergency and Trauma Care (Department of Emergency Medicine).

The Ministry of Health and Family Welfare has designated the Centre for Dental Education and Research as the National Centre of Excellence for the Implementation of National Oral Health Program (NOHP). Currently, CDER is leading the National Oral Disease Burden Survey under the aegis of the Ministry of Health and Family Welfare. The Division of Neonatology of the Department of Pediatrics is leading the SANKALP program in Khargone district, Madhya Pradesh, which focuses on achieving a single-digit Neonatal Mortality Rate. This initiative serves as a demonstration model and is expected to generate critical evidence to guide national policy.

AIIMS-New Delhi and the Indian Coast Guard (ICG) have entered a MoU aimed at strengthening life-saving medical readiness in maritime operations. Under the agreement, we will provide structured and advanced training in cardiopulmonary resuscitation (CPR) and other emergency protocols to Coast Guard medical officers and personnel operating in challenging sea-based environments.

Awards and orations

Our community's accomplishments consistently earn recognition from India's most prestigious institutions. Dr Ashok Kumar Mahapatra, Former Professor of Neurosurgery, and Dr Neerja Bhatla, Former Professor of Obstetrics and Gynaecology at AIIMS-New Delhi, were awarded the Padma Shri for their contributions in the field of medicine this year.

The Shobha Seth Wenger' Distinguished Chair in Gynecologic Oncology under "Mira Seth Corpus Fund" was awarded to Dr. Sandeep Mathur, Professor of Pathology; and the Infosys Chair in Oncology was awarded to Dr. Sameer Bakhshi, Professor and Head, Department of Medical Oncology, BRAIRCH.

Major highlights of the 4th Annual Research Day Celebration were the Diamond Jubilee Oration titled 'The Miracles of Modern Medicine and the Future of Global Health - Lessons from a Career across Four Continents' delivered by Professor Shitij Kapur, Vice-Chancellor & President of King's College London; and the AIIMS Silver Jubilee Oration titled 'Medical Academia and People's Health' delivered by Dr. Yogesh Jain, co-founder of Sangwari-People Council for Equity and Health.

In conclusion

AIIMS-New Delhi has sincerely endeavoured to meet its mandate of assisting the Government of India in its efforts to provide quality and equitable healthcare to the Indian people through public-spirited scientific education, evidence-based, accessible and affordable service provision, and state-of the-art biomedical research.

It is a privilege to serve this prestigious institution and to work with so many dedicated and enterprising colleagues. I would like to thank our clinicians, who work tirelessly and bring not only skill but compassion to every bedside; our nurses and paramedics, whose quiet strength, vigilance, and empathy form the backbone of patient care; our researchers, who push the horizons of knowledge, often working behind the scenes to unlock tomorrow's breakthroughs; our administrators and technical teams, who ensure that systems run smoothly, resources are optimized, and every challenge is met with foresight and resolve; our sanitation workers, security personnel, and support staff, whose contributions often go unseen but are vital to the dignity, safety, and integrity of our environment. Together, they form our heartbeat - a rhythm of service, excellence, and humanity. Above all, let us honour our patients. Their courage in the face of illness, their trust in our care, and their resilience through adversity inspire us every day. They remind us why we chose this path, and why we must continue to walk it with humility and hope. We hope to carry forward this spirit of unity, compassion, and shared purpose. For it is not just the walls of this institution that define AIIMS—it is the people within it.

Considering our shared mission - to heal, to educate, to innovate, and to uplift, we renew our commitment to building a healthier, stronger, and more compassionate India.

M. Srinivas
Director

Mission Statement:

To ensure excellence in medical education through effective academic governance, policy formulation, and coordinated implementation of undergraduate, postgraduate, and doctoral programmes in medical, dental, nursing and Allied & Healthcare Courses in alignment with the institutional vision of AIIMS, New Delhi.

Admissions in various courses over the past three years

S.No.	Name of course	2024-25	2023-24	2022-23
1.	MSc/MBiotech/MSc Nursing (August)*	103	105	106
2.	MD/MS/MDS/M.Ch/DM (Direct 6 yrs)	480	440	295
3.	DM/MCh	222	238	189
4.	PhD	93	57	57
5.	Fellowship	36	48	37
6.	MBBS*	132	132	132
7.	B. Sc Nursing (Post-Basic)*	31	36	31
8.	B. Sc (Hons.) Nursing*	95	95	94
9.	Allied & Healthcare courses*	52	53	34
	Total	**1244**	**1204**	**975**

*Admissions are done once in a year for UG and M.Sc. Courses, however for other courses admissions are done twice a year in Jan and July.

UNDERGRADUATE EDUCATION

The section handles post-admission formalities for new students, develops and revises curricula and administers teaching programmes including internal assessment of undergraduate students admitted to various courses. The courses include MBBS, Bachelor Medical Radiology and Imaging Technology, Ophthalmic Techniques, Operation Theatre Technology, BSc Dental Hygiene, BSc Dental Operating Room Assistant (DORA), BSc Nursing (Post-Basic) and BSc (Hons.) Nursing courses.

Bachelor of Medicine and Bachelor of Surgery (MBBS)

The pattern of education in MBBS course was reviewed and re-structured in July 2004. The MBBS course is of 5½ years duration and comprises of 3 phases and internship. The details are as follows:-

Phase	Duration (years)	Training
First	One	Pre-clinical
Second	One-and-a-half	Para-clinical
Third	Two	Clinical
Internship	One	Compulsory rotation in various departments

At present, 132 students are admitted every year to the MBBS course (45 General Category, 36 Other Backward Classes, 15 EWS Category, 20 Scheduled Caste, 9 Scheduled Tribe and 7 Foreign National). For persons with disabilities (PWD), 5% reservation was provided on a horizontal basis. No reservation shall be applicable for Foreign National students. From 2021, these admissions are made based on merit through the National Eligibility Entrance Test (NEET) conducted by the National Testing Agency.

As on 31st March 2025, 675 MBBS students including 126 interns were on rolls. Nine meritorious MBBS students were awarded scholarships for securing first, second and third positions in the first, second and final phase of professional examinations.

Allied & Healthcare Courses and Nursing Education

In 2024–2025, 95 students (38 General Category, 10 EWS Category, 14 Scheduled Caste, 7 Scheduled Tribe and 26 Other Backward Classes) were admitted in B. Sc (Hons) Nursing course. For B.Sc Nursing (Post-Basic) course, 31 students (15 General Category, 5 Scheduled Caste, 2 Scheduled Tribe, 9 Other Backward Classes) were admitted.

Students admitted to various B. Sc. courses were as below:

Bachelor Courses	General	SC	ST	OBC	EWS	Foreign	TOTAL
Ophthalmic Techniques	13	2	-	5	1		21
Medical Radiology and Imaging Technology	4	2	-	3	1	---	10
Operation Theatre Technology	8	3	2	3	2	---	18
Dental Hygiene	1	--	---	--	--	---	1
Dental Operating Room Assistant	1	--	--	1	--	---	2

The number of students on rolls in these courses as on 31stMarch 2025 were as below:

Course	Number of Students
Nursing	
B. Sc. Nursing (Post-basic)	59
B. Sc. (Hons) Nursing	337
Allied & Healthcare Courses	
Bachelor of Ophthalmic Techniques	79
Bachelor Medical Radiology and Imaging Technology	39
B.Sc. Operation Theatre Technology	48
B. Sc. Dental Hygiene	04
B.Sc. Dental Operating Room Assistant	02

POSTGRADUATE EDUCATION

The Academic Section looks after all activities pertaining to admission and training of postgraduate students including junior and senior residents. It handles all activities related to Fellowship, PhD, DM, M.Ch, MD, MS, MDS, MCh/DM (Direct 6 yrs. Course), M Biotechnology (M. Biotech) and MSc courses in different disciplines.

Admissions to all postgraduate courses for Indian nationals as well as sponsored candidates are made through an All-India Entrance Examination held twice a year for all postgraduate courses except MSc, MSc Nursing and M. Biotechnology courses, for which the examination is held once a year. Foreign nationals are admitted under the sponsored category through the same entrance examination. In 2024–25, 1244 students were admitted in various courses. The details are as given below:-

Admissions in various courses

S.No.	Name of course	January 2025	July 2024	Total
1.	MSc/MBiotech/MSc Nursing (August)*	103	--	103

21.	Institute Book Prize – 2024 (Pathology)	Hrishikesh Nagbhushan Gangule
22.	Institute Book Prize – 2024 (Pharmacology)	Hrishikesh Nagbhushan Gangule
23.	Institute Book Prize – 2024 (Forensic Medicine)	Debankita Bera
24.	Institute Book Prize – 2024 (Medicine)	Chinmayi Kothari
25.	Institute Book Prize – 2024 (Paediatrics)	Durgam Yashwant; Fathima Shahama O.V.
26.	Institute Book Prize – 2024 (Obst. & Gynae.)	V. Jayashimman
27.	Institute Book Prize – 2024 (Surgery)	Shobhit Tyagi
28.	Institute Book Prize – 2024 (Community Medicine)	Gaurav Prakash
29.	Appreciation Certificate – 1st Prof. MBBS (July 2024) – 1st Rank	Dhruv Advani
30.	Appreciation Certificate – 1st Prof. MBBS (July 2024) – 2nd Rank	Gauri Gupta
31.	Appreciation Certificate – 1st Prof. MBBS (July 2024) – 3rd Rank	Vrinda Bhatia
32.	Appreciation Certificate – 2nd Prof. MBBS (Dec 2024) – 1st Rank	Hrishikesh Nagbhushan Gangule
33.	Appreciation Certificate – 2nd Prof. MBBS (Dec 2024) – 2nd Rank	Anuska Mandal
34.	Appreciation Certificate – 2nd Prof. MBBS (Dec 2024) – 3rd Rank	Debankita Bera
35.	Appreciation Certificate – Final Prof. MBBS (Dec 2024) – 1st Rank	Chinmayi Kothari
36.	Appreciation Certificate – Final Prof. MBBS (Dec 2024) – 2nd Rank	Akanksha Singh
37.	Appreciation Certificate – Final Prof. MBBS (Dec 2024) – 3rd Rank	Gaurav Prakash

Glimpses of AIIMS 69th Foundation Day

The Academic Section is entrusted with the responsibility of organizing the Foundation Day of the Institute, which is celebrated annually on 25th September. During the year under report, the 69th Foundation Day of AIIMS was celebrated with due academic and institutional significance.

The event was graced by Shri Jadhav Prataprao Ganpatrao, Hon'ble Minister of State, Ministry of Health and Family Welfare, with independent charge of the Ministry of AYUSH, as the Chief Guest, and Prof. Vinod K. Paul, Hon'ble Member, NITI Aayog, as the Guest of Honour. The major highlight of the programme was the AIIMS Golden Jubilee Oration delivered by Dr. N. Kalaiselvi, Director General, CSIR, and Secretary, DSIR, Ministry of Science & Technology, Government of India.

The programme also included the distribution of awards and a three-day exhibition on the theme "Innovations in Health Care and Medical Education", showcasing the academic, research, and healthcare initiatives of the Institute, organized in coordination with CMETi. In the evening, cultural activities were organized in coordination with the Cultural Committee. The Academic Section ensured seamless coordination of all academic, ceremonial, and logistical arrangements associated with the event.

LIST OF AWARDEES–MEDALS/BOOK PRIZES FOR 69th INSTITUTE FOUNDATION DAY CELEBRATION

S.No.	NAME OF THE MEDAL/BOOK PRIZE AWARD	NAME OF THE AWARDEE
1.	Shri Mohan Lal Wig Medal-2023 for Clinical Research.	Dr. Kanu Priya Bhatia
2.	Dr. B.K. Anand Medal-2023 for best postgraduate student in Physiology.	Dr. Kavita Yadav
3.	Dr. Bodhraj Sabharwal Medal-2023 for best postgraduate in Ophthalmology.	Dr. Antriksh Wahi
4.	Sanjivni Medal-2023 for best postgraduate student in Anaesthesiology.	Dr. Yalla Bharat
5.	Dr. Atm Prakash Medal-2023 for best MBBS (Intern) in Surgery.	Dr. Ayushi Bansal
6.	Dr. Shyam Sharma Medal-2023 for best postgraduate student in Radiology.	Dr. Srinivas S.M.
7.	Dr. Jagdish Lal Kapila Medal-2023 for best DM student in Cardiology.	Dr. Manjit Mahendran
8.	Dr. O.P. Ghai Medal-2023 for best Senior Resident in the Department of Paediatrics	Dr. Kritika Setlur
9.	Dr. N.C. Nayak Medal-2022 in Pathology for the best Senior Resident.	Dr. Anju G.S.
10.	Dr. N.C. Nayak Medal-2023 in Pathology for the best Senior Resident.	Dr. Shraddhanjali Satapathy

11.	Prof. H.D. Tandon Medal-2023 in Pathology for best undergraduate student.	Mr. Pankaj Kumar
12.	Smt. Shakuntala Jolly Medal-2023 to the best DM Medical Oncology student. He has also awarded	Dr. Akhil P Santhosh
13.	Mrs. Geeta Mittal Medal & Book Prize-2023 for Clinical Research	Dr. Akhil P Santhosh
14.	Dr. V. Ramalingaswami Medal-2023 for best Junior Resident in Pathology.	Dr. Ria Mahendru
15.	Mrs. Geeta Mittal Medal & Book Prize-2023 for Basic Research	Dr. Divya Mohan
16.	Smt. Kirpal Kaur Medal-2023 for best House Physician.	Dr. Sankeerth Sadananda
17.	Col. G.C. Tandon Medal-2023 for best postgraduate student in Anaesthesiology.	Dr. Vishnu Narayanan M. R.
18.	Prof. V. Hingorani Medal-2023 for best clinical resident in Obstetrics & Gynaecology She has also awarded	Dr. Shagun Kapoor
19.	Smt. Leelawati Salwan Book Prize Award-2023 in Obst. & Gynaecology for the best Junior Resident for an Outstanding Research.	Dr. Shagun Kapoor
20.	Dr. S.V. Talekar Medal-2023 for best postgraduate student in Biophysics	Dr. Lakshay Malhotra
21.	Dr. S.S. Sidhu Medal-2023 in Dental Surgery for best postgraduate student.	Dr. Sehrish Khan
22.	Dr. S.S. Sidhu Medal-2023 in Dental Surgery for best postgraduate student.	Dr. Shilpa Verma
23.	Hira Lal Medal-2023 in Surgery for the best postgraduate student	Dr. Mandli Bhanu Pradeep Yadav
24.	Prof. V. Ramalingaswami Book Prize Award-2023 to the best intern at the Rural Health Centre, Ballabgarh.	Dr. Binay Kumar
25.	Dr. MMS Ahuja Book Prize Award-2023 for best DM student in Endocrinology	Dr. Shreya Sharma
26.	Manohar Lal Soni Book Prize Award-2023 to the best DM Neurology student.	Dr. Baikuntha Panigrahi
27.	Dr. Rakesh Tandon Book Prize Award-2023 to the best DM Gastroenterology student.	Dr. Sagnik Biswas
28.	Sorel Catherine Freymann Book Prize Award-2023 in Paediatrics for the best postgraduate student.	Dr. Pavneet Kaur
29.	Kamini Charity Trust Book Prize-2023 Award in Otorhynolaryngology for best MS (ENT) student.	Dr. A Maheshkumar
30.	AIIMSONIANS of America Book Prize Award-2023 for Best Nurse.	Mukesh Kumar
31.	AIIMSONIANS of America Book Prize Award-2023 for Best Nurse in Community Care Nursing.	Poonam Sinha

87.	Clinical Combined Round (CCR)	Lambda wave ECG - It's not so Greek after all !	18-Mar-25	28	Cardiology
88.	Clinical Combined Round (CCR)	Pre natal to postnatal continuum : Autograft solution for a congenital defect	18-Mar-25	30	CTVS
89.	Clinical Grand Round (CGR)	Knock, Know ! It's Nocardia : Eight Years of Experience	18-Mar-25	44	Microbiology
90.	Clinical Combined Round (CCR)	Tale of a child with an autoinflammatory syndrome	25-Mar-25	101	Pediatrics Unit I
	Clinical Combined Round (CCR)	Laparoscopy for pediatric pancreatic head tumour : The first total laparoscopic Whipple's procedure	25-Mar-25	18	Pediatrics Surgery
91.	Clinical Pathological Conference (CPC)	Clinical Discussion : Dr. Amit Khosla & Pathology Discussion : Dr. Seema Kashyap	25-Mar-25	48	Ophthalmology

The National Medical Journal of India

Rajeev Kumar

Editor NMJI

The *National Medical Journal of India* (NMJI) is a general medical journal, published by the All India Institute of Medical Sciences, New Delhi, India (AIIMS). The journal began publishing in 1988 and has been publishing continuously since that date. The NMJI is peer-reviewed with print and online publication and its full text (platinum open access) is available online at http://www.nmji.in. The journal is funded by a grant from AIIMS and there are no fees for article submission, publication or access.

The NMJI is indexed in Medline® and Science Citation Index Expanded®. The journal is published bi-monthly. It received over 1600 manuscript submissions in 2024 with an overall acceptance rate of 11%. The journal follows a double-blind peer review system through its online manuscript handling system. The journal is also indexed in Google Scholar, ProQuest, Read Cube, Cross Ref, Portico and EBSCO.

The editorial board of the NMJI includes current and former editors of some of the most prominent international journals including the British Medical Journal, Annals of Internal Medicine, The Lancet, Journal of American Medical Association; representatives of organizations such as the World Association of Medical Editors (WAME) and the International Committee of Medical Journal Editors (ICMJE), and eminent Indian and international biomedical scientists.

Former editors of the journal include Prof SamiranNundy, Prof K Srinath Reddy and Prof PeushSahni. The NMJI is currently one of the member journals of the ICMJE, the first and sole journal from India on this committee. The journal is known for its strong focus on ethics and quality and reflects the culture and commitment to excellence that AIIMS New Delhi stands for.

S.E.T Facility
(Skills, E-learning & Telemedicine)

Objectives-

- Establish a simulation-based skill-learning facility.
- Develop an E-learning platform to facilitate online education and a blended training program.
- Telemedicine facility for tele-education & tele-consultation to collaborate between Institutes all over India.

Key Assignments

National Resource Centre, National Medical College Network, a MoHFW, Govt of India project

Partnership with YouTube to create health-relatedvideos

Centre of Excellence for the education of health professionals as part of Partnership for Education of Health Professionals (PEP), a joint program with NovoNordisk Foundation

AIIMS Robotic Training Facility in partnership with India Medtronic Private Limited

Key Facilities

Advanced Airway Training Laboratory

1. **Chest and Lung Auscultation Training**
   - Total number conducted - 03
   - Total residents enrolled - 39
2. **Chest and Lung Auscultation Training- INSIGHT**
   - Total number conducted- 02
   - Total residents enrolled - 65

Ultrasound Simulation Laboratory

1. **Workshop on Diagnostic Use of Ultrasonography (USG)**
   - Total number conducted- 01
   - Total residents enrolled- 26
2. **Point of Care Ultrasound (POCUS) Workshop - INSIGHT**
   - Total number conducted- 02
   - Total candidates enrolled – 38
3. **From Symptoms to Diagnosis: use of USG**
   - Total number conducted– 03
   - Total residents enrolled– 57
4. **USG workshop for Medicine Residents**
   - Total number conducted- 01
   - Total residents enrolled– 15

Skill Lab

1. **Undergraduate students**

   a. The Skill-based learning for undergraduate students, which is integrated into the curriculum

   b. The program starts in the 4th semester using a blended online and hands-on teaching methodology

      - Number of skill training sessions- 28
      - Number of students attended the various sessions- 517

2. **Nursing students**

   - Skill training program for college of nursing students - 42
   - Number of students attended - 1230

3. **Nursing Staff**

   a. Cardiac Resuscitation Training Program (CRTP) Course

      - Total number conducted - 24
      - Total candidates enrolled - 564

   b. Hospital Infection Control Committee (HICC) hands-on training on IPC Practices

      - Total number conducted - 12
      - Total candidates enrolled - 429

   c. BLS and ACLS training Hospital Administration

      - Total number conducted - 08
      - Total candidates enrolled - 233

   d. BLS Training for IRCH

      - Total number conducted - 03
      - Total candidates enrolled - 64

   e. Nursing Induction Program - Basic Life Support

      - Total number conducted - 08
      - Total candidates enrolled - 228

   f. Nursing Induction Program - Basic Skills Training

      - Total number conducted - 02
      - Total candidates enrolled - 49

   g. CPR Training for Nurses/Technicians for Deputation to Haj

      - Total number conducted - 01
      - Total candidates enrolled - 09

   h. Workshop on Breast cancer awareness

      - Total number conducted - 01
      - Total candidates enrolled - 96

   i. Emergency Medicine Airway Workshop

      - Total number conducted - 01
      - Total candidates enrolled – 36

   j. Workshop: Transforming Kidney Health through nursing excellence

      - Total number conducted - 01
      - Total candidates enrolled - 29

4. **Postgraduate students-**

   a. CME: Basic and Recent advances in Mechanical Ventilation

      - Total number conducted - 01
      - Total residents enrolled - 80

b. Fixed Bening UKR Workshop (Ortho) Current concept in Arthroplasty
   - Total number conducted - 01
   - Total residents enrolled - 40

c. BLS and ACLS training for Medicine JR
   - Total number conducted - 04
   - Total residents enrolled - 64

d. BLS Training for CCM JR
   - Total number conducted - 01
   - Total residents enrolled–12

e. BLS Training for Psychiatry Residents
   - Total number conducted - 01
   - Total residents enrolled - 10

f. BLS & ACLS Provider Course (AHA Accredited)
   - Total number conducted - 05
   - Total candidates enrolled - 132

g. IAP ALS Workshop
   - Total number conducted - 02
   - Total candidates enrolled - 88

h. CODE BLUE Training for CNC Residents
   - Total number conducted - 01
   - Total candidates enrolled–21

i. BLS Training for CDER For Code Blue Implementation
   - Total number conducted - 02
   - Total candidates enrolled – 53

j. Hands on Training on Airway Management
   - Total number conducted - 01
   - Total candidates enrolled - 18

k. Emergency Medicine Skill Training Day
   - Total number conducted -01
   - Total candidates enrolled - 38

5. MCh/MD/DM/Super specialty training courses

a. Workshop; Needle Navigation using USG
   - Total number conducted - 06
   - Total delegates enrolled - 76

b. Thesis: Needle guided prototype testing
   - Total number conducted - 11
   - Total delegates enrolled - 22

c. MD Exam conducted
   - Total number conducted - 01
   - Total delegates enrolled - 16

d. CME in Surgery and Annual Day
   - Total number conducted - 01
   - Total delegates enrolled - 45

e. CPR Training for Faculty
   - Total number conducted - 01
   - Total delegates enrolled - 15

f. Charak Digital Healthcare Masterclass On AI
   - Total number conducted - 01
   - Total delegates enrolled–100

g. Recent advances in Critical Care
   - Total number conducted - 02
   - Total delegates enrolled– 68

h. EBUS : WORKSHOP on Endo-bronchialUltrasound
   - Total number conducted - 01
   - Total delegates enrolled - 08

6. Workshops conducted as part of the AIIMS-NNF Centre of Excellence for Medical Education under the Partnership for Education of Health Professionals (PEP) program at the S.E.T. Facility

Sl	Date	Workshop title	No. of Participants attended
1.	15th April 2024	PPT Animation Workshop	12
2.	8th May 2024	From Symptoms to Diagnosis: Use of USG	25
3.	9th May 2024	SARAL Workshop	14
4.	11th May 2024	Precision in Practice: Needle Navigation using USG	18
5.	26th July 2024	From Symptoms to Diagnosis: Use of USG	17
6.	3rd August 2024	Precision in Practice: Needle navigation using USG	6
7.	14th August 2024	SARAL workshop	7
8.	7th September 2024	Precision in Practice: Needle Navigation using USG	12
9.	25th September 2024	CPR training workshop	15
10.	1st October 2024	Active learning through feedback and collaborative tools	22
11.	3rd October 2024	Researching student perspectives in digital education	19
12.	4th October 2024	AI in healthcare education	47
13.	5th October 2024	Blended Learning: Experiences and feedback	9
14.	26th October 2024	Precision in Practice: Needle Navigation using USG	17
15.	20th November 2024	Workshop on PPT Animation	13
16.	13th and 14th November 2024	“Workshop on Qualitative Research in Medical Education for AIIMS Faculty	21
17.	11th December 2024	Workshop on Moodle Quiz	17
18.	18th -19th December 2024	Workshop on Qualitative Research in Medical Education for AIIMS Faculty (Basic level)	23
19.	14th December 2024	Precision in Practice: Needle Navigation using USG	8
20.	4th to 6th February, 2025	Workshop on Qualitative Research in Medical Education for AIIMS Faculty (Advanced level)	28

21.	29th January 2025	From Symptoms to Diagnosis: Use of USG	15
22.	1st March 2025	Precision in Practice: Needle Navigation using USG	18
23.	22nd March 2025	Paediatrics Perioperative Cardiac Arrest-CME	60
24.	2nd and 3rd April 2025	Hands-on training of NVivo	6
25.	2nd May 2025	Workshop for protocol development	upcoming
26.	6th -7th May 2025	the Delphi Consensus Study – Essential Simulation Scenarios in Anaesthesia Training (ESSAT)	upcoming
27.	9th May 2025	Early Research Exposure (ERE): Nurturing Research Skills in Medical Students	upcoming

Glimpse of the activities conducted under PEP Program

7. OTHERS

Compression only Life Support-CPR Training for Laypersons (AIIMS employees)

- Total number conducted - 18
- Total students enrolled - 418

Basic Cardiopulmonary Life Support (BCLS)-CPR training of Technicians/Paramedics working at AIIMS

- Total number conducted - 08
- Total students enrolled - 136

BLS Training for Transfusion Medicine Staffs (SR, JR, Nurses, Paramedics & Technicians)

- Total number conducted - 04
- Total students enrolled–82

CRTP for Emergency Medicine Doctors and Nurses

- Total number conducted - 04
- Total students enrolled – 192

Evening Skill Training for Undergraduate Students at SET Facility

- Total number conducted - 16
- Total students enrolled - 129

BLS & ACLS Training INSIGHT Workshop

- Total number conducted - 02
- Total students enrolled - 111

Neonatal Resuscitation INSIGHT Workshop

- Total number conducted - 01
- Total students enrolled - 60

Obstetrics Skill Training INSIGHT Workshop

- Total number conducted - 01
- Total students enrolled - 38

Broad Medical Skill Training INSIGHT Workshop

- Total number conducted - 04
- Total students enrolled - 180

CAPFIMS: OSCE Screening for Nursing Officers

- Total number conducted - 07
- Total students enrolled - 122

Basic Life Support/Compression only Life Support Training (On Institute Day)

- Total number conducted - 01
- Total students enrolled - 131

Basic Life Support/Compression only Life Support Training for School Students(On Institute Day)

- Total number conducted - 01
- Total students enrolled - 60

Strengthening Primary Care for Critical Cancer Prevention (Public Health Nurses)

- Total number conducted - 01
- Total candidates enrolled - 62

Trainings at Skill Lab

WET Lab

1. **Undergraduate students**
   - Number of skill training sessions- 29
   - Number of students attending the various sessions-596
2. **Nursing and other Allied & Healthcare Courses Staff**

   HICCOM (Hospital Infection Control Committee) Induction Program
   - Number of Skill Training sessions - 12
   - Number of Nursing staff attended - 429
3. **Postgraduate students-**

   Workshop on Arthroscopy.
   - Total number conducted - 01
   - Total residents enrolled-10

   Workshop on Third Space endoscopy – Animal Model
   - Total number conducted–02
   - Total residents enrolled-20

   Pancreatic jejunal Anastomosis Workshop
   - Total number conducted - 04
   - Total residents enrolled - 20

   Training workshop "From symptom to Diagnosis" use of USG
   - Total number conducted - 02
   - Total residents enrolled - 40

   Workshop on "How to effectively use blended learning in your class"
   - Total number conducted - 01
   - Total residents enrolled - 14

   CME on Vascular IR
   - Total number conducted - 01
   - Total residents enrolled - 94

   EUS LAMS/FNB Workshop
   - Total number conducted - 01
   - Total residents enrolled - 10

   Hands on "Pead's perioperative cardiac arrest management"
   - Total number conducted - 01
   - Total residents enrolled–60

   a. Skill enhancing course in colposcopy and treatment of C/N
      - Total number conducted - 01
      - Total delegates enrolled – 73

   b. IAP Advanced Life Support Course
      - Total number conducted - 02
      - Total delegates enrolled – 88

   c. AIIMS ColoProctology Symposium 2024
      - Total number conducted - 01
      - Total delegates enrolled– 35

d. POEM Workshop

- Total number conducted - 01
- Total delegates enrolled– 04

e. Training on Pyeloplasty, Endo trainer, Robotic training

- Total number conducted - 01
- Total delegates enrolled - 15

Endo trainer

- Continuous training program
- Total residents attended- 279

Robotic training on Simulation

- Continuous training program
- Total residentsattended–124

Robotic technical training program

- Total number conducted - 01
- Total residentsattended – 01

4. MCh/MD/DM/Super specialty training courses-

f. HUGO RAS Simulation

- Continuous training Program
- Total delegates enrolled–53

g. HUGO RAS Tissue Workshop

- Total number conducted - 11
- Total delegates enrolled – 35

h. Robotic training on 3D Model – Microsurgery vascular anastomosis

- Total number conducted - 03
- Total delegates enrolled - 09

i. HUGO RAS Cadaveric Workshop

- Total number conducted - 13
- Total delegates enrolled - 37

j. Training on "Handheld Robotic Equipment

- Total number conducted - 02
- Total delegates enrolled–06

k. National conference of SELSI: Robotic Surgery

- Total number conducted - 01
- Total delegates enrolled - 40

l. Training on "Aesthetic Surgery Demonstration"

- Total number conducted - 01
- Total delegates enrolled - 20

m. Cadaveric Workshop

- Total number conducted - 03
- Total delegates enrolled–77

n. AIIMS Coloproctology Symposium 2024

- Total number conducted - 01
- Total delegates enrolled– 35

o. Stapler Anastomosis Workshop

- Total number conducted - 01
- Total delegates enrolled– 20

p. Training on Intravascular anastomosis

- Total number conducted - 01
- Total delegates enrolled – 03

q. Lap Cadaveric workshop on Kidney Harvestation

- Total number conducted - 01
- Total delegates enrolled – 18

r. Workshop on Recent Critical Care Management

- Total number conducted - 01
- Total delegates enrolled – 35

s. Trainingon Emergency medicine for paramedics

- Total number conducted - 01
- Total delegates enrolled– 43

t. Workshop on Endobronchial Ultrasound (EBUS)

- Total number conducted - 01
- Total delegates enrolled– 50

u. Cardiovascular research conference

- Total number conducted - 01
- Total delegates enrolled – 100

v. EEG, workshop hands on neurology

- Total number conducted - 01
- Total delegates enrolled - 100

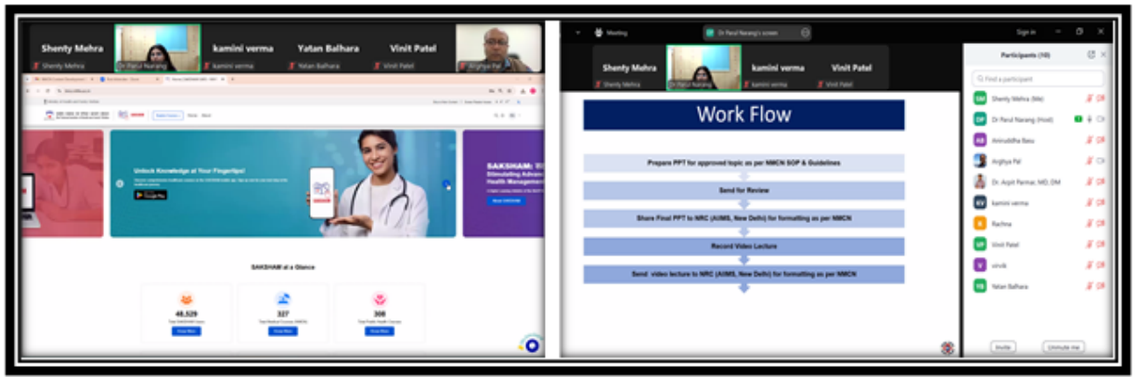
National Medical College Network (NMCN) Activities

Ministry of Health & Family Welfare (MoHFW), Govt. of India is implementing a green field project on e-health including Telemedicine on National Medical College Network (NMCN) for interlinking the Medical Colleges across the country with the purpose of e-Education and National Telemedicine Network for e-Healthcare delivery.

NMCN project is in the process to restructure and reform medical content available online and make quality education accessible to all medical professionals. A Learning Management Information System (LMIS)-**SAKSHAM** for undergraduate medical students has been created by MoHFW for this purpose. More than 150 leading medical colleges across India, including AIIMS (New Delhi, Bhopal, Rishikesh), PGIMER, Chandigarh, JIPMER, Puducherry are contributing towards content development for e-Learning.

NMCN-SAKSHAM



Courses Uploaded

Courses	**339**
Lessons	**495**

Faculty and Student Orientation Sessions

To orient the faculty about the e-Learning content creation, SOPs and guidelines, face-to-face and online sessions were conducted at NRC and RRCs. These sessions help to resolve the queries andunderstand the challenges faced by faculty. Furthermore, the interaction provides an opportunity for new ideas and suggestions from faculty.

1. Faculty orientation session with Psychiatry Faculty, NDDTC, 29th January 2025

2. Faculty Orientation Session at AIIMS, Rishikesh, January 17th-18th 2025

1. Student Orientation Session at AIIMS, Rishikesh, January 17th-18th 2025

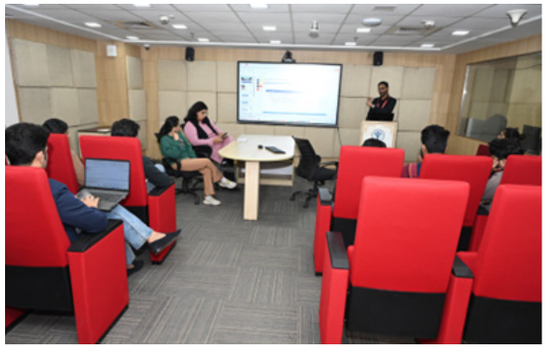
An engaging student-centered advocacy event was organized by AIIMS, New Delhi (NRC-NMCN), with support from Empower School of Health, to promote awareness and driveregistrations for the Saksham NMCN Learning Management Information System (LMIS). The initiative specifically targeted MBBS and Nursing students at AIIMS Rishikesh.Structured over two days, the event featured three interactive quiz sessions, each comprising two distinct formats: a preplanned quiz and an impromptu quiz. These sessions testedstudents' knowledge in medical and nursing education, while simultaneously

introducing them to the features and benefits of the Saksham NMCN LMIS. The dynamic quiz format encouraged active student participation, fostered a competitive yet educational atmosphere, and successfully generated interest in the platform among the future healthcare professionals.

Event Highlights & Impact

The event proved to be a resounding success, significantly boosting visibility and user engagement on the Saksham NMCN LMIS platform. • 162 new users registered for NMCN courses on the Saksham LMIS during the event period, marking a notable uptick in platform adoption. • Quizzes were enthusiastically received, with active participation from students across both Nursing and MBBS programs, indicating high engagement levels. • The event played a crucial role in raising awareness about the Saksham NMCN LMIS and its value in enhancing medical education through accessible, quality digital learning resources.

2. Faculty Orientation Session at AIIMS, Kalyani, December 14th 2025



Faculty Orientation Session at AIIMS, Rishikesh, 4-5th July 2024

Capacity Building and Refresher Trainings and Workshop

1. Refresher Training for the Content Development and Animation team at AIIMS, New Delhi 13th February 2025

3. **Refresher Training for the Animation and Content Development team at AIIMS, New Delhi, 28th May 2024**

Faculty from PGI Chandigarh and BHU visited SET Facility

Health Awareness Videos for AIIMS You Tube Channel

Under the Memorandum of Understanding (MoU) between AIIMS, Delhi and YouTube,21 health awareness videos on specific medical conditions are to be produced for dissemination via the AIIMS YouTube channel. This initiative aims to enhance public understanding of various health issues while addressing misinformation effectively. The videos will be available in both Hindi and English to maximize accessibility.

To date, 10 videos have been developed and are currently undergoing review and preparation for upload. These videos will serve as a credible source of medical information, ensuring that the public receives accurate and verified content from an authoritative institution.

Period from 01-04-2024 to 31-03-2025

Sl	Activities	Topics	Date	Viewers	Departments
1.	Clinical Combined Round (CCR)	Deciphering the Puzzle A Case of Unusual Neurological Decline & The Void: But Not Devoid of help!!	02-Apr-24	61	Geriatric Medicine & Orthopedics (Trauma Centre)
2.	Clinical Grand Round (CGR)	Cancer Associated Thrombosis	02-Apr-24	111	Hematology
3.	Clinical Combined Round (CCR)	Total skin electron beam therapy in cutaneous T-Cell lymphoma	09-Apr-24	39	Radiotherapy
4.	Clinical Combined Round (CCR)	One Change : Multiple effects	09-Apr-24	24	Ophthalmology
5.	Clinical Grand Round (CGR)	High cervical spinal cord injury- A lost cause or a glimmer of hope ?	09-Apr-24	28	Neurosurgery (Trauma Centre)
6.	Clinical Combined Round (CCR)	An interesting case of relapsing fever	16-Apr-24	390	Medicine Unit - II
7.	Clinical Combined Round (CCR)	Abdominal Angina : When all windows are closed, Surgeons can open the door	16-Apr-24	28	Surgery Unit - II
8.	Clinical Grand Round (CGR)	Oral cancer NCI - AIIMS Auditing Practice, Improving Outcomes	16-Apr-24	122	ENT
9.	Clinical Combined Round (CCR)	Connecting the dots (Multidisciplinary approach) to get “Crystal” clear “Minerals	23-Apr-24	233	Rheumatology
10.	Clinical Combined Round (CCR)	Placenta Accreta Spectrum (PAS) : Atypical presentation & Atypical management	23-Apr-24	46	Obstetrics and Gynecology Unit - I
11.	Clinical Grand Round (CGR)	Thoracic Injuries : Learnings over 15 years	23-Apr-24	194	Surgery (JPN Apex Trauma Centre)
12.	Clinical Combined Round (CCR)	Successful use of extra corporeal membrane Oxygenation (ECMO) in case of severe acute pancreatitis with ARDS	30-Apr-24	87	Anaesthesiology
13.	Clinical Combined Round (CCR)	Cystic Conundrum : Exploring Neurocysticercosis in the Insular region utilising intraoperative ultrasound	30-Apr-24	3	Neurosurgery Unit - II
14.	Clinical Pathological Conference (CPC)	Clinical Discussion : Dr. Rajdeep Singh MAMC, Delhi & Pathology Discussion : Dr. Rimlee Dutta	30-Apr-24	78	Surgery Unit - IV
15.	Clinical Combined Round (CCR)	tDCS Current of hope amidst fog of Melancholia	6-Aug-24	18	Psychiatry
16.	Clinical Combined Round (CCR)	Saga of a small leak in a Sinking Ship	6-Aug-24	83	Surgery Unit - V
17.	Clinical Grand Round (CGR)	Interventional Radiology in Managing Hemoptysis : Two decades of teamwork	6-Aug-24	68	Radio - Diagnosis

18.	Clinical Combined Round (CCR)	Conquering recurrent respiratory failure : A Journey	27-Aug-24	91	Pulmonary Medicine
19.	Clinical Combined Round (CCR)	Getting the monkey off the back	27-Aug-24	13	Orthopedics Unit -II
20.	Clinical Pathological Conference (CPC)	Clinical Discussion : Dr. Rajesh Gupta PGIMER Chandigarh & Pathology Discussion : Dr. Rajni Yadav	27-Aug-24	82	GI Surgery
21.	Clinical Combined Round (CCR)	Intrasaccular device for management of intracranial aneurysm: A Novel therapeutic option	03-Sep-24	134	Neuro-Radiology
22.	Clinical Combined Round (CCR)	Management of a complex case of post-traumatic left PCA aneurysm	03-Sep-24	36	Neurosurgery (JPNATC)
23.	Clinical Grand Round (CGR)	Targeted therapy in Lung Cancer : A prototype for precision medicine	03-Sep-24	202	Medical Oncology
24.	Clinical Combined Round (CCR)	Plasmapheresis as rescue therapy in graves' disease	10-Sep-24	140	Endocrinology
25.	Clinical Combined Round (CCR)	Damage control stenting	10-Sep-24	66	Plastic Surgery
26.	Clinical Grand Round (CGR)	Surgical blasphemy in hand surgery	10-Sep-24	41	Orthopaedics
27.	Clinical Combined Round (CCR)	From broad strokes to fine lines precision medicine's impact on childhood diabetes	17-Sep-24	47	Pediatrics Unit I
28.	Clinical Combined Round (CCR)	Metabolic Mysteries : Decoding the puzzle of hypoglycemia	17-Sep-24	28	Surgery Unit VI
29.	Clinical Grand Round (CGR)	Esophageal carcinoma : Evolution of management over a decade	17-Sep-24	63	Surgical Oncology
30.	Clinical Combined Round (CCR)	Constipation Catastrophe	24-Sep-24	129	Gastroenterology
31.	Clinical Combined Round (CCR)	Double trouble : Liver & Lung Hydatid cysts Challenges in management	24-Sep-24	19	G I Surgery
32.	Clinical Pathological Conference (CPC)	Clinical Discussion : Dr. Amita Suneja & Pathology Discussion : Dr. Ridhi Sood	24-Sep-24	65	Obstetrics and Gynaecology Unit - III
33.	Clinical Combined Round (CCR)	Too Less for comfort, Too High to Live an Elements "s TRYST	01-Oct-24	67	Emergency Medicine
34.	Clinical Combined Round (CCR)	Robotic hands, Healing nerves: The future of nerve Surgery	01-Oct-24	13	Surgery Trauma Center
35.	Clinical Grand Round (CGR)	Balancing two beats in single journey - heart disease in pregnancy	01-Oct-24	76	Obstetrics and Gynecology Unit - II
36.	Clinical Combined Round (CCR)	Fleeting Power : A Puzzling Case of Weak Muscles	08-Oct-24	140	Medicine Unit - I
37.	Clinical Combined Round (CCR)	Paraganglioma : Challenges	08-Oct-24	27	Surgery Unit - I
38.	Clinical Grand Round (CGR)	Childhood Inflammatory arthritis: Limiting disabilities	08-Oct-24	44	Pediatrics Unit - I

39.	Clinical Combined Round (CCR)	Uncommon cause of a common respiratory condition	15-Oct-24	53	Pediatrics Unit - III
40.	Clinical Combined Round (CCR)	Comprehensive management of pediatric head neck mucormycosis	15-Oct-24	19	ENT
41.	Clinical Grand Round (CGR)	Sage of a bloodless war against complex brain lesions	15-Oct-24	95	Neurosurgery Unit - II
42.	Clinical Combined Round (CCR)	A Tangled diagnosis in the “Milky Way	22-Oct-24	65	Hematology
43.	Clinical Combined Round (CCR)	Balancing Act - Navigating high stake challenges in pregnancy	22-Oct-24	41	Obstetrics and Gynaecology Unit - III
44.	Clinical Grand Round (CGR)	Establishment of fragility fracture liaison services in trauma Centre Challenges and Initial results	22-Oct-24	78	Orthopedics (Trauma Center)
45.	Clinical Combined Round (CCR)	Unraveling the complexity of familial kidney disease	29-Oct-24	57	Nephrology
46.	Clinical Combined Round (CCR)	Pheochromocytoma during pregnancy : walking a tightrope	29-Oct-24	30	Urology
47.	Clinical Pathological Conference (CPC)	Clinical Discussion : Dr. J C Suri & Pathology Discussion : Dr. Anubhav Narwal	29-Oct-24	71	Gastroenterology
48.	Clinical Combined Round (CCR)	Immunotherapy advanced soft tissue sarcoma Quantum of solace	05-Nov-24	163	Medical Oncology
49.	Clinical Combined Round (CCR)	Awake lung surgery : A New dawn	05-Nov-24	11	Surgical Oncology
50.	Clinical Grand Round (CGR)	Advances in the Management of acute variceal bleeding	05-Nov-24	388	Medicine Unit - III
51.	Clinical Combined Round (CCR)	Skin as a window to hematological malignancy : Scleromyxedema in context of Multiple Myeloma	12-Nov-24	41	Dermatology
52.	Clinical Combined Round (CCR)	The synergy of two	12-Nov-24	19	Surgery Unit IV
53.	Clinical Grand Round (CGR)	Breaking New Ground in Systemic Sclerosis : Diagnostic & Therapeutic Insights form AIIMS	12-Nov-24	40	Rheumatology
54.	Clinical Combined Round (CCR)	Unmasking the unusual navigating novelty in a common case	19-Nov-24	131	Medicine Unit - III
55.	Clinical Combined Round (CCR)	Does my sparkle confuse your mind ? Your truly, Adrenal	19-Nov-24	110	Surgery Unit - III
56.	Clinical Grand Round (CGR)	Flexin facts : Unveiling the Muscle mystery of sarcopenia	19-Nov-24	167	Medicine Unit - II
57.	Clinical Combined Round (CCR)	Brain on Fire	27-Nov-24	101	Neurology
58.	Clinical Combined Round (CCR)	Hirayama Disease - The Eminently treatable condition but often confused with MND	27-Nov-24	12	Neurosurgery Unit - I

59.	Clinical Pathological Conference (CPC)	Clinical Discussion :Prof. Puneet IMS BHU Varanasi Pathology Discussion : Dr. Sonali Dixit	27-Nov-24	16	Surgery Unit - IV
60.	Clinical Combined Round (CCR)	Blunt Cardiac Injury A tale of 2 Unusual cases	14-Jan-25	75	Cardiology
61.	Clinical Combined Round (CCR)	Travel of the Tumor form Kidney to Lungs	14-Jan-25	25	CTVS
62.	Clinical Grand Round (CGR)	Robotic thermocoagulative Hemisperotomy (ROTCH)-the technique of bloodless surgery of disconnection developed at AIIMS	14-Jan-25	48	Neurosurgery Unit - I
63.	Clinical Combined Round (CCR)	Gross hematuria : An Unusual missing link	21-Jan-25	33	Pediatrics Unit - I
64.	Clinical Combined Round (CCR)	Recurrent Intrathoracic Cyst: A Multidimensional challenge	21-Jan-25	32	Pediatrics Surgery
65.	Clinical Grand Round (CGR)	Xeroderma Pigmentosum : A closer look may help	21-Jan-25	53	Dermatology
66.	Clinical Combined Round (CCR)	A Cold Conundrum race against time	28-Jan-25	101	Emergency Medicine
67.	Clinical Combined Round (CCR)	Chylothorax unmasking the anchoring bias	28-Jan-25	20	Surgery (JPNATC)
68.	Clinical Pathological Conference (CPC)	Clinical Discussion : Prof. Apul Goel &Pathology Discussion : Dr. Anubhav Narwal	28-Jan-25	35	Urology
69.	Clinical Combined Round (CCR)	Threads of Complexity : Weaving Solutions for Elderly	4-Feb-25	18	Anaesthesiology
70.	Clinical Combined Round (CCR)	Triple Jeopardy Gap :: Non-Union :: Infection	4-Feb-25	12	Neurosurgery Unit - II
71.	Clinical Grand Round (CGR)	The Panorama of MEN Syndromes	4-Feb-25	30	Surgery Unit - III
72.	Clinical Combined Round (CCR)	Dose escalated SBRT in Unresectable carcinoma pancreas - A Glimmer of hope	11-Feb-25	80	Radiotherapy
73.	Clinical Combined Round (CCR)	Ectopia lentis with retinal detachment in a patient with habitus	11-Feb-25	14	Ophthalmic Sciences
74.	Clinical Grand Round (CGR)	Nutrition in CKD	11-Feb-25	43	Nephrology
75.	Clinical Combined Round (CCR)	Hunting for a Five-leaf Clover !	18-Feb-25	149	Medicine Unit II
76.	Clinical Combined Round (CCR)	Clean-Net : Bridging laparoscopy & endoscopy	18-Feb-25	17	Surgery Unit II
77.	Clinical Grand Round (CGR)	A fine balance : Unravelling a new treatable ataxia	18-Feb-25	57	Neurology
78.	Clinical Combined Round (CCR)	Myositis, Nephritis & Ulcerated skin : True mechanism & answers within !	25-Feb-25	31	Rheumatology

79.	Clinical Combined Round (CCR)	Pregnancy after renal transplant : Navigating the complexities	25-Feb-25	26	Obstetrics and Gynaecology Unit I
80.	Clinical Pathological Conference (CPC)	Clinical Discussion : Prof. Nisha Singh & Pathology Discussion : Dr. Ruchi Rathore	25-Feb-25	17	Obstetrics and Gynaecology Unit II
81.	Clinical Combined Round (CCR)	Silent storms in scrub typhus : Bedside EEG to the rescue	4-Mar-25	20	Anaesthesiology
82.	Clinical Combined Round (CCR)	Taming the Giants with Radiosurgery The Mask Man	4-Mar-25	39	Neurosurgery Unit II
83.	Clinical Grand Round (CGR)	Mainstreaming of breast Cancer Genetics : Need, challenges and our early experience	4-Mar-25	84	Surgery Unit III
84.	Clinical Combined Round (CCR)	Depression with severe blepharospasm : A Deep TMS approach	11-Mar-25	65	Psychiatry
85.	Clinical Combined Round (CCR)	Missing the forest for the trees	11-Mar-25	27	Orthopedics
86.	Clinical Grand Round (CGR)	Block on Arrival	11-Mar-25	140	Emergency Medicine
87.	Clinical Combined Round (CCR)	Lambda wave ECG - It's not so Greek after all !	18-Mar-25	28	Cardiology
88.	Clinical Combined Round (CCR)	Pre natal to postnatal continuum : Autograft solution for a congenital defect	18-Mar-25	30	CTVS
89.	Clinical Grand Round (CGR)	Knock, Know ! It's Nocardia : Eight Years of Experience	18-Mar-25	44	Microbiology
90.	Clinical Combined Round (CCR)	Tale of a child with an autoinflammatory syndrome	25-Mar-25	101	Pediatrics Unit I
	Clinical Combined Round (CCR)	Laparoscopy for pediatric pancreatic head tumour : The first total laparoscopic Whipple's procedure	25-Mar-25	18	Pediatrics Surgery
91.	Clinical Pathological Conference (CPC)	Clinical Discussion : Dr. Amit Khosla & Pathology Discussion : Dr. Seema Kashyap	25-Mar-25	48	Ophthalmology

Faculty contributing to various academic activities at the SET Facility by Director, AIIMS.

CLINICAL EPIDEMIOLOGY UNIT, AIIMS NEW DELHI (2024–2025)

Faculty-In-Charge

Anand Krishnan

The Clinical Epidemiology Unit serves as serve as an inter-departmental facility to build capacity in epidemiology, conduct relevant research. Its vision is to "Build Epidemiological Capacity of AIIMS Staff to Generate Evidence for Strengthening Patient Care at AIIMS". It undertakes multiple activities including Workshops, Guest Lectures, Open Houses.

1. Workshop On Cohort Studies: Design, Methods, And Analysis

The Clinical Epidemiology Unit conducted a full-day workshop series on "Cohort Studies: Design, Methods and Analysis" from 5 March 2024 to 2 April 2024, held on all Tuesdays at CMET Education Hall. The workshop received 29 registrations with 20 faculty members attending the sessions.

The resource faculty for the workshop were Dr. Anand Krishnan, Dr. Sumit Malhotra, Dr. Deepti Vibha, Dr. Harshal Ramesh Salve and Dr. M. Kalaivani. The series included expert guest lectures by extramural faculty covering key methodological and applied aspects of cohort studies as below:

a. Exposure measurement: single/repeated/environmental (Dr. Kameshwar Prasad)

b. Survival Analysis (Dr. RM Pandey, ICMR)

c. Introduction to Garbh-Ini Cohort (Dr. Shinjini Bhatnagar, THSTI)

d. Introduction to CARRS Cohort (Dr. D Prabhakaran, CCDC)

e. Introduction to Biobanking (Dr. Pallavi Kshetrapal, THSTI)

f. Data analytical challenges in cohort studies (Dr. Siddhartha Mandal, CCDC)

2. Workshop On Case-Control Studies: Design, Methods, And Analysis

The Clinical Epidemiology Unit conducted a half-day workshop series on "Case-Control Studies: Design, Methods and Analysis" from 21st January 2025 to 18th February 2025, held on all Tuesdays at CMET Education Hall. The workshop received 53 registrations with 24 faculty members and PhD scholars attending the sessions.

The resource faculty for the workshop were Dr. Anand Krishnan, Dr. Sumit Malhotra, Dr. Deepti Vibha, Dr. Partha Haldar and Dr. M. Kalaivani. The series included expert guest lectures by extramural faculty covering key methodological and applied aspects of case-control studies as below:

a. Mendelian Randomization (Dr. Gagandeep K Walia)

3. Open House: How To Frame A Research Hypothesis?

An Open House on "How to Frame a Research Hypothesis" was conducted by the Clinical Epidemiology Unit on 24 January 2025 (4:00–5:00 pm) at the CMET Technology Hall.

The resource faculty for the session were Dr. Deepti Vibha and Dr. Sumit Malhotra. It was attended by 63 participants and focused on practical guidance for developing clear and testable research hypotheses.

4. CEU also coordinates Fellowship in Research Methods and Evidence Based Medicine. During this period, three fellows were enrolled in the fellowship.

5. CEU also hosts the Census Data Workstation of the Delhi Census Office. It was used for analysis of Data Prevalence and Pattern of disability among Tribal population of West Bengal, Maharashtra, Tamil Nadu and Uttar Pradesh: A review of census data 2011

4. Examination Section

Dean (Examination)

Vijay L Kumar	CS Bal
(Up to 31.07.2024)	(w.e.f. 21.10.2024)

Associate Dean (Examination)

Naval K Vikram

Assistant Controller of Examination

MK Singh

Accounts Officer

Amit Kumar

The Examination Section of AIIMS, New Delhi stands as a cornerstone in the institution's academic infrastructure, meticulously orchestrating the entirety of examination processes with precision and diligence. Responsible for overseeing the entire examination lifecycle, from scheduling and question paper preparation to result processing and record management, this department ensures the seamless execution of assessments for medical students. With a commitment to upholding the highest standards of academic integrity and fairness, the Examination Section works tirelessly to administer exams in a controlled and secure environment, facilitating the evaluation of student's knowledge and skills accurately. Moreover, it plays a pivotal role in implementing policies and guidelines that align with the institution's academic ethos, fostering an environment conducive to learning and excellence.

The Examination Section is complimenting the fulfilment of trinity of Mission of the Institute of Bringing Education, Research and Patient Care to all economic and social sectors of the country without any disparity.

Through its unwavering dedication to good examination practices, regulatory compliance, continuous improvement initiatives, and student-centric approach, the Examination Section of AIIMS, New Delhi epitomizes excellence in medical education assessment, contributing significantly to the institution's esteemed reputation and the development of future healthcare professionals.

MISSION

Conducting examination and assessment of the All India Institute of Medical Sciences with precision, upholding the highest standards of education, quality and competence.

During the period 2024-2025, the Examination Section conducted the following Professional, Entrance and Recruitment Examinations:

A. POSTGRADUATE AND UNDERGRADUATE PROFESSIONAL EXAMINATIONS

Details of various undergraduate and postgraduate professional examinations conducted by the Examination Section, AIIMS New Delhi, from 1 April 2024 to 31 March 2025.

Details of Undergraduate Professional Examinations:-

Number of Exams conducted: 32

Number of candidates appeared: 737

Net death rate (%)	**1.1**	**1.4**	**1.9**	**2.4**	**0.0**	**0.09**	*Indicates low mortality rate despite the fact that quite large no. of critically ill patients are admitted to the Hospital.*
Combined crude infection rate(%)	0.55-15.14%	7.4%	-	-		-	

6.1 Medical Records Department

Officer Incharge

Nishant Sharma

Medical Record Officer & Sub Registrar (Births & Deaths)

Devanand Sharma

COVID-19 (Pandemic)

The role of **Medical Record Section** is to accumulate the Covid-19 data from the wards of Main Hospital to compile and send to the several agencies and departments of Govt. of India for eg. IDSP, DGHS, DC south, Death Audit Committee, Health care workers, line listing and uploading the information on Covid-19, Data management portal etc. on the daily basis even on Sundays and Gazetted holidays.

Education

Nine Medical Record Technology students from Holy Family Hospital visited Medical Record Section, Main Hospital and a brief lecture was delivered on Medical Record Management at AIIMS by Medical Record Officer on 06-03-2025.

Trainings

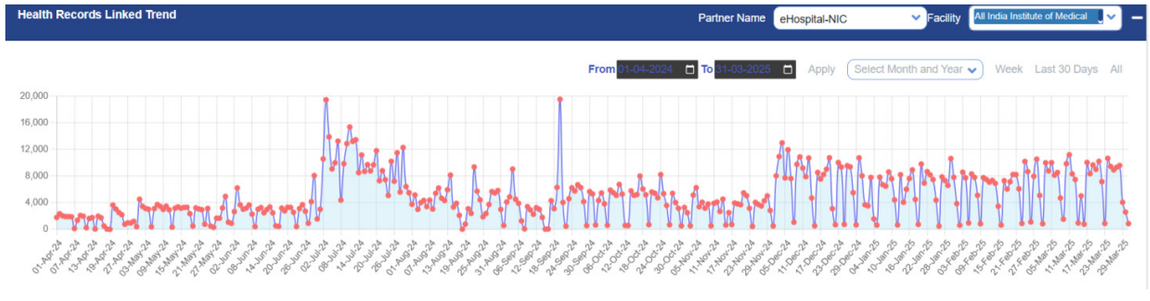
Mr. Subhash Chand, Medical Record Technician has been nominated for (Six months) Medical Record Technician Training Program w.e.f. 01/01/2025 to 30/06/2025 conducted at Ram Manohar Lohia Hospital, New Delhi organized by CBHI, Ministry of Health & Family Welfare, Govt. of India.

Court Attendance

A total number of **613** summons/ notices were received in the Medical Record Section (Main Hospital) from various Courts of Delhi and outside Delhi. The concerned doctors/ consultants (as per case) and staffs from the Medical Record Department have been deputed to attend the court on behalf of AIIMS Hospital to depose/settle the case.

AID in Medical Education and Research

Approximately **8074** Medical Case Records (Case Sheets) have been retrieved and issued to the Residents authorized by the concerned Consultants for research, education and other official purposes.



Computerization and Digitization of Medical Records

Digitization of Inpatient medical records of Main Hospital was started from the year 2014 for easy retrieval of records. More than 872312 images (current year 2024-25) case records of the patients have been scanned for future reference.

In-Patient Services

1. The yearly statistical health bulletin at a glance of Main Hospital, C.D.E.R. and C.N. Centre of AIIMS is given at Appendix-I.
2. The AIIMS hospital has maintained its tradition of services and quality of patient care in spite of increasing number of patients who visited the hospital from all over India as well as from abroad. A total number **181229** patients were admitted during the financial year in various clinical units of Main Hospital, C.N. Centre and C.D.E.R. The details of patient load as per Department-wise, State-wise and Gender-wise, Admissions, Discharges and Average Length of Stay are given at Appendix-II, III & V respectively. The details of deaths as per department-wise and its indices are given at Appendix- IV.
3. A total number of **178758** Surgical Procedures (Major and Minor) were performed during the year in various Surgical Disciplines of Main Hospital, C.N. Centre and Centre for Dental & Education Research (CDER) is given at Appendix-VI.
4. Medical Record of indoor patients are systematically classified and categorized for easy retrievals for the purposes of Education, Research/Thesis, Presentation, Insurance, Court Cases etc. These records are stored in the Compactors according to C.R. Numbers. All the In-patient records of Main Hospital, C.N. Centre and Centre for Dental & Education Research (CDER) are maintained separately by Medical Record Section of the Main Hospital.
5. A total number of 13384 patient treated under AB-PMJAY in the AIIMS Hospital.
6. A total number of 236230 ABHA ID created in AIIMS Hospital.

Health Record Linked Trend

Central Admission Office and Hospital Enquiry

1. The Central Admission Office & Enquiry (CAO&E) of AIIMS functions round the clock for 365 days without break.
2. All admissions to the inpatient areas of Main Hospital, C.N. Centre and C.D.E.R. are made through this office. It functions like the heart of the Institute and performing important functions like patient registration for initiation of Admission Slip (Face-Sheet) and issuing of attendant passes etc.
3. The Admission Office also gives information to several ministries as well as to the higher authorities of AIIMS about the hospitalization of VIPs/VVIPs.
4. In addition, the office also functions as a general enquiry providing prompt and accurate information regarding the patients and the Institute. The staffs working there are on shift duties and are manned by Medical Record Officer and Medical Record Technicians etc.

Out Patient Department and Specialty Clinics

A total number of **2268551 Patients** attended various General Out-Patients Department (OPD), Specialty Clinics and Emergency Department of the Main Hospital, AIIMS. The details of the out-patients load profile are given at Appendix-VII.

OTHER ACTIVITIES

S.No.	Name of activity	Total Numbers
1.	Amendments made in the Inpatients Records during the year	931
2.	Amendments made in the Birth Records during the year	696
3.	Amendments made in the Death Records during the year	624
4.	Admission & other charges exempted for Indigent patients and patients admitted under JSSK Scheme in Main Hospital & CDER	10890
5.	Admission & other charges exempted for Indigent patients and patients admitted under JSSK Scheme in C.N. Centre	1117 (CNC)

The statistical data for the year 2024–2025 (Annual Report) has been prepared/compiled by **MR. RAJBIR SINGH**, Medical Record Technician under the supervision of Medical Record Officer.

6.3 Medical Social Welfare Unit (H)

Chief Medical Social Welfare Officer

BR Shekhar

Chief Medical Social Welfare Officer

Pankaj Kumar

Highlights

The Medical Social Welfare Officer (MSSO) is an indispensable member of the 'Multi-professional Health Care Team' who creates a *therapeutic network* among Doctor, Patient, Family and Community.

The Medical Social Welfare Unit (H) is working under the supervision of Medical Superintendent since its inception in 1960 to provide social, psychological and financial support for patients and to alleviate distress while receiving treatment. The MSW Unit (H) has 16 Medical Social Welfare Officers (MSWOs) taking care of OPDs and Wards of 20 important Departments including National Centre for Ageing, Surgical Block, Burns and Plastic Surgery Block, Centralized Ayushman Bharat Kendra in the main hospital. 24x7 Emergency Social Welfare Services is also managed by MSW Unit (H).

World Social Work Day: World Social Work day 2025 was celebrated on 18 March 2025 with theme Strengthening Intergenerational Solidarity for Enduring Wellbeing' at Dr Ramalingaswamy Board Room. The event was graced with the presence of Director, AIIMS, Sh. Alok Kumar, Founder & Patron of Dadhichi Deh Dan Samiti, Professor Sanjay Rai, CCM, Dr. Jahanara, HOD, Department of Psychiatry, IHBAS and various dignitaries from AIIMS.

Collaborative Meeting- A collaborative meeting between AIIMS and Business Sweden to design a comprehensive training program for healthcare professional including Medical Social Workers working in Hospital setting across the country.

Meeting with YouWeCan- A meeting of Social Campaign YouWeCan at Hotel Pullman for Breast Cancer Patient. A Social Campaign to screen 2 lakhs Breast Cancer in India.

MoU with Fiem Foundation- The MoU was signed between AIIMS and Fiem Foundation for patient welfare project.

Wish granting initiative: Coordinated and organized the wish-granting of approx 400 children through 3 major events in AIIMS.

BPS Week- BPS week was celebrated in BPS block to bring awareness about burn.

Celebration with children: Diwali & Christmas celebration with gift distribution was organized in Pediatric Surgery Wards.

Education and Lecture delivered

1. Mr BR Shekhar, Chief MSWO, Mr. Anil Mali and Vivek Kumar Singh took orientation session for 30 students and one faculty member of Social Work from Yashvantrao Chauhan School of Social Work Maharashtra on 25 February 2025
2. Mr BR Shekhar, Chief MSWO attended annual seminar of Indian Cancer Society as a Panelist at India International Center, New Delhi and shared my insight on the Social Care of Cancer Patients

3. Mr BR Shekhar, Chief MSWO took a session on Medical Social Welfare Services for Assistant Hospital Managers of Madhya Pradesh Government at National Institute of Health and Family Welfare.
4. Mr BR Shekhar, Chief MSWO took a session and Group discussion on Medical Social Services for PGDM-Hospital Management Training Program at National Institute of Health and Family Welfare on 28 June 2024.
5. Mr BR Shekhar, Chief MSWO was invited as a Chief Guest for Training Course on Patient Care Management and Welfare for Medical Social Workers and Counselors from 24tt to 28th March 2025 at Department Of Social Sciences at National Institute of Health and Family Welfare.
6. Mr. B. R. Shekhar, Chief MSWO took a session on role of Medical Social Workers in Hospital setting for Medical Social Workers and Counselors from 24 to 28 March 2025 at Department of Social Sciences at National Institute of Health and Family Welfare for Training Course on Patient Care Management and Welfare for Medical Social Workers and Counselors.
7. Mr BR Shekhar, Chief MSWO, Ms Leema Maiti and Dr Kirti Arya attended Training Program NABH from 19 September 2024 to 21 September 2024 at AIIMS, New Delhi.
8. Mr Amit Kumar, MSWO was invited as esteemed speaker in CSR Health Impact Awards and shared views on the topic 'From potential to purpose: Unlocking CSR for NCD management with focus on cancer and Rare disease at Crowne Plaza, New Delhi.
9. Ms. Leema Maiti, MSWO took multiple sessions with Faculty, Residents, Nursing of various Departments/ Centres regarding AB-PMJAY.

PATIENT CARE

Patient care/supportive activities:

1. Cashless treatment of entitled AB-PMJAY scheme beneficiaries.
2. Exemption of hospital charges
3. Free medicines/surgical items by the hospital for indoor patients
4. Financial assistance through Umbrella Scheme of Rashtriya Arogya Nidhi (RAN), Prime Minister's National Relief Fund (PMNRF), Chief Minister's Fund, Delhi Arogya Nidhi (DAN), Vice-President's Fund and other such funds for medical treatment
5. Rehabilitation of Unknown/Without attendant/Destitute/Orphan patients
6. Resource mobilisation through government & non-government agencies
7. Counseling & Guidance to patients and their attendants as per the need & requirements
8. Railway concession to outstation patients as per government rules
9. Health education & awareness through Seminars, Lectures, one-to-one counselling, Group-work and IEC material etc.
10. Counseling & coordination for authorization of organ donors; and awareness/motivation to prospective organ donors.
11. Capacity building and sensitization of Social Work students and Healthcare professionals
12. Short-term and long-term Research activities to improve evidence-based practice
13. Management & supervision of the accommodation facilities at AIIMS Vishram Sadans
14. 24X7 Patient's Welfare Services in Department of Emergency

⇩

Senior Nursing Officer

⇩

Nursing Officer

Nursing service is an integral part of AIIMS, which aims at high quality nursing care to the patients and community. The professional nurses work in an environment that encourages professionalism and expertise in providing comprehensive patient care with the members of allied disciplines in the hospital.

Staff Strength

The main stratum of workforce in AIIMS is constituted by the well trained professional nurses from different departments. Staffing in nursing service is based on SIU (Staff Inspection Unit) norms in AIIMS.

Staff Strength in Hospital & Centers	
Chief Nursing Officer	01
Nursing Superintendent	06

Continuing Nursing Education (April 2024 - March 2025)

Nursing staff education is carried out throughout the year by in-service and continuing education programs to update the clinical knowledge of practicing nurses thereby aiming at improving standard of nursing care at AIIMS.

Nursing in-service education program

A well-structured in-service education program has been initiated since January 2011. Initially it started with twice a week class of one hour each, which was later on increased to thrice in a week. Two classes in a week are conducted for the bedside nurses (Nursing Officer and Senior Nursing Officer), where as one class in a week is for senior nurses (Sister In-charges and above).

Facilitator: Ms Nanki Rani (Actg) March 2024 to November 2024
Ms Suman R Kashyap w.e.f 1 December 2024 till date

Mentor: Ms ME Shobha Sampath

Educators: Ms Rebecca J Herald
Ms J Subbulakshmi

Ms CVasundhara Balaswamy – SB

Ms Manjulata Madhav – MCB w.e.f May 2024

Ms Aswathy MU – BPS till November 2024

Ms Tisha Mary Thomas - Main Hospital

Mr Radhey Shyam - SB

Ms Arpana Masih - NCA till November 2024

Ms Sheena Merin Jacob – NCA w.e.f December 2024

Mr Mukesh Kumar Saini - BPS w.e.f December 2024

I. In Service Education Weekly Classes

NIE sessions were conducted thrice a week on Monday, Wednesday and Friday from 11 am to 12 noon. The following topics were covered during the sessions.

- Management of Patient with Anemia
- Hypertension
- Health promotion – Diet & exercises
- Nursing Management of a critically ill patient
- Vaso active drugs
- Central Venous Access Devices
- Heat Related Illness
- Nursing management of patient on ventilator
- Management of patient with tropical infections
- Management of patient in shock
- Management of Patient with Stroke
- Common Emergencies
- Oncological emergencies
- Respiratory emergencies
- Cardiac emergencies
- Common medical emergencies
- Patient safety
- Health care Bundles
- Parkinson's Disease
- Elder Abuse
- Geriatric Nursing & NPHCE
- Legal aspects in nursing
- Poly pharmacy
- Resilience
- Team Dynamics
- Motivation

The total attendance of these 459 classes was 7500

II. Conferences and workshops Conducted By NIE

1. Workshop on Critical Nursing update conducted for 193 nurses working in critical care areas like ICUs, Emergency and other emergency wards in four batches (04) from June 2024 to July 2024.
2. Training on "International Patient Safety Goals" was conducted in 08 batches for 284 Senior Nursing Officers.
3. As per the instruction from MOHFW, a series of classes were taken for nurses on "Management of Heat Related Illness and on Monkey Pox Disease in all the blocks and centers. These sessions were taken in the month of May (Heat Related Illness) and a total of 211 nurses and in August (Monkey Pox). A total of 93 nurses were sensitized regarding the same.
4. A one day training on BLS and ACLS was given to 225 nurses in 08 batches through Department of Hospital Administration as a part of the requirement of NABH Entry Level Certification.
5. Demonstration & Training on various equipments like Cardiac Monitor, Ventilator & Defibrillator were conducted in five batches in Main AIIMS & its blocks for 149 Nursing personnel.
6. ANS promotional training program was conducted for 147 ANSs in five batches from 13th January 25 to 03 April 2025.

III. Credentialing

A total of 63 nurses were issued certificates of credit hours for registration renewal in Nursing Council.

IV. Induction Training

A well-structured induction program for the newly recruited nurses through NORCET VI and NORCET VII was carried out in October 2024 and March 2025 respectively in four batches for a total of 130 nurses on the following topics.

Theory	Skill stations	Other training
• Introduction to AIIMS & Nursing Culture at AIMS • Hospital Routines • Conduct Rules • Leave Rules • Patient Safety • NIS • Communication skills	Basic Nursing Procedures • Medication administration • Nebulisation & Common Equipments • Oxygenation & Suctioning • Intravenous Cannulation • Resuscitation cart	Basic Life Support

V. Conferences and workshops Coordinated By NIE along with College of Nursing, at SET/CMET, AIIMS, New Delhi.

Sl No	Name of the workshop	Date	Number of participants
1.	Mastering clinical excellence; Elevating nursing competency	14/10/24	30
2.	Workshop on world mental health day	09/10/24	28
3.	Breast cancer awareness	18/10/24	10
4.	Empowering nursing excellence; innovations and technology in health care	23/10/24	30
5.	Shift and drift: transforming stroke care through nursing excellence	11/11/24	30
6.	Empowering nursing excellence; advancing clinical competencies towards cancer screening and prevention	25/11/24	29
7.	Redefining boundaries; the future of nursing practice	11/12/24	27

Sl No	Name of the workshop	Date	Number of participants
8.	CNE program on world disability day	03/12/24	30
9.	Collaboration in care; building stronger teams	14/02/25	30
10.	Advancing clinical competencies; pressure injury prevention	17/02/25	30
11.	Every drop counts; building nursing excellence in infusion therapy	24/02/25	30
12.	Innovate, educate, immunize; nurses at the forefront	17/03/25	30
13.	Transforming kidney health through nursing excellence	19/03/25	30

A total of 364 nurses participated in the above mentioned workshops/conferences.

VI. Conferences and workshops Coordinated By NIE (In & Outside AIIMS)

During 2024-2025, nurses from different departments in main hospital attended several National and International conferences/ workshops.

S No	Name of the workshop	Date	Venue	Number of participants
1.	IAP- ALS certification course	18-19/05/24	SET	01
2.	Yoga workshop for nursing officers	19/06/24	CIMR	40
3.	COLS – CPR training for lay persons	7-8/08/24	SET	02
4.	IASG Mid term meet/CME, Delhi- 2024	13-14/07 24	JLN	59
5.	Training course on Management for Senior nursing administrators	27-31/08/24	NIHFW	02
6.	NABH training program	24-26/07/24 19-21/09/24	Pvt III Board room	18 05
7.	Self defense training	14-24/10/24	AIIMS	30
8.	Uro nursing symposium /Annual conference of Urological Society of India	29/11/24	HYAT regency Gurugram	03
9.	Training course on research methodology	10-14/02/2025	NIHFW	02
10.	Workshop on infection prevention and control practices	14/02/25	JPNATC	32
11.	Focused intensive care training for nurses	10/03/2025 17/03/25	JPNATC	40
12.	Rejuvenative Yoga	07/03/25	CIMR	30
13.	Self defense training	24/03/25 to 03/04/25	AIIMS	35
14.	Sensitization program & Pilot testing of training and awareness module on Assistive technology	28/03/2025	CHEB	10

A total of 309 nurses were sent for the above Workshops/Conferences.

VII. Cardiac Resuscitation Training Programme(CRTP)

A total of 238 Nurses were sent for training on Cardiac Resuscitation at SET facility twice a month from April 2024 to March 2025.

VIII. ORBO workshops

A total of 60 nurses in 3 batches were trained on Deceased Organ & Tissue Donation by ORBO at AIIMS, New Delhi.

IX. Organizing educational visits

Nursing educators in AIIMS conducted orientation programme for the following colleges.

S No	Name	Date	Programme	No of students/faculty
1.	AIIMS, CON, Kalyani, WB	20/12/24	MSc II year	04
2.	Bharti Vidyapeeth CON, Sangli, Maharasrta	29/03/25	BSc IV year	02

X. As facilitators/Resource persons

- Workshops organized by College of Nursing, New Delhi

XI. Deputation of nurses for higher studies

During the year 2023–2024, two nurses for PC BSc program and three nurses for Post graduation in Nursing have been enrolled.

XII. Public Awareness Program

Sl No	Topic	Date	Attended by
1.	Heat related Illnesses at SB	29/05/24	200
2.	Dental, Menstrual & Hand Hygiene, Atal Adarsh Vidyalay, Ansari Nagar West	20/09/2024	210
3.	General Etiquette for public in Hospitals/Hand Hygiene/ General waste disposal at IRCH	21/09/24	150
4.	Role play on polypharmacy at NCA OPD & SB	21/09/24	375
5.	Menstrual & Hand Hygiene/ General waste disposal/ General Etiquette at MCB	27/09/24	100
6.	World Mental Health Day	10/10/24	355
7.	Burns Prevention Week Programme	04-10/11/24	335
8.	General Etiquette in Hospital	27/3/2025	150
9.	Cervical Cancer Awareness Programme	28/3/2025	100

- "Mental Health Awareness Program" was conducted in NCA OPD on 10 October 2024. A public talk was given to 258 OPD patients regarding self-care and issues of mental health in the elderly.
- Burns Prevention week and Public lecture on the same was conducted in BPS block for a total of 335 OPD patients and attendants.

XIII. NABH training conducted by NIE at MCB & SB.

a. A total of 11 sessions for all nurses in MCB.

b. Two sessions for all nurses in Surgical Block.

c. Two sessions for all nurses in BPS

XV. Future vision for NIE:

Release of new resource material.

1. Emergency nursing manual for nurses as ready reckoner.
2. Increasing the period of induction for newly recruited nurses from three days to one month to give adequate training.

6.5 Infection Control Core Committee:

Members

1.	Dr. Nirupam Madan	Medical Superintendent, AIIMS & Chairperson
2.	Dr. Bimal Kumar Das	Professor, Dept of Microbiology & Co-Chairperson
3.	Dr. Rakesh Lodha	Professor, Dept of Pediatrics
4.	Dr. Rashmi Ramachandran	Professor, Dept of Anaesthesia

HICCOM core committee meets periodically to discuss day to day activities and interventions. HICCOM administrative rounds conducted periodically with infection control core committee, identified problems were discussed and rectified.

Activities of HICCOM

- HICCOM (Hospital Infection Control Committee) conducted training program for all health care workers, cadre wise regarding Infection prevention and control practices.
- Total 3063 health care workers were trained.
- HICCOM develops a written document (manual) outlining the various infection control policies and procedures followed at AIIMS and periodically updating it.
- HICCOM timely reviews and updates SOPs on Bio Medical Waste management, Needle stick injury, Spill management protocols and Disinfectant solutions in the form of charts. It is distributed and displayed in all clinical areas of AIIMS.
- Administrative rounds of clinical and non-clinical areas conducted by HIC.
- HIC actively involved in conducting rounds and documents verification by a team of CPCB (Central Pollution Control Board).

- HIC organized “Swachhata Pakhwada” activities like Nukkad-natak, Health talk for public awareness and attended rounds along with Addl. Secretary MOHFW.
- HIC is actively involved in organizing various activities related to “Kaya-Kalp” assessment and in conducting “Kaya-Kalp” rounds with a team of assessors and hospital administration.
- HIC is actively involved in commissioning of new / renovated units at AIIMS. Air sampling and water sampling is done before starting the unit.

Activities of Infection Control Nurses:

1. ICNs are collecting CLABSI, CAUTI, VAP and SSI data. Device associated infection rates are calculated on monthly basis. Data is analyzed and verified by Professor In-charge, Microbilogy. It is finally submitted to Member secretary of HIC and MRD section.
2. Daily rounds are conducted by Infection Control Nurses by using clinical area checklists and problems were rectified after discussing with the HIC.
3. Onsite training programs are conducted in the clinical areas as per the need.
4. Surveillance activities: environmental culture, sterility and In-use samples are collected from various clinical areas and reports are collected and distributed to all respective areas. ATP illuminometer and Air sampler machine is also used for the same purpose.
5. Maintaining incident report book: to record outbreaks, to monitor and to manage.
6. Maintaining the Daily report book for reporting.
7. The ICNs took sessions on Hand Hygiene, respiratory etiquettes and importance of personal hygiene for Kitchen staff of Main Kitchen.
8. The ICNs took sessions on Hand Hygiene, respiratory etiquettes, Cleaning / disinfection techniques and Bio Medical Waste management for Multi tasking staff of New RAK OPD, Mother & Child Block, Surgical Block and Main Hospital.
9. ICNs are monitoring hand –hygiene compliance and calculating the rates.
10. ICNs are actively involved in monitoring of Microwaves at Biotic Facility and Plasma sterilizers of various critical areas by exposing biological indicators.
11. The ICNs took sessions for various health care workers on solid waste management. (Dry and wet waste)
12. ICNs were actively involved as a resource person for training and development of guidance document on IPC including BMW management during public health emergencies with collaboration between USAID, JHPIEGO and AIIMS New Delhi. Total 70 health care workers were trained from various medical colleges of Andhra Pradesh, India.
13. ICNs were actively involved in Training of trainers on Hospital Infection prevention and control practices for nursing officers of Main Hospital, NCA Block, MCB, CDER, Surgery Block, BPS, Neuro-Sciences and AIIMS-CAPFIMSC Maidan-Garhi New Delhi.
14. ICNs are actively involved in conducting and organizing Hands on training sessions on Hospital Infection prevention and control practices for newly joined nursing officers of all the blocks of AIIMS at SET facility AIIMS.
15. The ICNs took sessions on infection control practices for nursing personnel organized by college of nursing AIIMS.
16. ICNs took active participation in “Swachhata Pakhwada” activities and organized various activities for all the health care workers.
17. Sensitization on hand hygiene, PPE, spill management and needle stick injury protocols, personal hygiene, loading of BMW trolleys according to the BMW rules were emphasized to Biotic workers, sanitary attendants, security guards, kitchen staff and hospital attendants.
18. ICNs are attending HICCOM meeting whenever required by HICCOM core group members and involved in sensitizing the dynamic guidelines on Environmental cleaning to increase the frequency of disinfection of all surfaces (Low touch and high touch areas), disinfection of items and correct dilution of disinfectant solutions.

Surveillance Samples collected during April 2024- March 2025

(Main Hospital, AIIMS)

Monthly surveillance data for surgical units and ICUs are calculated and submitted to MRD section. Annual combined data analysis of surgical units and ICUs are calculated and distributed to Professor Dr. Bimal Kumar Das, Professor Microbiology and Co-Chairperson Hospital infection Control, Professor Dr. Nirupam Madan, Medical superintendent AIIMS,

Mrs. Nanki Rani, Chief Nursing Officer, Dr. Vijaydeep Siddharth, officer in-charge of infection control from hospital administration and to Medical Record section.

Mrs. Evangelin Vasanth Mrs. Suman R Kashyap Prof. Bimal Kumar Das

ANS (HR) HICCOM Chief Nursing Officer Deptt. Of Microbiology

Highlights

- Organized Regional SoMI Conference at AIIMS Delhi- Redefining Midwifery for India: Meeting Challenges of Women's Health
- Organized 1st National Conference on Psychotherapeutic Assessments and Interventions in Psycho-Oncology (NCPO-2025) in collaboration with Department of Psychiatric nursing
- Organized Capacity Building Program on Strengthening the Nursing Cadre in Cervical and Breast Cancer Prevention, Detection and Cancer Care through the ECHO Model for 2 months from 14 Jan- 20 March 2025
- Initiated an online blended learning course of one-month duration on "Communication for Nursing officers" on SARAL platform
- Ongoing Partnership on Nursing Education and research between AIIMS College of Nursing and Danish University Colleges
- Organized Breast feeding, Infant and young child feeding – Lactation counselor training program.
- Organized Training of Trainers on Metabolic Dysfunction associated Steatotic Liver Disease (MASLD)
- Organized "Diabetic Retinopathy Awareness and Care: Practical Course" for Nursing faculty across India and BSc Nursing students of AIIMS, New Delhi
- Organized series of 10 Inservice education workshop for nursing officers at AIIMS, New Delhi
- Various World Health days were observed like National safe motherhood day, International Nurses Day, World Disability Day, International Yoga Day, World Suicide prevention day, World Heart Day, World Cancer Day, World stroke day, World Mental health day, World kidney day, World Tuberculosis Day
- Student Development programs: Sports day and Annual College Day was organized for the students. Students participated in Institute Day Celebration, Blood Donation camps, Mental health day, Hindi essay writing competitions.
- Faculty Clinical Update has been conducted every Wednesday.

Lectures delivered at CMEs, National and International Conferences

Shashi Mawar

1. Qualitative approach methods, Nursing research society of India, May 2024, Dehradun
2. Tools for data collection in qualitative study, Workshop on qualitative research, 9 August 2024, Delhi
3. Donor experiences: understanding of a nurse, 44th congress of Society of International urologist conference, 26 October 2024, Delhi
4. Human milk banking, PNNFI 5th conference, Lucknow
5. Transition from hospital to home care, IACTS, 21 February 2025, Delhi
6. Motivation, Management workshop, 22 October 2024, Delhi
7. Conflict Management, Management workshop, 6 July 2024, Delhi
8. Screening and early detection of Kidney diseases, Transforming kidney health through nursing excellence, 19 March 2025, Delhi

Sibi Riju

1. Highlighting the transformation in stroke care through nursing excellence, Shift and Drift: Transforming Stroke care through Nursing Excellence, 11 November 2024, Delhi
2. Nursing Clinics, Redefining Boundaries: The future of nursing practice, 11 December 2024, Delhi
3. General concepts in ICU Nursing, Young India Intensivists webinar, 1 December 2024, Delhi
4. Advancing nursing care in thrombophillia management and DVT prevention, National haematology update-XIII, 4 February 2025, Delhi

Ms. Aditi P Sinha

1. Holistic Healing in oncology (Chairperson), "National Conference on Psycho-therapeutic Assessment and Intervention in Psycho-oncology", 3-5 January 2025, New Delhi
2. Cardiac damage in Autoimmune Disorder (Chairperson), "71st Annual Conference of the Indian Association of Cardiovascular Thoracic Surgeons (IACTSCON)", 21 February 2025, New Delhi
3. Skill Station for Negative Pressure wound therapy, 1st International Wound care Certificate course, 20 February 2025, New Delhi
4. Organizing Team, Cervical and Breast Cancer Prevention, Detection and Cancer Care Capacity Building ECHO for Nursing Professionals in Delhi, 14 Jan-27 March 2025, New Delhi
5. Midwifery education: Opportunities, Challenges and Solutions (Chairperson and Organising team), Regional conference of Society of Midwives, Redefining Midwifery for India : Meeting Challenges of Women's Health. 7-8 October 2025, New Delhi
6. Organising Team, Shift and Drift: Transforming Stroke care through Nursing Excellence, 11 November 2025, New Delhi
7. Attended Training, Training Course on Management for senior Nursing Administrators, 27-30 August 2025, New Delhi

Ujjwal Dahiya

1. Diagnosis and Treatment of UTIs, 9th SIU Global Nurses Educational Symposium 44th Congress of the Société International d' Urologie (SIU) from 23-26 October 2024, 26 October 2024, New Delhi

2. Mobile ICU- Advancing critical care nursing services on the move, Empowering Nursing Excellence: Innovation and Technology in healthcare, 23 October 2024, New Delhi
3. Exploring new frontiers in Nursing care for blood cancer and palliative support, National Haematology Update XIII, CME on Haematology nursing, 1 February 2025, New Delhi
4. Disease Evaluation: Screening and Diagnoses Breast Cancer, Goa Nursing Council Breast Cancer Diagnosis and Management of Breast Cancer CMB ECHO Cancer Care Program, 18 February 2025, Online
5. Tackling the Intricate Connections Between Obesity, Diabetes and Heart Disease, IACTS 2025 Nursing symposium, 21 February 2025, New Delhi
6. Introduction to Surgical Management Breast Cancer, Goa Nursing Council Breast Cancer Diagnosis and Management of Breast Cancer CMB ECHO Cancer Care Program, 4 March 2025, Online
7. Nursing Leadership and Supervision, ANS promotional training for Senior Nursing officers w.e.f. 27 February 2025 to 12 March 2025, 6 March 2025, New Delhi

Cecilia MS

1. Breastfeeding and infant and young child feeding – 8 topics, Capacity building training program for developing middle level trainers, 27 May-2 June 2024, Delhi
2. Novel Techniques in Advanced Health Monitoring: A boon to Nursing Care, Empowering Nursing Excellence: Innovation and Technology in Healthcare, 23 October 2024, Delhi
3. Breastfeeding and infant and young child feeding – Lactation counsellor training, BPNI, Lactation counsellor course, 18 November 2024, 24 November 2024, Delhi
4. Transport of sick newborn, NEOCON 2024, 6 December 2024, Chennai
5. Overview of self-care management among pregnant women, Transferring evidence to inform policy and practice in local context: What digital health tools can promote self-care management among pregnant women, 3 February 2025, Delhi
6. Feeding practices in cleft conditions, Workshop on empowering providers with feeding strategies for cleft care, 7 March 2025, Delhi

Manju AK Rajora

1. How to write review of literature (invited, couldn't go due to sickness), 5th International Conference on Advancing Nursing through innovation, research and digital health, 27 March 2025, New Delhi
2. Relief of Choking in an adult or child, AHA BLS-ACLS, 19-21 November 2024, New Delhi
3. Special considerations Mouth to Mouth-to-mouth breaths and rescue breaths, AHA BLS-ACLS, 23-25 July 2024, New Delhi

Levis Murry

1. Role of Fortifiers, supplements and Probiotics in neonates, 10th Annual Conference of IANN, 06 October 2024, Delhi
2. Neonatal Resuscitation, Pre-conference workshop on Neonatal Resuscitation, 5 October 2024, Delhi
3. Pediatric BLS, Workshop on pediatric BLS, 10 December 2024, Ballabhgarh
4. Infection Prevention, Hand Hygiene, and Waste Disposal, Facility-Based ENBC Course, 6 December 2024, Delhi
5. Medication error, Workshop on Building nursing excellence on safe infusion practices, 17 February 2024, Delhi

Smita Das

1. Introduction to safe infusion practice, Every drop counts: Building nursing excellence in safe infusion practice, 17 February 2025, New Delhi

2. Medical Simulation faculty, Medical Simulation-Faculty Development Programme, Puducherry, 6 February 2025, Puducherry, India
3. MASLD and Heart Disease, TOT on MASLD, 9 December 2024, New Delhi
4. National Coordinator, Simulation for Nurses in Acute Pediatrics (SNAP) Workshop, 31 August 2025, Pune

Ajesh Kumar TK

1. Understanding the Interdisciplinary Team in Health Care, Inservice education programme on Collaboration in Care: Building Stronger Teams, 14 February 2025, New Delhi
2. Moderator for the panel discussion on "The Intersection of Care: Psychological Health, Interdisciplinary Teams, and Technology in Psycho-oncological Nursing", National Conference on Psychotherapeutic Assessments and Interventions in Psycho-Oncology, 4 January 2025, New Delhi

Tarika Sharma

1. Ensuring Safety, Enhancing Science: Best Practices for a Risk-Free Laboratory, Science Day Celebration at Institute of Home Economics, Delhi University, 27 February 2025, Delhi
2. Infusion Safety Standards, Workshop on Every Drop Counts: Building Nursing Excellence in Infusion Therapy, 24 February 2025, New Delhi
3. Intravenous fluids, Antibiotics and Blood Products, Critical Care Nursing (Online class) by Young India Intensivist, 23 February 2025, Online
4. ECG Interpretation and Clinical Management: Bridging Diagnosis and Patient Care, Transforming cardiac outcomes through comprehensive Nursing Care, 21 January 2025, New Delhi
5. Concept, Definition and Epidemiology of Metabolic Dysfunction associated Steatotic Liver Disease, Training of Trainers on Metabolic Dysfunction associated Steatotic Liver Disease, 9 December 2024, New Delhi
6. Metabolic Dysfunction associated Steatotic Liver Disease-associated Cirrhosis, Training of Trainers on Metabolic Dysfunction associated Steatotic Liver Disease, 9 December 2024, New Delhi
7. Advancements in Pediatric Interventional Cardiology, National Cardiac Conclave by Society of Cardiac Nurses, 29 September 2024, AIIMS, Nagpur
8. Artificial Intelligence in Healthcare, A Revolutionary Era towards upgrading Nursing Professions, 28 August 2024, Haryana
9. Transformational Leaders in the Perioperative setting, Excellence in Perioperative Nursing Practice: Establishing Culture of Safety, 18 May 2024, Bathinda

Anubha Devagourou

1. Specific Nursing care for patients undergoing urological surgeries. URO Nursing North Zone Conference, 29 November 2024, Delhi
2. AKI and CRRT in ICU, 1st International Nursing Conference on Paediatric Cardiac Intensive Care, 1 February 2025, Muddenhalli

Mamta Choudhary

1. Challenges in management of burns, Advanced Emergency Burns Management Training Program' by Ministry of Health and family welfare and burns and plastic Surgery Centre, 11 March 2025, India
2. Overview of Nursing Research, Continuing Nursing Education Program by Department of LHMC & Smt. S K Hospital, 3 March 2025, New Delhi
3. Challenges in management of burns, Advanced Emergency Burns Management Training Program' by Ministry of Health and family welfare and burns and plastic Surgery Centre, 28 February 2025, New Delhi
4. How to start a research project -, 44th Congress of the Société International d' Urologie (SIU), 26 October 2024, New Delhi

5. Diabetic retinopathy screening- Principles and importance, “Diabetic Retinopathy Awareness and Care: Practical Course”, 4 September 2024, New Delhi
6. “Integrative and Holistic approaches to cardiac care”, National conference of Society of Cardiac Nurses (SOCN), 29 September 2024, Nagpur
7. Diabetic retinopathy screening- Principles and importance, “Diabetic Retinopathy Awareness and Care: Practical Course”, 18 April 2024, Nagpur

Seema Sachdeva

1. skill station on ‘Suturing skill’ in wound management, 1st International Wound Management Certificate Course, 20-21 February 2025, Delhi
2. Prevention and management of Pressure Injury, In service education workshop on Pressure ulcer injury prevention, 17 February 2025, Delhi
3. Stoma care using evidence based practice, Annual conference by Urological Society of India, 2 November 2024 to 1 December 2024, Gurugram
4. Basic life support course as instructor, BLS provider course, 24 August 2024, Gurugram
5. Advance cardiac life support course as instructor, ACLS Provider course, 25 August 2023, Gurugram

Monika Sabarwal

1. Reducing Compassion Fatigue in Nurses through Mindfulness Practices, In-service Education Workshop, 11 November 2024, New Delhi
2. Communication and soft skills in ICU, 1st Annual Critical Care Nursing Conference and Workshop, 15 December 2024, New Delhi
3. Identifying patients with mental health condition among cancer patients, National Conference on Psychotherapeutic Assessment and Integration in Psycho oncology, 4 January 2025, New Delhi

Savita

1. Session on safe delivery App on Safe motherhood day, 11 April 2024, New Delhi
2. Inter college Quiz competition, Breastfeeding week celebration, 2-7 August 2024, New Delhi
3. National workshop of SOMI, 7– 8 October 2024, New Delhi
4. Inservice education workshop, Empowering nursing excellence: Advancing clinical competencies towards cancer screening and prevention, 25 November 2024, New Delhi
5. Women and Health, 71st Annual Conference of the Indian Association of Cardiovascular Thoracic Surgeons, 20-23 February 2025, 21 February 2025, Delhi

RESEARCH

Funded projects

Ongoing

1. A descriptive study to assess predictors of low milk volume among mothers of preterm admitted in a tertiary care facility. Ms. Suman, Project code- (A-895), Intramural funded project under early career development. Research section- AIIMS-ND, 2 Years, 2024-2025, Rs 4,62,000
2. A pilot study to investigate the effectiveness of Digital health interventions on physical activity and quality of life among hemodialysis patients at AIIMS, New Delhi. Dr. Manju Rajora, Research section, AIIMS, New Delhi, 2 Years, 2025-2027, Rs 6,85,000
3. A Randomized Control Trial to compare the effectiveness of Nurse-Led Mobile App-Based Intervention vs Routine Care on Knowledge, Initiation of Breast Feeding, and Exclusive Breastfeeding among mothers delivering in selected hospital. Latha Venkatesan, AIIMS, 2 Years, 2025-2027, Rs 8 Lakhs
4. AIIMS- UCL, London Project on "Transferring Evidence to Inform Policy and Practice in Local Context: What Digital Health Tools can promote Self-care Management among pregnant women?", Dr. Latha Venkatesan, AIIMS-UCL, 1 Year, 2024-2025, Rs 5 Lakhs
5. Communication for Nursing Officers (Online blended course at SARAL platform), Dr. Shashi Mawar, Monika, PEP phase 1, 2 Years, 2023-2025, Rs 43,116, 691
6. Virtual simulation vs traditional teaching methods in nursing education to assess self confidence and critical thinking among Nursing students, Dr Shashi Mawar, PEP phase 1, NNF, SET facility, 3 Years, 2023-2025

Completed

1. "Assessing the Coverage, Utilization, and Impact of the Ayushman Bharat Scheme among Rural Women in Selected States of Northern India", Dr. Latha Venkatesan, ICSSR, 1 Year, 2023-2024, Rs 14 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. "A Quasi-experimental study to assess the impact of family centered care intervention on the practices and attitudes of staff nurses and parents in pediatric surgery ward AIIMS New Delhi"
2. "A randomized control trial to assess the effect of Digital Interactive Programme (DIP) on quality of life and treatment adherence among patients with Mechanical heart valve replacement in a tertiary care hospital."

3. "A Randomized control trial to compare the effectiveness of thermo mechanical stimulation versus standard treatment on reduction of pain level among cancer patients receiving intra-muscular chemotherapy injections."
4. "A Randomized Controlled Trial (RCT) to assess the effect of Nurse-led nutrition and exercise intervention on nutritional status, activities of daily living and quality of life among patients with gastrointestinal cancer at IRCH, AIIMS New Delhi."
5. A Case Control Study to explore the feeding problems and challenges faced by Parents of Children with Cerebral Palsy
6. A Comparative Study to Analyze the Effectiveness of Standard Teaching vs Simulation Based Method of Teaching upon ABG Analysis & Interpretation Competencies among Nursing Students of AIIMS, New Delhi.
7. A comparative study to assess awareness, perception and behavior of medical and non-medical college going young adults regarding HPV vaccination.
8. A Comparative Study to Assess Awareness, Perception, and Behaviour of Medical and Non-Medical College-going Young Adults Regarding HPV Vaccination.
9. A Comparative study to Assess the Breastfeeding Practices of Mothers with Normal Vaginal Delivery Versus Mothers with Cesarean Section Admitted in Postnatal Ward at AIIMS, New Delhi.
10. A Cross Sectional Study to Assess the Association Between Screen Time and Sleep Quality among Undergraduate Nursing Students of the College Of Nursing, AIIMS, New Delhi.
11. A cross-sectional study to assess the association between screen time and sleep quality among undergraduate nursing students of the College of Nursing, New Delhi
12. A descriptive cross sectional study to assess the knowledge and attitude about HPV vaccine among the students of BSc (H) Nursing at AIIMS, New Delhi.
13. A descriptive cross-sectional study to assess the contributing factors for insomnia and its association with health status in elderly attending geriatric OPD, NCA, AIIMS, New Delhi.
14. A descriptive study on root cause analysis of revisits of children (Neonate to 18 years) in pediatric Emergency department at AIIMS, New Delhi.
15. A Descriptive Study to Assess Knowledge Regarding Premenstrual Syndrome (PMS) and Premenstrual Dysphoric Disorder (PMDD) and Their Impact on Activity of Daily Living Among Nursing Students at AIIMS, New Delhi.
16. A descriptive Study to assess the attitude, Knowledge, Practices and Challenges regarding Palliative Care among Primary Care Givers of Spinal Cord Injury Patients with a view to develop an Informational Video at JPNATC, AIIMS, New Delhi.
17. A descriptive study to assess the contraceptive preferences among the women of reproductive age attending gyne OPD, CRHSP Ballabgarh.
18. A descriptive study to assess the knowledge, attitude and practice regarding e-waste reduction among nursing students, AIIMS New Delhi.
19. A descriptive study to assess the perimenopausal symptoms and its impact on quality of life and coping strategies among registered nurses AIIMS, New Delhi
20. A descriptive study to assess the prevalence, characteristics, Impact and management approaches among nursing and para- medical students at AIIMS, New Delhi.
21. A descriptive study to assess the Visual Acuity, vision related Quality of Life (QoL) and Patient Related Outcome Measure (PROM) among patients with diabetic retinopathy with an intent to develop a care module.
22. A descriptive study to explore the feeding problems, its impact and challenges faced by parents of children with cerebral palsy at AIIMS, Delhi
23. A mixed method study to explore the prevalence of utilization of nursing process and factors affecting its utilization among nursing officers working at AIIMS, New Delhi"
24. A mixed method study to explore the status of utilization of nursing process and factors affecting its utilization among Nursing officers working at AIIMS, New Delhi.
25. A phenomenological study to explore the lived in experiences, challenges and coping strategies faced by parents of children With Mucopolysaccharidosis.

26. A qualitative study to explore lived experiences and perspectives of parents in parenting a child with kidney transplantation at AIIMS, New Delhi.
27. A qualitative study to explore the Lived Experiences of Transgender Individuals on Healthcare services at AIIMS, Delhi.
28. A quasi-experimental study to assess the effect of Table top exercises vs didactic lecture on knowledge and skills regarding hospital disaster preparedness among nursing students at AIIMS, New Delhi.
29. A Randomised controlled trial to assess the effectiveness of vitamin C and alkasol in change of Urine pH to prevent UTI in perioperative females admitted in Neurosurgical ward at AIIMS, New Delhi.
30. A randomized control study to assess the effectiveness of family and patient education using a video-based teaching on knowledge and pre-procedural anxiety of family members and Patients undergoing EEG at AIIMS, New Delhi.
31. A Randomized Control Trial to Assess the Effectiveness of Patient Centred Transitional Care Model (PCTCM) on Self Efficacy, Health Literacy and Adherence to treatment (SeHAt)of Patients who underwent valve replacement surgery at AIIMS, New Delhi
32. A randomized control trial to assess the effectiveness of virtual reality on pain and anxiety during vascular cannulation among patients undergoing hemodialysis at AIIMS, New Delhi.
33. A Randomized control trial to compare the effectiveness of thermo mechanical stimulation versus standard treatment (Ice-packs) on reduction of pain among cancer patients receiving intra-muscular chemotherapy injections.
34. A randomized controlled trial to assess the effectiveness of MRI noise simulation on anxiety, co-operation and satisfaction among patients undergoing for neuro imaging at AIIMS Delhi.
35. A retrospective study to identify the pathways, barriers and facilitators towards access to tertiary renal care among parents of children with chronic renal disorders at AIIMS, New Delhi.
36. A study to assess effectiveness of couple-based intimacy enhanment intervention to improve marital intimacy and sexual communication between partners of Carcinoma breast patients in Selected tertiary care hospital.
37. A study to assess effectiveness of parent child integrated palliative care model on symptoms, burden and quality of life among Paediatric cancer patients in AIIMS DELHI
38. A study to assess family perception regarding end of life care and caregiver burden in terminally ill with oncological illness at tertiary hospital, AIIMS New Delhi & NCI Jhajjar.
39. A study to assess the Adaptation to Post-Graduate Nursing Education Course among MSc Nursing students at AIIMS, New Delhi.
40. A study to assess the association of perceived stigma with quality of life and coping strategies, among caregivers of patients with severe mental illness getting treatment at tertiary Care hospital.
41. A Study to Assess the Awareness and Willingness regarding Contraception among Females with Preexisting Cardiac Conditions at AIIMS, New Delhi.
42. A study to assess the effect of mobile health- based app on symptomatic self- management and medication adherence among patients with leukemia at AIIMS, New Delhi.
43. A study to assess the effectiveness of competency-based ECG training on knowledge and diagnostic accuracy of emergency nurses in identifying ST segment elevation myocardial infarction (stemi) among patients presenting with chest pain at AIIMS, New Delhi
44. A study to assess the effectiveness of couple-based intimacy enhancement intervention to improve marital intimacy and sexual communication among partners of Carcinoma breast patients in a selected tertiary care hospital.
45. A Study to Assess the Effectiveness of Didactic Lecture Vs Table Top Excises on the Knowledge & Skills among Nursing Student with regard to Hospital Disaster Preparedness at AIIMS, New Delhi
46. A study to assess the effectiveness of green tea (Camellia sinensis) based mouth rinse on oral health status, pain and quality of life among advanced head and neck cancer patients in a tertiary care centre-Randomized controlled trial.

47. A study to assess the effectiveness of IEC package regarding Heimlich maneuver on competency and knowledge in providing first aid for foreign body airway obstruction among caregivers of children visiting Pediatrics OPD.

48. A study to assess the effectiveness of informational booklet on human milk donation on knowledge and attitude among postnatal mothers at gynaecology ward of mother and child health block, AIIMS, New Delhi.

49. A study to assess the effectiveness of nurse driven Enhanced Recovery After Surgery Programme (ERAS) on Quality of Recovery, Patient Satisfaction, and Hospital Stay of patients Undergoing Renal Transplant at AIIMS, New Delhi.

50. A study to assess the effectiveness of nurse led Exposure Keratopathy prevention protocol on incidence of Exposure Keratopathy among patients admitted in intensive care units of Tertiary Care Hospital - a feasibility study.

51. A study to assess the effectiveness of Nursing intervention package on biophysiological parameters, behavioural pattern and quality of life (QOL) among CKD children with hypertension at AIIMS, New Delhi.

52. A study to assess the effectiveness of oral hygiene training on brushing techniques among children of age group 8-12 years at selected school, New Delhi

53. A study to assess the effectiveness of Simulation Based Training on Knowledge and Clinical skills of Nursing officers regarding respiratory care of patients with ARDS admitted in ICU, AIIMS New Delhi

54. A Study to Assess the Effectiveness of Structured Nursing Guidelines on Seizure Action Plan in Terms of Knowledge and Practice of Nurses working in Neuroscience Center AIIMS New Delhi.

55. A study to assess the effectiveness of video assisted teaching on Knowledge regarding home-based care among caregivers of children with cystic fibrosis at AIIMS New Delhi.

56. A study to assess the factors influencing eating pattern and their impact on nutritional status among nursing students in the College of Nursing, AIIMS, New Delhi.

57. A study to assess the knowledge and awareness regarding sexual Health rights among Nursing students in AIIMS CON

58. A Study to Assess the Knowledge Attitude and Practices Regarding the Complementary Feeding among Mothers of Children Below 2 Years of Age Attending Paediatrics OPD at AIIMS, New Delhi.

59. A study to assess the level and factors associated with paternal postpartum depression among fathers visiting selected hospitals at national capital region (NCR) of India.

60. A study to assess the nursing care practices for patients on ventilator admitted in ICU of tertiary care hospital with a view to develop standard nursing care protocol for mechanically Ventilated patient.

61. A study to assess the nutritional status and its association with clinical, psychological variables and quality of life among Chronic kidney disease patients undergoing Hemodialysis in AIIMS New Delhi.

62. A Study to Assess the Occurrence and Knowledge Regarding Prevention and Management of Needle Stick Injuries amongst Nursing Students at AIIMS, New Delhi.

63. A study to assess the prevalence of sexual dysfunction and it's related factors in female patients with Lupus Nephritis at AIIMS, New Delhi.

64. A Study to Assess the QSOFA Scores And Its Association with Clinical signs of Sepsis and Selected outcomes in Patients Admitted In Neurology And Neurosurgery Ward At AIIMS, New Delhi.

65. Effectiveness of a brief psychological intervention on stress and coping among newly diagnosed breast cancer patients at AIIMS, New Delhi: a randomized controlled trial.

66. Effectiveness of art therapy on sleep and anxiety among hospitalized children at AIIMS, Delhi.

67. Effectiveness of oral hygiene training on brushing practices among school children studying in selected primary schools of Delhi.

68. Pathways to tertiary renal care:- a retrospective study of parents experience seeking care for their child with chronic renal disorders at AIIMS, Delhi.

69. Prevalence of metabolic syndrome among females with PCOS in tertiary care hospital, New Delhi.
70. Study to assess the relationship between imposter syndrome, performance failure and coping strategies among nursing officers in AIIMS New Delhi.

Completed

1. A comparative study to assess awareness, perception and behavior of medical and non-medical college going young adults regarding HPV vaccination
2. A descriptive study on root cause analysis of revisits of children in pediatric emergency department at AIIMS, New Delhi
3. A descriptive study to assess the knowledge about Premenstrual Syndrome (PMS) and Premenstrual Dysphoric Disorder (PMDD) and their impact on activity of daily living among nursing students at AIIMS, New Delhi.
4. A descriptive study to assess the prevalence, characteristics, impact and self-care management of headache among nursing and paramedical students at AIIMS, New Delhi
5. A mixed method study to explore the status of utilization of nursing process and factors affecting its utilization among nursing officers working at AIIMS, New Delhi.
6. A qualitative study to explore lived experiences and perspectives of parents in parenting a child with kidney transplantation at AIIMS, New Delhi
7. A quasi- experimental study to assess the effectiveness of Tele- Nursing Follow- up education program on Knowledge regarding anticoagulation, medication adherence and INR control among patients underwent mechanical valve replacement (MVR) at CTVS, AIIMS, New Delhi
8. A quasi-experimental study to assess the effect of nurse-led intervention program on knowledge and confidence of mothers regarding home-based care of children with solid organ tumors at AIIMS, New Delhi
9. A ramdomized Control Trial Study to Assess the Effectiveness of Mobile App Based Self-Management Vs Booklet Based Self-Management Of Breast Cancer Related Lymphedma Prevention On Knowledge, Compliance And Quality Of Life Among Breast Patient Receiving Treatment At A Tertiary Care Centre.
10. A randomised control study to assess the effectiveness of patient and family education using a video based teaching on knowledge and pre-procedural anxiety of patients and family members undergoing EEG at AIIMS, New Delhi
11. A randomised control trial to assess the effectiveness of nurse led psycho education session on medication adherence and symptom severity among patients with depression attending psychiatry OPD AIIMS New Delhi
12. A randomised controlled trial to assess the efficacy of Chin-tuck maneuver in Neurogenic dysphagia among stroke patients attending Neurosciences Centre, AIIMS New Delhi
13. "A randomized control trial to assess the effectiveness of Patient Centred Transitional Care Model (PCTCM) on Self-Efficacy, Health literacy, and Adherence to treatment (SeHAt) of patients who underwent valve replacement surgery at AIIMS, New Delhi"
14. A randomized controlled trial to assess the effectiveness of 2% Mupirocin vs 0.5% Neomycin vs placebo intranasal ointment on prevention of surgical site infection (SSI) among adult patients undergoing cardiac surgery at AIIMS, New Delhi.
15. A randomized controlled trial to assess the effectiveness of nurse led tobacco cessation intervention among patients attending OPD at AIIMS New Delhi.
16. A study to assess caregiver burden, anxiety, depression and coping strategies among caregivers of neurodegenerative disorder patients
17. A study to assess knowledge and concerns regarding sexual health among post myocardial infarction patients visiting cardiology outpatient department, AIIMS New Delhi.

18. A study to assess the effect of Nurse-Led cardiac Rehabilitation on knowledge practices and clinical parameters of the adult patients undergoing cardiac surgery at CTVS, AIIMS, Delhi

19. A study to assess the effect of Thirst Bundle Intervention (TBI) on thirst intensity and dry mouth among heart failure patients visiting at heart failure clinic, AIIMS, New Delhi

20. "A study to assess the effectiveness of couple-based intimacy enhancement intervention to improve marital intimacy and sexual communication among partners of carcinoma breast patients in a selected tertiary care hospital"

21. "A study to assess the effectiveness of green tea (Camellia sinensis) based mouthwash on oral health status, pain and quality of life among advanced head and neck cancer patients in a tertiary care centre. — Randomized controlled trial"

22. A study to assess the effectiveness of Knowledge Enhancement programme on HPV and HPV vaccine in terms of Knowledge among B.sc (Hons) nursing students of CON, AIIMS, New Delhi.'

23. A Study to Assess the Effectiveness of Mobile Application Based Home Care Management Programme of Kidney Transplant Upon Knowledge and Practice of Patients Undergone Kidney Transplantation in AIIMS, New Delhi"

24. A Study To assess The Effectiveness Of Modified Early Warning Score (Mews) On Patient's Outcome And Barriers Related To Its Use By Nursing Officers In Medicine Ward, AIIMS New Delhi.

25. A Study to assess the effectiveness of Nelson's Inhaler and spirometry versus Electric steam inhaler and spirometry to relieve chest congestion among post operative Neurosurgery patients admitted in Neuroscience Centre, AIIMS, New Delhi.

26. A study to assess the effectiveness of Nurse Driven Enhanced Recovery after Surgery Programme (ERAS) on quality of recovery, patient satisfaction and hospital stay of patients undergoing renal transplant at AIIMS, New Delhi

27. A study to assess the effectiveness of nurse led group brief intervention on social functioning, criminality and health among ODS patients attending NDDTC, AIIMS, New Delhi: A randomized controlled trial

28. A Study To Assess the Effectiveness of Structured Nursing Guidelines on Seizure Action Plan In Terms Of Knowledge And Practice Of Nurses and Selected Patient Outcomes in Neuroscience Center AIIMS New Delhi.

29. A study to assess the effectiveness of structured teaching program on knowledge regarding gender - based violence among adolescents in selected schools of Delhi

30. A study to assess the effectiveness of video assisted teaching on knowledge and behavioral practices regarding renal health among employees at AIIMS, New Delhi."

31. A study to assess the effectiveness of video assisted teaching program on nasogastric tube feeding regarding knowledge and practice among primary care givers of patents with nasogastric tube in-situ admitted at AIIMS New Delhi

32. A study to assess the effectiveness of Video Teaching Program on Knowledge & Practice regarding tracheostomy Suctioning as compared to standard teaching program among nursing student of AIIMS, New Delhi

33. A study to assess the factors influencing eating patterns and their impact on nutritional status among nursing students in AIIMS New Delhi.

34. A study to assess the family perception regarding End of Life care and caregiver burden in terminally ill with oncological illness at tertiary hospital, AIIMS New Delhi

35. A Study to Assess the Impact of Cyberchondria on Health Anxiety and Psychological Well-Being among Patients attending New RAK OPD, AIIMS, New Delhi.

36. A Study to Assess the Impact of Nurse- Led Education Bundle For Infection Control With Follow up Teleconsultation on Incidence of Febrile Neutropenia and Caregivers's Knowledge Among Parents of Children With Acute Leukemia at AIIMS, New Delhi

37. A study to assess the impact of nurse-led intervention on patient care practices & caregiver burden among caregivers of patients with traumatic brain injury at AIIMS, Delhi.

38. A Study To Assess The Knowledge, Attitude And Practice Regarding Radiation Safety With A View To Develop Radiation Safety Booklet For Nurses Working At IRCH, AIIMS, Delhi.
39. "A study to assess the nursing care practices for patients on ventilator admitted in ICU of tertiary care hospital with a view to develop standard nursing care protocol for mechanically ventilated patients."
40. A study to assess the occurrence and knowledge regarding prevention and management of needle stick injuries amongst nursing students at AIIMS, New Delhi
41. A study to assess the prevalence of Metabolic syndrome among young adults at AIIMS with a view to develop Preventive Metabolic Syndrome Pamphlet
42. A study to assess the prevalence of sexual dysfunction and its related factors in female patients with Lupus Nephritis at AIIMS, New Delhi.
43. A study to assess the qSOFA scores and its association with clinical signs of sepsis and selected outcomes in patients admitted in Neurology and Neurosurgery ward at AIIMS, New Delhi
44. A study to compare the effectiveness of silver based dressing vs conventional dressing in prevention of surgical site infection among post-operative patients of laparoscopic cholecystectomy in AIIMS, New Delhi
45. A study to evaluate the feeding practices of the mother -infant dyad aged 6 weeks to 2 years of age at AIIMS New Delhi
46. Effect of the Tailored Diet Plan on Nutritional Status, Compliance, Barriers And Patient Satisfaction Among The Cancer Patients Discharged With Nasogastric Tube - A Randomized Controlled Trial
47. Randomized Control Trial to assess the impact of web - based home care management programme on quality of life, adherence to treatment and nutritional markers among chronic peritoneal dialysis patients of selected hospitals of Delhi.
48. To assess the effect of blended teaching on treatment compliance, inhaler technique and knowledge regarding home care among parents of asthmatic children.
49. To Compare the Effectiveness of Mobile App Based Prescription along with Ai Based Education Vs Conventional Prescription along with Booklet-Based Education on Compliance, Knowledge and Satisfaction among Advanced Cancer Patients Receiving Palliative Care at A Tertiary Care Centre- A Randomized Control Trial.

Collaborative projects

Ongoing

1. Assessment of transformational leadership approach on selected nursing outcomes, IGNOU
2. Development of Technology based Doctor-Patient interface to Facilitate Patient Care and Health Research in Paediatric Urology"/ Ref No. 5/4/7-3/Uro/2020-NCD-II. Pediatric surgery, AIIMS Delhi

Completed

1. Effectiveness of a Nurse led Virtual Liver Cirrhosis Clinic on QOL, Self efficacy and Health Outcomes among patients with liver cirrhosis. Department of Gastroenterology and HNU, AIIMS
2. Expert member in formulating guidelines for counselling of 'expecting' couples who have been diagnosed with congenital malformation in the developing baby. Pediatric Surgery, AIIMS Delhi

PATIENT CARE

- Organized screening camp for cancer and NCD's in Ambedkar Nagar.
- Screening for malnutrition among school children.

For individual faculty members

- You may include any major academic activity which is not included under teaching, research and patient care activities.
- This section can also include membership of programme advisory committees, scientific advisory committees, research advisory committees, government advisory bodies, etc.

1. Delivered Public lecture on World Hypertension Day on 24 May 2025 at JLN auditorium in collaboration with CCM dept
2. Expert for PhD Fellowship at ICMR
3. Board member for Baba Fardi University of Health Sciences, Faridkot
4. Co-PI for PEP phase II project for College of Nursing, funded by NNF

- Running a Nurse led Liver cirrhosis clinic at Gastro OPD for patients with alcohol associated liver cirrhosis.
- Co-organizer for World Mental Health Week celebration (in New RAK OPD and Psychiatry Ward) by College of Nursing in October 2024.
- Guide and supervise BSc (Hons.) 3rd year and PB Nursing 1st year students in Pediatric medicine ward.

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Latha Venkatesan was Elected as National President of Clinical Nursing Research Society

Selected to receive

Dr Manju AK Rajora was Moderator in international webinar on empowering nursing research: skills, strategies and statistical insights by Forsythia chapter of NSS on 21 and 22 November 2024. She attended IIT Delhi Summer Faculty Research Fellow (SFRF) program at centre of biomedical engineering from 22 May-12 July 2024. She received President's honour award certificate for being Frontline Hero Nurses on International Nurses' Day on 12 May 2024 by Nursing Scholar

Society. She Evaluated MSc Nursing Thesis for BFUHS. She was elected as an executive board member in Society of Perioperative Nursing.

Dr Tarika Sharma was elected as an executive board member in Society of Cardiac Nursing.

External examiner and Paper setter for PG and UG courses at AIIMS Bhubaneshwar, AIIMS Mangalagiri, and AIIMS Rishikesh.

Ms Anubha Devagourou organized workshop on "Empowering Nursing Excellence: Innovation and Technology in Healthcare", 23 October 2024. She was Convenor for URO Nursing North Zone Conference, 29 November 2024, New Delhi. She was Coordinator for Nursing symposium for 71st Annual Conference of IACTS, 20 February 2025, New Delhi. She was Coordinator for Nursing Symposium, Society of International Urology, 24 October 2024, New Delhi. She Organized world kidney day on 10 March 2024, AIIMS, New Delhi. She was External Examiner for MSN 1, AIIMS, Rishikesh.

Ms Monika Sabharwal received First Prize in Essay writing competition for Faculty during Hindi Pakhwada September 2025.

8. Research Section

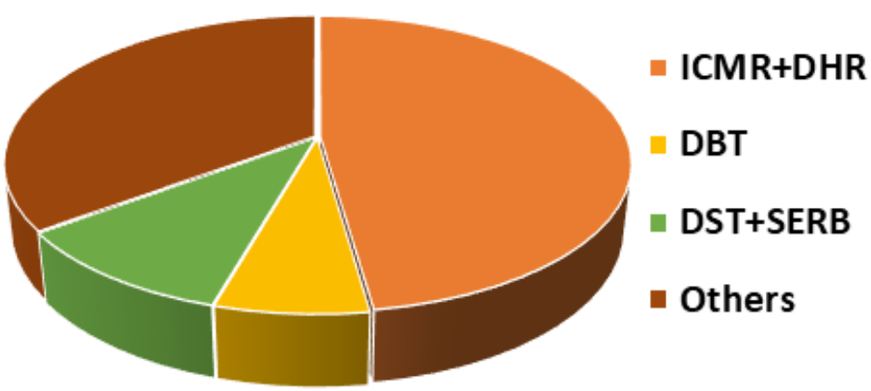
Deans (Research)

Jeewan S Titiyal
(w.e.f. 1 April 2024-31 December 2024)

Nikhil Tandon
(w.e.f. 11 January 2025)

Associate Dean (Research)

Govind K Makharia
(w.e.f. 8 April 2024)



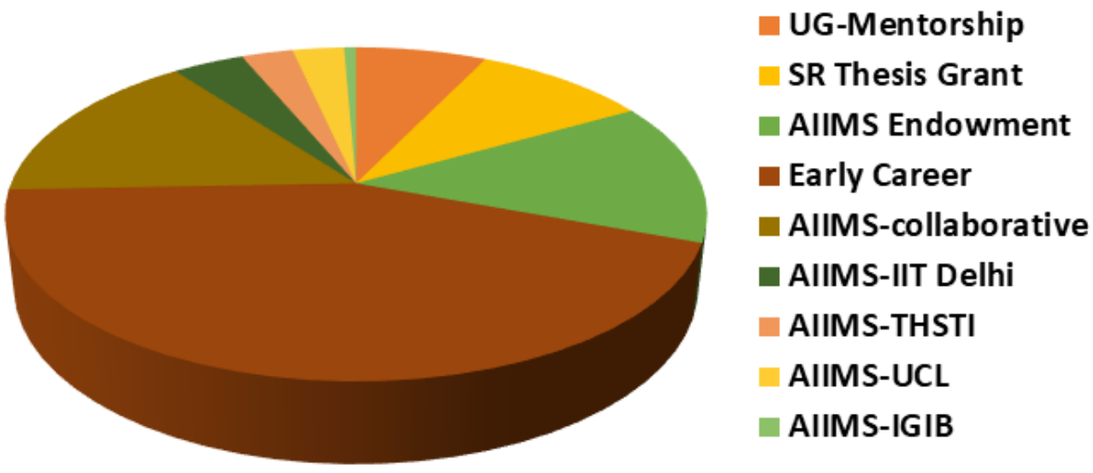
HIGHLIGHTS

Research is an important component of the AIIMS Trinity of Mission. Research Section is the nodal office to facilitate research at AIIMS both intramural and extramural research schemes. The Research Section also provided capacity building support to the AIIMS faculty and student researchers through the Centralized Core Research Facility (CCRF) and Clinical Research Unit (CRU) for basic and clinical sciences respectively. The Centre for Medical Innovation & Entrepreneurship (CMIE) provides critical support and guidance for promoting innovations in research. This is further augmented by the IPR & Technology Transfer Division (IPT-TTD) to help and support for patenting and technology transfers.

Intramural funding scheme includes the Early career research grants, Inter-disciplinary collaborative research grants, undergraduate mentorship for research skills support. A new intramural funding scheme is introduced for NCI-AIIMS, Jhajjar to encourage Cancer Research. Financial support is also granted to MD/MS/MDS/DM/MCh residents for accomplishing the research objectives in their thesis. In addition, inter-institutional schemes are currently ongoing with IIT-Delhi, THSTI-Faridabad, UCL-London and CSIR-IGIB-Delhi. To enhance the collaborative network, a joint collaborative scheme with CSIR-CCMB, Hyderabad has also been introduced. A trilateral MoU has been executed between AIIMS, UCL, and IIT Delhi focusing on advancing MedTech research.

EXTRAMURAL PROJECTS

N = 958 [Rs. 280 Cr. approx)



Funding Agency	Number of Projects	Budget
ICMR	417	160,98,99,288
DHR	57	10,10,64,233
DST	38	4,71,88,800
SERB	50	6,18,78,190

ENDOWED CHAIR

Shobha Seth Wenger' Distinguished Chair in Gynecologic Oncology under "Mira Seth Corpus Fund"

This prestigious Chair is awarded to a Senior Faculty/Scientist from AIIMS, New Delhi who has an outstanding track record in the field of Gynaecologic Oncology.

Dr. Sandeep Mathur, Professor of Pathology has been awarded this chair for a period of 2 years.

INTERNATIONAL FELLOWSHIPS FOR AIIMS FACULTY

The objective of the fellowships is to provide opportunities to gain advanced training in emerging areas of medical sciences and utilize them for work at AIIMS, New Delhi. The duration of the fellowship is 2-4 weeks.

Duration of Fellowships:

The list of awardees for AIIMS International Fellowship for the year 2024-2025 is as under:

1. Aanchal Kakkar, Additional Professor, Department of Head & Neck Pathology, Pediatric Solid Tumor Pathology, Professor Keith Hunter Professor of Head & Neck Pathology Liverpool Head and Neck Centre, University of Liverpool, 3 Weeks
2. Deepam Pushpam, Associate Professor, Department of Medical Oncology, Leukaemia, Bone marrow transplant and sarcoma, Nitin Jain, MD, Anderson Cancer Centre, Department of Leukaemia CAR- T Program. The University of Texas, 4 Weeks
3. Sujata Mohanty, Professor, Department of Stem Cell Facility, Tissue Engineering, 3D Bioprinting, Regenerative Medicine, Biomaterial fabrication, Biomimicry, Organoids, Professor Bernd Giebel, University of Duisburg-Essen, University Hospital Essen, Institute for Transfusion Medicine, 4 Weeks
4. Pragyan Acharya, Additional Professor, Department of Biochemistry, Liver disease pathogenesis, biomarkers and diagnostic platforms, large scale genomic screens, Dr. Kalpana Surendranath University of Westminster, 4 Weeks
5. Maneesh Singhal, Professor and Head, Department of Plastic, Reconstructive and Burns Surgery, Reconstructive Microsurgery, Burns reconstruction, Trauma Reconstruction, Dr Kavitha Ranganathan, MD, Assistant Professor, and Director, Craniofacial Surgery, Department of Surgery Institute: Brigham and Women's Hospital, Harvard Medical School, 75 Francis Street, Boston, 4 Weeks

INFOSYS CHAIR IN ONCOLOGY

The list of awardees for Infosys Chair in Oncology is as under:

Smita Bhatia, Distinguished Professor, Department of Pediatrics, Div of Hematology/ Oncology Gay and Bew White Endowed Chair in Pediatric Oncology Vice Chair for Outcomes Research, Department of Pediatrics Director, Institute for Cancer Outcomes and Survivorship University of Alabama at Birmingham (UAB) School of Medicine, Dr. Sameer Bakhshi, Professor and Head, Department of Medical Oncology, Dr. B.R.A Institute Rotary Cancer Hospital, AIIMS, Delhi

TRAVEL SUPPORT SCHOLARSHIP UNDER AIIMS ENDOWMENT FUND

i) Augmentation of number of travel fellowships for students, residents, PhD scholars, and research staff to participate in International/National conferences, workshop quiz.

ii) Meeting being held every two months for selection of candidates for award of travel grant.

4th Annual Research Day Celebration on 29 January 2025 and 30 January 2025

Pan-AIIMS Research Colloquium

AIIMS celebrated its 4th Annual Research Day, a two-day event dedicated to recognizing novel research and promoting a culture of innovation in medical science. The event, held at the JL Auditorium, brought together researchers, academicians, and healthcare leaders to celebrate scientific excellence and discuss the future of healthcare innovation.

During the Pan-AIIMS Research Colloquium, a landmark event that brought together deans from 20 AIIMS institutes across the country. The event, held at the Dr. Ramalingaswami Boardroom, highlighted a shared vision for advancing medical research, promoting collaboration, and building a unified research framework for all AIIMS institutions across India.

The colloquium commenced with a tour of the AIIMS Central Research Facilities, including the Centralized Core Research Facility, Clinical Research Unit, and Centre for Medical Innovation & Entrepreneurship. Participants had the opportunity to explore the latest research infrastructure aimed at nurturing innovation and scientific discovery.

Deans from all AIIMS - Bathinda, Bhopal, Bhubaneswar, Bilaspur, Bibinagar, Deoghar, Guwahati, Jodhpur, Kalyani, Madurai, Mangalagiri, Patna, Raipur, Rajkot, Rishikesh, Nagpur, Jammu etc. presented research highlights, showcasing their research in areas ranging from infectious diseases to AI-driven healthcare solutions.

The event commenced with opening remarks by Professor Govind Makharia, who highlighted AIIMS' commitment to advancing research for the betterment of healthcare. Professor M. Srinivas, Director of AIIMS, delivered an inspiring address, stating, *"Research is the backbone of medical progress. AIIMS will continue to nurture and support novel studies that address the pressing healthcare challenges of our time."* The program featured 13 platform presentations by PhD, MSc, and undergraduate students, as well as junior and senior residents, showcasing cutting-edge research in various

medical fields. A poster exhibition showcasing 514 posters highlighted the innovative research contributions featuring ongoing clinical and basic research by AIIMS scholars across almost disease areas such as cancer, neurology, cardiology, ophthalmology, rare diseases, infectious diseases etc. The exhibition also showcased the devices and programmes developed by AIIMS researchers for patient care.

A major highlight of the event was the **AIIMS Silver Jubilee Oration** delivered by Dr. Yogesh Jain, Co-founder of Sangwari-People Council for Equity and Health. His talk, titled *"Medical Academia and People's Health, "* emphasized the importance of research-driven healthcare improvements in India.

The afternoon session saw the inauguration of the Research Day by the Chief Guest, **Professor Ajay Kumar Sood, Principal Scientific Advisor to the Government of India.** He commended AIIMS for its dedication to research and innovation, stating, *"Institutes like AIIMS are at the forefront of healthcare transformation. The research conducted here sets benchmarks for excellence not only in India but globally."*

A thought-provoking Diamond Jubilee Oration titled *"The Miracles of Modern Medicine and the Future of Global Health - Lessons from a Career across Four Continents"* was delivered by **Professor Shitij Kapur, Vice-Chancellor & President of King's College London.** Professor Kapur highlighted key advancements in healthcare and shared valuable lessons from his illustrious career.

The panel discussion on *"Catalysing Innovation: Ways to Fuel Innovation"* brought together eminent experts, including:

- Dr. Chintan Vaishnav, Former Mission Director, Atal Innovation Mission
- Dr. Annam Visala, Deputy Drugs Controller (India), CDSCO
- Dr. Manish Diwan, Mission Director, Make in India for Biotech Sector
- Mr. Rohit Gupta, Programme Lead, Atal Innovation Mission
- Professor Sandeep Singh, Executive Director, School of International Biodesign

Moderated by **Professor Alok Thakar**, Project Head, Centre for Medical Innovation & Entrepreneurship, the discussion highlighted strategies to foster innovation in healthcare and emphasized the importance of industry-academic collaboration.

Research Excellence Awards: Basic Sciences Category

1. Saroj Kumar, Additional Professor, Department of Biophysics, Biophysics, Basic, Fluorescence-tagged Salivary Small Extracellular Vesicles As a Nanotool in Early Diagnosis of Parkinson's Disease, BMC Medicine, Certificate Of Excellence
2. Sudip Sen, Professor, Department of Biochemistry, Biochemistry, Basic, Hypoxia Induces Early Neurogenesis in Human Fetal Neural Stem Cells by Activating the WNT Pathway, Molecular Neurobiology, Certificate Of Excellence
3. Bhupendra Verma, Associate Professor, Department of Biotechnolgoy, Biotechnology, Basic, Synergistic correlation between host angiogenin and dengue virus replication, RNA Biology, Certificate Of Excellence
4. Pratik Kumar, Professor, Department of Medical Physics Dr. B.R.A IRCH, Medical Physics, Basic, Optically Stimulated Luminescence in Lif-MgF2 system and its response as medical radiation dosimeter, Ceramics International, Certificate Of Excellence
5. Shipra Agarwal, Additional Professor, Department of Pathology, Pathology, Basic, Innate differences in the molecular signature of normal inferior & superior human parathyroid glands: implications for parathyroid adenoma, Molecular and cellular Biochemistry, Certificate Of Excellence
6. Simran Kaur, Additional Professor, Department of Physiology, Physiology, Basic, Patient-reported cognitive impairments and objective neuropsychological deficits in young sarcoma patients undergoing chemotherapy and its comparison to healthy controls: A tertiary health care study from India, International Journal of Cancer, 3
7. Renu Dhingra, Professor, Department of Anatomy, Anatomy, Basic, Hydrogen sulfide promotes migration of trophoblast cells by a Rho GTPase mediated actin cytoskeleton reorganization, Placenta, 3
8. Rima Dada, Professor, Department of, Anatomy, Basic, Yoga maintains Th17/Treg cell homeostasis and reduces the rate of T cell aging in rheumatoid arthritis: a randomized controlled trial, Scientific Reports, 3
9. Savita Yadav, Professor, Department of Biophysics, Biophysics, Basic, Unveiling the Significance of FGF8 Overexpression in Orchestrating the Progression of Ovarian Cancer, International Journal of Molecular Sciences, 3

10. Rupesh K. Srivastava, Associate Professor, Department of Biotechnology, Biotechnology, Basic, Lactobacillus Rhamnosus (LR) Ameliorates Pulmonary and Extrapulmonary Acute Respiratory Distress Syndrome (ARDS) via Targeting Neutrophils, Clinical Immunology, 2
11. Manoj Kumar Tembhre, Scientist, Department of Cardiac Biochemistry, Biochemistry, Basic, PGC-1α Agonist Rescues Doxorubicin-Induced Cardiomyopathy by Mitigating the Oxidative Stress and Necroptosis, Antioxidants (Basel), 2
12. Mayank Singh, Additional Professor, Department of Medical Oncology (Lab), Medical Oncology, Basic, Ubiquitin Specific Peptidase 37 and PCNA Interaction Promotes Osteosarcoma Pathogenesis by Modulating Replication Fork Progression, Journal of Translational Medicine, 2
13. Jayanth Kumar, MD, Additional Professor, Department of Biochemistry, Biochemistry, Basic, RNA Binding Protein IGF2BP1 Synergizes With ETV6-RUNX1 to Drive Oncogenic Signaling in B-cell Acute Lymphoblastic Leukemia, Journal of Experimental & Clinical Cancer Research, 1

Research Excellence Awards: Clinical Sciences Category

1. Suhani, Additional Professor, Department of Surgical Disciplines, Surgical Disciplines, Evaluation of Dual Dye Technique for Sentinel Lymph Node Biopsy in Breast Cancer: Two-Arm Open-Label Parallel Design Non-Inferiority Randomized Controlled Trial, World Journal of Surgery, Certificate of Excellence
2. Pragyan Acharya, Additional Professor, Department of Biochemistry, Biochemistry, Quantitative Plasma Proteomics Identifies Metallothioneins as a marker of acute-on-chronic liver failure associated acute kidney injury, Frontiers in Immunology, Certificate of Excellence
3. Krithika Rangarajan, Associate Professor, Department of Radiology BRAIRCH, Radiology BRAIRCH, Deep learning for Detection of IsoDense, Obscure Masses in Mammographically Dense Breasts, European Radiology, Certificate of Excellence
4. Pranay Tanwar, Professor, Department of Laboratory Oncology, Laboratory Oncology, Whole exome sequencing identifies novel variants of PIK3CA and validation of hotspot mutation by droplet digital PCR in breast cancer among Indian population, Cancer Cell International, Certificate of Excellence
5. Deepali Jain, Professor, Department of Pathology, Pathology, Concordance of Immunohistochemistry and Fluorescence In Situ Hybridization in the Detection of Anaplastic Lymphoma Kinase (ALK) and Ros Proto-oncogene 1 (ROS1) Gene Rearrangements in Non–Small Cell Lung Carcinoma, Arch Pathol Lab Med, Certificate of Excellence
6. Manjari Tripathi, Department of C. N Centre, C. N Centre, Safety, Efficacy, and Tolerability of Modified Atkins Diet in Persons With Drug-Resistant Epilepsy, Neurology, 3
7. Parijat Chandra, Professor, Department of RPC, RPC, Role of Fluorescein Angiography Guided Laser Treatment in Aggressive Retinopathy of Prematurity, Eye (Lond), 3
8. Vandana Jain, Professor, Department of Pediatrics Endocrinology Division, Pediatric, Carbohydrate Counting vs. Fixed Meal Plan in Indian Children with Type 1 Diabetes Mellitus: A Randomized Controlled Trial, Indian Journal of Pediatrics, 3
9. Kalpana Bansal, Additional Professor, Department of Pedodontics & Preventive Dentistry, Centre for Dental Education, Pedodontics & Preventive Dentistry Centre for Dental Education, Silver Diamine Fluoride Modified Atraumatic Restorative Treatment Compared to Conventional Restorative Technique on Carious Primary Molars–A Randomized Controlled Trial, Journal of Dentistry, 3
10. Rajeev Kumar, Professor, Department of Urology, Urology, Unilateral Versus Bilateral Vasoepididymal Anastomosis for Idiopathic Obstructive Azoospermia: A Randomised Controlled Trial, European Urology Open Science, 3
11. Prakash Ranjan Mishra, Associate Professor, Department of Emergency Medicine, Emergency Medicine, Nebulized vs IV Tranexamic Acid for Hemoptysis A Pilot Randomized Controlled Trial, Chest, 2
12. Sheffali Gulati, Professor, Department of Pediatrics, Pediatric, Brain Stimulation and Constraint Induced Movement Therapy in Children With Unilateral Cerebral Palsy: A Randomized Controlled Trial, Neurorehabilitation & Neural Repair, 2

13. Jhuma Sankar, Additional Professor Department of Pediatrics, Pediatrics, Multiple Electrolytes Solution Versus Saline as Bolus Fluid for Resuscitation in Pediatric Septic Shock: A Multicenter Randomized Clinical Trial, Crit Care Med, 1

Infosys Oncology Best Paper Award - Basic Science Category

1. Ritu Gupta, Professor & Office In Charge, Department of Lab. Oncology & National Cancer, Jhajjar, Laboratory Oncology, Basic, BDL-SP: A Bio-inspired DL model for the identification of altered signaling pathways in Multiple Myeloma using WES data, Am J Cancer Res, 3
2. Jyotirmoy Banerjee, Additional Professor, Department of Biophysics, Biophysics, Basic, RNA Sequencing of Intraoperative Peritumoral Tissues Reveals Potential Pathways Involved in GliomaRelated Seizures, Journal of Molecular Neuroscience, 2
3. Pramod Kumar Gautam, Additional Professor, Department of Biochemistry, Biochemistry, Basic, Macrophage infltration in 3D cancer spheroids to recapitulate the TME and unveil interactions within cancer cells and macrophages to modulate chemotherapeutic drug efficacy, BMC Cancer, 1

Infosys Oncology Best Paper Award - Clinical Science Category

1. CS Bal, Professor & Head, Department of Nuclear Medicine, Nuclear Medicine, Clinical, Headtohead comparison of [68Ga]GaDOTA.SA.FAPi with [18F]FFDG PET/CT in radioiodineresistant folliculareell derived thyroid cancers, European Journal Nuclear Medicine and Molecular Imaging, 3
2. Supriya Mallick, Associate Professor, Department of Radiation Oncology, Radiation Oncology, Clinical, Hypo-fractionated accelerated radiotherapy with concurrent and maintenance temozolomide in newly diagnosed glioblastoma: updated results from phase II HART-GBM trial, Journal of Neuro-Oncology, 2
3. Shipra Agarwal, Additional Professor, Department of Pathology, Pathology, Clinical, Pediatric Adrenocortical Neoplasms: A Study Comparing Three Histopathological Scoring Systems, Endocrine Pathology, 1

Participant Awards – Oral Presentation – 4th AIIMS Research Day 2025

UG

1. Pavit Singh, To study the differential exosomal abundance in pancreatic cancer patients, 3
2. Ishan Gupta, Insights from Transcriptome Analysis of Paired Acute Myeloid Leukemia (AML) Samples: Unlocking Novel CRISPR-Based Therapeutic Targets, 2nd Prize
3. Sathya Veera Merla, Understanding PAX5-Driven Subtypes in B-cell Acute Lymphoblastic Leukemia: A Comprehensive Analysis, 1st Prize

MSc

1. Mahek Farhan, Department of Biochemistry, Title: Creation of an L483P mutant Glucocerebrosidase Model and a CRISPR/Cas13-based RNA Editing Approach for Correction in Gaucher Disease, 1st Prize

JR

1. H V Bhavana, Obst. & Gynaecology, Randomised controlled trial to study the effect of ovarian drilling versus step up gonadotropin therapy in anovulatory infertile PCOS women undergoing ovulation induction cycles., 3rd Prize
2. Tavish Gupta, Dr. Rajendra Prasad Centre for Ophthalmic Sciences, SCAR-AI: Smartphone-Based Community Assessment of Corneal Opacities and Referral for Keratoplasty using Artificial Intelligence, 2nd Prize
3. Gupta Himani, Dr. R.P Centre, Functional MRI and DTI in Anisometropic Amblyopia Pre and Post Occlusion Therapy: Revealing neuralmechanisms behind variable responses, 1st Prize

SR

1. Paraselli Saiteja, Pediatrics, Efficacy of Cyclophosphamide Therapy in Frequently Relapsing and Steroid Dependent Nephrotic Syndrome- A Retrospective Cohort Study, 3
2. Devi Saranya S S, Pediatrics, Genotype-phenotype spectrum in an Indian cohort of Niemann-Pick disease type A/B, 2nd Prize

3. Sandeep Rao Kordcal, Medicine, Latent tuberculosis infection and active tuberculosis in household contacts of newly diagnosed multidrug-resistant tuberculosis patients, 1st Prize

PhD

1. Ashish Binjola, Radiation Oncology, Rheological and tensile properties of a novel radiotherapy gel bolus., 3rd Prize
2. Nisha Chauhan, Nuclear Magnetic Resonance, Chasing Cue Reactivity Task Based Functional Connectivity in Opioid Use Disorder, 2nd Prize
3. Harsh Bhakhri, Biochemistry, A versatile CRISPR/Cas12a-based nucleic acid test (NAT) for the detection of HIV-1 CladeC infection, 1st Prize

Participant Awards – Poster Presentation - 4th AIIMS Research Day 2025

UG

1. Vedant Garg, Study the Effect of COX (Cyclooxygenase) Inhibitor on Cancer-Testis Antigen (POTE) in the Ovarian Cancer, Commendation
2. Pavit Singh, Prevalence of compliance to gluten free diet in patients of celiac disease: a systematic review and meta-analysis, 3
3. Hayagrivas M B, Foot-pressure distribution method for detection of foot joint arthritis in patients with rheumatic diseases, 2
4. Ajinkya Naik, Correlation between Karolinska Sleepiness Scale and Day-time EEG, 1

MSc

1. Akansha Verma, Biotechnology, To Delineate the Role of Chronic Stress on the Osteo-Immune System, Commendation
2. Areeba Aziz, Biotechnology, Mechanistic Role of tRNA-derived RNA Fragments (tsRNAs) During Dengue (DENV) Infection, 3
3. Neeti Bharadwaj, Biochemistry, Evaluating the Neurotherapeutic Efficacy of Homeopathic Medicine Hypericum perforatum in Rescuing Hypoxia-exposed Oligodendrocytes in an in vitro Disease Model of Cerebral Palsy, 2
4. Atul Kumar Dandriyal, Biotechnology, To Determine if Composition of Fat inside Lipid Droplets Prevents or Triggers Lipophagy, 1

PhD

1. Vaishali Prajapati, Pharmacology, Therapeutic Potential of Abatacept in rat model of Cardiac Hypertrophy via CTLA-4 analogue: A Exploration of Signaling Pathways, Commendation
2. Gunjan Sharma, Physiology, Spinal Recovery with combinatorial approach of Theta Burst Stimulation and IronOxide Nanoparticles implantation, Commendation
3. Sutirtha Ghosh, Physiology, Pre-movement EEG Microstates as Predictive Indicator of Load in Biceps Curl Movement, Commendation
4. Nikhil Kumar, Ocular Pathology, Prognostic implications of Hippo pathway dysregulation and cell cycle kinases in uveal melanoma, Commendation
5. Ridhima Goel, Medical Oncology, Estrogen-related receptor gamma (ERRγ) as a potential therapeutic target and the synergistic anti-tumor effect of DN200434 (ERRγ inverse-agonist) and MK-2206 (Akt inhibitor) in ovarian carcinoma, Commendation
6. Akhil Kumar, Biotechnology, Evolutionary conserved fat storage-inducing transmembrane (FITM2) protein is crucial for lipid droplet biogenesis, 3
7. Manish Tripathi, Biotechnology, PvTRAg36.6 (PVX_112660) - Stomatin along with lipid interaction study - new insight of Plasmodium vivax invasion into human reticulocyte., 2

8. Shweta Sharma, Physiology, Synergistic Effects of Probiotics and rTMS on Cognitive and Motor Function in 6-OHDA PD Rats, 1

JR

1. Aradhana Sarma, Biochemistry, Generation and characterization of infectious molecular clones from HIV-1 viral envelopes derived from infected children, Commendation
2. Vishwas Kumar Anand, PMR, Assessment of central fatigue in postpolio syndrome using bereitschaftspotential, Commendation
3. Dr Aumkar Kishore Shah, Department of Anesthesiology, External Validation of a Machine-Learning derived risk prediction model for Post Operative Pulmonary Complications, 3
4. Sabari Sinehaa, Pathology, Decoding the Molecular Landscape of Epithelial Myoepithelial Carcinomas, 2
5. Kavya V Nair, Department of Anesthesiology, Comparative Assessment of Cortical Hemodynamic Activity Using Functional Near Infrared Spectroscopy and Correlation With Emergence Delirium In Children Undergoing Anesthesia With Sevoflurane Versus Propofol Tiva- A Randomized Controlled Trial, 1

SR

1. Sakshi Ojha, Pediatrics Surgery, Efficacy of Repetitive Transcranial Magnetic Stimulation in children and adolescents (age 5-18 years) with Generalized Dystonia: A Randomized Sham-Controlled trial, Commendation
2. Shaikh Abdul Mubeen Abdul Raheem, Biochemistry, CD14++CD16− classical monocyte subset secreting IL-1ß and high monocyte-tolymphocyte ratio is associated with 'Tuberculosis Resisters' phenotype, Commendation
3. Kanika Chaudhary, Microbiology, Early Carbapenemase detection from positive blood culture bottles by blood cell lysisextraction: Effective tool for antibiotic stewardship, Commendation
4. Praveen George Paul, Pediatrics, Effect of maternal obesity and post-partum lifestyle intervention on infant adiposity– A Nested RCT within a cohort study, 3
5. Rhea Ahuja, Dermatology and Venereology, Clinical and immunological predictors of early relapse in patients with pemphigus treated with rituximab: A prospective cohort study, 2
6. Kiran Kumari, Biotechnology, Male-Specific Y-Chromosome Mutations in Juvenile Nasopharyngeal Angiofibroma: New Insights from Whole Exome Sequencing, 1

Project Scientist (SPS)

1. Pattnaik Tanurag, Department of Oral Microbiology and Oral Pathology, CDER, Aarogya Aarohan-A Point-of-Care Artificial Intelligence (AI)-Based Screening Tool for Oral Cancer, Commendation
2. Rasna Parveen, Jai Prakash Narayan Apex Trauma Centre, Surveillance of Health-care-associated Infections in a Network of Hospitals in India: A Multicentric Prospective Study, 2017-2024, Commendation
3. Saumya Dash, Stem Cell Facility, Novel Bimodal Fluorescent Magnetic Nanoparticle: A Smart Material for Stem Cell-Homing and Tracking, Commendation
4. Srishti Jain, National Centre for Assistive Health Technology (NCAHT), Investigating Wheelchair Usage Patterns: A Cross-Sectional Study of User Experience at a Tertiary Hospital, using the rATA Questionnaire, Commendation
5. Prativa Choudhury, Department of Paediatric Surgery, SPLINT Technique for Stretched Penile Length Measurement in Children: Systematic Review, Validation Study, and Reference Nomograms with Associated Testosterone and Dihydrotestosterone Levels in Ages 1-14 Years: A Transformative Contribution to Clinical Care, 3
6. Swarandeep Singh, Department of Biochemistry, Enhanced HIV-1 Neutralization through Framework Indel Substitution and Affinity Maturation in a Pediatric Lineage Antibody, 2
7. Renu Venugopal, R. P Centre, Topical Sub-anticoagulant Dose Heparin Adjuvant Therapy Reduces TNFSF14 Expression in Ocular Stevens Johnson Syndrome Eyes: A Randomized Controlled Trial, 1

SDG

1. Saumya Srivastava, Centre for Advanced Research, Department of Otorhinolaryngology, Scientist III, Validation and performance evaluation of Mobilab: A portable point-of-care battery operated IoT enabled device for screening of Metabolic Disorders, Commendation
2. Deeksha Madhry, Biotechnology, PhD student, Biotin based Northern Blotting (BiNoB): A cost-efficient, non-hazardous and sustainable alternative, Commendation
3. Samanta Projoyita, Lab Medicine, JPNATC, Bridging education and health: Empowring health care professional to achieve SDG-3 through continuous medical education (SDG-4), 3
4. Kanchan Saini, Department of Biotechnology, PhD student, The Role of Diet and Micronutrients in Modulating Susceptibility to Infections, 3
5. Armanullah Khan, Department of Anaesthesiology, Pain Medicine and Critical Care, Senior Resident, Comparison of Sublingual and Intranasal Dexmedetomidine for Pediatric Premedication: A Novel Approach of dexmedetomidine premedication, 2
6. Mamta Puraswani, Lab Medicine, JPNATC, Scientist 1, High throughput approach to uncover the outbreak investigation in a tertiary care center, 1

Nursing

1. Sajithra S, Nursing Student, Effectiveness of a Mobile Application-Based Home Care Management Program for Kidney Transplant Recipients: A Prospective Study, 3
2. Ajio Joy, Nursing Student, A Study To Assess The Effectiveness Of A Mobile Application-Based Educational Intervention Regarding Oral Hygiene On Knowledge, Attitude, And Practice Among Parents Of Children With Congenital Heart Disease At AIIMS, New Delhi, 2
3. Akriti Chaudhary, Nursing Student, A Study To Assess The Effectiveness Of Modified Early Warning Score (Mews) On Patient's Outcome And Barriers Related To Its Use By Nursing Officers In Medicine Ward, AIIMS, New Delhi, 1

New MoUs signed

1. Indian Coast Guard (ICG) and CRTC-IRCF, AIIMS, New on 30 December 2024.
2. AIIMS, New Delhi CSIR-Centre for Cellular& Molecular Biology (CCMB) on 17 December 2024
3. AIIMS, New Delhi and Council of Scientific & Industrial Research (CSIR) on 17 December 2024.
4. Trilateral MoU involving AIIMS, UCL, and IIT Delhi on 22 November 2024.
5. National Forensic Science University (NFSU) and AIIMS on 4 October 2024
6. Ministry of Tribal Affairs (MoTA) and AIIMS New Delhi Signed on 22 May 2024.
7. A joint declaration of intent for Mobile Suitcase Technology in India, Director, Mobile Suitcase Lab Consortium, Leipzig University, Leipzig, Germany, Director, CSIR-Institute of Genomics & Integrative Biology (IGIB), New Delhi, India, Director, All India Institute of Medical Sciences (AIIMS), New Delhi, India, CEO, M/s VINS Biproducts Limited, Hyderabad, India, Managing Director and CEO, GenextGenomics, Nagpur, Maharashtra, India

MoUs renewed

AIIMS and CSIR-IGIB on 16 October 2024

AIIMS and UCL on 21 November 2024

AIIMS and THSTI, on 15 January 2025

4th AIIMS RESEARCH DAY 2025
January 29-30, 2025

Director, AIIMS

AIIMS Deans' (Research) Meet on 29 January 2025 during Research Day 2025

Professor Ajay Kumar Sood, Principal Scientific Advisor during Research Day 2025

Dr. Shitij Kapoor, Vice Chancellor & President, King's College London during Research Day 2025

CLINICAL RESEARCH UNIT

Research Section, AIIMS, New Delhi

Report 2024-2025

The **Clinical Research Unit (CRU), Research Section, AIIMS, New Delhi** is committed to delivering high-quality technical expertise and support in the planning, design, implementation, and analysis of investigator-initiated clinical research, in alignment with global best practices. CRU holds a distinguished position as an affiliated centre of the **Cochrane India Network** and functions as an advanced hub for clinical trials. It also plays an active role in the **Indian Clinical Trial & Education Network (INTENT)** initiative led by the **Indian Council of Medical Research (ICMR)**, contributing significantly to the advancement of clinical research capacity and standards in the country.

FACULTY AND STAFF

CRU Working Committee:

Dean (Research)

Nikhil Tandon

Associate Dean (Research)

Govind Makharia

Department of Gastroenterology & Human Nutrition

Vineet Ahuja

Professor & Head, Paediatric and Preventive Dentistry

Vijay Prakash Mathur

Professor & Head, Department of Medical Oncology

Sameer Bakhshi

Department of Paediatrics

Rakesh Lodha

Centre for Community Medicine

Sumit Malhotra

Department of Paediatrics

M Jeeva Sankar

Department of Pharmacology

Pooja Gupta

Department of Biostatistics

M Kalaivani

CRU Scientists:

Scientist-II (Epidemiology), Clinical Research Unit

Pradeep Kumar

Scientist-II (Biostatistics), Clinical Research Unit

Ashish Datt Upadhyay

Scientist-II (Health Economics), Clinical Research Unit

Kamalesh Kumar Patel

Scientist-II (Health Economics), Clinical Research Unit

Sanjukta Sarkar

HIGHLIGHTS

Clinical Research Unit (CRU) at **AIIMS, New Delhi**, continues to play a pivotal role in advancing clinical research and fostering academic excellence through a multidisciplinary, evidence-based approach. Our mission to support high-quality, investigator-initiated research is reflected in a series of impactful initiatives and achievements. Below are the key highlights in the FY 2024-25:

1. **Mentorship and Grant Support**: CRU Scientists has provided comprehensive mentorship and technical support for the development of multiple extramural research proposals. These include successful applications to esteemed

funding bodies such as **Indian Council of Medical research (ICMR)**, **Department of Health Research (DHR)**, **Department of Biotechnology (DBT)**, and the **Royal Society of Tropical Medicine and Hygiene (RSTMH)**. This mentorship fosters a research-intensive environment within AIIMS.

2. **Organization of High-Impact Training and Workshops**: CRU has successfully conducted a series of workshops, training programs, and hands-on sessions tailored to build and strengthen research capacity. These events have equipped clinicians, scientists, and postgraduate students with essential skills in research methodology, clinical trial management, biostatistics, and evidence synthesis. The following workshops were organised during half yearly period of FY 2024-25 by the CRU team:

EDUCATION

CMEs/Workshop/Symposia/National and International Conference

S. No	Title of workshop	Dates	Total attendees
1.	REDCap	9-10 April	46
2.	Systematic Review and Meta-analysis	18-19 April 2024	67
3.	Serious Adverse Event	2 May 2024	34
4.	Cochrane Reviews	7-9 May 2024	25
5.	Grant Writing	30-31 July 2024	53
6.	Protocol Development for Investigator-Initiated Clinical Trials	30 September–1 October 2024	40
7.	COVIDence	18 November 2024	31
8.	Rayyan	9 December 2024	32
9.	SPSS	18 December 2024	46
10.	Ethics in Publication and Responsible Authorship	24 February 2025	38

1. **Dissemination of Research at Prestigious Forums**: Our team has actively participated in leading national and international conferences, presenting original research that has contributed to the growing body of evidence in global health and clinical sciences. These presentations have enhanced the visibility of AIIMS on international research platforms.

2. **High-Quality Research Publications**: CRU scientists have published 22peer-reviewed articles in reputed scientific journals, showcasing the clinical and public health relevance of their findings and reinforcing CRU's commitment to addressing pressing healthcare challenges through robust evidence generation.

Lectures delivered at CMEs, National and International Conference

Pradeep Kumar

1. Key steps to Conduct systematic review & metanalysis, 58th Foundation Day celebrations of Dr. R. P. Centre for Ophthalmic Sciences, AIIMS, New Delhi, 9 March 2025,

2. How to Conduct systematic review & metanalysis, Regional Capacity Building in Systematic Reviews in India under the SARANSH (Systematic Reviews And Networking Support in Health), AIIMS, New Delhi, 18-22 December 2024,

LECTURES DELIVERED OVER PAST 3 YEARS

Oral Presentations

1. Kumar P, Misra S, Nath M, Comparative Efficacy of DOACs vs. VKAs in Stroke Prevention for Atrial Fibrillation: A Network Meta-Analysis, 31st Annual Conference of the Indian Academy of Neurology, 17-20 October 2024, Visakhapatnam, India
2. Upadhyay AD, Patel K K, Kumar P, Navigating the Statistical Analysis Test to Graph", 20th Annual Conference of Indian Fertility Society, 6 December 2024, Ahmedabad, India

Poster Presentations

1. Kumar P, Misra S, Nath M, Machine learning in prediction of Headache spectrum, Consortium for Research Education Social Awareness & Training in Neurosciences (CREST) Neuro Conclave 2025, 9-12 January 2025, New Delhi, India
2. Patel K K, Kumar P, Upadhyay AD, Association of screen time and mental health in children A systematic review and meta-analysis, 6th Asian Population Association Conference, 2024, 27-30 November 2024, Kathmandu, Nepal

RESEARCH

Completed

1. Effect of different Iron folic acid (IFA) formulations, doses, frequencies on pregnancy and neonatal outcomes among anaemic pregnant women: A Systematic Review and Meta-analysis, Dr. Pradeep Kumar, ICMR, 1 Year, 2023-2024, Rs 7.50 Lakhs
2. Efficacy of supplementation/fortification of iron to low birth weight new born/ pre-term/SGA on Anemia status: A Systematic Review and meta-analysis, Dr. Pradeep Kumar, ICMR, 1 Year, 2023-2024, Rs 7.50 Lakhs

COLLABORATIVE PROJECTS

Ongoing

1. A comprehensive "multi-omics based approach to identify clinically actionable genes and tear fluid -based biomarkers in early onset keratoconus, RP Centre
2. Defining the whole exome sequencing based genetic determinants in Indian patients with congenital heart diseases, Cardiology
3. Expression of immune checkpoints in circulation and at maternal-fetal interface and its correlation with whole exome sequencing based genetic variants in pre-eclampsia patients, Obst & Gynae
4. Identification of blood-based protein biomarkers for stroke subtype differentiation and outcome prognostication using a high-throughput proteomics and machine learning approach, Neurology
5. Novel use of Etonogestrel (ETN) Subdermal Implant (SDI) in adolescents and reproductive age group women with cndometriosis and its comparison with Levonogestrcl Intra-Uterine System (LNG- JUS): A non-inferiority prospective pilot study, Obst & Gynae
6. Unravelling the causes of stroke and cognitive decline in general population: A cross-cultural perspective, Neurology

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Kumar P: Travel Grant to attend 11th European Stroke Conference (ESOC 2025) held from 21-23 May 2025 at Helsinki, Finland

Patel KK: Best poster award for the poster presentation entitled "*Association of screen time and mental health in children A systematic review and meta-analysis"* in the 6th Asian Population Association Conference at Kathmandu, Nepal, November 2024.

VISITING SCIENTIST:

The Research Deans of 19 other AIIMS visited CRU on 29 January 2025 to understand the working of CRU and desired to replicate the same in their own respective institutions. During this meeting it was also decided to include faculty in various programs of CRU like GCP training, Clinical Trial SOP and Health Economics etc.

Centralized Core Research Facility

Faculty &Scientists:

S. No	Sub-Facility	Faculty Coordinator	Scientist - II
1.	Bio-Analytics	T. Velpandian, Professor, Ocular Pharmacology & Pharmacy Division, RP Centre for Ophthalmic Sciences	Hanuman Prasad Sharma
2.	Bioinformatics	Punit Kaur, Professor, Department of Biophysics	Amit Katiyar, Dibyabhaba Pradhan
3.	BSL-3	Lalit Dar, Professor & Head, Microbiology	Sunita Kanswal
4.	Flow Cytometry	D.K. Mitra, Professor & Head, Department of T.I.I.	Rahul Sharma, Ravinder Singh
5.	General Facility	Kalpana Luthra, Professor & Head, Department of Biochemistry	Vikas Sharma, Shubbir Ahmed
6.	Genomics Core Facility	Madhulika Kabra, Professor and Head, Department of Pediatrics	Lata Rani
7.	Microscopy	Parthaprasad Chattopadhyay, Professor, Department of Biochemistry	Saumitra Dey Choudhury
8.	Proteomics	Punit Kaur, Professor & Head, Department of Biophysics	Sabyasachi Bandyopadhyay
9.	Project Management	Dean (Research) Associate Dean (Research)	Kamal Gulati

HIGHLIGHTS

Dr. Kamal Gulati coordinated a study tour visit of faculty and students of UCL Global Business School for Health, UK to AIIMS, New Delhi on 18 October 2024.

EDUCATION

	Co-Supervisor	DC member	No of students	Department
Ph. D.	Dr. Amit Katiyar & Dr. Dibyabhaba Pradhan	16	03	*Anatomy, Biochemistry, Forensic Science, Laboratory Medicine, Microbiology, Neuropathology, Pathology, Pharmacology*

Ph. D.	Dr. Sabyasachi Bandyopadhyay	04	00	Physiology, Pathology, *Neurology*
M.D.	Dr. Kamal Gulati	1	1	Hospital Administration
D.M.	Dr. Lata Rani	-	01	Obstetrics & Gynaecology
MSc		-	-	Six sessions of Bioinformatics classes to Teach MSc Biotechnology students of AIIMS.

CMES/WORKSHOPS/SYMPOSIA/NATIONAL AND INTERNATIONAL CONFERENCES

Organized at AIIMS, New Delhi:

1. A three Days flow cytometry wet workshop was jointly organized by the FACS Facility and BD Biosciences on the theme " Pushing the boundaries of flow cytometry: Image Enabled spectral cell sorting from 3-5 December 2024.
2. Hands on Workshop entitled "High-throughput RNA-sequencing data analysis" held at CCRF: Bioinformatics Facility, 5-6 November 2024.
3. Advanced 3D Image Processing Workshop using Arivis Pro 4.2 was organized on 21 January 2025.
4. Fall Live-Cell Imaging Hands-on Training Workshop was organized on 4-5 September 2024.
5. A flow cytometry wet workshop was jointly organized by the FACS Facility and CYTEK Biosciences Inc. on the theme "Spectral Flow Cytometry: Implications in Biomedical Research" on 01 August 2024.
6. A Basic flow cytometry hands-on workshop was organized by the FACS Facility on 19 July 2024
7. "Targeted multi-omics - Hands-on workshop using LC-MS/MS (Targeted Proteomics, Metabolomics and Lipidomics". 30 April 2024, AIIMS, New Delhi.
8. Spring Confocal and Super-Resolution Microscopy Hands-on Training Workshop was organized on 19-20 April 2024.
9. Hands-on workshops titled "Detection and quantitation of proteins by Western Blotting and Gel Documentation system" organized by CCRF: General facility on 4-5 June 2024 and 3-4 September, 2024

LIST OF POSTERS PRESENTED: 12

1. Gajendra, S Gupta R, Rani L, Kaur G, Dwivedi T, Basnal A, Sharma OD, Kumar L, Landscape of Genomic Aberrations in Multiple Myeloma., Society of Hematologic Oncology Twelfth Annual Meeting (SOHO 2024), September 4-7 September, 2024, Houston, Texas, USA
2. Goswami A, Alam N, Gupta V, Garg P, Katiyar A, Ojha V, Sharma P, Rathor S, Kumar S, Behera C, Ray R, Seth S, Arava S., Deciphering the genetic terrain of dilated cardiomyopathy: A preliminary study of 100 cases in the Indian sub-continent., ASHG (American Society of Human Genetics) Annual Meeting, November5-9 November, 2024, Denver, Colorado
3. Goswami G, Alam N, Garg P, Kumar Y, Dagar S, Das S, Kumar S, Katiyar A, Ojha V, Sharma P, Rathor S, Kumar S, Ray R, Seth S, Arava S, Arrhythmogenic cardiomyopathy: Genetic landscape and need for family screening in Indian scenario., Asia-Pacific region on arrhythmia (APHRS), September26-29 September, 2024, Sydney
4. Goswami G, Alam N, Gupta V, Garg P, Katiyar A, Ojha V, Sharma P, Rathor S, Kumar S, Behera C, Ray R, Seth S, Arava S., Hypertrophic cardiomyopathy contemporary outcomes of family screening and the necessity of whole exome sequencing in Indian sub-continent, The 5th Edition of the Cardiology World Conference, September 5-7 September, 2024, Madrid, Spain
5. Gupta SK, Leons GK, Sharma P, Rani L, Bakhshi S, Gupta R, Gajendra S, Sahoo RK, Pushpam D, Utility of Anchored Multiplex PCR and Targeted Sequencing in Fusion Detection in B-cell Acute Lymphoblastic Leukemia (B-ALL), ICKSH 2025, 27-29 March 2025, Seoul, South Korea
6. Gupta SK, Sharma P, Leons GK, Rani L, Bakhshi S, Gupta R, Gajendra S, Sahoo RK, Pushpam D., Role of Archer Fusionplex ALL sequencing panel in the genomic assessment of B-Cell acute lymphoblastic leukemia (B-ALL) in Indian patients., 25th Annual Academic Sessions of Sri Lanka College of Haematologists- Haem Icon 2024, 27-28 September 2024, Colombo, Sri Lanka
7. Gupta SK, Sharma P, Leons GK, Rani L, Bakhshi S, Gupta R, Gajendra S, Sahoo RK, Pushpam D., Detection of gene fusions using Archer Fusionplex ALL targeted sequencing panel in B-Cell Acute Lymphoblastic Leukemia (B-ALL)., SIOP-Asia conference, June22-25 June, 2024, North Yokohama, Japan
8. Rani L, Gupta R, Gogia A, Gajendra S, Kaur G, Sharma A, Kumar L, Multiplex ligation-dependent probe amplification (MLPA): Utility as a first line screening tool for detection of clinically relevant genomic aberrations in CLL., Society of Hematologic Oncology Twelfth Annual Meeting (SOHO 2024), September 4-7 September, 2024, Houston, Texas, USA
9. Riccardo Moia Thomas Chatzikonstantinou ……. Rani L…… et al., Clinical impact of clonal relationship in Richter transformation: an international multicenter study conducted by ERIC, EHA 2024, June13-16 June, 2024, Madrid, Spain
10. Sabyasachi Bandyopadhyay, Megha Brijwal, Aashish Choudhary, Lalit Dar, Punit Kaur, Gururao Hariprasad, Identification of SARS-COV-2 Mutated Peptides and Human Protein Biomarkers Flagging COVID-19

Pathogenicity: A Label-Free LC-MS/MS Proteomics Approach Using Naso- and Oro-pharyngeal Samples, International Conference on "Integrated omics approaches for decoding biological research" organized by Proteomics Society, India, 21-23 November 2024, National Chemical Laboratory, Pune

11. Sunita Kanswal, Biosafety and Biosecurity in Focus: New Directions in the 'Biosafety in Microbiological and Biomedical Laboratories' (BMBL) guidelines in the post-COVID-era, VIROCON 2024, 11-13 November 2024, Gwalior
12. Vitale C, Chatzikonstantinou T, Karakatsoulis G.…Rani L……et al., Impact of venetoclax-based therapies on autoimmune cytopenias in patients withchronic lymphocytic leukemia: amulticenter study conducted by ERIC, the European Research Initiative on CLL, EHA 2024, 13-16 June 2024, Madrid, Spain

ORAL/POSTER PRESENTATIONS OVER PAST 3 YEARS

Presentation	2022–23	2023–24	2024–25
Poster	2	7	12

RESEARCH

Funded projects

Ongoing

Bioanalytics

1. Integrative transcriptomics and metabolomic profiling of Juvenile Idiopathic Arthritis for identifying potential biomarkers and drug candidate, Dr. Hanuman Prasad Sharma, AIIMS-Intramural grant, 2 Years, 2024-2026, Rs 10 Lakhs

BSL-3

1. Advancing High Containment Laboratory (HCL) Operations and Maintenance (O&M) Programs to Secure High-Consequence Pathogens in India., Dr. Vikram Saini, U.S. Department of State's Office of Cooperative Threat Reduction (CTR) and ICDDR, Dhaka, 1 Year, 2024-2025, Rs 15 Lakhs

General Facility - Vikas Sharma

1. Deciphering the role of RNA modifications in development of therapeutic resistance in IDH1 WT glioblastoma., Dr Vikas Sharma (PI), AIIMS intramural Funding, 1 Year (extendable for next year), 2024-2025, Rs 10 Lakhs (5 Lakhs per year)

General Facility - Shubbir Ahmed

1. Establishing cyclic-peptide phage display library to screen for cyclic-peptide inhibitors against programmed cell death 1 (PD-1) protein as cancer therapeutic, Dr. Shubbir Ahmed, AIIMS Intramural, 2 Years, 2025-2027, Rs 10 Lakhs (5 lakh/yr)

Genomics

1. Feasibility of Optical Genome Mapping in the Assessment of Genomic Complexity in Newly Diagnosed Multiple Myeloma-A Pilot Study., Lata Rani, AIIMS &CSIR-IGIB, 2 Years, 2025-2027, Rs 20,00,000/-
2. Next generation sequencing based determination of Immunoglobulin heavy variable somatic hypermutation status in chronic lymphocytic leukemia for improving diagnostic and therapeutic approaches, Lata Rani, AIIMS-Intramural, 2 Years, 2025-2027, Rs 10 Lakhs

Departmental projects (including thesis/dissertations):–

Collaborative projects

Ongoing

Bioanalytics

1. Correlation of antidepressant therapy with orexinergic pathway integrating targeted metabolomics in patients with major depressive disorder: a longitudinal study, Department of pharmacology, AIIMS
2. Exploratory analysis of the association between pyrethroid exposure and Parkinson's disease: A Case-control study, Department of pharmacology, AIIMS
3. Metabolic profiling of prostate cancer to identify biomarkers using Nuclear Magnetic Resonance and Mass Spectrometry, Department of NMR, AIIMS

4. Microbiome-metabolome axis in non-small cell lung cancer, Department of pathology, AIIMS
5. TLR4linked gut-ocular axis in the idiopathic uveitis: potential pathway for rationalizing treatment strategies, Department of Ocular Pharmacology, AIIMS

Bioinformatics

Ongoing

1. Ab initio identification of T cell epitopes for tuberculosis vaccine candidate, Biochemistry, AIIMS
2. Comparative assessment of cancer driver genes and mutational signatures of Xeroderma pigmentosum with sporadic skin cancers, Dermatology, AIIMS
3. Deciphering the role of RNA modifications in development of therapeutic resistance in IDH1 WT glioblastoma, CCRF, AIIMS
4. Defining the whole exome sequencing based genetic determinants in Indian patients with congenital heart diseases, Cardiac Biochemistry, AIIMS
5. Transforming CNS Tumor Care: Harnessing Histopathological Data, Multiomics and Artificial Intelligence for Precision Diagnosis and Effective Management, Department of Neuropathology, AIIMS

Completed

1. Establishing the cause in sudden unexplained deaths in Young, Pathology, AIIMS
2. Transforming CNS Tumor Care: Harnessing Histopathological Data, Multi-omics, and Artificial Intelligence for Precision Diagnosis and Effective Management, Neuropathology, AIIMS

Genomics

Collaborative projects

Ongoing

1. Ambispective Observational study to assess alteration in fecal microbiota in operated patients of choledocal malformation., Department of Microbiology, AIIMS
2. To assess the incidence and prevalence of second primary malignancies (SPM) both preceding or following CLL diagnosis and their impact on the disease course and overall survival (OS), Laboratory Oncology Unit, Dr. BRAIRCH, AIIMS

Completed: **Nil**

1. A multi-omics study and development of a prognostic computational model for COVID-19 to correlate clinical outcomes and disease sequelae with the differential immunological response, mutational and vaccination status in India, Department of Biophysics

Microscopy

1. Deciphering alterations in synaptic and extra-synaptic GABAA receptor configuration and their role in modulation of GABAergic activity in Focal Cortical Dysplasia, Department of Biophysics, AIIMS New Delhi
2. Role of Mitochondria-Endoplasmic Reticulum Cross-Talk in Follicular Dynamics in Premature Ovarian Insufficiency, Department of Reproductive Biology, AIIMS New Delhi

Proteomics

Collaborative projects

Ongoing

1. Multiplexed Spatially Resolved Analysis of Protein Signature of the Invasive Front of Oral Squamous Cell Carcinoma, Department of Pathology, AIIMS, New Delhi
2. Proteomic-based Outcome Biomarker Exploration in ESKAPE Organism Sepsis in Major Burns (PROBESCAPE), Department of Plastic, Reconstructive & Burns Surgery, AIIMS, New Delhi
3. Serum proteomics for the identification of biomarkers to flag predilection of COVID-19 patients to various organ morbities, Department of Biophysics, AIIMS, New Delhi
4. To study the role of serum proteomics profiles in subjects with metabolic syndrome, Department of Medicine, AIIMS, New Delhi

RESEARCH OVER PAST 3 YEARS

Research Project/ Faculty	2022–2023	2023–2024	2024–25
CCRF scientists	1	2	7

SERVICES PROVIDED

i. **Bioanalytics** - The Bioanalytics facility employs state-of-the-art instruments for the isolation, purification, and mass spectrometric characterization of analytes derived from biological sources, including humans, animals, plants, and microorganisms. The facility offers thorough in-silico data analysis for multi-omics projects. Furthermore, the facility offers a platform for the specialized analysis of proteins identified through Discovery-type experiments.

Services provided	Number of users			
	2022–23	2023–24	2024–25	Total hours
Consultation regarding planning and execution of bioanalytical work	15	16	25	N/A
Execution of bioanalytical work	4 (600 hrs)	5 (1000 hrs)	7 (1150 hrs)	2750 hrs
Multi-omics data analysis	Nil	2 (100 hrs)	2 (100 hrs)	200 hrs

ii. **Bioinformatics** facility is a high-performance computing facility consisting of high-end GPU/CPU based compute nodes (for NGS data analysis, molecular modeling, deep learning etc.,), RAM 3.4TB and 1PB PFS storage systems. This facility works closely with other core facilities (such as genomics, proteomics, metabolomics, etc.) by providing continuous and seamless data storage, access, and analysis of the large amount of data generated by these and others departments/center/facilities. To date, the facility has provided services to over 32 departments/centre of AIIMS on more than 55 large-scale projects in genomics, next-generation sequencing, and clinical research. The facility also supports MSc/MD/ PhD students in achieving their scientific goals and contributes in developing projects in genomics and NGS.

iii. **Flow-Cytometry core facility** stands at the forefront of advanced cell analysis and sorting technologies and provides state of the art instrumentation and resources for fluorescent analysis of cells at the single cell level, including high-speed fluorescence-activated cell sorting. The facility houses two most advanced flow cytometers, BD FACS Aria Fusion Sorter (18 color 5 LASER) and BD FACS Symphony A5 (35 Color, 5 LASER) with the dedicated scientific and technical team. The facility is fully operational to the researchers and assist at every step from experimental /panel design to data analysis in all the areas of flow cytometry including training, workshop, acquisition, data analysis, and cell sorting etc.

Services provided			
	2022–23	2023–24	2024–25 (Current)
BD FACS Aria Sorter	32	49	226
BD FACS Symphony	150	504	853
TOTAL	182	553	1079

Services provided

BD FACS Aria Sorter	03	06	10
BD FACS Symphony	13	21	28
TOTAL	16	27	38

iv. **General Facility**:

The General Facility at CCRF serves as a key sub-facility dedicated to molecular research, offering cutting-edge instrumentation and expert technical support. This facility acts as a vital hub for researchers, enabling them to perform complex experiments and efficiently process samples. The GF is equipped with an impressive array of advanced equipment, ensuring comprehensive support for a wide range of scientific needs. These include instruments such as PCR machines, electrophoresis systems for DNA/RNA and protein analysis, multimode readers, refrigerated centrifuges, Ultracentrifuges, Gel documentation systems, lyophilizers, biosafety hoods, and many others. The GF not only provides state-of-the-art tools but also fosters skill development through hands-on training and guidance. Regular training sessions are organized for faculty, researchers, staff, and students at AIIMS, covering essential molecular biology techniques. Beyond supporting experimental work, scientists at

the General Facility are actively engaged in research, both independently and in collaboration, contributing to projects funded by AIIMS and other prestigious national agencies. Overall, the General Facility blends advanced technology, training opportunities, and active research involvement, thereby driving progress and innovation in the field of molecular and protein biology.

v. Genomics

Services provided by Genomics Facility			
	2022–23	**2023–24**	**2024–25 (Current)**
Library Preparation	Exome Sequencing (n=32), Chromosome screening (n=36)]	356	122
SARS-CoV-2 sequencing	872	272	Nil
Fragment Analyzer	75	195	183
Qubit	500	1578	791
Protocol and experiment design for submission of grant proposal/for achieving the objectives proposed	05 users	05 users	07

Microscopy

Microscopy: The confocal system was installed in CCRF in November 2020 and has been operational

since February 2021. It has been used extensively by researchers from various departments since then. This state-of-the-art confocal system is equipped with a temperature and gas-controlled incubation chamber for live imaging applications. The system was upgraded to a semi super-resolution system by adding the Airyscan module in January 2023. In the year 2024-2025, this facility has helped researchers in the fields of anatomy, biochemistry, biophysics, biotechnology, cardiac biochemistry, gastroenterology, pathology, neuropathology, pharmacology, medical physics/ medical oncology-IRC Hand reproductive biology among others towards addressing their research questions related to biomarker discovery, clinicopathology, drug assay, and molecular diagnosis. In terms of capacity building and knowledge dissemination, the facility has conducted 3 training workshops.

Department-wise usage of LSM980 Confocal Microscope in 2024-2025

Proteomics

Support for gel-based (2D-GE and DIGE) and LCMS/MS based proteomics experiments from all sorts of biological samples like cells, tissues, biofluids and microorganisms. Qualitative and quantitative comprehensive proteomics experiments (label free and label based) and data analysis for protein biomarker discovery and targeted proteomics. Have provided facility and support to 38 students and scholars from 16 departments at AIIMS. Various types of supports were provided which include but not limited to (1) Proteomics study designing, (2) Sample processing, (3) Vacuum concentration of solutions containing biological samples (4) LCMS/MS Data analysis both discovery and targeted (5) Bioinformatics analysis (6) Submitting project proposal, and (7) Submitting article for publications.

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Dr Kamal Gulati received Oxford Centre for Mutual and Co-owned Business's Professor John Hoffmaire interviewed Dr. Kamal Gulati and published on Centre for Business & Poverty (2024). Received Best Research Paper Award at the India Management Research Conference (2024), Indian Institute of Management, Ahmedabad. The George Institute for Global Health India and Indian Institute of Management (IIM), Bangalore Travel Grant as speaker in the 8th Global Symposium on Health Systems Research (HSR 2024) held at IIM, Bangalore, 5-7 September 2024. Co-National Coordinator, PAN-AIIMS Research Consortium. Coordinator, for AIIMS-UCL-IITD Trilateral (MedTech)research scheme, and AIIMS-UCL Bilateral research scheme. Continued to serve as Honorary Lecturer at University College London (UCL) Global Business School for Health 2023-2026.

ACTION PLAN

To fully operationalize CCRF by restoring the BSL-3 and Proteomics Laboratories, and upscaling other labs, thereby enhancing support for faculty and student researchers at AIIMS.

Participants during the *Advanced 3D Image Processing Workshop using Arivis Pro 4.2* organized on January 21st, 2025 at CCRF.

Centre for Medical Innovation and Entrepreneurship (CMIE)

Centre for Medical Innovation and Entrepreneurship (CMIE) is flagship bio-incubator at All India Institute of Medical Sciences, New Delhi supported by BIRAC, GoI and AIIMS, New Delhi. Launched in June 2021, CMIE operates from two sites: a. Room No. 901, 9th Floor, National Centre for Ageing, AIIMS which houses landing office and laboratory. The facility was officially inaugurated on 19th October 2023 by Professor M. Srinivas, The Director, AIIMS in August presence of Professor Jeewan S Titiyal, Dean (RS), Professor Kaushal K. Verma, Dean (Academics) and members from BIRAC and faculties of AIIMS, New Delhi) b. 4th and 5th floor of Research Block, NCI, Jhajjar Campus of AIIMS, Delhi which houses the office, meeting rooms and fully-functional laboratories including central laboratory facility for the incubatees. The facility of NCI – AIIMS, Jhajjar will be used extensively by all the incubatees of CMIE – AIIMS. This facility was inaugurated by Union Health Minister Dr Mansukh Mandaviya in the presence of MoS (Health) Prof S P Singh Baghel & Dr Bharati Pravin Pawar, and other dignitaries on 13th December 2023. CMIE seeks to capitalize on indigenous academic innovations in the healthcare sector by enabling the results of research efforts carried out by such Faculty/Scientist/ Students/Residents/Researchers of AIIMS, New Delhi. Along this line, CMIE – AIIMS also enables Indian startups working in healthcare area to leverage the mentorship and guidance of AIIMS clinical and non-clinical faculty, and also by giving them paid access to advanced laboratory equipment and resources at AIIMS. Since its inception, CMIE – AIIMS has incubated 21 innovators including 16 start-ups, 5 inhouse faculties with 2 graduated start-ups who are mentored by faculties from various department of AIIMS including Department of Microbiology/Laboratory Medicine/Stem Cell/RPC and others. A notable achievement of CMIE – AIIMS is the support offered to the faculty members of AIIMS, Delhi to write and submit their innovations to BIRAC under the Biotechnology Ignition Grant (BIG) wherein, 5 faculties (out of 11 applications) have been granted the award from the BIG – 21, 22 and 23 call. The faculties winning the BIG award are Professor Deepak Aggarwal, Department of Neurosurgery (BIG – 21); Dr. Pragyan Acharya, Department of Biochemistry (BIG – 21); Professor Alok Thakar, Department of Otolaryngology & Head-Neck Surgery (BIG – 22); Professor Vineet Ahuja, Department of Gastroenterology (BIG – 23). CMIE – AIIMS has also supported faculty members with the other schemes like PACE, SIBRI supported by BIRAC.

HIGHLIGHTS

The expansion of the department, which was started a couple of years back continued this year also. Anaesthesia services were extended in Surgery Block to eight operation theatres from six operation theatre including a dedicated theatre for complex robotic surgeries. Round the clock paediatric emergency services were started in the Mother & Child block in this year. The department also started round the clock haemodialysis facility in the Surgery block ICU, which eliminated the need to shift critically ill patients to the Main Block from there. With the availability of the cutting-edge technology in Pain OPD, a number of complex procedures are being performed there only, which significantly reduced patients' waiting time.

This year, the department organized an international conference on critical care, 'Recent Advances in Critical Care 2024', which was graced by nearly one hundred national and international faculty members and more than two hundred and fifty delegates. The conference hosted six workshops for physicians, one workshops for critical care nursing staff and technicians each, and nearly 80 lectures over two days.

Apart from this, the department organized a number of workshops and symposiums including simulation-based teaching program. The exhaustive teaching program of the department was further strengthened as four faculty members were promoted to the post of professor. The faculty members of the department were involved in several academic programs and community medical services across the country.

EDUCATION

Academic Course/ Degree	Number of students
M.D. Anaesthesiology	92
D.M. Critical Care Medicine	26
Fellowship in Pain Medicine	8
BSc Operation Theatre Technology	43

Educational programs and classes taken

The department runs a robust academic schedule for MD (Anaesthesiology), DM (Critical Care Medicine), Fellowship in Pain Medicine, MBBS & BSc OT Technology students. The usual academic schedule comprises of weekly seminars, case presentations, journal club and tutorials by the faculty members. An orientation academic program was also scheduled for the newly joined junior residents of the department. From this year onwards, a 'grand round' was started for the clinical discussion about the critically ill patients admitted in different ICUs of the département. The faculty members were also regularly involved in teaching program of BSc Nursing and MSc Critical Care Nursing.

In collaboration with the Hospital Infection Control Committee and the Department of Microbiology, a series of orientation program on 'Infection Control' were organized for all health care workers of the department.

A high- fidelity human patient simulation-based clinical scenario management program was already in place for the junior residents. The simulation based teaching program was further strengthened by the incorporation of a number of newly joined faculty members. A number of workshops for developing advanced technical skills such as ultrasound guided regional anaesthesia and vascular access were organized for the residents of the department.

MBBS teaching program of the department was not limited to the classroom lectures by the faculty members but also included clinical teaching in the operating room. Apart from the regular academic schedule, a number of guest lectures and workshops/ symposia were organized for the post-graduate and doctoral residents.

7. Fluid resuscitation in critically ill patients, 5th International & 15th National Conference of Indian College of Anaesthesiologists (ICACON), 14 September 2024, Lucknow
8. Experience on DM Critical Care Medicine Program at AIIMS, New Delhi, India, DM in Critical Care Medicine Curriculum Development Workshop, 22 September 2024, Nepal
9. Transfusion during obstetric haemorrhage: When and how? 63rd Annual Conference of Indian Society of Anaesthesiologists Delhi Branch – ISACON Delhi held at Hyatt Centric Janakpuri, New Delhi, 28 September 2024, New Delhi
10. Refractory Hypoxemia and Mechanical Ventilation: Simplifying goals, 2nd Annual Conference of Society of Trauma Anaesthesia and Critical Care, 5 October 2024, Varanasi
11. Point of care ultrasound- Current and evolving role in critical care, Critical Care Update Conference and Workshop, 15 October 2024, Srinagar
12. NIV in respiratory failure, Critical Care Update Conference and Workshop, 16 October 2024, Srinagar
13. Emergency Regional blocks and the critical polytrauma patient: Challenges & Solutions, Workshop on Nerve and Plexus Blocks, 17 November 2024, Chandigarh
14. Management of sepsis and septic shock: an update, 71st Annual Conference of the Indian Society of Anaesthesiologists, ISACON 2024, 21 November 2024, Patna
15. Current Methods of Donor Analgesia Epidural vs Newer methods of Nerve blocks, 7th Annual Conference of the Liver Transplantation Society of Indian (LTSICON 2024), 29 November 2024, Hyderabad
16. Compassion in Health care, Induction course for DNB Residents, 27 February 2025, Chennai (Online)

Jyotsna Punj

1. Ultrasound Truncal Blocks, CME cum workshop on basic ultrasound guided nerve blocks and intravenous access, 27 April 2024, Thimpu, Bhutan
2. Ultrasound truncal blocks, CME cum workshop on basic ultrasound guided nerve blocks and intravenous access, 28 April 2024, Thimpu, Bhutan
3. Ultrasound intravenous access, CME cum workshop on basic ultrasound guided nerve blocks and intravenous access, 29 April 2025, Thimpu, Bhutan
4. Ultrasound truncal blocks, North Zone – ISACON, 20 September 2024, Jammu
5. Ultrasound guided sympathetic blocks- is it the holy grail, North Zone – ISACON, 21 September 2024, Jammu
6. Ultrasound guided sympathetic blocks- is it the holy grail, 17th Asian & Oceanic Society of Regional Anaesthesia and Pain Medicine (17th AOSRA -PM 2024), 28 September 2024, Danang, Vietnam
7. Ultrasound truncal blocks, Annual Pain Sessions, 24 October 2024, Colombo, Sri Lanka
8. Sympathetic blocks in children, Annual Army Medical Conference, 15 February 2025, Colombo, Sri Lanka
9. Ultrasound truncal blocks, Workshop cum CME on ultrasound blocks, 8 March 2025, Srinagar
10. Ultrasound intravenous access, Workshop cum CME on ultrasound blocks, 9 March 2025, Srinagar
11. Emergency management of laparotomy of uncontrolled diabetes patient, North Zone PG Assembly, 23 March 2025, Jammu
12. PAC-latest guidelines, North Zone PG Assembly, 23 March 2025, Jammu

Ravinder Kumar Pandey

1. Ultrasound Guided lower limb blocks for Knee and Hip Arthroplasty, CME cum workshop on basic and Advanced ultrasound guided peripheral nerve blocks, 27 April 2024, Thimpu, Bhutan
2. Ultrasound Guided Thoracic blocks (PECSI &II, SAP, Paravertebral, ESPB, Intercostal Nerve Block, Pecto-Intercostal fascial (PICB) Nerve Block, CME cum workshop on basic ultrasound guided peripheral nerve blocks, 28 April 2024, Thimpu, Bhutan
3. Ultrasound Guided blocks for pathologies involving Lumber disc, Transforaminal nerve entrapment, facet and SI joint pathologies (Interlaminar, Transforaminal, Facet and SI joint, Lumbar and sacral ESP block, TLIP block), CME cum workshop on basic ultrasound guided peripheral nerve blocks, 29 April 2024, Thimpu, Bhutan
4. Ultrasound Guided nerve blocks for lower limb surgeries, North Zone – ISACON at Government Medical College, Jammu, 20 September 2024, Jammu
5. Ultrasound-guided interfascial plane blocks for lumbar disc surgeries, North Zone -ISACON at Government Medical College, Jammu, 20 September 2024, Jammu
6. Ultrasound-guided Lower Extremity Blocks (Femoral N, Obturator N, LFCN, FICB, PENG, Adductor Canal), Annual Pain Sessions of College of Sri Lanka – 2024 Ultrasound Guided Regional Nerve Blocks, 24 October 2024, Colombo, Sri Lanka
7. Ultrasound-guided Lower Extremity Blocks (Genicular nerves, Anterior and Posterior Approach of Sciatic, Ankle block), Annual Pain Sessions of College of Srilanka– 2024 Ultrasound Guided Regional Nerve Blocks, 25 October 2024, Colombo, Sri Lanka
8. Anaesthetic Management for Invitro fertilization" – Current Trends and Safe Anaesthesia Techniques, Sri Lanka College of Military Medicine (SLCOMM) organized by Army Hospital Colombo. Theme- Advancing Military Health Care Excellence, Innovation and Global Impact, 15 February 2025, Colombo, Sri Lanka
9. Ultrasound-guided Basic and Advanced Peripheral nerve Blocks for Hip and Knee Arthroplasty and lower limb surgeries, Workshops cum CME on Ultrasound Guided Peripheral Nerve Blocks, 8 March 2025, Srinagar
10. Ultrasound-guided Basic and Advanced Peripheral nerve Blocks for Hip and Knee Arthroplasty and lower limb surgeries, Workshops cum CME on Ultrasound Guided Peripheral Nerve Blocks, 9 March 2025, Srinagar

Rashmi Ramachandran

1. Peri-operative fluid therapy in pediatrics is it different from adults?, Symposium on Fluid therapy in Perioperative & amp; Critical Care, 28 April 2024, New Delhi
2. Challenges in Debriefing- Moderator, Professional Development Program for Nursing Simulation Practitioners-Training of Trainer's workshop, 10 August 2024, New Delhi
3. Orientation to ACRM, 5th International & 15th National Conference of Indian College of Anaesthesiologists, 13 September 2024, Lucknow
4. Simulation-based assessment in healthcare, Workshop on Assessment methods in Medical Sciences, 21 September 2024, New Delhi
5. Foundations of Qualitative research- Introduction, Workshop on Qualitative research in Medical education- Basic level, 13 November 2024, New Delhi
6. Foundations of Qualitative research- Introduction, Workshop on Qualitative research in Medical education- Basic level, 18 December 2024, New Delhi
7. Overview of Qualitative research in Medical education, Workshop on Qualitative research in Medical education-Advanced level, 4 February 2025, New Delhi
8. Urgent Solution Generation-Moderator for Panel discussion, Brainstorming Workshop on Innovations in Medical Simulations, 15 March 2025, Chennai
9. Refining and Prioritizing Solutions- panelist, Brainstorming Workshop on Innovations in Medical Simulations, 15 March 2025, Chennai

Anjolie Chabbra

1. Safe Anaesthesia for Children, Public Lecture on the Surgical Health of Children, 7 April 2024, New Delhi
2. My Worst Nightmare in the Operating Room- Pediatric Anaesthesia session, 32nd Annual National and 3rd International Conference of the Research Society of Anaesthesiology and Clinical Pharmacology, 19 April 2024, Jodhpur

Puneet Khanna

1. USG lung, Clinical training workshop on perioperative ultrasound, 6 April 2024, Bhatinda
2. FAST, E-FAST and lung POCUS, The Clue Pocus Course-2024, 25 May 2024, Sri Nagar
3. POCUS - lung, ISACON 2024, 18 July 2024, Salem
4. POCUS- Basic of USG, YUVAISACON-2024, 2 August 2024, Dehradun
5. Gastric POCUS, RACC-2024, 25 August 2024, New Delhi
6. POCUS- lung, 20th NZISACON' 24, 21 September 2024, Jammu
7. AI in anesthesia and critical care, 63rd Annual Conferences of Indian Society of Anaesthesiologists, 27 September 2024, New Delhi
8. POCUS, Critical Care Update and Workshop, 15 October 2024, Sri Nagar
9. Moderate MS presenting with labor pains at 38-week POG, ARC North Zone Anaesthesia Review Course, 19 October 2024, Chandigarh
10. Young intensivist, Webinar on Renal Pocus, 3 November 2024, New Delhi
11. Regional Capacity Building in Systematic Reviews in India with our Greatest Appreciation, SARANSH, 18 December 2024, New Delhi
12. FAST, E FAST, Clue Pocus Course-2025, 11 January 2025, Gurugram

13. Diwali, Firecrackers, Winter Stove- Smoke Saga and Acute Airway Burns: When and How to Intubate in Trauma Bay, Airways in Trauma Emergency, 19 January 2025, Chandigarh
14. ECHO, Point of Care Ultrasound in Acute Care (POCUS- 2025), 25 January 2025, Bhubaneswar
15. ENTEROCOCCUS - The Steadily rising challenge, ID Weekend-2024, 15 February 2025, Gurugram

Debesh Bhoi

1. Hip-Joint Denervation, 2nd Annual Conference cum Workshop of ISA City Branch Shimla (ISACON 2024), 25 May 2024, Shimla
2. "PENG" Block, Ultrasound Guided Regional Anaesthesia Training Programme (Indian Diploma Regional Anaesthesia (IDRA) workshop, aegis of Indian College of Anaesthesiologists (ICA), 7 June 2024, Online
3. Cooled RF Ablation of Hip articular branches & review of literature, ISSP -Delhi chapter-Moderation of session, 16 June 2024, Online
4. Honey, I injured the nerve! - A tale of sleepless nights, 14th Annual Conference Academy of Regional Anaesthesia of India (AORA), 24 August 2024, Hyderabad
5. Regional Anaesthesia Ultrasound & PNS Workshop, 14th Annual Conference Academy of Regional Anaesthesia of India (AORA), 24 August 2024, Hyderabad
6. Use of corticosteroids for adult chronic pain interventions: Sympathetic and peripheral nerve blocks, trigger point injections: Recent Guidelines, ISSP -Delhi Chapter-Moderation of session, 6 September 2024, New Delhi
7. Basics of US-guided Regional Anaesthesia Practice Interscalene & Supraclavicular Block, ICACON 2024, 13 September 2024, Lucknow
8. Knee surgery Analgesia: Panel Discussion, YATARTHCON, 13 September 2024, Greater Noida
9. Sacro-Iliac Joint injections, Caudal, Pudendal, Pyriformis -Volunteer Demonstration, North Zone ISACON 2024, 20 September 2024, Jammu
10. Introduction and Basics of US Regional anaesthesia practice, ISACON- Delhi Ultrasound Regional Anaesthesia workshop, 27 September 2024, New Delhi
11. Sympathetically mediated Pain, 2nd STACC- Society of Trauma Anaesthesia & Critical Care, 5 October 2024, Varanasi
12. Neuropathic Pain-Panel discussion, India Pain Update Conference, 23 November 2024, New Delhi
13. Post TKR Knee Pain with Effusion, ISSP, Jabalpur, 9 February 2025, Jabalpur

Bikash Ranjan Ray

1. Lung Ultrasound: Identifying Lung Pathologies, DHR-ICMR Clinical Training Workshop in Perioperative Ultrasound, 6 April 2014, Bhatinda
2. Point of care Echocardiography, COMPENDIUM 2024, 12 April 2024, Gun Mangalgiri
3. Mock exam DM CCM - ARDS, COMPENDIUM 2024, 12 April 2024, Gun Mangalgiri
4. Lung Ultrasound, RACPCON-2023, 21 April 2024, Jodhpur
5. Assessing Fluid Responsiveness, Fluid Therapy in Perioperative & Critical Care, 28 April 2024, New Delhi
6. Panel Discussion: Perioperative Fluid Therapy, Fluid Therapy in Perioperative & Critical Care, 28 April 2024, New Delhi
7. Deep vein thrombosis, POCUS Ultrasound Course, 19 May 2024, Agra
8. US for venous access, POCUS Ultrasound Course, 19 May 2024, Agra
9. Lung & Diaphragm Ultrasound, CLUE POCUS, 25 May 2024, Srinagar
10. Basic Cardiac Ultrasound, CLUE POCUS, 25 May 2024, Srinagar

11. Integrated POCUS, CLUE POCUS, 25 May 2024, Srinagar
12. Moderator: ARDS Case Presentation, Younge India Intensivist Forum, 26 May 2024, Online
13. US for Hemodynamic, UEBA-2024, 1 June 2024, New Delhi
14. RV function assessment, Meridian Criticon 2024, 2 June 2024, Chennai
15. POCUS pearls debate, Meridian Criticon 2024, 2 June 2024, Chennai
16. ECMO Evolving Therapy, EUROASIA-2024, 20 June 2024, Bengaluru
17. Legal and Ethical Issues in Critical care Nurshing, Critical Care Nurshing Update 2024, 11 July 2024, Delhi
18. Resuscitation of Chest Trauma Patient, Vayu CCM 2024, 13 July 2024, Kolkata
19. Carrier in Intensive Care- Panel Discussion, Vayu CCM 2024, 13 July 2024, Kolkata
20. Integration of POCUS knowledge, HELP 2024, 20 July 2024, Nagpur
21. Lower limb Blocks, YUVA ISACON 2024, 2 August 2024, Dehradun
22. Moderator: Journal Presentation, Young India Intensivist Forum, 4 August 2024, Online
23. Cardiac Arrhythmias in ICU, Medanta Refresher Course, 8 August 2024, Gurgaon
24. Lung Ultrasound, Recent Advances in Critical Care {RACC-2024}, 24 August 2024, Delhi
25. Ultrasound-guided PCT, Recent Advances in Critical Care (RACC-2024), 24 August 2024, Delhi
26. VIDD: Prevention & Management, Recent Advances in Critical Care (RACC-2024), 25 August 2024, Delhi
27. FATE 1: Basic Echo, YATAHARTHCON, 13 September 2024, Greater Noida
28. FATE 2: Advanced ECHO, YATAHARTHCON, 13 September 2024, Greater Noida
29. HIT: How common?, 4th World Conference/Workshop on Comprehensive Critical Care (W4C), 21 September 2024, Bhubaneswar
30. Moderator: Journal Review, Global Intensive Care Symposium (GICS Journal Review), 26 September 2024, Online
31. POCUS: Heart in Focus, KMCH ICU Update, 29 September 2024, Coimbatore
32. Ultrasound for Vascular Access, Critical Care Update, 15 October 2024, Srinagar
33. Lung & Diaphragm Ultrasound, Critical Care Update, 15 October 2024, Srinagar
34. Integrated POCUS knowledge for diagnosis, Critical Care Update, 15 October 2024, Srinagar
35. RV Function, Global Intensive Care Symposium (GICS -24), 17 October 2024, Bengaluru
36. Hepato Renal Syndrome, Global Intensive Care Symposium (GICS-24), 19 October 2024, Bengaluru
37. Moderator: Journal Presentation, Young India Intensivist Forum, 4 August 2024, Online
38. Moderator, Fluids Around the Globe, 27 August 2024, Online
39. Moderator, FICCS- Succex-T, 12 November 2024, Online
40. IVC Assessment & RUSH Protocol, 8th SRM Pulmocrit, POCUS Workshop, 14 November 2024, Bareli
41. ONSD, 8th SRM Pulmocrit, POCUS Workshop, 14 November 2024, Bareli
42. Sodabicarb in ICU, 8th SRM Pulmocrit Conference, 17 November 2024, Jim Corbet National Park
43. Airway Ultrasound, ISACON-24 Masterclass POCUS, 23 November 2024, Patna
44. Basic Echocardiography, ISACON-24 Masterclass POCUS, 23 November 2024, Patna
45. FAST, ISACON-24 Masterclass POCUS, 23 November 2024, Patna
46. Airway Ultrasound, POCUS Workshop Daily Rounds, 30 November 2024, Bengaluru
47. Ultrasound for Vascular Access, POCUS Workshop Daily Rounds, 30 November 2024, Bengaluru
48. Ultrasound for Nerve Block, POCUS Workshop Daily Rounds, 30 November 2024, Bengaluru

49. Evaluation of RV Function, Cardiac Lung Ultrasound Echo (CLUE), 13 December 2024, Delhi
50. Moderator: Journal Presentation, Young India Intensivist Forum, 15 December 2024, Online
51. VEXUS, Cardiac Lung Ultrasound Echo (CLUE) POCUS, 12 January 2025, Gurgaon
52. DVT, Cardiac Lung Ultrasound Echo (CLUE) POCUS, 12 January 2025, Gurgaon
53. Ultrasound Physics & Principles, CME on POCUS, 19 January 2025, Goa
54. Airway Ultrasound, CME on POCUS, 19 January 2025, Goa
55. Lung Ultrasound & BLUE protocol, CME on POCUS, 19 January 2025, Goa
56. FAST & E-FAST, CME on POCUS, 19 January 2025, Goa
57. Ultrasound for Vascular Access, CME on POCUS, 19 January 2025, Goa
58. Podcast: Advances in Critical Care, Younge India Intensivist Forum, 22 January 2025, Online
59. Ultrasound Physics, Ultrasound in Acute Care, 25 January 2025, Bhubaneswar
60. Evaluation of Diaphragm by US, Ultrasound in Acute Care, 25 January 2025, Bhubaneswar
61. Basic Echocardiography, Ultrasound in Acute Care, 25 January 2025, Bhubaneswar
62. VEXUS, Ultrasound in Acute Care, 25 January 2025, Bhubaneswar
63. LV Function, Evidence-based practices in Critical Care (EPIC) 2025, 31 January 2025, Raipur
64. Pharmacotherapy in ARDS, Evidence-based practices in Critical Care (EPIC) 2025, 1 February 2025, Raipur
65. Panel discussion on Weaning from Mechanical Ventilation, Evidence-based practices in Critical Care (EPIC) 2025, 1 February 2025, Raipur
66. Superbug infection in INDIA, Evidence-based practices in Critical Care (EPIC) 2025, 1 February 2025, Raipur
67. ECHO: Basic views & LV Function, TRACE-ICU POCUS 2025, 16 February 2025, Guwahati
68. Moderator: CCB / Beta Blocker Poisoning, Yashoda Hospital Webinar, 4 March 2025, Online
69. Choking, AHA BLS Course, 4 March 2025, New Delhi
70. Post Cardiac Arrest Care, AHA ACLS Course, 5 March 2025, New Delhi
71. RRT during ECMO, Criticare -2025, 6 March 2025, Kochi
72. Moderator: PG Corner, Criticare -2025, 7 March 2025, Kochi
73. Panel discussion on Oxygen Prescription, Criticare -2025, 8 March 2025, Kochi
74. Opportunity in Critical Care, Criticare -2025, 8 March 2025, Kochi
75. Basic Life Support, AIIMS Certified red team professional (CRTP) Course, 10 March 2025, New Delhi

Rahul Kumar Anand

1. Lung Ultrasound, Point of care USG Course, 19 May 2024, Agra
2. Lung Mechanics in ventilated patient, Master class in mechanical ventilation, 26 May 2024, Ghaziabad
3. Hemodynamics with Echocardiography, RACC, 24 August 2024, AIIMS, New Delhi
4. Panel Discussion: Pregnancy with H1N1 in ARDS, RACC, 25 August 2024, AIIMS, New Delhi
5. Panel Discussion: Sepsis with mixed kind of shock, RACC, 26 August 2024, AIIMS, New Delhi
6. Immunotherapy in Sepsis: Early, Late or never., 19th Delhi Critical Care Society Symposium, 9 November 2024, New Delhi
7. USG guided procedures in critical care, 19th Delhi Critical Care Society Symposium, 9 November 2024, New Delhi
8. Chairperson: Pocus training, CZICON 2024, 26 November 2024, New Delhi

9. Lung Ultrasound and BLUE protocol, CLUE Hemodynamics Course, 13 December 2024, New Delhi
10. Hands-on training: Lung Ultrasound, CLUE Hemodynamics Course, 13 December 2024, New Delhi
11. Hands-on training: ECHO image acquisition, CLUE Hemodynamics Course, 13 December 2024, New Delhi
12. Hands-on training: LV and RV functions of heart, CLUE Hemodynamics Course, 13 December 2024, New Delhi
13. Hands-on training: Ultrasound assessment of patient with shock, CLUE Hemodynamics Course, 13 December 2024, New Delhi
14. Assessment of right ventricular failure, POCUS Paras, 12 January 2025, Gurugram
15. Assessment of fluid responsiveness and shock, POCUS Paras, 12 January 2025, Gurugram
16. Basic Modes of Mechanical Ventilation, 334d ISACON 2025, 7 February 2025, Assam

Shailendra Kumar

1. Cardiac Compression, BCLS and CCLS Workshop, 29 June 2024, New Delhi
2. PCT, Cadaveric Airway Workshop, 1 September 2024, Moradabad
3. Airway, Breathing and Cardiac Compression, BCLS WORKSHOP, 24 September 2024, New Delhi

Souvik Maitra

1. Physical Examination in Critical Care, Critical Care PG Assembly, 12 April 2024, Guntur
2. Basics of Research Methodology, Critical Care PG Assembly, 13 April 2024, Guntur
3. Hyponatremia, Fluid Therapy in Perioperative & Critical Care, 28 April 2024, New Delhi
4. APRV: When & how? Recent Advances in Critical Care, 26 August 2024, New Delhi
5. Funding Landscape for Research in Anaesthesiology, Delhi State ISACON, 28 September 2024, New Delhi
6. DVT Scanning in ICU, Perioperative Echocardiography & POCUS, 6 October 2024, Chandigarh
7. Translational Research Priorities in Sepsis, AIIMS- IICB Joint Meeting, 20 October 2024, Kolkata
8. Perioperative Fluid Therapy, Fluids around the Globe, 27 October 2024, Gurugram/ Online
9. How to Search Medical Literature, Medanta Anaesthesia & Critical Care Conclave, 9 November 2024, Gurugram
10. How Do I Interpret Clinical Trial? Workshop on Research Methodology, 8 December 2024, New Delhi
11. Navigating Study Design, Workshop on Research Methodology & Data Analysis, 21 December 2024, New Delhi
12. Regression & Survival Analysis, Workshop on Research Methodology & Data Analysis, 21 December 2024, New Delhi
13. Invasive Cardiac Output Measurement, EPIC 2025, 31 January 2025, Raipur
14. Assessment of Fluid Responsiveness, EPIC 2025, 31 January 2025, Raipur
15. Acute Exacerbation of ILD in ICU, EPIC 2025, 1 February 2025, Raipur
16. NIV & HFNC, Assam ISACON 2025, 7 February 2025, Nagaon
17. Mechanical Ventilation in bronchial asthma and COPD, Assam ISACON 2025, 7 February 2025, Nagaon
18. Authorship Criteria in Medical Literature, Criticare 2025, 25 March 2025, Kochi

Akhil Kant Singh

1. Decoding Spine pain, SOARCON 2024 – Annual Conference of the Society of Osteoarthritis Research, 14 July 2024, Ahmedabad, Gujarat

2. Anaesthesia for patients with renal disease and urological surgery, Final Intensive Course for Anaesthesia – University Putra Malaysia, 20 January 2025, Kuala Lumpur, Malaysia
3. Anaesthesia for patients with neuromuscular disease and rheumatoid disease, Final Intensive Course for Anaesthesia – University Putra Malaysia, 20 January 2025, Kuala Lumpur, Malaysia
4. Anaesthesia for thoracic surgery, Final Intensive Course for Anaesthesia– University Putra Malaysia, 20 January 2025, Kuala Lumpur, Malaysia
5. Difficult airway management, Final Intensive Course for Anaesthesia– University Putra Malaysia, 20 January 2025, Kuala Lumpur, Malaysia
6. Anaesthesia for obese patients and OSA, Final Intensive Course for Anaesthesia – University Putra Malaysia, 20 January 2025, Kuala Lumpur, Malaysia
7. Anaesthesia for patients with liver disease and HPB surgery, Final Intensive Course for Anaesthesia – University Putra Malaysia, 21 January 2025, Kuala Lumpur, Malaysia
8. Anaesthesia for endocrine surgery, Final Intensive Course for Anaesthesia – University Putra Malaysia, 21 January 2025, Kuala Lumpur, Malaysia
9. Preoperative CVS assessment and risk stratification, Final Intensive Course for Anaesthesia – University Putra Malaysia, 21 January 2025, Kuala Lumpur, Malaysia
10. Cardiac patients for non-cardiac surgery, Final Intensive Course for Anaesthesia – University Putra Malaysia, 21 January 2025, Kuala Lumpur, Malaysia
11. Patient blood management, Final Intensive Course for Anaesthesia – University Putra Malaysia, 21 January 2025, Kuala Lumpur, Malaysia
12. Electrical safety in anaesthesia, Final Intensive Course for Anaesthesia – University Putra Malaysia, 21 January 2025, Kuala Lumpur, Malaysia
13. Team dynamics and High-performance teams, Paediatric Perioperative Cardiac Arrest, 22 March 2025, New Delhi

Nishant Patel

1. Rescuer Adult BLS Relief of choking, AHA accredited BLS and ACLS course, 24 April 2024, New Delhi
2. Collides in critical care and perioperative period, Symposium fluid therapy in perioperative and critical care, 28 April 2024, Delhi
3. Description of flexible bronchoscope, Bronchoscopy, TCD, Pupillometry workshop Recent Advances in Critical Care" (RACC-2024), 24 August 2024, New Delhi
4. CPR evolving concepts, Recent Advances in Critical Care" {RACC-2024}, 25 August 2024, New Delhi
5. TAP & Rectus sheath block, ICACON 2024, 13 September 2024, Lucknow
6. AED & Defibrillator demo Cardio Pulmonary Resuscitation (CPR) Training of trainer, 25 September 2024, New Delhi
7. Cardiac arrest rhythm Cardio Pulmonary Resuscitation (CPR) Training of trainer, 25 September 2024, New Delhi
8. Paediatric & infant guidelines, Cardio Pulmonary Resuscitation (CPR) Training of trainer, 25 September 2024, New Delhi
9. Two Rescuer adult BLS Special considerations Child and Infant BLS, AHA accredited BLS and ACLS course, 4 March 2025, New Delhi
10. Newer Monitoring modality in scoliosis surgery anaesthesia, Peri Operative Anaesthesia Care in Spinal Deformity, 29 March 2025, New Delhi

Rakesh Kumar

1. Respiratory failure in pregnancy, Recent Advances in Critical Care (RACC-2024), 24 August 2024, Delhi
2. Acute Respiratory failure in pregnancy, CRITICON-2024, 27 September 2024, Lucknow

3. Intraoperative ventilation strategies in paediatric patients, ISACON Delhi 2024, 29 September 2024, New Delhi
4. Advanced mode of Mechanical ventilation, ISACON 2024 workshop hands-on, 20 November 2024, Patna

Anju Gupta

1. Best 5 papers in regional anaesthesia, Academy of Regional Anaesthesia (AORA) 2024, 24 August 2024, Hyderabad
2. Paediatric patients in NORA, ICACON (Indian College of Anaesthesiology), 15 September 2024, Lucknow
3. Recent advances in NORA in infants, ISACON Delhi 2024, 28 September 2024, New Delhi
4. Moderated panel on ERAS, ISACON 2024, 23 November 2024, Patna
5. Recent trends in interfascial plane blocks, Indian Association of Paediatric Anaesthesiologists (IAPACON), 15 February 2025, Pune
6. Lecture on neonatal sepsis- what anaesthesiologist needs to know, Research Society of Anaesthesiology and Clinical Pharmacology (RSACPCON), 29 March 2025, Bhatinda

Kelika Prakash

1. Gastric USG - master demonstration, Recent Advances in Critical Care, 24 August 2024, New Delhi
2. Individualized Nutrition Therapy in the ICU, Recent Advances in Critical Care, 25 August 2024, New Delhi

Mritunjay Kumar

1. Risk assessment tools in the perioperative period, 32nd Annual and 3rd International Conference of Research Society of Anaesthesiology and Clinical Pharmacology (RSACPCON 24), 19 April 2024, Jodhpur
2. Comprehensive literature search strategies, 32nd Annual and 3rd International Conference of Research Society of Anaesthesiology and Clinical Pharmacology (RSACPCON 24), faculty in the workshop on 'Literature search and test of significance', 21 April 2024, Jodhpur
3. Airway Ultrasound, 25th Annual Conference of Rajasthan Society of Anaesthesiologists, RAJISACON 24, 13 September 2024, Jodhpur
4. SOPS for high-risk/ preterm neonates with ROP, 4th National Conference of Association of Indian Ophthalmic Anaesthesiologists, 20 September 2024, Chandigarh
5. Gastric POCUS, 15th National Airway Conference 2024, 22 September 2024, Mangalgiri
6. Airway management in neurosurgery, 15th National Airway Conference 2024, 22 September 2024, Mangalagiri
7. Fluid responsiveness: latest evidence, Basic Adult & II Pediatric Transthoracic Echocardiography with POCUS Workshop, 6 October 2024, Chandigarh
8. Inferior Vena Cava assessment, 71st Annual Conference of Indian Society of Anaesthesiologists, ISACON 2024, 23 November 2024, Patna
9. Recognition and Management of arrhythmias with pulse, Paediatric Perioperative Cardiac Arrest (P-POCA), 22 March 2025, New Delhi
10. From OR to disaster zone', RSACPCON 25, 33rd National & 4th International Conference of Research Society of Anaesthesiology Clinical Pharmacology, 28 March 2025, Bhatinda

Parin Lalwani

1. USG Guided Suprascapular and Axillary Nerve Block, Pure Hyderabad, 13 April 2024, Hyderabad
2. e FAST, South zone ISACON, 18 July 2024, Salem

3. Opioid Free anaesthesia (Procon), 5th International and 15th National Conference ICACON, 12 September 2024, Lucknow
4. Resident working hours must be fixed (Pro con), 71st Annual National Conference ISACON 2024 Patna, 22 November 2024, Patna
5. From Scratch to Success: Piecing together logistics for acute pain services (Panel discussion), Research Society of Anaesthesiology Clinical Pharmacology (RSACPCON) 2025, 28 March 2025, Bhatinda

Ajisha Aravindan

1. Pheochromocytoma - perioperative preparation and management, CME on Endocrine Surgery, 06 April 2025, Delhi
2. Panel discussion, Fluid therapy in perioperative & critical Care, 28 April 2025, Delhi
3. IV fluids and their uses, Critical Care Refresher Course (CCRS) 2024, 18 August 2024, Nagaon
4. Mechanical ventilation inside OT, ISACON Assam, 7 February 2025, Nagaon
5. Overview of paediatric resuscitation, Paediatric perioperative cardiac arrest (P-POCA), 22 March 2025, Delhi

Sulagna Bhattacharjee

1. Basics of hemodynamic monitoring- Arterial line, Online 10 bed ICU project, eGovernment Foundation, for the government of Nagaland & Manipur, 23 April 2024, Online
2. Introduction to use of mechanical circulatory devices in shock, EUROASIA 2024, 20 June 2024, Bengaluru
3. Blue Rhino technique, Recent advances in Critical Care, 24 August 2024, New Delhi
4. Endothelium in sepsis: clinical application, Recent advances in Critical Care, 25 August 2024, New Delhi
5. Anatomical & physiological changes in pregnancy: an intensivist's perspective, Criticon Lucknow 2024, 27 September 2024, Lucknow
6. Management of coagulopathy in critically ill obstetric patient, Criticon Lucknow 2024, 28 September 2024, Lucknow
7. Moderator in the session Emergency session Emergency Care, FICCS Succex-T, 14 November 2024, Online
8. Advanced modes of mechanical ventilation, 33rd ISACON Assam 2025, 7 February 2025, Nagaon
9. Stress ulcer prophylaxis: practice-changing papers, Criticare 2025, 8 March 2025, Kochi
10. Recording of ICU vitals, Young India Intensivist, 22 March 2025, Online

Shreya Bharat Shah

1. Penile block, Ultrasound Guided Regional Anaesthesia Training Programme under the aegis of the Indian College of Anaesthesiologists, 21 May 2024, New Delhi
2. Resuscitation In Neonates and Newer Guidelines, Perioperative Neonatal Resuscitation (PoNR), 20 July 2024, New Delhi
3. Recognition and management of cardiac arrest, Paediatric Perioperative Cardiac Arrest, 22 March 2025, New Delhi
4. TIVA in Scoliosis, 4th AIIMS International Spine Deformity Course Perioperative Anaesthesia Care in Spinal Deformity, 29 March 2025, New Delhi

Abhishek Nagarajappa

1. Crisis resource management principles, 32nd Annual National and 3rd International Conference of Research Society of Anaesthesiology Clinical Pharmacology, RSACPCON 2024, 21 April 2024, Jodhpur

2. Adult learning principles and simulation based learning : Introduction, Faculty Development Program in Simulation Based Teaching, Wardha, 8 June 2024, Wardha
3. Framing learning objectives: Table top activity, Faculty Development Program in Simulation Based Teaching, Wardha, 8 June 2024, Wardha
4. Softwares in Simulation, Faculty Development Program in Simulation Based Teaching, Wardha, 9 June 2024, Wardha
5. Within event debriefing: RCDP, Pause debrief, Faculty Development Program in Simulation Based Teaching, Wardha, 9 June 2024, Wardha
6. Online Teaching: Do's, Don't's and innovations, Basic Course Workshop in Medical Health Professions' Education, CMET, AIIMS, 30 August 2024, New Delhi
7. Simulation for Assessment in Medical Education, "Assessment methods in Medical Sciences", 20 September 2024, New Delhi
8. Introduction to digital assessment tools: Kahoot, Moodle, Active Learning through feedback and collaborative tools Medical education conclave: AIIMS-University of Copenhagen collaboration, 1 October 2024, New Delhi
9. Hands on Practice: Kahoot, Active Learning through feedback and collaborative tools Medical education conclave: AIIMS-University of Copenhagen collaboration, 1 October 2024, New Delhi
10. Emerging tools in AI and Education, AI in Healthcare Education Medical education conclave: AIIMS-University of Copenhagen collaboration, 4 October 2024, New Delhi
11. HANDS-ON Activities on Creating PowerPoint presentations using Large Language Models (LLMs), AI in Healthcare Education Medical education conclave: AIIMS-University of Copenhagen collaboration, 4 October 2024, New Delhi
12. AI and Student Learning: Open floor discussion, AI in Healthcare Education Medical education conclave: AIIMS-University of Copenhagen collaboration, 4 October 2024, New Delhi
13. Understanding AI in Detection and Cheating, AI in Healthcare Education Medical education conclave: AIIMS-University of Copenhagen collaboration, 4 October 2024, New Delhi
14. Ethics and Academic Integrity in the Age of AI, AI in Healthcare Education Medical education conclave: AIIMS-University of Copenhagen collaboration, 4 October 2024, New Delhi
15. Designing Pamphlet and Poster, For MSc (Nursing): Nursing College, AIIMS Delhi, 25 October 2024, New Delhi
16. Creativity, For MSc (Nursing): Nursing college, AIIMS Delhi, 8 November 2024, New Delhi
17. Anaesthesia machine, RSACP PG Assembly, 10 November 2024, Jaipur
18. Introduction to Qualitative research, Workshop on Qualitative Research in Medical Education, SET Facility AIIMS, 13 November 2024, New Delhi
19. Data collection, Sampling strategies, Sample Size, Workshop on Qualitative Research in Medical Education, SET Facility AIIMS, 13 November 2024, New Delhi
20. Features of Moodle Quiz on SARAL Platform, "Designing and uploading quizzes on SARAL" SET facility AIIMS, 11 December 2024, New Delhi
21. Creating Quiz on Moodle/SARAL, "Designing and uploading quizzes on SARAL" SET facility AIIMS, 11 December 2024, New Delhi
22. Analyzing Quiz Results and Reporting, "Designing and uploading quizzes on SARAL" SET facility AIIMS, 11 December 2024, New Delhi
23. Introduction to Qualitative research, Workshop on Qualitative Research in Medical Education, SET Facility AIIMS, 18 December 2024, New Delhi
24. Qualitative research: Application in Medical education, Workshop on Qualitative Research in Medical Education, SET Facility AIIMS, 18 December 2024, New Delhi
25. Free-listing and pile sorting, Workshop on Qualitative Research in Medical Education, SET Facility AIIMS, 18 December 2024, New Delhi

26. Software for Video and Audio transcription: Demonstration, Workshop on Qualitative Research in Medical Education, SET Facility AIIMS, 18 December 2024, New Delhi
27. n-depth interview, Workshop on Qualitative Research in Medical Education, SET Facility AIIMS, 19 December 2024, New Delhi
28. Getting started with Qualitative Research Software (NVivo), Qualitative Research in Medical Education, SET facility: Advanced level- Analysis and reporting, 4 February 2025, New Delhi
29. Practical Coding and Data Analysis with NVivo: Hands-on session, Qualitative Research in Medical Education, SET facility: Advanced level- Analysis and reporting, 5 February 2025, New Delhi
30. Adult Learning Principles, Simulation workshop 33rd Annual National and 4th International Conference of the Research Society of Anaesthesiology Clinical Pharmacology (RSACP), Bhatinda, 28 March 2025, Bhatinda
31. Simulation based learning: Introduction, Simulation workshop 33rd Annual National and 4th International Conference of the Research Society of Anaesthesiology Clinical Pharmacology (RSACP), Bhatinda, 28 March 2025, Bhatinda
32. Framing learning objectives: Tabletop activity, Simulation workshop 33rd Annual National and 4th International Conference of the Research Society of Anaesthesiology Clinical Pharmacology (RSACP), Bhatinda, 29 March 2025, Bhatinda
33. Software in Simulation, Simulation workshop 33rd Annual National and 4th International Conference of the Research Society of Anaesthesiology Clinical Pharmacology (RSACP), Bhatinda, 29 March 2025, Bhatinda
34. Within event debriefing: RCDP, Pause debrief, Simulation workshop 33rd Annual National and 4th International Conference of the Research Society of Anaesthesiology Clinical Pharmacology (RSACP), Bhatinda, 29 March 2025, Bhatinda

Christopher Dass

1. Cooled Radiofrequency ablation of Genicular nerves and role of radiofrequency ablation in Trigeminal Neuralgia, ISACON Shimla 2024, 25 May 2024, Shimla
2. Advanced Cardiac Life Support- Cardiac arrhythmias algorithms, Recent Advances in Critical Care 2024, 23 August 2024, New Delhi

Priyankar Kumar Datta

1. Nutrition in ICU, Critical Care Refresher Course (CCRS) 2024, 18 August 2024, Nagaon
2. Electrolyte derangement in ICU, Critical Care Refresher Course (CCRS) 2024, 18 August 2024, Nagaon
3. Bedside tracheostomy: Complications & Troubleshooting, Recent Advances in Critical Care (RACC) -2024, 24 August 2024, New Delhi
4. Application of Stewart approach in Critical Care, Recent Advances in Critical Care (RACC) -2024, 26 August 2024, New Delhi
5. Mechanical ventilation inside OT, ISACON ASSAM, 7 February 2025, Nagaon

Sana Yasmin Hussain

1. First Aid, First Aid and CPR course, 9 May 2024, Anini
2. Basic and Comprehensive Life support, IRCF BCLS and CCLS workshop, AIIMS, 29 June 2024, Delhi
3. Automated External Defibrillator and workshop, IRCF BCLS course, HIMSR, 14 August 2024, Delhi
4. Post Herpetic Neuralgia, Indian Society of Pain Clinicians (ISPCCON) 2024, 13 September 2024, Rishikesh
5. Basic Cardiopulmonary Life Support, BCLS Course at ESIC Dental College, Rohini, 24 September 2024, New Delhi
6. Epidural Test dose- What is new in obstetric anaesthesia?, ISACON Delhi 2024, 28 September 2024, New Delhi
7. Ultrasound guide blocks in chronic pain' workshop- Head and Neck blocks, 2nd Annual International Conference of Society of Trauma Anaesthesia and Critical Care, 4 October 2024, Varanasi

8. ROSC and post resuscitation care, comprehensive cardiopulmonary life support (CCLS) course, 17 November 2024, Aligarh
9. Panelist on 'Approach to low back pain', CME on 'The Low Backache Conundrum', 1 March 2025, Noida

Dhruv Jain

1. ECG interpretation and rhythm identification, IRCF BCLS and CCLS workshop, 30 June 2024, New Delhi
2. Intradiscal regenerative therapy, Indian Society of Pain Clinicians (ISPCCON) 2024, 13 September 2024, Rishikesh
3. Basic Cardiopulmonary Life Support, BCLS Course at ESIC Dental College, Rohini, 24 September 2024, New Delhi
4. Management of PDPH, ISACON Delhi 2024, 28 September 2024, New Delhi
5. Intradiscal Regenerative therapy and Workshop on chronic pain, Nepal Association for the Study of Pain (NASP) Conference, 18 January 2025, Kathmandu, Nepal
6. Advances in TFESI, CME on 'The Low Backache Conundrum', 1 March 2025, Noida
7. Master demo for Radiofrequency target, Radiofrequency in Chronic Pain, 2 March 2025, Manglagiri

Neha Pangasa

1. Genitofemoral N block, Ultrasound Guided Regional Anaesthesia Training Programme under the aegis of the Indian College of Anaesthesiologists, 21 May 2024, New Delhi
2. Pudendal N block, Ultrasound Guided Regional Anaesthesia Training Programme under the aegis of the Indian College of Anaesthesiologists, 24 May 2024, New Delhi
3. Basic Life Support guidelines, RACC 2024-Recent Advances in Critical Care conference-workshop for OT Technicians, 23 August 2024, New Delhi
4. How to execute interpectoral and pecto-serratus plane block, 5th International and 15th National conference of Indian College of Anaesthesiologists(ICACON)-2024, 13 September 2024, Lucknow
5. Uterotonic agents-update and review, 5th International and 15th National Conference of Indian College of Anaesthesiologists (ICACON)-2024, 14 September 2024, Lucknow
6. Segmental spinal anesthesia, 63rd Annual Conference of Indian Society of Anaesthesiologists Delhi Branch (ISACON Delhi 2024), 28 September 2024, New Delhi
7. Upper limb and lower limb blocks, 5th MAMC Anaesthesia update, 17 October 2024, New Delhi
8. Anaesthetic management of a patient with Preeclampsia and placenta praevia for caesarean delivery, ARC-TMC Punjab Anaesthesia Review Course, 19 October 2024, Chandigarh
9. Neuromodulation in neuropathic pain, NASPCON-Nepal Association of study of pain National conference, 18 January 2025, Kathmandu, Nepal
10. Anesthetic management of a child with burns, IAPA2025-National Conference of Indian Association of Pediatric Anesthesia 2025, 16 February 2025, Pune

Amit Kumar

1. Acute Coronary Syndromes, BLS AND ACLS, 24 April 2025, New Delhi
2. Chest compression, BCLS, 24 September 2025, New Delhi
3. Acute Coronary Syndromes, CCLS course, 10 November 2024, New Delhi

4. Airway simulation, TMC-DAC 2024, 07 December 2024, Mumbai
5. Fluid management in scoliosis surgery, Peri-operative Anaesthesia Care in Spinal Deformity, 29 March 2025, New Delhi

Sushmita Bairagi

1. Preparation for haemodynamic monitoring, Recent advances in critical care (RACC), 23 August 2024, New Delhi
2. Airway management in interventional pulmonology, NAC (National Airway Conference -2024), 22 September 2024, Mangalgiri

Neha Garg

1. Simulation scenario on Ophthalmic emergency, Conference of All India Ophthalmic Association, 16 September 2024, Chandigarh
2. Procedures in scoliosis and how it is different from other cases, 4th AIIMS International Spine Deformity Course, 29 March 2025, Delhi

Sachin Kumar

1. Regional Anatomy Pertinent to lower limb, Indian College of Anaesthesiologists Conference (ICACON), 13 September 2024, Lucknow
2. Regional Anesthesia Tips & Tricks – Difficult Neuraxial Blockade, Indian college of anaesthesiologists conference (ICACON), 14 September 2024, Lucknow
3. Fascial Plane Blocks in Chronic Pain, Nepal Association for the Study of Pain (NASP) Conference, 18 January 2025, Kathmandu, Nepal
4. Regional Anesthesia in Scoliosis, 4th AIIMS International Spine Deformity course, 29 March 2025, New Delhi

Prakash Gondode

1. Practical applications of Artificial Intelligence and Machine learning in Anaesthesiology: Current trends, 63rd Annual Conference of Indian Society of Anaesthesiologists, Delhi Branch. “ISACON Delhi 2024” [PANELIST on a Panel discussion], 28 September 2024, New Delhi
2. Basics of Lung Ultrasound in Trauma & Emergency, Point of Care Ultrasound for Acute Care in Trauma and Emergency 2025 “PACTEM 2025” [Workshop resource faculty], 8 February 2025, Bhopal
3. Ultrasound-guided Sciatic and popliteal nerve block: How to do it on a task manager, Precision in Practice: Needle Navigation Using Ultrasound. [Workshop resource faculty], 1 March 2025, New Delhi

Ram Singh

1. Prevention of respiratory tract infections in ICU Ventilator-associated pneumonia (VAP-bundle), Recent Advances in Critical Care” (RACC-2024), 23 August 2024, New Delhi
2. USG Guided Central Venous Cannulation, Point of Care Ultrasound for Acute Care in Trauma and Emergency 2025 (PACTEM 2025), 8 February 2025, Bhopal

Aditi Suri

1. Simulation in anaesthesia, Indian College of Anaesthesiologists Conference (ICACON), 13 September 2024, Lucknow
2. Digitalisation of medical records, Indian Society of Anaesthesiologists Conference (ISACON), Delhi, 28 September 2024, New Delhi

Vanitha Rajagopalan

1. Overview of Antibiotics, Recent Advances in Critical Care (RACC 2024), 23 August 2024, New Delhi
2. How best to monitor the uninjured brain Neuromonitoring What? Why? How? To identify and prevent cerebral complications, 5th Annual Conference of the Neurocritical Care Society of India (NCSI) 2024, 30 August 2024, Chennai
3. Artificial Intelligence in Pain Management, CME on Artificial Intelligence in Medicine under the aegis of Dwarka Physician Forum & Knolead Academy, 22 September 2024, Delhi
4. Transcranial Doppler in ICU Practice, 71st Annual Conference of Indian Society of Anesthesiologists as part of POCUS, 20 November 2024, Patna

Swati Mehta

1. Anatomy and Physiology of Pediatric Airway, Pediatric Airway Seed Workshop, 27 April 2024, Jodhpur
2. Walking through the airway: USG and CT guided tour, 7th International Airway Congress of AMF, 14 September 2024, Delhi
3. Oculocardiac Reflex- Causes, prevention & management, 4th National Conference of Association of Indian Ophthalmic Anaesthesiologists, 21 September 2024, Chandigarh
4. Ultrasound of the airway and lung, Postgraduate Assembly, 5 October 2024, New Delhi (online)
5. Duchenne's muscular dystrophy for laparoscopic appendicectomy-clinical dilemmas, Indian Association of Paediatric Anaesthesiologists conference, 15 February 2025, Pune
6. BLS for neonate, Infant and Child, Paediatric Perioperative Cardiac Arrest, 22 March 2025, Delhi

Rupavath Ramkumar

1. Burn pain management, Course Faculty for the Advanced Emergency Burn Management Course at AIIMS, New Delhi, 22 August 2024, New Delhi
2. Burn pain management. This course is a part of National Programme for Prevention and Management of Trauma and Burn Injuries(Under MOHFW) at Burn and Plastic Surgery block, AIIMS New Delhi., 22 August 2024, New Delhi
3. Airway management in Inhalational burns, Tracheostomy care, Ventilator and oxygen therapy, Course Faculty for the Advanced Emergency Burn Management Course at AIIMS, New Delhi, 5 September 2024, New Delhi
4. Pain and crisis Management during dressing dislodgement of ET tubes, patient collapse, vasovagal attack, pain, uncooperative patients, Course Faculty for the Advanced Emergency Burn Management Course at AIIMS, New Delhi., 8 November 2024, New Delhi
5. Airway management in inhalational injury, oxygen therapy, Course Faculty for the Advanced Emergency Burn Management Course at AIIMS, New Delhi, 14 November 2024, New Delhi
6. Surgical cricothyroidotomy, TMC – DAC 2024, 6 December 2024, Mumbai
7. Weaning in Guillain-Barré syndrome, ISNACC 2025, TRIVANDRUM, 23 January 2025, New Delhi
8. Critical care in Burn ICU, Course Faculty for the Advanced Emergency Burn Management Course at AIIMS, New Delhi, 6 March 2025, New Delhi

Sneha Singh

1. Fundamentals of infection control in ICU, Recent Advances in Critical Care 2024 (RACC-2024), 23 August 2024, New Delhi
2. Prolonged autonomic instability, NCSI 2024-5th Annual Conference of the Neurocritical Care Society of India, 1 September 2024, Chennai
3. Massive Weight Loss Body Contouring Surgery: Evidence and Challenges 2025 (Panel discussion), AIIMS Aesthetic Surgery Update 2024, 13 December 2024, New Delhi
4. Simulation-based training: Does it make a difference? ISNACC 2025- 26th Annual Conference of India Society of Neuroanaesthesiology and Critical Care 2025, 24 January 2025, Trivandrum

Sudhansu Sekhar Nayak

1. Basic Life Support (BLS) Algorithm for ICU & OT Technologists, Recent Advances in Critical Care (RACC 2024), 23 August 2024, New Delhi

Surabhi Gupta

1. Non-Invasive cardiac output monitoring: Reliability and evidence, ISA Delhi, 28 September 2024, New Delhi
2. Airway management in the Intensive Care Unit, Central Zone ISACON 24, 27 October 2024, Jhansi
3. Panel discussion Team: Massive Weight Loss Body Contouring Surgery: Evidence and Challenges 2024, AIIMS Aesthetic Surgery Update 2024, 13 December 2024, New Delhi
4. Anaesthetic management of hysteroscopic procedures, Live Hysteroscopic Surgery Workshop cum Symposium, 15 December 2024, New Delhi
5. Tackling Airway Challenges in Burn Patients, NABICON 2025 (Annual Conference of National Academy of Burns – India), 13 February 2025, Ayodhya

Sakshi Duggal

1. Oxygen therapy, Recent advances in critical care (RACC), 27 August 2024, New Delhi
2. Financial Independence & Retire Early: Feasibility for Anaesthesiologists, ISACON Delhi, 28 September 2024, New Delhi
3. Dedicated training in Obstetric Critical Care is the need of the hour, CRITICARE Conference, 9 March 2025, Kerala
4. Post Cardiac Arrest Care, Paediatric Perioperative Cardiac Arrest (P-POCA), 22 March 2025, New Delhi

Nitin Choudhary

1. Use of artificial intelligence in writing research papers: a friend or a foe, 3rd ISA DELHI YUVACON, 6 April 2024, New Delhi
2. Status of SGAD in obstetric anaesthesia, 32nd Annual National and 3rd International Conference of the Research Society of Anaesthesiology Clinical Pharmacology, RSACPCON 2024, 19 April 2024, Jodhpur
3. Emergency surgical airway: When & How, 5th International & 15th National Conference of Indian College of Anaesthesiologists (ICACON), 14 September 2024, Lucknow
4. Repeat subarachnoid block in a case of a failed spinal anaesthesia, 63rd Annual Conference of Indian Society of Anaesthesiologists Delhi Branch, 29 September 2024, New Delhi

5. Crystalloids and colloids, Anaesthesia Postgraduate Pre Examination Course (APPEC-24), 8 October 2024, Online
6. Cutting-Edge Labor Analgesia: Innovations and Best Practices for Anticoagulated Parturient During Childbirth, 46th Annual Conference of Indian Society of Anaesthesiologists (ISA) UP State, 27 October 2024, Orchha
7. Ex utero intrapartum treatment (EXIT) procedure, 71st Annual National Conference of the Indian Society of Anaesthesiologists, ISACON 2024, 27 November 2024, Patna

Choro Athiphro Kayina

1. Prone CPR – What's Different, 32nd Annual National & 3rd International Conference of Research Society of Anaesthesiology Clinical Pharmacology, RSACPCON 2024, 19 April 2024, Jodhpur
2. Oxygen therapy – What a technologist must know? Recent Advances in Critical Care, 2024, 23 August 2024, New Delhi
3. Why should you know Anaesthesia Crisis Resource Management (ACRM), 5th International & 15th National Conference of Indian College of Anaesthesiologists (ICACON) 2024, 13 September 2014, Lucknow
4. Measurement of IOP under GA, 4 National Conference of Association of Indian Ophthalmic Anaesthesiologists (20th-22nd September 2024), 21 September 2024, Chandigarh
5. AR and VR Simulation in Anaesthesiology, 63rd Annual Conference of Indian Society of Anaesthesiologists Delhi Branch – ISACON Delhi, 29 September 2024, New Delhi

LECTURES DELIVERED OVER PAST 3 YEARS

2022–2023	2023–2024	2024–2025
215	232	392

List of Oral papers/posters presented: 48

1. Aravind M, Anand R, Rewari V, To compare the effects of Standard Vs Transpulmonary pressure guided Intraoperative PEEP on Postoperative Pulmonary Complications in Patients undergoing Upper Abdominal Surgeries, 46th European Society for Clinical nutrition and metabolism (ESPEN)Congress 2024, 8 September 2024, Milan, Italy
2. Bairagi S, Ayub A, Sinha R, Gupta A, A retrospective analysis of anesthetic concerns and management of pediatric patients undergoing brachytherapy for retinoblastoma, ISACON- Patna 2024 KOP award, 23 November 2024, Patna
3. Baishya M, Pandey RK, Punj J, Darlong V, Rewari V, Sinha R, et al, Comparative evaluation of analgesic efficacy of USG erector spinae plane block Vs intrathecal morphine in patients undergoing Percutaneous Nephrolithotomy (PCNL) surgery, Kore Anesthesia 2024, 8 November 2024, Incheon, South Korea
4. Bharti S, Choudhary AH, Duggal S, Delayed initiation of End of Life Care in Critically Ill patients: An observational study, Recent Advances in Critical Care - 2024, 27 August 2024, New Delhi
5. Bhattacharjee S, Mehrotra H, Datta SK, Narayanan V, Anand RK, Chumber S, et al, Endothelium Protective effect of 5% Human Albumin-based Fluid Therapy in Perforation Peritonitis Patients Undergoing Emergency Laparotomy: A Randomized Controlled Trial, 44th ISICEM (International Symposium on Intensive Care and Emergency Medicine), 19 March 2025, Brussels, Belgium
6. Bhoi D, Sundharesan MS, Chhabra A**,** Comparison of Caudal epidural block with Multiple injection Costotransverse block for renal surgeries in paediatric patients: A prospective randomised, blinded clinical trial, 20th ASPA Conference & 3rd Paediatric Anaesthesia Meeting of MSPA, 13 July 2024, Kuching, Sarawak (Malaysia)
7. Bhoi D, Shams A, Mohan VK, Ultrasound-guided versus fluoroscopic-guided lumbar sympathetic ganglion block: a prospective single-blind randomized study, New Zealand Pain Society, 21 March 2025, Wellington, New Zealand

8. Binu H, Ramachandran R, Kumar R, Rewari V, Balancing Dual Challenges: Pheochromocytoma and Pregnancy, Kore Anesthesia 2023, 9 November 2023, Seoul, Korea
9. Binu H, Ramachandran R, Kalaivani M, Kumar R, Kumar M, Rewari V, Intrathecal ropivacaine for day care surgery in patients undergoing lower abdominal, inguinal and urological surgery estimation with the biased coin up-and-down sequential method, 3rd Research Day, AIIMS, 30 January 2024, New Delhi
10. Choudhary N, Magoon R, Jain V, Yadav DK, Paediatric Foreign Body Aspiration: Necessity is the mother of Innovation! 33rd Annual National and 4th International Conference of the Research Society of Anaesthesiology Clinical Pharmacology, RSACPCON 2025, 29 March 2025, Bhatinda
11. Dadi UGS, Bhoi D, Shende DR, Sinha R, Khanna P, Anand RK, et al, Comparison of Superior Brachial Trunk Block with Pericapsular Nerve Group Block of shoulder joint in Arthroscopic Shoulder Surgeries – A Randomized Non-inferiority Trial, 37th SSAI (Scandinavian Society of Anaesthesiology and Intensive Care Medicine), 26 June 2024, Oulu, Finland
12. Dewangan S, Chhabra A, Assessment of analgesic efficacy of peribulbar block as adjunct to general anaesthesia in paediatric patients undergoing enucleation for retinoblastoma: a double-blind randomised controlled trial, 41st Annual European Society of Regional Anaesthesia (ESRA) Congress, 4 September 2024, Prague, Czech Republic
13. Gondode P, Debunking Myths About Decision-Making In Critical Care Using Generative Artificial Intelligence, CRITICARE-2025, 8 March 2025, Cochin

LIST OF ORAL PAPERS/POSTERS OVER PAST 3 YEARS

2022-2023	2023-2024	2024-2025
21	**41**	**48**

RESEARCH

Funded projects

Ongoing

1. Artificial Intelligence-Driven Chronic Pain Management with Mobile App Integration for Empowering Primary Healthcare Physicians, Debesh Bhoi (Collaborative project with SGPGI, Lucknow), ICMR, 1 Year, 2025-2026, Rs 2.41 Lakhs
2. Association between DNA Telomere Length in Peripheral Blood Leukocytes and Post-Operative Cognitive dysfunction (POCD) and Post-Operative Delirium (POD) in Elderly patients undergoing Major Orthopaedic surgery under General Anesthesia: A Prospective Observational Study, Puneet Khanna, DST, CSRI, 3 Years, 2023-2026, Rs 8 Lakhs
3. Comparative evaluation of the effects of virtual reality-based video tour of the operating room versus conventional preoperative education on preoperative anxiety in children scheduled for elective day care surgery: A randomized controlled trial, Swati Mehta, AIIMS-Intramural, 2 Years, 2025-2027, Rs 3.35 Lakhs
4. Comparison of LMA ProSeal and ® LMA Protector™ as Airway device in laparoscopic surgeries- a randomised controlled superiority trial, Aditi Suri, AIIMS-Intramural, 1 Year, 2024-2025, Rs 3.66 Lakhs
5. Comparison of stress response in newborn delivered via caesarean section under general anaesthesia versus regional anaesthesia: A Prospective observational study, Choro Athiphro Kayina, AIIMS Interdisciplinary Collaborative Intramural Research Project, 2 Years, 2024-2026, Rs 20 Lakhs
6. Correlation of lung and gut microbiome of critically ill patients: A cross sectional study, Choro Athiphro Kayina, AIIMS Intramural, 2 Years, 2023-2025, Rs 9 Lakhs
7. Determining the association between pre-operative frailty and nutritional status with the occurrence of emergence delirium and cognitive dysfunction in pediatric patients under general anesthesia, Puneet Khanna, ICMR, 3 Years, 2025-2028, Rs 78 Lakhs

8. Development of a health education portal for patients with chronic pain and diabetes: Assessment of patient satisfaction and utility, Ram Singh, AIIMS-Intramural, 2 Years, 2024-2026, Rs 9.5 Lakhs
9. Effect of 10% dextrose as an adjuvant in lumbar epidural adhesiolysis: A prospective randomized controlled study, Dhruv Jain, AIIMS- Intramural, 2 Years, 2024-2026, Rs 10 Lakhs
10. Effect of Anaesthetic Agents on Intestinal Microbiome and Cognition in Pediatric Patients Undergoing Elective Surgeries, Anju Gupta, ICMR, 3 Years, 2024-2027, Rs 164.72 Lakhs
11. Effect of Carbohydrate Loading on Recovery of Patients undergoing Total Knee Replacement Surgery- A Randomised controlled trial, Sana Y Hussain, AIIMS-Intramural, 2 Years, 2024-2026, Rs 9.63 Lakhs
12. Effect of two dose vs single dose dexamethasone on post-operative pain and inflammatory response in patients undergoing major abdominal surgery: A double-blinded randomised controlled trial, Priyankar Kumar Datta, AIIMS-Intramural, 2 Years, 2024-2026, Rs 5 Lakhs
13. Evaluation of a Bundled Intervention to Restore Circadian Rhythm in Critically Ill Sepsis Patients: A Randomized Controlled Trial, Souvik Maitra, ICMR, 3 Years, 2025-2027, Rs 62.79 Lakhs
14. Evaluation of Second-generation laryngeal mask airway (LMA Protector) for laparoscopic surgeries-A Randomized Controlled Trial, Subodh Kumar, AIIMS-Intramural, 2 Years, 2024-2026, Rs 10 Lakhs
15. Evaluation of the Effect of Fibrinogen on Perioperative Bleeding during Scoliosis Surgery: A Double Blind Randomized Controlled Trial, Subodh Kumar, AIIMS-Intramural, 2 Years, 2024-2026, Rs 20 Lakhs
16. In-situ simulation for assessment of CPR feedback device use for BLS skills in trained CPR providers: A pre-post intervention study, Amit Kumar, AIIMS- Intramural, 2 Years, 2024-2026, Rs 4.96 Lakhs
17. Preparing a centre of excellence for education of health professionals, Rashmi Ramachandran, Novo Nordisk foundation, Denmark, 2 Years, 2023-2025, Rs 44.59 Lakhs
18. Remote trainer guided deliberate practice vs self-directed video-based training for retention of CPR skills: A randomized, comparative, assessor-blinded simulation study, Abhishek N, AIIMS- Intramural, 2 Years, 2020-2022, Rs 4.80 Lakhs
19. The effects of normoxic vs hyperoxic conditions on the incidence of Post-Operative Cognitive Dysfunction (POCD) and identification of miRNA in POCD in elderly patients undergoing non cardiac surgery: A Prospective Observational Case Control Study, Puneet Khanna, AIIMS-Intramural, 2 Years, 2022-2024, Rs 10 Lakhs
20. To evaluate the role of serum cell-free DNA (cf DNA) as a diagnostic surrogative marker and severity predictor in inhalational burns injury- A prospective cohort study, Rupavath Ramkumar, AIIMS-Intramural, 2 Years, 2024-2026, Rs 7.75 Lakhs
21. Utility of 3-D printing model in airway management of anlylosing spongylitis patients undergoing surgery under general anaesthesia: A pilot study, Nitin Choudhary, AIIMS- Intramural, 2 Years, 2024-2026, Rs 4.60 Lakhs

Completed

1. Effect of 5% human albumin-based perioperative fluid therapy in perforation peritonitis patients undergoing emergency laparotomy: A randomized controlled trial, Dr Sulagna Bhattacharjee, SERB DST, 2 Years 3 Months, 2022-2024, Rs 28 Lakhs
2. Effect of Nicotine Replacement Therapy on peri-operative opioid requirement in abstinent tobacco smokers undergoing spinal fusion, a double blind randomized controlled trial, Puneet Khanna, ICMR, 3 Years, 2021-2024, Rs 50 Lakhs
3. Impact of an enhanced recovery after surgery (ERAS) protocol on length of stay, perioperative outcomes and complications in paediatric laparoscopic surgeries, Shreya Shah, AIIMS-Intramural, 2 Years, 2022-2024, Rs 5 Lakhs

DEPARTMENTAL PROJECTS (INCLUDING THESIS)

Ongoing

1. A randomized comparative trial of melatonin and gabapentin in reducing preoperative anxiety
2. A comparative study of Quadratus Lumborum Block vs Epidural block for post operative analgesia in patients with gynecological malignancies

3. A comparative study to evaluate analgesic efficacy of ultrasound guided forearm nerve block with dexmedetomidine as adjuvant for hand surgery in paediatric patients : A randomized trial
4. A prospective randomized comparative analysis between LMA vs ETT for recovery time in preterm infants for ROP eye surgeries
5. Aerosolized Colistin in Ventilator Associated Pneumonia Caused by Carbapenem Resistant Acinetobacter: A Randomized Controlled Trial
6. ARDS Phenotypes and its Association with RV Dysfunction Trajectory
7. Artificial Neuron- Machine learning analysis of volatile organic compound to predict carbapenem- resistant gram-negative bacteria a cause of lower respiratory tract infection.
8. Assessment of short-term retention of skills and knowledge after Basic Cardiopulmonary Life Support Training in healthcare workers: A prospective interventional study
9. Assessment of the analgesic efficacy of bilateral pecto-intercostal fascial block and intermediate cervical plexus block in patients undergoing bilateral axillo-breast approach (BABA) endoscopic thyroidectomy under general anaesthesia: a randomized controlled trial.
10. Association Between Cumulative Fluid Balance to Estimated Colloid Oncotic Pressure Ratio and Perioperative Outcome in Adult Patients Undergoing Emergency Abdominal Surgery
11. Association Between Perioperative Hypertension, Length of Hospital Stay And Perioperative Cardiovascular Complications: A Prospective Observational Study From Tertiary Care Centre
12. Association Between Post-Operative Delirium and Cognitive Dysfunction with Serum Uric Acid And C-Reactive Protein Levels in Elderly Patients Undergoing Major Surgery Under General Anesthesia: A Prospective Observational Study
13. Can a glow beyond the flow predict epidural drug spread in paediatrics? - An observational study
14. Clinical profile and Outcome of Patients Presenting with Hypertensive Crisis to Emergency Department
15. Colouring Activity Versus Video Distraction To Alleviate Paediatric Patient Anxiety: A Randomised Control Trial
16. Comparative efficacy and safety of I-gel supraglottic airway and self-pressurizing Air-Q intubating laryngeal airway during general anesthesia in infants: A prospective randomized trial.
17. Comparative efficacy of High Flow Nasal Cannula versus Non –Invasive Ventilation in Acute Exacerbation of chronic Obstructive Pulmonary disease : A Randomized Controlled Trial
18. Comparative Efficacy of Serratus Anterior Plane Block vs Standard Care In Alleviating Pain During Chest Tube Thoracostomy in Emergency Department: A Prospective Open Label Randomised Control Trial
19. Comparative Efficacy of ultrasound guided Sacral Erector spinae plane block and wound infiltration in transforaminal lumbar interbody fusion: A randomized controlled trial
20. Comparative evaluation of Anatomical spread in classical thoraco-lumbar interfascial plane (TLIP) block and Modified TLIP block: A cadaveric study
21. Comparative evaluation of sphenopalatine ganglion block and dexmedetomidine nebulization for treatment of post dural puncture headache in obstetric patients.
22. Comparison between Analgesic efficacy of lumbar erector spinae block and caudal block in paediatric unilateral hip and proximal femur surgeries : A randomized controlled trial Comparison between Analgesic efficacy of lumbar erector spinae block and caudal block in paediatric unilateral hip and proximal femur surgeries : A randomized controlled trial
23. Comparison between para sagittal oblique approach and axial approach of ultrasound guided trachnique in transformational epidural injections: A randomised controlled trial
24. Comparison between pressure support ventilation and spontaneous ventilation during extubation and emergence in reducing post operative atelectasis in patients undergoing major abdominal surgeries": A Randomised controlled trial.
25. Comparison of 110 degree anticlockwise rotation and conventional 90-degree rotation for successful placement of left double-lumen tubes: A randomised controlled trial

26. Comparison of airway occlusion pressure with ultrasound based respiratory indices to predict weaning in critically ill patients: A prospective observational trial
27. Comparison of analgesia efficacy of Thoracolumbar Interfascial Plane Block Vs Sacral Erector Spinae Plane block in patients undergoing lower spine surgeries
28. Comparison of Analgesic Efficacy Of Pudendal Nerve Block With Caudal Block Using Bupivacaine And Clonidine In Children Undergoing Hypospadias Repair: A Prospective Randomized Study
29. Comparison of analgesic efficacy of two approaches to the ultrasound guided erector spinae plane block in patients undergoing modified radical mastectomy: A randomized controlled trial
30. Comparison of analgesic efficacy of ultrasound guided erector spinae plane block versus transmuscular quadratus lumborum block in laparoscopic/robot assisted renal surgeries: A double-blind randomised controlled trial.
31. Comparison of effect of ringer lactate and isotonic Bicarbonate combination therapy versus Ringer lactate alone in early fluid restriction of burns patients- A Randomized controlled trial
32. Comparison of ESPB and SAPB for postoperative analgesia in paediatric thoracoscopic surgeries.
33. Comparison of fasting gastric volume in males and females undergoing elective surgery using ultrasound: A Prospective observational study
34. Comparison Of General Anesthesia versus spinal anaesthesia on perioperative outcomes in lumbar spine surgery : A retrospective study
35. Comparison of Glide scope and C-Mac Video laryngoscope for intubation in `pediatric patients: A prospective, comparative & randomized study
36. Comparison of hemodynamic effects of orotracheal intubation using Macintosh blade C-MAC versus D blade C-MAC Video-laryngoscope in hypertensive patients undergoing elective surgeries
37. Comparison of intra-articular pulsed radiofrequency by two needle technique and steroid injection for sacroiliac joint pain: a randomized, double blind trial
38. Comparison of Lumbar ESP and Caudal block for hip and proximal femur surgery in children
39. Comparison of mechanical power between PCV vs VCV in children undergoing laproscopic surgery under general anesthesia: A randomized controlled trial.
40. Comparison of Nasogastric Tube insertion using conventional technique vs Compression of Soft Tissues (COST) technique in intubated patients: A Randomized Control Trial
41. Comparison of paralysis of laryngeal adductor vs adductor pollicis at time of intubation with NIM EMG endotracheal tube
42. Comparison of Paramedian and Paraspinous Techniques for Subarachnoid Block in Elderly Patients with Degenerative Spine Disease: A Randomized Controlled Trial
43. Comparison of PEMF and medical management in chronic back pain-randomised controlled trial
44. Comparison Of Perineural Dexamethasone and Dexmedetomidine Vs Dexamethasone only as an Adjuvant in Ultrasound Guided Sciatic Nerve Block Via Popliteal Approach in Orthopaedic Below Knee Surgeries: A Double Blind Randomised Controlled Trial
45. Comparison of polymyxin-B with minocycline versus polymyxin-baith high dose sulbactum in carbapenum resistance acinobactor baumannii ventilator associated pneumonia-a randomised double blind non inferiority study
46. Comparison of success of single space with two insertion points (A Novel technique) and Conventional double space technique for CSE anaesthesia: A randomised prospective study
47. Comparison of the storz size 2 McIntosh blade CMAC and size 2 D blade CMAC in children with simulated cervical spine injury: a prospective randomized study
48. Comparison of TUORenKingtaek® video laryngoscopy and direct laryngoscopy for tracheal intubation by novice anaesthesia residents: A Randomised controlled trial
49. Comparison of two doses of dexmedetomidine as adjuvant in external oblique intercoastal block EIOB on postoperative analgesia in laparoscopic upper abdominal surgeries: A double blinded randomized controlled trial

50. Comparison of ultrasound guided fluid resuscitation protocol with standard formula based fluid resuscitation protocol in burn patient – A randomised controlled trial.
51. Comparison of ultrasound guided out of plane vs inplane costoclavicular block approach in children undergoing unilateral upper limb surgery-A randomized controlled trial
52. Comparison of unimodal, non-pharmacological, preoperative psychological prehabilitation intervention Nature soundscape immersion and virtual reality on preoperative anxiety and stress reduction- A randomized non inferiority trial
53. Comparison of USG guided Oblique Axis in-plane technique (OA-IP) vs Short Axis-Dynamic Needle Tip Positioning (SA-DNTP) technique for Radial Artery Cannulation in Adults-A Prospective randomized trial
54. Comparison of weight versus weight for age for size selection of LMA in malnourished peds patient- a randomized crossover trial
55. Correlation of Thyromental distance and the ease of passing a nasotracheal tube through the glottis : a Prospective observational study
56. Development and validation of Machine-Learning Based Model for Prediction of Acute Kidney Injury in Patients Undergoing Major Abdominal Surgery: An Ambispective Study
57. Does a change in optic nerve sheath diameter have an association with postoperative emergence delirium in paediatric patients undergoing laparoscopic surgeries? - An observational study
58. Early vasopressor administration and postoperative organ dysfunction in elective abdominal surgery: a randomized controlled study
59. Effect of adjuvant hypertonic saline in transforaminal epidural steroid injection for the management of patients with chronic lumbosacral radiculopathy- a double blind, prospective, randomised trial
60. Effect of Airway Pressure on Cuff Pressure of Proseal Laryngeal Mask Airway in Patients Undergoing Gynaecological Laparoscopic Procedures
61. Effect of application of the MINUTES bundle vs existing care on the clinical outcomes in the initial management of undifferentiated circulatory shock in the emergency department - a randomised control study
62. Effect of bilateral external oblique intercostal block (EOIB) on peri-operative analgesia in upper abdominal surgeries – a randomised controlled trial
63. Effect of dexamethasone on post operative cognitive decline in elderly population: a randomized controlled triple blind trial
64. Effect of fentanyl administered at different time interval on induction dose of propofol using bispectral index
65. Effect of gradual increase in intra-abdominal pressure on bradycardia during creation of pneumoperitoneum in laparoscopic abdominal surgery: A Prospective Randomised study
66. Effect of immersive virtual reality in decreasing the analgesic requirement during dressing change in children with burn injuries – A prospective, randomised controlled trial.
67. Effect of inhaled milrinone on oxygenation and right ventricular function in patient with acute respiratory distress syndrome -A prospective, randomized controlled trial
68. Effect of injectate volume on spread of drug in cervical plexus block: a cadaveric Study
69. Effect of Intravenous Dexamethasone and Inhaled Budesonide versus Intravenous Dexamethasone Alone on Lung Injury Score in patients with Acute Respiratory Distress Syndrome – A Prospective, Double Blind, Randomized trial
70. Effect of lateral head positioning on the incidence of epistaxis during nasotracheal intubation-a randomized controlled trial
71. Effect of nitrous oxide during oocyte retrieval on in-vitro fertilization outcomes: A retrospective study
72. Effect of predicted versus actual body weight based tidal volume setting on postoperative atelectasis in malnourished children undergoing surgery under general anaesthesia : A Randomised Control Trial
73. Effect of Preemptive administration of Dexamethasone on postoperative pain and quality of recovery in laparoscopic renal surgeries: a double blind randomised controlled trial.

74. Effect of systemic antimicrobial prophylaxis on early organ dysfunction in burn patients: An open-labelled randomized control trial
75. Effect of virtual reality therapy on postoperative delirium and cognitive dysfunction a prospective randomized clinical trial in elective non cardiac surgery patients
76. Effectiveness of early administration of fludrocortisone in septic shock: A prospective double-blind, randomised control trial.
77. Effects Of Early Administration Of Methylene Blue in Intraabdominal Sepsis Patients with Septic Shock-A Randomized Controlled Trial
78. Efficacy of hydroxy-ethyl starch with ropivacaine in prolongation of analgesia with supraclavicular brachial plexus block-a randomised control pilot study.
79. Erector spinae plane block in breast surgery- A dose finding Trial
80. Evaluation of MAC of sevoflurane and BIS factor index for maintenance of central eye position during short ophthalmic procedures in spontaneous breathing children under general anesthesia and co relation of MAC of sevoflurane with BIS
81. Evaluation of postoperative voice changes following thyroid and parathyroid surgery and formulation of scoring system to predict postoperative voice outcome
82. Exploring Arterial Cannulation Practices in India: Insights from a Nationwide Survey of Anaesthesiologists"
83. Exploring the Hidden Curriculum in Anesthesia Postgraduate residency Program A Qualitative Study
84. External Validation of a Lung USG based Post Operative Pulmonary Complications Risk Prediction Model: A Prospective Study
85. External Validation of a Machine-Learning Derived Risk Prediction Model for Post Operative Pulmonary Complications
86. Factors influencing perioperative outcomes in Mandibular reconstruction using vascularized free fibular as well as radial flap: A retrospective review of 150 patients
87. Frailty as a predictor of clinical severity in geriatric COVID-19 patients: A prospective observational study
88. Genome wide association of genetic marker with sevoflurane induced emergence delirium in pediatric population.
89. Heterogeneity in the Effect of Driving Pressure Targeted Positive End- expiratory Pressure Titration for Prevention of Postoperative Pulmonary Complications: Analysis of Two Randomized Controlled Trials
90. Impact of various anesthetic techniques on neutrophil extracellular traps and their components in orthopedic trauma surgeries and development of SIRS: A single-blinded randomized control trial
91. Incidence and risk factors for Chronic post thoracotomy pain and its impact on the quality of life: A Prospective Observational study in the Indian subcontinent.
92. Investigating the prognostic significance of simultaneous multiple cytokine measurement in peritoneal fluids for early detection and prediction of abdominal septic peritonitis after emergency laparotomy: A prospective Cohort study at a tertiary care centre
93. Lignocaine versus ketamine as an adjunct to propofol for sedation during endoscopic retrograde cholangiopancreatography (ERCP): A randomized controlled trial
94. Methylene blue vs Vasopressin as a second line vasopressor in septic shock: a randomised controlled trial
95. Nicotine Replacement Therapy Reduces the Incidence of Delirium and Cognitive Dysfunction in post operative period in abstinent tobacco smokers: A Double Blind Randomized Controlled Trail.
96. PENG vs interscalene for shoulder manipulation procedure: an RCT
97. Point of Care Ultrasound to confirm correct positioning of central venous catheter tip- A prospective observational study
98. Polymyxin vs. Ceftazidime-avibactam with aztreonam for primary treatment of Carbapenem Resistant Enterobacteriaceae (CRE) and Carbapenem Resistant Pseudomonas aeruginosa (CRPA) [CARE trial].
99. Prediction of Weaning Outcome by Diaphragmatic Surface Electromyography: A Prospective Observational Study

100. Quantification of gastric volume after mask ventilation with or without oropharyngeal airway in pediatric population
101. Randomized controlled trial to compare dexamethasone and clonidine in ultrasound stellate ganglion nerve block parameters of NRS and vascular dynamics
102. Randomized trial comparing Pulsed Radiofrequency to Conventional Radiofrequency in ultrasound guided Glossopharyngeal neuralgia
103. Role of Admission POCUS in Clinical Decision Making in ICU: A Multi Centric Prospective Observational Study (A POCUS ICU study)
104. Role of comprehensive lung ultrasound in predicting postoperative pulmonary complications after emergency abdominal surgery: a prospective observational study
105. Role of femoral vein pulstality in prediction of acute renal injury in patients with peritonitis and abdominal sepsis a prospective observational study.
106. Role of metabolic syndromes (MetS) in the incidence of post-operative delirium and cognitive dysfunction in elderly patients undergoing major surgery under general anesthesia: A prospective observational study.
107. Role of Renal Resistive Index in predicting acute kidney injury in severe burn injury : A prospective observational study.
108. Sleep-disordered breathing and emergence delirium in children: a comparison between Pittsburgh Sleep Quality Index (PSQI) and Sleep trouble breathing and unrefreshed (STBUR) questionnaire
109. Systemic antimicrobial prophylaxis in critically ill burns patients- An open label randomized control trial.
110. Temporal Stability of Sub phenotypes of Septic Shock after Corticosteroid Therapy: A Retrospective Analysis
111. The effect of positive end-expiratory pressure administered by Proseal laryngeal mask airway on peri-operative atelectasis - A randomised controlled trial
112. To Compare the Opioid Sparing Effects Of Gabapentin, Dexamethasone, Paracetamol and Ketorolac (GaDexPak) VS Dexamethasone, Paracetamol and Ketorolac (DexPak) Combination in Patients undergoing Modified Radical Mastectomy: A Prospective Randomised Double Blind Controlled Trial
113. To evaluate effect of Carbon Dioxide Insufflation on Optic Nerve Sheath Diameter in Endoscopic Thyroid and Parathyroid Surgery: An observational study
114. To evaluate efficacy of tranexamic acid as anti-inflammatory agent and its effect on shunt patency in Lieno Renal shunt surgeries- a prospective, randomized, double –blind, placebo control study
115. To evaluate the impact of probiotics on gut mircobiota and their potential role in modulating postoperative neurocognitive dysfunction using metagenomics analysis – a pilot study
116. To evaluate the safety and efficacy of different doses of Clonidine in Pectoral nerve blocks (PECS I&II) for pain relief in different Oncological Breast Surgeries: A prospective, comparative, randomized controlled trial.
117. To study the analgesic effectiveness of Anterior femoral cutaneous nerve block in addition to Proximal adductor canal block and Local infiltration analgesia in patients undergoing unilateral primary total knee arthroplasty.
118. To study the correlation of cumulative fluid balance and diaphragmatic dysfunction among ventilated patients
119. Ultrasonographic Assessment of Tonsillar Volume in Children undergoing tonsillectomy; a predictor of post-operative morbidity
120. Ultrasonographic Subcutaneous Edema Assessment for Cumulative fluid balance and ICU outcome- A prospective observational study.
121. Use of IgM-enriched intravenous immunoglobulin mixture in patients with severe burn: A prospective randomized placebo-controlled pilot trial
122. Use of isotonic bicarbonates in the prevention of acute kidney injury in high voltage electrical burns: A double blind randomised controlled trial.
123. Utility of laryngeal mask airway for the airway management in infants undergoing operative procedures for retinopathy of prematurity: A single arm clinical trial

124. Utilization of NIRS monitor to compare regional cerebral oxygen saturation between opioid and opioid-sparing anesthesia and post-operative cognitive dysfunction in elderly patients undergoing laparoscopic surgery A double blinded randomized controlled trial.
125. Validation of Global Definition of Acute Respiratory Distress Syndrome in COVID-19 Patients: A Retrospective Study
126. Validation of pressure transducer derived femoral artery corrected flowtime for volume responsiveness in adult patients with septic shock.
127. Velocity time integral and stroke volume measured in the ascending aorta for prediction of volume responsiveness in mechanically ventilated adults with septic shock
128. Volume controlled vs pressure control volume guarantee ventilation in emergency laparotomy: a randomized controlled trial

Completed

1. A comparative study to evaluate the analgesic efficacy and safety of caudal versus intranasal Dexmedetomidine as an adjuvant to caudal Ropivacaine in paediatric patients undergoing infraumbilical surgeries: A randomised controlled double blind non-inferiority trial
2. Air Q ILA as a conduit for orotracheal intubation in children: A comparison between supine and lateral position
3. Analgesic efficacy of intrathecal dexmedetomidine versus intrathecal morphine as adjuvants to bupivacaine in patients undergoing total laparoscopic hysterectomy: A randomised parallel group double-blind non-inferiority trial
4. Analgesic efficacy of sacral erector spinae plane block in Lumbosacral spine surgeries as compared to conventional Management: A randomized controlled trial
5. Antimicrobial Resistance Awareness -A Comprehensive analysis of Artificial Intelligence-generated public educational materials. Assessing accuracy, suitability, sentiment, readability, and actionability in ChatGPT versus Google Gemini
6. Assessment of acute gastrointestinal injury (AGI) by point-of-care ultrasound (POCUS)to predict feeding intolerance in adult critically ill patients.
7. Association of malnutrition with inhalational anaesthetic requirement and awakening during day care procedures in children
8. Can nasopharyngeal suction prior to supraglottic airway (SGA) removal reduce the incidence of post-SGA removal adverse airway events in children? – A randomised controlled trial.
9. Comparative Evaluation of Anatomical Spread in classical thoraco-lumbar interfacial plane (TLIP) block and Modified TLIP block: A cadaveric study
10. Comparison between the Medial and Lateral approaches of Ultrasound-guided Costoclavicular Brachial plexus block for upper limb surgeries- A Pilot Interventional randomised control trial
11. Comparison of analgesic efficacy of modified plain thoraco-lumbar interfascial plane block (TLIP) Vs modified thoraco lumbar interfascial plane block with dexmedetomidine as adjuvant in patients undergoing lumber disc surgeries A – comparative randomized controlled trial.
12. Comparison of analgesic efficacy of Pericapsular group of nerve block Versus Quadratus Lumborum type III block in adult patients undergoing unilateral hip arthroplasty: A comparative randomized control trial.
13. Comparison of analgesic efficacy of two approaches to the ultrasound guided erector spinae plane block in patients undergoing modified radical mastectomy: A randomized controlled trial.
14. Comparison of awake nasotracheal intubation using flexible Fibre-optic bronchoscope versus D blade CMAC Video-laryngoscope in patients having anticipated difficult airway under topical local anaesthesia and dexmedetomidine infusion
15. Comparison of Caudal epidural block with Multiple injection Costotransverse block for renal surgeries in paediatric patients: A prospective randomised, blinded clinical trial
16. Comparison of sevoflurane and isoflurane during oocyte retrieval on in-vitro fertilization outcomes: A retrospective study.

17. Comparison of the analgesic efficacy of continuous segmental epidural block with dilute local anaesthetic solution and fentanyl to epidural morphine boluses in dilute local anaesthetic in paediatric patients undergoing upper abdominal surgery: a randomized controlled trial.
18. Comparison of the effect of console-based video games on visuomotor skills of novice residents: A double-blinded Randomized controlled trial
19. Comparison of two doses of tranexamic acid in reducing intraoperative blood loss in patients undergoing pancreaticobiliary surgery
20. Comparison of ultrasound guided double injection vs triple injection technique of intertruncal approach of supraclavicular nerve block: A randomised non-inferiority trial.
21. Correlation of Ultrasound Examination with Flexible Bronchoscopy for Airway Assessment in Burns Patients with Inhalational Injury : An Observational Study
22. Duration of mechanical ventilation prediction in critically ill patients: development and validation of an AI model.
23. Effect of a dexamethasone on postoperative subsyndromal delirium in older adults : A randomised, double-blind, placebo-controlled trial
24. Effect of different degrees of head of end elevation of the bed on respiratory mechanics during extubation in patients undergoing routine surgical procedures under general anesthesia.
25. Effect of different patient positions on post induction hypotension caused by Propofol – A randomized comparative trial
26. Effect of Erector Spinae block with bupivacaine and ketamine versus bupivacaine alone on chronic postoperative pain in patients undergoing modified radical mastectomy: A pilot study
27. Effect of erector spinae block with bupivacaine and ketamine vs bupivacaine alone on acute postoperative pain and opioid consumption in patients undergoing modified radical mastectomy
28. Effect of I:E ratio optimisation and prolonged end inspiratory pause on post-operative lung atelectasis and pulmonary complications in adult patients undergoing major open abdominal surgery: A randomised controlled trial.
29. Effect of verapamil as an adjuvant to epidural steroid injection in chronic lumbar radicular pain: A randomized, double blind study
30. Effect of wrist angulation on ease of radial artery cannulation in pediatric population: ultrasound-guided anatomical assessment
31. Efficacy Of Calcium Gluconate in prevention of uterine atony during Lower Segmental Caesarean Section(LSCS) Delivery: A Randomized Controlled Trial
32. Efficacy of Retrolaminar Plane Block in Patients Undergoing Breast Surgeries: a single-center, prospective, observational study
33. Evaluation of the performance of sonographic airway assessment parameters to predict difficult airway in children
34. Impact of preoperative anxiety on propofol induced hypotension in children undergoing elective surgery under general anesthesia: a prospective observational study
35. Ketofol vs ketodex vs ketofen for dressing in burns in adult patients: A Randomised controlled trail
36. Low dose methylprednisolone in early mild moderate ARDS in burn patients: A Single center open label Randomized control trial
37. Myocardial performance index for prediction of an outcome in septic shock patients: A prospective observational pilot study.
38. Oxygen reserve index for detection of hyperoxemia and titration of oxygen in intensive care: A prospective observational cohort study.
39. Perioperative opioids and postoperative neurocognitive outcomes in elderly patients undergoing laparoscopic surgery: A prospective observational study.
40. Predictors for postoperative ICU stay in scoliosis- a retrospective study

41. Preoperative Ultrasound assessment of quadriceps depth for Identifying Frailty and post operative delirium: An observational Study
42. Retrospective Analysis of Factors Influencing Prolonged Intubation in Adult Burns Patient in a Tertiary Care Institute
43. Role of comprehensive lung ultrasound in predicting postoperative pulmonary complications after emergency abdominal surgery: a prospective observational study
44. Sonographic assessment of suprahyoid airway parameters in patients planned for elective Proseal placement - a pilot, observational study.
45. The association between pulmonary function tests and difficult airway in morbidly obese patients
46. The effect of post spinal hypotension on cerebral oxygenation using Near Infrared Spectroscopy and Neonatal Outcomes in full term parturients Undergoing lower segment Caesarean Section- A prospective observational study
47. To assess the analgesic efficacy of ultrasound guided Erector spinae block Vs Transverse abdominis plane block in children undergoing unilateral abdominal surgeries: A comparative randomized study.
48. To assess time to first rescue analgesic requirement following preoperative Genicular Nerve Block in arthroscopic knee surgeries.
49. To evaluate the efficacy of different doses of iv dexamethasone on the duration of subarachnoid block in patients undergoing infraumbilical surgery: A randomized control double blinded study**.**
50. To study the efficacy of 6% hydroxyethyl starch with 0.25% ropivacaine for ilioinguinal/iliohypogastric block along with wound infiltration in prolonging the duration of post-operative analgesia in pediatric unilateral inguinal hernia repair- A randomized control trial

INTER DEPARTMENTAL COLLABORATIONS

Ongoing

1. A Retrospective Evaluation of Anaesthetic Management and Perioperative Concerns in Scoliosis Surgery :A Single Centre Study from a Tertiary Care Hospital, Department of Orthopedics, AIIMS, Delhi
2. Comparison between patient controlled analgesia with fentanyl and multimodal parenteral analgesia in reducing pain due to second trimester medical termination of pregnancy – A randomized controlled trial, Department of Obstetrics and Gynaecology, AIIMS, New Delhi
3. Efficacy and safety of Onabotulinum toxin A (Botox) injections in the upper esophageal sphincter for the treatment of Pharyngo-esophageal Dysphagia due to cricopharyngeal dysfunction- A Randomized Control Trial, Department of Neurology Department of Gastroenterology and Human nutrition Department of Radiodiagnosis AIIMS, Delhi
4. Evaluation of complex regional pain Syndrome of hand in patient presenting in a Tertiary care Centre, Department of Orthopaedics, AIIMS, Delhi
5. Evaluation of Diagnostic Accuracy of Airway Ultrasound for Inhalational Burn Injury, Plastic, Reconstructive & Burns Surgery, AIIMS, New Delhi
6. Extent of Pelvic Lymphadenectomy during Radical Cystectomy – A Multi-Institutional Open Label Randomized Trial between Standard and Extended Pelvic Lymphadenectomy, PGIMER, Chandigarh; AIIMS, New Delhi; JIPMER, Pondicherry, AIIMS, Bhubaneshwar; AIIMS, Jodhpur; AIIMS, Rishikesh
7. Neutrophil lymphocyte ratio as a predictor of acute abdomen in patients presenting with acute abdominal pain to the emergency department: a prospective observational study, Emergency Medicine, AIIMS, New Delhi
8. Proteomic- based Outcome Biomarker Exploration in ESKAPE organism sepsis in major burns(PROBESCAPE, Plastic, Reconstructive & Burns Surgery, AIIMS, New Delhi

Completed

1. A Randomized controlled trial on efficacy of single dose of intraoperative dexamethasone in reducing postoperative pain in caesarean section, Department of Obstetrics and Gynaecology, AIIMS, New Delhi

2. Ambispective cohort study to evaluate the effect of Supraglottoplasty on Tracheomalacia in pediatric patients with Congenital Laryngotracheomalacia, Department of Otolaryngology and Head and neck surgery, AIIMS, New Delhi
3. Anatomical evaluation of spread in costotransverse foramen block at thoracic level by Computed Tomography imaging: A cadaveric study, Forensic medicine& Toxicology and Radiology, AIIMS, New Delhi
4. Comparison of analgesic efficacy of ropivacaine and levobupivacaine in labor analgesia by dural puncture epidural technique- a prospective double-blinded randomized trial, Department of Obstetrics & Gynecology, AIIMS, New Delhi
5. Determination of duration of vecuronium and isoflurane in type 2 diabetic patients with diabetes with and without cardiac autonomic neuropathy, Department of Physiology, AIIMS, New Delhi
6. Microscopic analysis of Crystallization of clinically used local anaesthetic mixture when combined with dexamethasone and dexmedetomidine, Department of Biochemistry, AIIMS, New Delhi
7. Molecular detection of legionella pneumophila by real time PCR and characterization of isolates by sequence-based typing, Department of Microbiology, AIIMS, New Delhi
8. Randomized controlled trail to compare time to endotracheal intubation by novice anaaesthesiologists hen performed by direct laryngoscopy without verbal video laryngoscope feedback to direct laryngoscopy with verbal video laryngoscope feedback, Department of Radiology, AIIMS, New Delhi
9. Randomized controlled trial to compare dexamethasone and clonidine in ultrasound stellate ganglion nerve block parameters of NRS and vascular dynamics, Department of Physiology, AIIMS, New Delhi
10. RCT to compare efficacy of ropivacaine dexamethasone combination to pulsed radiofrequency of superior hypogastric plexus in chronic pelvic pain patients, Department of Obstetrics & Gynecology, AIIMS, New Delhi
11. To compare the speed of intravenous induction of anesthesia using ketamine in pediatric patients with and without congenital heart disease, Cardiac anaesthesia, CNC, AIIMS, New Delhi
12. Use of pulsated electro-magnetic fields (PEMF) as an adjunct for treatment of chronic back pain: a prospective randomized study, Department of Orthopedics, AIIMS, New Delhi
13. UV radiation to decontamination of mobile phones of Health care workers at a tertiary care hospital, Department of Microbiology, AIIMS, New Delhi

Patient Care

a) Facilities available in the department

We are providing anaesthesia services in approximately 45 operation theatres for various surgical specialties like ENT, GI Surgery, Surgery Block, BPS block, Urosurgery, Dental surgery etc. We also provide anaesthesia services at various peripheral locations like CT, MRI, DSA etc. The department also runs specialty clinic namely PAC clinic, Pain clinic along with OPD based pain interventions. Critical care services are also catered by department under various ICUs like AB8 ICU, BPS ICU and surgery block ICU

b) Community services/camps etc.

- CPR training of coast guards at Lakshadweep conducted from 30 April-2 May 2024
- CPR training of BSF persons at Anini, Arunachal Pradesh form 8-11 May 2024
- Medical Camp at Ladakh by Ashoka Mission from 16-21 September 2024.

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Awards won by the residents of the department

Paper/Poster Awards (National)- 29

Paper/Poster Awards (International)- 5

Quiz (National)- 5

Professor Ganga Prasad was Administrative incharge of clinical services till August 2024 in anaesthesia and critical care at JPN trauma centre, AIIMS, New Delhi. He became a Member of bureau of Indian standard (BIS) for anaesthesia equipment's, New Delhi. He was the Faculty coordinator of central workshop, AIIMS, New Delhi. He was the Chairperson of session on "MPGPS in various institute of national importance and central govt institute" in National Guidelines on Oxygen Management; Launch of National Capacity Building Programme on Oxygen Management held on 27 March 2025 in set facility at AIIMS, New Delhi. He was the Chairperson of monthly meeting of Indian society of anesthesiologists Delhi chapter meeting held at AIIMS new Delhi on 28 January 2025. He was the Judge of best paper competition in 63rd Annual Conference of Indian Society of Anesthesiologists Delhi Branch- ISACON Delhi, held at Hyatt centric, Janakpuri, New Delhi on 28 September 2024. He was the Chairperson for session titled "Technology presentation by lead industrial partner" in 1st International Conference on Innovations and Technology in Anaesthesia & Critical Care and Annual central Zone Conference of the Indian Society of Anesthesiologists on 26 October 2024 at Orchha Palace and Convention Centre, Orchha, Jhansi Uttar Pradesh. He was Chaired a session on "paediatric resuscitation" in Paediatric perioperative cardiac arrest (P- POCA); held on 22 March 2024. He was the Chairman of B.Sc (OT technology) course committee at AIIMS, New Delhi; He was the Chairman of DPC committee for central workshop, AIIMS, New Delhi. He was the Thesis Examiner for MD Anaesthesiology in Delhi University, New Delhi; He was the Subject expert for promotion in Delhi University, New Delhi in March 2024. He was the Organising Chairperson of Recent advances 8th ultrasound guided regional Anaesthesia cadaveric workshop, at AIIMS new Delhi on 24-25 February 2024. He was the Jury for session titled "National Innovation Award" in *1st International Conference on Innovations and Technology in Anaesthesia & Critical Care* and *Annual central Zone Conference of the Indian Society of Anaesthesiologists.* 6-27 October 2024 at Orchha Palace and Convention Centre, Orchha, Jhansi Uttar Pradesh.

Professor Vimi Rewari was the Chairperson at the Free paper session at 3rd ISA DELHI YUVACON on 6th April 2024 at Maulana Azad Medical College (MAMC), New Delhi. She was the Panelist in Panel discussion: A case-based approach to Perioperative Fluid Therapy at the Symposium: Fluid therapy in perioperative & critical Care held on 28 April 2024 at AIIMS SET Facility. She was the Panelist in Panel discussion: Pregnancy with H1N1 ARDS presentations at the Recent Advances in Critical Care" {RACC-2024} conference held on 25 August 2024 at AIIMS, New Delhi. She was the Judge in e Poster presentation at the 5th International & 15th National Conference of Indian College of Anaesthesiologist (ICACON) held at King George's Medical College and Hotel Holiday Inn, Lucknow on 14th September 2024. She was External expert for DM Critical Care Curriculum Development Workshop at BPKIHS, Dharan, Nepal on 22-23 September 2024. She was the Judge in competitive paper presentation 63rd Annual Conference of Indian Society of Anesthesiologists Delhi Branch – ISACON Delhi held at Hyatt Centric Janakpuri, New Delhi on 28 September 2024. She was the Chairperson for the CME Session: Striking a balance with advancements at the 71st Annual Conference of the Indian Society of Anaesthesiologists, ISACON 2024 held at Samrat Ashoka Convention Centre, Patna on 21st November 2024. She was Critical care expert for the DNB (Critical Care Medicine) Preparatory Course held at Ganga Ram Hospital, New Delhi on 22 February 2025. She did Workshop on Simulation in Anaesthesia at 5th International & 15th National Conference of Indian College of Anaesthesiologist (ICACON) held at King George's Medical College and Hotel Holiday Inn, Lucknow on 13 September 2024. She did Workshop on "POCUS in critical care" as a part of the Critical Care Update Conference and Workshop organized by Department of Anaesthesiology, Critical Care and Pain Management, Government Medical College, Srinagar, Kashmir on 15 October 2024.

Professor Vanalal Darlong was underwent a short-term training in acute and chronic pain Procedures 1 April to 14 April 2024 Tokyo University and Kobe university in Kobe Japan.

Professor Jyotsna Punj attended Training in Pain Procedures at Tokyo Medical University and Kobe Medical University in Japan. She was the Associate editor of IJPUT (International Journal of Perioperative Ultrasound & Applied Technologies). She was the member of the Editorial board of the Russian Journal of Obstetrics, the Annals of Critical Care, Journal of Anesthesiology and Clinical Pharmacology, Indian Journal of Anesthesia, Saudi Medical journal, BMJ open, International Journal of Pediatrics and the SOJ Anesthesiology & Pain Management. She is the member of Evaluation of thesis from Jammu University.

Professor Ravinder Kumar Pandey continued as Editor in chief of international journal of perioperative ultrasound and applied techniques (IJPUT) since 2014. He was the Editor in Chief of International Indexed Journal of Perioperative

Ultrasound and Applied Techniques (IJPUT) since 2014. He was Reviewer of Pub Med Indexed Journals, JCA, JOACP, IJA, Journal of Medical Care Report, BMJ (open), Associate editor of Journal of National Board and ICA.

Professor Anjolie Chhabra was a visiting Professor of the Department of Anesthesia and Pain Medicine, Sick Kids, The Hospital for Sick Children, Toronto for a period of one year from July 2024.

Professor Puneet Khanna received award to present paper in KSCCM-ACCC 2024 Seoul, Korea, 25-26 April 2024. He submitted Best 5 Papers in EUROMED 2024 Marrakech, Morocco, 15-18 May 2024. He won 1000 SGD to present paper in APICS 2024, Singapore, 17-19 August 2024. He was the Chief Editor ISA Newsletter (10 issues)- 2024. He did Technical Evaluation for the 150-bedded critical block- NEIGRIHMS, Shillong. -16 July 2024. He did Inspection and evaluation of Babu Jag Jeevan Ram Memorial Hospital, Delhi-30 August 2024. He had ESICM Membership – 2024-2025, IARS Membership -2024-2025. He has ACADEMIC ACTIVITY. He was a member of the Organizing committee ISA YUVACON -7 April 2024. He was a member of the Organizing committee ISA Delhi Annual -2024. He was a member of the Selection committee experts for MSR, CBME, IIT DELHI, 11 December 2024, Capacity Building of Doctors and Hospital Engineers in Structural and Non-Structural Mitigation. He had Measures for Hospital Safety and Disaster Resilience and Standing Expert Committee of develop a detailed National Strategy and action plan minimizing drug overdose deaths. He was MD THESIS- PGIMER Chandigarh, GMC, Chandigarh.

Professor Bikash Ranjan Ray received Best Oral Presentation International 2024 Second Prize – SECC 2024 Taipei. He also received the Beat Oral Paper International 2024 1st Runners UP best Paper – APICS 2024 Singapore. He received award from Education Grant International 2024 APICS 2024 Singapore. He received Travel Award International 2024 "Korean Society of Critical Care Medicine" for 3rd KSCCM – TSCCM. He was the member of the Joint Congress, Seoul, South Korea. He received award from International Travel Support National 2024 Department of Science and Technology (DST) for paper presentation at SSAI-2024 conference at Oulu, Finland. He received Symposium/Conference Award National 2024 DST For AIIMS-RACC Conference.

Professor Debesh Bhoi was the Recipient of Asian society of Paediatric Anaesthesiologists travel grant at Kuching, Sarawak, Malaysia, (ASPA Travel Grant 2024).

Dr Shailendra Kumar was Nominated by Director for medical camp at Lakswadeep and give CPR training to coast guards on 30 April–2 May 202. He was Nominated by Director to give CPR training to BSF persons at Anini, Arunachal Pradesh on 8 May- 11 May. He received Letter of Appreciation for training Coast guards at CRTC Centre, AIIMS, New Delhi by Principal Director, Indian coast guard Headquarters.He attended Medical Camp at Ladakh by Ashoka Mission on 16 September–21 September. He received Letter of Appreciation sent to Director AIIMS by MS, SNM Hospital, Leh for starting the service of Modified ECT therapy on 22 September. He received 2nd Prize in oral presentation to thesis paper titled *Comparison of the Effect of Ketofol and Ketodex as Procedural Sedation and Analgesia for Oocyte Retrieval During In Vitro Fertilization Procedures: A Randomized Controlled Pilot Study* in ISACON Delhi 2024. He Signed MoU with Indian Coast Guard to provide CPR training to Coast guards on 30 December 2024. He was Nominated by director to investigate poisoning case in Badhal village, Rajouri, J&K on 30 January-3 February 2025.

Dr Akhil Kant Singh was a Member of the National Expert Group of the National Capacity Building Programme for Medical and Nursing Officers on Medical Oxygen Management and Its Use in Tertiary Care Hospitals.

Dr Nishant Patel got Educational Reimbursement Award grant of (1000 SGD) at Asia Pacific Intensive Care Symposium (APICS 2024) Singapore. He was the Faculty in charge of Anaesthesia team of a case published in National newspapers (English and Hindi) - 4-month-old baby undergoes rare minimally invasive lung surgery at AIIMS TNN |16 March 2025, 07.38 PM IST. He was the Chief coordinator for Bronchoscopy, TCD, Pupillometry workshop in Recent Advances in Critical Care" {RACC-2024}. He was the Chairperson for Pro-Con Debate: Administration of 100% Oxygen should be norm during extubation at RSCAPCON Jodhpur 19 April 2024.

Dr Sulagna Bhattacharjee was Awarded Fellowship of French Institute of India, Government of France for Short research trip (medical) to France, in the field of hemodynamic monitoring. She visited the department of Intensive medicine and Versatile Resuscitation, Hospital Robert Debre, University Hospital, Reims, France. She was the Chairperson for Criticare Kochi on 8 March 2025 for Thematic session. She was the Chairperson for Pulmocrit 2025, AIIMS, New Delhi, 22 March 2025 at "Symposium of Critical Care". She was the Member of Editorial board of Critical Care Communications 2024-2025, a bimonthly publication by the Indian Society of Critical Care Medicine. She Received advanced training in extracorporeal membrane oxygenation (ECMO) techniques at 21st ECMO training course, Mumbai, Maharashtra by ECMO society of India.

Dr Mrityunjay Kumar was the Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS) - Faculty & amp; Instructor. He was appointed as Assistant Editor- Journal of Anaesthesiology clinical pharmacology. He was Appointed as

Assistant Editor- The Indian Anaesthetist forum. He was Nominated as a National expert for Lifesaving Anaesthesia Skills (LSAS) for Comprehensive Emergency Obstetrics & amp; Neonatal Care (CEmONC); National Health Systems Resource Centre, MoHFW, Government of India. He was the member of the Critical care curriculum for medical officers (EmCrit), National Health Systems Resource Centre, MoHFW, Government of India. He was the member of The operational and technical guidelines on emergency care services at district hospital. He was Thesis examiner MD anaesthesia- Panjab University & amp; AIIMS Jodhpur. He was the Examiner- Life saving anaesthetic skills for emergency obstetrics care TN Govt. He played other significant roles in the conferences & amp; workshops. He attended 32nd Annual and 3rd International Conference of Research Society of Anaesthesiology and Clinical pharmacology. He Conducted PG Quiz as a quiz master. He Participated as faculty in the workshop on 'Literature search and test of significance' held during 19 to 21 April 2024 at Jodhpur. He Judged the posters for 'Usha Mehta award for cardiac anaesthesia. He was appointed as a moderator in 'the joint committee' in the 14th Annual Conference of Academy of Regional Anaesthesia of India held at Hyderabad from 22 to 25 August 2024. He joined As faculty; quiz master- recent advances in critical care (RACC) at AIIMS, New Delhi on 24-26 August 2024. He attended 25th Annual Conference of Rajasthan Society of Anaesthesiologists, RAJISACON at Jodhpur on 13 to 15 September 2024. Workshop on point of care Ultrasound. Also chaired a session, conducted preliminary & main quiz, and participated as Judge for Jaipur Anaesthesiologists. He received Academic Foundation (JAAF) Award 15th National Airway Conference 2024 held at AIIMS, Mangalgiri on 20 to 22 September 2024 Chaired a session on Paediatric Airway. He was Quiz master- ISA Delhi monthly clinical meet on 28 January 2025. He was Criticare 2025, 31st Annual National Conference of the Indian society of Critical Care. He was Chaired sessions on how to read a paper and neurocritical care Medicine held from 7 to 9 March 2025 at Kochi and Paediatric Perioperative Cardiac Arrest (P-POCA) held on 22 March 25 at AIIMS, New Delhi. He was the member of Workstation on neonatal resuscitation and arrythmia management. RSACPCON 25, 33 National & amp; 4th International Conference of Research Society of Anaesthesiology Clinical Pharmacology. Held at AIIMS, Bhatinda on 28 & amp; 29 March 2025. He attended Moderated a panel discussion on 'Piecing together logistics for acute pain services'. He was Peer reviewer for many journals including Abstracts of IARS, AUA and SOCCA Annual Meetings, Journal of Clinical Anesthesia, Journal of Intensive Care Medicine, Journal of ultrasound in medicine. Turkish Journal of Anaesthesiology Reanimation. International journal of critical illness & injury sciences, Clinical toxicology.

Dr Parin Lalwani was a Judge for E Poster session. Yuvacon MAMC Delhi 6 April 2024. Workshop Faculty in IDRA at SGRH Delhi on 7 July 2024. Workshop Faculty in e-FAST in SZ ISACON at Salem Tamil Nadu on18 July 2024. Workshop Faculty in Neonatal Airway (Fibreoptic intubation through SGD) NASCON 2024 21 July RML Delhi. Chairperson: Anesthesia and Urinary System NASCON at RML Hospital Delhi 27 July 2024. Workshop Faculty (ACLS to Nursing Delegates) in RACC 2024 24-26 August 2024 AIIMS, New Delhi. Workshop Faculty in Airway ultrasound at 5th International and 15th National Conference ICACON Lucknow 13 September 2024. Workshop Faculty at AURA 2024, 22 September (9th AIIMS USGRA Workshop) AIIMS Delhi. Workshop Faculty POCUS 27 September and Judge in Poster Presentation in 63rd Annual Conference ISACON 28 September 2024. Workshop Faculty 13-14 April 2024 at PURE 2024 Hyderabad.

Dr Anju Gupta received Padmakant Award for best paper in pediatric anesthesia in RSACPCON- March 2025. Best paper in Delhi ISA in Regional Anesthesia category (co-author) September 2024 E-poster (case series-faculty) second prize RSACPCON- March 2025. RSACPCON one minute challenge- Third prize.

Dr Kelika Prakash was Lead Coordinator for Nurses symposium on "Focus on infectious disease control" at Recent Advances in Critical Care 23/8/24: AIIMS New Delhi.

Dr Shreya Bharat Shah was Organizing Secretary of Paediatric Perioperative Cardiac Arrest (P-POCA) workshop held on 22 March 2024 at AIIMS, New Delhi. She was Instructor for the AHA accredited ACLS course. She Chaired a session on newer applications to neonates in Neonatal Anaesthesia Society conference (NASCON 2024) in July 2024 at New Delhi.

Dr Sana Yasmin Hussain was Chairperson in scientific session at AIM-P Interventional RF Pain Conference from 27-28 July 2024 at New Delhi. He was Nominated by AIIMS to conduct a training workshop on first aid and cardiopulmonary resuscitation for ITBP, CRPF jawans and medical officers posted at Anini, Dibang Valley, AP.

Dr Nitin Choudhary was Awarded Rajiv Gupta Young Anaesthesiologist Award At 63rd Annual Conference of Indian Society of Anaesthesiologists Delhi Branch. He was Awarded Suman award & Promilajeet Virk award at 33rd Annual National and 4 International Conference of the Research Society of Anaesthesiology Clinical Pharmacology, RSACPCON 2024. He was Assistant editor in ISA Delhi Newsletter.

Dr Surabhi Gupta was the Chairperson: Thoracolumbar Fracture Spine for Segmental Spinal, Live Workshop at AIIMS, Rishikesh on 23 March 25. He was Moderator for session: Fluid resuscitation in Burns patients: NABICON 2025 (Annual Conference of National Academy of Burns – India) (13 February 25).

Dr Amit Kumar was the JUDGE in paper Presentation Yuvacon 2024 07 April 2024 New Delhi, India

Judge in paper Presentation ISACON 2024 28 September 2024 New Delhi, India.

Dr Swati Mehta was Conducted the first of its kind workshop on paediatric perioperative cardiac arrest (P-POCA) as Organising Co-Secretary for anaesthesia junior and senior residents in March 2025 at SET facility, AIIMS, Delhi. She Conducted a workshop for nursing professionals as part of conference- Recent Advances in Critical Care 2024 in August 2024 at SET facility, AIIMS, New Delhi. She was the Course co-ordinator for Airway workshop as a part of National Conference of Association of Indian Ophthalmic Anaesthesiologists held in September 2024 at PGIMER, Chandigarh. She Assisted in the conduct of ISA monthly meet conducted at AIIMS in January 2025.

Dr Dhruv Jain was Chairperson in scientific session at AIM-P Interventional RF Pain Conference from 27-28 July 2024 at New Delhi. He received Award for '2nd best paper in chronic pain' 41st ESRA Annual Congress, Prague, Czech Republic. He delivered a talk and conducted course on 'First Aid and Cardiopulmonary Resuscitation Course' for CRPF jawans and medical officers at Anini, Dibang Valley, Arunachal Pradesh from 8-11 May 2024.

Dr Sneha Singh was the Chairperson for e-paper presentation in YUVAISACON 2024- 3rd Annual National Conference of YUVA Indian Society of Anaesthesiologists Uttarakhand state chapter 3 August 2024. She was Actively involved in National programme for Prevention and Management of trauma and Burns injuries (NPPMT&BI) – Delivering lectures on Burns critical care in Advanced Emergency Burn Management Training for Doctors, Nurses and Dressers.

Dr Neha Pangasa was Anesthesia subject expert at NBE (National Board of Examinations). I make questions/OSCE for them every 6 months.

Dr Neha Garg Completed ACLS and BLS Course. She was Completed NABH Program of implementation for National Centre for Aging. She Conducted simulation scenario on ophthalmic emergencies in AIOA PGIMER, Chandigarh in September 2024, Chairperson in RASPCON at Jodhpur AIIMS in 2024. She was the Chairperson in ISACON 2024.

Dr Anshul Singh was US Patent Filing - USSN 19/117, 010 – Title *A Fluid Collection Device - Novel urine collection device: Patent filed for Arobag: modified Urine collection device*, on 30 March 2025.

Professor and Head

A Shariff

Professors

SB Ray	Rima Dada	Arundhati Sharma (Genetics)
Renu Dhingra	TC Nag (Electron Microscopy)	Ritu Sehgal
	Saroj Kaler	

Additional Professors

Tony George Jacob	Neerja Rani
Seema Singh	SC Yadav (Electron Microscopy)

Assistant Professors

Prabhakar Singh (Electron Microscopy)	Arthi Ganapathi

Assistant Processors (Contract)

Javed A Quadri	Dibakar Borthakhur
8 February 2025	11 February 2025

Jessy – 01 March 2025

Assistant Professor (end of contract)

Parul Kaushal-17 January 2025

Scientists

Prabhakar Tiwari	Manoj Kumar

HIGHLIGHTS

Education

The Department conducted a summer training program in electron microscopy from 15 May to 14 June 2024, which was attended by participants from different parts of India.

CMEs, /Workshops/Symposia/National and International conferences

Events organized/facilitated by the Department of Anatomy, AIIMS, New Delhi

1. National Workshop on Electron Tomography of Biological Specimens by Electron Microscope Facility, Department of Anatomy, 22 - 26 April 2024
2. Spine surgery cadaveric workshop by JPN Apex Trauma Centre**,** 28 August 2024
3. Cadaveric Endoscopic Spinal Surgery Workshop by Department of Orthopedics, 24 September 2024

4. Rhinoplasty workshop by Department of ENT on 13 October 2024
5. Lateral skull base dissection course by Department of ENT on 19 October 2024
6. National Training Program in Electron Microscopy for Scientific Investigators by Electron Microscope Facility, Department of Anatomy, 18 - 30 November 2024
7. Conference of the International Society for Fluoride Research (ISFR) by the Department of Anatomy from 12-14 November 2024
8. Robotic total knee replacement workshop by Department of Orthopedics, 24 November 2024
9. Cadaveric Workshop on Brachial Plexus and Peripheral Nerve Procedures by Neurosurgery, JPN Apex Trauma Centre**,** 4-5 December 2024
10. X International Conference of Physiotherapy with cadaveric workshop, Geriatric Medicine, 12-13 December 2024
11. The Anatomy Department provided fresh frozen cadavers to SET Facility for HUGO robotic cadaveric workshops

Lectures delivered at CMEs, National and International conferences.

Lectures delivered: 64

SB Ray: 2	**Rima Dada: 27**	**Arundhati Sharma: 2**
TC Nag: 4	**Ritu Sehgal: 2**	**Tony George Jacob: 17**
Neerja Rani: 1	**SC Yadav: 8**	**Arthi Ganapathi: 1**

SB Ray

1. Basic technique of Immunohistochemistry, National hands-on workshop on Immunohistochemistry – Basics and Beyond, 11 November 2024, Bhubaneswar
2. Expression of Connexin 43 gap junctions in the spinal cord of rats with sciatic nerve damage, 71 National Conference of Anatomical society of India, 22 November 2024, Amritsar

Rima Dada

1. Paternal factors embryo development. VI Annual Conference of Anatomical Society of Assam, 5 - 6 April 2024, Guwahati
2. Complex of lifestyle diseases: Role of Yoga in Health Promotion Disease prevention and management, VI Annual Conference of Anatomical Society of Assam, 5 - 6 April 2024, Guwahati
3. An Integrated Holistic approach to manage male infertility. Department of Kayachikitsa, 23 April 2024, New Delhi
4. Your Health- Your Choice, Educational program, 22 July 2024, New Delhi
5. Research Avenues in Molecular Biology, National Anatomy Conference “RRR”-”Anatomy-The Recent, Relevant & Research Based, 26-27 July 2024, New Delhi
6. Yoga to manage stress and anxiety in students for students**,** Educational program**,** 12 August 2024**,** New Delhi
7. Role of Yoga in Health Promotion, Disease Prevention and Management, Educational program, 12 August 2024, New Delhi
8. Sanskriti and Sanskaars, For medical students at White Collar ceremony, August 2024, New Delhi
9. Yoga- the only way OUT is IN, CME at Morarji Desai National Institute of Yoga, 10 September 2024, New Delhi
10. Menstruation and hygiene, AIWEFA workshops for girl-adolescents with Visual Impairment, Hearing Impairment, Intellectual Disabilities, Autism Spectrum Disorder and Specific Learning Disabilities, 17 September 2024, NOIDA
11. Introduction of the human reproductive system and its relation to body system and processes, Workshop on “Transition towards womanhood for girl-adolescents with disability, 28 September 2024, New Delhi

12. Live Longer Live healthier, World Anatomy Day, 15 October 2024, New Delhi
13. Your genes are not your destiny – your choices, XII Bihar Jharkhand State Chapter Conference of the Anatomical Society of India (BJASICON 2024), 19–20 October 2024, Jharkhand
14. Unexplained male infertility: Impact of lifestyle and an integrated approach to management, XII Bihar Jharkhand State Chapter Conference of the Anatomical Society of India (BJASICON 2024), 19–20 October 2024, Jharkhand
15. Introduction to Cytogenetics When and why?, XII Bihar Jharkhand State Chapter Conference of the Anatomical Society of India (BJASICON 2024), 19–20 October 2024, Jharkhand
16. Let's manage health-Yoga in disease prevention and health promotion, Foundation Day, 23 October 2024, Bhatinda
17. Introduction of the human reproductive system and its relation to body system and processes, Workshop on Transition Towards womanhood for girl-adolescents with disability, 5 November 2024, NOIDA
18. PCOS-a Complex Endocrinopathy, XXXV Annual Meeting of the Indian Society for the Study of Reproduction and Fertility (ISSRF-2025), 14–16 November 2024, Jaipur
19. Importance of Genetic Counseling and Testing in Medical Sciences, LXXI National Conference of Anatomical Society of India CME (NATCON-71), 21-22 November 2024, Amritsar
20. Talk on Yoga for specially abled children, Educational Program, 30 November 2024, New Delhi
21. Yoga n Molecular, clinical and metabolomic profile in women with PCOS, Annual meeting of endocrine society of India, 30 November 24, New Delhi
22. Yoga in cancer care, Scope, Evidence, and Evolution", XI National Conference on "Yoga in Cancer care: Scope, Evidence and Evolution", 4-7 December 2024, Pune
23. Lifestyle diseases from reproductive mental and physical health issues-Management, International Conference on Futuristic Approach for Vikstit Bharat (ICFAVB-2047, 23 and 24 December 2024, Dholpur
24. Keynote address on MNPs impact on sperm DNA health: Possible role in transgenerational inheritance", SPARC international Research Conclave: Beyond Microplastics: Research, Analysis and Innovation, 16–17 December 2024, Ooty,
25. Paternal origin on health and disease, Public Lecture, New Delhi
26. Study Avenues if you are not selected in MBBS in Training on Innovative Teaching Methodologies & Career Guidance, School branch Directorate of Education, 5 March 2025, New Delhi
27. Women in Science on International Women's Day, Rajasthan Science Congress meeting, 8 March 2025, New Delhi

Arundhati Sharma

1. Use of Next Gen sequencing in Rare Genetic Disorders for diagnostic and prognostic purposes, Genomics Analysis and Technology Conference (GATC) 2024. 14 April 2024, Delhi
2. FISH and its applications, Continued Education Program (CEP) Biodosimetry for medical management of Radiation Exigencies by DRDO (INMAS), 7 June 2024, Delhi, Online

TC Nag

1. Autophagosomes in aging human photoreceptor cell synapses, XLII Annual Meeting of EMSI, 17 May 2024, Mumbai
2. Photoreceptor cell loss is associated with Müller cell vulnerability in aging human retina, XXX Annual Meeting of Indian Eye Research Group and ARVO-INDIA 2024 Meeting, 27 September 2024, New Delhi
3. Principles and preparation of samples for electron microscopy, Workshop on NanoBio Lab Skills: Characterisation of Nanoparticles, 23 October 2024, Delhi
4. A presynaptic autophagic dysregulation that underlies photoreceptor cell vulnerability in aging human retina, XLII Annual Meeting of the Indian Academy of Neurosciences and International Conference on Brain: Chemistry to cognition, 14 November 2024, Bengaluru

Ritu Sehgal

1. How to frame MCQs, CMET Workshop for Senior Residents of AIIMS, 26 October 2024, New Delhi
2. How to frame MCQs, Faculty orientation program on Medical Education, Army College of Medical Sciences, New Delhi, 30 November 2024, New Delhi

Tony George Jacob

1. Bloom's taxonomy and educational domains. Basic Course Workshop in Medical Health Professions' Education. CMET, 29-31 August 2024, New Delhi.
2. Live cell imaging- Applications, Workshop on live cell imaging with Zeiss on Campus. CCRF, 4 September 2024, New Delhi.
3. Blended learning, AIIMS, New Delhi, Blended learning Technique training Workshop, SET Facility, 3-5 October 2024, New Delhi.
4. NNF-Project steering committee, PEP Grant- Phase 2- Excellence in Medical Education, 10, 11 October 2024, New Delhi
5. Communication skills, In-service training for Nursing Officers, 16 October 2024, New Delhi
6. Tools for Scientific Writing, 18 October 2024, MSc Nursing Course at CMETi, 18 October 2024, New Delhi
7. Communication skills, 19 October 2024. Foundation Course for MBBS students, 19 October 2024. New Delhi
8. Environment, Set, Dialogue, Conclusion: Principles of Microteaching, Workshop for Senior Residents. CMET, 19 October 2024, New Delhi
9. Communication and other soft skills, Nursing officers in service training, 22 October 2024, New Delhi
10. Structural and Functional Neural Connectivity Relevant to Neuromodulation, VIII National CME on Neuromodulation and 5th Hands-on Workshop; Centre for Advance Research and Excellence in Neuromodulation, Department of Psychiatry, 24 October 2024, New Delhi
11. Environment, Set, Dialogue, Conclusion: Principles of Microteaching, Workshop for Senior Residents. CMET, 9 November 2024, AIIMS, New Delhi
12. The penguin brain: a morphological and magnetic resonance imaging study, International Conference on Advances in Mechanisms and Approaches to Neuro-Therapeutics (AIM-AT) and XLII Annual Meeting of the Indian Academy of Neurosciences (IAN), 14 November 2024, Bengaluru
13. Constructed response questions, CMET Workshop in Evaluation in Medical Education, 21 November 2024, New Delhi
14. The neuron at the centre of all thought and action, International Brain Research Organisation Diversity Program: Think Forge 2024, 23 November 2024, Dharan, Nepal
15. Research methodology, statistics and microscopic morphometry, Continuing Medica l Education, 24 November 2024, Dharan, Nepal
16. Immunoelectron microscopy, XL National Training Program in electron microscopy for scientific investigators. 27 November 2024, Delhi
17. Curriculum design, Workshop for Senior Residents, CMET, 8 March 2025, New Delhi

Neerja Rani

1. Plasma-Derived sEVs and Their Proteomic Profile in Pancreatic Neuroendocrine Tumors (PanNET): Insights into Tumor Grade and Metastatic Potential. VESICON 2025 Indian Extracellular Vesicle Society (IEVS), 11 March 2025, Hyderabad

Subhash Chandra Yadav

1. *Nanotechnology-Based, Cost-Effective, and Simple Diagnostic Technology Platforms***,** XIII Asia Pacific Microscopy Congress 2025 (APMC13), 2-7 February 2025, Brisbane/ Australia

2. Visual, cost-effective, and simple diagnostic technology platforms for human disease based on Nanotechnology, International Conference on "Translational Trends in Natural and Health Sciences (TTNHS-2024), 4 - 6 December 2024, Bathinda
3. Effect of Ultra-Small Chitosan Nanoparticles Doped with Brimonidine on the Ultra-Structure of the Trabecular Meshwork of Glaucoma Patients**,** International PAMCP Conference 2024, 25-27 September 2024, Ajmer
4. Visual, rapid, and cost-effective BK virus detection system for renal transplanted patients using gold nanoparticle coupled loop-mediated isothermal amplification (nanoLAMP). International Conference on Electron Microscopy and XLII Annual Meeting of the Electron Microscope Society of India, 16-18 May 2024, Mumbai
5. Electron Microscopy in Pharmacology Research. LIV Annual Conference of the Indian Pharmacological Society (IPSCON-2024), 26-30 November 2024, New Delhi
6. (1) Advancement of Transmission Electron Microscopy for Biological Specimen Imaging: Room temperature to cryo-electron tomography. School on Microscopic Characterization Techniques, 9-12 December 2024, New Delhi (2) Sample preparation of biological specimens from room temperature to cryo-electron tomography. School on Microscopic Characterization Techniques, 9-12 December 2024, New Delhi
7. Nanotechnology-based, cost-effective, and simple diagnostic technology platforms. National Conference on Advanced Materials for Sensor for Society, 19 December 2024, New Delhi
8. Nanotechnology-based, cost-effective, and simple diagnostic technology platforms for rural India. University of Melbourne Symposium, 29 November 2024, New Delhi

Arthi Ganapathi

1. Artificial intelligence in medical education, LXX Annual National conference of association of Physiologists and Pharmacologists of India, 11 December 2024, Chennai

LECTURES DELIVERED OVER PAST 3 YEARS

2022–2023	2023–2024	2024–2025
72	55	64

List of oral papers/posters presented: 44

1. Borthakur D, Kumar R, Namaschivayam GR, Ansari MA, Singh S, The Fibularis Quartus Muscle: A Cadaveric Case Report with Embryological, Molecular and Clinical Considerations, 21st Congress of the International Federation of Anatomists (IFAA), 5–8 September 2024, Gwangju, Korea
2. Chaudhary SJ, KR, Yadav SC, A Novel TEM-Based Ultrastructural Imaging Methodology for the Diagnosis of Respiratory Ciliary Disorders, 13th Asia Pacific Microscopy Congress 2025 (APMC13), 2-7 February 2025, Brisbane, Australia
3. Filgy G, Shivani, Razik A, Neerja R, Kshetrapal P, Dhingra R, Altered ADMA expression: Implications in Preeclampsia, Sri Gururam Das Institute of Medical Sciences & Research, 22-24 November 2024, Amritsar
4. Ganapathy A, Agrawal, D Ghatak S, Sridar P, Selavaraj S, Employing Artificial Intelligence for enhanced Anatomy Dissection and Surgical training, 21st Congress of the International Federation of Association of Anatomists, 8 September 2024, Gwangju, South Korea
5. Ganapathy A, Shariff A, Singh S, High-Precision 3D Printing of the Sphenoid Bone Using DICOM Data from Dry Bone Specimens, 3D Printing Workshop for Medical Devices, Simulation & Innovation Neuro-Engineering Workshop Series, 15 December 2024, New Delhi[2]
6. Gorai PK, AS S, Kanojia K, Pal S, Dhingra R, Kumar R, et al, Plasma sEV Filamin-A: A Potential Biomarker for Early Detection of Pancreatic Neuroendocrine Tumors, VESICON 2025: Indian Extracellular Vesicle Society (IEVS), 11-13 March 2025, Hyderabad
7. Gorai PK, Rastogi S, Singh S, Agarwal S, Pal S, Nag TC, et al, Exploring Plasma-Derived Small Extracellular Vesicles as Novel Biomarkers for Early-Stage Detection of Pancreatic Neuroendocrine Tumors, ISEV2024: International Society for Extracellular Vesicles, Annual Meeting 2024. 9-12 May 2024, Melbourne/Australia

8. Hanusun HH, Akhila MS, Ray SB, Evaluation of MIA induced knee joint dysfunction in rats, 77 Scientific meeting of Korean Pain Society, 25 May 2024, Gwangiu, South Korea

LIST OF ORAL PAPERS/POSTERS OVER PAST 3 YEARS

Presentation	2022-2023	2023-2024	2024-2025
Oral/posters	50	50	44

RESEARCH

Funded projects

Ongoing

1. A multi-omics study for novel biomarkers in exosomes of pancreatic neuroendocrine tumors patients, Neerja Rani, DST, 3 Years, 2025-2028, Rs 59.37 Lakhs
2. A quick and cost-effective nanotechnology-based visual detection of HPV induced cervical cancer: an alternative of Immunofluorescence detection, Dr. Subhash Chandra Yadav, ANRF (SERB), 3 Years, 2024-2027, Rs 55.0 Lakhs
3. An experimental study to understand the mechanisms of choroidal capillary death in aging eye with emphasis on involvement of macrophages and other immunocompetent cells, TC Nag, ICMR, 3 Years, 2021-2024, Rs 37.0 Lakhs
4. Cisplatin-encapsulated HPV virion-based targeted delivery vehicle validation on cervicectomy samples using high-resolution Cryo-Electron Tomography, Subhash C Yadav, ICMR, 3 Years, 2024-2027, Rs 97.54 Lakhs
5. Cryo-Electron Microscope Imaging facility for biological specimens (Cells and Tissue), Subhash C Yadav, DBT, 5 Years, 2021-2026, Rs 2400 Lakhs
6. Development of artificial intelligence-based models for prediction of self-harm amongst the patients of depression, Arundhati Sharma, ICMR, 3 Year 2023-2026, 50 Lakhs
7. Effect of transplantation of lentivirus mediated genetically engineered mesenchymal stem cells into monocrotaline-induced pulmonary hypertensive rats: validation by Next Generation Sequencing, Prabhakar Singh, AIIMS, 2 Years, 2024-2026, Rs 10 Lakhs
8. Effect of yoga on visual function, biomarkers of cellular aging and mitochondrial copy number inLeber hereditary optic neuropathy (LHON) patients, Rima Dada, ICMR, 3 Years, 2021-2024, Rs 30 Lakhs
9. Effects of maternal chronic intermittent hypoxia on the cholinergic system and cognitive function of offspring in rat, Prabhakar Singh, DST, 3 Years, 2023-2026, Rs 80 Lakhs
10. Elucidating the role of molecular signatures with Yoga therapy in Diabetes, Rima Dada, DHR, 3 Years, 2023-2026, Rs 72 Lakhs
11. Evaluating the Impact of Yoga Intervention on miRNA Modulations and Reduction of Cognitive Impairment in Alzheimer's Disease: A Pilot Study (AECIPN-AIIMS-2024-275), Prabhakar, AIIMS, 2 Years, 2023-2025, Rs 10 Lakhs
12. Expression patterns of melatonin receptors MTI and MT2 in oesophageal cancer, Arthi G, IRG, 1 Year, 2023-2025, Rs 5 Lakhs

13. Fluorosis mitigation in a community of Bihar through intervention and counseling, A Shariff, DST, 4 Years, 2020-2024, Rs 152.76 Lakhs
14. "Impact of Yoga and Meditation on mitochondrial health, Telomere length and differentially expressed miRNA in POAG", Manoj, AIIMS, 2 Years, 2025-2027, Rs 10 Lakhs
15. Impact of Yoga basedYoga-based lifestyle intervention on polycystic ovarian syndrome (PCOS), Rima Dada, AYUSH, 3 Years, 2023-2026, Rs 61 Lakhs
16. Molecular profiling in Retinoblastoma using cell free DNA from aqueous humor, Arundhati Sharma, IRG, 2 Years, 2023-2025, Rs 10 Lakhs
17. National Networking Program for Artificial Intelligence basedIntelligence-based methods for healthcare data, Arundhati Sharma, DBT, 5 Years, 2023-2028, Rs 186.19 Lakhs
18. SMARCE1 mediated mechanisms of transcriptional modulation in trophoblast cell invasion during placentation and their status in preeclampsia, Renu Dhingra, ICMR, 3 Years, 2023-2026, Rs 40 Lakhs
19. The Impact of Yoga Intervention on Blood-Based Biomarkers, Epigenetic Modifications, and Immune System Dysregulation in Alzheimer's Disease: A pilot study, Prabhakar Tiwari, AIIMS-THSTI, 2 Years, 2024-2026, Rs 10 Lakhs
20. To study the effect of Yoga on DNA methylation alterations of imprinted genes and key genes of developmental importance in idiopathic recurrent pregnancy following spontaneous or assisted conception, Rima Dada, ICMR, 3 Years, 2022-2025, Rs 85 Lakhs
21. To study the role of cholinergic transmission on the amyloid beta inducedbeta-induced neurodegeneration, Prabhakar Singh, ICMR, 3 Years, 2023-2026, Rs 30 Lakhs
22. Unraveling the Biological Age Signature through the Epigenome (BASE): Identifying and Developing Innovative Precision Therapeutics in Temporal Lobe Epilepsy. Grant received from ICMR small extramural proposal as a Co-PI for 3 years (IIRPSG-2024-01-00204). Prabhakar, ICMR, 3 years, 2024-2027, Rs 82.41 Lakhs
23. Utility of Artificial Intelligence in differentiating, thyroid malignant lesions, Arundhati Sharma, DBT, 3 Years, 2020-2024, Rs 74.16 Lakhs

Completed

1. Effect of yoga on spermatozoa transcripts and miRNA expression in idiopathic infertility and early pregnancy loss, Rima Dada, SATYAM, 3 Years, 2020-2023, Rs 55 Lakhs
2. Effect of yoga on visual function, biomarkers of cellular aging and mitochondrial copy number in Leber hereditary optic neuropathy (LHON) patients, Rima Dada, ICMR, 3 Years, 2022-2025, Rs 30 Lakhs,
3. Establishment of Laser Confocal Microscope Facility for biomedical live cell Imaging and for nano-particulate drug delivery. Dr. Subhash Chandra Yadav, DST, 5 Years, 2018-2024, Rs 165 Lakhs
4. External delivery of Cisplatin using Human Papilloma Virus (HPV 16) based nanocarriers for treatment of cervical cancer. Dr. Subhash Chandra Yadav, DHR, 3 Years, 2021-2024, Rs 30 Lakhs
5. Investigation of Changes in Peripheral and Central Nervous System in An Experimental Model of Chronic Pancreatitis in Mice, Tony George Jacob, ICMR, 3 Years, 2019-2024, Rs 31 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. A Morphological Study of Human Temporomandibular Joint Articular Disc
2. A Study on Hydrogen Sulphide Mediated Transcriptional Modulation in Trophoblast Cells and their Association with Preeclampsia
3. Age-related morphological and neurochemical changes in glutamatergic neurons of the human inferior colliculus.
4. An experimental study to understand the mechanisms of choroidal capillary death in aging eye with emphasis on involvement of macrophages and other immunocompetent cells. Analysis of fourier transform infrared spectroscopy in pancreatic neuroendocrine tumor patients

5. An investigation into the status of expression of sensors of unfolded protein response in rat retina due to iron accumulation.
6. Assessment of the expression of BDNF, NT3 and their receptors TrkB and TrkC in the adult human inferior colliculus
7. Effect of continuous light exposure on the expression of NMDA receptors in rat retina
8. Effect of yoga on aging and functional decline
9. Expression of SMARCE1 (BAF 57) in blood and placentae of patients with pre-eclampsia.
10. Expression profile of novel proteins in blood of pancreatic neuroendocrine tumor patients
11. Genetic and epigenetic profiling in patients of Anterior Pituitary Adenoma
12. Genetic and epigenetic profiling in patients with opioid dependence
13. Genetic screening of patients with MEN2 syndrome
14. Identification and evaluation of novel proteins, inhibitors of apoptotic proteins and exosomes in cases of pancreatic neuroendocrine tumors, Impact of yoga intervention on progression of CKD
15. Impact of yoga on Alzheimer disease
16. Impact of Yoga on obesity
17. Meditation based stress reduction: Is it therapeutic for Primary Open Angle Glaucoma (POAG)
18. Molecular profiling using cell DNA in aqueous humor of retinoblastoma patients
19. Molecular studies in Fibromyalgia
20. Morphology of human knee joint synovium at injection sites in different age groups.
21. Polycystic Ovarian Disease – Impact of Yoga, Role of SMARCE1/ BAF57 in Migration and Invasion Ability of HTR8/SVneo Trophoblast Cell Line
22. Role of spinal cord microglial P2Y12 receptor in murine model of neuropathic pain
23. Study of the age-related changes in axonal cytoskeleton of the rat optic nerve
24. Study on the association of Polymorphism, Methylation and Expression status of Monoamine Pathway genes with Alcohol Dependence
25. The effect of binge alcohol consumption on myelination in the grey matter of the prefrontal cortex of adolescent rats
26. To study Gene expression, epigenetic alterations, Oxidative DNA damage in infertile men after Yoga Intervention and to analyse effect of their surum on Cancer Cell lines
27. To study the effect of prophylactic administration of garlic on the severity of experimental severe acute pancreatitis induced by L-arginine in mice

Completed

1. A histo-morphometric study of the anterior Cruciate ligament and Tendons around the Knee joint.
2. An experimental study to understand the mechanisms of choroidal capillary death in aging eye with emphasis on involvement of macrophages and other immunocompetent cells.
3. An In Vitro Study Of Cse & Htra1 In Trophoblastic Cell Invasion
4. Effect of garlic (Allium sativum L) extract on mice models of chronic pancreatitis.
5. Effect of hydrogen sulphide on protein arginine methyl transferase -1 (PRMT-1) signalling on trophoblastic cells and its association with preeclampsia
6. Evaluation of expression of Cystathionine Gamma Lyase (CSE) and High Temperature requirement (HtrA1) in preeclampsia and their association
7. Genetics studies to identify mutations in patients with cardiomyopathies

8. Impact of Yoga Based Intervention On Quality Of Life Of Glaucoma Patients
9. Impact of Yoga on Paternal factors Early pregnancy losses
10. Mutation analysis in Anti Mullerian Hormone gene in poor responders
11. Study of Association of Methylenetetrahydrofolate Reductase (MTHFR) Polymorphisms in Infertile Men
12. The study of enteric glia and vasoactive intestinal peptidergic neurons in the enteric nervous system of ulcerative colitis patients
13. To study the morphological changes in endothelin-1 induced capsular infarct model in rat brain

Collaborative projects

Ongoing

1. A study of the efficacy of intraperitoneal injection of methyl prednisolone on the severity of organ dysfunction in adult male Wistar rats with acute pancreatitis induced by surgical ligation of the biliopancreatic duct, GI Surgery
2. Genetics studies of cardiomyopathies, Cardiology
3. Genetics of Steven Johnson Syndrome, R P Centre for Ophthalmic Sciences
4. Genetic studies on aqueous fluid in retinoblastoma, R P Centre for Ophthalmic Sciences
5. Genome wide Analysis to explore stress, inflammation and cellular aging following short and long term yoga based intervention in obesity and DM, Physiology
6. Factors leading to early onset degeneration in Bioprosthetic valves implanted in a younger population- a multdisciplinary analysis, CTVS
7. ICMR Centre of Excellence for Neurosurgery Devices, Neurosurgery
8. Impact of preoperative steroids on trabeculectomy outcomes: a Randomized Controlled Trial, RP Centre for Ophthalmic Sciences
9. Impact of short term yoga based intervention in obesity, Physiology
10. Material characterization of brain tissue and development of tissue-device interaction based neurosurgical simulation tools, Neurosurgery
11. MEN1 gene mutation in patients of primary hyperparathyroidism, pancreatic tumors and pituitary tumors and its clinical implications. Endocrinology
12. Age Dependent Dynamics of Sperm Telomere and Inter-relation with DNA Damage Response, Reproductive Biology, AIIMS,
13. Microsurgical comparison of operative exposure of IAC though middle fossa and retro sigmoid hearing preservation skull base approaches - a laboratory investigation, Neurosurgery
14. Mutational Analysis of ASMD, R P Centre for Ophthalmic Sciences
15. Non-alcoholic fatty liver disease in Indian lean and obese patients: similarities and differences, Gastroenterology
16. Randomised control trial on the effect of transcranial magnetic stimulation of pathomechanism of gait and urodynamics in patients with partial transection of the spinal cord, Physiology
17. Study of cryopreservation effects on sperm mitochondrial and nuclear DNA integrity and its influence on fertilization event, Reproductive Biology
18. Study of sperm oxidative state, shelterin protein expression and chromatin function in infertile males, Reproductive Biology
19. Study of Oxidative Stress on Sperm TERRA expression and Chromatin function in Infertile males", Reproductive Biology, AIIMS,
20. To examine myelin associated inhibitors and pathological ultrastructural alterations of myelinated axons subsequent to severe traumatic brain injury among humans (with Forensic Medicine), Forensic Medicine
21. Transorbital approach to infratemporal fossa : A human exploratory study, ENT

22. Vulnerability assessment of Rasaja Bhava (Nutritional component) for the Causation of Asymmetric IUGR - A cross-sectional study, Chaudhary Brahm Prakash Ayurved Charak Sansthan
23. Assessment of genetic prevalence of NASH related liver cirrhosis with association of Matraja Bhava (Maternal Factor) - A cross-sectional study. Chaudhary Brahm Prakash Ayurved Charak Sansthan
24. Checking the feasibility of aotoplasty balloon catheter for endovascular occlusion of aorta', Surgical disciplines
25. Development of training model for delineation of vascular supply relevant to reconstructive surgical procedures of face and hand. A novel method of cadaver processing, Plastic reconstructive and burns surgery
26. Evaluation of the efficacy of Yoga-Based Intervention and Transcranial Magnetic Stimulation on cognition, stress and aging in Obesity. A Randomized controlled trial, Physiology
27. Extending the horizon of endoscopic neurosurgery: A cadaveric study as a starting step to introduce posterior fossa endoscopic approaches to the armamentarium of minimally invasive neurosurgery of our institute. Neurosurgery
28. Genetics of Juvenile glaucoma, R P Centre for Ophthalmic Sciences
29. Genetics of alcohol and drug dependence, Psychiatry

Completed

1. A Cross sectional study for assessment of Matrija bhava (Maternal factor) and Rasaja bhava (Nutritional factor) for causation of 22 childhood Leukemia in purview of epigenetics", Chaudhary Brahm Prakash Ayurved Charak Sansthan Delhi.
2. AIIMS+ CSE- IIT-D Center of Excellence Collaborative Neuro-Engineering platform for excellence in innovation and translational research, Neurosurgery
3. Factors leading to early onset degeneration in Bioprosthetic valves implanted in a younger population- a multidisciplinary analysis, CTVS
4. Support to Indian Institutes to Conduct Training Program in the area of Operational Research Neurosurgery Skills Training, Neurosurgery

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor A Shariff attended the following meetings- 7th ANSACON 2025 National Annual Conference of the Anatomical Society of Assam 2025, NEIGRIHMS, Shilong, Meghalaya, April 2025, 27thAcademic Committee Meeting of BP Koirala Institute of Health Sciences, Dharan, Nepal March 2025, Research Council Meeting at Centre for cellular and Molecular Biology, Hyderabad, March 2025, Selection Committee Meeting at AIIMS, Guwahati, March 2025, Steering committee meeting at Chennai, January 2025, Deployment of clinical team of experts to Rajouri in light at Badhal Village, January 2025, Panel Discussion being organized by GSL Medical College, Rajahmundry, November 2024, Guest speaker being organized by Banaras Hindu University, Varanasi, October 2024, Selection Committee Meeting at Holkar Bhawan, Banaras Hindu University, Varanasi, July 2024, Talk on "AI & Modern technology in present day teaching and training of medical students" Mahatma Gandhi Medical College & Research Institute, Pondicherry, July 2024, 6th Annual Conference of Anatomical Society of Assam-ANSACON 2024 AIIMS Guwahati, April 2024.

Professor SB Ray acted as an External Examiner for 1st Professional MBBS examination in various Medical colleges like Atal Behari Vajpayee Medical University, Lucknow, West Bengal University of Medical Sciences, Guru Govind Singh I.P. University and Delhi University. He also acted as an examiner for MD Examination in Anatomy at AIIMS, Bhubaneswar.

Professor Rima Dada received the DSc degree by the SVYASA University. She delivered the Dr Das and Dr Halim Oration at KGMU University. She received the fellowship of Indian Academy of Biomedical Sciences (IABS). She is a Task Force Member of Ayushman Bharat Scheme (Wellness) and holds the Chair for Yoga and Genetics Taksha Centre for Integrative medicine and Yoga (CIMY), USA. She delivered 1 oration 4 plenary lectures and 28 lectures. She is Professor in charge of media cell and has conducted 47 press meets in the last one year, organized 6 talks and a concert at AIIMS, Delhi. She is member of IFS who drafted the consensus guidelines for Psychological care in ART published in December 2024. She has taken several steps to enhance the social presence and impact of various clinical services offered by AIIMS doctors by starting podcasts featuring AIIMS doctors, small videos regarding various health issues by leading doctors on twitter and instagram. She is member of Institute ethics committee of SVYASA Bangalore and DC member of School of Biotechnology, Amrita Institute Kottayam. She was nominated as expert in a 6-member high powered committee constituted by MoHFW and AYUSH for drafting guidelines to promote Yoga research. She is also expert for evaluation/ formulation

& review of questions by NBE and for NEET examination and on board of governors and expert for Medical assessment and Rating Board (MABR), NMC. Dr Dada was nominated as expert for evaluation of projects under ICMR-CARE scheme and projects in task force mode in NCD and RBMH section (ICMR). She was a reviewer for various adhoc projects by ICMR/DBT/DST/Welcome Trust. She was nominated as an expert for Advisory Committee/The Ayush Interdisciplinary R&D Task Force on High Impact Research in Yoga, Ministry of Ayush, GOI. She is External faculty for IFS course in Clinical embryology and diploma in ART, PhD examiner and guide for various students. Featured in a podcast on BBC conducted by Michael Mosley. Delivered talks on Total health and work on yoga in various lifestyle diseases appeared in leading newspapers like TOI, HT and the Hindu and also on TV,,, Vigyan Prasar and BBC. Conducted interviews under APS and under Public service commission. Participated as Expert for an onsite Technical Evaluation Committee for Centre for Advanced Research and Excellence in Kidney diseases at SGPGI and PARAM NIMHANS. She is an expert of review workshops of MCQ Question Bank MBBS Exit level by NBE and PG expert for of NMC. Participated in online Training on Managing Leadership & High Performing Teams by NPC. She is a reviewer for over 45 journals and was invited by DOE to deliver lectures on research avenues beyond MBBS. Dr Dada is Member secretary and CPIO of Vishram Sadan and member core committee for institute day and election commissioner for UG elections. Dr Dada is member of committee for reviewing intramural grants and member of SPC, ICCSH. She is PG teaching incharge in the department. Her PhD students received several awards at national and international conferences. **Professor Arundhati Sharma** acted as a reviewer for projects, manuscripts for publications and PhD and MD theses. She is the nodal person for the Departmental Annual report and website information. She is also looking after the store-related work of the Department. She acted as a member of the committee to review projects under the UG Research Mentorship Scheme of the Institute.

Professor Renu Dhingra was awarded for the research article published in the journal Placenta at Fourth Annual Research day (Excellence in Basic Sciences) All India Institute of Medical Sciences, New Delhi January 2025.

Professor TC Nag examined one PhD thesis each from University of Chennai, CDRI (Lucknow) and Viswa-Bharati (West Bengal). He reviewed 86 manuscripts for publications in various journals. He was a member of the abstract review committee and judge in fourth AIIMS Annual Research Day presentation, 27 and 28 January 2025.

Professor Ritu Sehgal currently holds the designation of the Central Public Information officer (CPIO) for the Anatomy Department to look after the work under the RTI Act, 2005; Faculty-in-charge for the Central Lab. 1006; Departmental Faculty co-ordinator for Histological Techniques course; Vice President & Life Member of the newly constituted AIIMS Association for Anatomy (AAA) since February 2024, as part of the pioneering team of AAA for fostering professional collaborations between Anatomy departments of all the AIIMS institutes of the country. She contributed as External Expert invited by Sharda University, Greater Noida, for the External Academic Audit and for Comprehensive Review of Pedagogical Proficiency of Department of Anatomy, School of Medical Sciences & Research. She was also External Expert for Post-Exam Review of Question Paper at the National Board of Examinations in Medical Sciences; Resource Faculty for CMETi workshop; Nodal officer of Anatomy Department and Member of the Exhibition Sub-committee for the 69th Institute Day; Organizing Member for the revival of AIIMS Chapter of SPICMACAY (Society for Promotion of Indian Classical Music, Art and Culture Among the Youth) and concert, conducted at AIIMS, New Delhi, delivering the Vote of Thanks; Departmental Counsellor for Student Mentorship Program, co-ordinating counselling and aiding MBBS students requiring help; External and Internal examiner for MD/MSc as well as First MBBS Professional Examinations for Delhi University & Hamdard University.

Dr SK Jhajharia Saroj Kaler is currently a Member of the International Association for the study of Pain (IASP), Indian Academy of Neurosciences, Teaching Schedule committee at AIIMS, New Delhi. She also reviewed research articles submitted to several journals. She has been an external examiner for various Universities. Her student was awarded International Financial Aid for attending the International Association for the Study of Pain (IASP) 2024 World Congress on Pain in August in Amsterdam, Netherlands.

Dr Tony Jacob was a judge of posters and the chairperson for a session at the XLII Annual Meeting of the Indian Academy of Neurosciences (IAN) held at NIMHANS, Bengaluru. He has also been an external examiner for Delhi and Indraprastha University, and a setter of question papers and evaluator for Gujarat Medical University and J&K Public Service Commission. He has enhanced his knowledge in medical education by attending the National Teachers Training Course organised at JIPMER, Puducherry. He continues to be on the editorial board of national and international journals. He is a resource person for research methodology, writing skills, communication skills and various aspects of medical education. He continues to be deeply involved with various undergraduate and postgraduate students' socio-cultural activities.

Dr Neerja Rani Chaired and moderated a session at VESICON 2025 where the theme- was Neurology Biomarkers & beyond. She has evaluated a Ph.D. thesis and conducted PhD viva-voce examination. She is a member of the PG board of

studies in the department of Anatomy in PGIMS, Rohtak, Haryana. She also served as an external examiner of Anatomy for regular and supplementary first professional MBBS examination in Anatomy at AIIMS Jammu.

Dr Seema Singh was Faculty-in-charge for organizing and conducting internal exams for the first year MBBS batch and compiling results; Appointed as External Examiner at Jamia Hamdard and is actively involved in publishing and reviewing scientific articles.

Dr Subash Chandra Yadav was Elected as Fellow EMSI by the Electron Microscopy Society of India. He chaired the session on the 54th Annual Conference of the Indian Pharmacological Society (IPSCON-2024) and was the examiner of 5 PhD theses from IIT Hyderabad, CSIR-ITRC, and CSIR-CDRI.

Dr Prabhakar Singh was the organizing secretary of the National Scientific Training Program in Biological Electron Microscopy, Summer Training Program in Biological Electron Microscopy and 3rd National Workshop on Electron Tomography of Biological Specimens He was the Finance Secretary of the International Society for Fluoride Research (ISFR) organized by Department of Anatomy, AIIMS.

Dr Arthi Ganapathy has participated in the "Systematic Review and Meta-Analysis" Workshop at AIIMS, New Delhi, completed the "Basic Course in Medical and Health Professions' Education" conducted by CMET, and attended the workshop titled "Researching Student Perspectives in Digital Education" organized by the SET facility. As a peer reviewer, she has reviewed several manuscripts for various publishers. She served as Resource Faculty for the 9th AIIMS Ultrasound-Guided Regional Anesthesia Workshop held and is currently part of the CMIE-AIIMS incubation project for the development of a virtual reality platform for anatomy education.

HIGHLIGHTS

The department is actively engaged in extensive research, with 49 ongoing projects funded by national agencies like DBT, DST, ANRF, ICMR, DHR, and Intramural AIIMS, totaling Rs. 37.46 crores, while 15 projects were completed this year. Additionally, 62 departmental and 30 collaborative projects are in progress, with 22 departmental projects concluded. Research productivity remains high, with 58 publications and 5 abstracts in reputed indexed journals. Faculty members delivered 49 invited talks and presented 56 research papers (oral/poster) at national and international forums. The department's excellence was recognized through two research awards in 2025, including the AIIMS Excellence Research Award in Basic Sciences (1st Prize) and an Oncology Basic Sciences Award (1st Prize) on Research Day (30 January 2025). Further accolades include an IIS Senior Scientist Oration Award (Immunocon-2024), a plenary speaker role at GIS-2025, and the KP Sinha – PS Krishnan Award for best paper. Faculty and students secured 35 awards, prizes, and travel grants at conferences. Academically, the department mentors 13 MSc, 15 MD, 10 SR, and 32 PhD students, while enhancing MBBS, MD, and MSc curricula with advanced classes. PhD coursework has been successfully conducted for six batches. Clinically, the department performs specialized tests, including 223 porphyria tests, with its lab now NABL-accredited. Faculty members Dr. Rakhee Yadav and Dr. Archana Singh oversee the Renal Biochemistry Lab, ensuring quality assurance. Dr. Alpana Sharma serves as an external expert at JN Medical College, AMU. Notably, Dr. Kunzang Chosdol delivered the Dr. P. Lali Memorial Lecture on biomarkers, while Dr. Pragyan Acharya received the «Women in Immunology» Award (2025). Dr. Karthikeyan P was awarded the Sun Pharma Science Foundation Fellowship and enrolled in the FAIMER fellowship, highlighting the department's dynamic contributions to research and education.

EDUCATION

Undergraduate

The department introduced some modifications in the UG teaching curriculum, aimed at enhancing both the skill development and to keep the knowledge at par with the current developments in biochemistry. Case discussions related to didactic lectures and demonstration practical on POCT devices for glucose monitoring and pregnancy testing were introduced to improve the theory-practical connect. Kit based practicals were introduced for some of the routine biochemical analytes (uric acid and HDL cholesterol) for students to appreciate the differences between traditional and auto-analyzer based methods in use.

Techniques related to current applications in molecular biology such as restriction digestion and restriction site mapping were also added to the curriculum.

Medical Education

Current Head of our department is also Chief of Centre for Medical Education and Technology innovation (CMETi) and Professor-in-charge of e learning in SET facility. e-learning modules have been made by several faculty members of the department on NMC based UG Biochemistry topics and uploaded on LMIS.

Postgraduate

These include 13 MSc and 15 MD students. The department also has 32 Ph.D. students. There are two 4 junior research fellows, 6 project scientists, 3 Research associates besides registered students working in the dept.

The postgraduate teaching curriculum was updated and incorporated inputs from all the faculty members ; it was further expanded to add more advanced classes in the Molecular Biology and Cancer Biology modules. The 'Clinical Case Discussion' has been modified to discuss complex case reports from various journals for the MD, MSc students and Senior Residents. The updated PG curriculum has been sent for approval and publication to the academic section.

A formal course work for PhD students is going on in the department with various modules. It covered Advanced Laboratory Instrumentation, Cell biology and Culture techniques, Human and Animal ethics, Biostatistics, Research methodology etc. Students were assessed and graded after completion of course work.

The department is also giving formal training to pediatric genetics **DM and ENT MCh** students in molecular biology.

Our department is conducting Journal clubs on every Tuesday in which PhD students, Senior residents, Junior residents & MSc Students are presenting original research articles on various biomedical topics, recently published in journals of repute..

CMEs/Workshops/Symposia/National and International Conference:

- Department of Biochemistry organized a symposium on Int Day of Immunology on 29 April, 2024. Chief Organizer Dr Alpana Sharma and Co-organizer Dr Archana Singh II. This event was organized in the LT2 teaching block AIIMS IN
- Department has also conducted session on microteaching for final year MD students in April 2024. This event was organized in the department demonstration room.
- Dr Kalpana Luthra was Convener of a sympoium on 'Mind and Brain', organized by our department & Indian Academy of Neurosciences, Aligarh Chapter, 3 June 2024.
- Dr Kalpana Luthra was Co-Chairperson of Scientific Committee of the Annual Conference of the IABS-2024 North Zone, at JLNM auditorium AIIMS-6 August 2024.
- Dr Kalpana Luthra organized a Panel Discussion of AIIMS-Springer-Nature India, a component of Springer Nature India Research tour 2024, in collaboration with Indian Council of Social Science Research, on 20 September 2024 at AIIMS, New Delhi
- Dr Kalpana Luthra was Patron for the 43rd All India Conference of Medical Laboratory Technologists Association (AIMLTA), 21-22 October, 2024 at AIIMS, New Delhi.
- Dr Pramod Gautam was a co-organizer of the National Biomedical Research Conference (NBRCOM) organized by SYBS on 2 and 3 December 2024 at AIIMS, New Delhi.

Kalpana Luthra

1. Biology & immunology of HIV-1 infection: a guide for vaccine design, Advance course in vaccinology (TiVaC), 28 June 2024, THSTI, Faridabad

2. Defining the sequences in circulating viruses associated with elite plasma neutralizing activity in HIV-1 infected children, a guide to HIV-1 vaccine design, Immunocon 2024, 17 October 2024, IISc, Bangalore
3. Presenting a Journal club/ Critical Appraisal", At PG Course on Research Methodology Writing, and Communication, 14 November 2024, JLN Auditorium AIIMS, New Delhi
4. Characterization of antibody responses & coevolving viruses during HIV Infection: Informing vaccine design, National Multi-disciplinary Conference in Medical Specialties, 14 November 2024, Sharda Hospital, Noida
5. Recombinant anti-HIV-1 human monoclonal antibodies as potential therapeutic reagents and guide to vaccine design, World AIDS day 2024, 2 December 2024, JNU, New Delhi
6. Characterization of HIV-1 virus and host antibody responses, a guide to HIV-1 vaccine design, ACBICON 2024, 06 December 2024, Hotel Mount View, Chandigarh
7. Steering of B cells towards generation of high affinity protective antibodies in health and pathology, FIMSA Advanced Immunology Course 2025, 11 February 2025, India Habitat Centre, New Delhi
8. Characterization of the antibody responses and coevolving viruses in HIV-1 infected children: informing vaccine design, Global Immunology Summit-2025, 14 February 2025, THSTI, Faridabad
9. Building Your Dream Team & Timeline: From Team Selection to Project Milestones, Grant Writing for Extramural Funding Organized by: Department of Paediatric Surgery, 23 February 2025, Online

Alpana Sharma

1. An insight of microRNAs in multiple myeloma: From diagnosis to therapeutics. 6th International Cancer Congress, April 2024, Janakpur, Nepal
2. Role of Itrifal e Aftimoon as potential intervention in leukemia, Workshop for Ashwagandha by AYUSH, June 2024. AYUSH, Delhi

Kunzang Chosdol

1. Atypical Cadherin FAT1 Regulates Autophagy-Mediated Cell Death in Cancer Cells, 50th Annual Conference of the Association of Clinical Biochemists of India ACBICON 2024, 5 December 2024, Chandigarh
2. "SANGER SEQUENCING, FRAGMENT ANALYSIS AND DIGITAL PCR" (chaired session), 7th Annual Conference of Neuropathology Society of India (NPSICON 2025). Organized by: Neuropathology Laboratory, AIIMS, New Delhi. 20 February 2025, SET facility, AIIMS, New Delhi
3. Biomarkers and Beyond: The Expanding Role of Biochemists in Personalized Medicine, Dr P Lali Memorial lecture during CME program on Advances in Biochemical, MAMC, Delhi, 8 March 2025, Delhi

Sudip Sen

1. Stem cells: basics and potential research applications, Stem cells and Regenerative Medicine, 29 November 2024, Online, AIIMS, Guwahati

Archna Singh I

1. Designing an anti-inflammatory Indian adaptation of Mediterranean Diet for Secondary Prevention of CAD, WPHN CONGRESS 2024, June 2024, London, UK
2. Applied aspects of carbohydrate, protein and fat metabolism (three lectures). Poshan Maah event at All India Institute of Ayurveda, September 2024, Online
3. Inter-tumor heterogeneity in OXPHOS status and mitochondrial metabolism: some insights from B-ALL, 50th ANNUAL ACBICON CONFERENCE 2024, 4 December 2024, PGIMER, Chandigarh

Jayanth Kumar

1. *The epitranscriptomic machinery in pediatric B-ALL*, EMBO Workshop: Molecular Basis and Mechanisms of Therapy Personalization in Pediatric Leukaemia, 5-8 February 2025, Tata Medical Centre, Kolkata

Subhradip Karmakar

1. Treatment modalities in Gall Bladder Cancer, IUAC Delhi, January 2024, Delhi, India
2. 3D models in Gall Bladder Cancer, IICB Kolkata, October 2024, Pune, India
3. Effect of Pollution on Pregnancy Outcome, European Placenta Association, November 2024, Prague, Czech Republic

Archana Singh II

1. Innate Immune Response in Pulmonary Tuberculosis Patients with Type 2 diabetes: Characterisation and Clinical Correlations, ACBICON 2024, December 2024, (online)
2. Influence of chronic hyperglycemia on innate immune response in pathophysiology of active pulmonary tuberculosis. EMBO TB Heterogeneity, February 2025, CCMB, Hyderabad
3. IL-1β secreting Classical monocytes as key correlates of protection against Tuberculosis in 'TB Resister' phenotype. EMBO Workshop: Host and pathogen heterogeneity in tuberculosis, February 2025, CCMB, Hyderabad

Pragyan Acharya

1. "Understanding Neutrophil Phenotype in Acute-on-Chronic Liver Failure (ACLF)- A Complex Innate Immunity-Driven Liver Disease", Annual meeting of the Indian Immunology Society, IISc, Bengaluru, 18 October 2024, Bengaluru
2. "Immunomodulation in Acute-on-Chronic Liver Failure: Do Circulating Lipids Play a Role?", Kolkata Liver Meeting 2025, Kolkata West Bengal, 12 December 2024, Kolkata
3. Understanding Neutrophil Phenotypes in Acute on Chronic Liver Failure (ACLF) Complex Innate Immunity-driven disease, SIRCON 2024-2025, 6 December 2024, Mumbai

Riyaz Ahmad Mir

1. Interaction of High risk human papilloma virus oncoproteins E7 with PIH1D1 component of R2TP complex is important for its stability and PRB-E2F dissociation in cervical cancer. CNIO-Caxia research frontiers meeting: Molecular Chaperones in cancer and protein quality control, 10 -12 June 2024, Spanish national cancer research Centre, Madrid Spain
2. Being a scientist should we adhere to responsible conduct of research, DST INSPIRE Science Camp, 27-31 August 2024, University of Kashmir, Srinagar
3. Regenerative Medicine for hearing loss: Unravelling cellular Chaperone complex highjacking by high risk human papilloma Virus for therapeutic innovation, Cancer research and Molecular Diagnostic, 1 January 2025, Daulat Ram College University of Delhi

Pramod K Gautam

1. *Tumor-Derived HSP70-Docetaxel Conjugate: A New Peptide Drug Conjugate for Cancer Therapy*, Indian Academy of Biomedical Sciences (North Zone) – Delhi Chapter Conference on "Artificial Intelligence and Translational Research in Human Health,", 5–6 August 2024, JLN Auditorium, AIIMS, New Delhi.
2. Immunotherapeutic Role of Autologous HSP70 and HSP70-Docetaxel Conjugate: A Novel Approach for Cancer Therapy*,* 1st J&K International Conference on Breast Cancer and Awareness cum Screening Camp (National), October 21–24, 2024. UOK, J&K
3. M*1 Macrophages Induction May Transfigure TME-MSCs for Breast Cancer Therapy*", EMBO Conference on Molecular Mechanisms of Developmental and Regenerative Biology (International, 6 –8 November 2024, Kobe, Japan
4. Exploring Early-Stage Breast Cancer Detection and the Potential of Macrophage-Based Therapies, 5th International Global Cancer Consortium Conference, 28–30 January 2025, Amity University, New Delhi.
5. Role of Exosomal microRNAs in Tumorigenesis and Progression of Pancreatic Cancer" at the conference *Mitochondria, Mitochondria, Cell Death, and Human Diseases: Frontiers in Cancer Research*, 17 –18 February 2025, at , Jawaharlal Nehru University (JNU), New Delhi.

Karthikeyan Pethusamy

1. Free listing and pile sorting**,** Workshop on Qualitative Research in Educational Research**,** 13 November 2024**,** SET facility, AIIMS, Delhi
2. Validation of MCQs and Item analysis, *Assessment Methods in Medical Sciences***,** 21 November 2024**,** CMET, AIIMS, Delhi
3. Leveraging AI for Medical Education**,** *Automated Future : Revolution in Diagnostics***,** 30 November 2024**,** Amrita Institute of Medical Sciences, Faridabad.
4. Hands-On Workshop on "Generative AI tools to enhance classroom Teaching – Learning experiences", Faculty Development Program, 05 December 2024**,** Dr. BSA Medical College, Rohini
5. Mastering AI tools and assessment of competencies**,** Drishti se Vivek Tak Reimagining Health Communication in the AI era**,** 09 December 2024**,** Dr Ramalinga swamy board room, AIIMS, Delhi
6. Assessment tools available in SARAL**,** Designing and uploading quizzes on SARAL**,** 11 December 2024**,** SET facility, AIIMS, Delhi
7. Blended learning – Introduction**,** National Medical College Network orientation to faculty of AIIMS, Kalyani**,** 14 December 2024**,** AIIMS, Kalyani
8. AI in Medical Teaching Research and Clinical Services**,** Emerging Technologies for Health Care, 22 December 2024**,** AIIMS, Delhi
9. Analysis and Prioritization of Genomic Variants, ACCLMPCON 2025, 10 January 2025, Guwahati
10. Free listing and pile sorting (advanced level)**,** Workshop on Qualitative Research in Medical Education- Advanced level. SET facility, 04 February 2025**,** AIIMS, Delhi
11. Introduction to Bioinformatics: Unlocking the Power of Data in Biological Research**,** Skill Building Workshop Division of Oral Pathology and Microbiology at the Centre for Dental Education & Research**,** 13 February 2025**,** AIIMS, New Delhi,
12. Flow cytometry, Preconference workshop organised by MRU, Maulana Azad Medical College, 09 March 2025**,** New Delhi
13. Exome sequencing data analysis**,** Preconference workshop :Annual meeting of the Indian Society for Extracellular Vesicles (InSEV), 22 March 2025**,** AIIMS, Delhi

LECTURES DELIVERED OVER PAST 3 YEARS

2022-2023	2023-2024	2024-2025
46	47	49

Oral papers/posters presented: 56

1. Singh Aishwarya, Raja David, Singh Prabhjot, Seth Amlesh, Kaushal Seema, Sharma Alpana. Expression of immune checkpoints PD-1, PD-L1 and B7-H4 on Tumor associated macrophages in patients with Urothelial Carcinoma of Bladder : Rational therapeutic targets, EACR, June 2024, Rotterdam, Netherlands
2. Arora Alisha, Naval Vikram, Gupta Yashdeep, Singh Archana*, From Host defense to disease Susceptibilty: Characterizing the role of phagocytes in Tuberculosis and diabetes. AIIMS 4th Research Day 2025, January 2025, AIIMS, New Delhi
3. Arora Alisha, Vikram Naval, Gupta Yashdeep, Singh Archana,* Innate immunity in tuberculosis and type 2 diabetes: Bridging Characterization to clinical outcomes, FIMSA 2024, Taiwan, October 2024, Taiwan
4. Arora Alisha, Sharma Vidushi, Vats Deepak, Luthra Kalpana, Singh Archana*. Exploring the Antibiotic Potential of Bdellovibrio bacteriovorus against *Mycobacterium tuberculosis*: Priming Macrophages for Enhanced Intracellular Clearance and Immunostimulation (Poster presentation), ACBICON2024 Chandigarh, December 2024, Chandigarh, India
5. Arora Alisha, Sharma Vidushi, Vats Deepak, Luthra Kalpana, Singh Archana*. Investigating the Antibiotic Potential of Bdellovibrio bacteriovorus against Mycobacterium tuberculosis: Priming Macrophages for Enhanced Intracellular Clearance and Immunostimulation. EMBO Workshop: Host and pathogen heterogeneity in tuberculosis, February 2025, CCMB, Hyderabad

AWARDS

1. Alisha Arora received FIMSA 2024 Travel award for attending FIMSA conference held in Taiwan in October 2024.
2. Ankit Kumar received Best Poster Award.
3. Ayesha received First Prize for Best Poster Presentation.
4. Ayesha Rehman received First Prize for Best Poster Presentation.
5. Ayesha received Certificate of Appreciation from the NBRCOM conference.
6. Neeti Bharadwaj won "Second Prize" in MSc students (Poster) category, on 4th Research Day at AIIMS, New Delhi on 30 January 2025.
7. Deepak Vats received FIMSA 2024 Travel award for attending FIMSA conference held in Taiwan in October 2024.
8. Deepak Vats received Best Oral Presentation Award.
9. Deepak Vats received Certificate of Appreciation.
10. Anjli Gaur awarded 1st Prize for Poster Presentation.
11. Pankaj received Certificate of Appreciation.
12. Komal Sagar received Travel Award from North American Vascular Biology Organization (NAVBO) for the Vasculata Meeting, July 2024 held at Stanford University, USA.
13. M Shadang awarded financial assistance as international travel support from the DST, Government of India.
14. M Shadang received DNATV 2024 Conference Grant from the DNA Virus Conferences, Italy.
15. Manvi Arora, PhD – Received International Travel Grant from the Japanese Society of Medical Oncology (JSMO) for the 2025 conference. She also received AIIMS Endowment Fund International Travel Grant for attending JSMO 2025.
16. Blessed Raj received APFCB scholarship for travel, registration, and hotel accommodation to attend the conference in Sydney, Australia.
17. Harsh Bhakhri awarded First Prize – Oral Presentation (PhD Category).
18. Aradhana Sarma awarded Commendation Award for Poster Presentation (JR Category).
19. Shaikh A Mubeen received Commendation Award.
20. Swarandeep Singh awarded Best Poster Award.

ORAL/POSTER PRESENTED OVER PAST 3 YEARS

RESEARCH

Funded projects

Ongoing

1. A Point-of-Care Acute Kidney Injury Predictor for Patients with Acute-on-Chronic Liver Failure, Pragyan Acharya, BIRAC-BIG, 18 Months, 2023-2025, Rs 49 Lakhs
2. A prospective pilot study comparing fibrotic mediators in adipose tissue as predictors of metabolic malleability in good vs poor responders of bariatric surgery, Dr Rakhee Yadav, AIIMS (Interdisciplinary Collaborative Intramural Research Grant), 2 Years, 2025-2027, Rs 10 Lakh
3. A study of the impact of *TET2* promoter methylation on *TET2* expression in AML patients and the effect of epigenetic modifiers in cell lines, Dr Karthikeyan P, AIIMS Collaborative IMRG, 2 Years, 2024-2026, Rs 10 Lakhs

4. An therapeutic strategy for tackling drug resistant triple negative breast cancer using a targeted approach for co-delivery of siRNA and chemotherapeutic drug.", Dr Kunzang Chosdol, ICMR, 3 Years, 2025-2028, Rs 26 Lakhs
5. Biochemical Analysis of the interaction between Joubert Syndrome associated protein CSPP-1 and R2TP complex, Riyaz Ahmad Mir, AIIMS UG undergraduate research, 1 Year, 2025-2026, Rs 1.5 Lakhs
6. Characterizing the role of Insulin like Growth factor 2 Binding Proteins (IGF2BPs) in modulating the PI3K/AKT pathway and metabolic phenotype of B-Cell Acute Lymphoblastic Leukemia (B-ALL), Jayanth Kumar Palanichamy, Collaborative Intramural Research Grant AIIMS, New Delhi, 2 Years, 2024-2026, Rs 20 Lakhs
7. Characterizing, Reviving, Supporting, Monitoring and Managing Sustainable Food Systems to address malnutrition in indigenous tribal communities of India. CARISMMA sustainable food systems study, Archna Singh (Center PI), India Alliance: Team Science Grant, 5 Years, 2023-2028, Rs 988 Lakhs (93.2 AIIMS share)
8. Comparative Analysis of Immunoglobulin Genetic Diversity in Indian-Origin Bonnet and Rhesus Macaques, Marmosets, and African Green Monkeys: Potential Non-Human Primate Models for HIV Vaccine Research (As Mentor), Dr Kalpana Luthra (Mentor) for project PI, ICMR, 2.5 Years, 25 November 2024-24 May 2027, Rs 28.4 Lakhs
9. Construction of therapeutic cells with synthetic circuits targeting relapse in B-cell Acute Lymphoblastic Leukemia, Jayanth Kumar Palanichamy, ICMR Intermediate Grant, 4 Years, 2024-2028, Rs 308 Lakhs
10. Deciphering the synergism between IGF2BPs and m6A machinery in B-cell Acute Lymphoblastic Leukemia, Jayanth Kumar Palanichamy, SERB Core Research Grant (CRG), 3 Years, 2022-2025, Rs 63 Lakhs
11. Delineating and characterizing the m6A RNA methylation marks in primary and relapsed B-cell Acute Lymphoblastic Leukemia (B-ALL), Jayanth Kumar Palanichamy, ICMR Small Grant, 3 Years, 2025-2028, Rs 93 Lakhs
12. Delineating the co-evolution of HIV-1 broadly neutralizing antibodies and circulating viruses in mono-zygotic twins pediatric elite-neutralizers, Dr. Kalpana Luthra, SERB, 3 Years, 2021-2024, Rs 47.4 Lakhs
13. Delineating the molecular mechanisms involved in relapse of pediatric B-cell Acute Lymphoblastic Leukemia, Jayanth Kumar Palanichamy, DHR Grant-In-Aid Intersectoral Research Grant, 3 Years, 2023-2026, Rs 59 Lakhs
14. *Developing DdpMPyPEPhU as a Multitargeted Drug for Breast Cancer Using AI-Guided Enumeration-Based Optimisation, Synthesis, and Preclinical Evaluation in PDX Model*, Dr Pramod Kumar Gautam, ICMR, New Delhi, 3 Years, 2024-2027, Rs 98 Lakhs
15. Development of a CRISPR-Cas9 based AAV (Adeno Associated Virus) vector for HDR (Homology Directed Repair) mediated genetic correction as a therapeutic intervention for Gaucher's disease, Jayanth Kumar Palanichamy, ICMR Rare Disease Grant, 3 Years, 2024-2027, Rs 54 Lakhs
16. Development of anti-proliferative agent form boerhaabia diffusa and citrullus colocynthis plant extract in human bladder cancer, Dr Pramod Kumar Gautam, IMRG, AIIMS, New Delhi, 2 Years, 2024-2026, Rs 10 Lakhs
17. Development of therapeutic broadly neutralizing monoclonal antibodies against circulating HIV-1 clade C in children and adults, Dr. Kalpana Luthra, DBT, 3 years, 18 September 2023, 17 September 2026, Rs 319 Lakhs
18. Editing of Atoh1 in cadaver derived supporting cells for the regeneration of auditory cells, Riyaz Ahmad Mir, ICMR, 3 Years, 2021-2024, Rs 70 Lakhs
19. *Elucidating the Role of Exosomal microRNAs in Immunomodulation of γ-δ T Cells in the Tumor Microenvironment of Pancreatic Ductal Adenocarcinoma*, Dr. Pramod Kumar Gautam, ANRF, New Delhi, 3 Years, 2024-2027, Rs 60 Lakh
20. Elucidating the targeted, therapeutic role of docetaxel-loaded-HSP70 peptide complex in PDX Mouse Models, Dr. Pramod Kumar Gautam, ICMR, New Delhi, 3 Years, 2024-2027, Rs 88 Lakhs
21. Evaluating effect of astrocytes on oligodendrocyte function by influencing cholesterol metabolism in a model of hypoxic brain injury, Dr Sudip Sen, DHR, 3 Years, 2023- 2026, Rs 54.7 Lakhs
22. Evaluating the potential role of homeopathic medicines in a cellular model of cerebral palsy in vitro, Dr. Sudip Sen, CCRH, Ministry of AYUSH, 2 Years, 2024-2026, Rs 45.5 Lakhs
23. Exploring the anti-atherogenic role of adipose tissue derived CRISPLD1 by its ability to bind cholesterol, fatty acids and inflammatory leukotrienes, Dr Rakhee Yadav, ICMR, 3 Years, 2025-2028, Rs 86 Lakhs

24. Exploring the impact of endogenous protein derived peptide on restoration of pRB and p53 in cervical cancer, Riyaz Ahmad Mir, ICMR Small Grant, 3 Years, 2025-2028, Rs 114 Lakhs
25. Exploring the link between fatty acid metabolism and bioenergetics in pediatric B-cell leukemias: implications for tumor survival and treatment response, Archna Singh, SERB Core Research Grant (CRG), 3 Years, 2023-2026, Rs 34.79 Lakhs
26. Investigating pathophysiological Mechanisms and Biomarkers in Meniere's Disease A multi objective study, Riyaz Ahmad Mir, Collaborative Intramural Research Grant AIIMS, New Delhi, 2 Years, 2024-2026, Rs 20 Lakhs
27. Multi-institutional grant "An Integrative Clinico-Proteo-Genomics Approach Towards Biomarker Development for the Monitoring of Non-Alcoholic Fatty Liver Disease (NAFLD) Progression to Adverse Outcome", Pragyan Acharya, DHR, 3 Years, 2023-2026, Rs 130 Lakhs
28. Multisectoral Nutrition intervention for Anemia Reduction Initiative (NARI): Implementation Research for Improving Women's Health in Tripura, India**,** Archna Singh (Center PI), ICMR, 3 Years, 2024-2027, Rs 150 Lakhs (no finance at AIIMS)
29. NLRP3 Inflammasome gene polymorphisms and their expression in Periodontitis- a genetic study in North Indian population, Alpana Sharma, AIIMS Collaborative, 2 Years, 2022-2024, Rs 17.5 Lakhs
30. Role of M1 macrophage on DNA methylation and PI3K-AKT Signaling Pathway analysis in tumor-associated mesenchymal stem cells in Breast cancer, Dr Pramod Kumar Gautam, IMRG, AIIMS, New Delhi, 2 Years, 2023-2025, Rs 10 Lakhs
31. Role of PIH1D1: A Component of R2TP Complex in thyroid cancer, Riyaz Ahmad Mir, AIIMS Intramural, 2 Years, 2023-2025, Rs 10 Lakhs
32. Role of Tel2 protein in thyroid cancer, Riyaz Ahmad Mir, AIIMS MD thesis grant, 2 Years, 2024-2026, Rs 2 Lakhs
33. Study of humoral immune response and its genetic correlates in infection free "resisters" among household contacts of adult pulmonary tuberculosis, Archana Singh II, SERB, 3 Years, 2022-2025, Rs 39 Lakhs
34. Study of the FAT1-PDCD4 signaling axis in Periampullary cancer, Dr. Kunzang Chosdol, ICMR, 3 Years, 2021-2024, Rs 49.80 Lakhs
35. Study of the molecular profile of nasopharyngeal carcinoma in the north eastern region and its relation of Epstein-Barr barr virus (EBV) infection, Subhradip Karmakar, ICMR, 3 Years, 2024-2027, Rs 65 Lakhs
36. Targeting oncogenic signaling of the atypical cadherin FAT1 by small molecules in a glioma tumor model, Dr. Kunzang Chosdol, ANRF (SERB), 3 Years, 2025-2028, Rs 70.79 Lakhs
37. Targeting the Metabolic Reprogramming of Innate Immune Responses as a Therapeutic Strategy in Acute-on-Chronic Liver Failure, Pragyan Acharya, SERB, 3 Years, 2024-2027, Rs 57,89,695
38. To assess synergistic role of mycobacterium indicus Pranii and human beta defensin treatment on bacterial clearance in macrophage pf patients having pulmonary tuberculosis with chronic hyperglycemia, Archana Singh-Mentor II, UG Mentorship Grant, 1 Year, 2024-2025, Rs 1.5 Lakh
39. To characterise gelsolin gene expression and its impact on inflammatory pathways and survival outcomes in patients of Acute Myeloid Leukemia, Dr Karthikeyan P, AIIMS IMRG, 2 Years, 2023-2025, Rs 10 Lakhs
40. To Characterize T cell immune response against MTB antigens PPE15 and PE_PGRS45 in spectrum of adult pulmonary tuberculosis infection, Archana Singh II, ICMR and AIIMS thesis grant, 2 Years, 2023-2025, Rs 2 Lakhs
41. To determine the role of differentially expressed micro-RNAs & their protein targets present in tumor site of pancreatic cancer patients, Dr. Pramod Kumar Gautam, Inter-disciplinary IRG, AIIMS, New Delhi, 2 Years, 2024-2026, Rs 20 Lakhs
42. To investigate the potential of Atoh1 knock in approach using CRISPER mediated adenovirus for hair cell regeneration in mouse cell lines derived from the organ of corti, Riyaz Ahmad Mir, AIIMS Intramural, 2 Years, 2024-2026, Rs 10 Lakhs
43. To investigate the therapeutic potential of F2RL3-NLRP3 inflammasome axis modulation in ameliorating obesity induced fibro-inflammation, Dr Rakhee Yadav, DST-SERB (CRG), 3 Years, 2024-2027, Rs 36 Lakhs

44. To Investigate the Effect of environmental Particulate matter (urban pollutants) and heavy metal exposure on placenta trophoblast cells and fetal development, Subhradip Karmakar, ICMR, 3 Years, 2024-2027, Rs 75 Lakhs
45. Transcriptome analysis to define Novel Pathways in Adenoid cystic Carcinomas and to correlate with clinical outcome, Kunzang Chosdol, AIIMS (Collaborative Intramural grant), 2+1 years, 2021-2024, Rs 10 Lakhs
46. Tumor dynamics & Immune cell interactions in Anaplastic Thyroid Carcinoma, Riyaz Ahmad Mir, ICMR, 3 Years, 2021-2024, Rs 30 Lakhs
47. Understanding Inter Compartmental Crosstalk between Insulin-sensitive and insulin-resistant obese and non-obese phenotypes using Adipose Tissue, Archna Singh (center PI), DBT, 3 Years, 2021-2024, Rs 19.2 Lakhs
48. Understanding the role of neutrophil heterogeneity and its therapeutic potential in the inflammatory liver disease Acute-on-Chronic Liver Failure (ACLF), Pragyan Acharya, SERB, 3 years, 2022-2025, Rs 45.14 Lakhs
49. Unravelling the Significance of FAT1- regulated Microprotein miPEP133 in Glioma Aggressiveness, Dr. Kunzang Chosdol, Lady Tata Memorial Trust, 3 Years, 2025-2028, Rs 75.03 Lakhs

RESEARCH OVER PAST 3 YEARS

Research projects Year	2022-2023	2023-2024	2024-2025
Total funded projects	49	42	49
Total funding (Lakhs)	Rs 7350 Lakhs	Rs 6903 Lakhs	Rs 3746 Lakhs

Completed

1. Adaptive Immune Responses to Covaxin and Covishield: A comparative study, Jayanth Kumar Palanichamy, AIIMS Intramural Research Grant, 2 Years, 2021-2023, Rs 10 Lakhs
2. CARE in Pancreatic Diseases (As Co-PI), Dr Parmod Garg, ICMR, 5 Years, 2019-2024, Rs 506 Lakhs
3. Development of diagnostics and experimental therapeutics using CRISPR-based technologies, Dr Kunzang Chosdol, DBT (Multi-Institutional), 4 Years, 2020-2024, Rs 58.00 Lakhs
4. Effect of hypoxia on different neural cell types in vitro – a model to design therapeutic strategies against cerebral palsy in preterm infants, Dr. Sudip Sen, DBT, 5 years, 2018-2023 (No cost extension up to 15 April 24), Rs 69 Lakhs
5. Evaluation of a liposome-based cholesterol efflux assay against a macrophage-based efflux assay for measurement of reverse cholesterol transport capacity of HDL, Archna Singh, ICMR, 2 Years, 2021-2023, Rs 28 Lakhs
6. Evaluation of tumor-derived exosomes in blood during pre and post treatment of pancreatic cancer patients, Dr. Pramod Kumar Gautam, Inter-disciplinary IRG, AIIMS, New Delhi, 3 Years, 2021-2023, Rs 20 Lakh
7. Genomic Landscape of Pediatric Acute Myeloid Leukemia (AML)", Riyaz Ahmad Mir, Inter-disciplinary IMRG, AIIMS, New Delhi, 2 Years, 2022-2023, Rs 20 Lakhs
8. Metabolic reprogramming in B-ALL: identification of gene networks correlating with prognosis and chemoresistance in vivo and a novel *ex-vivo* primary culture model, Archna Singh, AIIMS Intramural Collaborative Grant, 2 Years, 2021-2023, Rs 20 Lakhs
9. Numerical approximation of reaction-specific disassociation constants from the convex cone of a generic metabolic network", Siddhartha Kundu, SERB-MATRICS, 3 Years, 2022-2025, Rs 6 Lakhs
10. Role of FAT signalling in Oligodendroglioma: Identification of novel molecular targets and their clinical implications, Dr Kunzang Chosdol, ICMR, 3.1/2 Years, 2021-2024, Rs 38.67 Lakhs
11. Role of nuclear receptor network signaling in pathogenesis of gallbladder cancer", Subhradip Karmakar, DHR, 3 Years, 2021-2024, Rs 60 Lakhs
12. Role of TET2 in MDS, Subhradip Karmakar, AIIMS, 3 Years, 2021-2024, Rs 10 Lakhs
13. Study of Visceral Adipose Tissue (VAT) derived factors as modulators of co-morbidities in obesity, Dr Rakhee Yadav, AIIMS Intramural, 2 Years, 2023-2025, Rs 10 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. A Cytosine DNA Base Editing approach to correct the L483P mutation and comparison of efficiency with CRISPR-directed RNA editing
2. A study of immune responses in the pathophysiology of Human chronic pancreatitis
3. An integrated clinical proteomics approach towards biomarker development for the monitoring of metabolic dysfucation associated steatotic liver disease (MASLD) progression of adverce outcomes
4. Analysis of the role of few biomarkers in thyroid carcinoma
5. Analyze the expression of Tel2 in Thyroid cancer
6. Assessment of novel salivary biomarkers as compared to established serum biomarkers in predicting preeclampsia – a pilot study
7. Characterization of B cell receptor repertoire of HIV-1 subtype C infected individuals and generation of anti HIV-1 monoclonal antibodies
8. Characterization of gelsolin gene expression and its impact on inflammatory pathways in patients of Acute Myeloid Leukemia
9. Characterization of monocytes and macrophages in acute on chronic liver failure
10. Characterization of T cell immune response against M.tb secretory protein PE3 immunogenic peptides in spectrum of tuberculosis infection
11. Characterizing the epitranscriptomic network in B-cell acute lymphoblastic leukemia
12. Development of immune cell therapy targetingsolubleproteins in Acute lymphoblast leukemia
13. Effect of dietary anti-oxidants on mitochondrial fitness parameters
14. Elucidation of the Functional aspects and underlying Epigenetic Regulation of POTEB in Ovarian Cancer.
15. Engineering therapeutic cells with synthetic receptor circuits targeting B-cell acute lymphoblastic leukemia
16. Epigenetic regulation of FAT1 expression in cancer cells
17. Evaluation of CRISPR mediated Atoh1 knock in on hair cell differentiation in cells derived from Murine organ of corti
18. Evaluation of procollagen-3 and cytokeratin-18 as potential biomarkers in metabolic dysfunction associated steatotic liver disease-
19. Evaluation of Visceral Adipose Tissue derived P-Selectin Glycoprotein Ligand-1, Thrombospondin-1 and Versican as mediators of platelets activation in obesity (MSc thesis)
20. Exploring the role of fibronectin/integrin/actomyosin-axis in microgravity-mediated modulation of macrophage function: A modeling and simulation study".
21. FAT1 and autophagy in cancer cells
22. FAT1 and metabolic Reprogramming in cancer
23. FAT1 protein: Its processing and cellular function in glioma cells
24. Functional Analysis of Human Long Non-Coding RNAs (lncRNA) and their Association with Spatial Genome Organization in Cancer.
25. Functional interaction of FAT1, p53 and p300 in glioma cells
26. Functional link between FAT1 and YAP1 in glioma cells
27. Gene expression profile of DNA methylation machinery in AML and AML-MRC
28. Generation & Charecterization of infectious molecular clones from HIV-1 viral envelopes derived from infected children
29. Generation and characterization of lineage-based envelope trimers from HIV-1C infected paediatric neutralizers

30. Immunotherapeutic potential of novel Prostate, Placenta, Ovary, Testis- Expressed (POTE) Antigen in ovarian cancer.
31. Impact of Lipid Metabolic Reprogramming on Mitochondrial function and Biogenesis in Pediatric B-cell Acute Lymphoblastic Leukemia
32. Influence of different grades of hyperglycemia on innate immune response in pathophysiology of active tuberculosis
33. Investigating the differential gene expression of Hsp70 family proteins across various stages of oral squamous cell carcinoma
34. Investigating the role of ceramide-Sphingosine axis on mitochondrial functions and endothelial health
35. Isolation and characterization of human neutralizing monoclonal antibodies generated during natural HIV-1 infection.
36. Mechanisms of acute kidney injury in cute-on-chronic liver failure
37. Molecular Mechanism of Cancer-Testis/Germline Antigen POTEB/B2 in Ovarian Cancer
38. Molecular Relationship between the FAT1 Gene and Lipid Metabolism in Glioma
39. R2TP expression and significance in Thyroid Cancer
40. Receptor-Receptor Interaction that modulate inflammation in acute-on-chronite liver failure
41. Receptor-TLR Interactions Modulating Inflammation in Acute-on-Chronic Liver Failure (ACLF)
42. Role of E7 in hijacking the function of the R2TP complex
43. Role of FAT signalling in Oligodendroglioma: Identification of novel molecular targets and their clinical implications
44. Role of Macrophages phenotype in the regulation of mesenchymal stem cell migration and development in breast cancer
45. Role of mesenchymal stem cells in survival of mycobacterium tuberculosis and reactivation of tuberculosis
46. Role of Natural Killer cells in pathophysiology of extrapulmonary tuberculosis
47. Role of negative regulators of EGFR in Malignant transformation of Oral Dysplasia
48. Role of Prothymosin in glial tumorigenesis
49. Study of functional link between FAT1 and Microproteins in Cancer Cells
50. Study of immune response in TST and IGRA negative household contacts of adult pulmonary tuberculosis
51. Study of Quantitative comparison of expression of Protease Activated Receptor 4 (PAR 4) and NLRP3 Inflammasome in Adipocytes of Obese and Non-Obese Individuals (MD thesis)- AWARDED ICMR MD THESIS SUPPORT 2024
52. Study of the FAT1-PDCD4 signaling in Periampullary cancer
53. Study on 3D genome architecture as an epigenetic regulator of pericentromerically localized cancer-testis/ germline antigen POTE in cancer.
54. Targeted epigenetic modulation of FAT-1 gene in cell lines for altering cancer cell phenotype
55. To characterize cell mediated immune response against unique T cell epitopes in spectrum of tuberculosis infection
56. To Characterize T cell immune response against MTB antigens PPE15 and PE_PGRS45 in spectrum of adult pulmonary tuberculosis infection
57. To elucidate the role of ECM-Adipocyte communication in obesity induced adipose tissue dysfunctions (PhD thesis)
58. To study the immunomodulatory effect of tumor derived exosomes on gamma delta T- cells
59. VDAC and VDAC associated proteins as modulators of mitochondrial function in pediatric B cell acute lymphoblastic leukemia

Completed

1. A mathematical modelling and simulation study to investigate the relationship between the LPS/PGE2/cAMP-axis and metabolic induction of macrophage polarization"
2. Analysis of cell-free nucleic acids in serum of patients with Acute-on-Chronic Liver Failure (MSc)
3. Characterization of Innate Immune Responses in Acute-on-Chronic Liver Failure
4. Comparative TNF alpha profiling in Plasmodium vivax infected Severe and Mild Malaria Patients
5. Effect of environmental particulate matter (urban pollutants) and gaseous (SO2) pollutants on placental trophoblast invasion and differentiation: an insight into the role of pollution in placentalinsufficiency & fetal development
6. Elucidating the adjunctive ant tumorigenic potential of long chain fatty acid derivatives and niflumic acid in multiple myeloma cells
7. Evaluation of Chemotactic Potential of ACLF Derived Neutrophils.
8. Exploring macrophages and NK cells in the immunopathogenesis of pemphigus
9. Exploring the role of innate lymphoid cells in the immunopathogenesis of pemphigus vulgaris
10. Functional interaction of FAT1 and miRNA in glioma
11. Generation and characterization of pediatric HIV-1 envelope trimers towards immunogen design
12. Molecular Signature of Glioma in the context of WHO 2016 classification of Glioma
13. Phenotypic and functional characterization of myeloid derived suppressor cells (MDSCs) and regulatory T cells (Tregs) in atherosclerosis
14. Proteomics of Small Intestinal Biopsies in Celiac Disease
15. Role of Macrophages in vitiligo
16. Role of memory T cells in renal cell carcinoma
17. Role of TAMs in autophagy and related molecules in Bladder cancer
18. Signaling interactions between FAT1, p53 and HIF1a in glioma
19. Study of B cell subsets and their immune regulatory functions in urothelial carcinoma of bladder
20. Study of bdellovibrio bacteriovorus as a live antibiotic against mycobacterium tuberculosis
21. Whole exome sequencing in hypertriglyceridemia: An exploratory study.

Collaborative projects

Ongoing

1. A prospective pilot study comparing fibrotic mediators in adipose tissue as predictors of metabolic malleability in good vs poor responders of bariatric surgery, Surgical Disciplines AIIMS Delhi
2. A randomized placebo-controlled trial to assess efficacy of vitamin D supplementation in non-cystic fibrosis bronchiectasis patients, Medicine
3. A randomized, open-label, controlled clinical trial to decipher the role of chronopharmacokinetics and chrono-genomics of tyrosine kinase inhibitors in the treatment of non-small cell lung cancer patients, Pharmacology
4. A study on the underlying immune deficits and co-infections in patients with chronic pulmonary aspergillosis, Medicine
5. Aberrant Lipid Metabolic Pathways as Novel Molecular Targets in Aggressive Ocular Malignancies, Pathology, Dr. RP Centre, AIIMS
6. Anemia Research Consortium as part of National Centre of Excellence and Advanced Research on Anemia, Community medicine
7. Chemotherapeutic Effect of a Selected Unani Medicine in Xenograft Mouse Model of Lung Cancer, Pharmacology

8. Chrono-pharmacokinetics and chrono-genomics of tyrosine kinase inhibitors in non-small cell lung cancer patients: RCT, Pharmacology
9. Comparison of the outcomes of using connective tissue graft vs volume stable collagen matrix with modified coronally advanced flap for the treatment of multiple adjacent gingival recessions: A randomized clinical trial with molecular analysis, Periodontics (CDER AIIMS)
10. Developing DdpMPyPEPhU as a Multitargeted Drug for Breast Cancer Using AI-Guided Enumeration-Based Optimisation, Synthesis, and Preclinical Evaluation in PDX Model, Jamia Millia Islamia, New Delhi
11. Development and preclinical validation of shared multiepitope vaccine against tuberculosis and malaria, TB Immunology group, ICGEB
12. Exploratory analysis of the association between pyrethroid exposure and Parkinson's disease: A case-control study, Department of Pharmacology
13. Generation and charecterization of therapeutic BCMA (B cell maturation antigen) specific antibodies in multiple myeloma (MM), Department of Medical oncology, AIIMS, New Delhi
14. Host and environmental factors in the acute exacerbations of childhood interstitial lung disease, Department of Pediatrics, AIIMS, New Delhi
15. Immune signatures and role of neutrophils in pathophysiology of post tuberculosis pulmonary sequelae, Physiology
16. Immunoporosis: Establishing the role of Gtu-Innate Cells in Obteoporosis, Department of Biotechnology, AIIMS, New Delhi
17. Impact of host Genomic Landscape and Environmental Factor on Gut Microbiome Profiles of Children with Congential Uropathies Prone to Urinary Tract Infections, Department of Pediatric Surgery, AIIMS, New Delhi
18. IMRG: nutritional status of pregnant women as assessed by nutrient intake, anthropometry and selected serum biomarkers in an urban slum of delhi-A community based prospective study, Community medicine
19. Infulence of Vitamin D-Binding Protein Gene Polymorphisms on Urinary Microbiome-Metabolome Profile of Children with Congential Uropathies Prone to Urinary Tract Infections, Department of Pediatric Surgery, AIIMS, New Delhi
20. Investigating clinically relevant genetic mutations and risk biomarkers in lung cancer using exhaled breath condensates (EBCs), Department of Pulmonary, AIIMS, New Delhi
21. Investigating DNA Methylation Profile in Boys with Posterior Urethral value Prone Progressive Deterioration of Kidney Function, Department of Pediatric Surgery, AIIMS, New Delhi
22. Monoclonal Antibodies form Dengue Virus infected patients, Department of Biotechnology, School of Chemical & Life Sciences, Jamia Hamdard
23. Prevalence of Immunoparalysis in severe sepsis, Department of Pediatrics, AIIMS, New Delhi
24. Prognostic Role of Serum Levels of Visfatin and Adiponectin and Tissue Expression of Pyruvate Kinase M2 in Patients with Endometrial Cancer, Obs and Gynecology
25. Role of Matrix Metalloproteases and their inhibitors in the pathogenesis of abdominal wall hernias – A prospective case control study, Surgery, AIIMS, Delhi
26. Targeting SLE heterogeneity in geriatric and childhood lupus using single-cell transcriptomics and validation using a CRISPR-based gene editing system for patient-specific precision medicine", Manipal University, MAHE
27. To determine the role of differentially expressed micro-RNAs & their protein targets present in tumor site of pancreatic cancer patients, Surgical Discipline, AIIMS, New Delhi
28. To Investigate atherosclerotic risk factors related miRNA network regulating the inflammasome pathway in coronary artery disease, Cardiology, AIIMS
29. To study the immunomodulatory effect of tumour derived exosomes on γδ T cells, Biochemistry

30. Transcriptome analysis to define Novel Pathways in Adenoid cystic Carcinomas and to correlate with clinical outcome, Pathology, Dr RP Centre, AIIMS

Year	Total Number of Departmental projects in the Biochemistry	Total Number of collaborative projects in the Biochemistry
2022-2023	67	68
2023-2024	63	49
2024-2025	60	30
Total	**190**	**147**

Completed

1. A study on hydrogen sulphide mediated transcriptional modulation using trophoblast cells and their association in preeclampsia, Department of Anatomy, AIIMS, New Delhi
2. Evaluation of tumor-derived exosomes in blood during pre and post treatment of pancreatic cancer patients, Surgical Discipline, AIIMS, New Delhi
3. Identification of factors predictive for weight loss after bariatric surgery: Building a Model for improving outcomes and maintaining weight loss, Surgical Disciplines AIIMS Delhi
4. Molecular Characterization of malignant lacrimal gland tumours, Pathology, Dr. R.P. Centre, AIIMS
5. Molecular characterization of NFkB pathway in uveal melanoma, Pathology, Dr. R.P. Centre, AIIMS

PATIENT CARE

PORPHYRIA TESTS:

This test was started from year 2020 in our department

2022-2023	2023-2024	2024-2025
87	150	223

Clinical Biochemistry Laboratory (Porphyria testing) is a small sized Laboratory (<100 samples/day) under the Department of Biochemistry AIIMS Delhi. It provides diagnostic services to the registered patients of the Institute by performing porphyria screening test. There is a qualitative test for estimating the presence of urine porphobilinogen (Watson Schwartz reaction). This test screens for HCP (Hereditary Coproporphyria), AIP (Acute Intermittent Porphyria) and VP (Variegate Porphyria). The other test is semi-quantitative where urine and plasma porphyrin is measured in terms of the peak of fluorescence intensity at a particular spectrophotometric wavelength. The Tests are done manually with a turnaround time of twenty-four hours.

The number of tests/investigations are thrice per pt. sample as its panel of three tests.

Quality control:

Apart from routine internal quality assurance scheme, Successful monthly participation in External quality assurance scheme (EQUAS) for last one year to deliver quality reports.

It is further stated that the lab got NABL accreditation and all tests are now NABL accredited. Two of our faculty Dr. Rakhee Yadav and Dr. Archana Singh are In charges of Renal Lab. They are also In charges of Quality Assurance and Signatory Authority.

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Kalpana Luthra was Instructor for the FIMSA Immunology Course and a plenary speaker in GIS-2025 (Global Immunology Summit) from 13-15 February 2025 at BRIC-THSTI. She was Chief of CMETi, AIIMS, New Delhi w.e.f 1 April 2024. She was Fellow of National Academy of Science, India (NASI). She was Fellow of Indian National Science Academy (INSA). She was Fellow of The National Academy of Medical Sciences India (*FAMS*). She was Co-Chairperson of the Repository Access Committee (RAC) for National HIV Cohort Program (Cohorts of HIV Resistance and Progression in Indian Children and Adults – CoHRPICA). She was Member of the Governing Body of National Institute of Animal Biotechnology (NIAB) Hyderabad w.e.f September 2021 for 3 years. She was Member of Evaluation committee for promotion of faculty members of Faculty of LifeScience & Biotechnology (FLSB), South Asian University, 26 April 2024. She was Member of Expert Committee for Translational activities in Biotechnology Industry Research Assistance Council (BIRAC). She was Member of the Jury for Sun Pharma Science Foundation Science Scholar Awards 2022-2024. She was Member of the THSTI-JNU Academic Committee. She was Co-Chairperson of scientific committee of the Annual conference of the IABS-24 North-Zone 5-6 August 2024. She was Patron at "Labtechcon 2024", 43rd All India Conference & Scientific seminar, All India Medical Laboratory Technologist Association, 21and 22 October 2024, AIIMS, New Delhi. She Organized AIIMS, CSIR-CCMB open house 16 August 2024 in AIIMS, New Delhi. She was Life Member of Indian Society of Translational Research. She was Member of Project Review Committees (Basic Science-Committee-1) of Early Career. She was Member of the Aspire Life Sciences Research Committee. She was Chairperson of Teaching Curricum Committee for MBBS, Phase I, AIIMS. She was Co-chairperson of Annual Report Committee. She was Member for vetting single responsive bid tender At AIIMS New Delhi. She was Member of Expert Committee Meeting for evaluation of ongoing & completed projects under International Cooperation Bilateral Program by DBT. She was Member (Medical Sciences) of the Travel Grant and Symposia Management (TGSM) Unit of CSIR-HRDG. She was Editorial Board Member of Indian Journal of Clinical Biochemistry. She was Member of Technical Expert Group (TEG) committee to deal with appeals referred to the central government under the NMC Act, MOHW. She was Chairperson for Institutional Ethics Committee at University School of Biotechnology Guru Gobind Singh Indraprastha University, w.e.f 23 December 2020. She was Reviewer of manuscript submitted to Msphere. She was Member of the Technical Expert Committee for Infectious disease biology program of DBT, from April 2022.

Professor Alpana Sharma was Awarded IIS- Senior Scientist Oration award by Ind Immunology Soc at IISc Banglore in IMMUNOCON-2024. She received travel award by my PhD student Komal Sagar from North American Vascular Biology Organization (NAVBO). In Vasculata Meeting, July 2024 held at Stanford University, USA. She was External expert at Research committee of Department of Biochemistry, JN `Med College, AMU, Aligarh.

Professor Kunzang Chosdol delivered Dr P Lali Memorial lecture during CME program on Advances in Biochemical, MAMC, on 8 March 2025 on "Biomarkers and Beyond: The Expanding Role of Biochemists in Personalized Medicine". Chaired a workshop session on "SANGER SEQUENCING, FRAGMENT ANALYSIS AND DIGITAL PCR" during 7th Annual Conference of Neuropathology Society of India (NPSICON 2025). Organized by: Neuropathology Laboratory, AIIMS, New Delhi, on 20 February 2025 at SET facilty, AIIMS, Delhi.

Professor Archana Singh II received KP Sinha-PS Krishnan Award-Best paper published in Indian Journal of Clinical Biochemistry: Sudhasini Panda, AmbrishTiwari, Vivek Kumar, Kalpana Luthra, Kuldeep Kumar, Archana Singh*. Protective Role of Vitamin D against Development of Active Tuberculosis in Close Household Contacts of Pulmonary Tuberculosis Patients: A Prospective Cohort Study. Ind J Clin Biochem (2023). Alisha Arora (PhD student) (Poster presentation): (FIMSA 2024 Travel award): Innate immunity in tuberculosis and type 2 diabetes: Bridging Characterization to clinical outcomes. Deepak Vats (PhD student) (Poster presentation): (FIMSA 2024 Travel award): Deciphering the role of IFN gamma independent CD4+ T cell subsets in shaping the immune prospects of *M.tb* exposed Tuberculosis 'Resisters'. Deepak Vats (PhD student) : Best Oral presentation Award, ACBICON 2024: Enhancing Tuberculosis Treatment: Role of *Mycobacterium*

indicus pranii and human beta defensin-2. Deepak Vats (PhD student) (Poster presentation at AIIMS Research Day 2024): Certificate of Appreciation: Exploring the role of IFN-γ independent CD4+ T cell subsets in providing resistance against pulmonary tuberculosis. Shaikhbdul Mubeen Rahim Mubeen (MD student) (Poster presentation at AIIMS Research Day 2024): Commendation Award :CD14++CD16- classical monocyte subset secreting IL-1β and high monocyte to lymphocyte ratio is associated with "Tuberculosis Resister'' Phenotype.

Professor Jayanth Kumar was Selected for the Trust for Education and Training in Cytometry TETC Best Paper Award (Clinical) (Feb 2025). AIIMS Research Excellence Award: First Prize in Basic Science Research (Jan 2025) EMBO Travel Grant (May 2024) for workshop: Intercepting Childhood Blood Cancer: From Single Cells To Malignant Clones, Dusseldorf, Germany.

Dr Pragyan Acharya received AIIMS Research Excellence Award (Certificate of Excellence) in Clinical Research. AIIMS International Travel Fellowship under the AIIMS Endowment Act. Indian Immunology Society's "Women in Immunology" Award for 2025. Task force member in DBT and ICMR. Theses evaluated for: (i) IIT Delhi (MSc), (ii) Indian Institute of Science Bengaluru (PhD), (iii) University of Westminster, UK (PhD). Associate Editor Journal of Clinical and Experimental Hepatology and, Frontiers in Immunology.

Dr Rakhee Yadav was Clinical Biochemistry Lab- Porphyria testing (Department of Biochemistry) is now NABL accredited (MC 7096 dated 16 January 2025). The NABL accreditation certificate has been issued as per ISO15189:2022 (for Medical Laboratories). The Laboratory is doing following screening tests for Porphyria:1. Urine Porphobilinogen 2.Plasma/Urine Porphyrin screening 3. Urine total Porphyrin-Creatinine Ratio.

Dr Pramod Kumar Gautam received Second Prize in Oral Presentation- Awarded to Dr. Pavit Singh (ICMR-STS Fellow under my mentorship) during the 4th Research Day, held on 30 January 2025. Title of Presentation: To Study the Differential Exosomal Abundance in Pancreatic Cancer Patients. Infosys Best Paper in Ecology – Basic Sciences, First Prize Awarded during the 4th Research Day, held on 30 January 2025. Title of Article: Macrophage Infiltration in 3D Cancer Spheroids to Recapitulate the TME and Unveil Interactions Within Cancer Cells and Macrophages to Modulate Chemotherapeutic Drug Efficacy. Best Poster Award Awarded to Ankit Kumar (MSc student under my supervision in Medical Biochemistry) at the International Conference "EVOLVE 2025, " organized by InSEV from March 24–26, 2025, at JL Auditorium, AIIMS, New Delhi. Title of Abstract: Identification & Validation of Differentially Expressed Exosomal miRNA in Pancreatic Ductal Adenocarcinoma (PDAC) Patients.

Dr Karthikeyan Pethusamy was Awarded Sun Pharma Science Foundation Clinical Research Fellowship (3 years fellowship). Enrolled into FAIMER fellowship (2 years fellowship).

Visiting Scientists:

Following scientists visited the department and delivered talks:

1. Dr Mubashir Ahmad Institute of Orthopaedic Research and Biomechanics Trauma Research Center Ulm University Germany on 20 November 2024
2. Dr Raiees Andrabi Associate Professor of Medicine Perelman School of MedicineDivision of Infectious Diseases, Department of Medicine University of Pennsylvania January 2025
3. Dr Prateek Bhardwaj yale university on 14 January 2025

As part of the Department Guest lecture series

1. Smita Bhatia MD, MPH Infosys Chair Oncology University of Alabama USA
2. Mr Praveen Kumar Gupta, Managing Director, Premas Life Sciences Pvt Ltd.
3. Dr Amarnath Natarajan, Ruth Branham Professor, UNMC Eppley Institute for Research in Cancer and Allied Diseases
4. Dr Soni Deshwal, Max Planck Institute for Biology of Ageing in Cologne, Germany

HIGHLIGHTS

The Department of Biomedical Engineering was established in 1971 as a joint venture of AIIMS, New Delhi and Indian Institute of Technology Delhi. The department has applied engineering principles to address medical and biological problems. The department has collaborative projects with major institutes and hospitals in India.

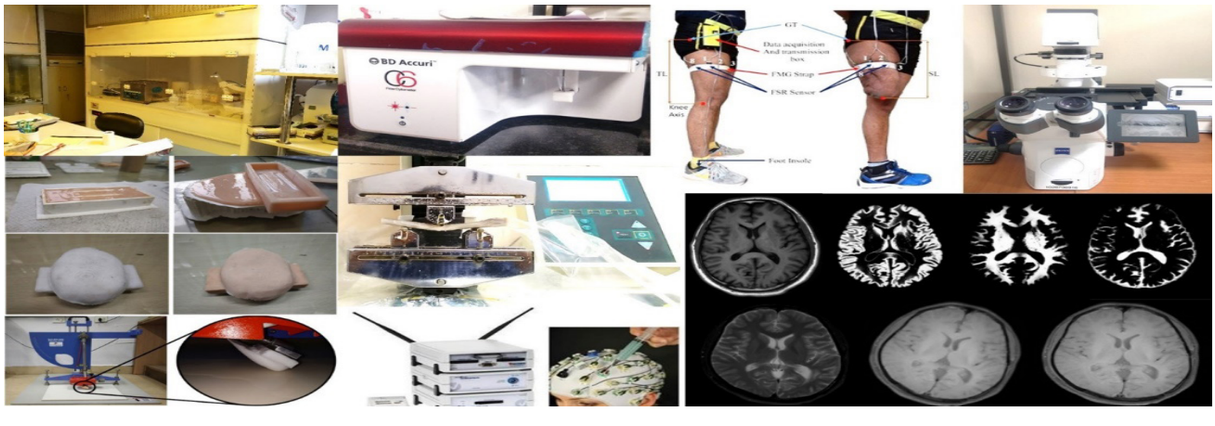
The Department has its vision of dissemination of knowledge & development of techniques, tools and methods for diagnosis, follow-up of treatment responses, drug delivery and help in disease treatment. The faculty of the department are dedicated towards research in the following priority areas:

- Biomaterials
- Bioinstrumentation
- Biomechanics
- Medical Imaging
- Medical Implants

In the past year, the following highlights and recognitions are to be mentioned:

1. Amit Mehndiratta was awarded with E.K. Zavoisky award at 32nd Proceeding of International Society of Magnetic Resonance in Medicine (ISMRM) 2024, USA.
2. Rishabh Bajpai: Received the Distinction in Doctoral Research Award 2024 from IIT Delhi.
3. Rishabh Bajpai: Awarded the Sanjeev Bhatia Memorial Award for Best Thesis, to be conferred during the upcoming convocation.
4. Apoorva (MTech Student): Selected for the Reliance Postgraduate Scholarship, among 100 students nationwide, amounting to Rs 6 Lakhs.

5. Part of the Department of Biotechnology (DBT) high-level steering committee on 'Quantum Biotechnology' entrusted by the Government of India in March 2025 to identify research areas at the interface of quantum sciences and biology for a strong outlook.
6. Co-organized the Brain and Cognitive Science Colloquium, which was a three-day long conference held at IIT Delhi in September 2024, featuring international speakers on emerging multidisciplinary frontiers of brain and cognitive sciences.
7. Leading the IIT Delhi Quantum Biology Initiative (The QuBe) to foster research and development in all areas related to quantum biology at the Institute.



EDUCATION

Apart from research, the department is engaged in teaching where PG, UG and Pre-Ph.D. courses relevant to biomedical engineering are offered at IIT Delhi. 58 PhD students and 7 MTech are currently being supervised by the department's faculty. Seven PhD students and Six MTech students graduated in the past year.

PhD Program in Biomedical Engineering at IIT Delhi

Admission to the PhD programme is normally made on the basis of an interview of eligible candidates conducted by the Centre for Biomedical Engineering (CBME), through its Centre Research Committee (CRC). The CRC may decide to conduct a written test as well, or multiple interviews, or other ways of testing, in order to screen the best suitable candidates. Applications are invited from candidates by advertising in IIT-Delhi web portals in March for the first semester and in October for the second semester every year.

MTech Program in Biomedical Engineering at IIT Delhi

MSR Program in Biomedical Engineering at IIT Delhi

CMEs/Workshops/Symposia/National and International Conferences for the year (2024-2025)

Lectures delivered at CMEs, National and International conferences

Lectures delivered: 7

1. Artificial Intelligence (AI) in Quantitative Cancer Imaging for Response Assessment", Medical Image Analysis using Artificial Intelligence, MIAAI-2024, 23-27 April 2024, Gayatri Vidya Parishad College of Engineering, Visakhapatnam, India
2. Machine learning- Basics and Role in Diabetic Retinopathy, Diabetic Retinopathy 101- Upskilling course for Nursing College, 26 April 2024, All India Institute of Medical Science, New Delhi, India
3. Exploiting AI in Prostate Cancer Assessment Gender Imaging: Prostate & Female Pelvis Session, 32nd Proceeding of International Society of Magnetic Resonance in Medicine (ISMRM), 4 May 2024, Singapore
4. Transforming Healthcare Research to Entrepreneurship", in webinar series on Bold Beginnings: Igniting Your Entrepreneurial Journey, IEEE, 10 May 2024. Kerala Section
5. Medical Imaging for Cancer Prognostication using Artificial Intelligence, Department of Engineering Design, 21 June 2024, IIT Madras, India
6. Neurology-Technology Fused for Better Patientcare Rehabilitation, Indo-French Symposium on Imaging, AI, and Genetics in Neurological Disorders, 16 September 2024, AIIMS, New Delhi, India
7. Panel Discussion on Practical applications of Artificial intelligence and Machine learning in Anaesthesiology: Current trends, Annual Conference of Indian Society of Anaesthesiologists Delhi Branch (ISACON Delhi), 28 September 2024, Delhi, India

RESEARCH

Funded Projects

Ongoing

1. A Wearable Multimodal Sensing System for Biomechanical Modelling and Classification of Muscle Contraction States for Sports Injury Prevention (Under MFIRP Scheme of IRD in collaboration with University of Exeter, UK), Dr Biswarup Mukherjee, IRD, IIT Delhi, India, Rs 5 Lakhs
2. Biofidelic Human Tissue Simulants for Ballistic Evaluation, Dr. Arnab Chanda, Ministry of Defence, ARMREB, India, Rs 251 Lakhs
3. CoE on Personalized Healthcare at IIT D: India's first Center for Precision Medicine & MedTech, Dr Neetu Singh, "Wadhwani Innovation Network, Wadhwani Foundation, New Delhi, India, Rs 130 Lakhs
4. Collaborative research project between Translational Research Centre Hiroshima University and Centre for Biomedical Engineering IIT Delhi. Dr Deepak Joshi, Hiroshima university, Japan, Rs 18.95 Lakhs
5. Department of Biotechnology, Ministry of Sc.& Tech India, Dr Aarat Pratyaksh Kalra, Department of Biotechnology, Ministry of Sc.& Tech India, India, Rs 79.56 Lakhs
6. Developing artificial intelligence based model for detection of malignant potential of pulmonary nodules in sarcoma using computed tomographic imaging and its prospective validation (Under IRD MFIRP Scheme in collaboration with AIIMS), Dr Amit Mehndiratta, IRD, IIT Delhi, India, Rs 10 Lakhs
7. Development and evaluation of artificial intelligence system for detection and classification of occlusal caries, Dr Anup Singh, ICMR, India, Rs 13.72 Lakhs
8. Development and validation of robotic probe holder device for ultrasound-guided central venous canulation, Dr Deepak Joshi, DST India, Rs 48.36 Lakhs
9. Development of a Prototype Lab-On-A-Chip for Rapid Microbial Detection during Nonsurgical Endodontic Therapy, Dr Sandeep Kumar Jha, ICMR India, Rs 51.62 Lakhs
10. Development of surface-engineered smart nano-immunotherapeutic for the treatment of breast cancer, Dr Jayanta Bhattacharyya, ICMR India, Rs 54.74 Lakhs
11. Double network hydrogel system reinforced with short magnetic nanofibers for biomimetic property of ligament tissue (SERB NPDF to Dr Preeti Tiwari, under supervision of Professor Sachin Kumar B, Centre for Biomedical Engineering), Dr Sachin Kumar B, Science and Engineering Research Board (SERB) India, Rs 29.80 Lakhs

12. Equipment Matching Grant to Professor Aarat Pratyaksh Kalra, Centre for Biomedical Engineering under Main Project # RP04863G, Dr Aarat Pratyaksh Kalra, Institute of eminence Funds, Planning Unit IIT Delhi, India, Rs 30 Lakhs
13. EXOSKINGRAFT: High Expansion Skin Grafting using Auxetic Patterns for Severe Burn Injury Mitigation, Dr Arnab Chanda, SPARC, MHRD India, Rs 74.04 Lakhs
14. Expansion and Scale-up of Medtech Innovation Training Programme: School of International Biodesign (SiB): Phase-V (Five Years: 2022-2026) [BT/PR42130/BIO/144/7/2021], Dr Deepak Joshi, Department of Biotechnology, Ministry of Science & Technology, Government of India, Rs 389.44 Lakhs
15. Integrated Magneto-Acousto-Dielectrophoresis based Microfluidics for the Sorting of Bovine Spermatozoa, Dr. Sandeep Kumar Jha, Department of Biotechnology India, Rs 263.09 Lakhs
16. Integrated Sonomyography and Soft haptics-based Intuitive Control of Upper-Extremity Prosthetic Devices, Dr Biswarup Mukherjee, Department of Biotechnology, Ministry of Sc & Tech, India, Rs 78.47 Lakhs
17. International Clinical Trail and process evaluation of RoboExoSMART: An Upper Limb Rehabilitation Exoskeleton Device Developed by IIT Delhi (Under SPARC Cell IIT Kharagpur), Dr Amit Mehndiratta, SPARC, MHRD, India, Rs 71.16 Lakhs
18. Molecular Structural Control of Fibrinogen on Bioresorbable Stent Surface Regulated Platelets Response (Under MFIRP Scheme of IRD in collaboration with TUD), Dr. Sachin Kumar B, IRD, IIT Delhi, India, Rs 5 Lakhs
19. Nanoplatform based Multiplex Immunosensor for the Sensitive Detection of Food Contaminants (Dr Sruti Chattopadhyay, Women Scientist under DST WISE KIRAN Scheme under supervision of Professor Sachin Kumar B, CBME), Dr Sachin Kumar B, DST India, Rs 42.63 Lakhs
20. Oxygen Releasing Bioenergetic Injectable gel for Cartilage Regeneration, Dr Sachin Kumar B, ICMR, India, Rs 122 Lakhs
21. Pharmacokinetic Analysis and Histological Evaluation of Sirolimus-Eluting Bioresorbable and Biostable Coronary Stents as compared to control Cobalt-Chromium Stents, Dr Priya Vashisth, ICMR India, Rs 50.94 Lakhs
22. Point-of-Care Diagnostic Test for Preterm Risk Assessment (Under Main CoE Project # RP04761G), Dr Naveen Kumar Singh, ICMR, India, Rs 13.53 Lakhs
23. Pre-compliance and Clinical Validation of Implantable and Diagnostic Devices (Otorhinolaryngology, Ophthalmics and Orthopedics), Dr Dinesh Kalyanasundarm, ICMR India, Rs 485.99 Lakhs
24. Seed Grant to New Faculty (Institute Seed Grant to Professor Pradipta Mukherjee, CBME under Main Seed Grant Project # MI02794, Dr Pradipta Mukherjee, Institute of Eminence Funds, Planning Unit IIT Delhi, India, Rs 20 Lakhs
25. Technical Vetting/Review of Procurement, Comprising Technical Specifications of Equipment in Common Scientific Facility Equipment and Related Services for Biomaterial Testing Facility & Internet of Medical Things Lab for Medical Devices Park (MDP) in YEIDA Sector-28, Dr Neetu Singh, Yamuna Expressway Industrial Development Authority, Noida, India, Rs 7.04 Lakhs

Ongoing

1. 3d Bioprinting and Biosensors
2. AI Based MR Image analysis of brain tumors
3. Analysis of Neuroimaging Data and Its Applications
4. Assessment of cognitive stress via wearable nostril device and neurophysiological markers during short term meditation
5. Assistive Technologies in biomedical applications
6. Ayurvedic drug eluting bioresorbable stent
7. Biodegradable polymeric nanoparticles for cancer therapy
8. Biomarkers For Head & Neck Cancers In Indian Patients
9. Biomechanical evaluation of meniscal tissues at high strain rates and development of biomimetic meniscal replacements

10. Biomechanical Modelling of Diabetic Foot Ulcers
11. Biomedical Engineering
12. Cancer Imaging
13. Cancer immunotherapy
14. Chronic wound healing
15. Collaborative Closed-Loop Control Strategies For Intuitive Control Of Prosthetic Devices
16. Computational Modelling And Analysis Of Dental Trauma And Its Preventions
17. Deep Learning Based Medical Image Analysis
18. Dental Trauma Biomechanics
19. Design And Development of Femoral Implants
20. Design and Development of patient specific implants
21. Design And Development of Small Theranostics For Neurocognitive Disorders
22. Design development and biomechanical evaluation of orthopedic devices
23. Developing synthetic biological circuits for diagnostics and therapeutics
24. Development and validation of a wearable multi-channel
25. Development of a Biofidelic Footwear Traction Testing device
26. Development of A Comprehensive Clinical Decision Support System
27. Development of Auxetic Skin Grafts with High Expansion Potential
28. Development of biodegradble nanoparticles for delivery of anticancer agents
29. Development of biopolymer based formulations for pre hospital care under combat operation
30. Development of Nanoplatforms for cancer margin clearance
31. Electric Field-Based Therapy Represents A Diverse Range Of Approaches With…
32. Electrical detection of pathogens by carbon dots
33. Electromagnetic Tracking Enabled Device For Training And Planning Of Image-Guided
34. Fabrication of Tendon Mimicking Tissue Engineering Construct
35. GAIT restoration in cerebral Palsy
36. Gastrointestinal Microbiota Community Assessment And Omics Profiling
37. Human machine interfaces for individuals with partial spinal cord injury
38. Medical Image Analysis
39. Medical Resonance imaging for cancer diagnosis and prognosis
40. Microfluidic chip development biomedical application
41. Modelling and Mitigation of Unexpected Slips and Falls in Hospitals
42. MR Image Processing
43. Mr Sequence Programming, Protocol Optimization And Analysis, Using Machine Learning
44. MRI Data Analysis of Brain Tumor and Ischemic Stroke patients
45. Multifunctional Nanoparticle Cancer theranostics
46. Multi-Modal Muscle Activity Sensing And Fusion For Robust Biomechatronic Control
47. Nano based Platforms for Drug Delivery
48. Nanodelivery system for cancer therapy
49. Nanoparticle mediated RNAi

50. Neuromuscular Biosignatures of sensorimotor control in individuals with upper limb amputation
51. Neurorehabilitation for spinal cord injury patients
52. NK cell derived nanovesicles for cancer immunotherapy
53. Non Invasive biosenses for non-communicable diseaese
54. Phonocardiography system for heart valve assessment
55. Post Stroke Rehabilitation Of Distal Upper Limb Using Virtual Reality Based Technology
56. Quantitative MRI and its Applications
57. Development of Nanoplatforms for cancer margin clearance
58. Self-healing bioadhesive hydrogel for cartilage tissue regeneration
59. Self-Polymerizing Interfaces For Gastrointestinal Diagnosis And Therapy
60. Sensing of Heavy Metal ion using carbon dots
61. Sonomyography based control for upper extremity bionic devices
62. Sprayable hydrogel loaded with polymeric microcarrier for metallic nanoparticles for wound healing application
63. Studying Intracellular Structures, Mechanisms, And Molecular Responses In Tumour
64. Synthetic cellular compartments for cell-like systems to perturb diseased states - Towards building a synthetic cell
65. Targeting Immune Signaling For Cancer Therapy
66. Targeting Infectious Diseases Via Immunotherapeutics
67. TBD
68. The Study Aims To Investigate The Feasibility And Effectiveness Of Using Thermoplastic Polyurethane For 3d Printing Of Aortic Valve
69. Tissue engineering to study cancer metastasis
70. Understanding cell-cell and cell material and interaction for tissue engineering application
71. Vascularized Organoids In Microfludics Platform And Its Applications.
72. Wearable Electronics For Detecting Swallowing Dysfunction.

AWARDS, HONOURS AND SIGNIFICANT EVENTS

IIT Delhi - Sorbonne University Workshop at CBME

CBME welcomed delegates from Sorbonne University, France, for a workshop organized jointly by IIT Delhi and Sorbonne University. The workshop had MTech and PhD students presenting their work to the delegates. IITD and Sorbonne University bid together for a call for an Indo-French Campus on Health that was issued by the French government. We were successful in the call and have been awarded 150, 000 EUR for 2023 24 (2 years). The grant will enable the mobility of Masters and PhD students (for 3-6 months) and faculty members (especially early career researchers) and for organizing workshops and summer schools. In the initial years, the focus would be on health and biological sciences.

5 Months Executive Programme on Healthcare Entrepreneurship and Management

CBME, IIT Delhi's Executive Programme on the development and deployment of healthcare products and services (Batch-2) paves the way for building healthcare entrepreneurs. With Professor Arnab Chanda and Professor Biswarup Mukherjee as Programme Coordinators, it is a first-of-its-kind programme in the country focusing on Healthcare Entrepreneurship. The participation included graduates from all disciplines (Students, Doctors, Engineers, Managers) who wish to be a part of the healthcare ecosystem and learn conception-to-commercialization and management of healthcare products and services.

Healthcare Entrepreneurship and Management

In an era marked by unprecedented advancements in medical science and technology, the need for entrepreneurship in healthcare has become more pressing than ever before. The traditional models of healthcare delivery are undergoing a paradigm shift, and entrepreneurs are at the forefront of this transformative journey.

The digital transformation of India's healthcare industry has the potential

5 Months Executive Programme in Robotics

In the current era of technological transformation, Robotics has emerged as a pivotal force shaping global industries. Rapid advancements in technologies such as rapid prototyping, cloud computing, the Internet of Things, and Artificial Intelligence have propelled the widespread integration of robots across various sectors, including healthcare, automotive, and space exploration. This surge in robotic applications demands an immediate focus on upskilling and reskilling individuals involved in the conception, design, development, manufacturing, and operation of robots.

With Professor Arnab Chanda and Professor Biswarup Mukherjee as Programme Coordinators, IIT Delhi's Executive Programme in Robotics is designed to meet this demand by providing comprehensive training from fundamental principles to the execution of advanced applications. It offers a unique opportunity for individuals seeking expertise in navigating and contributing to the evolving landscape of robotics for enhanced human well-being and productivity.

The Indian Institute of Technology Delhi (IIT Delhi) recently hosted two fellows from the World Intellectual Property Organization (WIPO), Dr Atwau Pius, whose research focuses on key challenges in newborn care, and Peter Opende Ochieng, who is working in maternity labour monitoring.

HIGHLIGHTS

During the period under report, the Department of Biophysics had over 45 ongoing research projects funded by extramural grants. Research in the Department of Biophysics is concerned with determining the molecular basis of biological process, rational structure based drug design and discovering new specific biomarkers. The department provides facilities for data collection on protein crystals, medical bioinformatics, protein sequencing and peptide synthesis, proteomics and dynamic light scattering. In the past one year, faculty and scientists had 58 research publications in various peer reviewed journals. The Department continued providing elective internship posting for MBBS undergruate students as well as classes for BSc nursing students and postgraduate education, short and long term training to MSc, PhD and MD students.

EDUCATION

Postgraduate

The faculty and scientists of the Department of Biophysics continued with teaching and guiding students for PhD degree, MSc (Biophysics) and MD (Biophysics). The postgraduate teaching includes theory classes, hands-on practical classes and a dissertation project.

Short and Long term Training

The Department also imparted 6 long and 25 short-term training to MSc and MTech students from different institutes and universities.

Lectures delivered at CMEs, National and International Conferences (all lectures, invited talks, plenary lectures, guest lectures except named Orations are to be listed here)

TP Singh

1. Design of peptide inhibitors using sequences of expression tags in cloned proteins, Conference on Innovation in material science held at Indian Institute of Technology, Roorkee, 24 April 2024, Roorkee

2. Exploitation of innate immunity proteins as protein antibiotics, Inaugural talk as the presidential address at the 11th Meeting of the Chemical Biology Society on Current Trends in Drug Discovery and Advances in Diagnostics held at Adichunchanagiri University, B.G. Nagara, Mandya, 2 August 2024, Mandya
3. Structural basis of understanding the role of innate immunity proteins in the first line of defence against invading microbes and discovering new antibacterial drugs, Inaugural talk in the National Seminar on Emerging Trends and Prospects in Biotechnology held Utkal University, Bhubaneshwar, 27 September 2024, Bhubaneshwar
4. Current approaches to drug discovery: delivered, Inaugural talk as a Chief Guest at the National Conference on "Modern and Traditional Approaches in Pharmacotherapeutics in Neuroscience and Mental Health (MATHANAM-2024), 4 October 2024, Bengaluru
5. Current trends in structure-based drug discovery, Inaugural address at The Conference on Structural Biology and Drug Discovery (CSBDD Commemoration of the 102nd Birthday of Professor G. N. Ramachandran, FRS held at SRM University Kattankulatur, 8 October 2025, Kattankulatur
6. Applications of innate immunity proteins as therapeutic agents, Plenary talk as the guest of honour in the International Conference on Innovations in Biotechnology for Sustainability held at Jawaharlal Nehru University, 23 November 2024, New Delhi
7. Design of substrates as therapeutic molecules for the innate immunity proteins, Inaugural speech as the Chief Guest in the International Conference on Advances in Biotechnology and Bioinformatics held at Dr DY Patil Biotechnology and Bioinformatics Institute, 26 November 2024, Pune
8. Protein structure and drug discovery: Convocation address as the chief guest at the 105th convocation of the University of Mysore, 18 January 2025, Mysore
9. Structure-based inhibitor design for microbial enzymes using tactical sequences of the expression tags and then determining structures of cloned proteins: Keynote address at the mini-symposium cum workshop on Macromolecular X-ray Crystallography and protein structure prediction held at the National Institute of Immunology, 20 January 2025, New Delhi
10. Structure-based rational approaches for new drug discovery, Plenary talk at International conference on Cellular Symphony: Decoding Protein Homeostasis in Human Health SRM University, 3 February 2025, Chennai
11. Protein structure and drug discovery: Inaugural talk as the Chief Guest at the International Conference on Futuristic Demands and Emerging Technologies in Environment and Agri-Food Science for Sustainable Solution (DET-EAS-25), Haryana-SRM University, 21 February 2025, Sonipat
12. Structural basis of therapeutic applications of innate immunity proteins: Professor VV Modi Memorial Lecture in Nav Rachna University, 21 March 2025, Vadodara

Punit Kaur

1. Biomedical Text Mining and Drug Discovery- Mining the knowns, AICTE Training and Learning (ATAL) Academy Approved Faculty Development Program, 12 September 2024, Jawaharlal Nehru University, New Delhi
2. Structural mechanistic insights of GH43 family beta-xylosidase enzyme from *Pseudopedobacter saltans*, 51st National Seminar on Crystallography, 27 November 2024, VNIT, Nagpur
3. Whole genome analysis reveals the major pathotypes and predominant antimicrobial resistance genes in *Escherichia coli* strains from India, 20th International Congress on Infectious Diseases- ICID 2024, 3 December 2024, Cape Town, South Africa
4. Search for a Novel Drug Binding site in *Salmonella* Typhi DNA Gyrase for development of Drug Candidates, Drug Discovery 2025: Emerging Trends and Future Prospects, 24 February 2025, Jamia Millia Islamia, New Delhi
5. Probing Novel Drug Binding sites in *Salmonella* Typhi DNA Gyrase as anti-microbial targets, Current Advances in Drug Design & Translational Science" (CADDTS-2025), 26 February 2025, Jamia Millia Islamia, New Delhi

Savita Yadav

1. Unraveling the Pro-Tumorigenic Role of FGF8 in Ovarian Cancer: Insights from Quantitative Proteomics and Functional Studies, International symposium on "Proteostasis to pathology: exploring protein aggregation and amyloid formation in health & disease", 11 March 2025, Central University of Rajasthan, Kishangarh

2. Building dreams and ideas to impact: My journey in science, National Webinar "From Struggle to Strength: The Journey of Women's Empowerment" organised by the National Academy of Sciences, India (NASI) – Rajasthan Chapter, 8 March 2025, New Delhi, Online
3. Exploring role of fibroblast growth factor 8 (FGF8) in Ovarian Cancer, 13th Annual International Conference of Indian Academy of Biomedical Sciences, 11 February 2025, AIIMS, Bhopal
4. Multimerin-1 potentially drives ovarian cancer progression through modulation of DNA damage response and repair mechanisms, South Zone Conference of Association of Clinical Biochemists of India, 24 January 2025, JIPMER, Puducherry
5. Male contributory factors in idiopathic recurrent pregnancy loss, 50th Annual Conference of Association of Clinical Biochemists of India, 7 December 2024, PGIMER, Chandigarh

Sujata Sharma

1. Unlocking the Power of Lactoferrin: The Role of Hydrolysis in Enhancing Its Potential, International Conference on Antimicrobial Resistance, Novel Drug Discovery and Vaccine Development: Challenges and Opportunities, 10 March 2025, Gurugram
2. Unraveling the Mysteries of Science, KAMP's Online Workshop, 28 February 2025, New Delhi, Online
3. Unlocking the Power of Lactoferrin, XIIIth Annual International Conference of the Indian Academy of Biomedical Sciences (IABSCON-2025), 12 February 2025, Bhopal
4. The importance of Mental Health, Workshop on "Holistic Wellbeing and Gender Equity", 23 October 2024, New Delhi
5. The C-lobe of Lactoferrin; A Swiss Army Knife of the body, Conference on "Structural Biology and Drug Discovery" to Commemoration of 102nd Birthday of Professor GN Ramachandran, 8 October 2024, Chennai

Hariprasad G

1. Clinical Proteomics as a platform for Precision Medicine, OMICS for Clinics: A Precision Medicine Primer, 13 August 2024, AIIMS, Bhopal

Sharmistha Dey

1. Diagnostic significance of serum p38 Isoforms (p38α, p38β, p38γ, p38δ) in Head and Neck Squamous Cell Carcinoma, World Cancer Congress, 20 June 2024, Prague
2. New insight for early detection of Alzheimer's Disease, Alzheimer's Association International Conference (AAIC), 28 July 2024, Philadelphia, USA
3. COX-2 level in Alzheimer's disease: Development of potential blood-based biomarker for early diagnosis and therapeutic target, Indian Academy of Biomedical Science, 11 February 2025, Bhopal

Krishna K Inampudi

1. Protein design and its applications, Gdansk University of Technology Gdansk, 6 March 2025, Poland, Online

Saroj Kumar

1. Where Vesicle Science Meets Clinical Innovation, Co-Convener: Indian Extracellular Vesicles Society (IEVS) - VESICON 2025, 11 March 2025, Hyderabad
2. Potential of circulatory extracellular vesicles for detecting early Alzheimer's and Parkinson's disease, Invited Speaker: Indo-German Science and Technology Centre (IGSTC), 10 March 2025, Hyderabad
3. Role of exosome nanoparticles in disease detection, Honorarium Lecture: Chemistry for Energy, Environment, and Biomedical Applications (CEEBA-2024), 17 December 2024, NIT Hamirpur

Jyotirmoy Banerjee

1. Development of epileptic networks in focal cortical dysplasia (FCD): Role of altered GABAA receptor function, IABSCON 2025, XIIIth International Conference of Indian Academy of Biomedical Sciences, 13 February 2025, AIIMS, Bhopal

2. Dissecting the inflammatory mechanisms of drug-resistant epilepsy pathologies: evidence from brain to blood, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025), 21 February 2025, New Delhi
3. Identification of molecular biomarkers for drug-resistant epilepsy pathologies: Possible role in diagnosis & prognosis**,** Indo-German Science & Technology Centre (IGSTC) Workshop- Advancing Personalized Medicine Circulating Biomarkers in Neurology and Oncology**,** 10 March 2025**,** Hyderabad
4. Cellular and molecular mechanisms underlying aberrant network reorganization in drug-resistant epilepsy**,** Amity Institute of Neuropsychology and Neurosciences (AINN)**,** 7 August 2024**,** Noida
4. Aberrant network reorganization at cellular level in drug-resistant epilepsy?, AIIMS, New Delhi & CSIR-CCMB Collaborative Meeting, 16 August 2024, New Delhi

Pradeep Sharma

1. Dynamic Light Scattering (DLS), Functional Genomics and Applied Proteomics, 21 February 2025, Jaipur
2. Understanding PGRP's Role in Immune Defense: Structural and Functional Insights into Its Interaction with Pathogen-Associated Molecular Patterns (PAMPs), XIIIth Annual International Conference of the Indian Academy of Biomedical Sciences (IABSCON-2025), 12 February 2025, Bhopal
3. Exploring Pteroic Acid as a Promising Lead against Mucoricin: Advancing Mucormycosis Therapy through AI-aided Inhibitor Designing, Conference on "Structural Biology and Drug Discovery" to Commemoration of 102nd Birthday of Professor GN Ramachandran, 9 October 2024, Chennai

Uddipan Das

1. Cryo-EM grid clipping-Hands on Demonstration, 3rd International Conference on Cryo-Electron Tomography, AIIMS, 22 April 2024, Delhi

LECTURES DELIVERED OVER PAST 3 YEARS

2022–2023	2023–2024	2024–2025
50	46	44

Below information can be shifted to section-HIGHLIGHTS

No. of students/Trainee registered in the department

MD: 17

MSc: 06

PhD: 39

Trainee: 50

Oral papers/posters presented: 78

1. Aggarwal Y, Dixit AB, Doddamani R, Tripathi M, Chandra PS, Banerjee J, Differential neuronal networks contribute to altered GABAA receptor-mediated synaptic activity at early vs late stages of development in animal model of FCD, AIIMS Research Day**,** 29 January 2025, New Delhi
2. Aggarwal Y, Dixit AB, Tripathi M, Chandra PS, Banerjee J, Understanding age-dependent changes in GABAA receptor-mediated activity in animal model of cortical dysplasia, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 20 February 2025, New Delhi
3. Ahmad Nabeel, Sharma Pradeep**,** Sharma Sujata, Singh Tej P, Dual mode of inhibition of bacterial phosphopantetheine adenylyltransferase using X-ray crystallography, 9th European Crystallography School, 24 June 2024, Nancy, France
4. Anas Mohd, Sharma Aparna K, Kumar Saroj, Study of Therapeutics Potential of Mesenchymal Stem Cell-Derived Small Extracellular Vesicles in Alzheimer's disease, Indian Extracellular Vesicles Society (IEVS) - VESICON 2025: Where Vesicle Science Meets Clinical Innovation, 12 March 2025, Hyderabad

5. Ashar Suhail Mohd, Yadav Yudhishthir, Dey A.B, Dey Sharmistha, 5-LOX in Alzheimer's Disease: Potential serum biomarker and neuroprotection with a peptide-based inhibitor, AGI, 13 December 2024, New Delhi
6. Baswal Kamal, Manikanta, Kumar Vikas, Singh Deepa, Khuswaha Tushar, Kumar Saroj, Malik Prabhat S, Mohan Anantet al, Reddy Jagadeswar, Inampudi Krishna K, Whole Blood Metabolomics: Uncovering biomarkerbiomarkers for Non-Small Cell Lung Cancer diagnosis, Korean Association of Lung Cancer, 7 November 2024, Seoul, South Korea
7. Baswal Kamal, Sharma Sanchit, Mohan Anant, Singh Malik Prabhat, Kumar Saroj, Inampudi Krishna K**,** Plasma-Derived Exosomal miRNAs Reveal Unique Expression Patterns in Non-Small Cell Lung Cancer Patients, Indian Extracellular Vesicles Society (IEVS) - VESICON 2025: Where Vesicle Science Meets Clinical Innovation, 11 March 2025, Hyderabad,
8. Chakraborty A, Dixit AB, Banerjee J, Lalwani S, Sharma MC, Yadav A, et al, Expression analysis of Long Non-Coding RNAs with potential epileptogenic role in persons with drug-resistant epilepsy, 15thth Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 20 February 2025, New Delhi
9. Chakraborty A, Kumar K, Tripathi S, Yadav N, Chandra PS, Banerjee J, et al, Tripathi M, Whole genome sequencing to identify Genome-Wide Copy Number variants in persons with Drug-Resistant Epilepsy, Indian Academy of Neuroscience (IAN) 2024**,** 12 November 2024, NIMHANS, Bengaluru
10. Dey Sharmistha, COX-2 level in Alzheimer's disease: Development of potential blood-based biomarker for early diagnosis and therapeutic target, Indian Academy of Biomedical Science, 11 February 2025, Bhopal.
11. Dey Sharmistha, Diagnostic significance of serum p38 Isoforms (p38α, p38β, p38γ, p38δ) in Head and Neck Squamous Cell Carcinoma, World Cancer Congress, 20 June 2024, Prague
12. Dey Sharmistha, New insight for early detection of Alzheimer's Disease, Alzheimer's Association International Conference (AAIC), 28 July 2024, Philadelphia
13. Gorai Priya Kumari, Rastogi Simran, AS Surabhi, Singh Seema, Agarwal Shipra, Pal Sujoy, et alNag Tapas Chandra, Dhingra Renu, Sharma Mehar Chand, Kumar Rakesh, Kumar Saroj, Rani Neerja, Exploring Plasma-Derived Small Extracellular Vesicles as Novel Biomarkers for Early-Stage Detection of Pancreatic Neuroendocrine Tumors, ISEV 2024: International Society for Extracellular Vesicles, Annual Meeting 2024, 10 May 2024, Melbourne, Australia Hyderabad, 9 February 2025*,* Hyderabad
14. Jain K, Thapliyal A, Tomar AK, Das R, Dhiman S, Datta SK, Singh N, Sharma JB, Yadav Set al, Expression analysis of oxidative stress relatedstress-related genes and associated miRNAs in idiopathic recurrent pregnancy loss, ISSRF 2025, 16 February 2025, Jaipur
15. Jain K, Thapliyal A, Tomar AK, Das R, Dhiman S, Datta SK, Singh N, Sharma JB, Yadav S,et al, Exploring expression of oxidative stress linkedstress-linked mRNA-miRNA pairs in idiopathic recurrent pregnancy loss (iRPL)**,** South Zone Conference of Association of Clinical Biochemists of India**,** 24 January 2025**,** JIPMER, Puducherry
16. Jain K, Thapliyal A, Tomar AK, Das R, Dhiman S, Datta SK, Singh N, Sharma JB, Yadav Set al, Exploring expression of oxidative stress linked mRNA-miRNA pairs in idiopathic recurrent pregnancy loss (iRPL), 4th AIIMS Research Day, 28 January 2025, New Delhi
17. Kaur P, Katiyar A, Gurvinder Kaur, Lata Rani, Ritu Gupta, Meta-analysis Guided Detection of Transcriptomic Biomarkers in Multiple Myeloma, 23rd European Conference on Computational Biology ECCB2024, 16 September 2024, Turku, Finland kinase of *Mycobacterium tuberculosis* to combat multi-drug resistant TB, International Workshop on New Approaches to Discover kinase to combat multidrug-resistant tuberculosis, EMBO Workshop on Host and pathogen heterogeneity in tuberculosis, CCMB,
18. Kumar AJ, Aggarwal Y, Nambiar S, Dixit AB, Tripathi M, Chandra PS, et al, Role of altered subunit configuration of glutamate receptors in hyperexcitability in BCNU model of focal cortical dysplasia, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 20 February 2025, New Delhi
19. Kumar AJ, Aggarwal Y, Nambiar S, Sharma A, Dixit AB, Tripathi M, et alChandra PS, Banerjee J, Role of altered subunit onfigurationconfiguration of glutamate receptors in hyperexcitability in BCNU model of focal cortical dysplasia, AIIMS Research Day**,** 29 January 2025, New Delhi
20. Kumar K, Dixit AB, Banerjee J, Chandra PS, Tripathi M, Shotgun metagenomics identifies gut microbiota dysbiosis in patients with drug-refractory epilepsy, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 23 February 2025, New Delhi

21. Kumar K, Manral M, Dixit AB, Banerjee J, Chandra PS, Tripathi M, Exploring gut microbiota dysbiosis and effect of dietary interventions in drug-refractory epilepsy: Identifying probiotic targets and mechanistic pathways, AIIMS Research Day**,** 29 January 2025, New Delhi

22. Kumar S, Shanker OR, Banerjee J, Tripathi M, Chandra PS, Siraj F, et al, Region-specific dysregulation of the Histone Deacetylase 4-Serum Response Factor axis in Temporal lobe epilepsy, Federation of European Neuroscience Society (FENS 2024)**,** 25 June 2024, Vienna, Austria

23. Kumar S, Shanker OR, Banerjee J, Tripathi M, Chandra PS, Siraj F, et al, Region-specific Dysregulation of the Histone Deacetylase 4–Serum Response Factor–Immediate Early Genes axis in temporal lobe epilepsy, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 22 February 2025, New Delhi

24. Kumar Vikas, Gholap Shivaji L, Sehgal Deepak, Inampudi Krishna K**,** Development of a Novel Inhibitor Against nRAS-Mutated Lung Cancers, Max Cancer Care Congress 2024, 20 September 2024, Mumbai

25. Kumar Vikas, Gholap Shivaji L, Sehgal Deepak, Inampudi Krishna K**,** Development of a Novel Inhibitor Against nRAS-Mutated Lung Cancers, AIIMS 4th Research Day, 29 January 2025, New Delhi

26. Kumari Sakshi, Singh Kumar Abhinay, Ashar Suhail Mohd, Pradhan Rashmita, Chakrawarty Avinash, Dey Sharmistha, Targeting COX-2 as a Potential Blood BasedBlood-Based Biomarker and a Therapeutic Approach in Alzheimer's Disease, AGI, 13 December 2024, New Delhi

27. Kumari Sakshi, Singh Kumar Abhinay, Yadav Yudhishthir, Pradhan Rashmita, Dey Sharmistha, GSK-3β; A Diagnostic Biomarker and Therapeutic Modulation for Alzheimer's Disease Mmanagement, IABS, 11 February 2025, Bhopal.

28. Kushwaha Tushar, Kumar Vikas, Inampudi Krishna K**,** Design and engineering of nanobody inhibitors against the extracellular domain of EGF Receptor for the treatment of lung cancer, EMBO Chemical Biology 2024, 9 September 2024, Heidelberg, Germany

29. Kushwaha Tushar, Kumar Vikas, Inampudi Krishna K**,** Engineering Targeted Therapeutics for Lung Cancer: Antibody-Mimetic Scaffolds Targeting EGFR1, ACBICON (Golden Jubilee Conference of Association of Clinical Biochemists of India), 5 December 2024, Chandigarh, India

30. Madhuri, Yadav AK, Saini C, Inampudi KK, Ethayathulla AS, Kumar M**,** Deciphering the role of crucial active site residues of *Mycobacterium tuberculosis* Malate Synthase, 51st National Seminar on crystallography: Crystallography in Drug Design and Pharmaceutical, VNIT, Nagpur, 27 November 2024*,* Nagpur

31. Madhuri, Yadav AK, Saini C, Inampudi KK, Ethayathulla AS, Kumar M**,** Exploring the importance of binding pocket residues of *Mycobacterium tuberculosis* Malate Synthase, EMBO Workshop on Host and pathogen heterogeneity in tuberculosis, CCMB, Hyderabad, 9 February 2025, Hyderabad

32. Madhuri, Yadav AK, Saini C, Inampudi KK, Ethayathulla AS, Kumar M**,** Investigating the function of key active site residue in Malate Synthase of *Mycobacterium tuberculosis*, 4th Research Day, AIIMS, 2025, 28 January 2025*,* New Delhi

33. Madhuri, Yadav AK, Saini C, Inampudi KK, Ethayathulla AS, Kumar M**,** Understanding the significance of crucial active site residues of *Mycobacterium tuberculosis* Malate Synthase, International Workshop on NewApproaches to Discover Vaccine and Drugs for Infectious Diseases, ICGEB, Delhi, 2 December 2024*,* New Delhi

34. Mishra Abhay, Batra Atul, Zehra Sadaqa, Singh Bharti Prahalad, Kumar Saroj**,** Lipid Spectral Signatures of Plasma-Derived Small Extracellular Vesicles as Robust Markers for Early Breast Cancer Detection[1], Indian Extracellular Vesicles Society (IEVS) - VESICON 2025: Where Vesicle Science Meets Clinical Innovation, 12 March 2025, Hyderabad

35. Mishra Abhay, ZHU Kexin, Dingkang Chen, Miao Yansong, Zehra Sadaqa, Ranjan Piyush, et alBatra Atul, Inampudi Krishna Kishore, Nikolajeff Fredrik, Kumar Saroj**,** Characterization of Plasma-Derived Small Extracellular Vesicles (sEVs) in Breast Cancer Patients Using Fourier-Transform Infrared (FTIR) Spectroscopy, AIIMS 4th Research Day, 30 January 2025, New Delhi

36. Nambiar S, Mishra S, Tripathi M, Chandra PS, Dixit AB, Banerjee J, Astrocytic Gap junctions and their Role in Microglial Activation in Focal Cortical Dysplasia, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 20 February 2025, New Delhi

37. Pandit Surabhi, Sharma Pradeep, Singh T.P, Sharma Sujata, Dual-Targeting Strategy: Lactoferrin for Simultaneous Inhibition of Multidrug Resistance and Biofilm Formation, 51st National Seminar on Crystallography (NSC51), 27 November 2024, Nagpur, Maharashtra

38. Pradhan Rashmita, Singh Kumar Abhinay, Kumari Sakshi, Yadav Yudhishthir, Dey AB, Dey Sharmistha, Serum FOXO3A: A potent marker for early diagnosis of Alzheimer's disease", AGI, 13 December 2024, New Delhi

39. Priya P, Srivastava A, Yadav N, Anand S, Mittal R, Banerjee J, et al, Unraveling the crosstalk: CK2 and Wnt signalling implications in Mesial Temporal lobe epilepsy, Neuroscience 2025 (*SfN*)**,** 5 October 2024, Chicago, USA

40. Priya P, Srivastava A, Yadav N, Anand S, Mittal R, Tripathi M, et al, CK2-Wnt/Beta-Catenin signalling interaction: Implications in Mesial Temporal lobe epilepsy, Indian Academy of Neuroscience (IAN-2024)**,** 12 November 2024, NIMHANS, Bengaluru

41. Priya P, Yadav N, Anand S, Mittal R, Dixit N, Banerjee J, et alTripathi M, Chandra PS, Dixit AB, Deciphering CK2-Wnt/β-Catenin signalling crosstalk in Mesial Temporal lobe epilepsy, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 20 February 2025, New Delhi

42. Rai Aishwarya, Sharma Sujata, Sharma Pradeep, Singh T.P, Sirvi Mahendra, Functional Characterization and in vitro studies of a novel Ribosome inactivating protein against cancer, EMBO Lecture Course-RNA-protein complexes: from molecular assembly to physiological functions and disease, 24 February 2025, Pune

43. Rai Sanskriti, Singh Rishabh, Singh Bharti Prahalad, Rajan Roopa, Kumar Saroj, A comparative study on plasma-derived small extracellular vesicles- and whole plasma-derived miRNAs as potential biomarkers for Parkinson's disease, ISEV2024: International Society for Extracellular Vesicles, Annual Meeting 2024, 12 May 2024, Melbourne, Australia

44. Rai Sanskriti, Zehra Sadaqa, Singh Rishabh, Dey Choudhury Saumitra, Kumar Saroj, Oxidative stress-induced alterations in extracellular vesicle (EV) membranes facilitate the sequestration of small amyloid-β aggregates: A new perspective on Alzheimer's disease progression, 5th chapter of the Science Conclave-cum-National Biomedical Research Competition-2024 (NBRCOM-2024), 1 December 2024, New Delhi

45. Rai Sanskriti, Zehra Sadaqa, Singh Rishabh, Singh Bharti Prahalad, Rajan Roopa, Kumar Saroj, Lipidomic Analysis of Plasma-Derived small extracellular vesicles (PsEVs) Reveals Dysregulated Sphingolipid Metabolism in Parkinson's Disease[1], Indian Extracellular Vesicles Society (IEVS) - VESICON 2025: Where Vesicle Science Meets Clinical Innovation, 12 March 2025, Hyderabad

46. Rai Sanskriti, Zehra Sadaqa, Singh Rishabh, Singh Prahalad Bharti, Rajan Roopa, Kumar Saroj, Small Extracellular Vesicles (sEVs)-Derived Lipids and miRNAs Regulate Sphingolipid Metabolism in Parkinson's Disease, AIIMS 4th Research Day, 29 January 2025, New Delhi

47. Saini A, Yadav S, Role of Multimerin1 in Ovarian Cancer and Angiogenesis: Decoding the Mystery, 15th Biennial Ovarian Cancer Research Symposium, 20 September 2024, Seattle, USA

48. Saini C, Yadav AK, Madhuri, Inampudi KK, Ethayathulla AS, Kumar M**,** Elucidation of role of Arg 228 of *Mycobacterium tuberculosis* isocitrate lyase to identify drug leads for new class tuberculosis drugs, EMBO Workshop on Host and pathogen heterogeneity in tuberculosis, CCMB, Hyderabad, 09 February 2025*,* Hyderabad

49. Saini C, Yadav AK, Madhuri, Inampudi KK, Kumar M, Discovery of potential lead molecules among antibacterial compounds to shorten the treatment duration of tuberculosis, 51st National Seminar on Crystallography: Crystallography in drug design and Pharmaceutical, VNIT, Nagpur, 27 November 2024*,* Nagpur

50. Saini C, Yadav AK, Madhuri, Inampudi KK, Kumar M**,** Exploring the Role of Glu166 at Interdimer Interface in Oligomerization and Catalytic Function of a Isocitrate Lyase of *M. tb*, 4th Research Day, AIIMS, 2025, 28 January 2025*,* New Delhi

51. Saini C, Yadav AK, Madhuri, Inampudi KK, Kumar M, Identification of potential lead molecules among antibacterial compounds to shorten the treatment duration of tuberculosis, International Workshop on New Approaches to Discover VaccineVaccines and Drugs for Infectious Diseases, ICGEB, Delhi, 2 December 2024*,* New Delhi

52. Shanker OR, Kumar S, Banerjee J, Tripathi M, Chandra PS, Siraj F, et al, Phosphorylated protein tyrosine kinase 2 exhibits altered expression in a region-specific manner in temporal lobe epilepsy, Federation of European Neuroscience Society (FENS 2024)**,** 25 June 2024, Vienna, Austria

53. Shanker OR, Kumar S, Banerjee J, Tripathi M, Chandra PS, Siraj F, et al, Region-specific alterations in phosphorylated protein tyrosine kinase 2 expression in temporal lobe epilepsy: A potential therapeutic target, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 20 February 2025, New Delhi

54. Sharma A, Dixit AB, Tripathi M, Chandra PS, Sharma MC, Banerjee J, Platelet dysregulation in drug-resistant epilepsy: Insights into seizure pathogenesis, Asian & Oceanian Epilepsy Congress**,** 20 February 2025, New Delhi

55. Sharma A, Dixit AB, Tripathi M, Doddamani R, Sharma MC, Chandra PS, et alBanerjee J, Platelet-mediated release of Serotonin contributes to Hyperexcitability in Drug-Resistant Epilepsy, AIIMS Research Day**,** 29 January 2025, New Delhi

56. Sharma Sanchit, Baswal Kamal, Mohan Anant, Singh Malik Prabhat, Kumar Saroj, Sri Krishna Gour Surya, et alInampudi Krishna K**,** Comprehensive Untargeted Proteomic Profiling of Plasma-Derived Exosomes in Non-Small Cell Lung Cancer, Indian Extracellular Vesicles Society (IEVS) - VESICON 2025: Where Vesicle Science Meets Clinical Innovation, 11 March 2025, Hyderabad

57. Singh Bharti Prahalad, Rani Komal, Singh Rishabh, Rai Sanskriti, Kumar Saroj,* Advancing sEV Translational Research: An Efficient Isolation Method with Comparative Analysis, Indian Extracellular Vesicles Society (IEVS) - VESICON 2025: Where Vesicle Science Meets Clinical Innovation, 11 March 2025, Hyderabad

58. Singh Deepa, Kumar Vikas, Inampudi Krishna K**,** Identification of Guanine-quadruplex forming DNA Aptamer: A promising Therapeutic Strategy against EGFR for epidermal originated cancers, Max Cancer Congress 2024, 21 September 2024, Mumbai

59. Singh Deepa, Kushwaha Tushar, Inampudi Krishna K**,** Interaction of SCoV-2 NSP7 or NSP8 alone with NSP12 causes constriction of the RNA entry channel: Implications for novel RdRp inhibitor drug discovery, Non-coding RNA World (NcRNA) 2024: Exploring Mechanisms, Designing Medicines, 7 October 2024, Basel, Switzerland

60. Singh Kumar Abhinay, Kumari Sakshi, Renu KM, Batra Atul, Upadhaya Ashish Datt, Dey Sharmistha**,** Inflammatory cytoskeleton signalling regime proteins: A potential circulatory marker for metastatic breast cancer, IABS, 11 February 2025, Bhopal.

61. Singh Kumar Abhinay, Pradhan Rashmita, Dey A. B, Dey Sharmistha, Serum Level of Seven Sirtuins in Alzheimer's Disease: A potential blood-based Biomarker, AGI, 13 December 2024, New Delhi

62. Singh Rishabh, Rai Sanskriti, Singh Bharti Prahalad, Chatterjee Prashun, Kumar Saroj, Plasma-Derived Small Extracellular Vesicles in Alzheimer's Disease Progression: Insights into Synaptic Dysfunction and Neuroinflammation, ISEV2024: International Society for Extracellular Vesicles, Annual Meeting 2024, 9 May 2024, Melbourne, Australia

63. Singh Rishabh, Rai Sanskriti, Singh Bharti Prahalad, Chatterjee Prasun, Kumar Saroj,* Proteomic Analysis of Small Extracellular Vesicles reveals Biomarker and Pathways in Alzheimer's Disease, Indian Extracellular Vesicles Society (IEVS) - VESICON 2025: Where Vesicle Science Meets Clinical Innovation, 11 March 2025, Hyderabad

64. Singh Rishabh, Rai Sanskriti, Singh Bharti Prahalad, Chatterjee Prasun, Kumar Saroj, Proteomic Profiling of Small Extracellular Vesicles for Biomarker Discovery in Alzheimer's Disease Progression, AIIMS 4th Research Day, 29 January 2025, New Delhi

65. Tanwar Mansi, Singh Anamika, Dev Arundhati, Meetu, Singh Tej Pal, Sharma Sujata, et alSharma Pradeep, Prakash Chandra, Exploring the potential of Pteroic acid against Mucormycosis: A structure-based drug discovery approach, IFBNS 2024: Indo – FrenchIndo–French Biomolecular NMR Winter School, 14 December 2024, Guwahati, Assam

66. Tomar AK, Thapliyal A, Naglot S, Dhiman S, Datta SK, Singh N, Sharma JB, Yadav S, et al, Dysregulated sperm miRNAs impair sperm quality and early embryonic development in idiopathic recurrent pregnancy loss, IABS-North Zone (Delhi Chapter), 5 August 2024, AIIMS New Delhi Vaccine and Drugs for Infectious Diseases, ICGEB, Delhi, 3 December 2024*,* New Delhi

67. Vats N, Kumar V, Tomar AK, & Yadav S, Mechanistic Insights into the synergistic action of Sesamolin and Cisplatin in Ovarian Cancer, 4th AIIMS Research Day, 28th January 2025, New Delhi

68. Vats N, Kumar V, Tomar AK, & Yadav S, Sesamolin: A promising adjuvant to enhance Cisplatin efficacy in Ovarian Cancer Award: Best e-Poster Presentation, South Zone Conference of Association of Clinical Biochemists of India, 24 January 2025, JIPMER, Puducherry

69. Vats N, Kumar V, Tomar AK, & Yadav S, Sesamolin: An anti-tumor plant compound in Ovarian Cancer, International Pharmacology Conference-54th Annual Conference of Indian Pharmacological Society, 28 November 2024, AIIMS, New Delhi

70. Vats N, Kumar V, & Yadav S, Anti-tumor potential of Sesamolin in Ovarian Cancer, IABS North Zone, 5 August 2024, AIIMS, New Delhi

71. Yadav AK, Madhuri, Saini C, Ethayathulla AS, Inampudi KK, Kumar M**,** Identification of novel class of inhibitors of shikimate

72. Yadav AK, Madhuri, Saini C, Inampudi KK, Ethayathulla AS, Kumar M**,** Discovery of novel class of inhibitors of *Mycobacterium tuberculosis* shikimate kinase to combat multidrug-resistant tuberculosis, 4th Research Day, AIIMS, 2025, 28 January 2025*,* New Delhi

73. Yadav AK, Madhuri, Saini C, Inampudi KK, Kumar M, Identification of potential lead compounds against Shikimate

74. Yadav N, Anand S, Kumar K, Priya P, Banerjee J, Lalwani S, Sharma MC, Siraj F, Tripathi M, Chandra PS, Dixit AB.et al, Pathology-specific lipid alterations with triacylglycerol as a potential biomarker in Focal cortical dysplasia (FCD) and Mesial temporal lobe epilepsy with hippocampal sclerosis (MTLE-HS), Indian Academy of Neuroscience (IAN), 12 November 2024, NIMHANS, Bengaluru

75. Yadav N, Priya P, Anand S, Dixit N, Mittal R, Banerjee J, Dixit ABet al, The role of the Fibronectin1-Src kinase pathway in modulating excitatory synaptic transmission in Temporal lobe epilepsy, Neuroscience 2025 (SFN)**,** 5 October 2024, Chicago, USA

76. Yadav N, Priya P, Dixit N, Anand S, Mittal R, Banerjee J, Tripathi M, Chandra PS, Dixit ABet al, Fibronectin1-Integrin-Src kinase axis mediated alterations in EEG in a rodent model of temporal lobe epilepsy, 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025)**,** 20 February 2025, New Delhi

77. Yadav Yudhishthir, Rai Nitish, Kumari Sakshi, Ashar Suhail, Dey AB, Dey Sharmistha, Sestrin levels in patients diagnosed with Alzheimer's disease and mild cognitive impairment: A potential serum marker, AGI, 13 December 2024, New Delhi

78. Zehra Sadaqa, Rai Sanskriti, Rani Komal, Nikolajeff Fredrik, Kumar Saroj , Stress-mediated changes in Extracellular vesicles scaffold sequesters small amyloid-β aggregates: A novel insight into Alzheimer's Disease Progression, Indian Extracellular Vesicles Society (IEVS) - VESICON 2025: Where Vesicle Science Meets Clinical Innovation, 12 March 2025, Hyderabad

ORAL/POSTER PRESENTATIONS OVER PAST 3 YEARS

Presentation	2022-2023	2023-2024	2024-2025
Oral/poster	41	74	78

RESEARCH

Funded projects

Ongoing

1. A case-control study to develop "Exosomes-based Molecular Signature" of Parkinson's Disease, Dr Saroj Kumar ICMR, 3 Years, 2023-2026, Rs 84.68 Lakhs

2. A multi-omics study and development of a prognostic computational model for COVID-19 to correlate clinical outcomes and disease sequelae with the differential immunological response, mutational and vaccination status in India, Professor Punit Kaur, ICMR, 3 Years, 2022-2025, Rs 94 Lakhs

3. Advance center for clinical evaluation of Diagnostics of National Importance: sMARSA (sensitive Magnetic Assisted nano-particle Rapid Sandwich Assay) for Alpha-Synuclein: Validation of cartridge-based ELISA for quantification of alpha-Synuclein in serum, Professor Hariprasad. G, ICMR, 3 Years, 2024-2027, Rs 60 Lakhs

4. AMR-Educate: A multinational and interdisciplinary research-integrated education partnership for a sustainable future against infection and antimicrobial resistance threats, Professor Punit Kaur, The Norwegian Directorate for Higher Education and Skills under Norwegian Ministry of Education and Research, 3 Years, 2023-2026, Rs 31 Lakhs

5. Beyond Symptoms: Exosomes-Based Innovative Method for Early Parkinson's Disease Detection- From Lab to Community-Based Screening, Dr Saroj Kumar, ICMR, 3 Years, 2024-2027, Rs 265.48 Lakhs

6. Calcium permeable ion channels as therapeutic targets to manage chronic pain, Dr Jyotirmoy Banerjee, DBT, 3 Years, 2024, 2026, Rs 40 Lakhs

7. Connecting pathogenesis to Calcium signalling in protozoan parasite E histolytica, Dr Krishna K Inampudi (PI at AIIMS), DBT, 3 Years, 2023-2026, Rs 82 Lakhs
8. Deciphering alterations in synaptic and extra-synaptic GABAA receptor configuration and their role in modulation of GABAergic activity in Focal Cortical Dysplasia (FCD, Dr Jyotirmoy Banerjee, Early Career Institute Research Grant, AIIMS, New Delhi, 2 Years, 2024-2026, Rs 10 Lakhs
9. Deciphering the contribution of proestrous-estrous transition to seizure susceptibility in drug-resistant epilepsy pathologies, Dr. Jyotirmoy Banerjee, DBT, 3 Years, 2024-2027, Rs 69.70 Lakhs
10. Deciphering the role of platelets in drug-resistant epilepsy, Dr Jyotirmoy Banerjee, ICMR, 3 Years, 2023-2026, Rs 43 Lakhs
11. Design, synthesis, and biological evaluation of mechanism-based novel theranostic agents for Alzheimer's disease, Dr. Saroj Kumar, SERB/DST, 3 Years, 2023-2026, Rs 44.22 Lakhs
12. Designing novel inhibitory molecules to quench quorum sensing in Gram-negative bacteria, Professor Punit Kaur, ICMR, 3 Years, 2023-2026, Rs 49.08 Lakhs
13. Development of Alternative Supplements to Breastmilk: A Comparative Study of Cow, Mare and Camel Colostrum on Gut Microbiota and Immunomodulation, Dr. Pradeep Sharma, ICMR, 3 Years, 2024-2027, Rs 95.70 Lakhs
14. Development of exosome-based drug delivery system for naturally inspired novel multifunctional neuroprotective molecules and their biological evaluation in Alzheimer's disease models, Dr. Saroj Kumar, ICMR, 3 Years, 2023-2026, Rs 55.59 Lakhs
15. Discovery of lead compounds among natural products to target isocitrate lyase of Mycobacterium tuberculosis, Dr Manoj Kumar, AIIMS, 2 Years, 2024-2026, Rs 10 Lakhs
16. Dissecting the potential molecular signature by proteomics and metabolomics in predicting the clinico-radiological course of cerebral edema following traumatic brain injury, Dr. Krishna K Inampudi (PI at Department), ICMR, 3 Years, 2024-2027, Rs 85 Lakhs
17. ECM proteins as blood-based biomarkers and therapeutic target for Alzheimer's disease, Professor Sharmistha Dey, ICMR, 3 Years, 2023-2026, Rs 58 Lakhs
18. Exosomes in Health: Isolation, Characterization and Biomedical Application, Dr Saroj Kumar, DHR, 5 Years, 2024-2029, Rs 75 Lakhs
19. Exploring the Structure Function Interrelationships of Type-1 and Type-2 Ribosome Inactivating Proteins (RIPs) from Iris Bulbs for Anti-tumor Activity, Professor Sujata Sharma, ICMR, 3 Years, 2023-2026, Rs 35.65 Lakhs
20. G-Quadruplex-forming DNA Aptamers against human EGFR as an alternative therapeutic approach for epidermal carcinomas, Dr. Krishna K Inampudi, SERB, 3 Years, 2023-2026, Rs 44 Lakhs
21. Harmonized Diagnostic Assessment of Dementia (DAD) for Longitudinal Aging Study of India (LASI). Wave2, Professor Sharmistha Dey, NIH(RO1), 4 Years, 2022-2026, Rs 60.52 Lakhs
22. Harmonized Diagnostic Assessment of Dementia (DAD) for Longitudinal Aging Study of India (LASI). Wave1, Professor Sharmistha Dey, NIH(RO1), 4 Years, 2021-2026, Rs 42.47 Lakhs
23. Identification and validation of potent small molecule inhibitor/s targeting sialin for endothelial dysfunction in atherosclerosis, Professor. Savita Yadav (Mentor), DHR Women Scientist project, 3 Years, 2024-2027, Rs 61 Lakhs
24. Identification of mitochondria-related proteins as plausible biomarkers and therapeutic targets in Alzheimer's disease, Professor Sharmistha Dey, DHR, 3 Years, 2023-2026, Rs 58 Lakhs
25. Identification of novel drug molecules against a lethal angioinvasive disease, mucormycosis, Dr. Pradeep Sharma, ICMR, 4 Years, 2023-2026, Rs 30.10 Lakhs
26. Identification of Novel RdRp Inhibitors: Targeting RNA-Dependent RNA Polymerase of Dengue for Antiviral Strategies, Dr. Krishna K Inampudi PI Mentor, AIIMS UG Mentorship Research Grant, 2 Years, 2025-2027, Rs 2 Lakhs
27. Identification of the early candidate biomarkers of oral cancer from the saliva exosomal proteome, Dr. Krishna K Inampudi PI Mentor, AIIMS UG Mentorship Research Grant, 2 Years, 2022-2024, Rs 2 Lakhs

28. Identifying dysregulation of miRNAs and their targets in idiopathic recurrent pregnancy loss, Professor Savita Yadav, ICMR, 3 Years, 2022-2025, Rs 50 Lakhs
29. Integrative Proteomics and Metabolomics Analysis of Plasma and Exosomes for Early Diagnosis of Non-Small Cell Lung Cancer, Dr Krishna K Inampudi, ICMR, 3 Years, 2024-2027, Rs 85 Lakhs
30. Investigating altered subunit configuration of glutamate receptors in Focal Cortical Dysplasia, Dr Jyotirmoy Banerjee, Post Graduate Thesis Scheme, AIIMS, New Delhi, 2 Years, 2024-2026, Rs 2 Lakhs
31. Modulators of α4-containing GABAA receptors: Potential therapy for focal cortical dysplasia (FCD, Dr Jyotirmoy Banerjee, ICMR, 3 Years, 2024-2027, Rs 93.50 Lakhs
32. National Network Project of Department of Biotechnology, IIT Roorkee, Dr Pradeep Sharma, DBT, 5 Years, 2023-2028, Rs 55 Lakhs
33. OH-AMR-Diag: Novel technological solutions for rapid detection and screening of AMR from a One-Health perspective, Professor Punit Kaur, Research Council of Norway, 3 Years, 2024-2027, Rs 35 Lakhs
34. Preclinical Assessment of a novel Tyrosine Kinase Inhibitor, KKI04 as a Promising Therapeutic Agent for Non-Small Cell Lung Cancer (NSCLC) using Mice xenograft model, Dr Krishna K Inampudi, ICMR, 3 Years, 2024-2027, Rs 63 Lakhs
35. Screening of green tea antioxidants to reactivate anti-cancer activity of mutant p53 in breast cancer cell lines, Professor Ethayathulla, ICMR, 3 Years, 2023-2025, Rs 33.43 Lakhs
36. Serum proteomics for the identification of biomarkers to flag predilection of COVID-19 patients to various organ morbidities, Professor Hariprasad. G, ICMR, 3 Years, 2022-2025, Rs 35 Lakhs
37. Single cell-type RNA Sequencing to delineate astrocyte and neuronal specific alterations in patients with Focal Cortical Dysplasia (FCD) and Temporal Lobe Epilepsy (TLE), Dr Jyotirmoy Banerjee, AIIMS Interdisciplinary Collaborative Intramural Research Project, AIIMS, New Delhi, 2 Years, 2023-2025, Rs 20 Lakhs
38. Structural Insights into Mycobacterium tuberculosis Multidrug Transporter, Dr Uddipan Das, DBT, 3 Years, 2024-2027, Rs 40 Lakhs
39. Structural studies of mammalian innate immunity proteins and microbial proteins and drug design, Professor T.P. Singh, INSA, 1 Year, 2024-2025, Rs 5 Lakhs
40. Structure-based design of lead compounds against a novel drug target for the treatment of multi-drug resistant Tuberculosis, Dr Manoj Kumar, ICMR, 3 Years, 2021-2024, Rs 24 Lakhs
41. Structure-based design of lead compounds targeting persistent *Mycobacterium tuberculosis* to shorten the treatment duration, Dr Manoj Kumar, ICMR, 3 Years, 2022-2025, Rs 30 Lakhs
42. Study of circulatory level of serum proteins in inflammatory and anti-oxidative pathways in Alzheimer's disease for the establishment of potential biomarker and therapeutic target, Professor Sharmistha Dey, ICMR, 3, 2021, 2025, Rs 84 Lakhs
43. To determine and compare the adjuctive effect of photobiomodulation with 940nm diode laser on maximal interincisal mouth opening versus conventional non-invasive management in moderate oral submucous fibrosis: A blinded multiple-arm, randomized, controlled trial, Professor Savita Yadav, Intramural collaborative research project, 2 Years, 2024-2026, Rs 20 Lakhs

Completed

1. Cross-talk between exosomes and autophagy in Alzheimer's disease, Dr. Saroj Kumar, DHR, 3 Years, 2021-2024, Rs 49.46 Lakhs
2. Exploring novel molecules as therapeutic target for the prevention of Alzheimer's diseases, Professor Sharmistha Dey, ICMR, 4 Years, 2020-2024, Rs 67 Lakhs
3. Exploring the action of a potent antifungal protein lactoferrin and its derived functional fragments for the therapeutics of mucormycosis, Professor Sujata Sharma, SERB, 3 Years, 2021-2024, Rs 38.10 Lakhs
4. Exploring the potential of exosomal miRNA as novel biomarker targets of Parkinson's disease, Dr Saroj Kumar, AIIMS New Delhi (Early Career Intramural Research Grant), 2 Years, 2023-2025, Rs 10 Lakhs
5. Functional characterization of human multimerin 1 (in- vitro and in –vivo) and identification of its inhibitors as potential therapeutic target/s in ovarian, Dr. Savita Yadav, SERB, 3 Years, 2021-2024, Rs 54 Lakhs

6. Mechanistic understanding of Parkinson's disease and developing an early screening method, Dr Saroj Kumar, DHR, 3 Years, 2021-2024, Rs 33.95 Lakhs
7. Proteomic analysis of p53Y220C mutant with potential ligand curcumin and its analogs in Non-Small-Cell Lung/ adenocarcinoma, Professor Ethayathulla, Additional Prof, AIIMS-Intramural, 2 Yesars, 2022-2024, Rs 9.80 Lakhs
8. Rational structure-based ligand design for developing the antibacterial agent against the CoA synthetic pathway in drug resistance bacteria, Acinetobacter baumannii, Professor Sujata Sharma, ICMR, 3 Years, 2021-2024, Rs 45.84 Lakhs
9. Rational structure-based ligand design for developing the novel antibacterial agents against proteins involved in the Histidine biosynthesis pathway in Acinetobacter baumannii, Dr. Pradeep Sharma, ICMR, 3 Years, 2021-2024, Rs 29.48 Lakhs
10. Reverse pharmacology and multi-target approach for designing of novel therapeutics and candidates for COVID-19, Professor. Punit Kaur, ICMR, 2 Years, 2022-2024, Rs 66.80 Lakhs
11. Screening of therapeutic p53 activator molecules to restore the function of p53 oligomerization domain mutants in breast cancer, Professor Ethayathulla, Additional Prof, DHR, 3 Years, 2020-2024, Rs 31.70 Lakhs
12. Structural and functional studies of Mycobacterial Toxin-antitoxin systems, Dr. Uddipan Das, SERB Government of India, 3 Years, 2021-2024, Rs 56 Lakhs
13. Structural and functional studies of Mycobacterium tuberculosis peptidyl-tRNA hydrolase: A novel drug target of multidrug resistant Tuberculosis, Dr Krishna K Inampudi, DBT, 3 Years, 2021-2024, |Rs 68 Lakhs
14. Structure and function studies of peptidoglycan recognition proteins from innate immune system**,** Professor TP Singh**,** SERB/ANRF**,** 5 Years**,** 2020-2025**,** R**s** 141 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. Atherosclerotic Cardiovascular disease: unravelling the early biomarkers from biofluid exosomes by iTRAQ based quantitative proteomics.
2. Blood and tissue metabolome profiling for early biomarker discovery in Oral Squamous Cell Carcinoma patients
3. Characterization and sequencing analysis of exosomes miRNA from biofluids of Coronary Artery Disease.
4. Cloning, recombinant expression and purification of human PI3K γ in bacterial system
5. Development of digital ELISA diagnostics to monitor therapeutic efficacy of pharmacological interventions in dopamine dictated states of Parkinson's disease and schizophrenia
6. Development of potent inhibitors against drug-resistant EGFR kinase for the treatment of EGFR positive tumors.
7. Development of potent inhibitors for RdRP and PLprotease from SARS-CoV2.
8. Development of screening method & evaluate the efficacy of novel drugs for Alzheimer's Disease
9. Discovery of potential lead compounds targeting Mycobacterium tuberculosis Shikimate kinase to combat multi-drug resistant tuberculosis
10. Drug Discovery and antiviral inhibitors against viral non-structural proteins.
11. Exploring novel molecules as therapeutic target for the prevention of Alzheimer's diseases
12. Exploring the role of Mitochondria related proteins in the pathogenesis of Alzheimer's Disease and their potential as Therapeutic Agents.
13. Expression analysis of selected miRNAs in idiopathic Recurrent Pregnancy Loss (iRPL)
14. Identification of DNA Aptamers against human sEGFR to treat lung cancer.
15. Identification of potential biomarkers for NSCLC using genomic and proteomic approaches.
16. Inhibiting invasion of Streptococcus pneumoniae using engineered peptides through mRNA display technology.
17. Investigating altered subunit configuration of glutamate receptors in Focal Cortical Dysplasia
18. Investigating the Impact of Extracellular Matrix Proteins on Alzheimer's Disease Progression: From Diagnostic to Potential Therapeutic Targets'

19. Investigating the mechanisms involved in regulation of glutamate receptor function in neuropathic pain.
20. Investigating the role of platelet-mediated release of histamine in altered synaptic activity associated with focal cortical dysplasia (FCD)
21. Potential role of Klotho as a blood-based biomarker and its therapeutic importance in breast cancer by targeting miRNA
22. Preclinical Assessment of a novel Tyrosine Kinase Inhibitor, KKI04 as a Promising Therapeutic Agent for Non-Small Cell Lung Cancer (NSCLC) using Mice xenograft model
23. Structural and functional studies of amino acid transport in Mycobacterium tuberculosis.
24. Structural and functional studies of p53 oligomerization mutant R337 in human cancer
25. Structural and functional studies of Mycobacterium tuberculosis peptidyl-tRNA hydrolase: A novel drug target of multidrug resistant Tuberculosis.
26. Structural and functional study of Malate synthase of Mycobacterium tuberculosis
27. Structural based drug design and inhibitor binding studies of *nsp12*-RNA dependent RNA polymerase enzyme of SARS-CoV-2 using flavonoid based scaffold as template
28. Structural studies of Multidrug transporters from Mycobacterium tuberculosis
29. Structure based design of nanobody inhibitors against EGFR: A Protein engineering approach to develop novel therapeutics for lung cancer.
30. Structure -guided development of novel anti-cancer moleucles targeting aurora kinases
31. Structure-based design of small-molecule stabilizer to reactivate the oncogenic mutant p53Y220C
32. Study of Therapeutics Potential of Mesenchymal Stem Cell- Derived Exosomes in Alzheimer's disease
33. Study to evaluate the potential of small non-coding RNAs as biomarker targets for Parkinson's disease
34. To investigate cross-talk between α7 nicotinic receptor and glutamate receptor function in neuropathic pain.
35. To investigate the role of NLRP3 inflammasome-mediated pyroptosis in the altered GABAA receptor function in focal cortical dysplasia (FCD)
36. To study the effect of platelet-derived extracellular vesicles (PEVs) on neuroinflammation and synaptic activity in drug-resistant epilepsy (DRE) pathologies.
37. Unraveling the exosomal and infrared based biomarker for early detection of breast cancer

Completed

1. Analysis of Anti-neurotoxicity of Amyloid beta (Aβ) in Alzheimer's disease (AD) pathology targeting Lipoxygenases
2. Comparative proteomic analysis of advanced ovarian cancer tissue to identify potential biomarkers of responders and non-responders to first line chemotherapy of carboplatin and paclitaxel
3. Comparative proteomic analysis to identify potential Biomarkers during the transformation of premalignant oral conditions to malignant oral squamous cell carcinoma
4. Elucidate the role of Semaphorin in epileptogenesis and hyperexcitability associated with temporal lobe epilepsy.
5. Proteomics of CSF and serum for the identification of protein signatures in dopamine dictated states of Parkinson's disease and Schizophrenia
6. Serum proteomics for the identification of biomarkers to flag predilection of COVID-19 patients to various organ morbidities
7. Structural analysis of human Phospholipase A2 mutations: Implication on enzyme function and understanding clinical scenarios
8. Structural and functional characterization of p53 tetramerization mutants
9. Structural and functional characterization of RNA dependent RNA polymerase (nsp12) from SARS-COV-2: Implications for the design of potent drug candidates against COVID-19
10. Structural and functional studies of amino acid transport in Mycobacterium tuberculosis.

11. Structural and Functional Studies of FtsZ cell division protein as a potential drug target against Salmonella Typhi.
12. Structural and functional studies of Mycobacterial Toxin-antitoxin systems
13. Structural and Functional studies of Mycobacterium Tuberculosis Peptidyl tRNA hydrolase – A Novel drug target of Multidrug Resistance Tuberculosis
14. Structural modeling of Phosphatidylinositol 3-kinase with stilbenoids and its analogues to develop potent inhibitory molecules against the enzyme drug target
15. Study of exosomal lipid content in Parkinson's disease and Amyloid beta association with exosomes
16. To evaluate the combined effect of insulin growth factor, transforming growth factor and fibroblast growth factor on growth of cardiac progenitor stem cells
17. Understanding age-dependent dysmaturity of cerebral cortex in cortical dysplasia
18. Understanding of Parkinson's disease pathogenesis by using plasma-derived biomarkers

Collaborative projects

Ongoing

1. A case-control study to investigate gut microbiota dysbiosis in drug-refractory epilepsy patients using whole-metagenomic shotgun sequencing, Department of Neurology, AIIMS, New Delhi Funded by Department of Health Research (DHR), Ministry of Health and Family Welfare, Govt. of India
2. A comparative study to evaluate the alkaline phosphatase level and implant stability quotient in immediate implants placed by using socket shield technique and conventional technique in the maxillary anterior region – a randomized controlled trial, Department of Prosthodontics and Crown Bridge, Center for Dental Education & Research, AIIMS, New Delhi
3. An observational study to investigate the gut microbiota composition of patients with drug-resistant epilepsy, Department of Neurology, AIIMS, New Delhi Funded by AIIMS Interdisciplinary Collaborative Intramural Research Project, AIIMS, New Delhi.
4. Analysis of Fourier-transform Infrared Spectroscopy in Pancreatic Neuroendocrine Tumor Patients, Department of Anatomy, AIIMS, New Delhi
5. Connecting pathogenesis to Calcium signalling in protozoan parasite E. histolytica, Multidisciplinary Centre for Advanced Research and Studies, Jamia Millia Islamia, New Delhi-110025
6. Deciphering the oncogenic network of USP37 (USP37) in ovarian cancers and identification, validation of novel molecular target, Department of Medical Oncology, AIIMS
7. Delineating the co-evolution of HIV-I broadly neutralizing antibodies and circulating viruses in mono-zygotic twins pediatric elite-neutralizers, Department of Biochemistry, AIIMS
8. Development of screening method & evaluate the efficacy of novel drugs for Alzheimer's Disease, Department of Geriatric Medicine and Department of Neurology, AIIMS, New Delhi
9. Differentially expressed synaptic-activity-associated long non-coding RNAs (IncRNAs) in drug-resistant epilepsy (DRE), Department of Neurology, AIIMS, New Delhi. Funded by Intramural Grant (IRG), Research Section, AIIMS, New Delhi.
10. Dissecting the potential molecular signature by proteomics and metabolomics in predicting the clinico-radiological course of cerebral edema following traumatic brain injury, Department of Neurosurgery
11. Dissecting the potential molecular signature by proteomics and metabolomics in predicting the clinico-radiological course of cerebral edema following traumatic brain injury, CSIR-IICT, Hyderabad, India
12. Drug Discovery and antiviral inhibitors against viral non-structural proteins, Laboratory for Multidisciplinary Research in Virology, YRC, Yenepoya (deemed to be university),
13. Elucidation of role of steroidal and non-steroidal hormones on neuroinflammation in cortical dysplasia versus non-cortical dysplasia drug-resistant epilepsy, Dr BR Ambedkar Center for Biomedical Research, University of Delhi, Delhi. Funded by Department of Health Research (DHR), Ministry of Health and Family Welfare, Govt. of India
14. Evaluation of prophylactic effect of quercetin on renin-angiotensin-aldosterone axis under acute hypobaric hypoxic condition, DIPAS, DRDO, Delhi

15. Evaluation of therapeutic efficacy and mechanism of repetitive transcranial magnetic stimulation on the cognitive enhancement in hypobaric hypoxic environment, Department of Physiology, AIIMS, New Delhi Funded by Life Science Research Board (LSRB), DRDO, Govt. of India
16. Functional characterization of human Multimerin1 (in vitro and in-vivo) and identification of its inhibitors as potential therapeutic targets in ovarian cancer, Department of Biophysics, AIIMS
17. Identification and evaluation of novel proteins, inhibitors of apoptotic proteins, and exosomes in cases of pancreatic neuroendocrine tumors, Department of Anatomy, AIIMS, New Delhi
18. Identification of pathological and disease activity markers in Primary CNS Vasculitis, Department of Neurology, AIIMS, New Delhi
19. Identification of the early candidate biomarkers of oral cancer from the saliva exosomal proteome, Department of Otolaryngology, AIIMS, New Delhi
20. Identify the role of inhibitors of apoptotic proteins in respiratory neuroendocrine tumor, Department of Anatomy, AIIMS, New Delhi
21. IL6 biomarker level in sleep apnea patient after Mandibular advancement appliance and Cpap therapy, Department of Prosthodontics and Crown Bridge, Center for Dental Education & Research, AIIMS, New Delhi
22. Integrative Proteomics and Metabolomics Analysis of Plasma and Exosomes for Early Diagnosis of Non-Small Cell Lung Cancer, Medical Oncology, AIIMS, New Delhi
23. Integrative Proteomics and Metabolomics Analysis of Plasma and Exosomes for Early Diagnosis of Non-Small Cell Lung Cancer, Pulmonary Medicine and Sleep Disorders, AIIMS, New Delhi
24. Integrative Proteomics and Metabolomics Analysis of Plasma and Exosomes for Early Diagnosis of Non-Small Cell Lung Cancer, CSIR-IICT, Hyderabad, India
25. Pharmacological intervention of protein tyrosine kinase Pyk2 in Temporal Lobe Epilepsy rat model to evaluate its role in seizure susceptibility and synaptic plasticity, Dr BR Ambedkar Centre for Biomedical Research, ACBR, University of Delhi, Delhi. Funded by *by* Institute of Eminence (IoE), University of Delhi
26. Preclinical Assessment of a novel Tyrosine Kinase Inhibitor, KKI04 as a Promising Therapeutic Agent for Non-Small Cell Lung Cancer (NSCLC) using Mice xenograft model, Life Sciences, Shiv Nadar University, Noida
27. Preclinical Assessment of a novel Tyrosine Kinase Inhibitor, KKI04 as a Promising Therapeutic Agent for Non-Small Cell Lung Cancer (NSCLC) using Mice xenograft model, Department of Cellular and Molecular Medicine, University of Ottawa, Canada
28. Proteomic Profiling of Plasma-derived Exosomes of Pancreatic Neuroendocrine Tumor Patients, Department of Anatomy, AIIMS, New Delhi
29. Role of non-coding RNAs (ncRNAs) in clinicopathological classification and molecular perturbances associated with Focal Cortical Dysplasia (FCD), Department of Neurology, AIIMS, New Delhi Funded by Department of Biotechnology (DBT), Ministry of Science & Technology, Govt of India
30. Role of seipin protein in cholesterol transport, Department of Biotechnology, AIIMS, New Delhi
31. Structural studies of lipid transporter in Acinetobacter baumnii, University of Madras, Chennai
32. Structure-based design of lead compounds against a novel drug target for the treatment of multi-drug resistant Tuberculosis, Department of Biophysics, AIIMS
33. Study to evaluate the potential of small non-coding RNAs as biomarker targets for Parkinson's disease, Department of Neurology, AIIMS, New Delhi
34. Synthesis of inhibitors of malate synthase of *Mycobacterium tuberculosis*, IIT, Delhi
35. Synthesis of inhibitors of shikimate kinase of *Mycobacterium tuberculosis*, IIT, Delhi
36. To determine and compare the adjunctive effect of photobiomodulation with 940nm diode laser on maximal interincisal mouth opening versus conventional noninvasive management in moderate oral submucous fibrosis: A blinded multiple-arm, randomized, controlled trial. Department of oral medicine & Radiology, CDER, AIIMS, New Delhi

37. Understanding the QT prolongation risk of Imidacloprid and its metabolites using in vitro pharmacological studies, Department of Pharmacology, AIIMS, New Delhi Funded by Intramural Grant, Research Section, AIIMS, New Delhi.
38. Unraveling the exosomal and infrared based biomarker for early detection of breast cancer, Department of Pathology, Department of Surgical Disciplines, and Department of Medical Oncology BRA-IRCH, AIIMS, New Delhi

Completed

1. Clinical significance of proteomics in liquid biopsy for Indian breast cancer women: An exploratory study**,** Department of Surgery, AIIMS, New Delhi
2. Evaluation of salivary biomarkers as compared to established serum biomarkers in predicting pre –eclampsia: A nested case control study, Department of Lab Medicine, AIIMS, New Delhi
3. Screening of inhibitory molecules against KIFC1, KIF4A, KIF15 and KIF20A and evaluation of anticancer activity of the identified molecules on breast cancer cells, National Institute of Pathology, Delhi
4. Potential of quercetin as a diuretic agent at high altitude by targeting carbonic anhydrase II, DIPAS, DRDO, Delhi
5. Cryo-EM structure elucidation of Cucumber green mottle mosaic virus, IISER, Kolkata

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor TP Singh received Visiting Professorship award by the Indian Institute of Technology, Roorkey; Visiting Professorship Award of the State Maharaja Surajmal University of Bharatpur.

Professor Punit Kaur was Member, Task Force on 'Antimicrobial Resistance, Epidemiology and Communicable Diseases (ECD) Division, ICMR; Member, Expert Committee, Proposals under PM-ABHIM scheme – Bioinformatics, ICMR; External Member, Board of Studies, Department of Computational Sciences, Central University of Punjab, Bathinda; Expert Member, Syllabus Committee for DHR-ICMR Non-medical Fellowship-PhDNet.

Professor Savita Yadav received AIIMS Research Excellence Award (Third Prize); External member of the Departmental research committee, Department of Biosciences, Jamia Millia Islamia, New Delhi; Nominated as the external expert of the selection committee at CSIR-IICB Kolkata; Member, subcommittee, CCRF, Research section, AIIMS, New Delhi; Member, IBSC, IIT Roorkee; Member, Basic Science Project Review Committee to review the Early Career Intramural Project; External subject expert for the selection committee for the post of Assistant Professor in Department of Biotechnology,

Gautam Buddha University, Greater Noida, UP; PhD thesis evaluated: University of Delhi, New Delhi; Guru Govind Singh Indraprastha University, New Delhi; Panjab University, Chandigarh; M.S. University, Baroda.

Professor Sharmistha Dey was Elected as president in Association of Gerontology India (AGI) society; PhD thesis evaluated: BHU, Varanasi and Central University Rajasthan, Ajmer BHU, Varanasi and Central University Rajasthan, Ajmer; External subject expert for the selection committee for the post of JRF to SRF promotion in Dr BR Ambedkar Center for Biomedical Research New Delhi; Member, subcommittee, CCRF, Research section, AIIMS, New Delhi.

Dr Krishna K Inampudi was Events head at "VESICON 2025: Where Vesicle Science Meets Clinical Innovation" at Mahindra University, Hyderabad on 11th- 13th March 2025; Invited lecture on "Protein design and its applications" at Gdansk University of Technology Gdansk, Poland; Received the prestigious long-term ICMR-DHR International Fellowship for Young Indian Biomedical Scientists 2023-24 to visit Stanford University, USA; A commentary was published on our research article, 'Redefining NSP12 activity in SARS-CoV-2 and its regulation by NSP8 and NSP7, 'highlighting its importance in designing potential inhibitors against RNA viruses; Visiting scientist (2024 – 2025) at SLAC, Stanford University, USA.

Dr Saroj Kumar was Co-convener at "VESICON 2025: Where Vesicle Science Meets Clinical Innovation" at Mahindra University, Hyderabad on 11-13 March 2025; Invited speaker at "Indo-German Science and Technology Centre (IGSTC)" at Mahindra University, Hyderabad on 10th March 2025; Honorarium Lecture at "Chemistry for Energy, Environment and Biomedical Applications (CEEBA-2024)" at NIT Hamirpur on 17th -21st December 2024; Adjunct Professor (2021 – 2024) at Lulea Institute of Technology, Sweden. Teaching and Scientific visit as a visiting faculty at Lulea University of Technology, Sweden; AIIMS research shows Alzheimer's can be detected early: Why is this breakthrough significant?" The Indian Express 11th July 2024. https://indianexpress.com/article/health-wellness/hope-for-alzheimers-early-diagnosis-why-aiims-blood-test-could-be-a-gamechanger-9445783/; Adjunct Professor (2021 – 2024) at Lulea Institute of Technology, Sweden. Teaching and Scientific visit as a visiting faculty at Lulea University of Technology, Sweden.

Dr Jyotirmay Banerjee Received AIIMS Oncology Research Award under Basic Science Category at 4th AIIMS Research Day on 30 January 2025; Invited as a speaker & session chairperson at the 15th Asian & Oceanian Epilepsy Congress (AOEC- 2025) held in February 2025; Co-editor of the journal *Neurology India*; EC member of the Indian Epilepsy Society (IES); Received third prize in Hindi essay writing competition during Hindi month.

Dr Manoj Kumar was External expert in executive review board of project INM-324 at INMAS, DRDO, Delhi; Examiner to evaluate practical examination of Master of Bioinformatics students at GGS IP University, Delhi.

VISITING SCIENTIST

Dr Rafi Ahmad, Norway; Dr Balpreet Ahluwalia, Norway; Dr Shekhar, Mande, Vignana Bharti, Shashak Shekhar, Abhay Kumar Singh, Ishan Kumar Patro.

HIGHLIGHTS

The Department is currently engaged in two extramurally funded research projects. In addition, it collaborates with various Centers and Departments within the Institute, contributing to a total of 268 ongoing and 6 completed research projects. Faculty and scientists from the Department have contributed to 132 research publications in a wide range of peer-reviewed medical journals. Faculty members have also served as selection committee members for other institutes and universities. Faculty of the department hold editorial and scientific reviewer positions in both national and international medical journals across various specialties. Moreover, they have participated in multiple administrative and scientific committees within the Institute, served as invited members of scientific committees of the Indian Council of Medical Research (ICMR), and contributed their expertise to Data Safety Monitoring Boards (DSMBs) for national clinical trials.

EDUCATION

The educational activity of the Department encompasses a wide spectrum including undergraduate, paramedical and postgraduate courses, viz. MBBS, BSc(Hons.) in Medical Technology in Radiology, M. Biotech, BSc and MSc Nursing. Faculty members and scientists collaborate as Co-Guides and DC Members across various departments within the Institute offering guidance to students pursuing PhD, DM, MCh, MD/MS/MHA/MDS courses. The primary activities of the department involve both teaching and offering scientific statistical guidance. This guidance is extended to faculty, scientists conducting research (both funded and non-funded), as well as all medical and paramedical students working on their thesis/ dissertation. The department provides support from the initial planning stages through to the completion of report writing.

CMEs/Workshops/Symposia/National and International Conferences

Events organized by the Department

Nil

Lectures delivered at CMEs, National and International Conferences

Lectures Delivered: 14

M Kalaivani: 14

M Kalaivani

1. Hands-on for Creating Study Instruments and Sample Study Instrument Ready for Data Entry, Hands-on Workshop on Research Data Capturing using RED Cap, 9 April 2024, Delhi
2. Creating Study Instruments: Piping and Smart variables, Hands-on Workshop on Research Data Capturing using RED Cap, 9 April 2024, Delhi
3. Description of a Sample Study Instrument with Various Field Types and its Validation, Hands-on Workshop on Research Data Capturing using RED Cap, 9 April 2024, Delhi
4. Measures of effect and exploring heterogeneity, Systematic Reviews & Meta-analyses, 18 April 2024, Delhi
5. Meta analysis-Interpretation of findings (Forest plot, funnel plot, sensitivity analysis), Systematic Reviews & Meta-analyses, 19 April 2024, Delhi
6. Statistical models for systematic reviews and meta- analysis, Effect measures, Cochrane Reviews, 8 May 2024, Delhi

7. Introduction to Forest Plot, Cochrane Reviews, 8 May 2024, Delhi
8. Understanding meta-analysis outputs: Heterogeneity, Sub group analysis and Sensitivity Analysis, Cochrane Reviews, 9 May 2024, Delhi
9. Variables: Functional relationship, Levels of Measurement and Statistical Inference, type of Error and Power, PG Research Methodology Workshop, 13 November 2024, Delhi
10. Introduction to Basic Biostatistics, Data Analysis using SPSS, 18 December 2024, Delhi
11. Sample Size estimation for case-control studies, Workshop on Case-Control Studies – Design, methods and analysis, 21 January 2025, Delhi
12. Statistical Analysis Plan Matched case-control analysis & Logistic regression, Workshop on Case-Control Studies – Design, methods and analysis, 4 February 2025, Delhi
13. Data Analysis – Hands on session, Workshop on Case-Control Studies – Design, methods and analysis, 11 February 2025, Delhi
14. Probability distribution & sample size, Research Methodology, February 2025, Delhi

LECTURES DELIVERED OVER LAST 3 YEARS

2022–2023	2023–2024	2024–2025
1	15	14

List of oral papers/posters presented: 6

1. Kalaivani M, Singh Y, Varhlunchhungi V, Hemraj C, Gupta S K, Malhotra S et al, Secular trends in the prevalence of overweight and obesity from 2006-2022 among public and private school children and adolescents aged 6-19 years in Delhi, India, Obesitas Conference 2025, 2 March 2025, Delhi1
2. Chauhan SN, Kumaran S, Chatterjee B, Dhawan A, Sarkar S, Kalaivani M, Neuroimaging Insights into Opioid Cue Reactivity: Development of an fMRI Task Targeting Chasing as an Administration Route in Opioid Dependence, International Society for Addiction Medicine 2024 Congress, 8 September 2024, Istanbul
3. Gokhale A, Amudhan S, Jangam K, Kalaivani M, Tiwari HK, Bharti D, et al, Project SUMS (scaling up of mental health in schools): A pragmatic, cluster randomized trial on effectiveness of integrated school mental health intervention for adolescents in India, 5th IAPSM Young Leaders' National Conclave, 9 November 2024, Delhi
4. Purohit B, Priya H, Diang A, Duggal R, Nilima N, Chaturvedi Set al, Oral Health Predictors for Dietary Diversity among Adult Tobacco Users- A Comparative Study, 28th European Association of Dental Public Health conference 2024, 4 October 2024, Heraklion-Crete
5. RESEARCH

Funded projects

Ongoing

1. Strategic Multimodal Intervention in at-risk Elderly Indians for Prevention of Dementia (SMRUTHI INDIA): A cohort multiple randomized controlled trial (cmRCT), Dr M A Khan, ICMR, 4 Years, 2022-2025, Rs 10 Lakhs

1. Third Prize

2. Development of longitudinal growth reference and assessment of growth velocity, cardio metabolic measures and its correlation among children in India– A prospective study, Dr M Kalaivani, ICMR, 3.3 Years 2021-2025, Rs 93.4 Lakhs

Completed

NIL

Departmental projects (including thesis/dissertations)

Ongoing

NIL

Completed

Collaborative Projects:

Ongoing

1. 200-cm Vs 150-cm Biliopancreatic limb in single anastomosis sleeve jejunal bypass surgery for obesity: A phase II randomized controlled trial, Department of Surgical Disciplines
2. A comparative proteomics and metabolomics study of Idiopathic pulmonary fibrosis (IPF) and Post-COVID pulmonary fibrosis (pCPF) to identify new pathological and therapeutic pathways, Department of Pulmonary, Critical Care and Sleep Medicine
3. A comparison of effect of desflurane vs sevoflurane on arterial oxygenation during one lung ventilation for thoracotomies in onco-surgical patients: - A randomized control trial, Department of Onco-anaethesia
4. A comparison of modulating effect of cTBS and low frequency rTMS on cortical excitability in children and adolescents aged 5-14 years with lesional drug refractory Epilepsy (Focal epilepsy or electrical status epilepticus in sleep) : An open label randomized non-inferiority crossover study, Department of Pediatrics
5. A cross-sectional study on factors associated with hospital readmission within 90 days of discharge in older adults with age more than 65 years, Department of Geriatric Medicine
6. A cross-sectional study to assess the functional status in post COVID infected persons and symptoms in long COVID patients, Department of Medicine
7. A cross-sectional study to assess the quality-of-life impairment in children and adolescents with vitiligo and their primary care givers and comparison of prevalence of depression, anxiety and low self-esteem in children and adolescents with vitiligo as compared to age and sex matched healthy controls, Department of Dermatology & Venereology
8. A cross-sectional study to assess the severity of neurogenic bowel dysfunction, quality of life, functional status and whole bowel transit in spinal cord injury, Department of Physical Medicine and Rehabilitation
9. A cross-sectional study of patient reported quality of life and cognitive impairment in patients with gastrointestinal stromal tumor, Department of Medical Oncology
10. A double-blind, Randomized, Placebo-Controlled Trial Assessing Ocimum Sanctum Extract As Adjuvant Therapy in Persons with Drug-Resistant, Department of Pharmacology
11. A non-randomized control trail to study the effect of metformin as compared to 20% calorie restriction in elderly individuals with early diabetes, Department of Geriatric Medicine
12. A phase II randomized controlled trial comparing pectoralis major myocutaneous flap outcomes using conventional and indocyanine green angiography technique in oral cancers, Department of Surgical Oncology
13. A phase II randomized controlled trial comparing pulmonary complications in retrosternal vs posterior mediastinal gastric conduit placement in patients undergoing esophagectomy, Department of Surgical Oncology
14. A preliminary study to validate BM-AspICU algorithm for diagnosing invasive pulmonary aspergillosis in critically ill mechanically ventilated patients using post-mortem minimally invasive tissue sampling, Department of Medicine
15. A prospective cohort study to evaluate the feasibility and accuracy of fetal Vibroacoustic stimulation as a tool for prenatal hearing screening, Department of Otorhinolaryngology

16. A prospective observational study on sensory changes: analyzing paresthesia/hypoesthesia in the neck & anterior chest following endoscopic thyroidectomy via axillo-breast & bilateral axillo-breast approaches done for benign or cytologically indeterminate lesions, Department of Surgical Disciplines
17. A randomized controlled trial comparing intralesional triamcinolone acetonide with 5-fluorouracil alone versus in combination with intralesional radiofrequency ablation in the treatment of keloids, Department of Dermatology & Venereology
18. A randomized controlled trial to standardize port site local anaesthesia infiltration in patients undergoing laparoscopic cholecystectomy, Department of Surgical Disciplines
19. A randomized control trial evaluating dual therapy of oral corticosteroids and intranasal corticosteroids vs intranasal corticosteroids only to prevent recurrence in chronic rhinosinusitis with nasal polyposis after functional endoscopic sinus surgery, Department of Otorhinolaryngology
20. A randomized control trial in laparoscopic cholecystectomy to compare pain relief in standard pressure pneumoperitoneum with port site infiltration versus low pressure pneumoperitoneum with laparoscopically guided transversus abdominis plane block and standard pressure pneumoperitoneum with laparoscopically guided transversus abdominis plane block, Department of Surgical Disciplines
21. A randomized controlled trial to assess the use of antibiotic prophylaxis for non-hysterectomy gynecological laparoscopic surgeries, Department of Obstetrics & Gynecology
22. A randomized placebo-controlled trial to assess efficacy of vitamin D supplementation in non- cystic fibrosis bronchiectasis patients, Department of Medicine
23. A study of central pain modulation in chronic pancreatitis, Department of Medicine
24. A study of immune responses in the pathophysiology of human chronic pancreatitis, Department of Biochemistry
25. A study of spiritual well-being among patients with diabetes mellitus attending secondary care facility in district Faridabad, Haryana, Centre for Community Medicine
26. A study on cellular physiology of endometriosis-associated estrogenic action in endometrial stromal cells, Department of Physiology
27. Addition of low-dose pembrolizumab to capecitabine for residual triple negative breast cancer post neoadjuvant chemotherapy: A phase III randomized double-blinded placebo-controlled clinical trial, Dr B R Ambedkar Institute Rotary Cancer Hospital
28. Adherence need assessment tool development and validation among PLHIV to improve adherence to Anti-retroviral therapy, Department of Medicine
29. Agreement between home-based videos and in clinic videos for general movement assessment in high-risk infants for predicting occurrence of Cerebral Palsy and risk of Autism Spectrum Disorder at 12 months age: A longitudinal observational study, Department of Pediatrics
30. Air pollution and impact on mental health (Suicides), Center for Community Medicine
31. Ambient air pollution, lung functions and cognitive impairment vis-à-vis micronutrient deficiencies: A longitudinal multi-centric cohort study among adolescents, Department of Pulmonary, Critical Care and sleep Medicine
32. An assessor blinded, randomized controlled trial comparing the safety and efficacy of oral metformin with topical 4% hydroquinone vs topical 4% hydroquinone alone in treatment of melasma in Indian skin types, Department of Dermatology & Venereology
33. An interventional study to strengthen and develop continuum of care for common mental health disorders, Department of Psychiatry
34. An investigation into the impact of particulate matter exposure on placental inflammatory response and fetal development, Department of Biochemistry
35. An open label randomized controlled trial comparing the efficacy of fractional co_2 laser with topical triamcinolone versus microneedling radio-frequency (mnrf) with topical triamcinolone in the treatment of keloids, Department of Dermatology & Venereology
36. An Open Label Randomized Control Trial to Compare the Outcomes with and without Pre-operative Splenic Artery Embolization (SAE) in Patients with Moderate Splenomegaly Undergoing Elective Laparoscopic Splenectomy, Department of Surgical Disciplines

37. Analysis of Clinical and environmental fungal isolates in medical ward and Intensive care unit – A tool for hospital infection surveillance, Department of Medicine
38. Analysis of symptom burden and quality of life in patients undergoing hemodialysis at tertiary care centre: a prospective observational study, Department of Medicine
39. Anemia: exploring the role of vitamin D, essential elements and lifestyle in the Indian population, Department of Pharmacology
40. App assisted diagnosis of patients presenting with dizziness based on patient's symptomatology, elaborative clinical testing and basic investigations, Department of Otorhinolaryngology
41. Artificial intelligence-based decision Support System for Diagnosing Ventilator Associated Pneumonia, Department of Medicine
42. Artificial intelligence for diagnosis, local staging and prognostication of prostate cancer based on data from baseline Gallium-68 PSMA PET/CT Scan and other clinical modalities, Department of Nuclear Medicine
43. Assessment of adreno-cortical function and its implications in PLHIV population, Department of Medicine
44. Assessment of clinico-laboratory parameters and outcomes associated with dysglycemia in patients with sepsis, Department of Medicine
45. Assessment of factors affecting functional independence in oldest old adults, Department of Geriatric Medicine
46. Assessment of household level vulnerability and health system preparedness towards heat related illness in selected districts of Haryana, Centre for Community Medicine
47. Assessment of intrinsic capacity in Indian older adults (age 65 years or more) with prostate cancer and without prostate cancer, Department of Medical Oncology
48. Assessment of post cholecystectomy symptoms and quality of life evaluation: a prospective cohort study, Department of Surgical discipline
49. Assessment of risk status of diabetes-related foot disease among people with diabetes residing in an urban resettlement colony in Delhi: A cross-sectional study, Centre for Community Medicine
50. Assessment of self-reported sleep duration and quality in relation to the cognitive status of older adults, Department of Geriatric Medicine
51. Assessment of the analgesic efficacy of bilateral pecto-intercostal fascial block and intermediate cervical plexus block in patients undergoing bilateral axillo-breast approach (BABA) endoscopic thyroidectomy under general anaesthesia: A randomized controlled trial, Department of Anesthesiology
52. Assessment of the efficacy of pulsed dye laser alone and in combination with Long-Pulsed Nd: YAG Laser or Topical Sirolimus (0.5%) ointment in the treatment of Hypertrophic Facial Portwine stains : A prospective, randomized, double-blind, placebo-controlled, intra-individual, pilot study, Department of Dermatology & Venereology
53. Association of Adipose-Muscle Phenotypes with Clinical and Metabolic Parameters in Adult Patients with metabolic Dysfunction Associated Steatotic Liver Disease (MASLD), Department of Medicine
54. Association of hypocalcemia in dengue fever presented to ED, Department of Medicine
55. Bimolecular analysis of neuro-protective effect of intervention in older adults with mild cognitive impairment, Department of Geriatric Medicine
56. Bone health in males with congenital causes of hypogonadism, Department of Endocrinology & Metabolism
57. Burden of cardiometabolic disorders in PLHIV on ART, Department of Medicine
58. Central line-associated bloodstream infections and bacterial contamination among health care workers in medical ICU: a prospective observational study, Department of Medicine
59. Centre for advanced research and excellence (CARE) in young diabetes, Department of Endocrinology & Metabolism
60. Clinical profile & outcome of patients presenting with hypertensive crisis to emergency department, Department of Emergency Medicine

61. Clinical profile and treatment outcomes of tumor induced osteomalacia- A single center experience, Department of Endocrinology & Metabolism
62. Clinical, dermoscopic and biomarker predictors of future disease activity in non-segmental vitiligo: a prospective cohort study, Department of Dermatology & Venerology
63. Combination of tofacitinib with transplantation of non-cultured epidermal cell suspension vs non-cultured epidermal cell suspension alone in non-segmental vitiligo patches clinically stable for <1 year: a randomized controlled trial, Department of Dermatology & Venerology
64. Community based assessment of disability among adult population in Delhi using WHO International classification of functioning, disability, and health, Community Ophthalmology, RPC
65. Comparative efficacy of high flow nasal cannula vs non-invasive ventilation in patients with acute exacerbation of chronic obstructive pulmonary disease: a randomized controlled trial, Department of Emergency Medicine
66. Comparative evaluation of methadone and morphine in managing breathlessness, pain and quality of life in lung carcinoma patients: A randomized control trail, Department of Onco-Anaesthesia & Palliative Medicine
67. Comparison of acceptance and commitment therapy with exercise therapy vs only exercise therapy in chronic low back pain patients with central sensitization: a randomized control trial, Department of PM&R
68. Comparison of clinical efficacy of 2.5% toludine blue mediated topical photodynamic therapy with topical calcipotriol in management of oral leukoplakia, Department of Oral Medicine & Radiology, CDER
69. Comparison of contrast enhance mammography & abbreviated protocol breast MRI in disease extent evaluation in patients of early breast cancer, Department of Radio-diagnosis & Interventional Radiology
70. Comparison of diagnostic accuracy of contrast enhanced ultrasound (CE-US) with sestamibi/SPECT for localization in primary hyperparathyroidism (PHPT), Department of Surgical Disciplines
71. Comparison of overall response to neoadjuvant short course radiotherapy followed by consolidation chemotherapy with conventional long course chemoradiotherapy in locally advanced rectal cancer, Department of Radiation Oncology
72. Comparison of pain status in patients undergoing targeted muscle re-innervations vs conventional stump preparation following post traumatic above knee amputation: a randomized controlled trial, Division of Trauma Surgery & Critical Care, JPN Apex Trauma Center
73. Comparison of Re-188-HDD lipiodol trans arterial radionuclide therapy (TART) with Re-188-DEDC lipiodol TART in the management of advanced hepatocellular carcinoma: A randomized control trial, Department of Nuclear Medicine
74. Comparison of whole-body MRI with 18 f-FDG PET/CT in pediatric lymphohistiocytic neoplasms, Department of Radiodiagnosis
75. Contrast enhanced ultrasound guided celiac plexus nerve block in upper abdominal cancer pain, Department of Otorhinolaryngology
76. Control of HbA1c, blood pressure and cholesterol (ABC) among adults with diabetes in an urban resettlement colony, Centre for Community Medicine
77. Correlation of brain MRI findings with clinical outcome and its implication in management of HIV negative CNS tuberculosis in pediatric population, Department of Radio-diagnosis & Interventional Radiology
78. Correlation of pre and post surgical findings with clinical course in patients undergoing early laparoscopic cholecystectomy for asymptomatic gall stone disease: a prospective study, Department of Surgical disciplines
79. Correlation of sleep architecture with cognition, behaviour and executive function in children and adolescents aged 5 – 18 years with pharmaco-responsive non-lesional epilepsy: an observational study, Department of Pediatrics
80. Coverage and delivery of maternal nutrition services in primary health care settings in a rural area of Ballabgarh, Haryana, Centre for Community Medicine
81. Deciphering the synergism between IGF2BPs and m6A machinery in B-cell acute lymphoblastic leukemia, Department of Biochemistry

82. Design and development of a safe portable, economical, non-invasive, point of care digital infrared imaging system for screening and early detection of oral cancer-an exploratory pilot study, Centre for Dental Education & Research

83. Developing a step wise approach to diagnose pediatric sleep disorders: A Questionnaire, actigraphy and polysomnography based observational study, Department of Pediatric Neurology

84. Development & validation of a predictive score for low bone mineral density in children with juvenile idiopathic arthritis, Department of Pediatrics

85. Development and evaluation of an individualized weight management module for young adults, Department of Medicine

86. Development and validation of a comprehensive module for management of sleep disorders in children with autism spectrum disorder aged 4-10 year: a pre and post intervention study, Department of Pediatrics

87. Development and validation of Immunoassays aid in Diagnosing and assessing treatment response in chronic pulmonary aspergillosis, Department of Medicine

88. Development of a scale to measure the psychosocial impact of vitiligo in children, Department of Dermatology & Venereology

89. Development of neuro-vascular coupled computational modelling in stroke using multimodal imaging, Department of NMR & MRI facility

90. Diagnostic accuracy of gene XPERT ultra in tuberculosis pleural effusion, Department of Medicine

91. Diagnostic accuracy of modified water bath technique and conventional ocular ultrasound in comparison to non-contrast computed tomography (NCCT) of the orbit for identifying ocular injuries in trauma patients, Department of Emergency Medicine

92. Diagnostic accuracy procalcitonin for detecting sepsis in chronic kidney disease patients, Department of Medicine

93. Diagnostic utility of bronchoalveolar lavage & computerized tomography in diagnosis of recurrence among sputum scarce & sputum negative treated pulmonary tuberculosis suspects, Department of Medicine

94. Diagnostic validation of first episode and chronic neurobehavioral outcome in pediatric onset central nervous system acquired demyelination syndrome: an ambispective observational study, Department of Pediatrics

95. Dietary practices and nutritional status of children aged 06-23 months in an urban resettlement colony of Delhi, Centre for Community Medicine

96. Disease characteristics, complications and outcome of management of Wilms tumor, Department of Pediatric Surgery

97. Double-blinded randomized controlled trial evaluating the feasibility, safety and efficacy of obturator nerve combined with femoral nerve block for analgesia in patients with varicose veins being treated by endovenous laser ablation of great saphenous vein, Department of Cardiovascular Radiology & Endovascular Interventions

98. Drivers of reduction in anemia in India: Insights from sub-national exemplars. COVID-19 in Indian Population: A prospective multi-centric study, Department of Community Medicine

99. Drug intervention for prevention of type 2 diabetes among women with prior gestational diabetes mellitus and pre-diabetes in south Asia (divine): A randomized control trial, department of endocrinology and metabolism, Department of Endocrinology and Metabolism

100. Early integration of point of care ultrasound (POCUS) in Onco-palliative care, Department of Onco-Anaethesia

101. Effect of comprehensive sleep program on sleep quality and glycemic/ metabolic control in patients with diabetes mellitus: A randomized controlled trial, Department of Endocrinology and Metabolism

102. Effect of educational intervention on antifungal use in medicine wards and ICU, Department of Medicine

103. Effect of Exercise on Dual Task Performance in Cognitive Frail patients: A Non-Randomized Control Trail, Department of Geriatric Medicine

104. Effect of exercise on the functional status and mental well-being in patients with chronic low back pain: A pre-post interventional study, Department of PMR

105. Effect of NMN and Ca-AKG on cognitive impairment in older Indians attending memory clinic, National Centre for Ageing, AIIMS, New Delhi, Department of Geriatric Medicine

106. Effect of remote ischemic post-conditioning on inflammatory markers and myocardial injury during thrombolysis in normal and vitamin D deficient patients suffering from acute coronary syndrome, Department of Pharmacology

107. Effect of sugammadex versus neostigmine reversal on lung aeration score after operative fixation of cervical spine: A prospective, double blinded, randomized control trial, Department of Neuro-Anaesthediology and Critical Care

108. Effect of yogic intervention of pain status and cortical excitability in fibromyalgia patients, Department of Physiology

109. Effects of myoinositol supplementation of seizure frequency in person with drug resistant epilepsy, Department of Pharmacology

110. Efficacy and safety of intramuscular haloperidol and olanzapine in management of acutely agitated patients in emergency department, Department of Emergency Medicine

111. Efficacy of add-on Ayurveda and Yoga intervention on reproductive and metabolic outcomes in women with PCOS undergoing ovulation induction cycles: A multicentric randomized controlled trial, Department of Obstetrics and Gynaecology

112. Efficacy of co-administration of clomiphene citrate and letrozole to conventional GnRH antagonist protocol in expected poor responders undergoing IVF/ICSI cycles: A Randomized Controlled Trial, Department of Obstetrics and Gynaecology

113. Efficacy of eliglustat monotherapy in ERT-naïve children (6-17 years) with Gaucher Disease type I and type 3: An open-label single-arm phase 3 intervention trial, Department of Pediatrics

114. Efficacy of IV rituximab *versus* oral mycophenolate mofetil in sustaining remission in steroid-resistant nephrotic syndrome maintained on calcineurin inhibitors for more than two years: An open-label randomized controlled trial, Department of Pediatrics

115. Efficacy of montelukast in reducing incidence of warning signs and severe disease in patients with dengue fever: a phase 2, double-blind, placebo-controlled, randomized trial, Department of Medicine

116. Efficacy of pantoprazole vs placebo in mucosal healing and change in endoscopic grading in patients of acute caustic ingestion: a randomized controlled open label study, Department of Emergency Medicine

117. Efficacy of pre-operative trans-catheter embolization of borderline systemic to pulmonary artery collaterals in tetralogy of fallot repair, Department of Onco-Anaethesia

118. Efficacy of repetitive transcranial magnetic stimulation (rTMS) as an adjunct to ai enabled remedial intervention in school going children (aged 6-18 years) having specific learning disorder with dyslexia, Department of Pediatrics

119. Enhancing splenchnic neurolysis with dexmedetomidine: a double-blind randomized controlled trail, Department of Onco-Anaesthesia & Palliative Medicine

120. Enteral feeding practices and their outcomes in advanced aerodigestive malignancies: An ambispective observational study, Department Palliative Medicine

121. Epidemiologic and genetic study of anterior segment developmental corneal opacification in Asian Indian population, Department of Ophthalmology

122. Epidemiological assessment of oral disease burden and oral health related quality of life of geriatric population and service availability and readiness assessment of oral health services in India - An ICMR multi-centric task force, Centre of Dental Education & Research

123. Etiology and outcome of lung cavity in hospitalized patients, Department of Medicine

124. Evaluating the synergy of metformin combined with PD1 blockade in modulating tumor immune microenvironment and metabolism in lung cancer, Department of Pharmacology

125. Evaluating the utility of continuous glucose monitoring system for behavioural modification in high risk women enrolled in early pregnancy for the prevention of gestational diabetes mellitus: A pilot randomized control trial, Department of Endocrinology and Metabolism

126. Evaluation of Artificial neural network for differentiating Iron deficiency anemia and β-thalassemia trait in comparison to the conventional methods, Department of Laboratory Medicine

127. Evaluation of dual dye technique for sentinel lymph node biopsy in breast cancer: two arm open label parallel design non-inferiority randomized controlled trial, Department of Surgical Oncology

128. Evaluation of kit-based loop-mediated isothermal amplification (TB-LAMP) assay in the diagnosis of tubercular lymphadenitis, Department of Medicine

129. Evaluation of maternal and fetal outcomes in women diagnosed with GDM or normoglycemia using IADPSG criteria, among women diagnosed with normoglycemia by DIPSI criteria: Prospective multicentre observational cohort study, Department of Endocrinology & Metabolism

130. Evaluation of maternal and fetal outcomes in women diagnosed with GDM or normoglycemia using IADPSG criteria, among women diagnosed with normoglycemia by DIPSI criteria: Prospective multicentre observational cohort study, Department of Endocrinology and Metabolism, Department of Endocrinology and Metabolism

131. Evaluation of non-invasive adjuncts in OPMDs for early detection of oral cancer and development of risk-based OPMD management protocol in a primary health care setting, Centre for Dental Education & Research

132. Evaluation of novel hematological extended inflammatory parameters (EIP) in the prediction of post injury sepsis in patients at Level 1 Trauma Centre in tertiary care hospital, Department of Laboratory Medicine

133. Evaluation of short term and long-term effects of cochlear implantation on vestibular function, Department of Surgical discipline

134. Evaluation of the effect of prior exposure to laparoscopic surgery on acquisition of robotic surgical skills in a simulated environment, Department of Surgical disciplines

135. Evaluation of the expression, regulation, and clinical relevance of APOBEC3B in non-small cell lung cancer, Dr. B. R. A Institute of Rotary Cancer Hospital

136. Exploring neuroimaging and metabolomic markers associated with opioid dependent subjects on buprenorphine maintenance treatment, Department of NMR

137. Exploring the link between fatty acid metabolism and bioenergetics in paediatric B- cell leukaemia: implications for tumour survival and treatment response, Department of Biochemistry

138. Extracellular matrix remodelling in obesity induced adipose tissue dysfunctions and insulin resistance, Department of Biochemistry

139. Factors affecting treatment outcome in advanced HIV disease, Department of Medicine

140. Factors which predicts risk of ATT (anti-tuberculosis treatment) induced hepatitis in older adults: a single center cohort study, Department of Geriatric Medicine

141. Fertility related quality of life and depressive – anxiety symptoms in infertile couple with male factor infertility – a cross-sectional study, Department of Obstetrics &Gynaecology

142. Frequency and genetic characterization of mycoplasma pneumoniae and Pneumocystis Jerovercii in immunocompromised patients, Department of Microbiology

143. Frequency and risk factors for latent tuberculosis infection among type 2 diabetes mellitus patients, Department of Medicine

144. Genotype phenotype correlation in Indian children with Morquio syndrome, Department of Pediatrics

145. Host and environmental factors in the acute exacerbations of childhood interstitial lung disease, Department of Pediatrics

146. Hypomagnesemia and its correlation with clinical outcomes in admitted sepsis patient, Department of Medicine

147. ICMR's network of pulmonary fibrosis (INPF), Department of Pulmonary, critical Care & Sleep Medicine

148. Identification and characterization of microsporidia in HIV- seropositive patients, Department of Microbiology

149. Identification of biomarkers, development of predictive equations and risk scores for dynapenia/Sarcopenia in obese Indian adults with and without type 2 diabetes mellitus, Department of Medicine

150. Identification of factors predictive for weight loss after Bariatric Surgery: Building a model for improving outcomes and maintaining weight loss, Department of Surgical Disciplines

151. Identification of metabolic biomarkers by using metabolomics and meta-genomics of prostate cancer associated micro-biome to distinguish aggressive prostate cancer, Department of NMR

152. Immune response to COVID-19 vaccination in patients with HIV infection, Department of Medicine

153. Impact of eosinophil-based corticosteroid therapy on treatment success and adverse event in AECOPD: A randomized controlled trial, Department of Pulmonary Medicine, Critical Care & Sleep Medicine

154. Impact of Indian adaptation of mediterranean diet on dietary inflammatory index in patients with coronary artery disease- A randomized clinical trial, Department of Cardiology

155. Impact of intraoperative microbreaks on musculoskeletal symptoms and performance of surgical residents during minimal access surgical tasks in a simulated setting, Department of Surgical disciplines

156. Impact of neo-adjuvant chemotherapy on surgical decision and peri-operative outcomes In patients with very advanced buccal cancer, Department of Otorhinolaryngology

157. Implementation research to enhance screening, early diagnosis and initiation of treatment for oral, breast and cervical cancer in selected districts of India, IRCH

158. Incidence and clinico-microbiological profile of surgical site infections in a surgery ward in a tertiary care hospital, Department of Medicine

159. Incidence and severity of psychosocial and somatic disorders in survivors of childhood solid malignant tumors, Department of Pediatric Surgery

160. Incidence, risk factors and outcomes of hospital acquired pneumonia among older adult patients (> 65 years): a prospective cohort – observational study, Department of Geriatric Medicine

161. Isoniazid mono-resistant pulmonary tuberculosis in India: clinicolaboratory profile and treatment outcomes, Department of Medicine

162. Knowledge, attitude and practice of travel medicine among medicine and ID resident in AIIMS, New Delhi-A Quasi interventional study, Department of Medicine

163. Liquid biopsy guided addition of chemotherapy with TKI in advanced EGFR mutated NSCLC: an open-label, multi-centric, phase 3 randomized controlled trial, Department of Medical Oncology

164. Long COVID and coagulopathy among patient recovered from COVID-19: a prospective observational study, Department of Medicine

165. Long term exposure to air pollution and their correlation with disease severity and outcomes in patient with influenza-like illness and COVID-19 in Indian Population: A prospective multi-center study, Department of Pulmonary Medicine and Sleep Disorder

166. Mapping Patient Goals to the International Classification of Functioning, Disability and Health (ICF): Examing the Validity of Low Back Pain Core Sets Using Roland Morris Disability Questionnaire and Oswestry Disability Index, Department of Physical Medicine and Rehabilitation

167. Melatonin vs placebo in drug resistant Epilepsy, Department of Neurology

168. Midline vs triangular port placement in total extra-peritoneal mesh repair in uncomplicated inguinal hernia: A randomized control trial, Department of Surgical Disciplines

169. Midline Vs triangular port randomized control trial, Department of Surgical Disciplines

170. Minimally invasive tissue sampling for determination of cause of death in critically ill hospitalized patient in North India, Department of Medicine

171. Molecular characterization and antimicrobial resistance profile of Uropathogenic Escherichia coli (UPEC) from patient with UTI in India: A cross-sectional study, Department of Microbiology

172. Multi-analytes lateral flow immune assay for the detection of sepsis and multi-organ dysfunction syndrome in post-trauma patients, Department of Laboratory Medicine, JPN Apex Trauma Center

173. Multimodality imaging of parotid and submandibular glands in Primary Sjogren's syndrome, Department of Radiodiagnosis

174. Neoadjuvant short course radiotherapy in combination with chemotherapy for squamous cell carcinoma of esophagus: a single arm phase 2 pilot study, Department of Surgical Oncology

175. Neurofilament and creatinine as biomarkers in spinal muscular Atrophy: An Observational Study, Department of Pediatrics

176. Neurological outcomes and quality of life following minimally invasive thymectomy in thymomatous and non-thymomatous myasthenia gravis, Department of Surgical disciplines

177. Newborn screening for spinal muscular atrophy - A pilot study, Department of Pediatrics

178. Non inferiority randomized control trial: to evaluate different outcomes of low pressure pneumoperitoneum with deep neuromuscular blockade and compare them with standard pressure pneumoperitoneum in patient undergoing laparoscopic cholecystectomy for gallstone disease, Department of Surgical Disciplines

179. Non-Alcoholic Fatty Liver Disease and Its Sarco-Metabolic Correlates in People Living with Human Immunodeficiency Virus Infection, Department of Medicine

180. Nutritional risk assessment of pregnant women - A community-based study in rural Ballabgarh, Center for Community Medicine

181. Ocimum sanctum extract as adjuvant therapy in persons with drug resistant epilepsy: A double blind, randomized, placebo controlled trial, Department of Pharmacology

182. OPIoid sparing Anesthesia Technique for supratent craniotomy in geriatric patient [OPIATE study]: A randomized open labelled study, Department of Neuro-Aneasthesia

183. Out of pocket expenditure among patient with diabetes mellitus attending a tertiary care hospital in North India; a facility based cross-sectional study, Department of Medicine

184. Patient & Carer Indian Neuropsychological Continuum of Care (PIN-CoC) Model (PIN-CoC), Department of Clinical Neuro-psychology

185. Pattern of care and outcome in triple negative breast cancer- a retrospective study, Department of Surgical disciplines

186. Performance of aspergillus PCR on mini bronchoalveolar lavage fluid for the diagnosis of invasive pulmonary aspergillosis suing BM-ASP ICU criteria: A cross-sectional diagnostic test validation study, Department of Microbiology

187. Plasma Biomarkers by Mass Spectrometry in Sphingolipidoses: Correlation with disease severity and Genotype, Department of Pediatrics

188. Post Sepsis syndrome: A prospective Observational study, Department of Medicine and Microbiology

189. Practices and Outcomes of Prophylactic Anti-Epileptic Use in CNS Tuberculosis Patient: Insights from An Observational Study From Tertiary Care Center, Department of Medicine

190. Predictors of adverse outcomes in treatment of TB, Department of Medicine

191. Prevalence, Incidence and Risk Factors for Latent Tuberculosis Infection (LTBI) among Medical Student and Residents, Department of Medicine

192. Prevalence and Clinical Profile of Caesarean Scar Defect After Caesarean Delivery, Department of Obstetrics & Gynaecology

193. Prevalence and Correlates of Neurological and Neurocognitive Disorders in HIV+ Patient on ART, Department of Medicine

194. Prevalence and Risk Factors for Sarcopenia in Type 1 Diabetes Mellitus: A Case Control Study, Department of Endocrinology & Metabolism

195. Prevalence of anxiety and depression in patient with chronic pancreatitis and its effect of pain and quality of life, Department of Gastroenterology& Human Nutrition

196. Prevalence of dynapenia/sarcopenia and its association with metabolic parameters, body composition and bone mineral density in postmenopausal women: A cross-sectional study, Department of Medicine

197. Prevalence of strongyloides infection among immune compromised patient at a tertiary care hospital, Department of Microbiology

198. Prevalence, Risk Factors and Outcome of Undiagnosed Heart Failure with Preserved Ejection Fraction (HFpEF) Among Patient Admitted with Dyspnea, Department of Medicine

199. Procalcitonin as a biomarker of bacterial sepsis patient with acute kidney injury, Department of Medicine

200. Prospective observational study to assess the quality of life, depression, anxiety and perceived stigma in dermatology inpatient and quality of life of their primary caregivers compared to outpatient, Department of Dermatology & Venereology

201. Prospective study on sentinel lymph node biopsy after neoadjuvant treatment of breast cancer using blue dye alone and retrospective analysis of lymphedema rates after sent lymph node biopsy and ancillary lymph node dissection, Department of Surgical Disciplines

202. Randomized control trial to analyse the effect of intra operative switch on (IOSO) of cochlear implant as compared to delayed switch on of cochlear implant on electrical impedance measurement& auditory skills development in pediatric patient with congenital profound idiopathic non-syndromic SNHL, Department of Otorhinolaryngology & HNS

203. Role of a protocolized pulmonary rehabilitation program in improving performance status and quality of life in patient with end-stage lung disease eligible for lung transplant, Department of Pulmonary, critical care and sleep medicine

204. Role of CSF lactate and chloride in indent the etiology of meningitis, Department of Medicine

205. Role of Demographic Surveillance Sites (DSS) in generation of mortality statistics in India: Situation analysis, feasibility of digital solutions and usefulness in estimation of national mortality statistics, Center for Community Medicine

206. Role of MR Elastography in Non-alcoholic fatty liver disease, Department of Radiodiagnosis & Interventional Radiology

207. Role of multi-parametric ultrasound and dual energy-computed tomography (DECT) to differentiate malignancy from benign gall bladder pathologies, Department of Radiodiagnosis and Interventional Radiology

208. Role of PET brain in PLHIV with cognitive impairment, Department of Nuclear Medicine

209. Role of prophylactic tranexamic acid instillation in reducing the severity of bleeding during endobronchial biopsy: A randomized controlled trial, Department of Pulmonary Medicine, Critical Care & Sleep Medicine

210. Role of residual cancer burden in predicting long term outcomes of breast cancer after neoadjuvant chemotherapy followed by surgery: An ambispective study, Department of Surgical Disciplines

211. Role of T-helper 17 and T-regulatory cells in Gaucher disease with bone involvement: a pilot study, Department of Pediatrics

212. Role of trans arterial radioembolization in metastatic lung lesions, Department of Nuclear Medicine

213. Role of tumor microenvironment in mediating adaptive resistance to venetoclax in acute myeloid leukemia, Department of Medical Oncology

214. Routine Invasive Vs Ischemia Driven Strategy In Patient With ST-Segment-Elevation Myocardial Infarction Present Between 12-72 Hours Of Symptom Onset (LATECOMER TRIAL), Department of Cardiology

215. Should Colorectal Cancer screening be done in Asymptomatic Indians: A Pan-India multicentric study, Department of Gastroenterology& Human Nutrition

216. Sleep quality in patient with diabetes and its correlation with duration of diabetes, glycemic and metabolic control and NAFLD: A cross-sectional study, Department of Endocrinology & Metabolism

217. Smartphone app for management of gestational diabetes mellitus in urban rural settings in India: A randomized controlled trial, Department of Obstetrics and Gynecology

218. Statistical modelling to assess the determinants of HIV risk behavior among the Hijra and Transgender population using Integrated Biological and Behavioral Surveillance Survey 2014-15 in India, Center for Community Medicine

219. Strategic Multimodal Intervention in at-risk Elderly Indians for Prevention of Dementia (SMRUTHI INDIA): A cohort multiple randomized controlled trial (cmRCT), Department of Neurology

220. Strengthening Ambulatory Care for NCD in north India (STAR-NCD): An Implement Research National Health Priority Research, Center for Community Medicine

221. Study of ATT induced liver injury: A hospital based study, Department of Medicine

222. Study of body composition, clinical, metabolic profile of non-obese individuals, Department of Medicine

223. Study of Fibrosis in Cardiovascular Disease: FIBICAR Study, Department of Cardiology

224. Study of Long-term Patient Reported Outcomes of Surgery in Non-Metastatic Breast Cancer Patient: A Cross Sectional Study, Department of Surgical Disciplines

225. Study of osteosarcopenia in obese adults, Department of Medicine

226. Study of prevalence of concomitant transthyretin amyloidosis in elderly patient with severe aortic stenosis by PYP scan, Department of Cardiology

227. Study on the Effect of a Structured Training Program and Micro Breaks on Workload amongst Surgeons during Open Thyroidectomy & Modified Radical Mastectomy: A quasi experiment study, Department of Surgical Disciplines

228. Study on the impact of continuous glucose monitoring system on achievement of glycemic and clinical outcomes in critically ill patient, Department of Medicine

229. Success rate of an adaptive intravenous insulin protocol in patient presenting with unexpected hyperglycemia before 18 F-FDG PET/CT, Department of Nuclear Medicine

230. The Effect of Single Anastomosis Sleeve Jejunal Bypass Vs Sleeve Gastrectomy on Nutritional Deficiency following Bariatric surgery: A Phase II Randomized Controlled Trial, Department of Surgical Disciplines

231. The Psychological Impact of Age-Related Special Sensory Loss on Mental health, Cognition and Quality of Life in Older Adults, Department of Geriatric Medicine

232. The Role of Indocyanine Green Fluorescence Imaging for Intra-operative Assessment of Gastric or Colonic Conduit Perfusion in Oesophageal Cancer Surgeries – A Pilot Study, Department of Surgical Oncology

233. The Role of Puch-Dose Epinephrine in Preventing Cardiovascular Collapse in patient Undergoing Endotracheal Intubation in the Emergency Department: A Randomized Controlled Trail, Department of Emergency Medicine

234. Therapeutic effect of adjunctive 940nm diode laser photobiomodulation with carbamazepine on pain, infrared orofacial thermography and oral health quality of life in Trigeminal Neuralgia: A randomized clinical trial, Department of Oral Medicine & Radiology, CDER

235. Therapeutic potent of extracellular vesicles (EVs) derived from endothelial colony forming cell (ECFC) indirectly primed with mesenchymal stem cell (MSC) in a mouse model of hind limb ischemia, Department of Cardiac Biochemistry

236. To assess the impact of percutaneous transhepatic biliary drainage on the quality of life of patient suffering from carcinoma of the gall bladder, Department of Radio-diagnosis and Interventional Radiology

237. To Assess the Role of CT Prefusion Imaging of the Lungs in Evaluating the Response to Neoadjuvant Therapy in Patient with Locally Advanced Lung Canter, Department of Radio-diagnosisand Interventional Radiology

238. To determine and compare the adjunctive effect of photo biomodulation with 940nm diode laser on maximal interincisal mouth opening versus convent non-invasive management in moderate Oral Submucous Fibrosis-A blinded, multiple-arm, randomized controlled trial, Department of Oral Medicine and Radiology, CDER

239. To Determine the Prevalence and Outcomes of Liver Involvement in Children (1 to 18 years of Age) with Langerhans cell histiocytosis, Department of Pediatrics

240. To develop and evaluate the effectiveness of multidisciplinary education and care model for individuals with diabetes affected with COVID-19: A two-arm parallel randomized control trial, department of endocrinology and metabolism, Department of Endocrinology and Metabolism

241. To Establish an Algorithm for the Management of Axilla in Patient of Early operable breast cancer with clinically negative axilla, Department of Surgical Oncology

242. To Evaluate FAPI-46 As A Potential Theranostic in Soft Tissue Sarcoma using 68Ga-FAPI-46 PET/CT and 177Lu-FAPI-46 Therapy, Department of Nuclear Medicine

243. To evaluate patch test and skin prick test to elucidate the role of allergens in the occurrence of endogenous dermatitis: A prospective cohort study, Department of Dermatology & Venereology

244. To evaluate the benefit of magnetic stimulation of pelvic floor in older females with urinary incontinence - a single center randomized controlled trial, Department of Geriatric Medicine

245. To evaluate the effectiveness of enhanced behavioural intervention and use of technology (Continuous glucose monitoring) for improving pregnancy outcomes in women with type 2 Diabetes mellitus: A three-arm parallel randomized controlled trial, Department of Medicine

246. To Evaluate the Efficacy of Methadone Vs Fentanyl for Neuropathic pain in Head and Neck Malignancies: A Equivalent Randomized Control Trial, Department of Onco-Anaesthesia & Palliative Medicine

247. To evaluate the performance of Shonit (A new Automated Digital Imaging Platform) with respect to conventional microscopy for peripheral blood smear, Department of Laboratory Medicine

248. To evaluate the safety and efficacy of hepatic hilar plexus block in patient undergoing percutaneous trans-hepatic biliary drainage, Department of Radiodiagnosis Interventional Radiology

249. To Evaluate the Use of Combined Hormonal Pill (Ethinyl Estradiol Plus Levonorgestrel) before Hysteroscopic Polypectomics in Reproductive-aged women: A Randomized controlled Trial, Department of Obstetrics and Gynecology

250. To Find the Occurrence of Telangiectasia Around the Knee in Individuals with Osteoarthritis Observational Cross-Sectional Study, Department of PM&R

251. To generate normative data using continuous glucose monitoring system for glycemia in pregnancy at 24 to 32 weeks of gestation in women defined as normal by IADPSG criteria, Department of Endocrinology and Metabolism

252. To study and evaluate the interaction between endothelial progenitor Cells and platelet function in cardiac patient, Department of Laboratory Medicine

253. To study the adjunctive effect of Photobiomodulation Therapy using Diode laser of 940nm wavelength on Clinical, Functional, Molecular characteristics and Oral Health Quality of life in moderate Oral Submucous Fibrosis, Center for D & Research

254. To Study the Association of Nailfold Capillary Density with Disease Activity in Children with Juvenile Dermatomyositis, Department of Pediatrics

255. To study the effect of small bore size chest tube on pain in patient with thoracic trauma: A Randomized Controlled Trial, Department of Trauma Surgery & Critical Care, JPN Apex Trauma Centre

256. To Study the Efficacy and safety of Microwave Ablatio of Benign Thyroid Nodules: A Pilot study, Department of Surgical Disciplines

257. To study the outcomes in patient with cholelithiasis following subtotal Cholecystectomy, Department of Surgical disciplines

258. To study the role of serum proteomics profiles in subjects with metabolic syndrome. Department of Medicine

259. Use of Prophylactic Steroid to Prevent Hypocalcemia In Patient Undergoing Thyroidectomy: Randomized controlled Trial, Department of Otorhinolaryngology

260. Utility of Catheter Tips in the Diagnosis of Catheter-Related Bloodstream Infections at a Tertiary Hospital in North India – A Prospective Study, Department of Microbiology

261. Utility of Pre-Operative Shear Wave Elastography of the Abdominal Wall and Muscles in Detecting Weak Areas near Hernia along with Predicting Successful Repair of V Abdominal Hernia a Prospective Comparative Interventional Study, Department of Surgical Disciplines

262. Utility of Serum Ferritin in Dengue Fever, Department of Medicine

263. Validating Biomarker Panel in Five Different Cohorts to Define and Predict Biological Ageing, Disease Burden and Mortality in Human Subjects- A Pilot Prospective Cohort Study, Department of Geriatric Medicine

264. Validation of "Primary Care Team dynamics survey" tool to measure teamwork in primary healthcare settings in Faridabad and Palwal district, Haryana, Center for Community Medicine

265. Validation of a questionnaire to measure team dynamics in the primary health care centers in Palwal and Faridabad districts of Haryana, Center for Community Medicine

266. Whole Body Magnetic Resonance Imaging in assessment of disease activity and damage in children with Juvenile Idiopathic Arthritis, Department of Radiodiagnosis

267. Whole Exome Sequencing of Hypospadias Patient Family Trios for Ident& Validation of Genetic Markers and Development of a Genetic Panel for Hypospadias Risk Assessment, Department of Pediatric Surgery

268. Young-Onset Lung Cancer: Clinicopathologic and Molecular Profile and Treatment Outcomes, Department of Medical Oncology

Completed

1. A Study on Urinary Biomarkers in PUJO (Pelviureteric Junction Obstruction): Investigating PTGR1 (Prostaglandin Reductase 1), NGAL (Neutrophil Gelatinase-Associated Lipocalin), and KIM-1 (Kidney Injury Molecule-1), Department of Pediatric Surgery
2. Enhancing mental health and substance use literacy among college going students in national capital territory of Delhi, Center for Community Medicine
3. High flow nasal oxygen therapy versus non-invasive ventilation for prevention of reintubation in patients with hypercapnia at extubation– a randomized controlled trial (HYPERHOT NIV trial), Department of Pulmonary, Critical Care and Sleep Medicine
4. Randomized controlled trial comparing intralesional triamcinolone alone versus fractional electrolysis with topical application of triamcinolone acetonide in the treatment of keloids, Department of Dermatology & Venereology
5. To compare the effectiveness of mobile App vs Conventional prescription of analgesics and adjuvants containing AI based educational intervention on compliance, knowledge and satisfaction among advanced cancer patients receiving palliative care at a tertiary care Center – A Randomized control trial, College of Nursing
6. To study the effect of diesel exhaust exposure on male reproduction in the laboratory rat, Department of Physiology
7. To study the effect of intermittent theta burst stimulation (iTBS) repetitive Transcranial magnetic Stimulation (rTMS) in predominantly negative symptoms and cognitive function in person suffering from schizophrenia (> 2 years duration) in a randomized sham controlled double blind trial, Department of Psychiatry

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Maroof A Khan was the member of the selection committee in the various institutes of national importance and universities. Editorial board member (biostatistics) of the Indian journal of ophthalmology and international journal of

scientific reports. Scientific reviewer of the Lancet journal, Aligarh journal of statistics, American journal of public health research, journal of obesity, British journal of visual impairment and various journal of BMJ group.

Dr M Kalaivani was DSMB member of ICMR VPM Vaccine trial: A Phase III, Randomized, Double-blind, Three arm Placebo controlled Trial to Evaluate the Efficacy and Safety of two vaccines VPM1002 and Immuvac(Mw) in Preventing Tuberculosis (TB) in Healthy Household Contacts of Newly Diagnosed Sputum Positive Pulmonary TB Patients; Working Committee Member of Clinical Research Unit; Selection Committee Member for project staff; Life member of Indian Society for Medical Statistics; Member of International Society for Clinical Biostatistics, Life member of the Indian Association for the Study of Population and Member of Epidemiological Foundation of India. Editor of Indian Journal of Anesthesia and Scientific Reviewer of Annals of Pediatric Cardiology.

HIGHLIGHTS

- Department of Biotechnology runs a well-rated Masters in Biotechnology course with specialization in Medical Biotechnology admitting 18 students per batch. The Department also runs a Ph.D. program. The total strength of MSc and Ph.D. students is about 60.
- Faculty members have secured numerous competitive extramural research grants, including the prestigious Welcome Trust-DBT India Alliance Fellowship. Their achievements are recognized nationally through various awards and honors, and they actively contribute as experts on governmental scientific committees. Their prolific research output is reflected in publications across high-impact national and international journals.
- Department has six senior demonstrators who participate in the teaching and research activities of the department.
- The Department takes pride in its Ph.D. scholars' accomplishments, including awards from prominent national and international scientific forums such as KSBMR, FIMSA, ISSRF, IABSCON, and SFRR-India.
- The Department is known for its commitment to biomedical research and continuous efforts of the faculty has established a name for the Department in the areas of Leprosy, TB and Malaria. New fields of research initiated in the Department include Cardiogenomics, Bioinformatics, Osteoimmunology, Virology, Metabolism and bioenergetics of Infectious diseases, Innate immunity, Drug development, Molecular parasitology, Lipid droplet biogenesis, Cell death and its regulation and Molecular cancer therapeutics, Intestinal Biology and Liver Diseases.
- Action plan for the coming year: In the coming year, the Department plans to further advance its research efforts in the aforementioned areas. A key priority will be the development and commercialization of innovative diagnostics and therapeutics for a range of diseases.

1. Dr Anushree Gupta was felicitated on 28th February 2025 by MKM Kanya Mahavidyalaya, Hodal, India
2. Dr Rupesh Srivastava received the AIIMS Research Excellence Award at the 4th Annual Research Day celebration of AIIMS on 30 January 2025.
3. Dr Rupesh Srivastava organized the International Symposium on Bone Health (ISBH-2024) at AIIMS, New Delhi.

4-8 Students received awards at various National Conferences

EDUCATION

Post Graduate Teaching

- The Department conducts 2 years post graduate course in Biotechnology with emphasis on Medical Biotechnology leading to M. Biotech degree. The teaching program covers 16 subjects, namely, Cell and Developmental Biology, Genetics, Human Biochemistry, Medical Microbiology, Immunology & Immunotechnology, Molecular Biology, Infectious Disease Biology, Genetic Engineering & Genome Technology, Biophysics (Principles, Techniques & Applications in Medicine), Bioinformatics, OMICS (Genomics, Transcriptomics, Proteomics & Metabolomics), Biostatistics, Seminars in Laboratory Techniques (Principles & Instrumentation), Medical Biotechnology (Journal Club & Communication Skills), Seminars in Molecular Medicine & Biotechnology and Dissertation in frontier areas of medical research.
- The Department has introduced five new credit courses in the course curriculum of M. Biotechnology namely, Infectious Disease Biology, OMICS: Genomics, Transcriptomics, Proteomics, and Metabolomics, Intellectual Property Rights, Bioethics and Biosafety (IBB), Molecular Diagnostics and Clinical Biochemistry (MDB) and Laboratory course on Medical Microbiology and Infectious Disease Biology".
- Students are given individual attention and extensive hands-on training in Practical classes.
- Experts are invited from PGIMER, JNU, IGIB, ICGEB, NII, IIT, THSTI, RCB, BCIL, TERI, Jamia Hamdard and University of Delhi in addition to AIIMS faculty from various specialties, to deliver seminars in biotechnology, bioinformatics, molecular medicine, genomics, proteomics etc.
- The Department conducts a Ph.D. program in the area of Medical Biotechnology.
- The Department mentors and supports young Scientists having DBT and DST National Post-Doctoral and Young Scientist award.

1. Biotechnology and Spirituality: Conflict and Cooperation, National Science Day at MKM Kanya Mahavidyalaya, Hodal, 28 February 2025, Hodal

Rupesh Kumar Srivastava

1. Harnessing the Immunoporotic potential of "Bregs" under Inflammatory bone loss in Osteoporosis: Bench to Bedside!, International Symposium on Advancements in Medical Research and AI Integration, Special Centre for Molecular Medicine (SCMM), 17 April 2024, New Delhi
2. The Landscape of Immunoporosis and Bone Health in post COVID-19 Era, 51st Annual Meeting of the Indian Immunology Society (IMMUNOCON 2024), 17 October 2024, Bangalore
3. A Novel Approach to Combat Inflammatory Bone Loss in Postmenopausal Osteoporosis: Targeting Th9 Cell, 13th Annual Meeting of Indian Society for Bone & Mineral Research (ISBMR), 1 December 2024, Lucknow
4. Landscape of Immunoporosis with Ageing, CME on Bridging Gap between Geriatricians & Surgeons, 2 December 2024, New Delhi
5. Targeting Th9-IL9 axis as a Novel Immunotherapeutic strategy in mitigating inflammatory bone loss in Post-menopausal Osteoporosis, 50th Annual Conference of Association of Clinical Biochemists (ACBICON), 5 December 2024, Chandigarh
6. Targeting Th9-IL9 axis as a Novel Immunotherapeutic strategy in mitigating inflammatory bone loss in Post-menopausal Osteoporosis, 8th Annual Conference of Society for Inflammation Research (SIRCON), 6 and 7 December 2024, Navi, Mumbai
7. Targeting Th9-IL9 axis as a Novel Immunotherapeutic strategy in mitigating inflammatory bone loss in Post-menopausal Osteoporosis, 13th Annual Conference of Indian Academy of Biomedical Sciences (IABSCON), 11 February 2025, Bhopal
8. The Landscape of Immunoporosis and Bone Health in Post-COVID-19 Era, 35th Annual Conference of Indian Society for the Study of Reproduction & Fertility (ISSRF), 16 February 2025, Jaipur
9. Targeting Th9-IL9 axis as a Novel Immunotherapeutic strategy in mitigating inflammatory bone loss in Post-menopausal Osteoporosis, 1st Annual Conference of Indian Society for Precision Medicine & Molecular Medicine (ISPMMCON), 2 March 2025, Gorakhpur

Vikram Saini

1. Targeting redox and bioenergetics health for understanding mycobacterial pathogenesis. AIIMS-CCMB Joint Symposium, 16 and 17 August 2024, New Delhi
2. Affordable and Eco-friendly Biotech Innovations for emergency preparedness: Lessons from COVID19. Awareness Program on One Health, Center for Biotechnology, MDU, Rohtak, 8 October 2024, Rohtak
3. Targeting host and bacterial bioenergetics during microbial infections. AIIMS-IICB Joint Research Symposium, Indian Institute of Chemical Biology, Kolkata, 24 October 2024, Kolkata

4. The role of Dietary Components and Micronutrients in Modulating Susceptibility to Infections. SFFRI International conference on Redox Medicine**,** Bhabha Atomic Research Center, Mumbai, 7 November 2024, Mumbai
5. Innovation amid crisis: Sustainable & Cost-Effective Solutions for Infectious Disease Research. Zoological Society of College awareness program on Microbiology at Swami Shardhanand College, University of Delhi, 11 November 2024, Delhi
6. Affordable and eco-friendly innovations in PPE disinfection and reuse during emergency: Lessons from COVID-19, National CME on One Health (NAMSCOM 2024), AIIMS, Jodhpur, 22 November 2024, Jodhpur
7. Affordable and Sustainable Biotech Innovations for emergency preparedness: Lessons from COVID-19 through a One Health Lens. National, Symposium of Sun Pharma Science Foundation on One Health. BRIC-National Institute of Animal Biotechnology, NIAB, 3 February 2025, Hyderabad
8. Eco-friendly, and Affordable Innovations to address diagnosis and biosafety during emergency: Lessons from COVID-19, 37th CAFT in Veterinary Microbiology entitled as *Emerging trends in Serological, Molecular and Cell Based diagnostics in Veterinary Sciences;* organized by ICAR Center for Advanced Faculty Training [CFAT] for Faculty and Scientists of National Universities and institutes at Lala Lajpat Rai University of Veterinary & Animal Sciences (LUVAS), Hisar, Haryana, February 2025, Hisar
9. From Hypothesis to Therapeutic Insights: Research Methodology Lessons from Hydrogen Sulfide Studies in Tuberculosis, Workshop on Research Methodology for Research scholars of Faculty of Life Sciences and Faculty of Pharmaceutical Sciences at MDU. 17 February 2025, Rohtak
10. Collaborative Surveillance for Pandemic Preparedness & Response, 14th National Conference of Indian Association of Epidemiologists Epidemiology in Public Health for Viksit Bharat by 2047 at NCDC, 7 and 8 March 2025, NCDC, New Delhi
11. Understanding Tuberculosis: Nutritional Influences, Challenges, and Opportunities in Infection Control, World TB Day Awareness Program at Bhaskaracharya College, Delhi University, 24 March 2025, Delhi

Bhupendra Kumar Verma

1. tRNA-derived non-coding RNAome during Dengue Virus Pathogenesis, 12th RNA Group Meeting Organized by IIT Guwahati, Assam, 22 May 2024, Guwahati
2. Molecular Insights into Pathogenesis: A Biodefence Perspective, National conference on "Energizing & Synergizing Academia & Industry for Accelerating Pace of Technology Development in Chem-Bio Defence' Organized by DRDE, Gwalior, MP 21 September 2024, Gwalior
3. Dengue Virus-Host Interactions: Molecular Insights and the Pursuit of Novel Biomarkers, VIROCON-2024: Emerging Viruses: Pandemic & Biosecurity Perspectives. Organized by DRDE, Gwalior, MP 12 November 2024, Gwalior
4. The Road to Academia: My Journey to Becoming an Associate Professor, Seminar series "Distinguished Alumni Series". Organized by Department of Microbiology, Maharshi Dayanand Saraswati University, Ajmer, Rajasthan, 11th January 2025, Ajmer
5. Use of Virus as a model organism in research, Workshop series "Model Organisms in Research" organized by Sri Venkateswara College, University of Delhi, 16 January 2025, New Delhi
6. Dengue Virus-Host Interactions: Unravelling Gene Regulatory Mechanisms and Identifying Novel Avenues for RNA Therapies, The Asia-Pacific Forum on RNA Therapeutics and Vaccines (APFRTV) organized by JNU New Delhi, 24 February 2025, New Delhi

Sumit Rathore

1. What it Takes to Enter -Deciphering *Plasmodium vivax* invasion strategies with help of Proteomics, 5-days Hands on workshop on "Integrated OMICS" covering Genomics, Proteomics and Bioinformatics at National Centre for Biological Sciences (NCBS) Bangalore and Institute of Stem cell Science and Regenerative Medicine (InStem), 7 May 2024, Bangalore, India
2. Role of Tryptophan-Rich Antigens in Plasmodium Vivax Biology, Indo-French workshop on Genomics and Omics Strategies To target Drug resistant malaria parasite" at IAB, Grenoble, France, 25 June 2024-6 July 2024, Grenoble, France.

3. Role of Tryptophan-Rich Antigens in Plasmodium Vivax Biology, 32nd National Parasitology Conference, 3-5 October 2024, Pune, India.
4. *Plasmodium vivax* tryptophan-rich antigen PvTRAg36.6 of PvFam-a family interacts with reticulocyte receptor CD71, 5-days Hands on workshop on "Integrated OMICS" covering Genomics, Proteomics and Bioinformatics at National Centre for Biological Sciences (NCBS), 16 October 2024, Bangalore
5. *Plasmodium vivax* tryptophan-rich antigen PvTRAg36.6 of PvFam-a family interacts with reticulocyte receptor CD71, International Workshop on New Approaches to Discover Vaccine and Drugs for Infectious Diseases at ICGEB, 2–4 December 2024, New Delhi

Vineet Choudhary

1. How cells fatten up: role of lipid droplets, Seminars in Molecular Medicine & Biotechnology, 18 April 2024, New Delhi
2. Biological sample preparation using high-pressure freezing: current state and future prospects, National Workshop on Electron Tomography of Biological Specimens, Electron Microscope Facility, AIIMS, New Delhi, 22-26 April 2024, New Delhi
3. Hands-On: Demonstration of experimental procedure of high-pressure freezing, National Workshop on Electron Tomography of Biological Specimens, Electron Microscope Facility, AIIMS, New Delhi, 22-26 April 2024, New Delhi
4. Seipin luminal domain is dispensable in establishing functional ER sites of lipid droplet biogenesis, Organellar Biology and Membrane Trafficking Meeting, Indian Institute of Science Education and Research (IISER), Pune, Maharashtra, 28 and 29 October 2024, Pune
5. Animal cell culture establishment and functioning, Three-day online workshop on "Model Organisms in Research" Department of Zoology Sri Venkateswara College University of Delhi, 15-17 January 2025, New Delhi
6. Use of Bacteria as a model organism in research (Escherichia coli), Three-day online workshop on "Model Organisms in Research" Department of Zoology Sri Venkateswara College University of Delhi 15-17 January 2025, New Delhi
7. Emerging Trends in Biotechnology Department of Microbiology, Institute of Home Economics, University of Delhi 27 February 2025, New Delhi
8. Biogenesis of lipid droplets from specialized subdomains in the endoplasmic reticulum Regional Young Investigators Meeting 2024-25
9. National Brain Research Centre (NBRC), Manesar & Ashoka University, Sonipat, Haryana, 19-21 March 2025, Sonipat

Mahendra Seervi

1. Nuclear Pore Complex (NPCs) alteration and its potential correlation with cancer aggressiveness, **"**International Conference on Integrative Oncology and Systems Medicine: Emerging Trends and Therapeutic Potential" Sridev Suman Uttarakhand University & AIIMS Rishikesh, 20 and 21 February 2025, Rishikesh

19. Rathore S**,** Plasmodium vivax tryptophan-rich antigen PvTRAg36.6 of PvFam-a family interacts with reticulocyte receptor CD71**,** International Workshop on New Approaches to Discover Vaccines and Drugs for Infectious Diseases, 2–4 December 2024, New Delhi
20. Rathore S**,** Plasmodium vivax tryptophan-rich antigen PvTRAg36.6 of PvFam-a family interacts with reticulocyte receptor CD71**,** 5-day Hands-on workshop on "Integrated OMICS" covering Genomics, Proteomics and Bioinformatics at National Centre for Biological Sciences (NCBS), 16 October 2024**,** Bangalore
21. Rathore S, PvTRAg26.3 (PVX_112660) - Stomatin along with lipid interaction study - new insight of Plasmodium vivax invasion into human reticulocyte/erythrocyte, 4th Research Day, AIIMS, 30 January 2025, New Delhi
22. Rathore S, PvTRAg26.3 (PVX_112660) - Stomatin along with lipid interaction study - new insight of Plasmodium vivax invasion into human reticulocyte/erythrocyte, 9th International Conference on Plasmodium vivax Research India, 12-14 February 2025, Pondicherry

23. Rathore S, Role of PvTRAg36.6 – CD71 interaction in Plasmodium vivax invasion into human reticulocytes", International Workshop on New Approaches to Discover Vaccine and Drugs for Infectious Diseases, 2-4 December 2024, Greater Nodia
24. Rathore S, Role of Tryptophan-rich antigens in Plasmodium vivax biology, Keystone symposia, 30 March-2 April 2025, New Mexico
25. Rathore S, Role of Tryptophan-Rich Antigens in Plasmodium Vivax Biology, Indo-French workshop on Genomics and Omics Strategies To target Drug-resistant malaria parasite", 25 June-6 July 2024, IAB, Grenoble, France.
26. Rathore S, Role of Tryptophan-Rich Antigens in Plasmodium Vivax Biology, 32nd National Parasitology Conference, 3-5 October 2024, Pune
27. Rathore S, What it Takes to Enter -Deciphering Plasmodium vivax invasion strategies with help of Proteomics, 5-days Hands-on workshop on "Integrated OMICS" covering Genomics, Proteomics and Bioinformatics at National Centre for Biological Sciences (NCBS) Bangalore and Institute of Stem cell Science and Regenerative medicine (InStem), 7 May 2024, Bangalore
28. Saini C, Sapra L, Puri P, Chawla R and Srivastava RK, Imbalance of Th17/Treg cell axis correlated with local and systemic Uveitis, 4th AIIMS Research Day, 30 January 2025, New Delhi
29. Saini K, Negi K, Negi S, Purkayastha K, and Saini V, Best poster Award (First Prize) to Ms Kanchan Saini. Selenium supplementation improves redox and mitochondrial health to mitigate tuberculosis infection. International Conference on "Developments in the science of oxidative stress and redox medicine" [DISCOVER-2024] & 18th Meeting of the society for free radical research India (SFRR-India), 6-9 November 2024, Mumbai
30. Saini K, Negi K, Negi S, Purkayastha K, Rajeshwari R, Subramanian A, et al, Selenium supplementation improves redox and mitochondrial health to mitigate tuberculosis infection, 4th AIIMS Research Day, 28-30 January 2025, New Delhi
31. Saini K, Negi K, Negi S, Purkayastha K, Rajeshwari R, Subramanian A, et al, The Role of Diet and Micronutrients in Modulating Susceptibility to Infections, 4th AIIMS Research Day, 28-30 January 2025, New Delhi
32. Seervi M, Elucidating the Role of Aldehyde Dehydrogenase 1A3 (ALDH1A3) in Anastatic Cancer Cells, 4th AIIMS Research Day, 29 and 30 January 2025, New Delhi
33. Seervi M, Mapping Nuclear Pore Complex Architecture to Cancer Aggressiveness, 4th AIIMS Research Day, 29-30 January 2025, New Delhi
34. Seervi M, Nuclear Pore Complex (NPCs) alteration and its potential correlation with cancer aggressiveness, 47th All India Cell Biology Conference and International Symposium 'Cell in Action' at NISER, 16-18 December 2024, Bhubaneshwar
35. Seervi M, Stress granule nucleating factor G3BP1: a key player in the cell recovery from late-stage apoptosis, Recent Advances in Disease Biology & Emerging Therapeutics (RADBET) an international symposium at Banaras Hindu University, 17-19 January 2025, Varanasi
36. Seervi M, Stress granule nucleating factor G3BP1: a key player in the cell recovery from late-stage apoptosis, International Symposium on Mitochondria, Cell Death and Human Diseases: Frontiers in Cancer Research at Convention Center, Jawaharlal Nehru University, 17 and 18 February 2025, New Delhi
37. Seervi M, Stress granule nucleating factor G3BP1: a key player in the cell recovery from late-stage apoptosis, 4th AIIMS Research Day, 29 and 30 January 2025, New Delhi
38. Sharma M and Srivastava RK, A Comparative account of Serum-Derived Extracellular Vesicles (SDEVs) from Healthy & Osteoporotic patients: Implications in Bone Health, 13th Annual International Conference of Indian Academy of Biomedical Sciences (IABSCON-2023), 11-13 February 2025, Bhopal
39. Sharma M and Srivastava RK, Probiotics-derived Extracellular Vesicles (EVs) ameliorate Glucocorticoid-Induced inhibition of Osteoblastogenesis, International Conference on Reproductive Biomedicine: Integrating Basic Biological and Applied Research into Clinical Practice for Human Welfare along with 35th Annual Meeting of the Indian Society for the Study of Reproduction and Fertility (ISSRF-2025), 14-16 February 2025, Jaipur
40. Shokeen N, Rana M, Lone AS, Singh A, Singh G, Thakar A et al, Mechanistic understanding of regulation of zinc-redox homeostasis in mucormycosis. 4th AIIMS Research Day, 28-30 January 2025, New Delhi
41. Shokeen N, Rana M, Lone AS, Singh A, Singh G, Thakar A et al, Best poster Award (First Prize) to Ms Niti Shokeen. Dysregulation of zinc homeostasis in mucormycosis and impact on cellular redox health. International Conference on "Developments in the science of oxidative stress and redox medicine" [DISCOVER-2024] & 18th meeting of the society for Free Radical Research India (SFRR-India), 6-9 November 2024, Mumbai

42. Singh A, Kaur SP and Srivastava RK, Bacillus coagulans (BC) ameliorates immunopathology of Osteoarthritis, 13th Annual International Conference of Indian Academy of Biomedical Sciences (IABSCON-2023), 11-13 February 2025, Bhopal
43. Singh A, Kaur SP and Srivastava RK, Bacillus coagulans (BC) ameliorates immunopathology of Osteoarthritis, 4th AIIMS Research Day, 30 January 2025, New Delhi
44. Soni S, Negi K, Pandey H and Saini V. Correlation of mitochondrial dynamics with host susceptibility to opportunistic infection. 4th AIIMS Research Day, 28-30 January 2025, New Delhi
45. Srivastava RK**,** Harnessing the immunoporotic potential of Bifidobacterium longum in ameliorating inflammatory bone loss in postmenopausal osteoporosis via targeting "Breg-Treg-Th17" cell axis: Bench-to-Bedside**,** International Congress of Mucosal Immunology (ICMI-2024)**,** 6-10 July 2024**,** Copenhagen, Denmark
46. Verma A, Sharma M, Kaur SP, Singh A and Srivastava RK**,** To study the effect of Chronic stress on Osteoimmune System**,** 4th AIIMS Research Day, 30 January 2025**,** New Delhi
47. Yadav S and Srivastava RK, 7- Keto Lithocholic acid (7-keto LCA, a secondary bile acid mitigates Post-Menopausal Osteoporosis, 4th AIIMS Research Day, 30 January 2025, New Delhi
48. Yadav S and Srivastava RK, Deoxycholic acid (DCA) ameliorates ovariectomy-induced post-menopausal osteoporosis, 13th Annual International Conference of Indian Academy of Biomedical Sciences (IABSCON-2023), 11-13 February 2025, Bhopal

* Best Poster Presentation Award

** Commendation prizes

$ Young Investigator Award.

Oral/poster	20	49	49

RESEARCH

Funded projects

Ongoing

1. A comparative study to evaluate the effect of first-line therapies in Osteoporotic patients, Dr Rupesh K Srivastava, AIIMS-Interdisciplinary Research Grant, 2 Years, 2023-2025, Rs 20 Lakhs
2. A longitudinal study to assess the incidence of chronic pulmonary aspergillosis in pulmonary tuberculosis patients and identification of Aspergillus immunodiagnostic antigens, Dr Sumit Rathore, All India Institute of Medical Sciences, 2 Years, 2023-25, Rs 10 Lakhs
3. Advancing High Containment Laboratory (HCL) Operations and Maintenance (O&M) Programs to Secure High-Consequence Pathogens in India. Dr Vikram Saini**,** U.S. Department of State's Office of Cooperative Threat Reduction (CTR)**,** 1 Year**,** 2024-2025, Rs 15 Lakhs
4. Center of Excellence and Regional Center for One Health Program, supported by NCDC and Ministry of Health**,** Dr. Vikram Saini**,** NCDC, Ministry of Health and Family welfare**,** 5 Years, 2023-2028, Rs 350.00 Lakhs
5. Comparative evaluation of nuclear pore complex (NPCs) and nucleoporins in untreated versus anastatic cancer cells, Dr Mahendra Seervi, AIIMS, 2 Years, 2023-2025, Rs 10 Lakhs
6. Cytoplasmic stress granules: dynamic regulators of anastasis in cancer cells?, Dr Mahendra Seervi, SERB, 3 Years, 2021-2024 Rs 64 Lakhs
7. Deciphering the functions of the conserved fat storage-inducing transmembrane (FITM2) protein in lipodystrophy and insulin resistance through systems approaches**,** Dr. Vineet Choudhary, Department of Biotechnology (DBT); Bilateral Programme (Indo-Swiss Joint Research Programme (ISJRP), 4 Years, 2021-2025, Rs 250 Lakhs
8. Discovering the anti-inflammatory effects of novel Toll-like receptor signaling inhibitors on rheumatoid arthritis mononuclear cells and synovial fibroblasts: An in vitro study to identify TLR signaling inhibition as future

potential strategy to control inflammation in rheumatoid arthritis, Dr. Sirish Kumar Ippagunta, ICMR, 3 Years, 2022-2025, Rs 81.81 Lakhs

9. Elucidating the Molecular Mechanisms of Host-Pathogen Interactions in Individuals with Tuberculosis and Diabetes Mellitus**,** Dr Vikram Saini**,** AIIMS Intramural**,** 2 Years, 2024-2026, Rs 10 Lakhs
10. Establishment of Intestinal Organoids to Investigate the Crosstalk between Probiotics and Intestinal Cells under Ethanol Exposure, Dr. Avtar Singh Meena, AIIMS Intramural Grant, 2 Years, 2023-2025, Rs 10 Lakhs
11. Examining the Role of the TRPV6 Channel in the Development of Alcohol-Induced Colorectal Cancer, Dr Avtar Singh Meena, SERB, 3 Years, 2023-2026, Rs 50 Lakhs
12. Exploring the Role of Non- Non-Professional Phagocytosis in Liver Cancer Progression, Dr. Avtar Singh Meena, AIIMS-IGIB Grant, 2 Years, 2025-2027, Rs 10 Lakhs
13. Exploring the Transcriptome of Gallbladder Cancer: A Comparative Study of Metastatic and Non-Metastatic Patients Using RNA Sequencing and Organoids, Dr Avtar Singh Meena, AIIMS Interdisciplinary Collaborative Grant, 2 Years, 2025-2027, Rs 10 Lakhs
14. Generation of Molecular Tools for functional Characterization of Silent Genetic Variants of Endothelin Receptor Genes, Dr. Anushree Gupta, AIIMS, 2 Years, 2022-2025, Rs 10 Lakhs
15. Identification of key ligands/ligand complexes on *Plasmodium falciparum* merozoite using Cryo-EM, proteome and immunological approaches-A step towards the development of an efficacious malaria blood stage vaccine, Dr. Sumit Rathore, DBT/Welcome Trust India Alliance's, 5 Years, 2024-2029, Rs 165 Lakhs
16. Investigate the role of fat storage-inducing transmembrane (FITM2) protein in organizing ER subdomains for lipid droplet biogenesis**,** Dr Vineet Choudhary, AIIMS Early Career Intramural Research Grant, 2 Years, 2024-2026, Rs 10 Lakhs
17. Investigating the Diagnostic Potential of Gut-Associated Metabolites in Post-Menopausal Osteoporotic Women and Exploring Their Therapeutic Potential in Pre-Clinical Model of Osteoporosis: An Osteoimmunological Approach, Dr. Rupesh K. Srivastava, ICMR, 3 Years, 2024-2027, Rs 780 Lakhs
18. Investigating the Immunometabolic determinants of protection among mucormycosis patients, Dr. Vikram Saini, AIIMS Interdepartmental Collaborative Projects, 2 Years, 2024-2026, Rs 20 Lakhs
19. Investigating the Molecular Mechanism Underlying Thrombocytopenia during Dengue Virus Infection using K562 Megakaryopoiesis Cell Model, Dr Bhupendra K Verma, AIIMS, 2 Years, 2024-2026, Rs 10 Lakhs
20. Investigation of key splicing events modulated in DENV infection, Dr. Bhupendra K. Verma, DBT, 3.5 Years, 2021-2025, Rs 55.5 Lakhs
21. Mechanistic analysis of tRNA-derived RNA fragments in DENV pathogenesis, Dr Bhupendra K Verma, SERB, 3 Years, 2023-2026, Rs 50 Lakhs
22. Metabolic reprogramming as a novel tool for personalized medicine in Acute lymphoblastic leukemia patients, Dr. Vikram Saini, ICMR, 3 Years, 2025-2028, Rs 359.60 Lakhs
23. Molecular Characterization of 5'UTR Of EDN1 gene containing single +139'A' Insertion Mutation, Dr. Anushree Gupta, ICMR, 3 Years, 2022-2025, Rs 84.51 Lakhs
24. Molecular Mechanisms of Lipid Droplet Biogenesis**,** Dr Vineet Choudhary, DBT/Welcome Trust India Alliance, 5 Years, 2021-2026, Rs 359 Lakhs
25. National Consortium for One Health to address Zoonotic and Transboundary Diseases in India, including the Northeast Region, Dr Vikram Saini (PI at AIIMS), DBT, 3 Years, 2021-2025, Rs 57.12 Lakhs
26. Probiotics mediated bioenergetics health modulation as a novel approach to the management of microbial infections, Dr. Vikram Saini, DRDO, 3 Years, 2021-2025, Rs 75.50 Lakhs
27. Quantitative signatures of circulating small non-coding RNAs for diagnosis of pulmonary tuberculosis and latent TB infection, Dr Sumit Rathore, ICMR under small extramural grant scheme, 2 Years, 2025-2027, Rs 98 Lakhs
28. Selenium supplementation as an adjunct therapy against tuberculosis, Dr Vikram Saini, ICMR, 3 Years, 2024-2027, Rs 68.80 Lakhs
29. Single-cell quantitation of mRNA and protein expression of antigenic variation genes and tissue tropism characterization in Plasmodium falciparum. Dr. Sumit Rathore, Ministry of Human Resource and Development, 3 Years, 2023-2026, Rs 40 Lakhs

30. The Role of *Lactiplantibacillus Pentosus* in Mitigating Alcoholic Liver Disease through Modulation of the Gut-Liver Axis. Dr. Avtar Singh Meena, SERB, 2 Years, 2023-2025, Rs 30 Lakhs
31. To establish the therapeutic potential of probiotics and their associated metabolites in mitigating pulmonary and extrapulmonary ARDS under preclinical and clinical conditions, Dr Rupesh K Srivastava, ICMR, 3 Years, 2024-2027, Rs 190 Lakhs
32. To investigate the bone protective potential of selected homeopathic formulations (SHFs) in osteoporotic conditions, Dr Rupesh K Srivastava, CCRH-AYUSH, 3 Years, 2022-2025, Rs 70 Lakhs
33. To investigate the therapeutic potential of probiotics in treatment and management of osteoporosis: "Role of regulatory B cells (Bregs), Dr Rupesh K Srivastava, ICMR, 3 Years, 2023-2026, Rs 73 Lakhs
34. Understanding key regulators of Mitochondrial dynamics and hemeostasis in human malaria parasite *Plasmodium falciparum*", Dr Sumit Rathore, Department of Science and Technology-SERB, 3 Years, 2023-2026, Rs 67 Lakhs
35. Understanding the role of Lipid-Protein interactions during the life cycle of *Plasmodium vivax*, Dr Sumit Rathore, Department of Science and Technology-SERB, 3 Years, 2024-2027, Rs 55 Lakhs

Completed

1. Characterization of immunomodulatory proteins of MIP, Dr Vikram Saini, AIIMS, 2 Years, 2021-2023, Rs 10 Lakhs
2. Characterization of L, D-trans peptidases from Mycobacterium abscessus: An Emerging Opportunist Pathogen, Dr Vikram Saini (Mentor to Dr Namrata Kushwaha Woman Scientist), DHR, 3 Years, 2020-2023, Rs 30.9 Lakhs
3. Decoding the miRNAs-RBPs nexus in DENV pathogenesis, Dr Bhupendra K Verma, AIIMS, 2 Years, 2022-2024, Rs 10 Lakhs
4. Exome sequencing and molecular characeterization in Juvenile nasopharyngeal angiofibroma, Dr Bhupendra K Verma & Dr. Hitesh Verma (ENT, AIIMS, Delhi), AIIMS, 3 Years, 2021-2024, Rs 20 Lakhs
5. Exploring the immunomodulatory activities of novel Toll-like receptor-signaling inhibitors in peripheral blood mononuclear cells from lupus patients: A study to identify TLRs as drug targets for lupus. Dr Sirish Kumar Ippagunta, SERB, 4 Years, 2020-2024, Rs 68.01 Lakhs
6. Host transcriptomic profiling in mildly symptomatic, sick, and sicker COVID-19 patients, Dr Vikram Saini, AIIMS COVID-19, 2 Years, 2021-2023, Rs 10 Lakhs
7. Identifying the bioenergetics mechanisms of dysregulation of immune cells during SARS-CoV-2 infections, Dr Vikram Saini, AIIMS Inter-Departmental, 2 Years, 2021-2023, Rs 20 Lakhs
8. Modulation of host bioenergetics health and redox function via Selenium supplementation as a novel approach to tuberculosis management, Dr Vikram Saini, DST-SERB, 3 Years, 2020-2023, Rs 53.5 Lakhs
9. Role of hydrogen Sulfide in mycobacterial infections, Dr Vikram Saini, DBT, 4 Years, 2020-2023, Rs 59.6 Lakhs
10. To dissect the Immunomodulatory potential of Probiotics in ameliorating acute respiratory distress syndrome (ARDS)**,** Dr Rupesh K Srivastava**,** Unique Biotech, Hyderabad**,** 2 Years, 2022-2024, Rs 10 Lakhs
11. To elucidate the immunomodulatory role of probiotics in modulating bone health in post-menopausal osteoporosis via its effect on ILC3-ILCreg cell axis, Dr Rupesh K Srivastava, DBT, 3 Years, 2021-2024, Rs 82 Lakhs
12. To establish the role of Th9 cells in the pathophysiology of Osteoporosis, Dr Rupesh K Srivastava, AIIMS-Intra Mural Research Grant, 2 Years, 2022-2024, Rs 10 Lakhs

Departmental projects

Ongoing

1. Characterization of immunomodulator proteins of MIP
2. Cloning, expression and characterization of human alpha defension peptides
3. COVID-19 coinfections and metabolic basis of immune response
4. Deciphering the functions of the conserved fat storage-inducing transmembrane (FITM2) protein in the assembly of lipid droplets
5. Decoding miRNA-RBP nexus during Dengue virus pathophysiology

6. Development of antimicrobial clothing to combat hospital acquired infections
7. Development of In-House Diagnostic Assay for Chronic Pulmonary Aspergillosis by Identifying Novel Antigens
8. Elucidating the role of ALDH1A3 in anastatic cancer cells
9. Establishing the Immunoporotic role of "Breg-Treg-Th17" cell axis in Probiotics mediated modulation of Bone Health
10. Establishing the Osteoprotective role of GUT-Associated Metabolites (GAMs) in Bone Pathologies
11. Examination of fatty acid impact on alcohol-induced intestinal barrier dysfunction in vitro.
12. Expression and Functional analysis of Endothelin Receptor genes
13. Functional characterization of ER subdomains engaged in lipid droplet Biogenesis
14. Functional Characterization of Iron Transporting Genes of *Plasmodium falciparum* in Yeast Knockout Lines
15. Functional Characterization of Yeast TAG-synthase Lro1 and its human homolog LCAT in neutral lipid homeostasis
16. Generation and expression of endothelin 'A' gene carrying SNPs observed in Indian patients suffering from Coronary Artery Disease
17. Generation of Molecular Tools for CRISPR mediated knock-in of an 'A' in 5'UTR region of ET-1 gene
18. Identification and functional characterization of tRNA derived RNA fragments in DENV pathogenesis
19. Identification of RNA – Protein Interactome of 5'UTR of endothelin gene
20. Investigate the role of lipid droplet assembly factors in the regulation of lipid droplet biogenesis
21. Molecular basis of severity of mucormycosis infection
22. Nutritional factors, micronutrient supplementation and tuberculosis infection
23. One health approach of combating zoonotic infections
24. Role of intracellular gases in bacterial infections
25. Role of probiotics in immunomodulation and microbial infections
26. Screening of selective 2-phenyl quinazoline derivatives for identification of TLR2 inhibitors
27. Screening of selective 2-phenyl quinazoline derivatives for identification of TLR4 inhibitors
28. Spliceosomal regulation in Dengue pathophysiology
29. To delineate the immunoporotic role of regulatory and effector B-cell axis in the pathophysiology of Osteoporosis
30. To dissect the role of GUT resident Treg-Th17 cell axis in post-menopausal osteoporosis
31. To elucidate the immunomodulatory role of probiotics in modulating bone health in post-menopausal osteoporosis via its effect on ILC3-ILCreg cell axis
32. To investigate the bone protective potential of selected homeopathic formulations (SHFs) in osteoporotic conditions
33. To investigate the Cytotoxic T-Lymphocyte mediated immunotherapeutic potential of Indole-3-Lactic Acid (ILA) on Osteosarcoma
34. Understanding the basis of drug tolerance in mycobacterial infections
35. Understanding the role of stress granules proteins in anastatic cancer cells

Completed

1. Characterization of aldehyde dehydrogenase (ALDH) activity in anastatic cancer cells (2023-24)
2. Characterization of immunomodulator proteins of MIP
3. Characterization of proteins of sulfur metabolism in mycobacterium
4. Deciphering the co-relation between XPO1 and nuclear pore complex number in cancer cells (2023-24)
5. Development of Aptamer Based Assay for detection of *Plasmodium* Infection

6. Dissecting the Immunoporotic role of GUT resident Treg-Th17 cell axis in Post-menopausal Osteoporosis
7. Establishing the Immunoporotic role of "Breg-Treg-Th17" cell axis as a novel Immunotherapeutic strategy in mitigating Inflammatory Bone Loss in Post-menopausal Osteoporosis
8. Functional characterization of yeast triacylglycerol synthesizing enzyme Lro1
9. Generation and expression of endothelin 'A' gene carrying SNPs observed in Indian patients suffering from Coronary Artery Disease
10. Generation of Molecular Tools for CRISPR mediated knock-in of an 'A' in 5'UTR region of ET-1 gene
11. Identification of interacting proteins of *Plasmodium vivax* Tryptophan Rich Antigen 26.3 (PvTRAg26.3) with erythrocyte surface
12. Investigate the consequences of ectopic lipid droplets in cells lacking seipin function
13. Investigation of the protective potential of *Lactobacillus pentosus* in the mitigation of intestinal injury
14. Investigation of transcriptional regulation of MYH9 during DENV pathogenesis : possible role of RUNX1
15. Micro-nutrient supplementation in mycobacterial infections
16. Role of metals in regulation of Hydrogen sulfide production
17. Role of transpeptidase enzymes in M abscessus drug tolerance
18. Role of Zinc in mucormycosis
19. Screening of selective pyrazole derivatives for identification of TLR2 inhibitors
20. Screening of selective pyrazole derivatives for identification of TLR4 inhibitors
21. Spliceosomal regulation in Dengue pathophysiology
22. Subcellular Localization of Mitochondrial Carrier Protein of *Plasmodium falciparum*.
23. Sulfur metabolism for mycobacterial drug targeting
24. Surface Proteomics of reticulocytes in *Plasmodium vivax* severe malaria patients
25. To characterize the role of Spo7 in neutral lipid homeostasis
26. To decipher the mechanistic role of i-tRF Lys CTT and 3'tRF Glu-TTC during Dengue virus replication
27. To delineate the immunoporotic role of regulatory and effector B-cell axis in the pathophysiology of Osteoporosis
28. To delineate the metabolic status of $CD8^+$ T cells in Osteosarcoma
29. To determine if composition of fat inside lipid droplets prevents or triggers lipophagy
30. To investigate protein targeting onto ectopic lipid droplets in seipin mutants
31. To investigate the Cytotoxic T T-Lymphocyte mediated immunotherapeutic potential of Indole-3-Lactic Acid (ILA) on Osteosarcoma
32. To investigate the role of Fat Storage-Inducing Transmembrane protein (FITM2) in lipid metabolism
33. To investigate the role of seipin TMDs in the nucleation of lipid droplets
34. To study the effect of chronic stress on Osteoimmune system

Collaborative projects

Ongoing

1. A comparative study to evaluate the effect of first-line therapies in Osteoporotic patients, Department of Orthopaedics, AIIMS, New Delhi
2. Adaptive Immune Responses to Covaxin and Covishield: A comparative study, Department of Biochemistry, AIIMS, New Delhi
3. Antisense oligo mediated therapies in Ataxia Talengiectasia, Paediatrics, AIIMS Delhi
4. Correlation between TRAP 5b and bone involvement in children and adolescents with Gaucher disease, Department of Pediatrics, AIIMS, New Delhi

5. Deciphering the functions of the conserved fat storage-inducing transmembrane (FITM2) protein in lipodystrophy and insulin resistance through systems approaches, Department of Biology, University of Fribourg, Fribourg, Switzerland.
6. Dengue pathogenesis & host spliceosome, THSTI
7. Exome sequencing and molecular characeterization in Juvenile nasopharyngeal angiofibroma, ENT, AIIMS Delhi
8. Exploring the Transcriptome of Gallbladder Cancer: A Comparative Study of Metastatic and Non-Metastatic Patients Using RNA Sequencing and Organoids, Department of GI Surgery
9. Identification of key ligands/ligand complexes on *Plasmodium falciparum* merozoite using Cryo-EM, proteome and immunological approaches step towards the development of an efficacious malaria blood-stage vaccine, AIIMS, ICGEB New Delhi, IIT Delhi, and University of California Los Angeles, USA
10. Investigate the Immunoporotic role of Bisphosphonates in treating postmenopausal osteoporosis, Department of Orthopaedics, AIIMS, New Delhi
11. Investigating the Diagnostic Potential of Gut-Associated Metabolites in Post-Menopausal Osteoporotic Women and Exploring Their Therapeutic Potential in Pre-Clinical Model of Osteoporosis: An Osteoimmunological Approach, Department of Orthopaedics, AIIMS, New Delhi
12. Mapping of air microbiome for virulence genes and resistome at various sites of the hospital through metagenomics approach, AIIMS Biotechnology, Hospital Administration and Delhi University
13. Molecular severity of Mucormycosis and mechanisms thereof, AIIMS ENT, Microbiology and Biotechnology
14. Role of T helper 17 and T regulatory cells in Gaucher disease with bone involvement: A pilot study, Department of Genetics, AIIMS, New Delhi
15. Single-cell quantitation of mRNA and protein expression of antigenic variation genes and tissue tropism characterization in *Plasmodium falciparum*. AIIMS New Delhi, IISER Pune, India
16. To delineate the immunoporotic role of ILCs in the pathophysiology of Osteoporosis, Department of Gastroenterology, AIIMS, New Delhi
17. To delineate the metabolic status of natural killer (NK) cells in Osteosarcoma, Department of Orthopaedics, AIIMS, New Delhi
18. To dissect the role of Treg-Breg-Th17-Th9 cell axis in chronic stress-induced bone loss, Department of Psychiatry, AIIMS, New Delhi
19. To establish the therapeutic potential of probiotics and their associated metabolites in mitigating pulmonary and extrapulmonary ARDS under preclinical and clinical conditions, Department of Pulmonary, Critical Care and Sleep Medicine, AIIMS, New Delhi Department of Medicine, AIIMS, New Delhi
20. To study the effect of chronic stress on Osteoimmune system, Department of Psychiatry, AIIMS, New Delhi
21. To study the role of iPSC derived hematopoietic progenitor cells for hematopoietic failure among trauma Hemorrhagic shock using animal model. AIIMS Emergency Medicine and AIIMS Biotechnology

Completed

1. Clinical significance of cancer stem cells markers and its proteins in different grades astrocytomas, AIIMS Biotechnology and RP Center, AIIMS
2. Elucidation of cellular mechanisms involving regulatory T cells (Tregs) in probiotics-mediated inhibition of Osteoporosis, Department of Gastroenterology, AIIMS, New Delhi
3. Evaluation of endothelin and retinal renin angiotensin system (RRAS) in glaucoma, Department Of Ocular Pharmacology, Dr R.P. Centre for Ophthalmic Sciences, A.I.I.M.S. New Delhi
4. Exploring the Tryptophan metabolism via Kynurenine pathway and their correlation with clinical outcome in Keratoconus and Fuch's endothelial corneal dystrophy patients undergoing corneal transplantation, AIIMS Biotechnology and RP Center, AIIMS
5. miRNA as evaluation Biomarker for tuberculosis treatment response, ICGEB New Delhi, and InStem Bangalore
6. To delineate the metabolic status of $CD8^+$ T cells in Osteosarcoma, Department of Orthopaedics, AIIMS, New Delhi

7. To investigate the Cytotoxic T-lymphocyte mediated immunotherapeutic potential of Indole-3-lactic acid on Osteosarcoma, Department of Orthopaedics, AIIMS, New Delhi
8. To investigate the therapeutic potential of extracellular vesicles (EV) released by human induced pluripotent stem cell (hiPSC)-derived mesenchymal stem cells (iMSCs) to counteract oestrogen deficiency-induced bone deterioration, Institute for Women's Health, University College London, London

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Anushree Gupta was honored as the Guest of Honour at MKM Kanya Mahavidyalaya, Hodal, on National Science Day, 28 February 2025. She provided technical guidance for the initiation of the Department of Biotechnology at VMMC & Safdarjung Hospital, New Delhi. She also served as a Subject Expert for the Medical Biotechnology faculty interviews held on 5 July 2024 at AIIMS, Nagpur. Additionally, Dr. Gupta served as the Patron of the 1st International Symposium on Bone Health (ISBH-2024), held on 9 November 2024 at AIIMS, New Delhi. She has held key institutional roles, including serving as the Central Public Information Officer for the Department of Biotechnology and as a member of the Institute Ethics Committee for PG Research (Basic Sciences) at AIIMS, New Delhi. She coordinated the Bioinformatics course module for M. Biotech. students and acted as the Internal Examiner for their final examinations.

Dr Rupesh Kumar Srivastava is a bone immunobiologist focused on uncovering the extensive role of the immune system in the development and pathophysiology of osteoporosis, which has led him to propose a new field of biology termed "Immunoporosis." His TIOIL Lab has recently been designated as an ICMR-Collaborating Centre of Excellence on Bone Health. He successfully organized the First International Symposium on Bone Health (ISBH-2024) on 9 November 2024 at AIIMS, New Delhi. He also served as a Reviewer for Abstracts for the 19th International Congress of Immunology (IUIS 2025) to be held in Vienna, Austria. Dr Srivastava is the recipient of several prestigious awards, including: AIIMS Research Excellence Award (2nd Prize) at the 4th AIIMS Research Day; ESCEO–Islene Araujo de Carvalho Prize at the World Congress on Osteoporosis (WCO-2025), Rome, Italy; Best Oral Presentation Award at the ISBMR Annual Conference held at PGIMER, Lucknow, from 30 November to 1 December 2024.

Dr Vikram Saini is a recognized expert in infectious disease biology, biosafety, and biosecurity, with a special emphasis on One Health and mycobacterial infections. Dr Saini serves as the regional Co-ordinator for the NCDC supported Center of One Health at AIIMS New Delhi, and an expert member and consultant for the National Biodefense Programme, Department of Defense, Govt of India; Expert Technical Advisory Committee, Director General of Health (DGHS) to set up Network of High containment Biosafety Level-3 (BSL-3) facilities in Various states of India under National Centre for Disease Control (NCDC), Govt. of India; and National Institute of Biologicals, Ministry of Health, and technical evaluation of development of the priority-pathogen containment facilities, for DRDO, India. In addition, Dr Saini also serves in the aacademic Council of Defense Institute of Physiology & Allied Sciences (DIPAS), New Delhi and the Under Graduate Board of Studies in Bio-technology Maharishi Dayanand University, Rohtak (Haryana). Dr. Saini also serves as the nominee of the Committee

for the Purpose of Control and Supervision of Experiments on Animals (CPCSEA), Department of Animal Husbandry and Dairying, GOI; and a principal investigator (at AIIMS) in National Consortium for One Health to address Zoonotic and Transboundary Diseases in India, including the Northeast Region. Additionally, Dr Saini is involved in several initiatives at AIIMS including being the principal investigator in the CRA between AIIMS-IIT start up for development of medicated and anti-microbial clothing's in India as per the Govt of India's Make in India Policy. Further, Dr Saini is member/special invitee to various institutional bodies/committees including Institutional Biosafety Committee (IBSC), Institutional Animal Ethics Committee (IAEC), Committee for nude-mice/Transgenic mice facility; member CCRF- BSL-3 laboratory, AIIMS; and Member-Secretary for establishment of A-BSL3 facility at Central Animal Facility, AIIMS. Dr Saini also serves as the examiner/evaluator for Ph. D degree (JNU, New Delhi), and various examination conducted by National Testing Agency, Ministry of Education, Govt of India for All India Entrance examination in different areas including UGC NET, DBT JRF, NEET UG examination and Masters examination in various subjects including Biotechnology, Public Health and Social Medicine. In addition, Dr. Saini serves as the review editor at journal Frontiers in Microbiology, Frontiers in Immunology, Frontiers in Redox Biology and Physiology and reviewer for various journals and funding agencies DBT, DST-SERB, Swiss National Science Foundation (SNF), etc. Served as: Resource Person and Session Chair at NAMSCOM-2024 in the special CME program On One Health with the theme "One-Health: Let us collaborate to Take Care of our Health" 64th Annual Conference of the National Academy of Medical Sciences (India), AIIMS Jodhpur, Rajasthan (Nov 22-24, 2024); Session Chair at the SFRRI International conference on Redox Medicine, 6-9 November BARC, Mumbai.

Dr Bhupendra Kumar Verma was awarded the *Excellence in Basic Sciences Award* for his publication titled "Synergistic Correlation between Host Angiogenin and Dengue Virus Replication" at the 4th AIIMS Annual Research Day, held on 29 and 30 January 2025, at AIIMS, New Delhi. He is also a lifetime member of the Indian Virological Society (IVS), India (Registration ID: 738, 2024), and a member of RNA India and Biogroup India.

Dr Vineet Choudhary is a recipient of the prestigious Welcome Trust/DBT India Alliance Intermediate Fellowship Grant. This is the first time someone from AIIMS, New Delhi has been awarded such a prestigious Grant in the field of Basic Biomedical Research. He is participating at the departmental level as Course Coordinator for Biophysics: Principles Techniques and Applications in Medicine (BPT), and Cell & Developmental Biology (CDB). He participated as an invited member of Selection Committee Meeting of **Indo-U.S. Science and Technology Forum (IUSSTF), a flagship program of Department of Biotechnology (DBT),** Government of India. He was invited to be a member of the Selection Committee Meeting of DBT-Research Associate (RA) Fellowship program. Dr. Choudhary serves as a reviewer for various national and international scientific journals. He is a member of American Society for Cell Biology and American Society for Biochemistry and Molecular Biology. He was an invited speaker at Organellar Biology and Membrane Trafficking Conference held at Indian Institute of Science Education and Research (IISER), Pune, Maharashtra. Dr. Choudhary delivered an invited talk at Department of Microbiology, Institute of Home Economics, University of Delhi. Dr. Choudhary gave an invited lecture at Regional Young Investigators Meeting 2024-25 National Brain Research Centre (NBRC), Manesar & Ashoka University, Sonipat, Haryana. He delivered a talk on the topic of High-Pressure Freezing at the 3rd National Workshop on "Electron Tomography of Biological Samples" conducted by Electron Microscope Facility, AIIMS, New Delhi.

HIGHLIGHTS

The Centre for Community Medicine (CCM) focuses on development of a model of community-based comprehensive health services through its urban and rural health programmes. The Urban Health Programme operates through an Urban Health Center at Dakshinpuri Extension, an urban resettlement colony in New Delhi. The Comprehensive Rural Health Services Project (CRHSP), located at Ballabgarh in District Faridabad of Haryana is a collaborative project between Haryana State Government and the AIIMS, New Delhi. The Mission of CRHSP Ballabgarh is to achieve excellence in public health by undertaking teaching, research and patient care in a rural setting. It comprises of a Sub-District Hospital (SDH), two Primary Health Centres (PHCs) at Dayalpur and Chhainsa, and a network of 12 sub-centres. The Intensive Field Practice area of CRHSP covered a total population of 1,05,163 as of 31 March 2025. The CCM provided technical support to national health programmes of ministry of health, Government of India through the National Centre of Excellence and Advanced Research on Anemia Control, WHO Collaborating Centre for capacity development and research in community-based NCD prevention and control, National Institute for HIV Sentinel Surveillance, Viral Hepatitis Control Programme, Innovation and Learning Centre for implementation of Comprehensive Primary Health Care, Cause of Death in India through SRS-based verbal autopsy, and Centre of Excellence for Air Pollution and Health. The department the 5th IAPSM Young Leaders National Conclave in November 2024.

EDUCATION

The academics in the department makes use of both online and offline teaching, as to make the resources more accessible and student friendly - SARAL and skill training. The undergraduate research programme, as a part community medicine training, again resumed back to physical mode based on field exercise. Postgraduate classes, seminars, and journal clubs stared completely in physical mode. There are skill based modules, available online, which are followed by hands-on skill training so as to make the training more effective.

1. Undergraduate MBBS students

In their 4th-5th semester, MBBS students are posted in the Urban Health Programme for five weeks by rotation where they conduct epidemiological exercise, health talks and family studies. During these two semesters, they also participate in the Family Health Advisory Services (FHAS) in which they follow-up allotted families over a period of nine months and assess effectiveness of interventions implemented by them.

MBBS students of the 7th semester, of All India institute of Medical Sciences, New Delhi, are posted at CRHSP Ballabgarh, in 5 batches for 6 weeks each. During this posting, students learn concepts of epidemiology through practice of exercises,

have orientation to community health including social determinants of health, community aspects of maternal and child health and mental health, orientation of health systems functioning at community level, and national health programmes.

There are special modules to train on Integrated Management of Neonatal and Childhood Illness (IMNCI) and epidemiology. The students also undertake a brief qualitative method-based research project known as Orientation of Undergraduates to Community Health (OUCH) during this posting. Each posting of six weeks is concluded by an internal assessment. Two skill modules namely, Glucometer use, and Glowing and gowning were covered during residential posting at CRHSP Ballabgarh.

2. Interns

The interns are posted for a total duration of three months at the CRHSP Ballabgarh. This period is divided into 6 weeks at SDH, and 3 weeks at each of the PHCs located at Dayalpur and Chhainsa. The entire posting is residential. At SDH, interns are posted in OPD and Wards that help them in learning basic clinical skills, as well as in-patient management, including conducting normal deliveries. They are rotated in all the available clinical disciplines at SDH under the supervision of Senior Residents (SR). During PHC posting, interns participate in health care delivery at the clinics of PHC, sub-centres, extension clinics at other villages. They are also posted at the delivery hut at each PHC under supervision of SR of Community Medicine. They get first-hand experience in community level activities such as supervision of health workers, follow-up of patients that have defaulted on anti-tuberculosis treatment, supervision of sub-centres, undertaking outreach activities, immunization, and other ongoing activities at the PHC. Interns are also involved in special activities at PHCs such as Kayakalp assessment, annual census, public awareness generation and school health related activities. At the end of the rural posting at CRHSP Ballabgarh, interns submit their log-book duly signed by respective SRs under whom they were posted for end posting assessment.

3. Postgraduate students of Community Medicine

The postgraduate students of Community Medicine are posted at urban and rural health programme for 18 months each. The postgraduate students of Community Medicine are posted at CRHSP Ballabgarh for 18 months. This posting is residential. Out of the total duration, they spend 5 months and 10 days each, at the sub-district hospital and both PHCs on a rotation. This gives them adequate opportunity to gain the necessary skills and experiences both at the SDH and PHC. They are encouraged to take active participation in decision making and administration at the PHC. The teaching programme includes seminars, family and clinical case presentations, operational research and problem-solving exercises based on Health Management Information System and field data. Residents also participated in various activities conducted at the PHCs and in the villages under various National health Programme.

4. BSc (Hons.) and Post basic Nursing Students

BSc (Hons.) and post basic nursing students are posted for one and half months at CRHSP Ballabgarh. This posting is residential in nature. They spend 1 month at SDH and 2 weeks in either of the 2 PHCs. They are provided training in antenatal care, management of ward, and immunization. They are posted both in OPD and in ward. They provide health talks, and IEC in OPD, and ward. Training of nursing students is supervised by a Faculty Member from the College of Nursing, AIIMS, New Delhi.

5. In-service Training

In addition to teaching of students, periodic in-service trainings was conducted for different cadres of staff working at the CRHSP Ballabgarh. The trainings conducted during 2023-24 were as following:

- A total of 50 hours of in-service training for Health Workers and ASHA workers (45*2=90) were conducted at PHC Dayalpur and Chhainsa (figures are inclusive). These are conducted during the meetings, each month. Topics were decided based on the training needs identified during field supervision; for the reporting period, these were as following: identification of JSY beneficiaries and facilitating them to avail benefit, management of animal bite cases, management of LBW babies, family planning - methods, importance and how to improve coverage, management of biomedical waste management, Tracking of High Risk Pregnancy and management, post-natal care for mother and newborn including complication management and kangaroo mother care, IMNCI-Identification and management of sick baby, identification, care and management of malnutrition at field level, Training on cold chain management PHC to immunization site and back to PHC, Diagnosis and management of TB cases.

CMES/WORKSHOPS/SYMPOSIA/NATIONAL AND INTERNATIONAL CONFERENCES

1. 5th IAPSM Young Leaders' National Conclave at AIIMS, New Delhi, 8–11 November 2024
2. AIIMS Public Lecture on "Air Pollution and Health Impacts – What" "Air pollution and Health Impacts: What we know and What we need to do?" on 10 September 2024 at AIIMS, New Delhi.

3. Webinar on "Community engagement for air quality management- Approaches and Lessons learned" under CAPHER India Webinar series- 7 March 2025
4. Workshop under CAPHER India on "Scientific Research Proposal Development on Air Pollution and Health" for early career researchers in collaboration with IASTA at Doon University– 16 December 2024
5. Webinar on "Impact of Air Pollution on Early Childhood Development" under CAPHER India Webinar Series - 24 July 2024
6. Webinar on "Impact of Heat on health amidst higher Air Pollution exposure -current evidences and cues for action" under CAPHER India Webinar series- 8 May 2024
7. CAPHER India Journal Club Series (Virtual) for early career researchers discussing scientific evidence with respect to air pollution epidemiology – First Journal club on "Exposure to Particulate matter and incident hypertension"- 7 February 2025
8. Workshop on "Research Methodology – Approaches and quality assessment of Systematic Reviews" at NMOCON – 2025 - 2nd March 2025, Udaipur, Rajasthan
9. Expert Consultation for Finalizing Health Adaptation Plan for Air Pollution-related illness under Centre for Excellence on Air Pollution and Health at AIIMS, New Delhi, 19 March 2025
10. Training of Early career researchers in Air Pollution and Health in collaboration with Health Effects Institute, Kathmandu, Nepal– 12-14 August 2024
11. "National Pre-Surveillance Workshop" for Regional Institutes, State AIDS Control Societies (SACS), Central Team Members (CTM), and officials of state AIDS Control Societies of all 37 States and union territories of India from 23rd - 27th September 2024 for the 19th round of HIV Sentinel Surveillance (HSS-2025) at Hotel the Muse Sarovar Portico, Kapashera, New Delhi.
12. "Pre-Surveillance Orientation and Planning Workshop for ANC, Prison, and HRGs HIV Sentinel Surveillance 2025 (HSS 2025)" for faculty members of various medical institutions, and officials of state AIDS Control Societies of five northern states (Bihar, Jharkhand, Delhi, UP, and Uttarakhand) at The Executive Club resort, New Delhi, 11-12 November 2024.
13. Public Lecture and Panel Discussion on High Blood Pressure – 24 May 2024
14. Workshop for enhancing mental health literacy among young adults at Jawaharlal Nehru University, New Delhi, 21-26 October 2024.
15. Workshop on Systematic Review and Meta-Analysis for Faculty, MAMC Medical College, New Delhi, 8 and 9 April 2024.

19. Industrial Exposure related Air Pollution and health impacts– Evidences and cues for action, XXVII Annual Conference of North Zone Chapter of Indian Association of Preventive & Social Medicine NZIAPSMCON -2024, 14 September 2024, ESIC, Faridabad, Haryana
20. Air quality and health: Concerns and guidelines, Mitigating air pollution for Sustainable Climate Change solutions - Global Sustainability Summit, Amity University, September 2024, Noida, Uttar Pradesh
21. Collaborative for Air Pollution and Health Effects Research (CAPHER) India, Training of Early-career researchers in Air Pollution and Health in collaboration with Health Effects Institute, Kathmandu, Nepal, 12 August 2024, Kathmandu, Nepal (Virtual)
22. Health Inesuqlity and its vulnerability to Climate Change, NAMS CME on Climate Change and Human Health, 9 August 2024, Naharlagun, Arunachal Pradesh

23. Strategising to cointer illefects of Climate Change, NAMS CME on Climate Change and Human Health, 9 August 2024, Naharlagun, Arunachal Pradesh
24. Health impact of Air Pollution – Evidence and cues for action, Smart Transportation for Reducing Emissions and Congestion in Indian Cities (STERC) Workshop by IIT Kanpur, 20 July 2024, Noida, Uttar Pradesh (Virtual)
25. Health Care for Transgender - Common Forms of Discrimination and Harassment in Healthcare Settings and Educational Institutions, Workshop on Breaking barriers - Promoting TGs Inclusivity in Medical Settings, AIIMS Bilaspur, 13 July 2024, AIIMS Bilaspur, Himachal Pradesh
26. Sustainable Population Growth: Rural and Urban - Trends, Challenges and Solutions, CME on World Population Day organised by Central Health Education Bureau, 1 July 2024, Delhi
27. Health impact of Air Pollution – Evidence and cues for action, International Conference on Climate Change and Health and Environmental Sustainability organised by Armed Forces Medical College, Pune, 18 June 2024, Pune
28. Health Impact of heatwave and Preparedness Measures, Training Programme on Heatwave mitigation and management for Officers /Officials of ESIC Medical Colleges, Hospitals and Dispensaries, Delhi, 6 June 2024, Delhi
29. Managing AIR POLLUTION: Way forward towards Achieving Health, IMA Webinar on Climate Change and health, 5 June 2024, Delhi, Virtual
30. Literature search and data abstraction in systematic review, SRMA Workshop Organised by ICMR – NCDIR, Bengaluru, 16 April 2024, Bengaluru
31. Managing AIR POLLUTION: Way forward towards Achieving Health, CME World Health Day, Sharda University, 7 April 2024, Noida, Uttar Pradesh

Rakesh Kumar

1. Tuberculosis and Neglected Tropical Disease in primary health care, Post Graduate Continued Medical Education 'Revisiting Primary Health Care in India- Beyond Medicine', 13 April 2024, New Delhi
2. Responsibilities of the Principal Investigator in reporting of serious adverse events, Workshop on "serious adverse events in clinical trials", 2 May 2024, New Delhi
3. Strengthening verbal autopsy-based mortality surveillance under Sample Registration System in India, Technical advisory group meeting of MINeRVA Network, 21 December 2024, New Delhi
4. Burden of seasonal influenza among high-priority groups: understanding the impact and challenges, 69th Annual Conference of Indian Public Health Association, 21 March 2025, Belagavi

Partha Haldar

1. Community Perspective in Viral Hepatitis, Public Health Lecture July 2024 at AIIMS New Delhi, 21 July 2024, New Delhi
2. Research Data Management, CDER Department of Prosthodontics, AIIMS New Delhi, 24 September 2024, New Delhi
3. Digital Technologies for Multisectoral Action in Primary Health Care, CME Community Medicine, AIIMS New Delhi, 12 April 2024, New Delhi
4. Statistical Analysis Plan, CRU workshop on Clinical Trials, AIIMS New Delhi, 01 October 2024, New Delhi
5. Confounders and their management, Workshop on Case Control Studies CEU, AIIMS, 04 February 2025, New Delhi
6. Impetus Stroke, Implementation Study findings, Investigator's Meeting, Impetus Stroke, 03 October 2024, New Delhi
7. Why do a Systematic Review and Meta Analysis, Workshop on Systematic Review and Meta Analysis, MAMC, 08 April 2024, New Delhi
8. How to frame a research question, Workshop on Systematic Review and Meta Analysis, MAMC, 08 April 2024, New Delhi

9. Formulating Research Question, Workshop on Systematic Review and Meta Analysis, MAMC, 08 April 2024, New Delhi
10. Designing Search Strategy, Hands-on, Workshop on Systematic Review and Meta Analysis, MAMC, 08 April 2024, New Delhi
11. Critical Appraisal and Quality assessment of Literature- a hands on using macros, Workshop on Systematic Review and Meta Analysis, MAMC, 08 April 2024, New Delhi
12. Measures of Association, Workshop on Systematic Review and Meta Analysis, MAMC, 09 April 2024, New Delhi
13. Interpretation of forest plots, funnel plots, Workshop on Systematic Review and Meta Analysis, MAMC, 09 April 2024, New Delhi
14. Publication bias, and guidance on writing a publication, Workshop on Systematic Review and Meta Analysis, MAMC, 09 April 2024, New Delhi
15. Research methodology, and systematic review and meta-analysis, 1st International Conference on Advances in Integrative Medicine 2025, 7 March 2025, New Delhi
16. Evidence-based Research, 53rd Annual Conference of IAPMR, NIMHANS, 29 January 2025, Bangalore

Mohan Lal Bairwa

1. Reorienting towards a more equitable and people-centered health system, Roundtable Meeting on Non-Communicable Diseases and Health Equity, 6 March 2025, Delhi
2. Strengthening medical certification of cause of death in the UT Puducherry: opportunities and challenges, Joint IPHA-IAPSM State Conference - Puducherry Chapter, 19-20 January 2025, Puducherry
3. Strengthening of Certification of Cause of Death of institutional deaths in India, Technical Advisory Group Meeting of MINErVA Network, 21 December 2024, Delhi
4. Strengthening of Certification of Cause of Death of institutional deaths in Rajasthan**,** State-level MCCD Reporting Improvement and Capacity-building Workshop, 28 July 2024, Jaipur
5. Strengthening of Certification of Cause of Death of institutional deaths in Rajasthan, State-level MCCD Reporting Improvement and Capacity building Workshop, 28 November 2024, Jaipur
6. Strengthening of Certification of Cause of Death of institutional deaths in Rajasthan, State-level MCCD Reporting Improvement and Capacity-building Workshop, 29 November 2024, Jaipur
7. Strengthening Medical Certification of Cause of Death in Rajasthan, Tamil Nadu, IAPSM YLNC 2024, 10 November 2024, Delhi
8. Sampling and Sample Size Calculation, Medicus Conventus, 5 October 2024, Delhi
9. CPHC – Introduction, Comprehensive Primary Health Care Sensitization workshop for District Nodal Officers, Medical Officers and CHOs at West Garo Hills, 8 August 2024, Tura, West Garo Hills
10. CPHC Teams, Comprehensive Primary Health Care Sensitization workshop for District Nodal Officers, Medical Officers and CHOs at West Garo Hills, 1 September 2024, Tura, West Garo Hills
11. Research question and hypothesis, Workshop on Qualitative Research in Medical Education- Basic level, 13 November 2024, Delhi
12. Research question and qualitative approaches, Workshop on Qualitative Research in Medical Education- Basic level, 4 February 2025, Delhi
13. Coding in qualitative data analysis, Workshop on Qualitative Research in Medical Education- Advanced level, 18 February 2025, Delhi

Manya Prasad

1. Moderator for sessions on ‘Synthesis of results’, ‘Subgroup and sensitivity analysis’, CME on Evidence-Based Medicine conducted by Department of Health Research, Ministry of Health and Family Welfare, GoI, 4 March 2025, Online

2. Moderator for sessions on 'Quality assessment of study designs', CME on Evidence-Based Medicine conducted by Department of Health Research, Ministry of Health and Family Welfare, GoI, 18 March 2025, Online
3. Speaker for session on 'How to assess inconsistency', CME on Evidence-Based Medicine conducted by Department of Health Research, Ministry of Health and Family Welfare, GoI, 25 March 2025, Online
4. 4, Resource faculty for session on 'Meta-analysis- a primer' and hands-on session, ICMR workshop on 'Systematic reviews and meta-analysis', Government Institute of Medical Sciences, Noida, 26 March 2025, Noida

RESEARCH

Funded Projects

Ongoing

1. A randomized controlled trial to see effect of community-based yoga program on diabetes, blood pressure, lipid profile and wellness in rural and tribal community setting and its feasibility to integrate with health and wellness centres (HWC) in the country. (ICMR funded), Dr Puneet Misra, ICMR, 2 Years, 2024-2026, Rs 53, 52, 445.00 Lakhs
2. Air Pollution Impact on Pregnancy and Early Childhood Development in India - Cohort Study (APiPED Cohort), Dr Harshal Ramesh Salve, ICMR, 4 Years, 2024, 2028, Rs 4,40,00,000.00 Lakhs
3. An exploratory series of n of 1 responder restricted study of Ayurveda regimen on quality of life among elderly population in Ballabgarh district of Haryana- A community-based study. (CCRAS funded), Dr Puneet Misra, CCRAS, 3 Years, 2024, 2027, Rs 3,96,57,500.00 Lakhs
4. Assessment of household level vulnerability and health system preparedness towards heat-related illness in selected districts of Haryana, Dr. Harshal Ramesh Salve (Thesis Supervisor), AIIMS, 2 Years, 2025-2027, Rs 1,00,000.00 Lakhs
5. Burden and Sequelae of Influenza and SARS-CoV2 associated SARI among adult Indian population (18-60 years)", Dr Anand Krishnan, CDC Atlanta, 5 Years, 2024-2029, Rs 42,65,00,000.00 Lakhs
6. CAPHER-Collaborative on Air Pollution and Health Effects Research, India, Dr Harshal Ramesh Salve, Health Effects Institute, Boston USA, 4 Years, 2021-2025, Rs 1,02,42,000.00 Lakhs
7. Centre of Excellence on Air Pollution and Health, Dr Harshal Ramesh Salve, PM ABHIM (NCDC, MOHFW), 2 Years, 2024-2026, Rs 1,78,48,000.00 Lakhs
8. Development and validation of a novel tool to measure medication adherence for select NCDs in the Indian population – An Exploratory sequential mixed method multicentric study, Dr Mohan Bairwa, ICMR, 3 Years, 2023-2025, Rs 6,20,000.00 Lakhs
9. Development of a model for management of cardiovascular diseases at primary and secondary health care settings using artificial intelligence technology in Delhi NCR, Dr Harshal Ramesh Salve, Tricog Health India Pvt. Ltd., 1 Year, 2024-2025, Rs 12,95,000.00 Lakhs
10. Drivers of reduction in anaemia in India: Insights from subnational exemplars, Dr Kapil Yadav, IAVI, 2 Years, 2023-2025, Rs 1,50,00,000.00 Lakhs

11. Efficacy and safety of Punarnavadi Mandura alone and in combination with Drakshavaleha compared to iron folic acid in the treatment of moderate iron deficiency anaemia among non-pregnant women of reproductive age group: A community-based three-arm multicentre randomized controlled trial. (ICMR funded), Dr. Puneet Misra, ICMR, 18 Months, 2024-2025, Rs 22,04,012.00 Lakhs
12. Establishing a Technical Support Unit For Verbal Autopsy Based Cause Of Death Ascertainment In The Sample Registration System, Registrar General Of India N-1725, Dr. Anand Krishnan, Ministry of Home Affairs(RGI), 5 Years, 2020-2025, Rs 15,00,00,000.00 Lakhs
13. HIV Sentinel Surveillance for India project, Dr. Sanjay K. Rai, NACO, MoHFW, GoI, 1 Year, 2024-2025, ₹ 2, 65, 61045.00
14. ICMR's National Health Research Priority Project "Equitable, Quality Universal health coverage Implementation research Project for optimizing comprehensive primary health care through Health and Wellness Centres in Alluri Sitharama Raju district of Andhra Pradesh - EQUIP-HWCs, Dr YS Kusuma, ICMR, 3 Years, 2023-2026, Rs 5,87,36,000.00 Lakhs
15. Implementation and scaling up of model to achieve universal coverage with physician ascertained cause of death at district-level in India, Dr. Anand Krishnan, ICMR, 3 Years, 2025-2028, Rs 6,20,00,000.00 Lakhs
16. India Primary Health Care Support Initiative, Dr Anand Krishnan, JHU, 5 Years, 2021-2026, Rs 2,50,00,000.00 Lakhs
17. Innovation Learning Centre for supporting implementation of Comprehensive Primary Health Care in Nuh (Mewat), Dr. Sumit Malhotra, National Health Systems Resource Centre, Ministry of Health and Family Welfare, Government of India, 7 Years, 2018-2025, Rs 1,08,57,625.00 Lakhs
18. Mental Health Promotion for college and school-going young people through lay health counsellors and mid-level health care providers model in Haryana- feasibility, acceptability, and pilot effectiveness study, Dr Sumit Malhotra, AIIMS Intramural Collaborative, 2 Years, 2023-2025, Rs 10,00,000.00 Lakhs
19. National Centre of Excellence and Advanced Research on Anaemia Control (NCEAR-A) 2018, Dr. Kapil Yadav, UNICEF, 7 Years, 2018-2026, Rs 1,50,00,000.00 Lakhs
20. Needs assessment for integrating digital clinical decision support tools in neonatal care delivery in a rural district of north India, Dr Sumit Malhotra, AIIMS -UCL Collaborative, 1 Year, 2024-2025, Rs 5,00,000.00 Lakhs
21. Risk assessment and Health System preparedness in a religious mass gathering in India during Maha Kumbh Mela 2025, Dr. Sanjay K. Rai, Ministry of Urban Development, Govt. of Uttar Pradesh, 4 Months, 2025-2025, Rs 37,24,500.00 Lakhs
22. SaKSHAM – Strategic NiKSHay Abhiyaan at the Maha Kumbh Mela 2025: Opportunities and Challenges in the Implementation of the NTEP 100-Day Tuberculosis Campaign at the Maha Kumbh Mela 2025, Dr Rakesh Kumar, Ministry of Urban Development, Govt. of Uttar Pradesh, 3 Months, 2025-2025, Rs 20,48,655.00 Lakhs
23. Situational Analysis of Health Care Facility and Community Preparedness for Implementing Govt. of India Guidelines for Gestational Diabetes Mellitus, (An ICMR Task Force Study), Dr Puneet Misra, ICMR Task Force Study, 3 Years, 2023-2026, Rs 47,77,453.00 Lakhs
24. Strategies for Enhanced Population Engagement and Health Care Seeking for Prevention and Control of Hypertension and Diabetes in India: The STEPS-INDIA Multi-Centre Study, Dr. Mohan Bairwa, ICMR, 4 Years, 2024-2028, ₹ 84,00,000.00 Lakhs
25. Strengthening ambulatory care for common NCDs in north India (STAR NCD) – An Implementation Research National Health Priority Project, Dr. Sumit Malhotra, Indian Council of Medical Research, 3 Years, 2024-2027, Rs 4,70,16,807.00 Lakhs
26. Technical Resource Centre, Centre for Evidence-based guidelines, Department of Health Research, GoI, Dr Manya Prasad, Department of Health Research, Ministry of Health and Family Welfare, Government of India, 3 Years, 2024-2027, Rs 60 Lakhs
27. The direct and indirect protection derived by vaccinating children against COVID-19: An ambispective cohort study. Dr Sanjay K Rai, Bharat Biotech, 4 Years, 2022-2025, Rs 1,5000, 000.00 Lakhs
28. The Impact of Positive Aging Intervention on Flourishing of Elderly in India: A Pan-India Cluster Randomized Controlled Trial, Dr Mohan Bairwa, ICMR, 3 Years, 2024-2026, Rs 21 Lakhs
29. Using Digital Solutions to Improve Cause of Death Data in India, Dr. Anand Krishnan, CDC Foundation through UNSW, 2 Years, 2024-2025, Rs 67 Lakhs Validation and feasibility of Swaasa AI platform at a Primary Health

Setting for lung health assessment, Dr Harshal Ramesh Salve, Zensark technologies Pvt Limited, 1.5 Years, 2023-2024, Rs 8,87,740.00 Lakhs

30. Validation and operational feasibility study of Swaasa AI platform for detecting likely presence of Pulmonary Tuberculosis (PTB) among patients presenting with cough in India., Dr. Rakesh Kumar, Salcit Technologies Pvt Ltd, 1.5 Years, 2023-2025, Rs 35 Lakhs

Completed

1. A cluster-randomized, double-blind study to evaluate the efficacy of the Natural Iron Fruit Bar for anaemia prophylaxis in school-going adolescents in North India, Dr Kapil Yadav, N/A, 1 Year, 2024-2025, Non-funded
2. Comprehensive Anaemia Control Initiative: Enhancing IFA supplementation strategy and prioritization of private school, Dr. Kapil Yadav, Evidence Action, 2 Years, 2024-2025, 33 Lakhs
3. COVID-19 vaccine acceptance and uptake: an implementation research among tribal, rural and urban communities in selected districts of four Indian states, Dr YS Kusuma, ICMR, 1 Year 9 months, 2022-2024, Rs 139.74 Lakhs
4. Assessment of work performance of ASHA in Population-based Screening of Non-Communicable Non-communicable diseases (NCDs) - A multi-site study, Dr Harshal Ramesh Salve, WHO - Country office for India, 0.9 Years, 2023, 2023, Rs 15, 38, 250 Lakhs/-
5. Early marriage and teenage pregnancy: intersectionality of gender, poverty and social norms in decision making, and access to healthcare services - A case study of Visakhapatnam district of Andhra Pradesh, Dr YS Kusuma, ICMR, 2 Years, 2022-2024, Rs. 50.71 Lakhs
6. Prevalence and causes of anaemia among tribal women of reproductive age group (15-49 years) residing in district of Lahaul-Spiti, Himachal Pradesh, India**,** Dr. Ravneet Kaur**,** ICMR, One year, 2023-2024, Rs 31, 89, 250/- Lakhs
7. Review of National Air Quality Standards and Proposed Revisions (Co-PI), Dr Harshal Ramesh Salve, CPCB, 1 Year, 2023-2024, Rs 24, 00, 000/- Lakhs
8. Strengthening evidence based advocacy for influenza prevention and control in India N-1814, Anand Krishnan, CDC, Atlanta, 5 Years, 2017-2024, US $ 1250, 000
9. Strengthening the Medical Certification of Cause of Death (MCCD) practices in public and private healthcare facilities in India, Anand Krishnan, ICMR-NCDIR, 2 Years, 2022-2024, 45 Lakhs

DEPARTMENTAL PROJECTS (INCLUDING THESIS/DISSERTATIONS)

Ongoing

1. A study of spiritual well-being among patients with Diabetes mellitus attending secondary care facility in District Faridabad, Haryana
2. An open-label randomized controlled trial to compare the efficacy of daily supplementation of oral small quantity lipid-based nutrient supplements (SQLNS) with oral iron and folic acid(IFA) syrup, for anaemia prophylaxis among children aged 6 months to 24 months, in rural population of Haryana, India" 2023-2025 AIIMS
3. Assessment of Digital Learning Environment in Medical Institutes of India
4. Assessment of household level vulnerability and health system preparedness towards heat related illness in selected districts of Haryana
5. Assessment of the implementation of tobacco free educational institution guidelines in schools of Faridabad district, Haryana
6. Assessment of tuberculosis preventive therapy among household contacts of pulmonary tuberculosis patients in rural Haryana
7. Comparison of once daily vs twice daily therapeutic IFA for change in hemoglobin among school-going adolescent girls in rural Haryana An open-labelled non-inferiority cluster randomised controlled trial.
8. Coverage and Delivery of maternal nutrition services in primary health care settings in a rural area of Ballabgarh, Haryana.
9. Depression and anxiety among transgender persons who are enrolled with targeted intervention sites for HIV in Delhi
10. Developing an Integrated Mortality Information System at district level in selected states of North India

11. Dietary practices and nutritional status of children aged 06-23 months in an urban resettlement colony of Delhi
12. Duration and Pattern of Screen Time and Its Associated Factors among Pregnant Women of Rural Ballabgarh
13. Effect of Yoga break at workplace on Stress, Sleep Quality and Quality of life among the Industrial workers in a town of North India
14. Enhancing mental health literacy and reducing stigma for mental illness among college going students in National Capital Territory of Delhi: An interventional study
15. HIV Self Testing as a Mechanism to Increase the Uptake of HIV Test Among MSM: A Mixed Methods Study
16. Improving Influenza management and prevention practices of physicians in selected cities of India
17. Knowledge and acceptability of pre-exposure prophylaxis (PrEP) for HIV among men who have sex with men (MSM) and transgender (TGs) in Delhi
18. Management of Type 2 diabetes mellitus in the healthcare facilities of Faridabad district, Haryana: Physician perspective
19. Perceived need, care seeking of emergency healthcare and Health system preparedness in Ballabgarh block of Haryana: A mixed method study
20. Perception of caregivers and use of air purifiers among children with asthma attending OPD at tertiary care hospitals in Delhi
21. Prevalence of bullying victimization, perpetration, and their determinants among community dwelling adolescents in Ballabgarh, Haryana
22. Prevalence of chronic kidney disease among adults aged 45 years and above residing in rural areas of Ballabgarh, Faridabad
23. Prevalence, pattern and determinants of antibiotic use among the residents of Ballabgarh block of Faridabad District, Haryana
24. Quality assessment of adolescent health-friendly clinics in Palwal district- a mixed methods study
25. Role of Demographic Surveillance Sites (DSS) in generation of mortality statistics in India: Situation analysis, feasibility of digital solutions and usefulness in estimation of national mortality statistics.
26. Statistical modelling to assess the determinants of HIV risk behaviour among the Hijra and Transgender population using Integrated Biological and Behavioural Surveillance Survey 2014-2015 in India
27. Study of Common Mental Disorders in adolescent living with HIV (ALHIV) attending the paediatric HIV services at AIIMS, New Delhi: A Case–Control Study
28. Study on long-term effects of COVID-19 among the ≥12 years age group population in an urban resettlement colony of Delhi: A cross-sectional study
29. Use of Digital Health Platforms in Public Health Programs with special focus on Non-Communicable Diseases (NCDs) in Faridabad District
30. Use of Energy-Dense Food (EDF)/ Locally prepared therapeutic food for community-based management in children aged 6- 59 months with Severe Acute Malnutrition 2023-2025 AIIMS
31. Utilization patterns of financial assistance among people living with HIV in Delhi
32. Validation of "Primary Care Team dynamics survey" tool to measure teamwork in primary healthcare settings in Faridabad and Palwal district, Haryana

Completed

1. A Double-Blinded Randomized Controlled Trial To Compare The Effectiveness Of Oral Multiple Micronutrient Supplement (MMS) Vs Oral Iron And Folic-acid, for Anaemia Prophylaxis Among Non-anaemic Pregnant Women In Rural Haryana
2. Assessment of health promotion and wellness activities under Comprehensive Primary Health Care Packages in Faridabad, Palwal and Mewat districts of Haryana
3. Development of a scale to measure eHealth Literacy among college-going students aged 18-24 years (English version) in Faridabad, India
4. Nutritional status of women aged 15-24 years in a rural area of Haryana

5. Prevalence of excessive screen time and factors associated with it among children aged 2 to 4 years in rural Ballabgarh
6. Relevance and capture of narratives in verbal autopsies for cause of death

COLLABORATIVE PROJECTS

Ongoing

1. A Phase III, Randomized, Double-blind, Three arm Placebo controlledThree-arm Placebo-controlled Trial to evaluate the efficacy and safety of two vaccines VPM1002 and Immuvac (Mw) in preventing tuberculosis (TB) in healthy household contacts of newly diagnosed sputum positive pulmonary TB patients, Department of Pulmonary, Critical Care, and Sleep Medicine
2. A Study on Evaluation of Municipal Solid Waste Management and Effectiveness of developed Tailor-Made Digital Programme for Improving Household Waste Segregation in Raipur City of Chhattisgarh: A Mixed-Method Approach, CFM, AIIMS Raipur
3. Air Pollution Impact on Pregnancy and Early Childhood Development in India - Cohort Study (APiPED Cohort), IIT Delhi
4. Analysis of Anti-neurotoxicity of Amyloid Beta(Aβ) in Alzheimer's Disease(AD) pathology targeting Lipoxygenases, Biophysics
5. Celiac disease prevalence in native south versus north Indians: Migrant study to assess reasons for the difference (ICMR), Department of Gastroenterology
6. Delhi Air Pollution health and effects (DAPHNE) – Human real life trial – Stratification of AAP subjects based on sensitivity to air pollution and the interaction of exercise with air pollution - A follow-up study (CO-PI), IIT Delhi
7. Development of a model for management of cardiovascular diseases at primary and secondary health care settings using artificial intelligence technology in Delhi NCR, Cardiology
8. Effectiveness of Home-based Self-monitoring of Blood Pressure in a Primary Care set-up of India (EASE-BP), Neurology
9. Efficacy of yoga-based cardiac rehabilitation in Post-PCI patients: A prospective randomized, open-label, blinded end-point trial, Center for Integrative Medicine and Research
10. Epidemiological investigation of suicide deaths during the COVID-19 pandemic in south and south-west districts of Delhi, Department of Forensic Medicine and Toxicology, AIIMS, New Delhi
11. Epidemiology of Pancreatitis and Major Gastrointestinal Diseases: A Multi-centre Study Across India - An ICMR Task Force Project, Department of Gastroenterology
12. Epilepsy stigma: estimating the burden, treatment impact, barriers and efficacy of self-management strategies among persons with epilepsy., Biophysics
13. Evaluation of inflammatory and oxidative stress resistance proteins in serum, as biomarkers of Alzheimer's disease with therapeutic interventions, Biophysics
14. Evaluation of intraoperative characteristics of dental pulp in carious primary teeth with pulpitis, CDER

PATIENT CARE

Comprehensive Rural Health Services Project, Ballabgarh

Professor In-Charge: Dr. Puneet Misra

Additional Professor: Dr. Harshal Ramesh Salve

Dr Rakesh Kumar (Till 09 January 2025)

Associate Professor: Dr. Mohan Lal Bairwa (From – 16 September 2024)

Assistant Professor: Dr. Manya Prasad (From – 10 March 2025)

****

Comprehensive Rural Health Services Project (CRHSP), Ballabgarh is the rural program of the Centre for Community Medicine of the All India Institute of Medical Sciences, New Delhi. It comprises of a sub district hospital (SDH), and two Primary Health Centres (PHCs) at Dayalpur, and at Chhainsa. The Intensive Field Practice area of CRHSP, as of 31st March 2025 consisted of a total population of 1, 05, 163. The public health care infrastructure at the Intensive Field Practice area of CRHSP comprises of 12 sub-centers associated with the two aforementioned PHCs. The Mission of CRHSP Ballabgarh is to achieve excellence in public health by undertaking teaching, research and patientcare in rural setting.

CRHSP Ballabgarh is involved in patient care, teaching, training and research activities. MBBS 7thsemester students, Interns, postgraduate students, Senior Residents of various disciplines, and Nursing students, are posted at CRHSP Ballabgarh for their training through exposure to health care provision at a sub-district facility, and at PHC level. The students are also sensitized to the social determinants of health, through their residential teachings at these PHCs, wherein they interact with the community members.

Healthcare provision statistics at CRHSP Ballabgarh (1st April 2024 to 31st March 2025)

- OPD services – **257362** patients,
- In-patient services – **6591** patients,
- Emergency services – **79799** patients
- A total of **2746** deliveries were conducted for pregnant women
- Total number of surgeries performed– **597** (only at the SDH Ballabgarh)

Following note provides a detailed description of the activities at the CRHSP Ballabgarh, which includes the two PHCs for the financial year 1st April 2024 to 31st March 2025:

1. Teaching
2. Patient Care

PATIENT CARE

Patient care at the CRHSP Ballabgarh is described under following two categories

A. Patient care services provided at the Sub-district Hospital (SDH), Ballabgarh

B. Patient care services provided at the Primary Health Centres

Patient care services provided at SDH Ballabgarh:

Due to proposed construction of new ward block at SDH Ballabgah, IPD services are shifted to OPD Block. Hence, both OPD and IPD services at SDH Ballabgarh are restricted. Current bed strength in the ward is 30. (Original bed strength was 55)

Outpatient Departments:

Daily	Once weekly
• General Medicine	• Non-Communicable Disease Clinic
• General Surgery	• Physical Medicine and Rehabilitation (PMR)
• Pediatric	• Pediatric Surgery
• Obstetrics and Gynecology	• Nutrition OPD
• Ophthalmology	• Dermatology
• Psychiatry	• Ear, Nose and Throat
• Dental	
• AYUSH(Homeopathy)	**Twice weekly**
• AYUSH(Ayurveda)	• Orthopedics
	Thrice weekly
	• Ante-natal clinic

1. Total Outdoor Patients

Services	2024-2025	2023-2024	2022-2023
• Out Patient Department (OPD) Total (New +Old)	2, 57, 362	2, 89, 066	3, 02, 362
• New OPD patients (%)	127353 (49.5%)	1, 39, 549 (48.3%)	1, 58, 889 (52.5%)
• Medicine (New + Old)	98619	1, 03, 247	90, 532
• Paediatrics (New + Old)	38753	46, 756	56, 232
• Obstetrics and Gynaecology (New + Old)	21484	23, 173	22, 310
• Antenatal care Clinic registrations, Total visits, (New+Old)	20141	21, 805	22, 547
• Ophthalmology (New + Old)	11125	14, 544	16, 238
• Surgery (New + Old)	10700	12, 727	14, 175

• AYUSH (Homeopathy + Ayurveda)	12419	10, 251	11, 629
• Orthopaedic (New + Old)	7966	15, 412	25, 095
• Psychiatry	9869	10, 601	9, 187
• Nutrition OPD	192	408	305
• Plastic Surgery	0	0	0
• Neurology	0	0	0
• Pediatric surgery	0	836	1, 668

2. In-patient services

- **Total no. of beds:** 50 (Functional: 30)

Services	2024-25	2023-24	2022-23
a. Total Admissions (including births)	**6591**	**7394**	**9, 966**
• Admission through casualty	3610	3, 546	3, 961
• Admission through OPD	253	1, 024	2, 846
• Admission of New Born (births)	2728	2, 824	3, 159
b. Disaggregation of admissions, by specialty			
a. Obstetrics and Gynaecology	3736	3, 856	4, 690
b. Paediatrics	104	198	378
c. Ophthalmology	0	255	816
d. Surgery	21	185	721
e. Medicine	2	19	29
f. ENT	0	57	171
g. Physical Medicine and Rehabilitation (PMR)	0	0	2
• New Born	2728	2, 824	3, 159
Average Bed Occupancy Rate (%) (Including NB)c.	118.4	121.7	107.9
d. Average duration of stay for all patients (in days)	1.92	1.99	2.08
e. Total Deliveries Conducted (including IUD)	2746	2, 842	3, 191

3. Casualty services

Total no. of beds – 10

Casualty Services	2024-2025	2023-2024	2022-23
a. Patients registered	79799	72, 591	68, 427
b. Medico-legal cases	5485	5, 724	5, 790
c. Emergency admissions	2196	2, 295	2, 934

4. Surgical Procedures

Total Surgical Procedures at SDH Ballabgarh	2024-25	2023-24	2022-2023
1. Ophthalmology	0	239	775
2. Obstetrics and Gynaecology	572	596	668
3. General Surgery	25	166	603
4. Paediatrics Surgery	0	56	135
5. ENT	0	53	140
6. PMR	0	0	0
Total	**597**	**1, 110**	**2, 321**

5. Laboratory and Diagnostic services

Laboratory and Diagnostic Services	2024-25	2023-24	2022-23
a. Laboratory investigations (biochemical and hematological)	1, 69, 318	3, 10, 225	3, 05, 727
b. X Ray	7707	24, 921	32, 114
c. USG	9457	8, 969	9, 728
d. Malaria Slides	3903	6, 818	8, 393
• P. vivax	0	0	0
• P. falciparum	0	0	0
e. Counselling and testing services provided for HIV	8324; 8301	8502; 8486	11208; 11192

National Tuberculosis Elimination Programme:

SDH Ballabgarh is a Tuberculosis Unit (TU) under the National Tuberculosis Elimination Programme (NTEP). Three designated mimcroscopy centres (DMCs) are attached to this unit. Total tuberculosis cases treated at

BALLABGARH HOSPITAL FOR LAST 3 YEARS ARE AS FOLLOWS:

Total cases started on treatment	2022-2023	2023-2024	2024-2025
a. New case	1161	1, 122	651
b. Previously treated case	0	0	0

B. Community Health Services

CRHSP, Ballabgarh provides community health services in Intensive Field Practice Area (IFPA) of 28 villages through a network of two Primary Health Centres (Dayalpur and Chhainsa), and 12 sub centres. Domiciliary, outpatient, inpatient, and referral services are provided in the IFPA. Important demographic indicators for the IFPA for year (2023-2024) were as follows:

Indicator	2022-2023	2023-2024	2024-2025
Population	106, 646	1, 04, 053	1, 05, 163
Birth Rate per 1, 000 population	18.5	16.4	16.0
Death Rate per 1, 000 population	6.7	6.1	6.9
Sex ratio at Birth (females per 1, 000 males)	832	887.8	870
Infant mortality rate per 1, 000 live births	28.8	20.6	25.6
Under 5 mortality rate per 1, 000 live births	32.7	25.7	27.5

1. OPD Services in Intensive Field Practice Area: This includes health care services provided at OPD of the PHC, as well as the OPD of the Extended Health Clinics, that are conducted at each of the villages of IPHA

PHC Chhainsa			
OPD services	**2022-2023**	**2023-2024**	**2024-2025**
New Cases	19164	20609	18641
Repeat Visits	15564	13805	30953
Total	38333	34414	48594

PHC Dayalpur			
OPD services	**2022-2023**	**2023-24**	**2024-2025**
New Cases	23697	23119	19448
Repeat Visits	22769	18290	15128
Total	46466	41409	34576

Total No. of AYUSH OPD Patients registered at PHC Dayalpur: 10,555
(There is no AYUSH OPD at PHC Chhainsa)

2. Inpatient Services provided at the PHCs:

PHC	2024-25	2023-24	2022-23
Dayalpur	380	448	489
Chhainsa	436	470	782
Total	**816**	**918**	**1271**

3. Emergency Services at PHCs:

PHC	2024-2025	2023-2024	2022-2023
Dayalpur	12, 178	15254	14668
Chhainsa	3, 724	5084	4685
Total	**15, 902**	**20338**	**19, 353**

4. Family Welfare and Maternal Child Health

The following services are provided as per the guidelines of National Health Mission

Indicator	2022-2023	2023-2024	2024-2025
Total antenatal registration	2, 218	1965	1850
Complete TT coverage of registered cases (%)	90.5	91.7	87.5
Percentage of Institutional delivery in IFPA	98.6	90.2	99.2
PHC Chhainsa (%)	99.2	83.7	99.5
PHC Dayalpur (%)	98.0	96.9	98.9
Total deliveries in delivery huts at the PHCs	**576**	**459**	**410**
PHC Chhainsa	312	235	220
PHC Dayalpur	264	224	190

5. Other National Health Programmes

National Vector Borne Disease Control Programme: Collection of blood slides are done as a part of passive surveillance in OPD and as active surveillance during domiciliary visits in the IFPA.

PHC Chhainsa			
Indicator	**2022-2023**	**2023-2024**	**2024-2025**
Total number of malaria slides tested	8047	4885	5701
Total number of positive cases	0	0	0
Annual Parasite Incidence (per 1, 000 population)	0	0	0
Annual Blood Examination rate (%)	15.4	9.39	10.9
Slide Positivity Rate (%)	0	0	0

PHC Dayalpur			
Indicator	**2022-2023**	**2023-2024**	**2024-2025**
Total number of malaria slides tested	3744	3040	3899
Total number of positive cases	0	0	0
Annual Parasite Incidence (per 1, 000 population)	0	0	0
Annual Blood Examination rate (%)	6.86	5.9	7.4%
Slide Positivity Rate (%)	0	0	0

National Tuberculosis Elimination Programme: The National Tuberculosis Elimination Programme is carried out in the IFPA according to national guidelines. Dayalpur PHC has been designated as a Microscopy Centre and caters to all villages under the IFPA. Tuberculosis patients treated in the IFPA (category wise) is as follows:

PHC Chhainsa			
Indicator	**2022-2023**	**2023-24**	**2024-2025**
Total number of patients started on treatment	172	117	120
New Cases	121	97	95

PHC Dayalpur			
Indicator	**2022-2023**	**2023-24**	**2024-2025**
Total number of patients started on treatment	160	91	112
New Cases	137	67	96

National Programme for prevention & Control of Cancer, Diabetes, Cardiovascular Diseases & stroke (*NPCDCS*): Under this programme, opportunistic screening of patients in the OPD is done

PHC Chhainsa			
Indicator	**2022-2023**	**2023-24**	**2024-2025**
Total NCD screening done	637	3759	4072
Total diabetes diagnosed	125	237	303
Total Hypertensive diagnosed	321	411	366

PHC Dayalpur			
Indicator	**2022-2023**	**2023-24**	**2024-2025**
Total NCD screening done	4577	3288	3818
Total diabetes diagnosed	86	549	224
Total Hypertensive diagnosed	266	632	276

6. **Special services:** Out Reach Speciality OPD (ORSO) is a special activity conducted at each PHC where Senior Residents posted at SDH Ballabgarh attend the patients at PHCs on a weekly basis (every Tuesday). The services were started in June 2013. For the period, 1st April 2024 to 31st March 2025, the cases attended to at each PHC were as follows:

PHC Chhainsa			
Services	**2022-2023**	**2023-2024**	**2024-2025**
Gynaecology	487	176	63
Paediatrics	194	48	89
Ophthalmology	251	281	143
Psychiatry	91	90	52
Out Reach Speciality OPD (ORSO)* (Total)	**1023**	**595**	**347**

PHC Dayalpur			
Services	**2022-2023**	**2023-24**	**2024-2025**
Gynaecology	500	284	221
Paediatrics	292	202	126
Ophthalmology	575	467	241
Psychiatry	206	88	76
Out Reach Speciality OPD (ORSO)* (Total)	**1573**	**1041**	**664**

7. Animal Bite Management Clinic

PHC	2022-2023	2023-2024	2024-2025
Dayalpur	362	512	0
Chhainsa	579	560	150
Total	**941**	**1072**	**150**

8. Special services to pregnant women

PHC Chhainsa			
Special services	**2022-2023**	**2023-2024**	**2024-2025**
Pregnancy received IVIS	24	38	34
PPIUCD	27	17	15
High Risk Pregnancy Consultation (%)	40.2	39.1	56

PHC Dayalpur			
Special services	**2022-2023**	**2023-2024**	**2024-2025**
Pregnancy received IVIS	6	72	25
PPIUCD	80	13	63
High Risk Pregnancy Consultation (%)	38.4	36.6	35.8

9. IEC Activities

Health Talks: A total of 342 and 524 health talks were conducted in PHC Chhainsa and Dayalpur respectively. These health talks delivered by the nursing students, interns, resident doctors in the subcentres, PHC and in the community. The topics include Neonatal care and kangaroo mother care, Breast feeding and weaning, Antenatal care, high risk pregnancy, anaemia in pregnancy, importance of institutional delivery, Immunization, Malaria and Dengue, Tuberculosis, anaemia in

children, deworming, malnutrition in children, Vitamin-A deficiency, Diabetes, Hypertension, cancers, HIV/AIDS, accidents in children, personal hygiene, family planning methods, postnatal care and diet, care of newborn, adolescent health, menstrual hygiene, COVID-19, geriatric care, Mental health programme, etc.

10. Training activities

a. Training of IMNCI, high risk pregnancy, high risk infant, NCDs on multiple occasion to HW

b. Training of anaemia prophylaxis, diagnosis and treatment to HW

c. Training of staff nurse for infection prevention

d. Training of ASHA workers on leprosy, Deworming, Polio

e. Training of DTS workers for biomedical waste management and infection prevention

f. Fire safety training of all PHC worker

g. Training of PHC staff on NQAS preparedness

11. Special activities during financial year at PHCs

a. Screening for high-risk infants

b. Community based camp for malnourished children

c. T3 anaemia camp at all sub-centre and PHC to screen around 3000 beneficiaries

d. IPPI on 2 occasions

e. Special immunization week celebration at HRA, brick kiln on 4 occasions

f. Malnutrition screening drive done among all under-five children at all villages of PHC Chhainsa and PHC Dayalpur

g. Anaemia elimination month

h. Plantation drive (50 plants) by PHC and subcentre all staff

i. Short film shows at PHC campus on the diet and sanitation targeting young child and adolescent

j. Two Dental camp conducted in school

III. New initiative and Accolades

A. Newer initiative

- Virtual foundation stone laying of CHC Fatehpur Billoch by Prime Minister on 29th October 2024
- Development of new ward complex at SDH Ballabgarh is under progress. Plantation drive of 250 plants in CRHSP Ballabgarh under Mission LiFE under leadership of Dr (Professor) M Srinivas Director AIIMS on 15 October 2024
- Providing AYUSH formulations f to non-pregnant females for prevention of anaemia
- Integrating Yoga with at Health and Wellness Centre for management of Diabetes and other NCD
- Ayurvedic treatment in collaboration with AYUSH for cognitive disorders in elderly
- Initiative of house visits to provide rehabilitative care to patients with morbid conditions
- Installation Low intensity MRI Scanning services in collaboration with Department of Radiology AIIMS
- Established Cohort for Assessing impact of Air Pollution on Pregnancy and Early Childhood Development (APiPED Cohort)
- Tricog based ECG – Pilot proposal to develop a model for comprehensive management of cardiovascular diseases at Primary Health Care setting using Artificial Intelligence (AI)
- SWASSA app – Cough sounds based diagnosis of COPD using Artificial Intelligence (AI)
- High risk infant data base: identification, follow up and intervention
- Dietary supplement in terms of food packet (250gm Jaggery + 200gm chana) once in a month to all ANCs and once in a week to all malnourished ANC
- Dietary supplement in terms of food packet (250gm Jaggery + 200gm chana) once in a month to all children who are in severe undernutrition.

B. Accolades

- **Kayakalp:** Both PHC Chhainsa and PHC Dayalpur received Kayakalp certification.
- **National Quality Assurance Standards:** Both PHC Chhainsa and PHC Dayalpur are NQAS certified.

Urban Health Programme

The field practice area of the Urban Health Programme, Centre for Community Medicine is located at Dakshinpuri Extension, Dr Ambedkar Nagar in South Delhi, consisting of Blocks 1-7, 14, 15, 19, Subhash camp, Dakhshinpuri catering to a population of around **38, 902**. Patient care services are provided at the Urban Health Centre.

4.3.1. Clinical Services

	Activities	**Number**
OPD	Total no of patients seen (including immunization)	22579
Laboratory services	Total Lab Tests	9232
	No. of Haemoglobin (Hb) tests Conducted	2532
	Of which numbers having Hb. <7 gm%	85
	Of which numbers having Hb. <11gm%	1121
	Blood Sugar-FBS, RBS, PPS	6109
	Urine albumin and sugar tested	203
	UPT	63
	RDT for Malaria	21
	Blood group	43

4.3.2. Child Health services

Number of immunization sessions held – 101 days

BCG	23
Pentavalent 1	211
Pentavalent 2	210
Pentavalent 3	208
OPV 0 dose(birth dose)	09
OPV1	211
OPV2	210
OPV3	210
Hepatitis-B (Birth dose)	0
Inactivated IPV 1	211
Inactivated IPV 2	211
Inactivated IPV 3	239
Rotavirus 1	211
Rotavirus 2	210
Rotavirus 3	211
PCV 1	211
PCV 2	211
PCV Booster	240
MR-1	246

Immunization after 12 months	
MR-2 (16-24 months)	168
DPT I	01
DPT II	03
DPT III	02
MMR	114
DPT / OPV Booster 1	269
DPT Booster 2	297
Typhoid Vaccine	252
Td-10 years	286
Td- 16 years	104
Vitamin A Administered between 9 months and 5 years	224
Albendazole under 5 children	138
Number of severely underweight provided health checkup (0-5 yr)	68

4.3.3 Maternal Health Services

Antenatal Care	Total number of pregnant women seen in the Urban Health Centre	267
	Total No. of ANC registered within 1st trimester (within 12 W)	39
	Number of pregnant women given Td1	46
	Number of pregnant women given Td- 2	38
	Number of pregnant women given Td Booster	4
	Total number of pregnant women given 180 IFA / 360 calcium tablets	29
Post Natal care	Total No. of women receiving 1st post-partum checkup (48hours to 14 days)	226
Family Planning	No of Condoms distributed	315
	No of Oral contraceptive pill cycles distributed	5
	New RTI/ STI Cases Identified	27

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Kiran Goswami was Central Coordinating Team member INCLEN for ICMR funded project "Quality of intrapartum and immediate postpartum care of mothers and newborns: an implementation research to catalyze performance of LaQshya program in six districts of India· Expert for ICMR _NIV North Zone Capacity Building for virus disease outbreak and collaborative research · Member NTA UGC-NET Expert Committee Social Medicine and Community Health, Subject Expert NBE for FMGE· MD Thesis evaluation Gujarat University· MD Examiner –Gujarat University, NIHFW, AIIMS Jodhpur · MBBS Examiner- AIIMS Rajkot · Project Coordinator NSS Unit - Regular activities on awareness generation infield practice area and welfare of disadvantaged groups · Member Institute Ethics (PG) Committee · Subject Expert-Stakeholders meeting for Revision of the Education material/ course modules of the Six Courses of Distance Learning Cell (DLC), NIHFW from 21–22 May 2024.

Professor Anand Krishnan was Professor-in-charge Clinical Epidemiology Unit; Chairman, AIIMS Grievance Redressal Committee; Member, Dean's Research Committee ; Coordinator Fellowship in Evidence Based Medicine; Member Advisory Committee, CAPHER; Member Centre for Excellence in Artificial Intelligence in Health for Department of Education (AIIMS ND); Member, Centre for Excellent in Air Pollution and Health under NCDC; Head, AIIMS technical Support Unit for SRS-VA and the MINErVA Network; Member Independent Commission on Health of the Voluntary Health Association of India; Chairman, Local Research Advisory Committee, MRU AIIMS Gorakhpur; Member Research Advisory Committee, AIIMS Madurai, Chairperson, Institutional Ethics Committee, HRIDAY; Co-chairperson National Committee on HALE estimation for India, Member Project Selection Committee National Disease Modeling Centre Phase II; Member, School Board, School of Health Sciences, IGNOU; Member School Board, School of Medical Sciences, Hyderabad University;

Member, Centre Committee for Centre for Social Medicine and Community Health, JNU; Guest editor for a special issue on Influenza and Other Respiratory Viruses Disease and Economic Burden in Influenza and other Respiratory viruses Journal; Consulting Editor, WHO SE Asia Journal of Public Health ; Medical Sciences Editor, Current Sciences; Editor, Frontiers in Public Health; Head, WHO Collaborating Centre on Research and Capacity Building on Community-based NCD Prevention and Control; Member, UNDESA/WHO Technical Advisory Group (TAG) on COVID-19 Mortality Assessment; Member, WHO Working Group in Influenza Burden of Disease.

Professor Puneet Misra participated in various activities besides teaching and training of UG and PG students. He has been expert at various selection committees of faculty at various institutes. HIGHLIGHTS

Prof Kaushal Verma, Head, the Department of Dermatology and Venerology is holding position of Dean (Academic) of the AIIMS, New Delhi. Under his leadership, regular departmental meetings were held to identify lacuna and scope of improvement in the department's teaching, research, and patient care. In collaboration with the department of microbiology, we have improved our routine practices to improve aseptic protection in inpatient and surgical areas. Consultants of department have been selected at key positions at national level like editor in chief of IJDVL, Chair of the National Working Group for Review and Revision of Technical and operational guidelines of STI/RTI for NACO.

Patient care:

Department runs an OPD for patients with skin diseases, STIs & leprosy, performs dermatosurgical procedures & reviews of skin biopsies daily. In addition, we run 8 specialty clinics, 4 laser clinics & daily minor operation theatre procedures including excisions, radiofrequency, cryotherapy, grafting, fat transfer procedures and vitiligo surgery. We have continued to provide teleconsultation services. We have a 29-bed ward, with almost 100% occupancy, & 6 6-bedded daycare where we admit patients to administer intravenous steroid pulse & biological drugs for serious illnesses like pemphigus and other connective tissue diseases.

In collaboration with the pathology department, plastic and reconstruction surgery, oculoplasty, we regularly perform Mohs micrographic surgery for various skin cancers at our facility of Mohs micrographic surgery.

Education and training:

Department is training 28 junior residents, 10+3 (recruited at CAPFIMS) senior residents, 3 PhD candidates & undergraduate students and training residents from the Departments of Medicine, Emergency Medicine, Infectious Diseases.

Research:

The Department faculty has received several extramural and intramural grants for research and published more than 100 papers in high-index, peer-reviewed journals, and delivered more than 80 lectures including orations & guest lectures at national & international conferences. The faculty also edited several textbooks including the Artificial Intelligence in Dermatology, ICP-Monograph on Infectious diseases.

Community activities:

- Department faculty have participated in various social media programs on radio & television. Faculty also participated in a Charitable Medical Camp at Mondgod, Karnataka 23-25 March 2025.

- Department has organized a public lecture and panel discussion on "Vitiligo (Leukoderma): Myths vs Reality" to create community awareness on vitiligo on 13 August 2024.
- Department also organized a press meet in January 2025 on Rare diseases. It helped to create awareness about diagnosis, treatment, and governmental programs regarding the management of rare diseases.
- The Department continues to provide outreach Dermatology services to both CRHSP Ballabhgarh and NCI Jhajjar.

EDUCATION

The department is actively involved in training undergraduates, postgraduates, senior resident, PhD students and nursing students.

RESEARCH

Ongoing

1. A prospective open label randomized study comparing the efficacy and safety of rituximab infusion (rheumatoid arthritis protocol) with oral steroid versus rituximab, oral steroid and oral immunosuppressant in pemphigus vulgaris, Dr. Sujay Khandpur, AIIMS, 2 Years, 2024-2026, Rs 5 Lakhs
2. Drug resistance in reactional vs non-reactional leprosy: a cross-sectional comparative study, Vishal Gupta, IADVL, 2 Years, 2024-2026, Rs 7.39 Lakhs
3. Therapeutic efficacy of ultra-low dose rituximab in pemphigus vulgaris: a pilot study, Vishal Gupta, AIIMS, 2 Years, 2023-2025, Rs 2 Lakhs
4. Development of metabolite-based point-of-care test for diagnosis of bacterial vaginosis in Indian women, Dr. Somesh Gupta, ICMR, 3 Years, 2023-2026, Rs 70 Lakhs
5. Aptamer-based diagnostic test for vulvovaginal candidiasis, Dr. Somesh Gupta, ICMR, 2.5 Years, 2023-2026, Rs 50 Lakhs
6. A multicenter, Global study to assess the efficacy of a Topical cream when used by children and adults with Atopic Dermatitis, Dr Somesh Gupta, MS Clinical Research, 1 Year, 2025-2026, Rs 60 Lakhs
7. Kusth care-AI powered detection, treatment and counselling for leprosy care and management in Indian patients, Dr Somesh Gupta, Ministry of Education, 4 Years, 2025-2029, Rs 400 Lakhs
8. Yaun Swasthya-AI powered detection, treatment and counselling for STI care and management in Indian patients, Dr. Somesh Gupta, Ministry of Education, 4 Years, 2025-2029, Rs 400 Lakhs

9. Development of transvaginal probe-based dermatoscope with automated AI-enabled decision support for detection of cancers and infection, Dr. Somesh Gupta, ICMR, 1 Year, 2025-2026, Rs 80 Lakhs
10. Morphological pattern of skin lesions in different complementation groups in children with xeroderma pigmentosum and its correlation with various cutaneous and extra-cutaneous cancers and photoaging, Dr Neetu Bhari, ICMR, 3 Years, 2022-2025, Rs 45.94 Lakhs
11. Defining the role of skin microbiome in modulating the skin microenvironment in children with atopic dermatitis, Dr Neetu Bhari, IADVL, 2 Years, 2023-2025, Rs 7.70 Lakhs

Completed

1. A randomized controlled trial to assess the effect of adding hypnoanaesthesia to existing standard anaesthetic technique in reducing pain and anxiety in children undergoing minor dermatosurgical procedures
2. A cross-sectional study to assess the quality of life impairment, in children and adolescents with vitiligo and their primary caregivers, and prevalence of depression, anxiety and low self-esteem in the affected children and adolescents as compared to healthy controls
3. A prospective cohort study to determine the prognostic factors in non-segmental vitiligo for development of a prognostic scoring system.
4. An ambispective descriptive study of histopathological spectrum of ILVEN
5. A pilot randomised double blinded comparative trial to evaluate the efficacy of topical tacrolimus versus placebo in the management of itch in patients with recessive dystrophic epidermolysis bullosa
6. An open label non-randomized non-inferiority study comparing two targeted phototherapy devices i.e. daily use of home-based hand-held narrow band UVB comb device versus twice weekly hospital-based excimer light therapy in treatment of localized vitiligo
7. Assessment of the efficacy of monochromatic excimer light therapy in producing repigmentation in residual patches of generalized vitiligo, post whole-body narrow band ultraviolet B therapy–an open-label, prospective study
8. Assessment of the efficacy of pulsed dye laser alone and in combination with long-pulsed Nd: YAG laser or topical sirolimus (0.5%) ointment in the treatment of hypertrophic facial portwine stains : a prospective, randomized, double-blind, placebo-controlled
9. Genomic Landscape to identify drivers of cancer progression in patients with xeroderma pigmentosum as compared to the sporadic skin tumors and determining their clinical and histological implications
10. Intra-individual, pilot study; an open label, prospective, non-randomized, non-inferiority study to compare the efficacy of twice weekly administered home-based puvasol soak therapy versus twice weekly administered hospital-based PUVAsoak therapy in palmoplantar psoriasis
11. Prospective randomized trial to compare efficacy and cost-effectiveness between rituximab therapy and dexamethasone pulse in pemphigus vulgaris
12. Randomised controlled assessor-blind trial to compare the efficacy of tofacitinib v/s methotrexate in patients with moderate to severe atopic dermatitis
13. To compare the utility of immunofluorescence techniques [direct and indirect immunofluorescence on salt-split skin], biochip mosaic assay and multiplex ELISA in the diagnosis of autoimmune bullous diseases–a prospective cross-sectional pilot study

Departmental projects (including thesis/dissertations)

Ongoing

1. A cross-sectional study to assess the quality of life impairment, in children and adolescents with vitiligo and their primary caregivers, and prevalence of depression, anxiety and low self-esteem in the affected children and adolescents as compared to healthy controls
2. A multi-centric project for the development of a machine learning based clinical decision support application for the diagnosis of fourteen common dermatological diseases
3. A pilot randomised double blinded comparative trial to evaluate the efficacy of topical tacrolimus versus placebo in the management of itch in patients with recessive dystrophic epidermolysis bullosa

4. A prospective cohort study to determine the prognostic factors in non-segmental vitiligo for development of a prognostic scoring system.
5. A prospective observational study to assess the quality of life, depression, anxiety and perceived stigma in dermatology inpatients and quality of life of their primary caregivers compared to outpatients.
6. A randomized controlled trial to assess the effect of adding hypnoanaesthesia to existing standard anaesthetic technique in reducing pain and anxiety in children undergoing minor dermatosurgical procedures
7. A randomized controlled trial to assess the effect of adding hypnoanaesthesia to existing standard anaesthetic technique in reducing pain and anxiety in children undergoing minor dermatosurgical procedures, as compared to standard anaesthetic technique alone
8. A Randomized, multicenter, double-blind, parallel group, three-arm, placebo-controlled trial to evaluate the bioequivalence of Tapinarof cream 1% of Mylan Laboratories Ltd versus VTAMA Tapinarof cream 1%, Dermavant Sciences Inc. using the clinical endpoint in patients with plaque psoriasis
9. An ambispective descriptive study of histopathological spectrum of ILVEN
10. An assessor-blinded, randomized controlled trial comparing the safety and efficacy of oral metformin with topical 4% hydroquinone versus topical 4% hydroquinone alone in the treatment of melasma in Indian skin types.
11. An open label non-randomized non-inferiority study comparing two targeted phototherapy devices i.e. daily use of home-based hand-held narrow band UVB comb device versus twice weekly hospital-based excimer light therapy in treatment of localized vitiligo
12. An open label randomised controlled trial comparing the efficacy of fractional co2 laser with topical triamcinolone versus micro needling Radiofrequency (MNRF) with topical triamcinolone in the treatment of keloids.
13. An open label randomized controlled trial comparing the efficacy of fractional CO2 laser with tropical triamcinolone versus micro needling radio-frequency (MNRF) with tropical triamcinolone in the treatment of keloids.
14. Aptamer based diagnostic test for vulvovaginal candidiasis.
15. Assessment of the efficacy of monochromatic excimer light therapy in producing repigmentation in residual patches of generalized vitiligo, post whole-body narrow band ultraviolet B therapy–an open-label, prospective study
16. Assessment of the efficacy of pulsed dye laser alone and in combination with long-pulsed Nd: YAG laser or topical sirolimus (0.5%) ointment in the treatment of hypertrophic facial portwine stains : a prospective, randomized, double-blind, placebo-controlled
17. Deep learning in prediction of cardio-metabolic syndrome from facial images of patients with chronic plaque psoriasis and development of a deep learning model for evaluation of psoriasis severity.
18. Efficacy and safety of oral sirolimus in vascular malformation: A prospective pilot assessor-blinded interventional study.
19. Evaluation of effectiveness and safety of oral tofacitinib in patients with Parthenium dermatitis
20. Evaluation of role of cyclophosphamide pulse therapy in maintaining remission following rituximab in patient with pemphigus vulgaris: a prospective observational study.
21. Evaluation of role of cyclophosphamide pulse therapy in maintaining remission following rituximab in patient with pemphigus vulgaris: a prospective observational study.
22. Genomic Landscape to identify drivers of cancer progression in patients with xeroderma pigmentosum as compared to the sporadic skin tumors and determining their clinical and histological implications
23. Intra-individual, pilot study; an open label, prospective, non-randomized, non-inferiority study to compare the efficacy of twice weekly administered home-based puvasol soak therapy versus twice weekly administered hospital-based PUVAsoak therapy in palmoplantar psoriasis
24. Prospective randomized trial to compare efficacy and cost-effectiveness between rituximab therapy and dexamethasone pulse in pemphigus vulgaris
25. Randomised controlled assessor-blind trial to compare the efficacy of tofacitinib v/s methotrexate in patients with moderate to severe atopic dermatitis
26. Therapeutic efficacy of ultra-low dose rituximab in pemphigus vulgaris: a pilot study

27. To compare the utility of immunofluorescence techniques [direct and indirect immunofluorescence on salt-split skin], biochip mosaic assay and multiplex ELISA in the diagnosis of autoimmune bullous diseases–a prospective cross-sectional pilot study
28. To evaluate patch test and skin prick test to elucidate the role of allergens in the occurrence of endogenous dermatitis: a prospective cohort study.

Completed

1. A cross-sectional descriptive study of clinical, dermoscopic and histopathological features of granulomatous skin lesions and their clinical mimics
2. A cross-sectional descriptive study to evaluate extracutaneous and systemic involvement in children and adults with inherited epidermolysis bullosa
3. An observational phase clinical trial for intralesional Radio-frequency ablation in the treatment for slow flow vascular malformations

Collaborative projects

Ongoing

1. Qualitative study on how patients with skin diseases are managed in non dermatology settings, Psychiatry, Biostatistics
2. Clinicopathological and immunohistochemical study of gli 1, p53 and ki67 in different subtypes of basal cell carcinoma, Pathology
3. An ambispective descriptive study of the histopathological spectrum of inflammatory linear verrucous epidermal nevus (ILVEN), Pathology
4. Development of a scale to measure the psychosocial impact of vitiligo in children. Psychiatry, Biostatistics
5. Expanded viral etiological investigation of genital ulcer disease with phenotyping and genotyping for antiviral drug resistance in herpes simplex viruses, Microbiology, AIIMS
6. Exploring SELEX technology for potential POCT development for Genital Chlamydia trachomatis, Microbiology, AIIMS
7. Point-of-care test development for Bacterial Vaginosis (BV): Bench to bedside (Clinical validation of proof-of-concept), Microbiology, AIIMS
8. Exploring the role of innate immunity in immunopathogenesis of pemphigus vulgaris, Biochemistry
9. Distorted frequency of dendritic cells and their associated stimulatory and inhibitory markers augment the pathogenesis of pemphigus vulgaris, Biochemistry
10. Clinicopathologic profile and treatment outcome in adult patients with inflammatory myopathies, Medicine

Completed

1. Patch testing with a textile dye mix without Disperse Orange 3 in the baseline series, International Contact Dermatitis Research Group (ICDRG) and Department of Occupational and Environmental Dermatology Skane University Hospital, Malmo, Sweden Departments of Nuclear Medicine and Dermatology & Venereology at AIIMS.
2. Qualitative study on perception of treatment response in vitiligo patients, Psychiatry, Biostatistics

PATIENT CARE

Facilities available in the department:

a. Out-patient services: The Department runs an OPD for patients with skin diseases & STIs & HIV, performs dermatosurgery procedures & dermatopathology review of skin biopsies daily

b. Teledermatology: We have continued to provide teleconsultations daily, even after the physical OPD has become fully functional

c. Special clinics: Leprosy, photo dermatology & phototherapy, dermatosurgery, STDs, pigmentary disorders, psoriasis, pediatric dermatology, allergy clinic

d. Side-lab: KOH, gram stain, slit skin smear, Tzanck smear, patch & photo patch testing

e. Surgical procedures: Diagnostic & therapeutic biopsies, excisions, scar revision, excision of malignancies, vitiligo surgery

f. Aesthetic procedures: Peeling, microneedling, platelet rich plasma therapy, Microneedling Radiofrequency Ablation

g. Lasers : Hair removal laser (triple wavelength laser with diode, Nd-YAG and alaxendride laser), vascular (PDL) laser, ablative (CO2) lasers,

h. Phototherapy: UVA & NB-UVB chambers,

i. In-patient services: We have a 29 bedded ward, with almost 100% occupancy

j. Day care facility: We have 6-bedded day-care facility for administration of biologicals & steroid/cyclophospahsamide pulse therapy, & keeping postop patients under observation

Patient care ***(other items may be added/removed as per activity of department)***

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Kaushal K Verma visited University of Michigan, as Visiting Professor and had meetings with Associate Dean and various Faculty members MoU and Research collaboration, on 27-28 June 2024, Michigan, USA. Visited University Colleges of Absalon and Copenhagen to see Denmark's Nursing centres at Copenhagen and Absalon, Denmark, 1-4 September 2024. Visiting Professor, University of Auckland, Aucland, 11-16 September 2024. Participated in a Multispecialty Medical Camp at Kavaratti & Androth ((L&M), Lakshadweep on 29-30 April 2024. Participated in a charitable medical camp at Kargil on 7-11 July 2024. Provided guidance on "Standardization of Academic Curriculam and Administrative matters at AIIMS, Bhubaneswar on 8th January 2025. Participated in the Deans' Conclave at SKIMS, Srinagar on 11-12 October 2025.

Professor Sujay Khandpur Editor-in-Chief elect of Indian Journal of Dermatology, Venereology and Leprology (IJDVL). President, Dermatopathology Society of India 2025. Member Education committee and executive committee member of Asian Society of Dermatopathology. Awarded best paper in 'Brief report' section of Indian Dermatology Online journal (IDOJ) and best letter in IJDVL 2024-2025.

Professor Somesh Gupta was invited Member of WHO-Technical Advisory Group (TAG)/ STI Research Priority Setting Advisory Group. Invited Member of WHO-STI Guideline Development Group. He was Chair of the National Working Group for Review and Revision of Technical and operational guidelines of STI/RTI for NACO. Received ICMR's First in the World Challenge grant in collaboration with IIITDM, Kancheepuram for our proposal on "Development of AI-assisted transvaginal dermatoscope". Principal Investigator for dermatology projects under the AI-Centre of Excellence, sponsored by Ministry of Education, Government of India. Convenor of IADVL Task Force on AI in Dermatology. Working with Ministry of Health and Wadhwani AI to create AI Dermatology solution for e-Sanjeevni. Published the first edited book on AI in Dermatology. I also serve as Joint Editor for Sexual Health, CSIRO, Australia.

Professor G Sethuraman was Elected as a Fellow of National Academy Sciences (NASI) Allahabad. Awarded Prof V N Sehgal award for Dermatology Excellence by IADVL. Elected as the Editor-in Chief for the IADVL Text Book of Pediatric Dermatology. It is reference text book for Indian Dermatologists with 70 chapters including 15 International authors from reputed universities. International Society for Pediatric Dermatology: Serving as the editorial board member for ISPD educational activities from 2024.

Dr Neetu Bhari was Organizing Secretary, 4th AIIMS-PGI Meeting, January 2024, New Delhi. She was Organizing Secretary, CME on rare dermatological disorders, January 2024, New Delhi. She was Treasurer, Dermatopathology society of India, 2025.

VISITING SCIENTIST

1. Dr. Manu Jain, Associate Attending in the Department of Dermatology, Memorial Sloan Kettering Cancer Centre (MSKCC), New York, USA delivered guest lecture on "Confocal microscopy" on 15 May 2024.
2. Professor Roni P Dodiuk-Gad, Vice-Head of the Dermatology Department at Emek Medical Center in Israel presented "Evolving perspective on Darier diseases, A 15 year Journey in Research and Patient care" on 21 January 2025.

HIGHLIGHTS

The Department of Emergency Medicine has been at the forefront of delivering comprehensive, round-the-clock, world-class emergency care to patients across a broad spectrum of needs, including medical, paediatric, surgical, trauma-related, and mass casualty incidents. Nearly 1,51,581 patients visited the department in the year 2024-25. With a strong commitment to excellence in education and clinical service, the department offers structured, rigorous training to postgraduate students specializing in Emergency Medicine. Over the years, it has produced highly skilled and competent emergency physicians who are now actively contributing to the advancement and dissemination of emergency medicine practices both within India and globally. Graduates from the department have consistently secured prestigious positions in renowned institutions across the country and abroad. They have also made significant contributions to academic research, producing high-quality theses and publishing their findings in esteemed international journals.

To enhance practical training, the department has conceptualized, developed, and successfully implemented several skill-based courses. These include the ‘Emergency ECG Course, ‘Emergency ABG Workshop, ’ ‘Emergency Ultrasound Course,’ ‘Difficult Airway Course,’ ‘Simulation-Based Training Course,’ and ‘Bedside Procedural Skill Development Course.’ These courses are conducted regularly and have become an integral part of the postgraduate curriculum. In addition to training its own students, the departmental faculty plays a pivotal role in educating and mentoring postgraduates from other disciplines such as General Medicine, Surgery, Geriatric Medicine, Anaesthesiology and Critical Care, Dermatology, Palliative Medicine and Psychiatry. They also actively engage in the training of undergraduate medical students, nursing personnel, and paramedical staff, especially in core areas like emergency care and life support techniques. As part of the AIIMS Quality Improvement Programme, the department has launched several patient-centric initiatives aimed at enhancing care delivery and outcomes. These efforts have notably contributed to reducing patient length of stay and optimizing resource utilization.

The department has also emerged as a national leader in capacity building for Emergency Medicine. It is actively involved in training current and future faculty members from various medical colleges and healthcare institutions across India. Under the aegis of the Ministry of Health and Family Welfare, the department has contributed to the formulation of national guidelines for comprehensive primary health care, especially in the context of burns, trauma management, and the functioning of Emergency Departments at district hospitals. Furthermore, the department provides mentorship to other medical colleges for the development of academic Emergency Medicine departments and postgraduate training programs. In collaboration with the World Health Organization (WHO), South-East Asia Region, the department is also working on key initiatives related to road safety, injury prevention, and the improvement and integration of emergency and trauma care services in India and neighbouring countries.

On the international front, the department maintains active collaborations with multiple universities around the world, focusing on capacity building through the training of physicians, nurses, and paramedics. The faculty has also played a crucial role in national preparedness by contributing to the development of operational guidelines for emergency and trauma care at primary and secondary healthcare facilities, as well as designing modules for hospital preparedness in mass casualty situations.

EDUCATION

The faculty of the Department of Emergency Medicine has been instrumental in organizing and delivering a wide range of life support courses tailored for undergraduate students, postgraduate trainees, and nursing staff posted in the department. These training sessions have also extended their benefits to residents from various other specialties across the institute, thereby promoting a multidisciplinary approach to emergency care. In addition to life support training, the department has conducted specialized courses such as Emergency Electrocardiography (ECG), Emergency Sonography and also launched a new workshop on Arterial Blood Gas (ABG) interpretation. These programs have been made available not only to postgraduate residents within the institute but also to trainees from other medical colleges, furthering the department's commitment to academic outreach and capacity building in emergency medicine education.

A robust and structured academic schedule is maintained for residents in Emergency Medicine, encompassing approximately eleven hours per week. This includes a variety of learning activities such as seminars, journal clubs, clinical case discussions, interdisciplinary panel discussions, point-of-care ultrasound (POCUS) grand rounds, and quality improvement meetings. These sessions are designed to foster critical thinking, evidence-based practice, and inter-professional collaboration. Beyond clinical and skill-based training, the department has remained actively involved in didactic teaching through lectures and seminars for undergraduates, postgraduates, and nursing students. These sessions have been delivered in both offline and online formats, ensuring uninterrupted learning during challenging times.

The department places a strong emphasis on hands-on skill development, particularly in life-saving emergency interventions. Residents are trained in both basic and advanced procedures essential for acute care management. Simulation-based teaching-utilizing both table top exercises and simulators-is a core component of the training strategy, enabling residents to practice complex scenarios in a controlled environment. To enhance procedural confidence and clinical competence, the department regularly conducts live workshops, cadaver-based skill training sessions, and hands-on procedural workshops. These initiatives have significantly contributed to the preparedness and confidence of residents in managing real-world emergency situations.

Faculty members from the department have also played a significant role in the development of electronic learning modules (e-modules) for the Simulation and Education Technology (SET) facility within the institute. These modules aim to standardize and simplify the dissemination of clinical knowledge, offering students a more interactive and practical mode of learning.

Faculty have also contributed to academic enrichment at national and international platforms by participating in and presenting at various workshops, conferences, and symposia. During the current reporting period, the department demonstrated a strong academic output, with approximately 30 publications in reputed, peer-reviewed, indexed journals and around 21 oral papers and poster presentations in various conferences-reflecting its ongoing commitment to high-quality research and scholarly excellence.

3. Automotive Future Advancement in Road Safety (SAFAR), SIAM Road Safety Program, 19 January 2025, New Delhi

Meera Ekka

1. Session moderator: Basic and Advanced airway skills, Skill development workshop for postgraduate students, 31 August 2024, New Delhi

2. Session moderator, Master the mystery: Blood gas analysis workshop, 6 September 2024, New Delhi
3. Session moderator: Emergency airway management, Skill development workshop for postgraduate students, 11 October 2024, New Delhi

Akshay Kumar

1. Case-Based Point of Care Ultrasound, EMSONO, 27 April 2024**,** New Delhi
2. Quality Improvement in Sepsis, EQUIP – Emergency Department Quality Improvement Programme, May 2024, Copenhagen, Denmark
3. Trauma in Pregnancy, National DNB Lecture, 12th May 2024, New Delhi/online
4. Introduction to First Step in Quality Improvement, Quality Improvement Workshop, 8 June 2024, New Delhi
5. Approach to Chest Pain and Stroke, National Emergency Life Support Course, 25-27 July 2024, Leh, Ladakh
6. Approach to Chest Pain & ACLS: Simulation Practice and Assessment Sessions, Advanced Life Support Course by American Heart Association, 22-24 August 2024, New Delhi
7. AIIMS Cardio-Pulmonary Resuscitation Training, CRTP Skill Workshop, 27and 30 August 2024, New Delhi
8. How to make an effective presentation, AIIMS Medical Education Workshop, 29-31 August 2024, New Delhi
9. Managing a Difficult Airway, AIIMS Emergency Skill Workshop, 31 August 2024, New Delhi
10. Approach to a Patient in Triage, AIIMS Paramedic Training, 3 September 2024, New Delhi
11. Session Moderator, Master the mystery: Blood gas analysis workshop, 6 September 2024, New Delhi
12. Session Moderator: Introduction to Quality Improvement Cycles, 3 International Patient Safety Conference, 8 September 2024, New Delhi
13. Program Director, Skill development workshop for postgraduate students, 11 October 2024, New Delhi
14. Talk on Approach to Difficult Airway, Skill development workshop for postgraduate students, 11 October 2024, New Delhi
15. Microteaching Session, Workshop on Microteaching, 19 October 2024, New Delhi
16. Course Director, Sepsis and Communication in Acute Setting, Acute Critical Care Workshop, 1 December and 10 December 2024, Agra, Uttar Pradesh
17. Talk on Approach to Altered Sensorium, Sepsis and Communication in Acute Setting, Acute Critical Care Workshop, 1 December and 10 December 2024, Agra, Uttar Pradesh
18. Approach to Sepsis, Altered Sensorium, Communication Skills in Acute Setting, Acute Critical Care Workshop, 12 February 2025, New Delhi
19. Approach to Sepsis, Altered Sensorium, Communication Skills in Acute Setting, Acute Critical Care Workshop at Association of Rural Surgeons of India Conference, 10 and 11 February 2025, Bilaspur, Chhattisgarh
20. Orthopaedic Emergencies – Upper and Lower Limbs, National Emergency Medicine Board Review of India Course, 17-21 February 2025, New Delhi
21. Hypothermia in Trauma – A Case Discussion, AIIMS Raipur Grand Round in Emergency Medicine, 27 February 2025, New Delhi/online
22. Approach to Chest Pain, ACLS Simulation Practice and Evaluation Sessions, Advanced Cardiovascular Life Support Course, 4-6 March 2025, New Delhi

Prakash Ranjan Mishra

1. Circulation: Point-of-care ECHO EM SONO: Emergency Sonography Workshop, 26 April 2024, New Delhi
2. Moderator and Skill station instructor, EM SONO: Emergency Sonography Workshop**,** 26 April 2024**,** New Delhi
3. Circulation: RUSH protocol in shock EM SONO: Emergency Sonography Workshop, 26 July 2024, New Delhi
4. Moderator and Skill station instructor, EM SONO: Emergency Sonography Workshop, 26 July 2024, New Delhi
5. Approach to chest pain and acute coronary syndrome, *National Board of Examinations in Medical Sciences (NBEMS)*- National live Emergency Medicine Webinar for post-graduates, 31 July 2024, New Delhi/online

6. Session moderator: Basic and Advanced airway skills, Skill Development Workshop for postgraduate students, 31 August 2024, New Delhi
7. Introduction to ABG, Master the mystery: Blood gas Analysis Workshop, 6 September 2024, New Delhi
8. Program Director and Session moderator, Master the mystery: Blood gas Analysis Workshop, 6 September 2024, New Delhi
9. Circulation: Point-of-care ECHO Emergency Sonography Workshop, 26 September 2024, New Delhi
10. Moderator and Skill station instructor, Emergency Sonography Workshop, 26 September 2024, New Delhi
11. Session moderator: Emergency airway management, Skill Development Workshop for postgraduate students, 11 October 2024, New Delhi
12. Assessment: RUSH and Point-of-care echocardiography, Emergency Sonography Workshop, 25 October 2024, New Delhi
13. Moderator and Skill station instructor, Emergency Sonography Workshop, 25 October 2024, New Delhi
14. Bradyarrhythmias, EM Cardio V1.0, 13 November 2024, Amritsar, Punjab
15. ECG table: High-risk syncope, EM Cardio V1.0, 14 November 2024, Amritsar, Punjab
16. Circulation Emergency Sonography workshop: EM-SONO, 13 December 2024, New Delhi
17. Skill station instructor, Emergency Sonography workshop: EM-SONO, 13 December 2024, New Delhi
18. Session moderator: Consultative Haematology, National Haematology Update-XIII, 31 January 2025, New Delhi
19. Atrial fibrillation in EM, AEMECON-2025: Association of Emergency Medicine Educators Conference, 21 February 2025, Bengaluru, Karnataka
20. Session moderator: Examinations in Emergency Medicine-Need for a paradigm shift, AEMECON-2025: Association of Emergency Medicine Educators Conference, 22 February 2025, Bengaluru, Karnataka

Vineeth Chandran KP

1. Basic emergency management, Champions of Change for Ladakh, 22-25 April 2024, New Delhi
2. Breathing assessment, EM SONO, 26 April 2024, New Delhi
3. Breathing assessment EM Sono, 26 and 27 July 2024, New Delhi
4. Secondary survey, EM Sono, 26 and 27 July 2024, New Delhi

20. Suresh S, Mishra PR, Choudhury K, Nebulized vs intravenous tranexamic acid for hemoptysis: a randomized controlled trial, 4th AIIMS Annual Research Day, AIIMS, New Delhi, 30 January 2025, New Delhi
21. Vaishanavi P, Bhoi S, Jamshed N, Changes in optic nerve sheath diameter following rigid cervical collar application in patients with traumatic brain injury: A prospective observational study at a tertiary health care teaching hospital, ACEP Conference, 1 October 2024, Las Vegas, USA

ORAL/POSTER PRESENTATIONS OVER PAST 3 YEARS

Presentation	2022–2023	2023–2024	2024-2025
Oral/poster	17	18	21

RESEARCH

Funded Projects

Ongoing

1. Adaptive model to strengthen facility-based emergency care system for providing quality emergency care among red triage patients (Time-sensitive and other emergencies) at all levels of health care facilities, Dr Sanjeev Bhoi, Indian Council of Medical Research, New Delhi, 3 Years, 2023-2026, Rs 21,35,71,736
2. Association of Cytokine levels (TSLP, IL-31, IL-13, IL-35) with clinical outcomes in patients with acute coronary syndrome: a case-control study, Dr Prakash Ranjan Mishra, AIIMS, New Delhi, 1 Year, 2024-2025, Rs 5,00,000

3. Bedside percutaneous drainage of Liver Abscess in the emergency department by trained Emergency Physician versus Radiologist, Dr Nayer Jamshed, Indian Council of Medical Research, New Delhi, 2 Years, 2024-2026, Rs 6229208
4. Effect of sodium-hydrogen channel (NHE-1) inhibitor in hypoxic cardiac arrest, Dr Tej Prakash Sinha, Indian Council for Medical Research, 3 Years, 2024-2027, Rs 44,40,653
5. Evaluation of the water bath ultrasound technique (WBT) in the diagnosis of distal hand and foot injuries in the emergency department, Dr Tej Prakash Sinha, Indian Council of Medical Research, New Delhi, 2.5 Years, April 2024 to September 2026, Rs 62,38,200
6. Immuno-clinical correlation in Sepsis Patients Presenting to the Emergency Department, Dr. Akshay Kumar, AIIMS, New Delhi, 3 Years, 2021-2024, Rs 9,50,000
7. Improving crucial procedures in the Emergency Department – Cardiac Arrest and Emergency Endotracheal Intubation, Dr Akshay Kumar, Indian Council of Medical Research, New Delhi, 3 Years, 2024-2027, Rs 70,00,000
8. National Emergency Life Support Course for Paramedics- Training of trainers: A course launched by MoHFW to build a pool of trainers for building the capacity of paramedics & EMTs in handling emergencies, Dr Sanjeev Bhoi, MoHFW, Government of India, 3 Years, 2024-2027, Rs 3,88,96,050
9. Nebulized versus intravenous tranexamic acid for hemoptysis: A randomized controlled trial, Dr. Prakash Ranjan Mishra, Indian Council of Medical Research, New Delhi, 3 Years, 2024-2027, Rs 62,44,794
10. Prospective, Open-label, Single Arm, Interventional, Multicentric, Pilot Study to Evaluate the Safety, and Effectiveness of Ozyn-D™, a Novel Intraosseous device for delivery of medications and fluids, Dr Prakash Ranjan Mishra, Indian Council of Medical Research, New Delhi, 3 Years, 2024-2027, Rs 72,28,710
11. Randomized, open-label, phase IIa /IIb clinical trial to study the safety and efficacy of intravenous estrogen therapy in reducing the incidence of sepsis/septic shock in trauma hemorrhagic shock patients, Dr Sanjeev Bhoi, Indian Council of Medical Research, New Delhi, 3 Years, 2024-2026, Rs 7,17,708
12. Strengthening Emergency & Trauma Care in Rajasthan- Creating a pool of trainers on BLS & Post-Crash responses at selected colleges in Jaipur in collaboration with state road safety cell, Department of transport & Road safety, Government of Rajasthan, Dr Tej Prakash Sinha, Government of Rajasthan, 1 Year, 2024-2025, Rs 56,48,500

Completed

1. Strengthening Emergency & Trauma Care in Rajasthan- Creating a pool of trainers on BLS & Post-Crash responses at selected colleges in Jaipur in collaboration with state road safety cell, Department of transport & Road safety, Government of Rajasthan (Phase 1), Dr Tej Prakash Sinha, Government of Rajasthan, 06 mMonths, September' 2023 to, February' 2024, Rs. 27,17,000.00
2. To study the pattern of mesenchymal stromal stem and progenitor cells in peripheral blood of trauma haemorrhagic shock patients, Dr Sanjeev Bhoi**,** Indian Council of Medical Research, New Delhi**,** 3 Yearsyears, 2021-2024, 4Rs. 6,00,000.00
3. To study the role of iPSC (induced pluripotent stem cells) derived hematopoietic progenitor cells (HPC) for hematopoietic failure among trauma hemorrhagic shock using an animal model, Dr Sanjeev Bhoi**,** Indian Council of Medical Research, New Delhi**,** 3 years, 2021-2024, Rs 69,00,000.00

Departmental Projects (including thesis/dissertations)

Ongoing

1. Assessment of cerebral perfusion using transcranial color doppler during hemorrhagic shock in trauma patients: a prospective observational pilot study
2. Beta blockers v/s calcium channel blockers for rate control in atrial fibrillation with fast ventricular rate: a randomised open-label study
3. Clinical profile of patients with acute-on-chronic liver failure presenting to the Emergency department
4. Clinico-epidemiological profile of liver abscess presenting to the emergency department
5. Comparative efficacy of HFNC vs NIV in acute exacerbation of COPD: a randomized controlled trial
6. Comparative efficacy of serratus anterior plane block vs standard care in alleviating pain during chest tube thoracostomy in emergency department: a randomised controlled trial

7. Comparing balanced crystalloids and normal saline during resuscitation of undifferentiated shock in patients presenting to emergency department: a randomised controlled trial
8. Comparing shock control rates of combined versus sequential fluids and norepinephrine therapy in septic shock: a randomised open-label trial
9. Correlation of arterial blood gas with complication rate and final neurological outcome in a patient with severe traumatic brain injury
10. Diagnostic accuracy of right ventricular bubble time in predicting right ventricular dysfunction when compared to standard echo in patients presenting to ED: a prospective observational study
11. Diagnostic accuracy of smartphone fundoscopy vs direct ophthalmoscopy among patients with features of raised ICP in patients presenting to ED
12. Diagnostic accuracy of sono-clinical decision rule to assess the need for NCCT head in patients with mild traumatic brain injury
13. Diagnostic accuracy of the modified water bath technique and conventional ocular ultrasound in comparison to non-contrast computed tomography of the orbit for identifying ocular injuries in trauma patients
14. Effect of application of the MINUTES bundle vs existing care on the clinical outcomes in the initial management of undifferentiated circulatory shock in the emergency department randomised control study
15. Efficacy of Glargine plus intravenous insulin vs intravenous insulin in the management of diabetic ketoacidosis in the emergency department: an open label randomised controlled trial
16. Efficacy of pantoprazole versus placebo in mucosal healing and change in endoscopic grading in patients of acute caustic ingestion: A randomized control open label study
17. Efficacy of point-of-care ultrasound in reduction of time to diagnose acute shoulder injuries as compared to usual care in adult trauma patients presenting to emergency department: An open-label randomized controlled trial
18. Improving ventilator strategies for patients who are on mechanical ventilation in the emergency department of AIIMS, New Delhi, A Quality Improvement Study
19. Neutrophil lymphocyte ratio as a predictor of acute abdomen in patients with acute abdominal pain to the emergency department: a prospective observational study
20. Patterns of laryngo-pharyngeal injury in patients of corrosive ingestion presenting to emergency department
21. PEEP VS ZEEP in cardiopulmonary resuscitation: a randomised controlled pilot trial
22. Predictors of the need for endotracheal intubation in patients with community-acquired pneumonia presenting to the emergency department: a prospective observational study
23. Prognostic Role of Lactate-Albumin Ratio, Procalcitonin-Albumin Ratio, CRP-Albumin Ratio, SOFA, and qSOFA in Sepsis Patients in the Emergency Department
24. Role of Magnesium sulphate as an adjunct to standard care in patients with valvular atrial fibrillation: a randomised control trial
25. Role of point-of-care ultrasound guided arrhythmia algorithm in differentiating between supraventricular tachycardia with aberrant conduction and ventricular tachycardia when compared to a standard 12 lead ECG
26. Self-directed Learning vs Instructor-regulated Learning in ultrasound-guided central venous catheter insertion: a randomized control trial
27. SONO-PECARN versus PECARN: To study the role of ultrasound guided skull fracture detection in decision-making of intermediate PECARN risk group of less than two years
28. Stellate ganglion block in refractory ventricular arrhythmia in Emergency Department: an open label randomized controlled trial
29. Succinylcholine versus Rocuronium for rapid sequence intubation: A randomised control trial
30. The role of point of care ultrasound in diagnosing injury in and around knee as compared to magnetic resonance imaging presenting to emergency department
31. The role of push dose epinephrine in preventing cardiovascular collapse in patients undergoing emergency endotracheal intubation: a randomized control trial

32. To assess the role of carotid peak systolic velocity in assessing the quality of chest compressions when compared to EtCO2 in patients with cardiac arrest
33. To compare Aorto-Caval Index vs IVC collapsibility in assessing fluid responsiveness in patients presenting with septic shock in the emergency department: a pilot randomised control trial
34. To evaluate the role of coronary artery calcium score in patients with acute chest pain of low-intermediate risk presenting to emergency department: a prospective observational study
35. To improve the adequacy of pre-procedural pain management in traumatic extremity fracture undergoing reduction- Quality improvement study
36. To study the impact of ultrasound guided chest compressions when compared to conventional chest compressions in cardiac arrest outcomes in patients with cardiac arrest
37. Valuation of safety and efficacy of delayed sequence intubation as compared to rapid sequence intubation in critically ill patients requiring endotracheal intubation: A randomised controlled trial

Completed

1. Absolute lymphocyte count as prognostic indicator in Acute heart failure
2. Assessing accuracy of Smartphone ECG in diagnosing arrhythmias
3. Assessing accuracy of Smartphone ECG in diagnosing STEMI
4. Assessment of internal jugular vein and femoral vein collapsibility in the determination of intravascular volume status as compared to inferior vena cava collapsibility
5. Association between boarding time in the emergency department and in-hospital mortality
6. Capillary refill time as a predictor of mortality post resuscitation in patients presenting with shock
7. Chest pain and heart failure in the Emergency Department registry study
8. Clinical epidemiological profile of patients with AKI in CLD
9. Clinical profile of patients with malignancy presenting to the emergency department
10. Clinical profile of patients with rheumatic heart disease presenting to Emergency Department
11. Clinico-epidemiological profile of patients with acute chest pain presenting to emergency department
12. Clinico-epidemiological profile of patients with acute kidney injury in chronic liver diseases
13. Comparison of efficacy of erector spinae plane block versus conventional pharmacological therapy in successfully alleviating abdominal pain of patients with pancreatitis in an emergency department: A Randomized Controlled Trial
14. Comparison of Full Outline of Unresponsiveness (FOUR) score with Glasgow Coma Scale (GCS) for assessment of patient with altered sensorium in emergency department
15. Comparison of scoring systems in predicting hospital mortality in patients with pneumonia presenting to emergency department
16. Developing an antibiogram based on culture samples of suspected patients of infection presenting to the Emergency department
17. Diagnostic accuracy of transcranial ultrasound to detect clinically significant conditions in post-craniectomy patients
18. Diagnostic yield of non-contrast computed tomography brain in patients of chronic liver disease presenting with altered mental status
19. Does POCUS guided AIIMS-Pediatric POCUS Algorithm improve early diagnosis and critical care management decision in acutely ill pediatric patients
20. Effect of intravenous iron on symptomatic improvement in iron-deficient patients with acute decompensated heart failure
21. Efficacy and safety of intramuscular haloperidol and olanzapine in management of acutely agitated patients in the emergency department: a randomized controlled trial

22. Efficacy and safety of methylene blue compared to vasopressin as second vasopressor in the management of septic shock in adults: a randomised open label trial
23. Efficacy of Intralipid Emulsion Therapy in OP Poisoning -an exploratory study
24. Efficacy of valsalva and modified valsalva in terminating paroxysmal supraventricular tachycardia in the emergency department: a randomized controlled trial
25. Evaluation of diagnostic characteristics of Neutrophil-Lymphocyte ratio in comparison to commonly used score (APACHE II, CTSI and BISAP) in acute pancreatitis
26. High dose NTG vs low dose NTG in the management of SCAPE (sympathetic crashing acute pulmonary edema): a randomized controlled trial
27. Impact of interactive training interventions on soft skill of communication to nursing staffs in Emergency Department of a tertiary care teaching hospital: An experimental study
28. Lung USG in pediatric patients coming with shortness of breath and fever
29. Outcome of patients with upper gastrointestinal haemorrhages presenting to emergency department
30. Performance of chief complaint driven triage system based on mortality at 72 hours for patients presenting to the Emergency department
31. Role of Hydrocortisone in outcome of patients with cardiac arrest: a randomized placebo-controlled trial
32. Study of etiological profile of brought dead patients and comparison of death due to COVID-19 during lockdown period presenting to AIIMS, New Delhi
33. Study of existing pain assessment and management practices in the department of Emergency Medicine
34. Systemic immune inflammation index and procalcitonin in predicting mortality among septic shock patients presenting to ed- a prospective cohort study
35. The utility of End-tidal carbon dioxide monitoring in patients with shock in emergency department
36. The utility of left ventricular outflow tract velocity-time integral monitoring in patients presenting with shock
37. To estimate prevalence of pulmonary embolism in patients of acute exacerbation of COPD presenting in emergency department
38. To estimate the incidence of crescent sign in ONSD using POCUS (USG) in altered mental state with raised Intracranial pressure in Emergency department
39. To evaluate the prognostic significance of hypocalcemia in patients presenting with dengue fever to Emergency department
40. To improve pre-hospital health care bundle compliance provided to critically ill patients presenting to AIIMS emergency department through government run emergency services
41. To study the diagnostic characteristics of point of care ultrasound in patients of blunt trauma of chest
42. To study the impact of hands-only cardio-pulmonary resuscitation training among school students of Delhi in terms of improvement of knowledge and skills-a community care initiative.
43. To study the utility of Point of care ultrasound assisted reduction of long bone fractures as compared to usual care
44. To study the utility of ultrasound guided blocks on arrival vs usual care for analgesia in patients with acute limb injuries presenting to emergency department: a randomized controlled trial
45. Utility of point-of-care ultrasound guided primary survey algorithm in taking critical management decisions in adult trauma patients

COLLABORATIVE PROJECTS

Ongoing

1. Comparative efficacy of low vs high dose Terlipressin in the management of upper gastrointestinal bleeding: an open label randomized control trial, Department of Gastroenterology, AIIMS, New Delhi
2. Determinants of status epilepticus outcomes in adults and adolescents: a prospective cohort study, Department of Neurology, AIIMS, New Delhi

3. Determination of transcriptomic markers associated with neuropathy including cognitive impairment caused due to organophosphate poisoning and development of artificial intelligence-based tool to predict progression of its severity, Department of Microbiology and Pharmacology, AIIMS, New Delhi
4. Development of a real-time PCR technique using the CotH gene as a target for early diagnosis of Mucormycosis, Department of Microbiology, AIIMS, New Delhi
5. Efficacy and safety of injection Tenecteplase in 4.5 hours to 24-hour imaging eligible window patients with acute ischemic stroke (EAST-AIS), Department of Neurology, AIIMS, New Delhi
6. Evaluation of cardio-protective effect of remote ischemic post-conditioning in patients undergoing thrombolysis and its correlation with vitamin D, Department of Pharmacology, AIIMS, New Delhi
7. Impact evaluation of a surgical capacity building intervention in rural India**,** India-Norway collaboration with WHO
8. Impact of COVID-19 on Tuberculosis, Department of Microbiology AIIMS, New Delhi
9. Non-invasive, video and image-based estimation of body vitals using advanced deep learning: a collaborative study, Department of Laboratory Medicine, AIIMS, New Delhi
10. Point of care thromboelastography for critical decision making in patients requiring massive transfusion protocol at a level 1 trauma centre, Department of Laboratory Medicine, AIIMS, New Delhi
11. Poisoning due to agrochemicals in India: epidemiology, awareness, identification of molecular markers (Transcriptome profiling and metagenomic analysis) of risk assessment and development of preventive strategies, Department of Pharmacology, AIIMS, New Delhi
12. Prognostic implications of right ventricular dysfunction score among patients with sepsis and septic shock, Department of Anaesthesia, AIIMS, New Delhi
13. Prognostic implications of right ventricular dysfunction score among patients with sepsis and septic shock, Department of Anaesthesia, AIIMS, New Delhi
14. Standard medical therapy plus intravenous albumin vs standard medical therapy in patients with acute variceal bleeding: a pilot randomized controlled trial, Department of Gastroenterology, AIIMS, New Delhi
15. Thromboelastography parameters as predictor of thrombus burden in ST-Segment myocardial infarction undergoing primary percutaneous coronary intervention, Department of Cardiology, AIIMS, New Delhi
16. Understanding diagnostic complexity from contextual and psycho-physiological perspective, Indian Institute of Technology, Delhi
17. Validation of biomarkers in acute stroke using Omics technologies and diagnostic assay development, Department of Neurology, AIIMS, New Delhi

Completed

1. Development of a real-time PCR technique using the CotH gene as a target for early diagnosis of Mucormycosis**,** Department of Microbiology, AIIMS, New Delhi
2. Development of Aptamer-based rapid diagnostic test for acute heart failure, THSTI, Faridabad, Haryana
3. Evaluation of workplace violence and communication skills of resident doctors at a tertiary care teaching hospital, Department of Medicine, AIIMS, New Delhi
4. Genomic analysis of symptomatic SARS-CoV-2 vaccine breakthrough infection, Department of Microbiology, AIIMS, New Delhi
5. Optimal usage of laboratory information system and its impact in the emergency care setting: a prospective observational study, Department of Laboratory Medicine, AIIMS, New Delhi
6. Role of antibiotic prophylaxis in Child-A Cirrhosis with acute variceal haemorrhage: a multi-centric open label randomized controlled trial, Department of Gastroenterology, AIIMS, New Delhi
7. Utility of in-house and commercial PCR assay in diagnosis of COVID-19 associated mucormycosis in an emergency setting in a tertiary care centre, Department of Microbiology, AIIMS, New Delhi

RESEARCH OVER PAST 3 YEARS

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Sanjeev Bhoi dedicated his services to developing emergency and trauma care systems in India and Southeast Asia. He has contributed significantly to high-quality research, with ongoing projects funded by the Indian Council of Medical Research (ICMR), New Delhi, and collaborative studies with the World Health Organization – South-East Asia Regional Office (WHO-SEARO). For over a decade, he has been committed to improving the quality of emergency care, with a strong emphasis on patient safety. A major research interest over the past eight years has been trauma-induced haemorrhagic shock, particularly in the translational domain, resulting in numerous publications. He is a core committee member of the global Acute Care Network and the Global Alliance for Care of the Injured (GACI), under the WHO headquarters in Geneva. Additionally, he serves on the core committee overseeing the Centre of Excellence for emergency, trauma, and burn care, and is a committee member tasked with streamlining emergency care services across Delhi Government hospitals. He also leads a designated Centre of Excellence for National Emergency Life Support (NELS) and mass casualty management. Additionally, he is also contributing as director of WHO-collaborating centre for 'Emergency and Trauma care' in Southeast Asian region and has been working collaboratively with various states of India (MP, UP, Bihar, Arunachal Pradesh, Orrisa) for building systems of integrated emergency and injury care.

Dr Nayer Jamshed has published 13 research papers in peer reviewed PubMed Indexed journals in 2024-25. He is the principal investigator in four research projects and co-investigator in 14 research projects, chief guide for five post graduate students and co-guide for 17 postgraduate candidates. Dr. Nayer Jamshed is doing six Randomized controlled trial as Principal investigator/Chief guide and nine as co-investigator. He is a teaching faculty and course coordinator for the proposed Emergency fellowship program in Toxicology and an adjunct faculty in the proposed DM Course in Psychosomatic Medicine and Ecotoxicology. He is also a teaching faculty to the SET Facility. He is the in-charge of the academic teaching program, departmental simulation teaching and training program, quality assurance meetings, radio-conference and monthly panel discussion of the department. He is a part of departmental quality improvement program to improve quality of patient care in the Emergency Department. Dr. Nayer Jamshed is the Associate editor of Washington manual of Emergency Medicine and has written chapters in various textbooks. He is the reviewer of seven international journals of Emergency Medicine. He is the Nodal officer for SARI patients, hospital infection control committee & MBBS curriculum revision program of AIIMS. He is also the member of student wellness committee and various institute selection committee and procurement committees of AIIMS. He is also one of the national Moderator for NBE exams and was also the external and internal examiner for the subject of Emergency medicine at various AIIMS and other post graduate institute. He was appointed as assessor for Emergency Medicine by NBE. He was one of the board members for the initiation of fellowship in paediatric emergency Medicine started by Diplomat National Board. He is also the Board member for DNB Emergency Medicine and Critical care. He is external expert in the Board of Studies for the subject of MD, Emergency Medicine, AIIMS, Bhopal. He has also made national guidelines for the treatment of corrosive and recreational drugs poisoning. In the coming year has a plan to start fellowship in emergency toxicology and B.SC in Emergency Medicine Technicians. To improve the quality of patient care, he was instrumental in making protocols for commonly encountered emergency conditions and contributed to various quality improvement projects spearheaded by the department.

Dr Nayer Jamshed is the member of various Scientific Committees like Asia Pacific Association of Medical Toxicology, Association of Emergency Medicine Educators. He is committed to quality patient care, research and various teaching program of the Institute.

Dr Tej Prakash Sinha was engaged as an expert for the Mahakumbh-2025 at Prayagraj Medical College, playing a pivotal role in ensuring medical preparedness for mass gatherings. Nationally, he has led several key initiative, including serving as the National lead coordinator for the 'mass casualty management course' funded by the Ministry of Health and Family Welfare (MOHFW), and as the national lead for the NELS (National Emergency Life Support) program for paramedics. He is a committee member for the standardization of critical care blocks under MOHFW and a member of the centre of excellence for NELS and mass casualty management. Recognized for his subject expertise, he has been appointed to faculty selection panels for premier institutes such as AIIMS Kalyani, GIMS Noida, and TRIHMS Arunachal Pradesh. He currently serves as co-director of the WHO collaborating centre for emergency and trauma care in the south-east Asia region, working closely with Indian states like Madhya Pradesh, Uttar Pradesh, Bihar, Arunachal Pradesh, and Odisha to develop integrated emergency and injury care systems. Globally, he is the educational sub-committee co-chair of the EMERGE (Emergency Medicine Education & Research by Global Experts) network, aiming to transform lives through emergency care research. He is also a core committee member of the Acute Care Network–India, a reviewer for WHO's community first aid response (CFAR) course, and an expert reviewer for WHO guidelines on essential trauma care. His commitment to advancing the field is further reflected in his high-quality research, with ongoing projects funded by ICMR, the India-Norway collaboration, and the WHO.

Dr Meera Ekka is a reviewer of various international journals and is on editorial board of Annals of Clinical Case Studies. She is member of Asia Pacific Association of Medical Toxicology, Association of Physician of India and Emergency Medicine Association of India. She has published six articles in international and national indexed journals as co-author and two papers as corresponding author. She is one of the Associate editors of Washington manual of Emergency Medicine, SAE and contributed one chapter on COVID-19 disease in the same manual and one chapter on Toxic Gases in Critical Care in Toxicology Book. She is the Faculty In-charge, Store, POCT lab, and nodal officer for equipment audit for the Department of Emergency Medicine. She is also nodal officer for parliament affairs for Emergency Department from AIIMS. She is also the teaching faculty for AIIMS Emergency ECG and comprehensive Emergency and trauma care training of medical/paramedical CAPFS course run by the department. She is chief guide of eleven Emergency Medicine post graduate students and moderates post graduate students for various seminars and journal clubs in seminars conducted in the department. She is internal examiner for postgraduate exit exam. She is one of the teaching faculties for the proposed Toxicology fellowship program. She is a member of purchase committee for various equipment for the department at institute level. She is also working on acute poisoning registry. She along with her nine postgraduate students designed, studied, completed, and submitted nine research studies as thesis project. Her four post graduate students have published their thesis as article in indexed journal and one student has submitted the paper. Her two post graduate students have presented their work as oral presentation in national conferences, and one was selected as one of best 15 paper as podium presentation.

Dr Akshay Kumar has contributed to advancing emergency care services at the institute. He played a pivotal role in streamlining triage services in the Emergency Department by assisting in development of a 'Rapid assessment area, ' which has improved the prompt evaluation of high-priority patients and enhanced overall patient throughput. He has also led and facilitated key procurement processes within the department, ensuring the acquisition of essential equipment and critical tools that have enhanced diagnostic and treatment capabilities. He served as faculty for both Basic and Advanced Cardiovascular Life Support course, and was actively involved in faculty development programs, including the 'Microteaching' workshop for senior residents and a medical education workshop for faculty. He was also a distinguished faculty member in the National Emergency Medicine Board Review Course and the WHO Emergency Care System Strengthening Program for Delhi. As Course Director, he successfully conducted workshops on Patient Safety, Emergency Airway Management, and Acute Critical Care. In the research domain, Dr Akshay is leading two randomized clinical trials and an ICMR-supported implementation project, further contributing to evidence-based practice and policy-level improvements in emergency medicine.

Dr Prakash Ranjan Mishra was honoured with the second prize in the 'Clinical Sciences category' at the prestigious 'AIIMS Research Excellence Awards' during the 4th Annual Research Day held at AIIMS, New Delhi. In addition to his dedicated involvement in patient care, he has made substantial contributions to academic, research, and administrative domains within the Department of Emergency Medicine. Throughout the year, he played an active role in advancing academic initiatives for undergraduate and postgraduate students, nursing staff, paramedics, and short-term trainees through a variety of innovative educational activities. He contributed significantly to teaching and training in core emergency skills, including emergency electrocardiography, point-of-care sonography, and blood gas analysis. As Program Director and faculty for the newly developed workshop titled "Master the Mystery: Blood Gas Analysis", conducted by the Department of Emergency Medicine at SET facility, he led practical and impactful learning sessions. He also served as Associate Editor for the Washington Manual of Emergency Medicine: South-East Asia Edition and authored three original research articles published in peer-reviewed indexed journals during this period. In recognition of his commitment to medical education, he was provided a lifetime membership of the Association of Emergency Medicine Educators (AEME)-India. He was also invited

to serve as a reviewer and evaluated manuscripts for indexed journals such as, 'Clinical Case Reports', 'BMJ Innovations', 'Thorax' and 'Cureus'. During this period, he served as the Chief Guide for five postgraduate students conducting their thesis research and acted as a co-guide for 22 additional postgraduate students working on their theses. Demonstrating his research acumen, he was awarded two extramural research grants by the Indian Council of Medical Research (ICMR) and received an early career intramural research grant from AIIMS. He has been a sought-after speaker and resource person at multiple national conferences, where he was invited to deliver lectures and organize hands-on workshops. He has also been a vital contributor to the department's Quality Improvement initiatives, where he actively participated in mortality reviews and continuous care enhancement programs. Recognized for his organizational and administrative capabilities, he has been entrusted with several institutional responsibilities, including serving as the Assistant central public information officer (CPIO) for RTI matters, nodal officer for departmental website content updates, member of disease prevention and outbreak response cell and nodal officer for needle stick injury surveillance at AIIMS, among others.

Additionally, he successfully completed several training modules under the Government of India's 'Mission Karmayogi' initiative, aimed at strengthening civil service capacity through structured learning. His long-term vision focuses on enhancing and advancing emergency and patient care services, along with promoting research and academic excellence at both the institutional and national levels.

Dr Vineeth Chandran KP was actively involved in the evaluation and management of patients presenting to the emergency department of both AIIMS and JPN apex trauma centre. He was also involved in the planning and execution of management plans in mass casualty incidents like Holi in the JPN apex trauma centre. He has been a Royal College of Emergency Medicine (RCEM) examiner since February 2025. He was actively involved in teaching and training of medical staffs including doctors, nurses and paramedical staffs in basic and advanced emergency management. He was also involved in teaching undergraduate and postgraduates. He was involved in departmental activities including seminars, panel discussions, simulations, case discussions and bedside teaching. He has been a faculty during regular training sessions in trauma centre conducted by emergency department for doctors, nurses and paramedics. He was an invited faculty at the National Emergency Board Review of India Course (NEMBRIC) in February 2025 held at New Delhi. He was also in-charge of post-exposure prophylaxis management of staffs in JPN trauma centre and was part of 'Code blue' committee at the trauma centre.

Dr Ankit Kumar Sahu joined the department in February 2025 as a contractual faculty at JPN apex trauma centre. He has been involved in patient care, teaching-training and looks after administrative responsibilities assigned to him by the head of department.

HIGHLIGHTS

The department is engaged in many academic activities such as Endocrine-Pathology Conference every alternate week,, Endocrinology-Surgery-Nuclear Medicine (Wednesday) and Endocrinology-Radio diagnosis (Friday) meet every week. There are Seminar (Wednesday), Journal Club (Friday) and Clinical classes (Thursday) every week. During these academic events the topics of clinical importance and recent high impact articles are discussed. The Department runs daily outpatient facilities, has state of the art laboratory services for hormone assays, metabolic studies and bone density measurement. The academic activities of the department were conducted during the year.

EDUCATION

Undergraduate, Postgraduate, Paramedical Training

The department was actively involved in teaching undergraduate medical students and nursing students. Postgraduate students (MD) from Internal Medicine and Geriatric Medicine come for one and two month postings to the department. In addition, postgraduate fellows enrolled in MCh Breast and Endocrine Surgery, DM Nuclear Medicine and MSc Reproductive Biology also rotated for a period of 2-4 weeks in the department.

Long and Short Term Training

- Three candidates joined the DM course [One General (July 2024) two Sponsored (one July 2024 and one January 2025)].
- Two candidates joined for short term training, one from 29 July 2024 to 31 July 2024 (Elective Training) and one from 1 February 2025 to 31 March 2025.

CMEs/Workshops/Symposia/National and International Conferences

Lectures delivered: 39

Nikhil Tandon: 12 **Ravinder Goswami: 1**

Nikhil Tandon

1. As a Faculty Member, ENDOCON 2024, 19 April 2024, Hotel Pullman, Aerocity, New Delhi
2. Childhood Diabetes: Changing times and Current Status, Type-1 Diabetes Symposium: An Effort Beyond Current Care, 12 May 2024, Hotel Sidharth, Karol Bagh, New Delhi
3. Impact of technology and task sharing on preventing vascular complications in diabetes–lessons from the CARRS Trial, 11th edition of the “Dr Mohan’s International Diabetes Update 2024” “From research to the clinic”, 26 July 2024, Hotel ITC Grand Chola, Chennai
4. Chair the session: Gestational diabetes mellitus, 11th edition of the “Dr. Mohan’s International Diabetes Update 2024” “From research to the clinic”, 26 July 2024, Hotel ITC Grand Chola, Chennai
5. Non-surgical management of obesity, Army Hospital (R & R), 20 August 2024, R & R Hospital, New Delhi

6. Managing Non-communicable Diseases: Harmonizing Technology with Task-Sharing, 36th Foundation Day of National Centre for Cell Science (NCCS), Pune, 26 August 2024, Pune
7. Approach to a patient with Suspected Thyrotoxicosis, SPEED Thyroid Update 2024, 31 August 2024, Delhi
8. GDM in India, KEM Hospital, Pune, 20 September 2024, Pune
9. Drug therapy for post-menopausal Osteoporosis, "HIM-ENDOCON", 21 September 2024, Dharamshala, Himachal Pradesh
10. Leadership Talk, i3C-BRIC-RCB PhD Programme in Biosciences at Biotechnology Research and Innovation Council (BRIC), Department of Biotechnology (DBT), 18 October 2024, New Delhi
11. Diabetes and its complications, Indian National Science Academy (INSA), New Delhi 5th INSA-Royal Society, UK Yusuf Hamied Bilateral Workshop, 26-27 November 2024, London, UK
12. Top 3 Problems for Diabetes in India, IIT Madras, Chennai, "Workshop on Identifying the Top 10 Problems in Diabetes for India", 28 March 2025, Chennai

Ravinder Goswami

1. Chairperson in a panel discussion, Annual Conference of Endocrine Society of Delhi, 24 November 2024, Dwarka, Delhi

Rajesh Khadgawat

1. Challenges and Opportunities in Celiac Disease, 1st Bi-Annual Conference of the Asian Pacific Celiac Disease Symposium (APCDS), Delhi, 10 March 2024, New Delhi
2. Pheochromocytoma: Management Issues, Endocrine Surgery CME, AIIMS, Delhi, 7 April 2024, New Delhi
3. Diabetic Ketoacidosis in children with type 1 diabetes, The IAP (Indian Academy of Pediatrics) Delhi Chapter, Delhi, 12 May 2024, New Delhi
4. Young patient with osteoporosis, The Endocrine Society of India's annual EnSPIRE (Endocrine Society Postgraduate Initiative in Research and Education), Kochi, 08 June 2024, Kochi
5. Precious Puberty, Diabetes Thyroid and Endocrine Conference (DTECON), Jaipur, 28-29 June 2024, Jaipur
6. HPA axis suppression and its recovery: management, Integrated Diabetes and Endocrine Academy conference (IDEACON), Kolkata, 5-6 July 2024, Kolkata
7. First line therapy for Diabetes- is a change imminent?, DIABCON Oration, Delhi, 27-28 July 2024, Delhi
8. Thyroid Nodule in children, Indian Thyroid Society annual meeting ITSCON, Lucknow, 10-11 August 2024, Lucknow
9. Growth charts – Challenges in use GH therapy in Turner syndrome Case discussion – a case of SGA, Professional Association of Clinical Endocrinologists (PACE) Masterclass, Trivendrum, 17-18 August 2024, Trivandrum
10. Precocious Puberty, RAJ ESICON, Jaipur, 24-25 August 2024, Jaipur
11. Approach to a case of DSD, ESI satellite Symposium (Online), 1 September 2024, Bikaner
12. Clinical work up of a case of DSD, DSD-focus ESI, Hydearabad, 27 October 2024, Hyderabad

Viveka P Jyotsna

1. Professors Perspective: Person centered care, Endocrine Society of India focus workshop on patient centered care, 8 September 2024, Aerocity, Delhi,
2. Optimisation of growth and puberty in CAH, 53rd Annual Conference of Endocrine Society of India, 9 November 2024, Varun Beach Novetel, Vishakhapatnam, Andhra Pradesh,
3. Craniopharyngioma: Panellist in panel discussion, Annual Conference of Endocrine Society of Delhi, 24 November 2024, Dwarka, Delhi,

Yashdeep Gupta

1. Gestational Diabetes mellitus, Endocrine Society of India's annual EnSPIRE (Endocrine Society Postgraduate Initiative in Research and Education) program, 7 June 2024, Kochi

2. Precision medicine in gestational diabetes: Leveraging readily available information for effective risk-stratification, Dr Mohan's International Diabetes Update-11th edition, 26 July 2024, Chennai
3. Precision medicine in gestational diabetes using simple available information, T-ENDOCON, 25 August 2024, Trivandrum
4. Hyperglycaemia In Pregnancy- New insights into diagnosis and treatment, HIM-ENDOCON, 21 September 2024, Dharamshala
5. Gestational Diabetes Mellitus Insights 2024 (GDM Insights 2024), RCOG chapter, Kochi, 26 October 2024, Kochi
6. Early abnormality of glucose metabolism – Do we need to treat?, ESICON 2024, 10 November 2024, Hyderabad
7. Male hypogonadotropic hypogonadism, DESCON, 23 November 2024, Delhi
8. GDM: Comprehensive management strategies, KEM Conference titled "A Legacy Of Learning: Endocrine Department's Tribute To KEM's Centennial", 8 February 2025, Mumbai
9. Prevention of GDM: What is the evidence? Dr Yashdeep Gupta, Diwas Diabetes Update, 2025, 9 February 2025, Chennai
10. Blood/urine tests for adrenal functional disorders: What, when and how?, North Zone Urological Society of India, 1 March 2025, Delhi (Online)

Ashutosh Kumar Arya

1. Decoding the language of epigenetics in human health: linking basic biology to clinical Medicine, Symposium on Current Trends in Recombinant DNA Technology, 27 July 2024, Online

RESEARCH

Funded projects

Ongoing

1. A 26-week, randomised, multicentre, open-label, active-controlled, parallel group, two-armed, treat-to-target trial investigating the effect on glycaemic control and safety of treatment with once weekly Insulin Icodec compared to once daily Insulin Degludec, both in combination with Insulin Aspart in adults with type 1 Diabetes, with a 26-week extension investigating long-term safety, Dr Rajesh Khadgawat, Novo Nordisk, 5 Years, 2021-2026, Rs 34,95,400
2. A dose-finding trial evaluating the effect and safety of once-weekly treatment of somapacitan compared to daily Norditropin® in children with short stature born small for gestational age with no catch-up growth by 2 years of age or older, Dr Rajesh Khadgawat, Novo Nordisk, 5 Years, 2020-2025, Rs 25,00,000
3. A Master Protocol to Investigate the Efficacy and Safety of LY3437943 Once Weekly in Participants without Type 2 Diabetes who have Obesity or Overweight: A Randomized, Double-Blind, Placebo-Controlled Trial (TRIUMPH-1), Dr Rajesh Khadgawat, Eli Lilly, 2 Years, 2023-2025, 30 Lakhs
4. A randomised, multinational, active-controlled, (open-labelled), dose findingdose-finding, (double-blinded), parallel group trial investigating efficacy and safety of once-weekly NNC0195-0092 treatment compared to daily growth hormone treatment in growth hormone treatment naïve pre-pubertal children with growth hormone deficiency., Dr Rajesh Khadgawat, Novo Nordisk, 8 Years, 2017-2025, Rs 30,00,000
5. A randomized, controlled, multicentre study to evaluate the safety and efficacy of paltusotine in subjects with non-pharmacologically treated acromegaly., Dr Rajesh Khadgawat, Crinetics, 3 Years, 2022-2025, Rs 38,34,170
6. A study comparing the effect and safety of once weekly dosing of somapacitan with daily Norditropin® as well as evaluating long-term safety of somapacitan in a basket study design in children with short stature either born small for gestational age or with Turner syndrome, Noonan syndrome, or idiopathic short stature, Dr Rajesh Khadgawat, Novo Nordisk, 3 Years, 2023-2026, Rs 30,00,000
7. A trial comparing the effect and safety of once weekly dosing of somapacitan with daily Norditropin® in children with growth hormone deficiency, Dr Rajesh Khadgawat, Novo Nordisk, 7 Years, 2018-2025, Rs 10 Lakhs
8. An integrative approach using genomics and tissue proteomics to identify potential biomarkers for precision medicine in Pheochromocytomas and Paragangliomas, Ashutosh Kumar Arya, ICMR Extramural Small Grants, 3 Years, 2025-2028, Rs 1,18,00,000
9. An open-label multicentre roll-over study to assess long-term safety in patients with endogenous Cushings syndrome who have completed prior Novartis sponsoredNovartis-sponsored osilodrostat (LCI699) study and are judged by the investigator to benefit from continued treatment with osilodrostat., Dr Viveka P. Jyotsna, Novartis/ IQVA, 7 Years, 2019-2026, Rs 30, 00,000
10. Centre for Advanced Research and Excellence (CARE) in Young Diabetes, Dr Nikhil Tandon, ICMR, 5 Years, 2019-2025, Rs 4,89,42,083
11. Changing diabetes in children, Dr Nikhil Tandon, Novo Nordisk India Pvt Ltd, 11 Years, 2012-2025, Rs 25,00,000 Lakhs
12. Drug Intervention for prevention of type 2 diabetes among women with prior gestational diabetes mellitus and pre-diabetes in South Asia (DIVINE): A Randomized controlled trial, Dr Nikhil Tandon, ICMR, 4 Years, 2024-2028, Rs 1,76,75,542
13. Effect of comprehensive sleep programme on sleep quality and glycemic/metabolic control in patients with diabetes mellitus: A randomized control trial, Dr Viveka P Jyotsna, Department of Health Research, 3 Years, 2023-2026, Rs 20,16,882
14. Effectiveness of ARDA in a diabetic retinopathy screening program among people with Type 2 diabetes in India – A three armthree-arm Randomized Controlled Trial, Dr Nikhil Tandon, Google LLC, 2 Years, 2023-2025, $ 49,600
15. Evaluation of maternal and fetal outcomes in women diagnosed with GDM or normoglycaemia using IADPSG criteria, among women diagnosed with normoglycaemia by DIPSI criteria: Prospective multi-centre observational cohort study, Dr Nikhil Tandon, ICMR, 3 Years, 2022-2025, Rs 72,44,005
16. Genetic Spectrum Analysis of Multiple Endocrine Neoplasia Type 1 Syndrome Patients and Their Relatives: Exploring the Genetic Landscape, Ashutosh Kumar Arya, AIIMS Intramural Grant, 2 Years, 2024-2026, Rs 10

17. Genomics for preventing misdiagnosis and mismanagement of Idiopathic Hypoparathyroidism, a rare endocrine disorder, Dr Ravinder Goswami, ICMR, 3 Years, 2024-2027, Rs 1,71,00,000
18. ICMR – Young Diabetes Registry (YDR) & YDR cohort – Phase III", Dr Nikhil Tandon, ICMR, 3 Years, 2020-2025, Rs 4,28,44,503
19. Long-term effects of semaglutide on diabetic retinopathy in subjects with type 2 diabetes (FOCUS), Dr Nikhil Tandon, Novo Nordisk India Pvt Ltd, 5 Years, 2019-2027, Rs 27,50,000
20. Molecular Genomics of Congenital Growth Hormone Deficiency and GH sensitivity, Dr Rajesh Khadgawat, Self-funded, 4 Years, 2021-2025, Self-funded
21. Neuropsychiatric and cognitive dysfunctions in hypoparathyroidism, its natural course after 10 years of follow-up in patients with idiopathic hypoparathyroidism on conventional therapy and effect of these dysfunctions on their calcemic control, Dr Ravinder Goswami, ICMR-DHR, 3 Years, 2023-2025, Rs 58,00,000
22. Precision CARRS, Dr Nikhil Tandon, NHLBI, NIH, 5 Years, 2023-2026, $1,61,320
23. Randomized crossover trial for the effect of sevelamer-hydrochloride as adjuvant on serum phosphate in patients with idiopathic hypoparathyroidism with persistent hyperphosphatemia on standard conventional therapy, Dr Ravinder Goswami, ICMR, 3 Years, 2024-2027, Rs 86 Lakhs
24. Strengthening Ambulatory Care for NCD in India, Dr Nikhil Tandon, ICMR, 4 Years, 2024-2027, Rs 5,99,88,140
25. The cardiovascular safety of cagrilintide 2.4 mg s.c. in combination with semaglutide 2.4 mg s.c. (CagriSema 2.4 mg/2.4 mg s.c.) once-weekly in participants with obesity and established cardiovascular disease (REDEFINE 3), Dr Nikhil Tandon, Novo Nordisk, 4 Years, 2023-2027, Rs 35,07,000
26. To develop a strategy for postpartum follow-up of women with history of gestational diabetes mellitus by using the right test and frequency of testing and developing patient patient-centric approach after incorporating their views, Dr Nikhil Tandon, Lupin Ltd, 5 Years, 2018-2026, Rs 40,41,400
27. To develop and evaluate the effectiveness of a multidisciplinary education and care model for individuals with diabetes affected with COVIDCOVID-19COVID-19: A two-arm parallel Randomized Control Trial, Dr Yashdeep Gupta, ICMR, 3 Years, 2022-2025, Rs 67,72,400
28. To generate normative data using continuous glucose monitoring system for glycemia in pregnancy at 24 to 32 weeks of gestation in women defined as normal by IADPSG (International Association of Diabetes and Pregnancy Study Groups) criteria, Dr Yashdeep Gupta, ICMR, 3 Years, 2021-2024, Rs 45,00,000
29. To study the effect of changes in growth hormone status on metabolic profile of human subjects., Rajesh Khadgawat, ICMR, 4 Years, 2021-2025, Rs 29,00,000
30. Utility of low glycaemic index of rice in the management of type 2 diabetes: Rrandomized cross-over trial on glycemic control, related parameters and quality of life, Dr Ravinder Goswami, DBT, 4 Years, 2023-2027, Rs 97,90,000

Completed

1. Development of Phase II Clinical Trial for an Investigational New Drug, Dr Nikhil Tandon, Torrent Pharma, 9 Years, 2014-2024, Rs 84,53,212
2. Integrated Tracking Referral, and Algorithmic Management (I-TREC) System for Hypertension and Diabetes Institution, Dr Nikhil Tandon, NIH, USA, 6 years, 2017-2024, $1,298 113
3. One alpha hydroxyl vitamin D versus 1, 25 dihydroxy vitamin D for achieving optimal calcemic and phosphatemic control in patients with idiopathic hypoparathyroidism, Dr Ravinder Goswami, ICMR, 2 Years, 2021-2023, Rs 31,20,076
4. SOUL - Semaglutide cardiovascular outcomes trial in patients with type 2 diabetes, Dr Nikhil Tandon, Novo Nordisk India Pvt Ltd, 5 Years, 2019-2024, Rs 30 Lakhs
5. To evaluate the effectiveness of lifestyle intervention program in overweight/obese women [within two years of last child birth] when delivered to them along with their spouse as compared to them alone: Two arms parallel Randomized Control Trial, Dr Yashdeep Gupta, ICMR, 4 Years, 2019-2023, Rs 47 Lakhs
6. To study the effect of changes in growth hormone status on metabolomic profile of human subjects., Dr Rajesh Khadgawat, ICMR, 3 Years, 2021-2024, Rs 29 Lakhs
7. Vitamin D deficiency and bone microarchitecture in asymptomatic healthy Indians: Exploring the functional significance of low serum 25(OH)D and high PTH, Dr Ravinder Goswami, DBT, 4 Years, 2019-2023, Rs 76 Lakhs

Departmental Projects (including thesis/dissertations)

Ongoing

1. Pattern of islet antibodies and their persistence in Type 1 Diabetes patients from North India
2. To study the clinical sprectrum/profle of MEN syndrome patients in North India
3. Evaluation of endocrine, reproductive, metabolic musculoskeletal parameters of subjects with congenital adrenal hyperplasia-a cross sectional study
4. Sleep quality in patients with diabetes and it's correlation with duration of diabetes, glycemic and metabolic control and NAFLD: A cross-sectional study
5. Bone health in adult males with congenital hypogonadism.
6. Evaluating the utility of continuous glucose monitoring system for behavioural modification in high risk women enrolled in early pregnancy for the prevention of gestational diabetes mellitus: A pilot Randomized Control Trial
7. Vitamin D status and its functional significance
8. Molecular aspects in the pathogenesis of Basal ganglia calcification in hypoparathyroidism
9. Characterization of Neuroendocrine Tumors with Ga68-DOTANOC PET/CT and F18- FDG PET/CT and compare results with histopathology
10. Assessing Indian vegetarian diets with respect to their "potential protective impact" on cardio-metabolic health of urban adults in Delhi
11. To study the effect of personality on diet quality & academic performance among adolescents: a comparison between boys & girls
12. To study the prevalence of primary aldosteronism in high-risk subjects with hypertension
13. To study the response to vitamin D treatment in obese, overweight and normal BMI, vitamin D deficient Indian children aged 5 to 12 years - an open-label randomised intervention study
14. Evaluation and characteristics of multiple Endocrine neoplasia in cases with primary hyperparathyroidism admitted in Endocrine ward over last 10 years: An ambispective study

Completed

1. Clinical, biochemical, radiological profile and treatment outcome of patients with tumor-induced osteomalacia: an ambispective study
2. Long-term treatment outcomes of Acromegaly in a tertiary care center in India- an ambispective observational study

Collaborative projects

Ongoing

1. A randomized controlled trial to compare the effect of dietary interventions and resistance exercises on changes in skeletal muscle strength mass and functions in type 2 diabetes patients with Dynapenia and Sarcopenia (2022-2025), Department of Medicine, AIIMS
2. Analysis of Body composition and insulin resistance in children and adolescents with psychosis on atypical antipsychotics, Department of Psychiatry, AIIMS, New Delhi
3. Menstrual Patterns and Sexual Function in Patients with Systemic Lupus Erythematosus: Focus on Longitudinal Interaction with Disease Activity, Department of Rheumatology, AIIMS, New Delhi
4. Body composition, muscle strength and exercise tolerance in adolescent girls with PCOS: A case control study, Department of Paediatrics, AIIMS, New Delhi
5. Prevalence and etiology of menstrual Irregularity in adolescent girls- a cross-sectional study, Department of Paediatrics, AIIMS, New Delhi
6. To study the response to Vitamin D treatment in obese, overweight and normal BMI, Vitamin D deficient Indian Children aged 5 to 12 years- an open labelled randomized intervention study (2023-2026), Department of Medicine, AIIMS

7. To evaluate the personality traits and assess the impact of humanistic psychotherapy for trait-specific intervention on body composition and metabolic parameters in obese subjects (2023-2026), Department of Medicine, AIIMS
8. Assessment of epigenetic modifications of CDKN2A and RASSF1 genes in the peripheral blood of sporadic pituitary adenoma cases (2023-2026), Department of Anatomy, AIIMS
9. Study to quantify the burden of Insulin resistance in breast cancer women and its relation with other known prognostic and predictive factors of breast cancer (2023-2026), Department of Surgery, AIIMS.
10. Comparison of outcomes of Trans-oral vestibular and Axillo-breast approach for endoscopic hemithyroidectomy in patients with benign and indeterminate thyroid lesions- A randomized controlled trial (2023-2026), Department of Surgery, AIIMS
11. A case-control study to assess the prevalence of metabolic syndrome among females with PCOS in tertiary care hospital. (2025-2028), Department of Nursing, AIIMS
12. Exploring the efficacy of intermittent Fasting with time-restricted eating (TRE) on survival in gynecological cancers: A phase II randomized study, Department of Medical Oncology, AIIMS, New Delhi
13. To study the prevalence of primary Hyperaldosteronism among the Patients of obstructive sleep apnea, Department of Medicine, AIIMS, New Delhi

Completed

1. A randomised control trial to compare the safety and outcome of trans-oral vestibular and axillo-breast approach for endoscopic hemithyroidectomy in patients with benign thyroid swellings (2021-2024), Department of Surgery, AIIMS
2. Evaluation of role of platelet rich plasma in healing of chronic diabetic and peripheral arterial disease ulcers as compared to standard medical care: A randomised controlled study (2021-2024), Department of Surgery, AIIMS
3. Effect of benfotiamine as an adjuvant drug on oxidative stress in patients with type 2 diabetes mellitus- a randomized double-blind placebo-controlled clinical trial.(2021-2024), Department of Pharmacology, AIIMS
4. Assesment of risk factors of Graves orbitopathy and predicting odds of dysthymic optic neuropathy in hyperthyroidism (2021-2024), Department of Ophthalmology**,** AIIMS

Specialty Clinics:

- Diabetes of Young (DOY) Clinic on Saturdays
- Paediatric and Adolescent Endocrine Clinic (PAEC) on Monday afternoons.
- Gestational Diabetes Mellitus (GDM) Clinic on Friday mornings
- Community services/camps.

The department regularly hold camps especially awareness and screening programs on obesity, PCOS, diabetes, and thyroid disorders.

From Year 2019, we have optimized method of the steroid hormone assays on Liquid chromatograhphy tandem mass spectrometer installed in Immunoassay laboratory located at the 7th floor of the Convergence Block. In same year have started steroid panel testing (especially testosterone in female patients and 17-Hydroxyprogesterone) on LC-MS system. In the current year we have optimaized method for estimations of plasma free metanephrines (Metanephrine, normetanephrine and 3-methoxy tyramine) and started patients screening and diagnosis. We are participating in external quality assurance proggrame for all our LC-MS based hormone assays.

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Nikhil Tandon was Member of the WHO Advisory Group on Diabetes (TAG/D) from 22 January 2024 to 21 January 2026. He was Global Panel Member of the FOCUS study. He was Member of the Governing Body of the Institute of Medical Sciences, Banaras Hindu University, Varanasi. He has been nominated by the Ministry of Earth Sciences, Government of India as a Member of the National Coordination Committee for Polar Science Programme (NCPP), Antarctica. He has been nominated as a Chairman of the Selection Committee for the Selection of Medical Officers for the 38th Indian Scientific Expedition to Antarctica (ISEA), Goa. He was Vice President, National Board of Examination (NBE), New Delhi. He was Associate Editor, National Medical Journal of India (NMJI), New Delhi. He was Member, Editorial Board on Thyroid Research, UK. He was Member, International Expert Advisory Group, Global Alliance for Chronic Disease. He was Member, Council of the Indian Academy of Science. He was Member, Governing Council of the Sun Pharma Foundation. He was Member, Research Council of the CSIR-Institute of Genomics and Integrative Biology. He was External Expert to assist Standing Selection Committee of AIIMS, Bilaspur, for selection to the post of Assistant Professor in the Department of Endocrinology and Metabolism, AIIMS, Bilaspur (Conducted by PGIMER, Chandigarh). He was Member, Selection Committee constituted by the National Academy of Sciences, India for Award of Fellowships and Memorial Lectures (Senior Scientist Platinum Jubilee Fellowship, Young Scientists Award, and NASI Memorial Lecture Award). He was External Member of the Selection Board at Dr Ram Manohar Lohia Hospital, for selection of Assistant Professor (Endocrinology) on contract basis. He was Member, Technical Committee, Central Drug Standard Control Organisation, Drug Controller General of India, New Delhi. He was Nominated by the Hon'ble HFM as a Member, Scientific Advisory Board (SAB), Indian Council of Medical Research (ICMR) for a period of 3 years. The SAB is entrusted to examine all proposals in connection with the scientific objects of ICMR. He was Nominated by the Chairman and Managing Director, Sitaram Jaipuria Foundation (SJF) to serve as Jury Member for Sitaram Jaipuria Medical & Healthcare Excellence Awards. He was Nominated as National Leader in the clinical trial ID: NN9838-4942 (Redefine 3), project titled, "The cardiovascular safety of cagrilintide 2.4 mg s.c. in combination with semaglutide 2.4 mg s.c. (CagriSema 2.4 mg/2.4 mg s.c.) once weekly in participants with obesity and established cardiovascular disease".

In this context, I have been invited to become India National Leader for REDEFINE 3 study. He was Member of the "National Strategic Advisory Committee (NSAC) on Biomanufacturing" a "Bio E^3 Policy i.e. Biotechnology for Economy, Environment and Employment", with emphasis on "Fostering High Performance Biomanufacturing-An integrated approach towards promoting circular economy for Green, Clean and Prosperous India". He was Member of the South-East Asia Regional Expert Group on NCD (REG-NCD). He was Chairman, Computerization Committee, All India Institute of Medical Sciences, New Delhi. He was Patron of the Curriculum for Type 1 Diabetes Education Program aimed at educating general physicians, paramedics and Type 1 Diabetes caregivers/patients. The Society for Promotion of Education in Endocrinology and Diabetes (SPEED). The SPEED is a not-for-profit making educational society involved in education dissemination to medical fraternity and patients. He was Appointed as Dean (Research), All India Institute of Medical Sciences, New Delhi. He was Invited by Justice Prathiba M. Singh, Co-Chair, WG-RC, Global Initiative on AI for Health (GI-A14H) to join the WHO Working Group on Regulatory Considerations (SG-RC) on AI for Health. He Conferred "The Charaka Award 2024"

Professor Ravinder Goswami was Member for the 3rd International Task Force on Hypoparathyroidism Initiated by Endocrine Society of USA. He was Member Project Review Committee for Medical Projects, CSIR since 2015 till date. He was Member Core Committee of the Central Core Research Facility (CCRF). He was Subject expert (Endocrinology) for faculty selection/promotion for various AIIMS and PGI Rohtak. He got Fellowship of the Sun Pharma Science Foundation for the year 2023-2024. He was FNA, Fellowship of the Indian National Science Academy, Delhi (INSA) for the pivotal work on metabolic bone disorders including vitamin D deficiency and idiopathic hypoparathyroidism. He received, Best Researcher Award of the year 2024 from Endocrine Society of India.

Professor Rajesh Khadgawat got Fellowship of Royal College of Physician (FRCP), Edinburgh, UK. He was Appointed as Board of Member of Aligarh Muslium University (AMU). He was Member, Scientific Council of Zandu Foundation of Health Research, Kolkata. He was Expert, National Anti-Doping Agency (NADA), Ministry of Youth Affairs and Sports, Govt of India. He was Endocrinology External expert, Japan Anti-Doping Agency (JADA), Japan. He was Board of Members (BOM), Rajasthan University of Health Sciences (RUHS), Jaipur. He was Member, Selection Board, Rajasthan University of Health Sciences (RUHS), Jaipur. He was Member, SAE-Death committee, DCGI, Govt of India. He was Subject Expert Committee (Endocrinology), DCGI Govt of India. He was Subject Expert, National List of Essential Medicines (NLEM), Department of Health Research, Govt of India. He was Subject Expert, Standing National Committee on Medicines (SNCM), Department of Health Research, Govt of India. He was Member, Subject Review Committee, National Formulary of India (NFI), 6th Edition. He was Member (Clinician), The Institutional Ethics Committee, University of Delhi South Campus. He was Member (Clinician), The Central Ethics Committee, Central Council for Research in Ayurvedic Sciences (CCRAS), Ministry of Ayush, Govt of India. He was Subject expert (Endocrinology) for faculty selection/promotion for Union Public Service Commission (UPSC), AIIMS-Bhopal, AIIMS-Bhubaneshwar, AIIMS-Jodhpur, AIIMS-Raipur, AIIMS-Manglagiri, AIIMS-Kalyani, Rajasthan Public Service Commission (RPSC), PGI Rohtak and other State Public Service Commissions. He participated in a Medical Camp organized by the Indian Coast Guard in Lakshadweep - 27 April-1 May 2024. He participated in Medical Camp in Kargil - 7-13 July 2024. He participated in Medical Camp - Leh, Ladakh 17-23 September 2024. He participated in a medical camp in Pratapgarh, UP- 30 November 2024. He participated as External Examiner for DM exams organized by NRS Medical College, West Bengal Health University, Kolkata, Siksha-O-Anusandhan University, Bhubneshwar, KEM hospital and Seth GS Medical College, Mumbai, Gandhi Medical College, Hyderabad, BYL Nair Hospital and JJ Medical College, Mumbai. He was Subject Expert for Faculty in Endocrinology Selection in Rajasthan Public Service Commission, UPSC, Institute of Liver & Biliary Sciences (ILBS), PGI, Rohtak, RML Hospital and PG Institute, Delhi and AIIMS-Jodhpur, Bhubaneswar, Raipur, Bhopal, Manglagiri, Kalyani.

Professor Viveka P Jyotsna was Central Assistant Public Information Officer (CAPIO) of the Department of Endocrinology and Metabolism under Right to Information Act, 2005 at AIIMS since 2010 till date. He was Member of Department Purchase Committee, Department of Endocrinology since January 2016. He is Member of the subject expert committee (Endocrinology), New Drug Division, Drug Controller General, India, since January 2015 till date. He was reviewer for National and International journals: Indian Journal of Endocrinology and Metabolism, Indian Journal of Medical Research, Endocrine practice, Clinical Endocrinology, JCEM. Chairperson and Internal examiner for DM Endocrinology exit Exam, in AIIMS, New Delhi held on 13-14 May 2024. He was Endo Update 2024 on neuroendocrine tumours held on 15 June 2024 at Lucknow by Department of Endocrinology, SGPGI, Lucknow: chaired session on neuroendocrine tumours in GIT and diagnostic tests in insulinoma. He was External member of the selection board for selection of Assistant Professor (Endocrinology) held on 18 June 2024 at RML Hospital, New Delhi. He was Pre validation of MCQ and moderation of MCQs for INI-SS for admission in DM Endocrinology course for January 2025 session done on 18 October 2024. He was Coordinator for Departmental assessment for selection of INI-SS candidates for admission to DM Endocrinology, January 2025 session through online mode held on 13 November 2024. He was Member of medical board meetings on 13 and 16 December 2024 at AIIMS for expert opinion on Kuldeep singh Senger versus CBI. He was Member of medical board meetings on 20 January 2025 at AIIMS for expert opinion on Jagjit singh Dallewal versus Uday Pratap Singh & Ors.

He Prepared question paper and analysed answer sheets for DM Endocrinology internal assessment for exam held on 28 February 2025. He Served as faculty and Judge for assessing oral and poster presentations at National Conference on obesity, Obisitas 2025 on 2 March 2025 at Dwarka, Delhi. He was Member of medical board for medical examination of petitioner Mr. Arvind Dham versus directorate of enforcement on 6 March 2025 at AIIMS, New Delhi.

Dr Yashdeep Gupta RSSDI Novartis Young Investigator Award is given by Research Society for the Study of Diabetes in India. Anil R Sheth Young Investigator Award in the field of Clinical Endocrinology given by Endocrine Society of India.

Dr Ashutosh Kumar Arya was Departmental Nodal Officer of AB-PMJAY. He was Member of Proteomics Sub-committee, Centralized Core Research Facilty (CCRF), AIIMS New Delhi. He Member of Committee for Research diretory of Faculty and Scientists, AIIMS New Delhi.

VISITING SCIENTISTS

During the year nobody invited/visited the Department.

HIGHLIGHTS

The Department of Forensic Medicine and Toxicology serves as the premier referral center in India for complex medico-legal cases. It provides expert opinions on cases referred by agencies such as the CBI, NIA, NHRC, various courts, and state crime branches. Its activities encompass medico-legal autopsies, embalming of medicolegal death cases, clinical forensic services, teaching, training, research, expert consultation, and legal proceedings. The department operates three main laboratories—Toxicology, DNA Fingerprinting, and Histopathology—as well as three support units: Forensic Radiology, Forensic Anthropology, and Forensic Biochemistry. During the reporting period, 1, 750 medico-legal autopsies were performed. The Centre of Advanced Research and Excellence in Virtual Autopsy offers virtual autopsy services aimed at the dignified handling of deceased individuals and supports research efforts, with 59 virtual autopsies conducted. Additionally, the department is leading a multicentric ICMR-funded Task Force project focused on the identification of unidentified bodies and missing persons across India. A NIMH-funded R01 grant project focused on developing resources for genetic research in suicide is currently underway. In addition, there are five funded projects and 28 departmental research projects actively in progress.

EDUCATION

There are nine postgraduate (MD) students and three PhD students enrolled in the department.

CMEs/Workshop/Symposium /Conferences

1. “Virtual Autopsy Workshop” held in Coordination with International Committee of Red Cross, New Delhi Delegation, on 24 April 2024 at AIIMS, New Delhi.
2. Forensic Capacity Building Training for Bhutan Delegates at Department of Forensic Medicine & Toxicology, AIIMS, New Delhi, 24-28 June 2024
3. Workshop on Sudden Death in Young, Department of Forensic Medicine & Toxicology, AIIMS, New Delhi-A collaboration of AIIMS New Delhi, ICMR HQs Delhi, 23 November 2024

Lectures delivered at CMEs, National and International Conferences

Lectures delivered: 39

Adarsh Kumar: 9	**Chittaranjan Behera: 13**	**Abhishek Yadav: 5**
Swati Tyagi: 4	**Abilash S: 7**	**AK Jaiswal: 1**

Adarsh Kumar

1. Various types of Wounds and their documentation through lens of Forensic Traumatology: A view-point, WOUNDCARECON-2024 – 16th Annual Conference of Wound Care and Research, 26 April 2024, Lucknow, UP

2. Recent Changes & Amendments in Laws- In Relation to Medical practice, National Ayush Medicolegal Conference, 22 June 2024, Pune Maharashtra
3. Medical Negligence vis-à-vis defensive Medicine- How far justified in current Indian scenario, Guest Lecture on Occasion of Doctor's day, 3 July 2024, Greater Noida, UP
4. Changing paradigm of Custodial Death Investigations in India during 21st Century- An experience from India, 19th International Forensic Medicine Congress of Council of Forensic Medicine, 23 September 2024, Antalya, TURKEY
5. Digital Autopsy (Virtopsy)- Journey so far and future ahead, 4th International Conference on Recent Advances in Forensic Sciences- Forensic Gyan-2024, 14 November 2024, Jaipur, Rajasthan
6. Current Status of Forensic Toxicology in India – An Update, 20th National Conference of Indian Society of Toxicology- TOXOCON 2024, 21 November 2024, Deoghar, Jharkhand
7. Dealing with Child Abuse in India- An Update, 12th International Conference of African Society of Forensic Medicine- ASFM- 2025, 10 March 2025, Pretoria South Africa
8. Sharing of placing Digital Autopsy (Virtopsy) services at AIIMS, New Delhi -An Experience, 22nd National Conference of Punjab Academy of Forensic Medicine & Toxicology- PAFMATCON 2024-2025, 20 March 2025, Dehradun Uttarakhand
9. Interdisciplinary approach for better Criminal Investigation System in India: Need of hour in Current Era of Technology, 10th Annual Conference on Recent Advances in Chemical and Environmental Sciences "RACE", 28 March 2025, Gwalior MP

Chittaranjan Behera

1. Time Series Analysis of COVID-19 Pandemic and Suicide Mortality Patterns in New Delhi, India, 20th European Symposium on suicide and Suicidal Behaviour (ESSSB20), 29 August 2024, Rome, Italy
2. UMID: India's First DNA database for identifying unidentified dead bodies, Guest lecture at Training course on "Advancing justice through DNA Technology, National Forensic Science University, Delhi Campus, 4 September 2024, New Delhi
3. Exploring Suicide Research in India, Guest lecture at 14th International conference of Indian Academy of Medicolegal experts, 30 September 2024, Jodhpur
4. Building Resources for the Diversification of Genomic Data on Suicide Mortality. Lecture as part of a symposium at 2024 World Congress of Psychiatric Genetics conference, 17 October 2024, Singapore
5. Exploring and implementing Molecular Research in Forensic Medicine, Guest lecture at Hands on workshop-III, Department of Forensic Medicine & Toxicology and Multidisciplinary Research Unit Maulana Azad Medical College, 22 November 2024, New Delhi
6. The first DNA database in India for identification of unidentified dead bodies. Guest lecture at Centurion University, 24 January 2025, Bhubaneswar
7. UMID: The first DNA database in India for identification of unidentified dead bodies,, Guest lecture during 46th Annual conference of Indian Academy of Forensic medicine (Forensic Medicon-2025) (Virtual), 30 January 2025, Chenai
8. Suicide Research in India, Guest lecture during Web meeting on Alzheimer's Disease and Suicide Research Group (Virtual), 31 January 2025, Marília, Brazil
7. DNA database and Identification portal for Identification of Unidentified bodies and Missing Persons in India (UMID Project, Guest lecture during Forensis Agora, 3rd International Conference Beyond the Evidence: Reflecting On Forensic Innovations to Shape the Future of Criminal Justice, 8 February 2025, Greater Noida
9. MOHFW recent guidelines on medico-legal response especially sexually assaulted victims and Role of medical personnel, Invited lecture during training programme on "Gender-based violence and Human rights for promoting Women' Health" at NIH& FW, 19 February 2025, New Delhi
10. Role of medical personnel and also on Child abuse and POCSO ACT, Invited lecture during training programme on "Gender-based violence and Human rights for promoting Women' Health" at NIH& FW, 19 February 2025, New Delhi
11. DNA Profiling and Database for Identification of Unidentified dead bodies in Mass Disaster, Guest lecture during CME at Maulana Azad Medical College, 22 February 2025, New Delhi

12. Multidisciplinary & Multicentric Research Collaborations in Forensic Medicine, Guest lecture during 5th Annual AIIMS, Forensic Guild conclave, 6 March 2025, Konark
13. India's First DNA database for identifying unidentified dead bodies, Training course on Advancing justice through DNA Technology, National Forensic Science University, Delhi Campus, 18 March 2025, New Delhi

Abhishek Yadav

1. PMCT Angiography, Virtual Autopsy Workshop held in Coordination with International Committee of Red Cross, New Delhi Delegation, 24 April 2024, New Delhi
2. PMCT Angiography, CME-From death to Diagnosis: PMCT Angiography in Death Investigation and Management of Snake Bite, 6 September 2024, Bathinda
3. Handling Medico legal Cases, Training workshop on Medical Ethics & Medico Legal Issues organized for Medical officers of Madhya Pradesh Government, 17 September 2024, Bhopal
4. Handling Medico legal Cases, Training workshop on "Medical Ethics & Medico Legal Issues" organized for Medical officers of Madhya Pradesh Government, 24 September 2024, Bhopal
5. Forensic Immunohistochemistry, 5th Annual AIIMS Forensic Guild 2025, 7 March 2025, Konark

Swati Tyagi

1. Virtual Autopsy in Diagnosis of Sudden Unexplained Death in the Young, Workshop on Virtual Autopsy, jointly organized by ICRC and ICMR Headquarters, 24 April 2024, New Delhi
2. Role of Virtual Autopsy in Forensic Anthropology, Workshop on Virtual Autopsy, jointly organized by ICRC and ICMR Headquarters, 24 April 2024, New Delhi
3. Prevention of Sexual Harassment of Women at Workplace, Training and Awareness Program, 28 January 2025, New Delhi
4. Overview of Mortuary Management and Postmortem Techniques, Training of forensic pathologists from Bhutan as part of a skill development programme at AIIMS, 1 April 2025, New Delhi

Abilash S

1. Virtual Autopsy in Diagnosis of Sudden Unexplained Death in young, Virtual Autopsy Workshop, 24 April 2024, New Delhi
2. Role of Virtual Autopsy in Forensic Anthropology, Virtual Autopsy Workshop, 24 April 2024, New Delhi
3. Medicolegal documentation, Advanced Emergency Burn Management Training under National Programme for Prevention, 4 September 2024, New Delhi
4. Legal issues in Skin Donation, Advanced Emergency Burn Management Training under National Programme for Prevention, 21 December 2024, New Delhi
5. Medicolegal documentation, Advanced Emergency Burn Management Training' under National Programme for Prevention, 8 January 2025, New Delhi
6. Medicolegal documentation, Advanced Emergency Burn Management Training' under National Programme for Prevention, 5 February 2025, New Delhi
7. Medicolegal documentation, Advanced Emergency Burn Management Training' under National Programme for Prevention, 5 March 2025, New Delhi

AK Jaiswal

1. Forensic Skilling in Toxicology, Hands on Workshop on Forensic Skilling at Department of Forensic Sciences, National Forensic Science University, 22 April 2024, New Delhi

Total number of lectures delivered

2022-2023	2023-2024	2024-2025
20	38	9

1. Aggarwal K, Mohapatra BK, Chauhan K, Singh H, Sharma N, Behera, Exploring the Effects of Temperature-Dependent Mitochondrial DNA Sequencing from Incinerated Tooth Samples: A Preliminary Study, Congress of the International Society for Forensic genetics, 9-13 September 2024, Santiago de Compostela, Spain.
2. Ayushmaan, Gokul G, Yadav A, Gupta SK, The Delhi Cocktail and crisis of substance abuse- An autopsy-based case series, 46th Annual National Conference of Indian Academy of Forensic Medicine(Forensic Medicon-2025), 01 February 2025, Chennai
3. Balaji D, Ali Z, Gokul G, Abilash S, Divya R, Tyagi S et al, PMCT Evaluation of Medial Clavicular Epiphysis Fusion for Age Estimation in the North Indian Population, 46th Annual National Conference of Indian Academy of Forensic Medicine (Forensic Medicon-2025), 01 February 2025, Chennai
4. Benito P, Kumar A, Yadav A, Evaluating postmortem CT versus conventional autopsy in road traffic accident fatalities: A narrative review. IAMLECON 2024, 30 September-01 October 2024, AIIMS, Jodhpur
5. Gokul G, Yadav A, Hussain T, Abilash S, Tyagi S, Gupta SK, Investigating dynamics of postmortem lividity fixation, 46th Annual National Conference of Indian Academy of Forensic Medicine(Forensic Medicon-2025), 01 February 2025, Chennai
6. Gokul G, Abilash S, Babu MN, Karthi VR, Tyagi S, Gupta SK, Diagnostic Intricacies in Positional Asphyxia: Insights from a Case Study and Literature Overview, 46th Annual National Conference of Indian Academy of Forensic Medicine(Forensic Medicon-2025), 1 February 2025, Chennai
7. Hussain T, Divya R, Yadav A, Abilash. S, Gupta SK, The unforeseen tragedy of chemotherapy- A fatal outcome, 46th Annual National Conference of Indian Academy of Forensic Medicine(Forensic Medicon-2025, 01 February 2025, Chennai
8. Kaushik R, Behera C, Patra BN, Nayak B. Cytokine Gene Polymorphisms and Suicide Risk in the Indian Population: A Case- Control Study, 20th European Symposium on suicide and Suicidal Behaviour (ESSSB20), 28-31 August 2024, Rome, Italy
9. Kaushik R, Behera C, Satapathy S. Bridging Genetics and Behavior: SNPs and Psychological Autopsy in Suicide Investigations, International Association of Suicide Prevention, 03-06 June 2024, Bangkok, Thailand (Virtual)
10. Kaushik R, Behera C, Satapathy S, Understanding Suicide: The Complex Relationship Between Genetics, Psychopathology, and Behaviour, 24th WPA World Congress of Psychiatry, 14-17 November 2024, Mexico City (Virtual)
11. Kaushik R, Behera C, Epigenetic Determinants of Suicidal Behavior: Preliminary findings from an Indian Cohort, World Congress of Psychiatric Genetics, 15-19 October 2024, Singapore
12. Kaushik R, Goyal M, Behera C, A Genome-Wide Approach to Epigenetic Markers of Suicide in Indian Populations, 4th Annual Research Day, 29-30 January2024, New Delhi
13. Panga SK, Hussain T, Gupta P, Pandit JN, Yadav A, Gupta SK, PMCT based metric analysis of the first lumbar vertebra for sex determination and age estimation, 46th Annual National Conference of Indian Academy of Forensic Medicine(Forensic Medicon-2025, 01 February 2025, Chennai
14. Shukla P, Satapathy S, Behera C, Barriers to Accessing Postvention Support Services for Suicide Loss Survivors in India: A Qualitative Study on Structural, Attitudinal, Knowledge, and Cultural Challenges, 24th WPA World Congress of Psychiatry, 14-17 November 2024, Mexico City (Virtual)
15. Shukla P, Verma R, Namboodiri SB, Jain S, Gupta K, Aggarwal K, et al, A Comprehensive DNA-Based Identification System for Unidentified Dead Bodies in India, 4th Annual Research Day, 29-30 January 2024, New Delhi
16. Shukla P, Satapathy S, Behera C, Addressing the Needs of Suicide Loss Survivors: A Postvention Approach for India, 4th Annual Research Day, 29-30 January 2024, New Delhi
17. Singh K, Kaur R, Behera C, Balhara YPS, Suicide deaths in South and South-east districts of Delhi during Pre and Post-COVID-19 period- A comparative analysis, 4th Annual Research Day, 29-30 January 2024, New Delhi
18. Singh K, Behera C, Kaur R, Srivastava P, A comprehensive review of polymorphic markets: Exploring Genetic Diversity in India, INBIX-ADNAT 2024, 28 -30 November 2024, Varanasi
19. Sinha PK, Adarsh Kumar A, Advancements and Challenges: A Critical Review of Artificial Intelligence Applications in Craniofacial Reconstruction for Forensic Identification in India, 26th Triennial Meeting of the International Academy of Legal Medicine "IALM-2024", 21-23 May 2024, Athens, Greece
20. Yadav A, Kumari M, Difficulties and challenges in Whole body PMCT angiography in the first Virtual Autopsy center of India, 26th Congress of IALM 2024, 23 May 2024, Athens, Greece

ORAL/POSTER PRESENTED OVER PAST 3 YEARS

2022-2023	2023-2024	2024-2025
40	17	20

RESEARCH

Funded projects

Ongoing

1. An exploratory case-control study to assess the risk and protective factors for completed suicide among persons with psychoactive substance abuse, Dr. Chittaranjan Behera, AIIMS Interdisciplinary Intramural, 2 Years, 2023-2025, Rs 10 Lakhs
2. Building Resources for the Diversification of Genetic Data on Suicide Death, Dr. Chittaranjan Behera, NIMH, USA, 5 Years, 2024-2029, Rs 800 Lakhs
3. Establishing the cause in sudden unexplained deaths in young, Dr. Sudhir K Gupta, ICMR, 2 years, 2023-2025, Rs 87 lakhs
4. Genome wide DNA methylation profiling to study role of epigenetic modification in suicide completers, Dr. Chittaranjan Behera, DBT, 3 Years, 2023-2026, Rs 120.62 Lakhs
5. Multicentric Task Force Project-Establishment of a multicenter Identification portal and DNA database for identification of unidentified dead bodies in India by using molecular, bioinformatics tools and techniques, Dr. Chittaranjan Behera, ICMR, 3 Years, 2023-2026, Rs 389.91 Lakhs

Completed

1. Centre of Advanced research and excellence in Virtual Autopsy, Dr. Sudhir K Gupta, ICMR, 5 Years, 2019-2024, Rs 500 Lakhs
2. Determination of relationship in third degree maternal relative by mitochondrial DNA analysis, Dr. Nidhi Sharma, AIIMS Intramural, 2 Years, 2022-2024, Rs 10 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. A study on the effect of genetic manipulation in mammalian inner ear cells.
2. Age estimation by radiological study of bones and joints
3. Association between suicide and toxoplasma gondii infection: a hospital based case-control study
4. Cadaveric skin Transplantation in burns patient
5. Comparative analysis of PMCT virtual autopsy and traditional autopsy in sudden unexplained nonviolent deaths
6. Comparative analysis of virtual autopsy and traditional autopsy with multiple organ histopathology in sudden unexplained and unexpected deaths
7. Comparative Analysis of Virtual Autopsy and Traditional Autopsy with Multiple Organ Histopathology in Sudden Unexplained and Unexpected Deaths
8. Comparative study of Cerebral non contrast postmortem CT, CT Angiography and traditional autopsy in cases of head trauma and suspected sudden death
9. Comparative study of findings of post-mortem CT angiography, unenhanced CT and Traditional autopsy in suspected sudden death of cardiac and pulmonary origin
10. CT Scan and Digital X-ray Based Virtual Autopsy Vis A Vis Traditional Autopsy including Histopathological Examination Findings in Cases of Death due to Fatal Pressure on Neck
11. Digital autopsy with computerized tomographic scanning and dignified management of the dead
12. Effect of ACE inhibitors and angiotensin receptors blockers on renin angiotensin system markers in brain tissue of postmortem subjects with depression

13. Establishing The Cause In Sudden Unexplained Deaths In Young
14. Estimating Age by the study of ossification centers using computed tomography scans of Sacrum and Sternum in North Indian Population
15. Evaluation of CRISPR mediated ATOH1 knock in on hair cells differentiation in cell lines derived from Murine Organ of Corti.
16. Genetic characterization and Genotypic phenotypic correlation in inherited cardiomyopathies
17. Genetic landscape of cardiomyopathies
18. Gross and microscopic features of organs in suspected and confirmed cases of poisoning.
19. Identification of semen samples using MRNA as molecular marker
20. Integrated Evaluation of Postmortem Coronary Artery Pathology: Correlation of Gross Examination, PMCT, and Coronary Explant Angiography
21. Morphological and genetic evaluation of sudden cardiac death
22. MYH7 Gene mutation in inherited cardiomyopathies
23. PM CT Angiography
24. Study of Fibrosis in Cardiovascular Disease: FIBICAR Study
25. Study of pulmonary pathology using CT scan based virtual autopsy and traditional autopsy in various non-traumatic causes of death
26. Study on MYBPC3 gene mutations in patients of primary cardiomyopathies
27. The 'Forensomics' approach for postmortem Interval Estimation from the human liver and toxicity by integrating metabolomics and lipidomics
28. Trauma focused Postvention Module for family and friends of victims of completed suicide- Development and Validation
29. Viability Assessment of different organs and tissues in Non-heart beating cadavers for Transplantation Purposes.

Completed

1. A comparative analysis of Post-mortem CT findings with that of Violent Asphyxial deaths.
2. A Comparative Study of Ethyl Alcohol in Human Blood, Urine, Vitreous Humor, and Cerebrospinal Fluid in Cases Brought for Post-mortem Examination in AIIMS Mortuary.
3. Mitochondrial DNA analysis in Post Mortem Samples under Degrading Conditions to establish relatedness.

Collaborative projects

Ongoing

1. Defining the Fc receptor based immune landscape in rheumatic heart diseases, Department of Cardiac Biochemistry
2. Development and evaluation of rapid fingerprint restoration solution for dried decomposed fingertips in Indian climatic conditions: a comparative analysis of methodologies, variation in pH and temperature, Department of Forensic Medicine & Toxicology, KMC, Manipal
3. Development and method validation for Z-drugs and Tramadol analysis in biological matrices, National Forensic Science University, Delhi campus
4. Editing of Atoh1 in cadaver derived supporting cells for the regeneration of auditory cells, Department of Biochemistry and ENT
5. Effect of antidepressants and add-on therapy of renin-angiotensin-aldosterone system (RAAS) modulators on treatment response in subjects with depression: Correlation analysis with RAAS related biomarkers and their gene expression, Department of Pharmacology
6. Epidemiological investigation of suicide deaths during the COVID-19 Pandemic in south and south- east districts of Delhi, Department of Community Medicine

7. Evaluation of immune modulatory and antioxidant potential of a unani formulation, Department of Ocular Biochemistry, AIIMS
8. Evaluation of prevalence of cyanide poisoning in patients of flame burn injuries admitted at a tertiary health care facility, Department of Burns and Plastic Surgery
9. Impact of alcohol on dysregulation of inflammation and recovery of trauma hemorrhagic shock patients, JPNATC AIIMS
10. Impact of Host Genomic Landscape and Environmental Factors on Gut Microbiome Profiles in Children with Congenital Uropathies Prone to Urinary Tract Infections, Department of Pediatric Surgery
11. Influence of Vitamin D-binding protein gene polymorphisms on microbiome-metabolome profiles of children with congenital uropathies prone to urinary tract, Department of Pediatric Surgery
12. Investigating DNA Methylation Profiles in Pediatric Patients with Posterior Urethral Valve (PUV) Prone to Chronic Kidney Disease (CKD), Department of Pediatric Surgery
13. The evaluation of STR markers in various Global and Indian populations for exploring the correlation between genotype and geolocation, National Forensic Science University, Delhi campus

Completed

1. Ameliorative effects of selenium and selenium nano-particles on nicotine- induced hematotoxicity, oxidative damage and reproductive toxicity in male albino rat, Forensic Medicine & Clinical Toxicology, Faculty of Medicine, Benha University, Egypt
2. An exploratory study on the interface of social media and completed suicides, Department of Psychiatry
3. Comparison of suction verses microdissection method for harvesting supporting cell from inner ear, Department of E.N.T
4. Sudden cardiac death in young: An autopsy and molecular study to identify the cause, Department of Pathology

PATIENT CARE

In patient care/supportive activities include information regarding:

(a) facilities available in the department (including special clinics and/or special laboratory facilities
(b) community services/camps etc.

Number of patient-care related activities - specialty clinics, procedures, investigations etc.

Sl. No.	Item		2022-23	2023-2024	2024-2025
1.	Medico legal Postmortem		1523	1564	1750
2.	Clinical Forensic Medicine	Potency and other Medico legal examination	578	503	539
		CBI Cases	27	13	16
		Subsequent opinion	380	280	336
3.	Summons		409	458	572
4.	Toxicology Laboratory services	No. of cases	249	47	175
		No. of Tests	1643	336	414
5.	Embalming		134	141	104
6.	Forensic	X-Rays in no. of cases	116	74	01

	Services	Virtual Autopsy in no. of cases	-	45	59
7.	Forensic Anthropology Services (Age estimation) in no. of cases		16	01	0
8.	Forensic Histopathology in no. of case		121	73	128
9.	DNA Fingerprinting Laboratory		DNA –Profiling of unidentified bodies sample(s): (186 cases and 125 runs for profiling). Research Samples (blood & saliva) processed for DNA Isolation and Quantitation of DNA (201-samples). Samples performed for other technique's-PCR: 912, Real Time PCR:64, Sequencing PCR:105, RFLP: 233, STR Profiling:32.	DNA –Profiling of unidentified bodies sample (hairs, tooth pulp, Blood in gauze) processed: DNA Isolation, Quantitation of DNA and sample RUNS (Total of cases -563, Multiplex PCR in 287 and 105 runs for profiling). Research Samples (blood & saliva) processed for DNA Isolation and Quantitation of DNA (465-samples). Samples performed for other technique's-, DNA Isolation and quantification: 275, Total PCR:3350[PCR: 1700(Mt DNA), Sequence PCR: 1100(Mt DNA), Exosap PCR: 550(Mt DNA)], Sanger Sequencing generates (F&R):870, Alcohol testing:115, Multidrug screening:100 for research samples.	DNA –Profiling of unidentified and known bodies for DNA database (hairs, tooth pulp, Blood in gauze) processed: sample RUNS (Total of cases -1427, Multiplex PCR in 1288 and 161 runs for profiling). Research Samples (blood, gauze, soft tissues, tooth & saliva) processed for DNA Isolation and Quantitation of DNA (898-samples). Samples performed for other technique's-, DNA Isolation and quantification: 165, Total PCR:4200[PCR: 1900(Mt DNA), Sequence PCR: 2300(Mt DNA), Exosap Cleanup: 835(Mt DNA)], Sanger Sequencing generates (F&R):1900, Alcohol testing:395, Multidrug screening:159 for research samples.
10.	Organ Retrieval for Therapeutic Transplantation (No. of corneas retrieved)		208	152	140

A. Casualty services:

Providing round-the-clock medico-legal services like in cases of injury, sexual offences, poisoning etc. to the South and South-east district of Delhi.

B. Mortuary Services

Total **1750** medico legal autopsies were conducted at mortuary of main department.

C. Clinical Forensic Medicine

Total **539** cases of potency and other medico-legal examination brought by investigating officer and referred from court were dealt by the department. A total of **16** cases from CBI were dealt by medical board of the department. A subsequent opinion in complicated cases including reference from casualty etc. was offered in total **336** cases.

D. Summons

Doctors of the department attended court of law in **572** cases from Delhi and other states

E. Medical Toxicology

Total **175** cases received, **180** samples were examined, **414** tests were performed for various poisons referred from the clinical department of AIIMS, medico-legal cases and in academic cases.

F. Forensic Histopathology

The department is providing histopathology services for the samples of medico-legal autopsy cases from South and South-east district and also research purpose. Total **128** cases were done and **1309** slide**s** were made during this period.

G. Embalming facility

The department is providing embalming facility for MLC cases (Postmortem cases). Total **104** cases of embalming were done during this period.

H. Organ Retrieval for Therapeutic Transplantation

Total **140** corneas from **70** donors were retrieved at mortuary for transplantation by National Eye bank.

I. Forensic Radiology Services

X-ray was done **01** cases (Total 0**2** X-Rays were done), for various medico legal and academic purposes (both autopsy and live cases). CT Scan service was provided to **1377** cases(PMCT) for various medico legal and academic purposes during autopsy. Virtual autopsy was conducted in **59** cases.

J. DNA Fingerprinting Laboratory

DNA –Profiling of unidentified and known bodies for DNA database (hairs, tooth pulp, Blood in gauze) processed: sample RUNS (Total of cases **-1427**, Multiplex PCR in **1288** and **161** runs for profiling). Research Samples (blood, gauze, soft tissues, tooth & saliva) processed for DNA Isolation and Quantitation of DNA (**898**-samples). Samples performed for other technique's-, DNA Isolation and quantification: **165**, Total PCR:**4200**[PCR**: 1900**(Mt DNA), Sequence PCR: **2300**(Mt DNA), Exosap Cleanup: **835**(Mt DNA)], Sanger Sequencing generates (F&R):**1900**, Alcohol testing:**395**, Multidrug screening:**159** for research samples.

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Adarsh Kumar was included as International Scientific Committee Member for 26th Triennial Conference of International Academy of Legal Medicine- IALM-2024 organized at Athens, Greece on 21-23 May 2024. Also Chaired the session on "Child Abuse" in this top most conference of world in the field of forensic medicine. Guest of honor at 10th Annual Conference on Recent Advances in Chemical and Environmental Sciences RACE at Gwalior on 28 March 2025. Elected Secretary General of Indo-pacific Association of Law, Medicine & Science (INPALMS). Elected Vice President of Indian Academy of Forensic Medicine. Delivered Special Invited Lecture on Occasion of Forensic Medicine Day Quaestio Forensis on 12 May 2024 at Agra, UP. Imparted training to police personnel at Dist. Shimdega, Jharkhand to know about postmortem examination and its intricacies in view of implementation of new law on 10 August 2024. Resource person for workshop on Basics of Forensic Anthropology at Bhopal, MP on 9-10 September 2024. Board of Studies Member-External Expert in Forensic Sciences at The West Bengal University of Juridical Sciences, Kolkata, Board of Studies Member-External Expert in Forensic Medicine & Forensic Sciences at Manipal University, Manipal, Board of studies Member in Forensic Sciences at Government Institute of Forensic Sciences, Nagpur. Research Advisory Committee member of National Forensic Science University, Ahmedabad, and New Delhi campuses, Board of Studies Member-External Expert in Forensic Medicine at Aligarh Muslim University, Aligarh, Board of Studies Member-External Expert in Forensic Sciences at Maharshi Dayanand University, Rohtak. Honorary Medicolegal Expert to National Human Rights Commission, India.

Professor Chittaranjan Behera: Chairman enquiry committee to Investigate into the serious incident in the Labour Room of CRHSP, Ballabhgarh. Member standing medical board at AIIMS for MTP beyond 24 weeks of gestation. Subject Expert for SR selection at AIIMS, BBSR and Expert for selection of research staff at AIIMS. Advanced Training in the field of Medical Science & Management for AIIMS and relevant Institutes -Medical Device Development and Social Implementation (as a Trainee) from 28th July to 3rd August 2024 at Japan. Advisor for the workshop of SARANSH (Systematic Reviews and Networking Support in Health held at AIIMS, New Delhi on 18, December2024. Assistant editor of International Journal of Medical Toxicology & Legal Medicine, Associate Editor of IP International Journal of Forensic Medicine and Toxicological Sciences, Editorial board member of ARC Journal of Forensic Sciences, Annals of Forensic Research and Analysis, Sci Fed Journal of Forensic, Journal of Forensic Medicine, IP International Journal of Forensic Medicine and Toxicological Sciences, Editorial advisory board of Indian Journal of Forensic Medicine and Toxicology. Reviewer of Scientific Journals: Reviewed articles of reputed international journals (Pub-Med Indexed) like Journal of Neurosciences in Rural Practice.

Professor Abhishek Yadav received Certificate of Appreciation in CME 'From death to Diagnosis: PMCT Angiography in Death Investigation and Management of Snake Bite", at AIIMS Bathinda, 6th September 2024. Chairperson for session for Faculty Presentation in 46th Annual National Conference of Indian Academy of Forensic Medicine: Forensic Medicon 2024, 31st to 2nd January 2025 at ESIC Medical College & PGISMR, Chennai. Chaired a session for Faculty Presentation in 5th Annual AIIMS Forensic Guild 2025, 6th to 7h March 2025 at AIIMS Bhubaneswar. Resource person in ICMR Workshop on Sudden Death in Young, Department of Forensic Medicine & Toxicology, AIIMS, New Delhi-A collaboration of AIIMS New Delhi, ICMR HQs Delhi, 23rd November 2024. Resource person for Forensic Capacity Building Training for Bhutan Delegates at Department of Forensic Medicine & Toxicology, AIIMS, New Delhi, 24 June 2024 to 28 June 2024. Editor-in-Chief of 'RFP- Journal of Hospital Administration. Editorial board member of the Journals- Indian Journal of Forensic Medicine & Pathology, ARC Journal of Forensic Science, Journal of Forensic Chemistry & Toxicology, Medical Case reports. Reviewer in the "Journal of Indian academy of Forensic Medicine", which is National Body of the specialty and Journal of Forensic Science and Medicine. DC member in PHD doctoral committee of students in Department of Anatomy, Pharmacology, and Lab oncology, AIIMS, New Delhi. Advisory expert for setting up of Histo-pathological & Toxicology Labs in hospitals in government of NCT Delhi, under the Chairmanship of Principal Secretary, Home department, Delhi Govt. Subject expert in appeal cases in National Medical Commission. Member of committee for formulating Guidelines on brought dead cases in Government Hospitals, DGHS, Ministry of Health and family welfare. Committee Member for QCBS for providing contractual Nursing/Paramedical, ministerial staff and Security Manpower services in ESIC Medical College & Hospital, Faridabad, Haryana. Member of Sub-committee to finalize the list of equipment required for setting up of 150 Bedded Critical Care Block at AIIMS, Jodhpur. Coordinator for providing Expert help for starting Virtual Autopsy in Gujarat. Nominated for collaboration with CDSCO for strengthening scientific and regulatory capabilities. Member of standing expert Committee to develop a detailed National Strategy and action plan to minimizing drug overdose deaths. AIIMS Standing Medical Board member to decide on Medical Termination of Pregnancy beyond 24 weeks of gestation. Member of multidisciplinary Medical Appellate Board for Sports Authority of India Medical-to redress age dispute cases in Young athletes at National Level. Member of Medical Boards in Multi institutional Medical Boards constituted in different hospitals of Delhi for Custodial Death Investigation like MAMC, BR Ambedkar, UCMS, DDU etc.

HIGHLIGHTS

Since its inception in 1971, the department has delivered state-of-the-art services and provided specialized training in the fields of luminal gastroenterology, pancreato-biliary sciences, hepatology, and endoscopy. It has been consistently recognized as India's leading Department of Gastroenterology, earning top rankings in national surveys conducted by prominent organisations over several years. Currently, the chiefs of gastroenterology in major institutions of the country are alumni of this department. During 2024–2025, the department continued its commitment to training future gastroenterologists, delivering high-quality patient care, and producing research that shapes clinical practice in gastroenterology. Faculty, residents, and PhD students have received numerous accolades, including best paper awards and travel grants at national and international conferences. Additionally, the department's faculty have played a key role in initiating and coordinating the development of national guidelines for various gastrointestinal diseases.

EDUCATION

The department continued its academic training programs, including the DM in Gastroenterology and the PhD in Gastroenterology and Human Nutrition. It also actively contributed to the education of undergraduate and postgraduate students. In addition, the department enrols post-DM residents in one-year fellowship program for specialised training in advanced endoscopy, pancreatology, inflammatory bowel disease (IBD) and hepatology.

Long term training:

23 DM students
05 PhD students
06 Fellows (Post-DM) in Advanced GI Endoscopy, Pancreatology, Inflammatory bowel disease and Hepatology

CMEs/Workshops/Symposia/National & International Conferences

Lectures delivered at CMEs, National and International Conferences

Lectures delivered: 114

11. Diet in IBD, IBD Research Meeting, Benagaluru, 2 June 2024, Online
12. Dietary strategies in IBD, APC Microbiome, University College Cork, 5 June 2024, Cork, Ireland
13. Integrating Microbiome and Dietary Approaches for treating Inflammatory Bowel Disease, APC Microbiome, University College Cork, 26 June 2024, Cork, Ireland
14. Lower GI bleed, Annual meeting of Nepal Society of Gastroenterology, 24 August 2024, Kathmandu, Nepal
15. Examination Skills, Gastroenterology Young Masters organized by Indian Society of Gastroenterology, 30 August 2024, New Delhi
16. Advanced Algorithms for Ulcerative Colitis, SGRH annual meeting, New Delhi, 6 September 2024, New Delhi
17. Dietary Interventions IBD, Gastro Diet 2024, Kuala Lumpur, 28 September 2024, Kuala Lumpur, Malaysia
18. Crohn's Disease - Case Discussion, 8th Annual Crohn's & Colitis Foundation (CCFI) Meeting, 4 October 2024, Vizag, Andhra Pradesh

19. IBD Difficult cases, SN Medical College, Jodhpur, 12 October 2024, Jodhpur, Rajasthan
20. Positioning Advanced Therapy in IBD, GI Confluence, 19 October 2024, New Delhi
21. Immunology of IBD, Advanced Immunology Course organized by National Institute of Immunology, 25 October 2024, New Delhi
22. Immunopathogenesis of IBD, Asia Pacific Digestive Week 2024, 22 November 2024, Bali, Indonesia
23. Sequencing of Advanced therapy in IBD, Asia Pacific Digestive Week 2024, 23 November 2024, Bali, Indonesia
24. Gut Microbiome Simplified, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology, 4 December 2024, Varanasi, Uttar Pradesh
25. Exome sequencing: A Clinician's primer, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology, 4 December 2024, Varanasi, Uttar Pradesh
26. Pathobionts to Microbiome Manipulation Therapy IBD, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology, 4 December 2024, Varanasi, Uttar Pradesh
27. Advanced therapy in IBD, East Delhi Physicians, New Delhi, 22 December 2024, New Delhi
28. Oral small molecules, Rajasthan Midterm ISG, Kota, 11 January 2025, Kota, Rajasthan
29. Refractory Proctitis, Webinar organized by Crohn's & Colitis Foundation (CCFI), 17 January 2025, Online
30. IBD 2024, Best of ACG, 20 January 2025, New Delhi
31. Microbiome simplified, Webinar organized by Happiest Health, 28 January 2025, Online
32. Newer Biologics and oral small molecules, ISGCON, West Bengal chapter of Indian Society of Gastroenterology, 1 February 2025, Purulia, West Bengal
33. Approaching a burned out IBD patient: Better late than never, ISGCON, Kerala chapter of Indian Society of Gastroenterology, 9 February 2025, Kollam, Kerala
34. Faecal Microbial transplantation, Mid Term Meeting of Indian Association of Surgical Gastroenterology, 14 February 2025, Hyderabad, Telangana
35. Antimicrobial Resistance and FMT, 15th India Probiotic Symposium, PGIMER, Chandigarh, 22 February 2025, Chandigarh
36. IBD Difficult Cases, Jaipur Gastro Club, Jaipur, 25 February 2025, Jaipur, Rajasthan
37. Current Concepts Biological therapy, Orrisa IBD Consortium, 1 March 2025, Puri, Orissa
38. Sequencing Advanced Therapy, IBD School, Season 2.0, organized by CCFI, 7 March 2025, Ludhiana, Punjab
39. Diet and IBD, IBD School, Season 2.0, organized by CCFI, 8 March 2025, Ludhiana, Punjab
40. Approach to Chronic Diarrhoea, Gastroenterology Reviews & Insights for Physicians (GRIP), 16 March 2025, Jodhpur, Rajasthan
41. Diagnosing IBD, Gastroenterology Reviews & Insights for Physicians (GRIP), 16 March 2025, Jodhpur, Rajasthan
42. Primary sclerosing cholangitis, Falk Symposium, Sydney, Australia, 22 March 2025, Sydney, Australia
43. Faecal Microbial Transplantation: Where do we go now? IOIBD Annual General Meeting, 28 March 2025, Auckland, New Zealand

Govind Makharia

1. How to – Practical session on study designs, 5th APAGE Clinical Forum on Inflammatory Bowel Disease, 4 April 2024, Da Nang City, Vietnam
2. When to call the surgeon, 5th APAGE Clinical Forum on Inflammatory Bowel Disease, 6 April 2024, Da Nang City, Vietnam
3. Case discussion -, Gastroenterology Young Masters organized by Indian Society of Gastroenterology, 3 May 2024, Coimbatore, Tamil Nadu
4. Chronic constipation & irritable bowel syndrome, Gastroenterology Reviews & Insights for Physicians (GRIP), 26 May 2024, Chennai, Tamil Nadu
5. Your Digestive Health - Diagnose Early - Don't Wait for Classical Symptoms, World Digestive Health Day 2024, 29 May 2024, Bhubaneswar, Orissa

6. Chronic Diarrhea Demystified: A Diagnostic Algorithm for Clinicians, Annual GASTROPLUS EDGE (Education in Gastroenterology and Endoscopy) program, 1 June 2024, Ahmedabad, Gujarat
7. Approach to Chronic Diarrhea & Chronic Constipation, Gastroenterology Reviews & Insights for Physicians (GRIP) Program, 9 June 2024, Lucknow, Uttar Pradesh
8. Hyperbaric Oxygen Therapy in Crohn's Disease, 12th annual meeting of Asian Organization for Crohn's and Colitis (AOCC 2024), 13 June 2024, Xi'an, China
9. Eosinophilic esophagitis, Diseases of Esophagus, 5 July 2024, Indore, Madhya Pradesh
10. Approach to Chronic diarrhea and Chronic constipation, Gastroenterology Reviews & Insights for Physicians (GRIP), Program. 14 July 2024, Patna, Bihar
11. Functional diarrhea and irritable bowel syndrome, GIFTCON 2024 organised by The Gastro Intestinal Foundation, 26 July 2024, Goa
12. Celiac Disease and Cryptogenic Liver Disease, 32nd Annual Scientific Meeting of the Indian National Association for Study of the Liver (INSAL)-2024, 9 August 2024, Kochi, Kerala
13. Approach to Intestinal Stricture, 8th PGI GI Emergency Postgraduate Program, organized by PGIMER, Chandigarh, 14 September 2024, Chandigarh
14. Approach to Chronic Constipation, Gastroenterology CME: Back to the Basics, 2024 organized by AIIMS, Kalyani, 21 September 2024, Kalyani, West Bengal
15. Celiac disease around the world, International Celiac Disease Symposium 2024, 5 September 2024, Sheffield, UK
16. Celiac Disease, GASTRODIET 2024, organized by Journal of Gastroenterology and Hepatology Foundation (JGHF), 27 September 2024, Sunway, Malaysia
17. How to make a good Presentation, Young Clinicians Program (YCP) 2024, 25 October 2024, Chennai, Tamil Nadu
18. Approach to Chronic Constipation, Medicon International, 16 November 2024, Kolkata, West Bengal
19. Approach to Chronic Constipation, 6th Advanced Gastro Summit, 2024, 17 November 2024, Ahmedabad, Gujarat
20. Comprehensive Management of IBD, Asian Pacific Digestive Week 2024, 21 November 2024, Bali, Indonesia
21. Non-Invasive Screening, Strategy to Improve Diagnosis of Celiac Disease, Asian Pacific Digestive Week 2024, 24 November 2024, Bali, Indonesia
22. Panel Discussion – Collaborative opportunities and regional challenges in Gastroenterology, 65th Annual Conference of the Indian Society of Gastroenterology (ISGCON2024), 5 December 2024, Varanasi, Uttar Pradesh
23. Panel Discussion – The Future of Gastroenterology Training: Preparing for the Next Generation, 65th Annual Conference of the Indian Society of Gastroenterology (ISGCON2024), 5 December 2024, Varanasi, Uttar Pradesh
24. Mid-Term SGEI Meeting, "Endoscopy Reimagined 2025", 9 January 2025, Ahmedabad, Uttar Pradesh
25. Role of Newer Molecules – Plecanatide and Elobixibat and their place in the current management strategies of IBS (C) and CIC, GASTROCON (Mid -Term ISG), 2025, 10 January 2025, Bundi, Rajasthan
26. H. Pylori in India, 7th Annual Conference of Andhra Pradesh chapter of ISG, 24 January 2025, Tirupati, Andhra Pradesh
27. Improving Non-Transplant Outcomes in Patients with Advanced Liver Disease, APASL Single Theme Conference 2025, 8 February 2025, Mumbai, Maharashtra
28. A story of unfolding of celiac disease in India, PMCH Centenary College Foundation Day Lecture Series 2025, 25 February 2025, Patna, Bihar

Shalimar

1. Making wise career stream choices, Kalinga Perspective in Liver and Digestive Disease (KPLD)-2024, 26 April 2024, Bhubaneswar, Orissa
2. Role of DOACs in vascular liver diseases and cirrhosis, Kalinga Perspective in Liver and Digestive Disease (KPLD)-2024, 28 April 2024, Bhubaneswar, Orissa

3. Management of AIH not responding to steroids/ azathioprine combination, Hepatology update-2024, 6 July 2024, Coimbatore, Tamil Nadu
4. NITs as predictor of liver and extra-hepatic events, 32nd Annual Scientific Meeting of the Indian National Association for Study of the Liver (INASL), 7 August 2024, Kochi, Rajasthan
5. Panel Discussion- A case of Difficult to treat AIH, Single Theme Meeting - Autoimmune Liver Disease, 18 October 2024, Chandigarh
6. A case of Alcohol Associated Liver Disease, 9th Liver Foundation Kolkata 2024, 12 December 2024, Kolkata, West Bengal
7. The Paper published in the past two years that had charmed me, 9th Liver Foundation Kolkata 2024, 12 December 2024, Kolkata, West Bengal
8. Case-based Panel Discussion: ACLF: ALD with acute HEV and Rhabdomyolysis, APASL Single Theme Conference and BUILD 3.0, 7 February 2025, Mumbai, Maharashtra

Baibaswata Nayak

1. Molecular genetics and genomic biomarkers predicting disease risk and treatment response in the era of one health, XXXII Annual Conference of Society of Animal Physiologists of India (SAPI) & International Symposium on Advances in Physiological research in omics era for sustainable Animal Production and Livelihood security under the changing climatic scenario. 27 November 2024, Meerut, Uttar Pradesh
2. Genetic and epigenetic markers in forensic science: from Basics to its Applications, 7th Forensis Agora: 3rd International Conference on Forensic Science, Galgotias University, 8 February 2025, Noida, Uttar Pradesh
3. Role of liquid biopsy-based biomarker in diagnosis and prognosis of hepatocellular carcinoma or liver cancer, FLSB Expert Seminar Series, South Asian University, 14 February 2025, New Delhi

Deepak Gunjan

1. Tips and Tools for Endoscopic necrosectomy, ENDOCON, Annual Conference of the Society of Gastrointestinal Endoscopy of India, 19 April 2024, New Delhi
2. Acute Pancreatitis, Gastroenterology Reviews & Insights for Physicians (GRIP), 26 May 2024, Chennai, Tamil Nadu
3. Gastro esophageal reflux disease, Gastroenterology Reviews & Insights for Physicians (GRIP), 14 July 2024, Patna, Bihar
4. Acute Pancreatitis, Gastroenterology Reviews & Insights for Physicians (GRIP), 14 July 2024, Patna, Bihar
5. Making a diagnosis of pancreatic exocrine insufficiency, Annual Meeting of the Indian Pancreas Club, 19 July 2024, Hyderabad, Telangana
6. How to perform mediastinal EUS, EUS 360 - Hands on Basic EUS Training Program, 27 July 2024, Bengaluru, Karnataka
7. Post-ERCP pancreatitis: Incidence, prediction and treatment, Clinics in Hepato-Biliary Diseases: 2024 (CHBD 2024), 6 September 2024, New Delhi
8. Endoscopy related Complications – Esophageal procedures, 8th PGI GI Emergency Postgraduate Program, organized by PGIMER, Chandigarh, 13 September 2024, Chandigarh
9. The art of using knives, AIG LIVE 2024, 19 September 2024, Hyderabad, Telangana
10. How to perform Linear EUS examination, Hand on Basic to Advance EUS Workshop, 31 January 2025, Indore, Madhya Pradesh
11. Rectal EUS technique & its standardization, EUS Retreat, 22 March 2025, Rishikesh, Uttarakhand

Soumya Jagannath Mahapatra

1. Collaborative ventures between AIIMS and JHMI, Johns Hopkins Medicine International (JHMI), 15 May 2024, Maryland, USA

2. Safety and efficacy of corticosteroids in severe acute pancreatitis, Digestive Disease Week (DDW), 18 May 2024, Washington, USA
3. Head mass in chronic pancreatitis: Management approach, ENDOCON, Annual Conference of the Society of Gastrointestinal Endoscopy of India, 19 April 2024, New Delhi
4. Approach to recurrent acute pancreatitis, Kalinga Prospective in Liver and Digestive Diseases, 27 April 2024, Bhubaneswar, Orissa
5. Organ Failure in Acute Pancreatitis, Annual Meeting of the Indian Pancreas Club, 2 July 2024, Hyderabad, Telangana
6. Basics of linear echo endoscope, EUS 360 - Hands on Basic EUS Training Program, 18 September 2024, Nagpur, Maharashtra
7. Difficult CBD stone, SURGICON 2024 – Annual Conference of Delhi Chapter of Association of Surgeons of India, 16 November 2024, New Delhi

LECTURES DELIVERED OVER PAST 3 YEARS

2022– 2023	2023-2024	2024-2025
125	124	114

List of Oral Papers/Posters presented: 55

1. Agarwal A, Pachisia AV, Mehta S, Ahmed A, Singh A, Kumar S, et al, Prevalence of Celiac Disease in patients with cirrhosis, International Celiac Disease Symposium (ICDS) 2024, 5-7 September 2024, Sheffield, UK
2. Agarwal S, Prasad S, Agarwal A, Affendi R, Leffler D, Green P, et al. Celiac disease care differs significantly between high and low-mid income countries: A global survey of celiac experts from 63 Countries, International Celiac Disease Symposium (ICDS) 2024, 5-7 September 2024, Sheffield, UK
3. Ahmed A, Chauhan A, Singh A, Hokari R, Abdullah M, Gonlachanvit S, et al, Prevalence of celiac disease in patients with irritable bowel syndrome: a pilot study Asian celiac disease study, International Celiac Disease Symposium (ICDS) 2024, 5-7 September 2024, Sheffield, UK
4. Arora U, Biswas S, Vignesh D, Sheikh S, Agarwal A, et al, Time-trends of fibrosis and steatosis in metabolic dysfunction associated steatotic liver disease (MASLD): a retrospective cohort analysis, European Association for the Study of the Liver (EASL), 5-8 June 2024, Milan, Italy
5. Arora U, Kandasamy D, Verma M, Madan D, Singh M, Narang H, et al, Ultrasonographic assessment of response in hospitalized patients with acute severe ulcerative colitis, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi
6. Arora U, Kandasamy D, Verma M, Madan D, Singh M, Narang H, et al, Ultrasonographic assessment of response in hospitalized patients with acute severe ulcerative colitis, European Crohn's and Colitis Organisation (ECCO) 2025, 19-22 February 2025, Berlin, Germany
7. Bajaj A, Markandey M, Verma M, Singh M, Prasad S, Narang H, et al, Treatment of patient-derived colonic organoids with urolithin A reveals transcriptomic remodeling of the intestinal stem cell niche in ulcerative colitis: Establishment of a novel platform, 8th Annual Crohn's & Colitis Foundation (CCFI) Meeting, 4-6 October 2024, Vizag, Andhra Pradesh
8. Bajaj A, Markandey M, Verma M, Singh M, Prasad S, Narang H, et al, Treatment of patient-derived colonic organoids with urolithin A reveals transcriptomic remodeling of the intestinal stem cell niche in ulcerative colitis: Establishment of a novel platform, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi, Uttar Pradesh
9. Biswas S, Gupta S, Sharma A, Aggarwal A, Arora U, Swaroop S, et al, Natural history and predictors of outcomes in patients with liver cirrhosis after index variceal haemorrhage from fundal varices, American Association for the Study of Liver Diseases (AASLD), 15-19 November 2024, San Diego, California, USA
10. Biswas S, Swaroop S, Aggarwal A, Sehgal T, Vaishnav M, Agarwal A, et al, Outcomes of thromboelastography guided versus routine empirical or on-demand platelet transfusion in patients with liver cirrhosis and severe thrombocytopenia undergoing high-risk invasive percutaneous and vascular procedures: an open-label, randomized controlled trial, European Association for the Study of the Liver (EASL), 5-8 June 2024, Milan, Italy

11. Biswas S, Vaishnav M, Swaroop S, Aggarwal A, Elhence A, et al, Safety and outcomes of an on-demand transfusion strategy versus prophylactic transfusion of platelets in patients with liver cirrhosis and severe thrombocytopenia undergoing high-risk invasive procedures, American Association for the Study of Liver Diseases (AASLD), 15-19 November 2024, San Diego, USA

12. Dash R, Madan D, Shalimar D, Kedia S, Ahuja V, Nayak B, Hepatitis B Virus (HBV) Exposure status, Vaccination, and Reactivation following immunosuppressive therapy in the cohort of inflammatory bowel disease (IBD) patients, 4th AIIMS Annual Research Day, 29-30 January 2025, New Delhi

13. Dash R, Nadda N, Shalimar D, Nayak B, Reverse genetics approach for rescue of AAV-2 expressing reporter and SARS-CoV-2 structural protein, VIROCON-2024: Emerging Viruses, 11-13 November 2024, Gwalior, Madhya Pradesh

14. Jagdish N, Bihari K, Kumar S, Singh A, Ahmad A, Mehtab W, et al. Innate immune response in patients with Celiac disease, non-celiac gluten sensitivity (NCGS), first degree relatives (FDR) and irritable bowel syndrome (IBS):, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology, 4-7 December 2024, Varanasi, Uttar Pradesh

15. Kabrawala M, Banerjee R, Ahuja V, Anumula K, Bhardwaj V, Dalal A, et al, Vedolizumab in Indian patients with Inflammatory Bowel Disease: Final results from a prospective, multicentre, open-label, phase 4 study, European Crohn's and Colitis Organisation (ECCO) 2025, 19-22 February 2025, Berlin, Germany

16. Kumar S, Biswas S, Agarwal S, Sheikh S, Ashraf A, Swaroop S, et al, Next-generation sequencing identifies novel germline mutations in patients with Budd-Chiari Syndrome-associated hepatocellular carcinoma, 4th AIIMS Annual Research Day, 29-30 January 2025, New Delhi

17. Kumar S, Biswas S, Sheikh S, Sharma V, Ashraf A, Pardhan, D, et al, Genome-wide association study to identify the potential genetic loci responsible for Budd-Chiari Syndrome in Indian population: Study from a tertiary care centre, INASL-2024, 4-6 August 2024, Kochi, Kerala

18. Kumari A, Pachisia A, Dutta R, Gupta K, Kumar S, Sharma D, et al, Diagnostic characteristics of anti-endomysial antibody in the diagnosis of celiac disease, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi, Uttar Pradesh

19. Kumari A, Verma AK, Das P, Prakash S, Datta Gupta S, Verma A, et al, Tissue expression pattern of pyrolline-5-carboxylate synthase, intestinal fatty acid binding protein and regenerating gene 1a in patients with celiac disease, Asia Pacific Digestive Week - 2024, 21-24 November 2024, Bali, Indonesia

20. Kumari A, Verma AK, Das P, Prakash S, Datta Gupta S, Verma A, et al, Tissue expression pattern of pyrolline-5-carboxylate synthase, intestinal fatty acid binding protein and regenerating gene 1a in patients with celiac disease, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi, Uttar Pradesh

21. Leong R, Chaemsupaphan T, Lin H, Lim WC, Ooi CJ, Chetwood JD, et al Asia Pacific Association of Gastroenterology consensus statements on histopathological evaluation of Inflammatory Bowel Diseases, European Crohn's and Colitis Organisation (ECCO) 2025, 19-22 February 2025, Berlin, Germany

22. Mehra L, Das P, Baniyal V, Deepak RK, Singh A, Ahmad M, et al. Etiologies of non-response to gluten free diet post ≥ 12 months in patients with celiac disease, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi, Uttar Pradesh

23. Mehta S, Chauhan A, Vignesh D, Agarwal S, Aggarwal A, Chaudhari BR, et al, Prevalence of compliance to gluten-free diet in patients of Celiac Disease: a systematic review and meta-analysis, International Celiac Disease Symposium (ICDS) 2024, 5-7 September 2024, Sheffield, UK

24. Mehta S, Chauhan A, Vignesh D, Agarwal S, Aggarwal A, Chaudhari BR, et al, Prevalence of compliance to gluten-free diet in patients of Celiac Disease: a systematic review and meta-analysis, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi, Uttar Pradesh

25. Mehta S, Vignesh D, Biswas S, Swaroop S, Roy BRC, Arora U, et al, Predictors of one-year transplant-free survival of patients with acute-on-chronic liver failure after hospital discharge, American Association for the Study of Liver Diseases (AASLD), 15-19 November 2024, San Diego, California, USA

26. Mehtab W, Gupta C, Malik S, Agarwal H, Ghosh T, Kaur S, Makharia G. Perceived burden and challenges faced by the primary caregivers of patients with celiac disease, International Celiac Disease Symposium (ICDS) 2024, 5-7 September 2024, Sheffield, UK

27. Mehtab W, Gupta C, Malik S, Agarwal H, Ghosh T, Kaur S, et al. Perceived burden and challenges faced by the primary caregivers of patients with celiac disease, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi, Uttar Pradesh

28. Mehtab W, Malhotra A, Bhola A, Singh N, Ahmed A, Singh A, et al. Knowledge, Attitude and Practice of Dietitians towards Celiac Disease and Gluten-free diet, ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi, Uttar Pradesh

29. Mehtab W, Malhotra A, Upadhyay A, Singh N, Agarwal A, Chauhan A, et al, Development and validation of a tool for assessing adherence to gluten-free diet in patients with Celiac disease (Celiac Disease: Compliance Assessment Tool; CD-CAT), International Celiac Disease Symposium (ICDS) 2024, 5-7 September 2024, Sheffield, UK

30. Mehtab W, Malhotra A, Upadhyay A, Singh N, Agarwal A, Chauhan A, et al, Development and validation of a tool for assessing adherence to gluten-free diet in patients with Celiac disease (Celiac Disease: Compliance Assessment Tool; CD-CAT), ISGCON 2024, Annual Congress of the Indian Society of Gastroenterology 2024, 4-7 December 2024, Varanasi, Uttar Pradesh

31. Mehtab W, Malhotra A, Upadhyay A, Singh N, Agarwal A, Chauhan A, et al, Development and validation of a tool for assessing adherence to gluten-free diet in patients with Celiac disease (Celiac Disease: Compliance Assessment Tool; CD-CAT), Digestive Disease Week (DDW), 18-24 May 2024, Washington, USA

RESEARCH

Funded

Ongoing

1. A Phase 2b Randomized, Double-blind, Active- and Placebo-controlled, Parallel-group, Multicenter Study to Evaluate the Efficacy and Safety of Induction and Maintenance Combination Therapy with Guselkumab and Golimumab in Participants with Moderately to Severely Active Crohn's Disease, Dr Vineet Ahuja, Parexel International clinical Research PVT LTD, 1 Year, 2024-2025, Rs 12.22 Lakhs
2. A Phase 2b Randomized, Double-blind, Active- and Placebo-controlled, Parallel-group, Multicenter Study to Evaluate the Efficacy and Safety of Induction and Maintenance Combination Therapy with Guselkumab and Golimumab in Participants with Moderately to Severely Active Ulcerative Colitis. Dr Vineet Ahuja, Parexel International clinical Research PVT LTD, 1 Year, 2024-2025, Rs 5.12 Lakhs
3. A Phase 2b, Randomized, Double-blind, Placebo –controlled Study to Evaluate the Safety and Efficacy of 3 Active Dose Regimens of MORF-057 in Adults with Moderately to Severely Active Ulcerative Colitis (EMERALD-2), Dr Vineet Ahuja, PSI CRO Pharma India Private Limited, 1 Year, 2024-2025, Rs 1.70 Lakhs
4. A Phase III, multicentre, randomized, double-blind, placebo-controlled, interventional study on efficacy and safety of Standardized fraction of Picrorhiza kurroa Royal Ex Benth (Picroliv®) for 24 weeks in the Management of Non-Alcoholic Fatty Liver Disease (NAFLD).", Dr Shalimar, Indian Council of Medical Research (ICMR), 1 Year, 2023-2024, Rs 33 Lakhs
5. A pilot study on large scale analysis of chronic pancreatitis through high through put mass-spectrometry based proteomics and proteogenomics for biomarker discovery, Dr Soumya Jagannath Mahapatra, Translational Health Science and Technology Institute (THSTI), Faridabad, Haryana, 2 Years, 2025-2028, Rs 20 lakhs
6. A randomised, double blind, parallel, interventional phase IIa proof of concept trial to evaluate the efficacy and safety of ZYIL1 for the treatment of patients with mild to moderately active Ulcerative Colitis resistant or intolerant to oral aminosalicylates, Dr Vineet Ahuja, Zydus life sciences PVT, 1 Year, 2024-2025, Rs 1.80 Lakhs
7. A randomized, double-blind, multicenter phase 3 study in patients with moderately to severely active ulcerative colitis (UC) to compare the efficacy, safety and immunogenicity of PB016 and Entyvio® for the induction and maintenance of clinical response and remission. (UCESIVE)", Dr Vineet Ahuja, Worldwide Clinical Trials India Private Limited, 1 Year, 2024-2025, Rs 0.70 Lakhs
8. A study of etiopathogenesis of systemic inflammation in acute pancreatitis, Dr Pramod Kumar Garg, Department of Biotechnology, Ministry of Science & Technology, Government of India, 4 Years, 2025-2029, Rs 634 Lakhs
9. ABX464-106- A randomized, double-blind, placebo-controlled, multicenter phase III study to evaluate the efficacy and safety of ABX464 once daily for induction treatment in subjects with moderately to severely active ulcerative colitis. Dr Vineet Ahuja, IQVIA Research (India) Private Limited), 2 Years, 2023-2025, Rs 3.74 Lakhs
10. An open label, multicentre, phase IV study of ustekinumab to evaluate its safety in Indian subjects with Crohn's Disease(CD). Dr Vineet Ahuja, Johnson & Johnson Private Limited, 1 Year, 2024-2025, Rs 9.37 Lakhs
11. Cancer stemness signatures of Hepatitis B induced hepatocellular carcinoma, Dr Baibaswata Nayak (Women Scientist: Dr Sonali Sengupta), Department of Science and Technology, Government of India, 3 Years, 2022-2025, Rs 24 Lakhs
12. Celiac Disease Care Optimization & gluten Restriction exclusion (CeD-CORE), Dr Govind K Makharia, Indian Council of Medical Research (ICMR), 3 Years, 2025-2028, Rs 466 Lakhs
13. Centre for Advanced Research "Gut Microbiome Manipulation Therapies in Intestinal Disease: Clinical Trial Networked Centre, Dr Vineet Ahuja, Indian Council of Medical Research (ICMR), 5 Years, 2024-2029, Rs 294 Lakhs
14. Centre for Advanced Research and Excellence in Pancreatic Diseases, Dr Pramod Kumar Garg, Indian Council of Medical Research (ICMR), 5 Years, 2019-2024, Rs 490 Lakhs
15. Comparative analysis of two different techniques for evaluation of HLA gene haplotypes in patients with celiac disease, Dr Govind K Makharia, Kanishk International, 6 Months, 2024-2025, Rs 12 Lakhs
16. Crohn's Disease (CD) in South Asians: Defining disease biology for prevention and better treatment. Dr Vineet Ahuja, The Leona M. and Harry B. Helmsley Charitable Trust, 4 Years, 2021-2025, Rs 202 Lakhs

17. Department of Biotechnology "Consortium On Celiac Disease," Extension & Nurturing of national Biorepository of well-defined patients with celiac disease, Dr Govind K Makharia, Department of Biotechnology, Ministry of Science & Technology, Government of India, 5 Years, 2023-2028, Rs 456 Lakhs

18. Determination of receptor mediated pathogenesis of SARS-COV2 variants and immunomodulation by viral proteins, Dr Baibaswata Nayak, Indian Council of Medical Research (ICMR), 3 Years, 2021-2024, Rs 48 Lakhs

19. Development of an encapsulated cocktail of gut microbiota-derived metabolites as a potential therapeutic modality for ulcerative colitis, Dr Vineet Ahuja, BIRAC-Biotechnology Ignition Grant (BIG), 1 Year, 2024-2025, Rs 14.83 Lakhs

20. Development of matrix etalloproteinase based assays to detect liver fibrosis a major risk factor for liver cancer, Dr Shalimar, AIIMS UCL, 2 Years, 2025-2026, Rs 5 Lakhs

21. Early Intervention with Low Molecular Weight Heparin (Enoxaparin), Dr Pramod Kumar Garg, Indian Council of Medical Research (ICMR), 3 Years, 2025-2028, Rs 647 Lakhs

22. Effect of Pancreatic Enzyme Supplementation on 90-days hospital free alive days in patients with Acute Necrotizing Pancreatitis (ANP), Dr Soumya Jagannath Mahapatra, Indian Council of Medical Research (ICMR), 3 Years, 2025-2028, Rs 200 Lakhs

23. Epidemiology of Pancreatitis and Major Gastrointestinal Disorders: A Nationwide Multi-Centre Study across India, Dr Pramod Kumar Garg, Indian Council of Medical Research (ICMR), 3 Years, 2021-2024, Rs 350 Lakhs

24. Exploration of immunopathogenesis of extra-intestinal organ involvement in patients with Celiac Disease", Dr Govind K Makharia, Indian Council of Medical Research (ICMR), 3 Years, 2023-2026, Rs 73.5 Lakhs

25. Fluorescent Sensors for the detection of citrulline in the plasma of patients with celiac disease and other enteropathies Aiding biopsy free diagnosis and follow-up monitoring of the disease: Molecular Design and Synthesis of Chemoselective Glyoxal Probes, Dr Govind K Makharia, Department of Biotechnology, Ministry of Science & Technology, Government of India, 18 Months, 2024-2026, Rs 16.35 Lakhs

26. Hypoxia, angiogenesis and stemness markers predicting outcome of locoregional and immunotherapy for hepatocellular carcinoma, Dr Baibaswata Nayak, Indian Council of Medical Research (ICMR), 3 Years, 2023-2026, Rs 69 lakhs

27. I6T-MC-AMAM-A Phase 3, Multicenter, Randomized, Double-Blind, Placebo- and Active- Controlled, Treat-Through Study to Evaluate the Efficacy and Safety of Mirikizumab in Patients with Moderately to Severely Active Crohn's Disease. Dr Vineet Ahuja, Eli Lilly, Pharmaceutical company, 4 Years, 2021-2025, Rs 9.55 Lakhs

28. Indian asymptomatic gallstone: natural course and their predictors (INDIASTONE Study), Dr Deepak Gunjan, Indian Council of Medical Research (ICMR), 3 Years, 2024-2026, Rs 64 lakhs

29. JC Bose fellowship, Dr Pramod Kumar Garg, Science and Engineering Research Board (SERB), 5 Years, 2020-2025, Rs 95 Lakhs

30. Metabolic associated liver disease (MAFLD) in lean and obese: search for disease and progression biomarkers, Dr Shalimar, Science and Engineering Research Board (SERB), 3 Years, 2022-2025, Rs 44 Lakhs

31. Preoperative biliary drainage in patients with Distal Resectable and borderline resectable Malignant biliary obstruction by primary Endoscopic ultrasound guided choledochoduodenostomy versus Endoscopic retrograde cholangiopancreatography, Dr Soumya Jagannath Mahapatra, Indian Council of Medical Research (ICMR), 3 Years, 2025-2028, Rs 500 Lakhs

32. Role of nuclear receptor in Hepatitis B (HBV) mediated hepatocarcinogenesis, Dr Baibaswata Nayak, Indian Council of Medical Research (ICMR), 3 Years, 2021-2024, Rs 22.92 lakhs

33. Should Colorectal Cancer screening be done in Asymptomatic Indians: A Pan-India multicentre study, Dr Vineet Ahuja, Indian Council of Medical Research (ICMR), 4 Years, 2024-2028, Rs 134 Lakhs

34. Standard medical therapy plus Rifaximin vs. standard medical therapy alone for the management of sarcopenia in patients with cirrhosis: A PILOT Randomized Controlled Trial, Dr Deepak Gunjan, Sun Pharmaceutical Pvt Ltd. 2 Years, 2022-2024, Rs 16 Lakhs

35. Steroid therapy in patients with Acute severe pancreatitis for Resolution of organ failure, Dr Pramod Kumar Garg, Indian Council of Medical Research (ICMR), 3 Years, 2025-2028, Rs 200 Lakhs

36. The effect of structured yoga practices on the quality of life and clinical outcomes in patients with ulcerative colitis, Dr Vineet Ahuja, Ministry of AYUSH, 2 Years, 2023-2025, Rs 21.64 Lakhs

37. To evaluate the role of phage transfer through fecal microbiota transplantation in causing antimicrobial gene depletion and intestinal decolonization from multidrug resistant organisms, Dr Vineet Ahuja, Indian Council of Medical Research (ICMR), 3 Years, 2021-2024, Rs 57.35 Lakhs
38. Towards stool based diagnosis of colorectal cancer by developing multiplex apta-sensor panel, Dr Govind K Makharia, Indian Council of Medical Research (ICMR), 3years, 2024-2027, Rs 125 Lakhs

Completed

1. A Multicentre, Single-arm, Open-label, Phase 4 Study to Evaluate the Safety and Efficacy of Vedolizumab in Indian Patients With Ulcerative Colitis and Crohn's Disease, Dr Vineet Ahuja, Takeda- SIRO, 2 Years, 2022-2024, Rs 6.98 Lakhs
2. A Phase 3, Multicenter, Randomized, Double – Blind, Placebo-Controlled Study of Oral Ozanimod as Induction Therapy for Moderately to Severely Active Crohn's Disease, Dr Vineet Ahuja, PSI CRO Pharma India Private Limited, 1 Year, 2023-2024, Rs 6 Lakhs
3. A pilot study to estimate prevalence of celiac disease in high-risk group in Asia (Asian Celiac disease study), Dr Govind K Makharia, Takeda Pharmaceuticals, USA, 3 Years, 2021-2024, Rs 182 Lakhs
4. A prospective, multi-centre, open label, phase IV study to evaluate safety and efficacy profile of InfimabTM in patients with moderate to severe Crohn's disease, Dr Vineet Ahuja, Reliance Pharmaceuticals, 2 Years, 2022-2024, Rs 3.75 Lakhs
5. An open label, single arm, investigator intiated Phase I/II study to assess the safety and efficacy of local administration of stempeucel (Adult Human Bone) Derived, Cultured Pooled, Allogenic Stromal Cells Marrow, Dr Vineet Ahuja, Stempeutics Research Pvt Ltd 5 Years, 2018-2023, Rs 5.77 Lakhs
6. Celiac disease prevalence in native south versus north Indians; migrant study to access regions for the difference, Dr Govind K Makharia, Indian Council of Medical Research (ICMR), 2 Years, 2022-2024, Rs 68.45 Lakhs
7. Centre for Advanced Research and Excellence in Intestinal Diseases, Dr Vineet Ahuja, Indian Council of Medical Research (ICMR), 5 Years, 2019-2024, Rs 500 Lakhs
8. Development of a recombinant vaccine against the hepatitis E virus and immunological characterization of hepatitis E cohort and potential vaccine recipient cohort, Dr Shalimar, BIRAC (Co-PI), 30 Month, 2021-2023, Rs 110 Lakhs
9. Epigenetic reprogramming of intestinal epithelial stem cells via gut microbiota derived metabolites in Ulcerative Colitis. Dr Vineet Ahuja, Science and Engineering Research Board (SERB), 3 Years, 2020-2023, Rs 56.45 Lakhs
10. Exploration for development of wheat with low immunogenic gluten, Dr Govind K Makharia, Indian Council of Agricultural Research, 7 Years, 2017-2024, Rs 47.50 Lakhs
11. Gut Microbiome - Regulators of the Intestinal Stem cell niche in Health and Inflammatory Bowel Disease, Dr Vineet Ahuja, MHRD-Scheme for Promotion of Academic and Research Collaboration (SPARC), 4 Years, 2019-2023, Rs 45.97 Lakhs
12. International study of COVID- 9 Antibody Response Under Sustained immune suppression in IBD, Dr Vineet Ahuja, The Leona M. and Harry B. Helmsley Charitable Trust, 2 Years, 2021-2023, Rs 9.24 Lakhs
13. Role of potentially oncogenic miRNAs in Hepatitis B virus induced hepatocarcinogenesis, Dr Baibaswata Nayak, Indian Council of Medical Research (ICMR), 1 Year, 2021-2024, Rs 22.92 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. A prospective observational study to find infective etiology in patients with idiopathic acute pancreatitis
2. A Randomized Controlled Trial Comparing the time to achieve clinical response in Patients with Moderate to Severe Ulcerative Colitis using cortico-steroids Vs Tofacitinib.
3. A Randomized Controlled Trial Evaluating the Efficacy of a Combination of Tofacitinib and Fecal Microbiota Transplantation (FMT) versus Tofacitinib and Sham Transplantation in Inducing Remission in Patients with Moderate to Severe Ulcerative Colitis
4. Amitriptyline versus placebo for inducing remission in patients with mild to moderate ulcerative colitis

5. Association of celiac disease with infertility and decreased ovarian reserve
6. Cancer stemness signatures of Hepatitis B induced hepatocellular carcinoma
7. Characterization of Cytokine Storm Syndrome in Acute Pancreatitis: A prospective cohort study
8. Characterization of inflammatory milieu in patients with idiopathic Recurrent Acute Pancreatitis: A prospective observational study
9. Combination of Endoscopic Treatment and Carvedilol versus Carvedilol alone for Primary Prophylaxis of Patients with Hepatocellular Carcinoma and Esophageal Varices- An open-label parallel group randomized control trial
10. Comparing plastic vs no plastic after EUS guided lams drainage for recurrence of pancreatic fluid collection in patients of acute pancreatitis
11. Comparison of balloon occluded retrograde transvenous obliteration, endoscopic ultrasound-guided coil embolization and beta blockers for primary prophylaxis of high-risk fundal varices: an open-label randomized controlled trial
12. Comparison of Endoscopic and Laparoscopic removal of Large Bile Duct Stone: A Randomized Controlled Trial
13. Derivation and Validation of a classification system for defining response and remission to Gluten-free diet in patients with Celiac Disease
14. Early versus Delayed Percutaneous Drainage for Infected Necrotizing Pancreatitis: A Randomised Controlled trial (RAPID trial)
15. Effect of Timing of Biliary Drainage (Urgent versus Early) in Patients with Severe Acute Cholangitis: An Investigator Initiated Open Label Randomized controlled trial (ACT trial)
16. Efficacy of FMT in treating patients with active ulcerative colitis with CMV infection: a randomised placebo-controlled trial
17. Efficacy of Garlic on Reducing Pain in patients with Recurrent Acute Pancreatitis: A Randomised Double blind Placebo Controlled Trial
18. Estimation of incidence and risk factors of gastrointestinal fistula formation in patients with acute pancreatitis: An Ambispective observational Study
19. Exploration of immunopathogenesis of extraintestinal organs involvement in patients with celiac disease
20. Impact of Apixaban on hepatic decompensation in cirrhosis a parallel group open label randomized controlled trial (ApiHep)
21. Neuropsychiatric manifestation & metabolic characteristics in brain in patients with treatment naïve celiac disease compared with controls & effect of gluten free diet on them: A prospective follow up study
22. Outcomes of Patients with Acute Necrotising Pancreatitis after Discharge: A Cohort Study
23. Percutaneous Endoscopic or Minimally Invasive Surgical Step-up Necrosectomy for Accelerated Recovery in Patients with Infected Pancreatic Necrosis: A Randomized Trial (Ensnare Trial)
24. Prevalence & impact of sarcopenia & frailty in inflammatory bowel disease, and the effect of multi-modal interventions on sarcopenia and clinical outcomes in patients with inflammatory bowel disease
25. Prevalence Of CeD in patients with Interstitial lung disease
26. Prevalence of celiac disease in chronic pancreatitis
27. Prevalence of Eating Disorders in Celiac Disease and impact of eating disorders on adherence to Gluten-free diet
28. Reverse genetics and gene editing approaches for understanding chronic hepatitis virus reactivation, propagation and virus induced carcinogenesis, and drug resistance following infection
29. Role of Microbiome and Mycobiome in persistent inflammation in chronic pancreatitis
30. Safety and efficacy of corticosteroids in severe acute pancreatitis
31. To study the prevalence of sub epithelial lesions in upper GI tract, their outcomes and follow up at 1 year - prospective observational study
32. Understanding etiologies of nonresponsive celiac disease developing in ex vivo organoid model of celiac disease

Completed

1. Assessment of challenges & burdens faced by family members of patients with celiac disease.
2. Liquid biopsy for early prediction of Hepatocarcinogenesis in chronic Liver disease patients.
3. Prevalence of anxiety and depression in patients with chronic pancreatitis and its impact on pain and quality of life.
4. Sarcopenia in acute pancreatitis and its impact on post discharge outcomes.
5. To Explore the association of enteric parasitic infections with duodenal eosinophilia in functional dyspepsia patients.

Collaborative projects

Ongoing

1. A Novel Non-Invasive Pancreatic Duct Pressure Measurement Technique to Predict Response to Endotherapy in Patients with Chronic Pancreatitis, John Hopkins University, Baltimore, USA
2. A T-Cell Diagnostic Test for Celiac Disease (CD), Immunitas Bio Bangalore.
3. Celiac Disease Care Optimization & gluten Restriction exclusion (CeD-CORE), IGIB Delhi; IIT Indore; Gujarat Biotechnology University.
4. Comparative analysis of two different techniques for evaluation of HLA gene haplotypes in patients with Celiac disease, Kanishk International, Mumbai.
5. Correlation of traits of tumor immune microenvironment and response to targeted anti-PD-L1 and anti VEGF therapy in hepatocellular carcinoma: a prospective study, Department of Pathology, AIIMS, New Delhi
6. Crohn's Disease (CD) in South Asians: Defining disease biology for prevention and better treatment,. Harvard Medical School and Massachusetts General Hospital, USA
7. Department of Biotechnology "Consortium on Celiac Disease, " Extension & Nurturing of national Biorepository of well-defined patients with celiac disease,. PGIMER Chandigarh; SPMC Bikaner; IGIB, Delhi; IIIT Delhi.
8. Development of framework for abnormally identification quality assessed small bowel capsule endoscopy video frames, Indira Gandhi Delhi Technical University for Women, Delhi
9. Development of non-invasive imaging biomarkers to assess the metabolic dysfunction, hepatosteatosis, and myosteatosis-related cardiovascular disease risk in the elderly Indian population, Department of Radiodiagnosis, AIIMS, New Delhi
10. "Effect of Pancreatic Enzyme Supplementation on 90-days hospital free alive days in patients with Acute Necrotizing Pancreatitis (ANP): A multicenter double-blinded placebo-controlled randomized trial", CMC Vellore
11. Exploration of immunopathogenesis of extraintestinal organs involvement in patients with celiac disease, Translational Health Science and Technology Institute (THSTI), Faridabad, Haryana
12. Fluorescent Sensors for the detection of citrulline in the plasma of patients with celiac disease and other enteropathies Aiding biopsy free diagnosis and follow-up monitoring of the disease: Molecular Design and Synthesis of Chemoselective Glyoxal Probes, Centre for Nano and Soft Matter Sciences, Bangalore.
13. Genome wide DNA methylation profiling to study role of epigenetic modification in suicide completers and its utility in suicidality of Indian population, Department of Forensic Medicine and Toxicology, AIIMS, New Delhi
14. Identification of Sphingolipid- and Eicosanoid-based Signatures as Potential Diagnostic, Prognostic, and Therapeutic Targets for Inflammatory Bowel Disease Subtypes,. Amity University Gurugram, Haryana
15. Individualized Pain Treatment in Chronic Pancreatitis (INPAIN): An International, Multicenter, Investigator-initiated, Prospective, Observational Cohort Study, Aalborg University Hospital, Denmark
16. Lignocaine as an alternative versus to ketamine, used as an adjunct to propofol for sedation during Endoscopic retrograde cholangiopancreatography (ERCP): a randomized controlled trial,. Department of Anesthesiology, AIIMS, New Delhi
17. Preoperative biliary drainage in patients with Distal REsectAble and borderline resectable Malignant biliary obstruction by primary Endoscopic ultrasound guided choledochoduodenostomy versus Endoscopic retrograde cholangiopancreatography: a randomized controlled trial (DREAMEE), PGIMER Chandigarh

18. Rectal INdomethacin, oral TacROlimus, or their combination for the prevention of post-ERCP pancreatitis (INTRO Trial): A randomized, controlled, double-blinded trial, John Hopkins University, Baltimore, USA
19. RNA-seq based case-control study to identify alternatively spliced events in colorectal adenocarcinoma-Bioinformatics and genomics-based study", Department of Surgical Disciplines, AIIMS, New Delhi
20. Studying the crosstalk between microbiota and intestinal goblet cells in Ulcerative colitis pathogenesis, Regional Centre for Biotechnology, Faridabad, Haryana
21. Studying the mechanism of Rab7 based regulation of Goblet cell function in Ulcerative colitis, Regional Centre for Biotechnology, Faridabad, Haryana
22. Towards stool-based diagnosis of colorectal cancer by developing multiplex apta-sensor panel, National Institute of Immunology (NII), Delhi.
23. Towards Understanding the Role of Oral Microbiota in Colorectal Cancer Progression and Carcinogenesis, National Institute of Immunology (NII), Delhi.

***Completed*:**

1. A pilot study to estimate prevalence of celiac disease in high-risk group in Asia (Asian Celiac disease study), AIIMS Delhi India, Singapore, Thailand, Bangkok, Indonesia, Japan,
2. Celiac disease prevalence in native south versus north Indians; migrant study to access regions for the difference, Center for Community Medicine, AIIMS Delhi
3. Effect of urbanization on gut microbiome mycobiome and virome in patients with IBD from Northern India, Maharshi Dayanand University, Rohtak, Haryana
4. Exploration for development of wheat with low immunogenic gluten, AIIMS Delhi, National Institute of Immunology (NII), Delhi, Mahatma Gandhi Medical College and Hospital, Jaipur; ICAR-NIPB Delhi.
5. International study of COVID- 9 Antibody Response Under Sustained immune suppression in IBD, University of Oxford and Icahn School of Medicine at Mount Sinai USA

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Pramod Kumar Garg received the JC Bose Fellowship for 2020-2025 from the Science and Engineering Research Board, Government of India. He is the editor-in-chief of the international journal Pancreatology; a Council Member of the National Academy of Medical Sciences (FAMS), India, 2021-25 and a Council Member of the National Academy of Sciences, India (NASI), 2022-24.

Professor Vineet Ahuja is the editor-in-chief of the Journal of Gastroenterology and Hepatology Open. He is the chairperson of the Ethics Committee at IISER Bhopal; a member of the Ethics Committee at Ashoka University; a member of the Ethics Committee at George Institute for Global Health; a member of the Institute Body at PGIMER, Chandigarh; a member of the Academic Body at the Institute of Liver and Biliary Sciences in New Delhi; the chairman of the Selection Committee at AIIMS Jodhpur; a member of the Governing Board of the Asian Organization of Crohn's and Colitis; and a member of the Executive Council of the International Organization of Inflammatory Bowel Disease. He delivered the KL Goh Oration at the Asia Pacific Association for Gastroenterology (APAGE) Clinical Forum on Inflammatory Bowel Disease and the Dr BC Roy Oration at Gastro CME at AIIMS Kalyani in 2024.

Professor Govind Makharia has been elected as a Fellow of the Indian National Science Academy (INSA) for 2025; elected as a Fellow of the Royal College of Physicians, United Kingdom, for 2024; President of the Indian Society of Gastroenterology (2023-24); Associate Dean of the Research Section at AIIMS; Governing Council Member of the Indian Council of Medical Research; Member of the Academic Council, ICMR; Governing Council Member of the World Gastroenterology Organization; Chairman of the Clinical Research Committee of the World Gastroenterology Organization (2020-25); Member of the Climate Committee and Planetary Health at the World Gastroenterology Organization; Chairman

of the Committee on Celiac Disease for the Asia Pacific Association of Gastroenterology; Board Member of the International Society for Studies on Celiac Disease; Member of the Technical Evaluation Committee at the Department of Biotechnology; Member of the TEC at BIRAC; Member of the Special Selection Committee at the Council for Scientific and Industrial Research; Institutional Ethics Review Board (IERB) at JNU (2020 onwards); Coordinator of the Department of Biotechnology Consortium on Celiac Disease; Professor in charge of the Employees Health Scheme at AIIMS; Chairman of the Corporate Social Responsibility Committee at AIIMS; Member of Standing Selection Committee (SSC) at AIIMS Mangalagiri. He delivered the Presidential Oration at the 65th ISGCON in Varanasi, India, in 2024. He has also attended the Brainstorming Meeting on Academic Clinical Trials, Non-Regulatory Trials, and Non-Investigational New Drug Trials conducted by ICMR, the CSIR-CCMB Meeting in Hyderabad, and the Meeting of the Technical Monitoring and Advisory Committee for the Genome India and Microbiome initiative at CBR, IISc, Bangalore.

Professor Shalimar has been member of Special Interest Group (SIG)/Taskforce on Autoimmune Liver Disease (AILD) and chaired session on Acute on Chronic Liver Failure at 32nd Annual Scientific Meeting of the Indian National Association for Study of the Liver (INASL) at Kochi, Kerala.

Professor Baibaswata Nayak has served as the editor for manuscript publication in the journal Frontiers in Cellular and Infection Microbiology. He is currently an associate editor for three journals, including Frontiers in Medicine (Hepatology), Frontiers in Microbiology (Virology), and the Gastroenterology & Hepatology International Journal (GHIJ). He also a reviewer for over 26 national and international journals. Additionally, he has served as chairperson for the International Liver Cancer Course 2024 (ILCC2024) for the session on Scores and Prediction Models in the Management of HCC. He acted as a judge for the Poster Presentations session at ILCC 2024 and served as a judge for the VIROLOGY Poster Presentation at MICROCON 2024. He is an expert for extramural funding agencies (ICMR and DST). He has evaluated Ph.D. theses from ILBS and SAU and has served as an examiner for several institutes, including ILBS, JNU, THSTI, IIT, and KIIT, for various entrance and Ph.D. viva examinations.

Dr Deepak Gunjan has been involved in developing national guidelines for pancreatic enzyme replacement therapy for the Indian Pancreas Club at Christian Medical College, Vellore, Tamil Nadu. He has also chaired the 7th Edition of the Gastroenterology Excellence Program held at Mumbai, Maharashtra in 2025.

Dr Soumya Jagannath Mahapatra is an Associate Fellow of the National Academy of Medical Sciences.

VISITING SCIENTIST

1. **Dr Maitreyi Raman**, Associate Professor in the Department of Medicine at the University of Calgary, was a visiting professor in our department for one month in October 2024.
2. **Professor Martin Freeman**, Professor of Medicine in the GI division at University of Minnesota, USA, visited the department and conducted ERCP case discussions on 22 April 2024.
3. **Dr Silvia Melgar**, Investigator at the APC Microbiome Institute in Cork, Ireland, visited the department on 23 September 2024, and delivered a lecture on "Identification of mechanisms underpinning bacteria and dietary additives influence on host responses and their relevance to IBD."
4. **Dr Marietta Iacucci**, Professor and consultant gastroenterologist at University College Cork, visited the department on 3 October 2024 and delivered a lecture on "Artificial Intelligence and Endohistomics in IBD."
5. **Dr Claudio Fiocchi**, Professor of Molecular Medicine at the Cleveland Clinic Lerner College of Medicine and in the Department of Inflammation & Immunity at the Lerner Research Institute, Ohio, visited the department on 7 October and delivered a lecture titled "Breaking the therapeutic ceiling in IBD with precision medicine."
6. **Dr Gursimran Kocchar**, Chief of Gastroenterology, Hepatology and Nutrition at Allegheny Health Network, Pittsburgh, visited the department on 27 October 2023 and delivered a lecture titled 'Role of Endoscopy in IBD' at 5 pm.
7. **Professor David Weinberg**, Chair of Department of Medicine at Fox Chase Cancer Center, Temple Health, United States, visited the department on 4 December 2024 and delivered lecture on "Multi-cancer early detection tests – Ready or Not?"
8. **Dr Mayur Garg**, Director of Gastroenterology at Northern Health and Clinical Associate Professor at the University of Melbourne, visited the department on 19 December 2024 and delivered a lecture on Acute Severe Ulcerative Colitis.
9. **Dr Anjan Dhar**, Professor of Medicine at Teesside University, United Kingdom visited the department on 28 January 2025 and delivered a lecture on "Endobariatrics - the new frontier"

10. **Dr Amit Singal**, Professor in the Department of Internal Medicine at UT Southwestern Medical Center, visited the department on 29 January 2025
11. **Professor Arndt Vogel**, MD, head of the GI-Cancer Center and the Center for Personalized Medicine at Medical School Hannover, visited the department on 7 February 2025 and delivered a lecture on the Role of Immunotherapy in Advanced HCC and Management of Immune-mediated Adverse Events.
12. **Professor Asbjorn Mohr Drewes and Professor Soren Schou Olesen** from Aalborg University, Denmark, visited the department on 11 March 2025 and conducted case-based discussions on Chronic Pancreatitis.
13. **Dr Daniel Leffler**, Associate Professor of Medicine at Harvard Medical School, visited the department on 25 March 2025, and delivered a lecture on new developments in celiac disease.
14. **Dr Namita Singh**, Senior Medical Director and Global Clinical Development Lead, Gastrointestinal and Inflammation at Takeda Pharmaceuticals, visited the department on March 25, 2025, and delivered a lecture on Tyk2 Inhibition in Inflammatory Bowel Disease.
15. **Dr Chakshu Desai** from Harvard Medical School visited the department on 25 March 2025, and delivered a lecture on Safety Monitoring in Global Clinical Trials

Assistant Professor

Kailash Chand Kurdia

HIGHLIGHTS

The department conducted mid-term CME in collaboration with the Indian Association of Surgical Gastroenterology(IASG). The department also conducted pancreatico-jejunostomy workshops for surgical trainees. In collaboration with the Indian Chapter of International Hepato-pancreato-biliary Association (IHPBA India), the department faculty co-ordinated the HPB certificate course held at Kathmandu, Nepal from 23-27 October 2024. The department also conducted the NBE Surgical Gastroenterology clinical examination on 8 September 2024. Another highlight of the year 2024 was the expansion of patient care services in the form of increase in the number of operation theatre slots and in-patient beds. The department thoroughly utilized this expansion and conducted 1110 major GI operations, achieving more than 1000 operations in a single year for the first time since the inception of the department.

EDUCATION

The department is actively involved in the teaching of undergraduate students. The following topics were taught to sixth & eighth semester students through didactic lectures and integrated seminars:

- Portal hypertension
- Upper Gastrointestinal bleeding
- Acute Intestinal obstruction
- Inflammatory lesions of small and large bowel
- Cancer of the stomach
- Biliary strictures
- Obstructive Jaundice
- Acute Pancreatitis
- Nutrition in surgical patients
- Benign and malignant esophageal disorders
- Lower Gastrointestinal bleeding
- Intestinal tuberculosis
- Amoebic lesions of the bowel and liver
- Gall stone disease and complications
- Gall bladder cancer
- Diseases of the Pancreas
- Chronic Pancreatitis

The department offers 3 year training leading to award of MCh in Gastrointestinal Surgery. There are 15 MCh students in the department. The department also offers short-term observership for a period of 1–3 months. The weekly academic activities include a weekly audit, presentations of abstracts of recently published papers, a seminar, journal club, and discussion on research and dissertation projects. Besides these, a combined round with Gastroenterology and a GI Radiology conference are held once in a week, and a GE-GI Surgery histopathology conference once in two weeks. The department also regularly conducts cadaveric based teaching of liver retrieval and tissue model based surgical skill courses to teach bowel, biliary, pancreatic and vascular anastomosis techniques to post-graduate students.

CMEs/Workshops/Symposia/National & International Conferences

1. Pancreatico-Jejunostomy workshop, 8-9 June 2024, Wet Lab, SET facility, Convergence Block 2nd Floor, AIIMS, New Delhi
2. Mid-term meeting of IASG, 13-14 July 2024; Jawahar Lal Auditorium, AIIMS, New Delhi

3. Pancreatico-Jejunostomy workshop, 27-28 July 2024, Wet Lab, SET facility, Convergence Block 2nd Floor, AIIMS, New Delhi

RESEARCH

Funded projects

Ongoing

1 Development and Validation of a structured hands-on surgical skills training module for duct-to-mucosa pancreatico-jejunostomy using animal tissues, Dr. Rajesh Panwar, AIIMS, New Delhi Intramural, 2 years, 2023-25, Rs. 5 lakhs

2 Exploring the transcriptome of gallbladder cancer: A Comparative study of metastatic and Non-Metastatic Patients Using RNA Sequencing and Organoids, Dr. Kailash Chand Kurdia, AIIMS Interdisciplinary Collaborative Intramural Research Project, 02 years, 2024-26, Rs. 5 lakhs

3 Transcriptome profiling to identify LncRNA-miRNA-mRNA regulatory axes involved in chemoresistance in esophageal cancer, Dr NR Dash, SERB, Ongoing, 2023-26, Rs. 45.36 Lakhs

4 Trial of Unmanned Aerial Vehicles for medical supplies between CHRSP Ballabgarh and its associated centers, Dr. Rajesh Panwar, AIIMS, New Delhi (AIIMS-IIT collaborative research project), 2 years, 2023-25, Rs. 2.5 lakhs

Completed

1 Database creation for computational predictive analysis of treatment response assessment in Esophageal cancer patients in India, Dr. Rajesh Panwar (PI from AIIMS, New Delhi, ICMR (Collaborative multi-centre project), 3 years, 2021-24, Rs. 27.56 lakhs

Departmental projects

Ongoing

1 A study to determine probability of identifying same specific pathogenic organisms pre and post operatively in patients undergoing whipple's pancreaticoduodenectomy And correlation of their antibiotic sensitivity pattern

2 Clinical Significance and risk factors of Post-Pancreatectomy Acute Pancreatitis After Pancreatectomy-A single centre prospective cohort study

3 Clinical significance of tumour infiltrating lymphocytes in patients with Gall Bladder Cancer

4 Correlation of postoperative morphology of pancreas with the severity of pain in patients with chronic pancreatitis : an ambispective study

5 Development and validation of the post hepatectomy liver failure-risk assessment (PHLF-RI) scoring system in patients undergoing liver resection

6 Outcomes following management of portal cavernoma cholangiopathy

7 Quality of life after total pancreatectomy: A single centre cross-sectional study

8 Role of FAPI-PET/CT in Hepatobiliary malignancies-A prospective pilot study

9 To evaluate the success rate of different treatment strategies in gall bladder carcinoma presenting with obstructive jaundice

10 To study the spectrum of pancreatic neuroendocrine tumors occurring in the background of a cohort of MEN1 patients presenting to AIIMS, New Delhi.

11 To validate the PREDICT-DGE scoring system in an Indian Cohort of patients undergoing Pancreatoduodenectomy with an aim to predict and assess the risk of delayed gastric emptying

12 To validate the PREDICT-DGE scoring system in an Indian Cohort of patients undergoing Pancreatoduodenectomy with an aim to predict and assess the risk of delayed gastric emptying

Completed

1 The role of Positron Emission Tomography/Computed Tomography (18FDG-PET/CT) in primary resectable carcinoma Gallbladder

2 To study the long-term follow up of patients who have undergone prophylactic shunting for EHPVO at AIIMS

Collaborative projects

Ongoing

1 Effect of I:E ratio optimisation and prolonged end inspiratory pause on postoperative lung atelectasis and pulmonary complications in adult patients undergoing major open abdominal surgery: A randomised controlled trial, Anaesthesiology

2 Study of Tight Junction claudin proteins in intestinal biopsies from patients with Inflammatory Bowel Disease, Pathology

Completed

1 A randomized controlled Trial evaluating the efficacy of a combination of Tofacitinib and fecal microbiota transplantation (FMT) versus Tofacitinib and sham feeding in inducing remission in patients with moderate to severe ulcerative colitis, Gastroenterology

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Sujoy Pal was elected the Secretary General of Indian association of Gastroenterology for a tenure of 3 years in October 2024.

Dr Sujoy Pal was part of the IHPBA-APHPBA International Study Group of Gallbladder Cancer which published its clinical practice recommendations in 2024. He also evaluated 4 thesis submitted by various candidates appearing for MCh Surgical Gastroenterology exit exams from various universities and institutes of national importance.

Professor Nihar Ranjan Dash is Chief editor of " Journal of nutrition research" E-ISSN : 2348-1064

Dr Rajesh Panwar is a member of the education committee of the IASG, Section editor for Tropical Gastroenterology Journal, executive member of Indian Association of Surgical Gastroenterology as well as Indian Chapter of International Hepato-Pancreato Biliary Association (IHPBA), member of SET facility team and wet lab sub-committee, Joint Secretary of the 'The AIIMSONIANS', the alumni association of AIIMS, New Delhi; Was Invited as chairperson/Judge/Faculty for The Liver Summit & IHPBA Midterm Meet 2024 at Jaipur, IASGCON 2024 at Patna, ENDOSURG, Delhi, 1st AMASI MMAS-HPB course, Delhi and IHPBA India 2025 at Kolkata ; is a reviewer for many international indexed journals.

Dr Kailash C Kurdia received ICMR International Travel Grant Support to attend "2024 ACS-Quality and Safety Conference, Denver, Co. USA.18-21 , July2024

VISITING SCIENTIST

Dr Ravindra Kadiyala, Director or Living donor transplant & Abdominal Transplant Fellowship, Division of Transplantation

Duke University, Durham, NC, USA visited the Departments of GI surgery and Gastroenterology, AIIMS in June 2024, interacted with residents over case discussions related to liver transplantation and delivered 2 lectures on the following topics on 7 June 2024:

1. Developing a small bowel transplant programme in India: technical and logistic challenges
2. Liver transplantation for perihilar cholangiocarcinoma

The lectures were well received and stimulated a lot of interest.

HIGHLIGHTS

The Department of Geriatric Medicine at AIIMS, New Delhi, has made remarkable strides in 2024, expanding its services and enhancing the quality of geriatric care. Under the National Programme for the Health Care of the Elderly (NPHCE), the National Centre for Ageing, NCA AIIMS (New Delhi) was inaugurated in 2023 and has emerged as a state-of-the-art facility providing comprehensive care for older adults. Collaborating with departments such as Surgery, Orthopedics, Psychiatry, PMR, Cardiology, and Radiology, the centre ensures an integrated, multidisciplinary approach to geriatric healthcare.

Key milestones include the operationalization of NCA OPD and laboratory/radiology services in 2023, followed by the launch of inpatient services, a dedicated geriatric ICU, and fully equipped operation theatres at NCA in 2024. Specialized services have expanded, with the addition of Geriatric Oncology and Fragility Fracture Clinics for cancer and fracture patients respectively, supplementing the existing Memory Clinic for dementia assessment. As a WHO Collaborating Centre, the department actively advances geriatric research and health promotion.

The Integrated Care for Older People (ICOPE) initiative, focusing on intrinsic capacity building, has screened 3, 956 older adults, ensuring timely assessment and intervention. Research remains a cornerstone, with __30 thesis projects and __12 funded research projects. A noteworthy study here is the “Biomarkers of Ageing” study, which explores ageing mechanisms in the Indian population. With cutting-edge clinical care, education, and research, the department continues to set benchmarks in geriatric medicine, driving advancements in healthy ageing across India and beyond.

EDUCATION

As India’s largest postgraduate training department in geriatrics, the Department of Geriatric Medicine at AIIMS, New Delhi, leads the way in academic excellence. In parallel with institutional activities like Clinical Combined Rounds, the department remains committed to delivering high-quality postgraduate education.

Postgraduate students and senior residents, under the guidance of faculty consultants, have diligently upheld a rigorous and punctual academic schedule. In addition to their academic training, residents have actively engaged in various workshops and conferences at both national and international levels. Their consistent dedication is also reflected in their commendable performance in thesis research, study projects, and delivery of high-quality patient care.

A Continuing Medical Education (CME) session was organized at the National Centre for Ageing (NCA) on the theme “Bridging Barrier Between Geriatricians and Surgeons.” The session aimed to foster interdisciplinary collaboration and enhance understanding of the unique needs of older surgical patients. It witnessed enthusiastic participation from faculty members, senior residents, and junior residents across various specialties including Geriatric Medicine, Orthopedics, surgery, physiotherapy, psychiatry and anesthesia. Through interactive discussions and case-based learning, the CME successfully highlighted the importance of teamwork between geriatricians and surgeons in improving patient outcomes, and the adjunctive role of other specialties in recovery. The event was well-received and served as a platform to exchange ideas, share experiences, and strengthen interdepartmental academic ties.

In addition to the allotted and ongoing department academics, research and patient care, postgraduates from the department have been participating in various quizzes and are actively involved in presentations and academic gatherings.

CMEs/Workshops/Symposia/National and International Conferences

Name: CME- Bridging Barrier Between Geriatricians and Surgeons
Date: 2nd December 2024
City: New Delhi

Lectures delivered at CMEs, National and International Conferences

Prasun Chatterjee

1. Super Ager- A myth or the future!, HOPECON 2024 Comprehensive Healthcare- The Complete Care, 28-30 June 2024, Kolkata
2. Biomarkers of Healthy Ageing, GERI CARE Geriatrics Conclave 2024 &1st Asian Geriatric Oncology Society Conference, 28-29 September 2024, Chennai
3. Panel Discussion on Longevity: Longevity for corporate wellness, CLO Chief Learning Officers Summit India, National Stock Exchange, 14-15 November 2024, Mumbai
4. A Pilot Prospective Cohort Study to Define Biomarkers of Ageing in Five Different Cohorts from Newborn to Oldest Adult: A Study Protocol, GERICON 2024, 29 November- 1 December. 2024, Varanasi
5. Understanding Biological Ageing and its biomarkers: A Road to longevity, 21st biennial international conference of Association of Gerontology (India), AGI, 13-15 December 2024, New Delhi
6. Understanding Biological Ageing and its biomarkers: A Road to longevity, APICON 2025, 23-26 January 2025, Kolkata
7. Biomarkers of Ageing: A Road to longevity, RISE for healthy Ageing- Longevity Conference India, 10-12 March 2025, Bengaluru

Nidhi Soni

1. Panel discussion "Comprehensive Care of geriatric patients with multiple comorbidities: A Multidisciplinary approach", 4th CME of Delhi State chapter of IAPC (Indian Association of Palliative Care), 27th April 2024, New Delhi
2. Practical Approach to Developing a Geriatric Oncology Clinic, ISMPO-CON Conference, 18th October 2024, New Delhi
3. Comprehensive Geriatric Assessment and Multimorbidity Management, NAMSCON Conference, 24th November 2024, Jodhpur
4. Geriatric- assessment based interventions, GERICON Conference, 29th November 2024, Varanasi, Uttar Pradesh
5. Comprehensive Geriatric Assessment and Multimorbidity Management, CME - Bridging Barrier Between Geriatricians and Surgeons, 2nd December 2024, New Delhi
6. Geriatric Oncology: Case-based panel discussion, 21st biennial international conference of AGI, 13-15 December 2024, New Delhi
7. Conducted Geriatric Oncology symposium "Multidisciplinary perspectives on Geriatric oncology: collaborative strategies for comprehensive patient management", NCPO Conference, 3-5 January 2025, New Delhi

Pramod Kumar Mehta

1. Integration of Palliative Care in Geriatric Population: Geriatric Physician Perspective, 4th CME of Delhi State chapter of IAPC (Indian Association of Palliative Care), 27th April 2024, New Delhi
2. Panel Discussion - 'Ageing in Place', 1st ELDERCON Conference, 27th September 2024, New Delhi
3. Uses and limitation of tools of Geriatric assessment in Indian scenario and way forward, ISMPO-CON Conference, 18th October 2024, New Delhi
4. Diabetes in older adults: Challenges and special consideration, ACDACON Conference, 27th October 2024, Asansol, West Bengal
5. Workshop on the topic – 'Brain imaging in Dementia', GERICON Conference, 29th November, Varanasi, Uttar Pradesh

6. Preoperative and Post-operative in an elderly patient, CME - Bridging Barrier Between Geriatricians and Surgeons, 2nd December 2024, New Delhi
7. Management of Dementia – Recent Update, 21st biennial international conference of Association of Gerontology (India), AGI, 13 - 15 December 2024, New Delhi
8. Challenges and special needs of older adults with cardiovascular disease, National level Workshop on 'Transforming cardiac outcomes through comprehensive nursing care', 20 - 24 January 2025, New Delhi

Ambica Singh

1. Osteosarcopenia, CME - Bridging Barrier Between Geriatricians and Surgeons, 2 December 2024, New Delhi

1. Biomarkers in Alzheimer's Disease diagnosis, 21st Biennial International Conference of AGI, 13-15 December 2024, New Delhi

Abhijith R Rao

1. Preclinical Dementia and Mild Behavioral Impairment, 21st Biennial International Conference of AGI, 13-15 December 2024, New Delhi

1. Does Geriatric assessment and Management improve outcomes?, AROICON 2024, 30 November 2024, Mangalore

Lectures delivered over past 3 years

2022–2023	2023–2024	2024–2025

RESEARCH

Funded projects

Ongoing

1. Association between the Dual Task gait performance and cognitive frailty among older adults. Dr. Pramod Kumar Mehta, AIIMS - Intramural funding, 2 years, 2024-26, Rs. 6,00,000
2. Blood plasma derived exosomal profiling of cytokines and chemokines in frail elderly and assessment of impact of Nordic walking intervention on exosomes, Dr Avinash Chakrawarty, ICMR, 3 years, 2023-26, Rs 70,35,084
3. Determination of anti-aging and antioxidant potential of a Unani formulation, Dr Avinash Chakrawarty, CCRUM, Ministry of AYUSH, Government of India, 3 years, 2021-24, Rs 48,71,832
4. Development and validation of an android based application app to assess cognitive status of older people through speech, emotion and visuo-spatial pattern recognition. Dr Prasun Chatterjee, DST, 2 year, 2023-25, Rs. 21,43,650
5. Efficacy of adjunct probiotics in combination with standard of care as compared to standard of care alone in elderly patients with moderate unipolar depression: A randomized double-blind parallel-group placebo-controlled multi-center pilot trial (Site PI at AIIMS, ND), Dr Prasun Chatterjee, ICMR, 2 years, 2023-25, Rs 31,32,440
6. GIS Based Surveillance of People with Dementia and Its Risk Factors among People Residing in South Delhi by Multi- Disciplinary Collaborative Approach- A Pilot Cross Sectional Study for Customized Care Plan and Policy Planning, Dr Prasun Chatterjee, DHR, 2 years, 2022-24, Rs. 15,00,000
7. Health Awareness Amongst Elderly and Family Member of India through Series of Audio Visual and Print Media, Leveraging Existing Old Age Solution Portal of the Department of Geriatric Medicine-AIIMS, Dr Prasun Chatterjee, Central Warehousing Corporation (CWC), 1 year, 2023-24, Rs. 30,00,000
8. Impact of Geriatric assessment- based intervention on Health-Related Quality of life of older patients with cancer, Dr Nidhi Soni, AIIMS- Intramural funding, 2 years, 2024-26, Rs 10,00,000
9. Validating Biomarker Panel in Five Different Cohorts to Define and Predict Biological Ageing, Disease Burden and Mortality in Human Subjects- A Pilot Prospective Cohort Study. (Technically Approved), Dr Prasun Chatterjee, ICMR, 3 years, 2023-25, Rs 98,00,000

Completed

Departmental projects (including thesis/dissertations)

Ongoing

1. A cross-sectional study of factor associated with hospital readmission within 90 days of discharge in older adults with age more than 65 years
2. Biomarkers of delirium in urinary tract infection patients
3. Change in intrinsic capacity of older adults during and after hospitalization based on WHO ICOPE based assessment
4. Effect of exercise on dual task performance in cognitive frail patients
5. Evaluating the efficacy of gait and balance training for cognitive function and mobility in individuals with motoric cognitive risk syndrome: A pilot non-randomised controlled trial
6. Factors predicting risk of ATT induced hepatitis in elderly
7. Impact of geriatric assessment-based intervention on health-related quality of life of older people
8. Incidence, risk factors, and outcomes of hospital-acquired pneumonia among older adult patients
9. Non-randomised control trial to compare effect of metformin with 20% calorie restriction in elderly individuals with early diabetes
10. Older adults perspectives on healthy ageing
11. Pattern of smoking cessation among elderly and primary care givers after diagnosis of cancer
12. Predictable value of gait speed on composite outcome of survival or rehospitalisation in older adults

13. Prevalence of impairments in geriatric domains and Quality of life in elderly cancer survivors of India and its comparison with age matched non-cancer cohort: A case-control study
14. Prevalence of polypharmacy in older patients with malignancy
15. The psychological impact of age related special sensory impairment on mental health, cognition and quality of life in older adults
16. The type of dietary pattern and effect of dietary pattern on longevity, physical function biomarker in older adults aged 65 years and above- A cross-sectional study
17. To evaluate the benefit of magnetic stimulation of pelvic floor in older females with urinary incontinence

Completed

1. Assessment of Cardio Pulmonary Exercise Indices in Sarcopenia Patients after Guided Physiotherapy
2. Assessment of Factors Affecting Functional Independence in Oldest Old Adults
3. Assessment of Intrinsic Capacity in Indian older adults aged 65 years or more with prostate carcinoma and without prostate carcinoma
4. Comparing the performance of the CARG and CRASH score for predicting toxicity in older patients with cancer in India

Collaborative projects

Ongoing

1. A multidisciplinary approach to understanding the interrelationships between sleep quality, brain morphometry and cognition (a SOLACE study): Comparison between individuals residing in India vs the UK, Physiology, AIIMS, New Delhi
2. A randomized control trial to assess the effectiveness of reminiscence therapy on well-being and depression among elderly in selected old age homes of New Delhi, College of Nursing, AIIMS, New Delhi
3. A study of sleep architecture, brain morphometry and cognition in older, Physiology, AIIMS, New Delhi
4. A study of surveillance of HAI in geriatric population in an ICU, Hospital Administration, AIIMS, New Delhi
5. A two-arm longitudinal randomized control trial to evaluate the boneprotective riole of an ayurveda formulation in post-menopausal females, Laboratory Medicine, AIIMS, New Delhi
6. Analysing the angiogenesis-related proteins to understand aging in geriatric population, Cardiac Biochemistry, AIIMS, New Delhi
7. Assessing the efficacy of combined escitalopram and Buspirone in late life depression accompanied by cognitive impairment- An open label randomized controlled trial, Psychiatry, AIIMS, New Delhi
8. Assessment of osteosarcopenia, frailty and cognitive status in elderly with hip fractures: A prospective study, Orthopedics, AIIMS, New Delhi
9. Comparison of gut microflora of different age groups of geriatric population on long term Non-steriodal Anti-Inflammatory Drugs and healthy geriatric population, Laboratory Medicine, AIIMS, New Delhi
10. Development of non-invasive imaging biomarkers to assess the metabolic dysfunction, hepatosteatosis, and myosteatosis-related cardiovascular disease risk in the elderly Indian population, Radiology, AIIMS, New Delhi
11. ECM proteins as blood-based biomarkers and therapeutic targets for Alzheimer's disease, Biophysics, AIIMS, New Delhi, Exosomes as Early Indicators: Mechanistic insights and Biomarker Discovery in Alzheimer's Disease detection, Biophysics, AIIMS, New Delhi
12. Efficacy of a Brief intervention for Caregivers of Dementia Patients: A Randomized Control Pilot Trial, Psychiatry, AIIMS, New Delhi
13. Establishment of a Fragility Fracture Liaison Service at AIIMS: A multicentric study, Orthopedics (JPNATC), AIIMS, New Delhi

14. Evaluation of inflammatory and oxidative stress resistance proteins in serum, as biomarkers of Alzheimer's disease with therapeutic interventions, Biophysics, AIIMS, New Delhi
15. Exploring the role of Mitochondria related proteins in the pathogenesis of Alzheimer's Disease and their potential as Therapeutic Agents, Biophysics, AIIMS, New Delhi
16. Identification of mitochondria-related proteins as plausible biomarkers and therapeutic targets in Alzheimer's disease, Biophysics, AIIMS, New Delhi
17. Impact of sarcopenia and frailty on treatment outcomes in patients receiving intensive chemotherapy for leukemia and transplant conditioning- A prospective observational study from a tertiary care centre in India, Hematology, AIIMS, New Delhi
18. Investigating the impact of Extracellular Matrix Proteins on Alzheimer's Disease progression: from diagnostic to potential therapeutic Targets, Biophysics, AIIMS, New Delhi
19. Outcome of surgical procedures in elderly: An ambispective study, Surgical disciplines, AIIMS, New Delhi
20. Prevalence of mental disorders among elderly patients admitted in non-psychiatric clinical settings at a tertiary care hospital in India- A Cross- sectional, Observational Study, Psychiatry, AIIMS, New Delhi
21. Pyuria cut-off for Urinary Tract Infections in Post-menopausal females – A Case Control Study, Laboratory Medicine, AIIMS, New Delhi
22. Randomised controlled trial on comparison of standard medical treatment, Genicular artery embolization and intra-articular steroid injection in patients of osteoarthritis of knee, Radiology, AIIMS, New Delhi
23. To study the association of circulating endothelial progenitor cells (EPC) with intrinsic capacity (IC) in older adults, Cardiac Biochemistry, AIIMS, New Delhi
24. To study the association of EPC with Intrinsic Capacity (IC) in older adults, Cardiac Biochemistry, AIIMS, New Delhi

Completed

1. Evaluation of Immunomodulatory and antioxidant potential of a Unani formulation, Ocular Biochemistry, AIIMS, New Delhi
2. Study of circulatory level of serum proteins in inflammatory and anti-oxidative pathways in Alzheimer's disease for the establishment of potential biomarker and therapeutic target, Biophysics, AIIMS, New Delhi
3. To assess the palliative care needs, symptom burden and quality of life in geriatrics patients attending the tertiary care centre in India- A cross sectional observational study, Onco-Anesthesia and Palliative Care, AIIMS, New Delhi

HIGHLIGHTS

- The department of Hematology is a composite department which provides both **Clinical Hematology** and **Haemato-Pathology** services to the institute.
  - **Clinical Hematology** services include comprehensive management for patients with benign and malignant hematological illnesses. The department runs specialized outpatient clinics for patients with these illnesses. The department has been performing autologous and allogeneic hematopoietic stem cell transplantation (HCT), including haploidentical donor HCT, for various benign and hematological illnesses like aplastic anemia, thalassemia, myeloma, lymphomas, leukemias, and myelodysplastic syndromes.
  - **Haemato-Pathology** provides state-of-the-art evaluation of blood and bone marrow diseases. Expert hematopathology services offered by the department include bone marrow examination including immunohistochemistry and cytochemistry; flowcytometry; molecular diagnostics; specialized hemolytic and coagulation tests.
- The ISHTM-AIIMS external quality assessment program for hemogram, conducted by Department of Hematology, was accredited for further two years as PT provider by NABL. More than 6000 laboratories took part in this program.
- Department of Hematology continued to be regional training Centre for International Society of Hemostasis and Thrombosis in collaboration with the Institute of Experimental Hematology and Transfusion Medicine, University Clinic Bonn.

EDUCATION

- The department conducts **DM (Clinical Haematology), DM (Haematopathology)** and **Ph.D. programs** in the field of Haematology. The academic program includes regular seminars, guest lectures, symposia, micro-teaching and case discussions.
- The faculty is involved in theory and practical classes for MBBS students in the subjects of Pathology, Hematology and Medicine. Students of MD (Pathology) are trained in Haematology laboratory. Students from MD (Pediatrics), MD (Medicine), MD (Geriatric Medicine), MD (Emergency Medicine) and MD (Transfusion Medicine) as well as DM (Pediatric Oncology) and DM (Infectious Diseases) come for training and for case discussion in the department.
- The department provides short term training for visiting doctors, healthcare professionals and MSc students interested in the field of Haematology.

CMEs/Workshops/Symposia/National and International Conference

1. National Hematology Update: XIII, 1-2 February 2025, AIIMS, New Delhi
2. 5th AIIMS Hematology Alumni Meeting, 31 January 2025, AIIMS, New Delhi
3. Four parallel workshops during NHU XIII, 31 January 2025, AIIMS, New Delhi
4. Workshop on ISHBT-EQAP program, 31 January 2025, AIIMS, New Delhi
5. Session on Benign Haematology during MPAICON 2024, 6-10 December 2024, AIIMS, New Delhi
6. Annual Conference of Delhi Society of Haematology, 1 September 2024, New Delhi

Lectures delivered at CMEs, National and International Conferences

Lectures delivered: 200

Pradeep Kumar: 11	**Richa Chauhan: 6**

M Mahapatra

1. Keynote address on SCD elimination strategies, National workshop on sickle cell and thalassemia elimination: Best practices & Scalable Strategies, 11-12 March 2025, Bhubaneswar
2. High risk setting for SCD on day-to-day practice, National workshop on sickle cell and thalassemia elimination: Best practices & Scalable Strategies, 11-12 March 2025, Bhubaneswar
3. Challenges and Problems in management of aplastic anemia in India, 9th Annual conference of Bengal Society of Hematology (BeSHCON 2025), 14-15, February 2025, Kolkata
4. Surgery in SCD: How to make it safe?, ISHBT workshop on SCD, 8-9, February 2025, Kolkata
5. Approach to a 50-year-old with Lymphadenopathy, 80th Annual Conference of Association of Physicians of India (APICON 2025), 24-25 January 2025, Kolkata
6. Inaugural address on challenges in SCD elimination in India, National Training of Trainers on SCD, 21-22 January 2025, Delhi
7. Moderator for improving awareness generation in improving health condition of SCD patients, National Tribal Health Conclave 2025, 20 January 2025, Delhi
8. Prioritizing management of Aplastic Anemia with ACE therapy, HAEMATOCON 2024, 7-10 November 2024, Nagpur
9. Inherited Bone marrow Failure in a child, Mid-term Hematology conference (KASHCON 2024), 26-27 October 2024, Srinagar
10. Eosinophilia: Can it give Nightmares, Northeastern chapter of Hematology (NEHCON 2024), 18-20 October 2024, Kaziranga
11. Pulmonary thromboembolism as an initial presentation of Acute Promyelocytic Leukemia, Annual conference of American college of Chest physicians (CHEST 2024), 6-9 October 2024, Boston, USA
12. Approach to a Patient with pancytopenia, 30th Annual conference of Indian Academy of Clinical medicine (IACMCON-2024), 28-29 September 2024, Udaipur
13. Approach to pancytopenia, 14th Annual conference of Odisha Hematology (ODHECON-2024), 13-15 September 2024, Cuttack
14. Acquired Hemophilia: Challenges in management, National Coagulation Conclave-2024, 21-22 June 2024, Kolkata
15. Introduction to SCD and its challenges in India, CME on awareness of Sickle cell disease (SCD), 19 June 2024, Delhi
16. Aplastic Anemia: Management Strategies, 4th Annual conference of Cochin Hematology Group (CHG), 2 June 2024, Thrissur

17. Acute Myeloid leukemia: How to treat in 2024, 8th Annual conference of Eastern Hematology Group (EHG), 12-14 April 2024, Raipur

Dr Tulika Seth

1. Anemia- from theory to practice, NIS, Delhi chapter, 6 April 2024, Virtual
2. Panel discussion Haplo- BMT, RAH 2024, 7 April 2024, New Delhi
3. Hemophilia A management: now and next, NHM Gujarat, 12 April 2024, Virtual
4. Moderator discussion: Anemia interesting cases, with Fr Nitin Shah, Pragmatic paediatrics from pioneers, 12 April 2024, Virtual
5. Case discussion CML with Dr G Rosti, iCMLF, 24 April 2024, Virtual
6. Panel discussion, 3rd Edition Haemophilia Forum 2024,Equitable Access for all, Voice of health care, 17 April 2024, Virtual
7. DISABILITY TRAINING for blood disorders to nodal officers North India,Designated as a national trainer designed training resource material, Department of Social Justice and empowerment,and NHM -, 25 April 2024, New Delhi
8. "Prevention and treatment of bleeds in Hemophilia: What is new in Indian context", UPHGCON-2024, 27 April 2024, Lucknow
9. Hobbies and habits for work life balance, Women oncologist forum, 4 May 2024, New Delhi
10. Panelist case-based discussion on difficult scenarios, Treating thalassemia in India: setting standards of care, 8 May 2024, Virtual
11. Case discussion – diagnosis and management of Hodgkin's lymphoma, NBEMS medical oncology webinar, 8 May 2024, Virtual
12. Panelist,Panel discussion- bridging the gaps in care and cure for TDT: Improving accessibility and affordability. (Patient and doctor forum), Transforming care and cure for thalassemia by leveraging the potential of genomics and bone marrow transplant, 10 May 2024, New Delhi
13. Genetic counselling, carrier assessment and prenatal testing, Haemophilia patient assistance program, 11 May 2024, AIIMS, New Delhi
14. Panelist- optimal Haemophilia care in India, Hemophilia conclave, 17 May 2024, New Delhi
15. Factor X deficiency and management, Hemophilia conclave, 17 May 2024, New Delhi
16. APCC in surgical management of Haemophilia, Hemophilia conclave, 17 May 2024, New Delhi
17. Moderator Panel discussion treatment aplastic anemia, Revisiting Hematology, 19 May 2024, New Delhi
18. Current scenario of therapy for PNH, Hematology Conclave 2024 (Update from EBMT-2024 Glasgow), 2 June 2024, New Delhi
19. Overview of current therapy in Hemophilia, Hematology update, 9 June 2024, Hyderabad
20. Case based management of ITP, Hematology update, 9 June 2024, Hyderabad
21. Changing scenario of Sickle cell in India, National cancer and health foundation, 15 June 2024, Virtual
22. Diagnosis and monitoring of sickle cell disease in Indian context, PHO midterm CME IAP, 14 June 2024, Nagpur
23. Thalassemia packages, National health authority,Capacity building on ABDM & PMJAY, 19 July 2024, Hybrid New Delhi
24. , Extended half-life products in Hemophilia care, ESI Basaidarapur, 23 July 2024, New Delhi
25. Haplo-transplant for hemoglobinopathies, MGM medical college. Celebration of 100 BMT, 25 July 2024, Indore
26. New disability guidelines for Hemophilia, IHC VIII, 29 July 2024, New Delhi
27. Update on Haemophilia case-based discussion, Hematology foundation Bihar, Annual conference, 11 August 2024, Patna

28. Session moderator: Thalassemia carrier state and implications in pregnancy - Detection of iron deficiency in pregnancy, Crosstalk between Hematology and Gynecology on important Hematologic issues, 28 June 2024, Virtual
29. Thrombophilia in pregnancy and recurrent pregnancy loss,Speaker Dr Mukul,Moderators: Dr Tulika Seth,Dr Basab Mukherjee (VP FOGSI), Crosstalk between Hematology and Gynecology on important Hematologic issues, 18 July 2024, Virtual
30. Hematopoietic transplantation- increasing the donor pool, Regional Workshop on advancing organ transplantation in SEAR, 19 August 2024, New Delhi
31. Anticoagulation therapy in pregnancy: management and monitoring,Speaker Dr Chandrakala S,Moderators: Dr Tulika Seth,Dr Basab Mukherjee (VP FOGSI), Crosstalk between Hematology and Gynecology on important Hematologic issues, 22 August 2024, Virtual
32. Thrombocytopenia in pregnancy,Speaker Dr Prantar Chakravarti,Moderators: Dr Tulika Seth,Dr Basab Mukherjee (VP FOGSI), Crosstalk between Hematology and Gynecology on important Hematologic issues, 26 September 2024, Virtual
33. VTE diagnosis and risk stratification, CCVTE- unlocking the future of VTE management, 21 August 2024, Virtual
34. Moderator and summary of VTE- epidemiology, risk, diagnosis, prophylaxis, treatment and special group therapy and stewardship, CCVTE- unlocking the future of VTE management, 23 August, 2024, Virtual
35. Palliative care Hematology conditions Advanced Certificate Course in Pediatric Pain and Palliative Care Indian Academy of Pediatrics (Pain and Palliative Care Chapter) 24 August, 2024, Virtual
36. Moderator case-based discussion Hodgkin's lymphoma, 4th international cancer summit, 31 August 2024, New Delhi
37. Sickle cell anemia: genetic modifiers and their role in severity- panel discussion, ICMR, 6 September 2024, Virtual
38. Sickle cell disease, PGI-Noida Web series on education for Hemoglobinopathies, 10 September 2024, Virtual
39. Under detection of bleeding in India- current scenario, NHCM, 5 September 2024, Bengaluru
40. Organized Comprehensive care Hemophilia (CCH) workshop with Dr Jameela Sathar (Malaysia), AHAD-AP,(association for hemophilia and allied disorders- Asia pacific), 5 September 2024, Bengaluru
41. Panel discussion Non-factor CPWHI, AHAD-AP & National hemostasis update NHU, 6 September 2024, Bengaluru
42. Panel discussion Role of APCC in CPWHI, AHAD-AP & National hemostasis update NHU, 6 September 2024, Bengaluru
43. Recurrent Pseudo tumors in Hemophilia – evidence-based management, AHAD-AP & National hemostasis update NHU, 7 September 2024, Bengaluru
44. Anemia and its far-reaching impact, GHS conclave organized by Nutrition society of India (NSI), 25 September 2024, New Delhi
45. Vaccines in sickle cell disease maintenance, INTERNATIONAL CONFERENCE ON SICKLE CELL DISEASE, 6 October 2024, Chanderpur, Maharashtra
46. Adults need vaccines too, DD news, 10 October 2024, Virtual
47. Situation analysis of thalassemia epidemiology access to care and SOC management in India, Webinar series, advances in thalassemia care, TIF -PHO, 11 October 2024, Virtual
48. Sickle cell clinical manifestations and complications, Nominated as national trainer for sickle cell disease by NHM, Sickle cell Training of State level Trainers NHM, MP, 23 October 2024, Bhopal
49. Amyloidosis: Technical discussion – Q and A, Unveiling amyloidosis: bridging knowledge and patient care, 26 October 2024, Virtual
50. Epidemiology of Thalassemias Country perspective- India, Kick off -The Indian Subcontinent network for Hemoglobin disorders Indian subcontinent network for Hemoglobin disorders (ISNHD) – TIF, 8 November 2024, Virtual

51. Peripheral T Cell lymphoma: current practice and management, Advances in management of T Cell lymphomas, 16 November 2024, Virtual
52. Thalassemia management: current scenario and way forward, Thalassemia conclave: challenges and solutions, 20 November 2024, New Delhi
53. An overview of PNH, Mumbai Hematology group, update on PNH: from challenges to treatment triumphs, 23 November 2024, Virtual
54. Panel discussion – Panelist- Haemato-oncology omics: what does the future hold?, Precision Haemato-oncology symposium, 28 November 2024, New Delhi
55. Drug development chronicle of Iptacopan in management of PNH, IPC-IPSCON 2024, 28 November 2024, New Delhi
56. Disability due to bleeding disorders- case discussion of gaps in care of PWHI, Disability day, 3 December 2024, Virtual
57. Kinetics of Blast Clearance in Cerebrospinal Fluid (CSF) Detected on Flow Cytometric Immunophenotyping (FCM),but Negative by Cytopathology in Newly Diagnosed Acute Lymphoblastic Leukemia Patients, American Society of Hematology 66th annual meeting San Diego, USA, 9 December 2024, San Diego USA
58. Thrombosis meeting, VTE group, 19 January, Mumbai
59. Counselling of patients/carriers with SCD enabling them to lead a balanced life, National training of trainers MoTa, 22 January, New Delhi
60. Deccan hematolink, Approach to hemolytic anemia, 22 February 2025, Hyderabad
61. Thalassemia conclave, Access to essential care: ensuring availability, adequacy and quality, 25 February 2025, New Delhi
62. Newer therapies in sickle cell disease, NHM Odisha and Dept SCSTRTI, Odisha, 11 March 2025, Bhubaneshwar
63. Cost effectiveness of Hemophilia care and experience of Haemophilia care from AIIMS, New Delhi, CME- Goa medical college – dept Medicine, Pediatrics and Medical education, 21 March 2025, Panaji, Goa
64. Ponatinib in second line CML, Hematology express, 22 March 2025, Jaipur
65. MPN Ruxolitinib titration, Hematology express, 23 March 2025, Jaipur

Rishi Dhawan

1. Refractory AML-Role of HSCT Conditioning, 5th Annual Conference of ISBMT, 04 May 2024, Bengaluru
2. Aplastic Anemia Management, Haematocon 2024, 08 November 2024, Nagpur

Jasmita Dass

1. Case studies in acute leukemia, HemaQuest: Navigating Hematology's Frontiers, Together! 8th Annual Conference of Eastern Hematology Group & 1st Annual Conference of Chhattisgarh Hematology Association, 12 April 2024, Raipur, Chhattisgarh
2. Nitty gritty of detecting M protein in diagnosis and follow up, HemaQuest: Navigating Hematology's Frontiers, Together! 8th Annual Conference of Eastern Hematology Group & 1st Annual Conference of Chhattisgarh Hematology Association, 13 April 2024, Raipur, Chhattisgarh
3. Oral paper judge, HemaQuest: Navigating Hematology's Frontiers, Together! 8th Annual Conference of Eastern Hematology Group & 1st Annual Conference of Chhattisgarh Hematology Association, 14 April 2024, Raipur, Chhattisgarh
4. Panel design, *UPHGCON Workshop topic: Flowcytometry (Leukemia and Lymphoma)*, 26 April 2025, Lucknow, India
5. T-cell lymphomas, *UPHGCON Workshop topic: Flowcytometry (Leukemia and Lymphoma),* April 2025, Lucknow, India
6. Flowcytometry Approach to CLPD's: Case based, *UPHGCON Workshop topic: Flowcytometry (Leukemia and Lymphoma),* 27 April 2025, Lucknow, India

7. Flow cytometry in T - CLPDs, FACSMaster leukemia/lymphoma immunophenotyping, 21 May 2025, Delhi, India
8. Practical experience with Lyric, *FACS Lyric user group meeting*, 04 July 2025, Mumbai, Maharashtra
9. Updates in the diagnosis of LA, 7th Coagulation masterclass, 26 September 2024, Vellore, Tamil Nadu
10. Classification and molecular risk stratification of MDS, ISMPO-CON 2024, 18 Octuber 2024, Delhi, India
11. Acute leukemia immunophenotyping in workshop on flow cytometry for the diagnosis of Acute and chronic leukemias, Haematocon 2024, 07 November 2024, Nagpur, India
12. AML Diagnosis using WHO 2022 in the Indian Settings, Haematocon 2024, 08 November 2024, Nagpur, India
13. Post doctoral quiz master, Haematocon 2024, 09 November 2024, Nagpur, India
14. NHQ 2024 Quiz master, Haematocon 2024, 10 November 2024, Nagpur, India
15. Panel designing: What should be included in my panel for leukemia and lymphomas, APCON 2024, 11 December 2024, Cuttack, Orissa
16. Approach to T-cell lymphomas, APCON 2024, 11 December 2024, Cuttack, Orissa
17. Troubleshooting for cell counters, APCON 2024, 15 December 2024, Cuttack, Orissa
18. Quiz master for the National Myeloma quiz, IMAGe annual congress, 11 January 2025, Kolkata, West Bengal
19. Fundamentals of T-ALL MRD by flow cytometry and case studies, MRD in Acute leukemia and myeloma workshop, 17 January 2025, Vellore, India
20. Panel discussion on AML MRD, MRD in Acute leukemia and myeloma workshop, 19 January 2025, Vellore, India
21. Diagnostic approach to SCD in India at Field and Institutional level, Updates on Point-of-Care testing for SCD, National Trainers workshop in Sickle cell disease organized by the ministry of tribal affairs, 21 January 2025, Delhi, India
22. Learning through interesting cases (Panel discussion), National Hematology Update-XIII, 01 February 2025, Delhi, India
23. Panel discussion on WHO classification, Raktvigyan, 09 February 2025, Patna, Bihar
24. CCT-when and what test to order, Coagulation in Trauma, 08 March 2025, Lucknow, India
25. Clot waveform analysis, Advanced coagulation tests, 08 March 2025, Lucknow, India
26. Approach to T-ALL MRD and live demo of T-ALL cases, Measurable residual disease in Acute Lymphoblastic Leukemia, 9 January 2024, Puducherry
27. When you acquire a malady, 1st H2H Coagulometer Conclave with Dr. Steve Kitchens, 2 March 2024, Vellore
28. A few interesting and challenging cases of suspected APS, 1st H2H Coagulometer Conclave with Dr. Steve Kitchens, 1 March 2024, Vellore
29. FCM in T- cell Lymphomas - Case based studies, 25th INDO-US FCM Workshop - Flow cytometry and its applications in Clinical Diagnostics, 3 February 2024, Lucknow
30. Panel Designing - Details of Antibodies and Fluorochrome, 25th INDO-US FCM Workshop - Flow cytometry and its applications in Clinical Diagnostics, 2 February 2025, Lucknow
31. Clonality assays for B and T cells, 25th INDO-US FCM Workshop - Flow cytometry and its applications in Clinical Diagnostics, 2 February 2025, Lucknow
32. Flowcytometric case studies of ALL, Indian Leukemia Academy Gurukul, 21 January 2025, Faridabad
33. Approach to B-ALL MRD, Measurable residual disease in Acute Lymphoblastic Leukemia, 8 January 2025, Puducherry

Mukul Aggarwal

1. Monoclonal Gammopathy-When is it significant?, ISHBT masterclass, 24 April 2024, Virtual
2. Time limited and MRD guided treatment of CLL, Uttar Pradesh Hematology Group (UPHGCON-2024), 27 – 28 April 2024, Lucknow, UP

3. Panel discussion- Multiple myeloma: maintenance therapy in 2024, Mumbai Hematology group, 5 May 2024, Virtual
4. Panel discussion: Thalassemia and you: From Policies to Practice, SFM World Thalassemia Day Webinar, 8 May 2024, Virtual
5. Case discussion: Persistent Battles: Managing Steroid-Refractory PRCA and CMV in Post-Transplant Cytopenia in AML, CGR in BMT, 16 May 2024, Virtual
6. Treatment strategies in low-risk MDS, Oncology Conundrums: Navigating Complex Clinical Scenarios. 17–19 May 2024, N Delhi
7. Choice of Conditioning regimens in Haplo- BMT in AML Hematology Conclave 2024, 1–2 June 2024, N Delhi
8. Panelist: Case-Based Panel Discussion - Salvage Regimen in ALL Hematology Conclave 2024, 1 – 2 June 2024, N Delhi
9. Chairperson: Session on GVHD, Hematology Conclave 2024, 1 – 2 June 2024, N Delhi
10. Masterclass in T ALL, 4 June 2024, N Delhi
11. Panelist: Future of CAR-T Cell Therapy, Onco Connect 2024, 15-16 June 2024, Delhi
12. Panelist, Sickle Cell Disease Landscape in India, 18 June 2024, Virtual
13. Thrombophilia and recurrent pregnancy loss, FOGSI: "Expert Crosstalk Series, 18 July 2024, Virtual
14. Public Health Laboratories, NIHFW, 24 July 2024, Delhi
15. Panel discussion- How do I risk stratifying myeloma in 2024?, Mumbai Hematology group, 27 July 2024, Virtual
16. Hematology Passport in APMU, National Dope testing lab, 8 August 2024, Delhi
17. Non-Factor therapies, Northeast Hemophilia Conclave, 10-11 August 2024, Agartala
18. Pediatric AML, Hematology Conclave, Annual conference of Delhi Hematology Consortium, 17-18 August 2024, Delhi
19. Practical Approach to Management of Hemophilia A & B Patients.Department of Pediatrics, DDU hospital, 22 August 2024, Delhi
20. Inhibitor Management in Hemophilia: Rapid Bleed Control with rFVIIa. Learning from Real-Life Cases: rFVIIa Use in Inhibitor Patients, Department of Pediatrics, DDU hospital, 22 August 2024, Delhi
21. Quiz- quiz master, State round of National Hematology, 24 August 2024, Jodhpur
22. Panel discussion- hereditary erythrocytosis, Mumbai Hematology group, 25 August 2024, Virtual
23. Panel discussion- Hereditary Hemorrhagic Telangiectasia: advances in therapies, Mumbai Hematology group, 31 August 2024, Virtual
24. Diagnosis and management of VWD, National Hemophilia Meeting, 5-7 September 2024, Bengaluru
25. Quiz- quiz master, Young Hematology Orientation Program, 14 September 2024, Lucknow
26. DLBCL, RGCI, 23 September 2024, Webinar
27. Laboratory Organization and Management, Training Course on "Epidemic Preparedness and Management, 24 September 2024, Delhi
28. Cancer associated thrombosis.Mid-term CME of Mumbai Hematology Group, 27-29 September 2024, Mumbai
29. Panel discussion:Mid-term CME of Mumbai Hematology Group, 27-29 September 2024, Mumbai
30. Low-risk MDS Mid-term CME of Mumbai Hematology Group, 27-29 September 2024, Mumbai
31. Chairperson: Hodgkin Lymphoma Mid-term CME of Mumbai Hematology Group, 27-29 September 2024, Mumbai
32. Chairperson: T cell lymphoma Mid-term CME of Mumbai Hematology Group, 27-29 September 2024, Mumbai
33. Checkpoint Inhibitors Based therapy in HL, 8th Annual IBCC & Precision Oncology 2024, 4 October 2024, Jaipur
34. Practical Approach to Management of Hemophilia A & B Patients.Department of Pediatrics and orthopedics, 10 October 2024, Faridabad

35. Inhibitor Management in Hemophilia: Rapid Bleed Control with rFVIIa. Learning from Real-Life Cases: rFVIIa Use in Inhibitor Patients, Department of Pediatrics and orthopedics, 10 October 2024, Faridabad
36. Surgical interventions in patients with platelet function disorders. IAHAD 29th Webinar Series, 11 October 2024, Webinar
37. Management of Aplastic Anaemia not fit for BMT. BMT in Aplastic Anaemia, Annual conference NEHCON, 18-20 October 2024, Kaziranga
38. Newer Management Strategies in LR-MDSHaematocon 2024, 8-10 November 2024, Nagpur
39. Quiz master- National Hematology quiz for PG Haematocon 2024, 8-10 November 2024, Nagpur
40. Quiz master- National Hematology quiz for PGT/DM Haematocon 2024, 8-10 November 2024, Nagpur
41. Session on Hemophiliac Chairperson Haematocon 2024, 8-10 November 2024, Nagpur
42. Role of critical care medicine in hematology, Haematocon 2024, 8-10 November 2024, Nagpur
43. Panel discussion- Advances in the management of DLBCL, Mumbai Hematology group, 24 November 2024, Virtual
44. Interactions of Cu and Fe in anemia, 29 November 2024-1 December 2024, Delhi
45. Practical Approach to Management of Hemophilia A & B Patients. Department of Pediatrics and orthopedics, 5 December 2024, Palwal
46. Inhibitor Management in Hemophilia: Rapid Bleed Control with rFVIIa. Learning from Real-Life Cases: rFVIIa Use in Inhibitor Patients, Department of Pediatrics and orthopedics, 5 December 2024, Palwal
47. Overview of Rare Bleeding Disorders, Hemosphere – Best of 2024, 14-14 December 2024, Bengaluru
48. Surgery in Patients with SCD- How to handle?, National Trainers workshop in Sickle cell disease organized by the ministry of tribal affairs, 21 January 2025, Delhi, India
49. Hematology Passport in APMU, National Dope testing lab, 29-30 January 2025, Delhi
50. Case Discussion - Learning through interesting case NHU XIII, 31 January – 2 February 2025, Delhi
51. Workshop on central line insertion NHU XIII, 31 January – 2 February 2025, Delhi
52. Optimizing PNH treatment: Navigating challenges and triumphs, BESHCON, 14-16 February 2025, Kolkata
53. Approach to Peripheral smear, OPGGT, 13 March 2025, Virtual
54. Panel discussion- Myelodysplastic syndrome - an update, Mumbai Hematology group, 16 March 2025, Virtual
55. AML- panel discussion, RGCI, 19 March 2025, Virtual
56. Panel Discussion: Ask the STAMP Experts Hematology Express 2025 (ESSENCE FROM ASH 2024), 22-23 March 2025, Jaipur
57. Panel Discussion on: CAR T Cell Therapy -New Kid on The Block How Far we Have Come Hematology Express 2025 (ESSENCE FROM ASH 2024), 22-23 March 2025, Jaipur
58. Single-agent mosunetuzumab produces high complete response rates in patients with newly diagnosed follicular lymphoma: Primary analysis of the MITHIC-FL1 trialHematology Express 2025 (ESSENCE FROM ASH 2024), 22-23 March 2025, Jaipur
59. Panel Discussion based on lymphoma abstracts, Hematology Express 2025 (ESSENCE FROM ASH 2024), 22-23 March 2025, Jaipur
60. Moderator – panel discussion, STEMconnect - The Role of Letermovir, 26 March 2025, Delhi
61. Evolving landscape and role of Gilteritinib FLT3+ RR AML, Onco-Pulse 2025, 29-30 March 2025, Delhi
62. Panel discussion- ABC of Molecular Hematologyfor the Clinicians, Mumbai Hematology group, 30 March 2025, Virtual

Ganesh Kumar V

1. Approach to B-lymphomas by flow cytometry, APCON 2024, 11 December 2024, Bhubaneshwar, Orissa
2. Laboratory evaluation of IBMFS in the NGS era. What tests to order?, Haematocon 2024, 10 November 2024, Nagpur

3. Immunophenotypic approach to B-CLPDs, TCS2024, 11 October 2024, Mumbai
4. Peripheral blood smear examination with Romanowsky stains, 11th Basic Hematopathology Course, 21 June 2024, Mumbai

Pradeep Kumar

1. Ph positive &Ph like ALL - management, RAH2024 (Recent Advances in Hematology 2024), 6 – 7 April 2024, N Delhi
2. Update on low-risk MDS, Uttar Pradesh Hematology Group (UPHGCON-2024), 27 – 28 April 2024, Lucknow, UP
3. Treatment strategies in low-risk MDS, Oncology Conundrums: Navigating Complex Clinical Scenarios. 17 – 19 May 2024, N Delhi
4. Case-Based Panel Discussion on Salvage regimen in RR Hodgkin lymphoma, Hematology Conclave 2024, 1 – 2 June 2024, N Delhi
5. CMPN Management- What Every physician should know, Annual conference of Hematology foundation of Bihar "RAKTAVIGYAN", 10 – 11 August 2024, Patna, Bihar
6. Panel Discussion: Optimizing outcomes in newly used SAA, Hematology Conclave, 17 – 18 August 2024, N Delhi
7. Panel Discussion: Managing High Risk CLL, Hematology Conclave, 17 – 18 August 2024, N Delhi
8. Panel Discussion: ALL & BMT, Essence of ASH, 4 January 2025, N Delhi
9. Panel discussion: "Distinguishing constitutional from acquired bone marrow failure", 48th Annual conference of MHG, 24 – 26 January 2025, Mumbai, Maharashtra
10. When does low-risk MDS require aggressive treatment, 48th Annual conference of MHG, 24 – 26 January 2025, Mumbai, Maharashtra
11. Case Discussion, NHU XIII, 31 January – 2 February 2025, N Delhi

Dr Richa Chauhan

1. "Factor assay", Sixth Hematology Update, 10 February 2024, Jodhpur
2. Lab approach to a case of cryoglobulinemia, Hematocon 2024, 9 November 2024, Nagpur
3. Panel discussion on Choosing wisely - genetic testing tools in work up of hematological malignancy, Hematocon 2024, 7 November 2024, Nagpur
4. Post doctoral National Hematology Quiz for Central Zone along with Drs Aditi (VMMC & Safdarjung) and Tribikram (RGCI), Zonal Round for Hematocon 2024 NHQ, 19 October 2024, New Delhi
5. Session XII: Learning through interesting cases (Panel discussion), National Hematology Update XIII, 1 February 2024, New Delhi
6. Update on diagnosis of Myelodysplastic neoplasm- Practical issues, Sixth Hematology Update, 11 February 2024, Jodhpur

List of oral papers/posters presented

1. Kannan M, Maharana S, Roy CL, Siddiqui F, Ranjan R, Fareed J, Mahapatra M, Saxena R, RIP3-Mediated Programmed Cell Necrosis in Platelets of Immune Thrombocytopenia Purpura, ASH 2024, 7-10 December 2024, San Diego, Ca, USA
2. Kannan M, Roy CL, Siddiqui F, Lacobelli M, Ranjan R, Mahapatra M, Saxena R, Fareed J. The Influence of Coagulation Factor Biosimilars in Shortening the Activated Partial Thromboplastin Time in Patients with Hemophilia a, ASH 2024, 7-10, December 2024, San Diego, Ca, USA
3. Comparison of Coagulation Factor VIII Biosimilars (Kogenate FS Vs NovoEight) in Altering Prothrombin Time, activated Partial Thromboplastin Time, and levels of Factors VII and VIII in Hemophilia A, ISTH 2024 congress, 22-26 June 2024, Bangkok, Thailand
26. Kannan M, Roy C, Siddiqui F, Lacobeli M, Ranjan R, Behera S, Gopalan N, Mahapatra M, Saxena R, Fareed J. Evaluation of Coagulation Factor VII Biosimilars (AryoSeven Vs NovoSeven) in Modulating Prothrombin Time, activated Partial Thromboplastin Time, and levels of Factors VII and VIII in Hemophilia A, ISTH 2024 congress, 22-26 June 2024, Bangkok, Thailand
27. Sharma A, Singh S, Ranjan R, Ramaraje Urs S, Dass J, Aggarwal M, Kumar GV, Oldenburg J, Biswas A. Mahapatra M. Interpretation, Understanding the burden of clinically actionable yet severe pathogenic variants of F13A1 (FXIII deficiency): From Detection to Variant, ISTH 2024 congress, 22-26 June 2024, Bangkok, Thailand
28. Kannan M, Maharana S, Roy C, Ranjan R, Fareed J, Mahapatra M, Saxena R, Elevated calcium and Depolarized mitochondrial membrane potential of ITP platelets. ISTH 2024 congress, 22-26 June 2024, Bangkok, Thailand
29. Pandey H, Ranjan R, Dass J, Aggarwal M, Kumar GV, Dhawan R, Kumar P, Seth T, Mahapatra M. Evaluate the role of Factor V Leiden G1691A, Prothrombin G20210A and MTHFR C677T polymorphism on Indian sickle cell disease patients: A tertiary care experience, ISTH 2024 congress, 22-26 June 2024, Bangkok, Thailand
30. Ranjan R, Sharma A, Pandey H, Chauhan R, Kumar P, Kumar GV, Dass J, Aggarwal M, Dhawan R, Seth T, Mahapatra M. Importance of inherited thrombophilia screening in recurrent pregnancy loss, ISTH 2024 congress, 22-26 June 2024, Bangkok, Thailand

RESEARCH

Funded projects

Ongoing

1. ISHTM-AIIMS External Quality Assurance Program for Hemogram, Dr. M Mahapatra, ISHBT, 2005 onwards, 2005-2025, Rs 80 Lakhs/year (approx.)
2. A Randomized Open-Label, Phase 3 Study to Evaluate Imetelstat (GRN163L) Versus Best Available Therapy (BAT) in Patients with Intermediate-2 or High-risk Myelofibrosis (MF) Refractory to Janus Kinase (JAK)-Inhibitor, Dr. M Mahapatra, Geron Pharma, 5 years, 2021-2026, Rs 4 lakhs/ patient enrolled
3. A phase IIIb multicenter randomized study of tolerability and efficacy of oralasciminib versus nilotinib in patients with newly diagnosed Philadelphia chromosome positive chronic myeloid leukemia in chronic phase. Dr. M Mahapatra, Novartis, 3 years, 2023-2025, Rs 5 lakhs/ patient enrolled

4. A phase 3 randomized double-blind study to assess efficacy and safety of Ianalumab (VAY736) versus placebo in warm autoimmune hemolytic anemia (wAIHA) patients who failed at least one line of treatment (VAYHIA), Dr. M Mahapatra, Novartis, 3 years, 2023-2025, Rs 7 lakhs/ patient enrolled
5. Elucidation of molecular genetics of triple negative myeloproliferative neoplasm, Dr. Seema Tyagi/Dr Suman Lata, DST, 3 years, 2021-2024, Rs 69,50,120
6. A study on Thalassemia Awesome, Screening and Counseling among Young Adult of Delhi and NCR (India), Dr. Seema Tyagi/Dr. Ravi Ranjan, ICMR, 3 years, 2022-2025, Rs 21,65,257
7. Efficacy and safety of concizumab prophylaxis in patients with Hemophilia A and B with Inhibitors. Dr Tulika Seth, Novo-Nordisk Pvt. Ltd. 2020-2025, -
8. A Phase II, open label study of NM8074 in patients with Paroxysmal Nocturnal Hemoglobinuria (PNH), Dr Tulika Seth, NovelMed Therapeutics, 2 years, 2022-2024, -
9. An integrated phosphoproteomic and blood-based miRNA profiling to predict high risk MDS and its progression to AML and to explore the role of inflammation in disease progression Dr T Seth, DHR, 3 years, 2024-2026, Rs 11,64,614
10. Impact of Transplant Conditioning Regimen Intensity on Gut Microbiota Changes in Patients Undergoing Hematopoietic Cell Transplantation, Rishi Dhawan, AIIMS Intramural, 4 years, 2022-2025, Rs Ten Lacs
12. Genome-Wide Association Study in an Indian Cohort of Patients with Acquired Aplastic Anemia, Rishi Dhawan, American Society of Hematology Global Research Award 2021, 3 years, 2022-2024, Rs 1.12 Crores
13 CRISPR Mediated Genetic Correction of Sickle Cell Disease Towards Clinical Trials in a Small Patients Cohort, Rishi Dhawan, Department of Science and Technology, 5 years, 2022-2027, Rs 60 Crores
14. Study of B-cell subsets and NK cell subsets in patients of acquired Aplastic anemia, Dr. Jasmita Dass, AIIMS Early career intramural, 2 years, 2023-2024, Rs 10 lakhs
15. Assessment of hemostatic parameters and platelet function in patients with chronic kidney disease, Dr. Jasmita Dass, Dr. Arun Kumar, AIIMS Interdisciplinary collaborative project grant, 1+ years, Approved September 2024-2026, Rs 20 lakhs
16. To study whether the levels of Tissue factor pathway inhibitor (TFPI) and its polymorphisms influence bleeding severity in moderate and severe Hemophilia A patients. Dr. Mukul Aggarwal, AIIMS Early career intramural, 2 years, 2023-2024, Rs 10 lakhs
17. To assess recombinase polymerase amplification-based diagnosis of sickle cell disease. Dr. Mukul Aggarwal, CSIR, 1 year, 2023-2024, Rs 10 lakhs
18. Evaluate the effect of Dexamethasone vs. prednisolone on ocular toxicity induced by systemic cytarabine arabinoside (Ara-C) in AML patients, Dr. Mukul Aggarwal, AIIMS Intramural Interdepartmental research grant, 3 years, 2023-2026, Rs 20 lakhs
19. Anemia: Exploring the role of vitamin D, essential elements and lifestyle in Indian population. Dr Mukul Aggarwal, ICMR, --, --, --
20. Comparative study of digital droplet polymerase chain reaction (dd-PCR) and quantitative real time polymerase chain reaction (qRT-PCR) for BCR-ABL1 transcript quantitation in chronic myeloid leukemia (CML) patients on tyrosine kinase inhibitor (TKI therapy) and eligible for treatment free remission (TFR), Dr. Ganesh Kumar V, AIIMS Early career intramural, 2 years, 2023-2024, Rs 10 lakhs
21. Structural variations and copy number alterations in adult immune aplastic anemia, Dr Ganesh Kumar V, Aplastic Anemia MDS International Foundation, 2 years, 2025-2027, Rs 51,00,000
22. Assessment of BCL-2 expression in B-Acute lymphoblastic leukemia at diagnosis and after therapy for minimal residual disease assessment, Dr. Pradeep Kumar, AIIMS Early career intramural, 2 years, 2023-2024, Rs 10 lakhs
23. To study the clinico – hematological profile of patients with low – risk myelodysplastic neoplasm having features of systemic inflammation and to examine the occurrence of somatic mutation in UBA – 1 gene in this patient subset, Dr Richa Chauhan, AIIMS early career interdisciplinary, 2 years, 2024-2026, Rs 10 lakhs

Completed

1. Mitigation of clinical phenotype by activated platelets in severe Haemophilia, Dr. M Mahapatra, DBT, 3 years, 2019-2023, Rs 8 lakhs

2. Burden of vaso-occlusive pain crisis: A cross-sectional observational study among patients with sickle cell disease in India (B-VOCAL STUDY), Dr Tulika Seth, Novartis, 3 years, 2021-2023, NIL
3. Phase 4, Multicenter, Prospective, Interventional, Post-Marketing Study in Hemophilia A Patients in India Receiving ADVATE as On-Demand or Prophylaxis Under Standard Clinical practice. Dr Tulika Seth, Takeda, 3 years, 2021-2023, NIL
4. To assess the utility of artificial intelligence and machine learning to predict cancer associated venous thromboembolism and compare it with existing biomarkers and prediction scores, Dr Mukul Aggarwal, ICMR, 1 year, 2022-23, Rs 17.6 Lakhs
5. To Evaluate the effect of Dexamethasone vs prednisolone on ocular toxicity induced by systemic CYTARABINE ARABINOSIDE (ARA-C) in AML patients. Dr. Mukul Aggarwal, AIIMS Interdisciplinary Collaborative Intramural Research Project, 1 year, 2022-2023, Rs 10 lakhs
6. Efficacy and safety of concizumab prophylaxis in patients with Hemophilia A and B with Inhibitors. Dr. T Seth, Novo Nordisk Pvt. Ltd. Start date 1 August 2020 End Date:1 July 2025,
7. Strengthen and standardize the national referral training centers in India, Dr Tulika Seth, NNHF (global NGO), 2020-2023

Departmental projects (including thesis/dissertations)

Ongoing

1. Evaluate the role of HbF modulating gene polymorphism in sickle cell disease patients
2. Next generation deep sequencing to analyse mutations in the BCR-ABL1 kinase domain and elsewhere in Indian chronic myeloid leukemia patients with tyrosine kinase inhibitors
3. Prevalence of common variable immunodeficiency and autoimmune lymphoproliferative disorder in autoimmune hemolytic anemia/Evans syndrome and their impact on clinical outcomes
4. Central nervous system hemorrhage and thrombosis in acute promyelocytic leukemia
5. Identification and quantification of Myeloid-derived suppressor cells in Precursor B cell acute lymphoblastic leukemias by flow cytometry
6. Global longitudinal staring pattern as a measure of cardiac dysfunction in patients receiving 7 plus 3 for AML
7. Clinical profile, treatment patterns and quality of life in cancer patients with venous thromboembolism
8. Analysis of CD9 expression in AML by flow cytometry: Prognostic role, correlation with clinicopathological parameters, cytogenetics and mutation profile.
9. Evaluation of response rate after early initiation of eltrombopag with cyclosporine in treatment naive severe aplastic anemia patients compared to historical cohort. A pilot study
10. Flow cytometric detection of leukemic blasts in CSF in ALL patients with CNS stage 1 disease and monitoring the efficacy of standard Intrathecal methotrexate in them
11. Expression Of Basophil-Lineage Commitment Marker CD203c In Acute Promyelocytic Leukemia And Its Correlation With Disseminated Intravascular Coagulation (Dic) Profile
12. Addition of bortezomib to standard multiagent induction chemotherapy in ALL patients increases their EOI MRD negativity rates
13. Azacytidine and Venetoclax followed by HiDAC consolidation in Previously Untreated Acute Myeloid Leukemia patients unfit for intensive chemotherapy
14. To study the predictors of response to thalidomide in patient with transfusion dependent thalassemia
15. A study of anti-phosphatidylserine/anti-prothrombin IgG antibodies as a tool to improve diagnosis of antiphospholipid antibody syndrome (APS)
16. Study of molecular basis of idiopathic erythrocytosis
17. Assessment of biochemical response and correlation with PET/CT scan response at 6 months in newly diagnosed multiple myeloma patients on different induction chemotherapy protocols
18. To study the efficacy of metformin as an anti-hyperglycemic agent in patients requiring insulin therapy during the induction phase of acute lymphoblastic leukemia treatment.

19. An open label Randomised Study of Low Dose Dasatinib (50mg OD) vs Standard Dose Dasatinib (100mg) vs Standard Dose Imatinib (400mg) as Upfront Therapy in Patients with Newly Diagnosed Chronic Myeloid Leukemia (CML) – Chronic Phase (CP)
20. Evaluation of the bleeding problems and severity and the psycho-social impact of being a carrier of hemophilia
21. Clinicopathological spectrum of Renal Involvement in Patients with Myeloma
22. Activated Partial Thromboplastin Time – Clot Waveform Analysis (APTT-CWA) for evaluation of clotting function in Hemophiliacs – An observational study
23. Validating a flow cytometry-based G6PD assay for the diagnosis of G6PD deficiency
24. Comparative study of BCR-ABL1 kinetics in Philadelphia positive precursor B-cell acute lymphoblastic leukemia by droplet digital PCR, quantitative PCR and flowcytometric estimation of measurable residual disease
25. An explorative study to assess the prevalence of heavy metal level abnormality in patients presenting with unexplained cytopenia and low risk MDS
26. A phase 2 feasibility study of combining Dasatinib with Multiagent BFM Chemotherapy backbone in adult patients with Philadelphia chromosome positive acute lymphoblastic leukemia
27. Detection of CXCR4, MYD88 and BRAFV600E in CD5 and CD10 negative mature B cell lymphoid neoplasm using multiplex PCR- a cross-sectional study.
28. To assess rs2302464 polymorphism as an explanation for CD157 negative cases as determined by flow cytometry using SY11B5 antibody clone
29. Clinical Utility of droplet digital PCR to detect BCR:ABL1 kinase mutation in patients with Philadelphia-positive Acute lymphoblastic leukemia
30. To assess rs2302464 polymorphism as an explanation for CD157 negative cases as determined by flow cytometry using SY11B5 antibody clone.
31. Activated Partial Thromboplastic Time – Clot Waveform Analysis (APTT-CWA) for evaluation of clotting function in Hemophiliacs – An observational study
32. Validating a flow cytometry-based G6PD assay for the diagnosis of G6PD deficiency
33. To study the role of PET CT scan in the evaluation of fever in neutropenic patients with hematologic diseases/ hematopoietic transplantation
34. Azacytidine and Venetoclax followed by HiDAC consolidation in Previously Untreated Acute Myeloid Leukemia patients unfit for intensive chemotherapy
35. To Study the Efficacy of Metformin as an Anti-Hyperglycemic Agent in Patients Requiring Insulin Therapy During the Induction Phase of Acute Lymphoblastic Leukemia Treatment
36. To study the prevalence of heavy metal level abnormalities in patients with low risk MDS and effect of supplementation/chelation on cytopenias.
37. Validating a flow cytometry-based G6PDassay for the diagnosis of G6PD deficiency
38. APTT Clot waveform analysis for evaluation of clotting function in hemophiliacs-An observational study
39. To assess rs2302464 polymorphism as an explanation for CD157 negative cases as determined by flow cytometry using SY11B5 antibody clone
40. Comparative study of BCR-ABL1 kinetics in Philadelphia positive precursor B-cell acute lymphoblastic leukemia by ddPCR, qPCR, and flow cytometric estimation of measurable residual disease.
41. Detection of CXCR4, MYD88, BRAFV600E in CD5 negative CD10 negative mature B lymphoid neoplasms using multiplex PCR- a cross-sectional study.
42. Immunophenotypic characterization of basophils in chronic myeloid leukemia by flowcytometry
43. STAT3 and STAT5B genetic mutations profile in cases of LGL Lymphocytosis and T/NK LGLL.

Completed

1. To assess utility of MPN 10 questionnaire for assessment of symptoms burden and quality of life) and assessment of various scoring systems being used in patients of myelofibrosis
2. Characterization of immunoparesis in newly diagnosed myeloma and its impact on progression-free and overall survival with regards to anti myeloma therapy

3. Analysis of Monocyte subsets by Multiparameter flow cytometry in peripheral blood in cases of Monocytosis
4. Study of the expression of GATA1 protein by immunohistochemistry in BCRABL negative myeloproliferative neoplasm.
5. Evaluation of programmed death- ligand1 (PD- L1)/CD274 expression on myeloblasts in acute myeloid leukemia (AML) by flow cytometry
6. Study of the role of thromboelastography in predicting risk of hemorrhage in patients with acute leukemia
7. Flow cytometry assessment of CD 26+ leukemia stem cells in chronic myeloid leukemia
8. Minimal residual disease analysis in acute myeloid leukemia by flow cytometry using a limited antibody panel
9. Correlation of endogenous thrombopoietin levels with response to thrombopoietin receptor agonists and assessment of serum LDH profile in adults with primary ITP
10. Evaluation of response to immunosuppressive therapy and eltrombopag in aplastic anemia
11. A study of Anti-Phosphatidylserine/Anti-prothrombin (Anti-PS/PT) IgG antibodies as a tool to improve diagnosis of Antiphospholipid antibody syndrome (APS)
12. Expression Of Basophil-Lineage Commitment Marker Cd203c in Acute Promyelocytic Leukemia and Its Correlation with Disseminated Intravascular Coagulation (DIC) Profile
13. To study the predictors of response to thalidomide in patients with transfusion dependent thalassemia (completed/ done).
14. Assessment of biochemical response and correlation with PET/CT scan response at 6 months in newly diagnosed multiple myeloma patient on different Induction chemotherapy protocols

Collaborative projects

Ongoing

1 A prospective multi-centric observational study on the role of blood coagulation and fibrinolysis in emergence of ARDS in patients with new coronavirus pneumonia (COVID-19) Safdarjung Hospital

2 Preclinical study of CRISPR-Cas mediated gene editing of globin gene locus in healthy donor derived CD34+ hematopoietic stem progenitor cells (HSPCs) in mouse models to develop a potential therapy for sickle cell anemia patients. IGIB and 5 other clinical centers in the country

4 Screening, classification, and clinical profile of patients with Anaemia and Diabetes mellitus. Medicine, AIIMS

5 Multicentric collaborative study of the National Registry for Rare Disorders in India Pediatrics, AIIMS

6 Venetoclax with chemotherapy for Remission induction in AML patients: a phase I-b/II study Medical Oncology, AIIMS

7 Effect of different vitamin D supplementation practices in vitamin D deficient mechanically ventilated patients with sepsis in a medical ICU on hemoglobin levels at day 0 and day 14 Internal Medicine, AIIMS Delhi

8 MYD88 L265P Mutational studies in characterization of unclassifiable mature small B cell lymphoid neoplasms Pathology, AIIMS Delhi

9 An open label randomized control trial to compare the outcomes with and without preoperative splenic artery embolization (SAE) in patients with moderate splenomegaly undergoing elective laparoscopic splenectomy. Surgery, AIIMS Delhi

10 Real Time PCR for Diagnosis of Invasive Fungal Infections Microbiology, AIIMS

11 To study the clinico-hematological profile of patients with low-risk myelodysplastic neoplasms having features of systemic inflammation and to examine theoccurrence of somatic mutation in UBA-1 gene in this patient subset. Department of Medicine, AIIMS

12 Assessment of hemostatic parameters and platelet function in patients with chronic kidney disease Department of Nephrology, AIIMS

Completed

1. Clinical and laboratory profile of patients with hyper eosinophilia presenting to a tertiary care center on north India, Department of Medicine

2. A population based prospective cohort study to unravel the causes of stroke and cognitive decline: a cross cultural perspective international co-operation division. AIIMS and Erasmus Medical Center Rotterdam, Netherlands, Clinical Epidemiology Unit, AIIMS
3. Role of platelet activation in the development of systemic inflammations in patients with type-2 diabetes, Endocrinology, AIIMS and Regional Centre for Biotechnology (RCB)
4. Identifying association of gene polymorphism and Prakriti in responders & non-responders to dual antiplatelet therapy in coronary artery disease patients. Cardiology, AIIMS
5. To evaluate the role of serum d-dimer, neutrophil: lymphocyte ratio, platelet: lymphocyte ratio and CA125 in assessment of ovarian masses. Obstetrics and Gynecology, AIIMS
6. Efficacy of intravenous iron therapy compared to oral iron treatment in iron deficient adult cyanotic, congenital heart disease patients for improvement in clinical outcome at 3 months. Cardiology, AIIMS
7. Prospective observational study to assess the prevalence of platelet refractoriness and its reasons in patients receiving multiple platelet transfusion in an Indian setting. Transfusion Medicine
8. Autoimmune Hemolytic Anaemia: Clinical and Serological correlation. Transfusion Medicine, AIIMS

PATIENT CARE

A. CLINICAL SERVICES

- **OPD/Clinics runs 6 days per week**:

  New Patients: on Monday/Wednesday/Friday

  CLINICS:

  1. Monday: CML, Haemato-oncology
  2. Tuesday: Stem cell Transplant Clinic
  3. Wednesday: Hemolytic anemias and ITP, CLPD
  4. Thursday: Coagulation and Bleeding clinic
  5. Friday: Aplastic anemia, CMPD clinics
  6. Saturday: Leukemia Survivor clinic census **in 2024-25:**

TOTAL OUTPATIENTS Census in 2024-25: 56170

- **New Patients:** **13740**
- **Follow up patients (H.No):** **6578**
- **Specialty CLINICs:**
  - **CML:** **6844**
  - **Transplant (HT)** **1856**
  - **ITP (HC)** **3504**

- **Hemolytic Anemia (HA) 2481**
- **Aplastic Anemia(AA) 3951**
- **Hemostasis(HS) 2422**
- **Leukemia survivor (HL) 630**
- **Leukemia (HO) 2914**
- **Lymphoma/Myeloma(CLPD) 2707**
- **CMPD 2846**
- **Miscellaneous (HM) 257**

- **In Patient care:**

i) Inpatients: C2, C6, D6, Emergency ward, Private wards

ii) Stem cell Transplant: 6-8 New Allogeneic transplants per month

iii) Hematology Day care: for procedures, chemotherapy and transfusion services

- **TOTAL INPATIENT census in 2024-25**

Regular admission – 6834

Short admissions: – 13740 (including OPD day Care)

Total Admissions: 20574

- **Community services**

The department has been active around thalassemia and hemophilia awareness with the help of Thalassemia federation of India and Hemophilia Federation of India.

LABORATORY SERVICES

The Department of hematology has state-of-the-art facilities as follows:

- Bone marrow aspirate, bone marrow biopsies and peripheral smears
- Immunohistochemistry
- Molecular genetics
- Hemolytic anemia workup
- Flow cytometry
- Capillary electrophoresis for hemoglobinopathies
- Coagulation workup for inherited and acquired bleeding disorders
- Platelet aggregometry
- Thrombophilia workup
- Prenatal diagnosis of Hemophilia and hemoglobinopathies

Census of various laboratories (2024-2025)

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Dr. M Mahapatra

1. Selected as Bhagawan Birsa Munda Chair of Tribal Health and Hematology
2. Received Professor J.B.Chatterjea Memorial Oration Award by Bengal Society of Hematology
3. Became President of Delhi Society of Hematology (DSH)
4. Became the Vice-President of Indian Society of Hematology and Blood Transfusion (ISHBT)
5. Member of Technical Expert committee of National Institute of Biologicals (NIB)
6. Organizing Chairperson at 13th National Hematology Update in January-February 2025, at New Delhi
7. International Member of European Society of Hematology (EHA)
8. International member of International society of thrombosis and hemostasis (ISTH

Dr. Tulika Seth

Elected position

- North zone EC member PHO Chapter of Indian Academy of Pediatrics 2024-current
- EC member IAHAD (Indian academy for hemophilia and allied disorders.
- **Posts at AIIMS**
- Member Institute Ethics Committee for Postgraduates, AIIMS, New Delhi
- Member subcommittee to assist ethics committee with monitoring adverse events for clinical trials (AIIMS, New Delhi)
- Member Library committee AIIMS
- **Other positions**
- Governing body member of Delhi School of Public Health (DSPH)
- National board of examiners (NBE) Specialist Member for Hematology
- Member National centre of excellence and advanced research on anemia control (NCEAR-A)
- Member National Consortium for Research and Development on therapeutics for Rare Diseases (NCRDTRD)-Hematology expert group
- Member JNU stem cell ethics committee IC- SCR
- Gazette India disability guidelines blood disorders- notification 12 March 2024

- Chairperson
- Technical advisory committee meeting XXVIII -IIPS National seminar 2024 12-13 February 2024 Varanasi

Dr. Mukul Agarwal

1. Working as Hematology expert for Athlete biological passport management unit (ABPU) with National Anti-doping agency (NADA), India and with Anti Doping Laboratory, Tokyo
2. Working as Hematology expert for Athlete biological passport management unit (ABPU) with National Dope Testing Laboratory (NDTL), India and New Delhi APMU
3. Hematology faculty at Medical Camp at Leh, organized by Ashoka Mission.
4. National coordinator for National Hematology Quiz 2024
5. Section Editor - Hematology for the journal Indian Pediatrics
6. Associate Editor- Indian Journal of Hematology and Blood Transfusion
7. Chairperson of Bone marrow failure subcommittee of INPHOG.
8. Scientific secretary for National Hematology Update 13 at New Delhi
9. Scientific secretary for 33rd Annual Conference of Delhi Society of Hematology at New Delhi.
10. Organizing Secretary for first collaborative CME on High Altitude, Aerospace and Marine Medicine at New Delhi.
11. Section editor: Hematology. PG Textbook of Pediatrics for Postgraduates, 4th edition.

Visiting scientist:

1. Dr Mark Levis, Professor of Oncology and the Director of the Adult Leukemia Service and Co-Director of the Division of Hematologic Malignancies at the Sidney Kimmel Comprehensive Cancer Center at Johns Hopkins School of Medicine, Baltimore, USA delivered a lecture on "Role of Gilteritinib in FLT 3 mutation in AML: An Update" on 5 April 2024
2. Dr. Nicholas Short, Faculty at the MD Anderson cancer center, Texas, USA delivered a lecture on "Evolving Landscape of Acute lymphoblastic leukemia" on 11 May 2024
3. Dr Pankay Qasba, Scientist at the National Institutes of Health, Bethesda, USA delivered a lecture on 8 October 2024.

Comparison with previous years

	Sub-types	2022–23	2023–24	2024–25
Number Of students/trainees registered in the department	DM Clinical Hematology and Hematopathology	25	25	25
Number of oral presentations and posters		18	14	54
Number of different types of publications		40	41	191

9.17 Hospital Administration

Professor and Head

Sidhartha Satpathy

Medical Superintendent

DK Sharma	Nirupam Madaan
(Dr RP Centre)	(Main Hospital)

Professors

Sanjay Arya	AartiVij
Amit Lathwal	Mahesh R

Additional Professors

Angel Rajan Singh	Parmeshwar Kumar
Vijaydeep Siddharth	Abdul Hakim Choudhary

Associate Professors

Jitender Sodhi	Laxmi Tej Wundavalli
Sheetal Singh	Vikas H

Assistant Professors

Kanika Jain	Anant Gupta
Arun Verma	Namrata Makkar
Khalid Mehmood	Mohd Kausar
Rahul Ranjan	Nishant Sharma
	Kshitija Singh

EDUCATION:

The Department is running a postgraduate degree program for medical graduates, viz. MD(HA), earlier known as MHA (Masters in Hospital Administration). This course was started in February 1966, for the first time in India and has since been recognized as a distinct postgraduate discipline. In January 2016, this course has been converted to MD (Hospital Administration) in accordance with decision of Academic Committee (AC-113/10) duly ratified by GB (GB-152/7) during its meeting held on 13 April 2015. The Residency Program in Hospital Administration focuses on 'hands on' training, where Resident Administrators are posted in the 'Administrative Control Room' of main hospital, Jai Prakash Narayan Apex trauma center, and National Cancer Institute, Jhajjar campus round the clock as 'Duty Officers', and coordinate all the hospital activities after duty hours. It is also the nerve center of the Hospital/centers. The Department also has Senior Residents who are posted in the Main Hospital and various centers for assisting Faculty members in administrative tasks. They are also involved in new projects at AIIMS.

Faculty members conducted several training programmes for the doctors working in various organizations including Central, State Governments, Paramilitary Forces and in various PSUs such as IICM, Ranchi and also other management institutes.

LONG AND SHORT TERM TRAINING:

1. MD (HA) Residents from Sher-I-Kashmir Institute of Medical Sciences, Srinagar
2. MD(HA) Residents from BPKIHS, Dharan, Nepal
3. MD(HA) Residents from Gandhi Medical College, Secunderabad, Telangana
4. MD(HA) Residents from AFMC, Pune
5. MD(HA) Residents from PGIMER, Chandigarh
6. ITBP, Medical Officers from Govt of India, Dy Director (Medical), ITBP

CONTINUING MEDICAL EDUCATION

RESEARCH

Departmental projects (including thesis/dissertations)

Ongoing

1. A Study of Workload Indicator of Staffing Needs(WISN) at Outpatient Services under Employee Health Scheme of AIIMS, New Delhi,
2. A Study of variations in decision making patterns and stress levels in clinicians, pre/para clinicians and administrative medical professional
3. Analysis of Procurement Digital Library and its impact on procurement of goods of AIIMS, New Delhi
4. A study to assess compliance status of In-patient medical records of a tertiary care teaching hospital in New Delhi as per NABH accreditation standards
5. Assessment of Patient understanding of OPD Card and Discharge Summary: A need Assessment study to improve organizational Health Literacy.
6. Evaluation of Patient Satisfaction with Inpatient Services offered at the Trauma Care Facility.
7. Evaluation of Discharge process and analyzing the delays of discharge at JPNATC
8. Challenges and learnings of NABH certification at JPNATC
9. Assessing the Health Care Package utilization in BPS under PMJAY and its barriers and facilitators
10. Creation of Center of Excellence with ICMR Collaboration at BPS
11. Impact of Modifications in Tender Conditions on Participation and Effective Contracting in Drug Tenders in a Tertiary Care Hospital
12. Optimising staffing levels of Operation Theatre Technical Staff using Workload Indicators of Staffing Norms
13. Evaluation of the Hospital Discharge Protocol in an Acute care setting: Insights from Trauma Centre, North India
14. To study the implementation of procurement process as per GFR, 2017 and its amendments in medical equipment across AIIMS, New Delhi.
15. To study the scope of implementing sustainable practices at a tertiary care teaching institute in New Delhi.
16. A study to assess the capacity of select components of the medical gas pipeline system of a tertiary care teaching hospital in North India
17. Relocation of Emergency Department in a Tertiary Care Teaching Hospital: Ensuring Seamless Transition and Service Continuity
18. Patient engagement in Geriatric care at AIIMS, New Delhi.
19. Knowledge, awareness of Health care worker reg. POSH Act, 2013
20. A study on Professional Fulfilment, Intention to Leave and Attrition among the Resident Doctors at AIIMS, New Delhi
21. A study on patient centered care in tertiary care hospitals across India
22. A Study Capturing Out-of-Pocket Expenditure (OOPE) in a Tertiary Healthcare Organization in India
23. Application of AI in Hospitals

Completed

1. Hybrid method of teaching -learning is effective in improving communication- an experience of an interventional pre-post single-arm study through communication workshop for nurses. (under Publication)
2. Evaluation of Compliance with WHO Surgical Safety Checklist Parameters in Trauma Center, India
3. Impact of Interactive Training Interventions on Soft Skill of Communication in Nursing Staff of Emergency of a Tertiary Care Teaching Hospital: An Experimental Study

4. Process of renewal of PC & PNDT license of a large tertiary care teaching hospital of North India: How one needs to plan for it?
5. A Study to assess the utility of Telemedicine as a screening tool in Paediatric Outpatient Department of a tertiary care teaching hospital in New Delhi
6. A Study on Patient Centered Care at AIIMS New Delhi
7. Increasing access to healthcare and reducing out of pocket expenditure through AMRIT (Affordable Medicines and Reliable Implants for Treatment) Pharmacy Scheme: A novel initiative towards Universal Health Coverage by Government of India
8. Third-party audit of Medical Gas Pipeline System (MGPS) in healthcare facilities: An important tool for quality improvement in provisioning of medical gas services
9. Assessing the utilization of healthcare package under PMJAY at BPS Block
10. An interventional study to evaluate the impact of a Patient Safety Incident Reporting system on Incident Reporting in various in-patient areas of AIIMS, New Delhi
11. Cost-effectiveness of early stoppage of empirical antibiotic therapy at the clinical improvement in paediatric cancer patients with high risk febrile neutopenia in an ongoing open label randomized control trial
12. Cost conundrum of anti-cancer drugs: A study on pricing variations across India

Lectures delivered at CMEs, National and International Conferences

Lectures Delivered: 61

Sidhartha Satpathy: 7	**Vijaydeep Siddharth: 28**	**Parmeshwar Kumar: 1**

Nishant Sharma: 1		

Sidhartha Satpathy

1. Legal aspects of administration of Medical Institutions (3 lectures), LEAD National Workshop organized by National Academy of Medical Sciences, New Delhi, 14 April 2024, 11 May 2024, 6 July 2024, NAMS, New Delhi, Physical, Online
2. Hospital Planning & Designing Management issues in OPD (2 lectures), 2nd Foundation Course on Hospital Management- MP Services Commission, through NIHFW, 26 July 2024, NIHFW, New Delhi, Physical
3. Hospital Planning & Designing – an overview, 100th Trg Course on Hospital Administration for Senior Hosp Admn, 18-09-24, NIHFW, New Delhi
4. Lectures on Hospital Administration & OB lab (12 lectures), Hospital Management & Administration Program for Medical Superintendents of Coal India, 30 January 2025 to 2 February 2025, IICM, Ranchi, Physical
5. Legal Aspects of health care- challenges and research opportunities, Research Forum, AIIMS Bhubaneswar, 25 February 2025, AIIMS Bhubaneswar, Online
6. Lectures on Hospital Administration topics (6 lectures), Goa Institute of Public Administration & Rural Development, Old Goa, 27 and 28 February 2025, GIPARD, Old Goa
7. Laws applicable in Hospitals- an overview, CEMICON- National Conference of Coal India, 26 October 2024, IICM, Ranchi, Online

Vijaydeep Siddharth

1. IPC Training at AIIMS New Delhi, National Consultation on developing comprehensive National Curriculum for Infection Prevention & Control**,** 25-26 June 2024, National Centre for Disease Control, Ministry of Health & Family Welfare, Government of India, New Delhi
2. Management Issues in CSSD & Laundry Services, Training Programme on Hospital Management for Hospital Managers of Madhya Pradesh Govt, 18 July 2024, National Institute of Health & Family Welfare, New Delhi

3. Infection Prevention & Hospital Acquired Infection, Training Programme on Hospital Management for Hospital Managers of Madhya Pradesh Govt, 18 July 2024, National Institute of Health & Family Welfare, New Delhi
4. Hospital preparedness and response during disaster, Training Programme on Management of Public Health Emergencies for District Health Officers, 26-31 August 2024, AIIMS, Mangalgiri, Mangalgiri
5. Surge capacity and its planning, Training Programme on Management of Public Health Emergencies for District Health Officers, 26-31 August 2024, AIIMS, Mangalgiri, Mangalgiri
6. Continuity of essential Health services, Training Programme on Management of Public Health Emergencies for District Health Officers, 26-31 August 2024, AIIMS, Mangalgiri, Mangalgiri
7. Logistic supply chain management, Training Programme on Management of Public Health Emergencies for District Health Officers, 26-31 August 2024, AIIMS, Mangalgiri, Mangalgiri
8. Health emergency work force**,** Training Programme on Management of Public Health Emergencies for District Health Officers, 26-31 August 2024, AIIMS Mangalgiri, Mangalgiri
9. Hospital and Healthcare Services in India (05), MBA Healthcare Management, 28-29August 2024, Indian Institute of Management, Jammu
10. Management Issues in IPD and OPD, 100th Training Course on Hospital Administration for Senior Hospital Administrators, 18 September 2024, National Institute of Health & Family Welfare, New Delhi
11. Patient Safety & Risk Management (05 Lectures), MBA Healthcare Management, 24-26 October 2024, Indian Institute of Management, Jammu
12. Overview of the Disaster and Principles of Disaster Management in Hospitals, Capacity-building programme for Hospital Administrators on "Hospital Preparedness for Public Health Emergencies", 2 December 2024, AIIMS, Mangalgiri, Mangalgiri
13. Basic steps and format of hospital Disaster Management Plan, Capacity-building programme for Hospital Administrators on "Hospital Preparedness for Public Health Emergencies", 2 December 2024, AIIMS Mangalgiri, Mangalgiri
14. Hospital Evacuation Plan, Capacity-building programme for Hospital Administrators on "Hospital Preparedness for Public Health Emergencies", 2 December 2024, AIIMS Mangalgiri, Mangalgiri
15. Patient Safety & Risk Management (05 Lectures), MBA Healthcare Management, 23-24 December 2024, Indian Institute of Management, Jammu
16. Management Issues in CSSD & Laundry Services, Training Programme on Hospital Management for Hospital Managers of Madhya Pradesh Govt, 22nd January 2024, National Institute of Health & Family Welfare, New Delhi
17. Basic Steps & Format of Hospital Disaster Management Plan, Capacity Building Programme on Hospital Preparedness for Health Emergencies for Hospital Administrators, 15 January 2025, National Institute of Health & Family Welfare, New Delhi
18. Hospital Evacuation Plan, Capacity Building Programme on Hospital Preparedness for Health Emergencies for Hospital Administrators, 15th January 2025, National Institute of Health & Family Welfare, New Delhi
19. Role of technology in enhancing medication safety, Pre –IPSC workshop holding the theme - Enhancing Medication Safety & strategies to prevent Medication error, 25 January 2025, Apollo Sage Hospitals, Bhopal
20. Effects of community outbreaks in healthcare facilities, 8th HISICON, National Conference of the Hospital Infection Society - India (HISI), 8th February 2025, HISI Lucknow Chapter in collaboration with Sanjay Gandhi Postgraduate Institute of Medical Sciences, Lucknow
21. Basics of Hospital Planning & Designing, Training Programme on Hospital Management, 24-28 February 2025, Goa Institute of Public Administration and Rural Development (GIPARD), Goa
22. Quality & Patient Safety in Hospitals, Training Programme on Hospital Management, 24- 28 February 2025, Goa Institute of Public Administration and Rural Development (GIPARD), Goa
23. Hospital Accreditation: NABH & NQAS, Training Programme on Hospital Management, 24-28 February 2025, Goa Institute of Public Administration and Rural Development (GIPARD), Goa
24. Support Services from laundry, dietary and CSDD, Training Programme on Hospital Management, 24-28 February 2025, Goa Institute of Public Administration and Rural Development (GIPARD), Goa

25. Hospital Stores & Procurement, Training Programme on Hospital Management, 24-28 February 2025, Goa Institute of Public Administration and Rural Development (GIPARD), Goa
26. Use of IT in Healthcare, PGDM in Health & Family Welfare Management 2024-2025 Batch, 24-28 March 2025, National Institute of Health & Family Welfare, New Delhi
27. Quality of Care, PGDM in Health & Family Welfare Management 2024-2025 Batch, 24-28 March 2025, National Institute of Health & Family Welfare, New Delhi
28. Materials Management & Inventory Control, PGDM in Health & Family Welfare Management 2024-2025 Batch, 24-28 March 2025, National Institute of Health & Family Welfare, New Delhi

Parmeshwar Kumar

1. Transforming Healthcare Delivery for a better tomorrow, International conference on Advancing Healthcare Management, 17-18 January 2025, Calicut, Kerala

Abdul Hakim Choudhary

1. Lectures on various topics of Hospital management (6 lectures), Hospital Management & Administration for Medical Professionals of Coal India Limited, 20 –22 February 2025, Indian Institute of Coal Management (IICM), Ranchi

Jitender Sodhi

1. Legal aspects of Medical Records, National Medical Records Day, 1 September 2024, AIIMS, New Delhi
2. Legal and Ethical framework in Healthcare Sector, Focus Group Discussion on Healthcare Law, 18 October 2024, Symbiosis Law School, Pune, Online
3. Lectures on various topics of Hospital management (6 lectures), Hospital Management Program for Medical Officers and Medical Superintendents of Coal India, 17-19 February 2025, IICM, Ranchi
4. Legal and Ethical framework in Healthcare Sector, Consultative Workshop on Healthcare Law, 16-17 January 2024, Symbiosis Law School, Pune
5. General appearance, Grooming and Dressing Sense, Soft Skills Training Programme, 23 October 2024, New RAK OPD, AIIMS, New Delhi
6. The Right to Information Act, 2005 (4 lectures), ANS Promotional Training Programme-2025, 20-28 January 2025, 17 and 18 March 2025, SET Facility, AIIMS, New Delhi

Vikas H

1. Lectures on various topics of Hospital management (06 lectures), Training Programme on Hospital Management and Administration, 17 February 2025, IICM Ranchi, Ranchi
2. Training on Mass Casualty Management, Training on WHO course on Mass Casualty Management, 4 March 2025, JPNATC, Delhi

Sheetal Singh

1. Diagnostic & Therapeutic Services (Laboratory Services, Imaging Services incl. Interventional Radiology, Digital imaging services & PACS, Endoscopy Services, Nuclear Me Specialised Diagnostic & Therapeutic Services dicine Services, Blood Transfusion Services), MBA Healthcare Management, 24-28 June 2024, IIM Jammu, Jammu
2. Hospital Planning and Designing Module, MBA Healthcare Management, 31 December 2024 -04 January 2025, IIM Jammu, Jammu

Kanika Jain

1. Lectures on various topics of Hospital management (6 lectures), Training on Hospital Management and Administration, Coal India, 3-5 February 2025, IICM, Coal India, Ranchi
2. Implementation of Diagnostic Protocols in Hospital settings & Strategies for improving diagnostic processes in Hospitals (2 lectures), Capacity Building Program on Patient Safety, 17 September 2024, NIHFW, Munirka, New Delhi

3. Dept/Divn of Patient Safety in Tertiary Care hospitals, National Capacity Building Program on Patient safety in India, 16 October 2024, Patient safety Secretariat, DGHS, MoHFW, New Delhi
4. Several lectures (30) on Hosp Admn related topics like Health Economics, MBA Healthcare Management Course, 30 November to 2 December; Feb-March 2025, IIM Jammu, Jammu

Anant Gupta

1. Lectures on various topics of Hospital management (9 lectures), PGDHHM, 19– 21 December 2024, IIM Jammu, Jammu
2. Lectures on various topics of Hospital management (5 lectures), Training on Hospital Management and Administration, Coal India, 10– 12 February 2025, IICM Ranchi, Ranchi

Rahul Ranjan

1. HC operations and Service Management -Diagnostic & Therapeutic Services, PG Certificate Programme in Advanced Healthcare Management (AHM001), 16 June 2024, IIM Nagpur, Virtual
2. Lectures on various topics of Hospital management (03 lectures), Training Programme on Hospital Management and Administration for Medical Superintendents GDMOs, Non Specialist of Coal India Ltd at IICM, Ranchi, 24 February 2025, IICM, Ranchi, Ranchi

Namrata Makkar

1. Models of care in Geriatrics, 64th Annual National Conference of the National Academy of Medical Sciences (NAMSCON-2024), 23–24 November 2024, AIIMS, Jodhpur, Jodhpur
2. Geriatric Oncology and Translational Research, Elderly Empowerment and Graceful Ageing - 21st Biennial International Conference of Association of Gerontology, India (2024), 13 December 2024, NIHFW, Delhi, Delhi
3. Gender Sensitization**,** Indian Psychiatric Society, 8th Annual National Symposium of Women's Mental Health held with the Theme" Women's Mental Health: Trends Challenges and opportunities, 14th December 2024, Lady Hardinge Medical College, New Delhi, New Delhi
4. Multidisciplinary Perspectives on Geriatric Oncology: Collaborative Strategies for Comprehensive Patient Management**,** 1st National Conference on Psychotherapeutic Assessments and Interventions in Psycho-Oncology (NCPO-2025), 3–5 January 2025, Department of Psychiatry, AIIMS, New Delhi at JLN Auditorium, New Delhi

Mohammad Kausar

1. Lectures on various topics of Hospital management (05 lectures), Training Programme on Hospital Management and Administration for Medical Superintendents GDMOs, Non Specialist of Coal India Ltd at IICM, Ranchi, 13–15 February 2025, Ranchi, Ranchi

Nishant Sharma

1. Healthcare Management (06 lectures), Training Programme on Hospital Management and Administration for Medical Superintendents GDMOs,, 10- 12 February 2025, Indian Institute of Coal Management (IICM), Ranchi; Physical

Tilotma Jamwal

1. Regulatory compliances and Quality Assurance of MGPS, Expert Advisory Group meeting for National Capacity Building Program for Oxygen Management, 27 March 2025, SET Facility, AIIMS, New Delhi, New Delhi

LECTURES DELIVERED OVER PAST 3 YEARS

2022-2023	2023-2024	2024-2025

RESEARCH

Funded

Ongoing

1. A study to assess the Communication and attitudinal barriers in care of elderly and implement a capacity building programme for select health care workers in an Apex tertiary care Teaching Institute in North India An Interventional study, Dr Namrata Makkar, AIIMS, Early career grant, Two Years, 2024-2026, Rs 1.50 Lakhs

2. Antimicrobial susceptibility patterns of pathogens isolated in bloodstream infections vis a vis anitbiotic prescribing practices and genotypic clonality of Acneitobacter Baumani various patient care units/areas, Dr

Vijaydeep Siddharth & Dr Hitender Gautam, AIIMS Intramural Grant, 1 Year, 2021-2022 (On extension), Rs 10 Lakhs

3. Assessment of serial COVID-19 IgG antibody response among fully vaccinated healthcare workers involved in sanitation and housekeeping at AIIMS, New Delhi, Dr. Abdul Hakim Choudhary, AIIMS Intramural Grant, 1 Year, 2022-2023, Rs 4.5 Lakhs
4. Capacity building of Doctors and Hospital Engineers in Structural and Non-structural mitigation measures for Hospital Safety and Disaster Resilience, Dr DK Sharma, MoHFW, 3 Years, 2022-2025, 1.59 Crore
5. Capacity building of doctors and hospital engineers in structural & nonstructural mitigations measures for hospital safety & disaster resilience, Dr Vijaydeep Siddharth, Ministry of Health & Family Welfare, Govt of India, 5 Years, 2021-2026, Rs 154 Lakhs
6. Impact of air quality interventions on air quality including microbial load in inpatient environmental air, Dr Vijaydeep Siddharth, AIIMS Intramural Grant, 1 Year, 2020-2021, Rs 3.46 Lakhs
7. Impact of Protective Footwear in Infection Control in Critical Care Settings: A comparative study, Dr Kanika Jain, AIIMS Intramural Grant, 3 Years, 2024-2027, Rs 5 Lakhs
8. National Capacity building program for Oxygen management, Dr Vijaydeep Siddharth, MoHFW, 1 Year, 2025-2025, 84 Lakhs
9. National Capacity Building Programme for Medical and Nursing Officers on Medical Oxygen Management and its use in Tertiary Care Hospitals, Dr Vijaydeep Siddharth, Ministry of Health & Family Welfare, Govt of India, 6 Months, 2025-2025, Rs 83 Lakhs
10. Randomized Control Trial on Benefits of Mindfulness Meditation Intervention on Improving Work-life integration among Healthcare Workers at Deaddiction center of AIIMS, New Delhi, Dr Nishant Sharma, AIIMS Early Career Intramural Grant, 2 Years, 2023-2025, Rs 8.50 Lakhs
11. Socioeconomic burden of Surgical Site Infection (SSI's) and validation of SIMPI Criteria against CDC criteria for SSI Surveillance for general surgery procedures, Dr Vijaydeep Siddharth, Higher Education Financing Agency, 3 Years, 2025-2028, Rs 49 Lakhs

Completed

1. Capacity building of doctors and hospital engineers in structural & nonstructural mitigations measures for hospital safety & disaster resilience, Dr Vijaydeep Siddharth, Ministry of Health & Family Welfare, Govt. of India, 3 Years, 2021-2024, Rs 1.54 Crores
2. Effectiveness of robot in floor cleaning for minimizing human exposure in view of COVID-19 pandemic, Dr Vijaydeep Siddharth, AIIMS Intramural Grant0, 1 Year, 2020-2021, Rs 6.29 Lakhs
3. National Capacity building program for healthcare workers in infection prevention and control (IPC) including biomedical waste (BMW) management for pandemic preparedness, Dr Vijaydeep Siddharth, USAID, India & JHPIEGO, India, 1 Year, 2022-2024, Rs 3 Crore

Collaborative projects

Ongoing

1. Assessing the Health Care Package utilization in BPS under PMJAY and its barriers and facilitators, Burn and Plastic Surgery
2. Creation of Center of Excellence with ICMR Collaboration at BPS, Burn and Plastic Surgery
3. Evaluation of Medical certification of death at AIIMS and to prepare a training programme, Department of CCM
4. National Capacity Building Programme on Oxygen Management, MoHFW

Completed

1. Facilitation of IT enabled training for generating skilled HCWs in COVID-19 pandemic management, Department of Physiology, Psychiatry under aegis of MEITY, Govt of India

AWARDS, HONOURS AND SIGNIFICANT EVENTS:

Professor Sidhartha Satpathy was nominated by Hon'ble Governor of Uttarakhand as a Member of Board of Governors (BOG) of Swami Rama Himalayan University, Dehradun, Uttarakhand. He was Member of Project Review & Steering Group (PSRG) Committee under project entitled "Facilitation of IT enabled training for generating skilled HCWs in COVID-19 pandemic management under aeigis of MEITY, Govt of India. (Project was completed in October 2024). He participated as Member of the Task force constituted by orders of Hon'ble High Court of Delhi for improvement of health services in Delhi. He Contributed to development of BIS standards as Member of (a) Health Informatics Sectional Committee (MHD-17); (b) Hospital BMW management Infection Control Sectional Committee (MHD-21) under the aegis of MHD Sectional Committee-Medical equipment & Hospital Planning Committee, and Technical Textiles for Med tech applications Sectional Committee (TXD-36). He was Chaired Scientific Session and moderated the Panel Discussion on "Accreditation of BMW and SWM management in large tertiary care hospitals" during International Conference ISHWMCON-24 at KGMU, Lucknow, UP on 15-16 November 2024. He Participated as Subject Expert for selection of Medical Superintendent and Assistant Professor Hospital Administration at AIIMS Jodhpur (19-07-2024), Medical Superintendent, AIIMS Bilaspur (11-10-24 & 25-02-25), Asst Prof (HA) for CAPFIMS on 22 October 2024 (AIIMS new Delhi); APS of Addl Professor (Hosp Admn) at AIIMS Bhopal (23-12-24) etc. He was Member of the Central Co-ordination Team (CCT) of ICMR Funded project for INCLEN Trust. He was nominated as Member in National Oversight Committee (NATCOM) for Pradhan Mantri National Dialysis Program (PMNDP). He was Expert Member of Board of Studies (BOS) for Hospital Management & Administration at SGPGI, Lucknow, School of Health Sciences, IGNOU, and Jamia Milia Islamia, New Delhi. He Contributed as Member of Building Committee of National Brain Research Institute (NBRI) for shortlisting of Architect for undertaking further development works. He Continued as Expert member of Academic Audit Committee of IIHMR University for improvement of Academics and Research as mandated by University Grants Commission. He was nominated at Member, National Editorial Board of JPMER, the official Journal of Post Graduate Institute of Medical Education & Research, Chandigarh. He Continued as Advisor, Editorial Committee of JAHA and Reviewer for NMJI, WHO-SEAJPH, IJCM etc.

Dr Vijaydeep Siddarth received First Prize (Rs. 75000) at "Safe-a-Thon" Challenge at 12th International Patient Safety Conference organized by Apollo Hospitals at Bharat Mandapam, New Delhi for developing Novel IT Based Patient fall Prevention Solution. He received Second prize during Patient Safety Week at AIIMS New Delhi for research work "A cross-sectional study to analyse the various factors influencing Patient Safety Incident Reporting at a Tertiary Care Hospital in North India". He was Expert member for Joint Commission International Pathways Initiative on patient safety. He was Expert Member to conduct comprehensive review of the functioning of National Medical Services and Jigme Dorji Wangchuk National Referral Hospital, Bhutan on behalf of WHO SEARO from 29 April to 3 May 2024. He was Expert member for developing comprehensive National Curriculum for Infection, Prevention and Control organized by National Centre for Disease Control under Ministry of Health & Family Welfare, Government of India. He was Member of the committee to review the designs of Medical Research Centre (MRC) being established at. He was Member of Technical Advisory Committee (TAC) to review the research proposal "To study curriculum the waiting time and referral system of IPD and OPD patients at various government hospitals of Delhi and suggest interventions for its improvement". He was

Expert on curriculum designing for MHH 014 course for MBA in Healthcare and Hospital Management of IGNOU. He was Editor for various course units for MBA in Healthcare and Hospital Management of IGNOU. He was member of Expert Committee – Delhi Oxygen Management. He was Member of committee convened by Disaster Management Cell, Ministry of Health & Family Welfare, Government of India to develop training plan for medical officers in management/ use of oxygen systems to ensure emergency preparedness and improved service delivery. He was Organized 2nd National Expert Advisory Group Meeting on creating a capacity building programme for Doctors & Hospital Engineers in Disaster Resilient Hospitals under a project funded by Ministry of Health & Family Welfare, Government of India in October 2024 at New Delhi. He Organized the 1st Meeting of the National Capacity Building Project in Medical Oxygen Management for finalizing the training curriculum with support of MOHFW, GOI. He was External Examiner for PGDM at NIHFW, New Delhi.

Dr Parmeshwar Kumar was Temporary advisor to WHO, EMRO for capacity building programme for Human Resources Management for hospital managers. He was Member, Expert Advisory Group for drafting "AIIMS Guidance Document of Preparedness for Infection Prevention and Control including Biomedical Waste Management during public health emergencies" for secondary and tertiary care facilities. He was Member, National Expert Advisory Group Meeting on creating a capacity building programme for Doctors & Hospital Engineers in Disaster Resilient Hospitals under a project funded by Ministry of Health & Family Welfare, Government of India.

Dr Abdul Hakim Choudhary was Member of National Fire safety committee to address fire safety issues in Hospitals and Nursing homes. He Conducted Kaya Kalp peer assessment at PGI, Chandigarh and NITRD, New Delhi. He Coordinated and facilitated third party fire safety Audit at AIIMS, New Delhi. He was Member of fire safety committee for organizing Pan- India Fire safety week w.e.f 21-26 April 2025.

Dr Jitender Sodhi was awarded a letter of appreciation by the Director, Symbiosis Law School, Pune for participating as a Resource Faculty (through online mode) in a Focus Group Discussion on Legal and Ethical framework in Healthcare Sector on 18 October 2024 organized by Symbiosis Law School, Pune. He was awarded a letter of appreciation by the Director, Symbiosis Law School, Pune for participating as an Expert in a groundbreaking Consultative Workshop on Healthcare Law from 16-17 January 2025 organized by Symbiosis Law School, Pune. He was member of the Specialists Board in Health Administration including Hospital Administration of National Board of Examinations. He was member of the Departmental Academic Committee& Inquiry Committees, and TSECs at AIIMS. He was Member of the AIIMS Annual Report Editing Committee. He was Member of the Review Committee for Research Directory of Faculty and Scientists of AIIMS. He was Contributed as faculty in-charge, Hospital Establishment in quality of administrative proposals related to leave matters and disciplinary proceedings of employees being put up on the file. He was Faculty-in-charge for all the court cases of Main Hospital. He Contributed to the ongoing initiative of a digital library of court cases of Main Hospital and added few new fields of outcomes to it. He contributed as a Resource Faculty during Soft Skills Training Programme for the PCCs and PCMs at New RAK OPD, and ANS promotional Induction training at AIIMS, New Delhi.

Dr Sheetal Singh Attended Conclave & Refresher Course on 6th edition of NABH Hospital Standards as an NABH Assessor held in November 2024 in New Delhi.

Dr Anant Gupta received DMA Distinguished Service Award. He Member Secretary and Project Officer of Infectious Disease and Critical Care Block, Space Allocation Committee at JP NA Trauma Center. He was Member of TSEC in various Depts and SPC of JPNATC, and Main Hospital; Medical Record Committee at Trauma center. He Contributed as Guest/visiting Faculty for taking Lectures for MBA (HM) program at IIM Jammu, and HMA trg prog at IICM, Ranchi. He Contributed to NABH Accreditation program as Assessor of several hospitals during this year. He was Officer Incharge of Procurement CAPFIMS. He was Planning and Designing of CBRN Facility, new OPD, Solid Organ transplant center at Trauma Center. He was Nodal person at JPNATC for Containment of Vector Borne Diseases. He was Member in Implementation of Good Samaritan Scheme, and Quick Response Teams. He was Member of Department Academic Committee in Hospital Administration. He was Officer Incharge Outsourcing Cell.

Dr Mohammad Kausar was Member of the Expert Advisory Committee for the project "Capacity Building of Doctors and Hospital Engineers in Structural and Non-Structural Mitigation Measures for Hospital Safety and Disaster Resilience"- funded by the Disaster Management Cell, Ministry of Health and Family Welfare, Government of India.

Dr Nishant Sharma was organizing Secretary for AIIMSONIANS & AUE Symposium organized at AIIMS New Delhi from 23-25 January 2025. He was appointed as BIDA International Advisor by British International Doctor's Association, United Kingdom. He was Member of the Committee constituted by NITI Aayog to prepare a roadmap to make AIIMS a worldclass medical institute in medical research and practice. He was faculty of Coal India Limited: Conducting the training programme on Hospital Management and Administration for Medical Professionals of Coal India Limited at Indian Institute of Coal Management, Ranchi, NIHFW: PGDM and induction programme for CHS doctors. Induction training programme for newly joined residents at AIIMS, New Delhi. He was Member Secretary and Member of numerous committees at Main Hospital and at Institute level. He was Member of the team that won the first prize at Safe-a-thon organized during 12th

IPSC for developing innovative solution on 'Prevention of Patient Falls'. He was Member of the Committees that formulated the guidelines for all INIs under the MoHFW: He was member of Management and Quality Assurance of Outsourced services. He was Inter – AIIMS Referral Network: A Comprehensive Framework for Optimizing Tertiary Healthcare. Nodal Officer for Inter-AIIMS referral Portal for seamless referral of patients from AIIMS Bilaspur. He was represented AIIMS at 3 rounds of presentations at 16th Healthcare Excellence Awards 2024 where AIIMS won the Certificate of Appreciation for Excellence in Patient Safety & Care (Public Hospitals). Nodal Officer for development and implementation of Online Grievance Redressal Mechanism – SANTUSHT. He Organized National-level consultation for developing standardized reporting formats for adverse events related to patient safety. He was Organizing Co-Chairmanfor the International Patient Safety Week organized at AIIMS New Delhi from 17-23 September 2024. He was Empaneled as Assessor for the NABH Entry-level Certification Programme for Healthcare Organizations. He was Member of the Taskforce constituted by Hon'ble High Court of Delhi to oversee the implementation of Dr. Sarin Committee's recommendations in hospitals under GNCTD and MCD. He was Member of the delegation sent to Uttarakhand for the gap analysis and recommendations on the public health infrastructure of their state.

9.18 Laboratory Medicine

Professor and Head

Sudip Kumar Datta

(w.e.f. 1 July 2024)

Additional Professor

Shyam Prakash

Associate Professors

Suneeta Meena

Tushar Sehgal

Assistant Professors

Ashok Kumar Ahirwar

Rojaleen Das

Upinder Mahey

(on contract from 5 March 2025)

HIGHLIGHTS

In a landmark achievement, the Department of Laboratory Medicine successfully underwent NABL assessment on 28–29 September 2024 for first-time accreditation under ISO 15189:2022. Functioning 24×7 and handling over 9,000 samples daily across four sections from two physical locations, the department applied under the Very Large Laboratory category with an approved scope of 263 tests and 12 authorized signatories. The department also serves as the back-up of all other laboratories trying to get accreditation. This accreditation journey, meticulously executed through a structured roadmap, marks a major stride towards excellence in quality assurance and diagnostic services at AIIMS Delhi.

The department remains the mainstay of laboratory testing in the institute with a 24x7 state-of-the-art fully automatic integrated **Smart Lab** at the New RAK OPD complex and a 24x7 **Ward and Emergency Lab** in the 2nd Floor Emergency and ward Block having a Dry Chemistry Laboratory Automation platform, Automated Hematology and Coagulation Analyzers. The **Central Collection facilities** at Old RAK and New RAK OPD are operational from 8:00 AM to 6:30 pm and facilitate sample collection as a walk-in process without appointments. All reports from the department are available online and within a short turn-around time.

In a significant achievement, one of our PG residents, Dr. Hemapriya Jayaranga Babu was awarded Second Place in the Student Poster Competition at the American Association of Diagnostics and Laboratory Medicine (ADLM) 2024 at Chicago, USA.

Summary of achievements:

	2024-25	2023-24	2022-23
Total Number of tests done in the department	More than 22 million	More than 20 million	More than 18 million
Funded Projects	13	15	14
Collaborative projects	25	51	35
Publications	34	50	30
Oral papers and Posters	36	21	23
Invited lectures/ Talk	27	22	19
Abstracts Published	17	19	11
Students awarded MD	01	05	02
Students awarded PhD	01	01	01

EDUCATION

Please mention any changes in the teaching programs during the year and innovative educational activities (innovations and changes made to previous years):

The residents' posting schedule for the MD Lab Medicine program started extensive lab exercises on techniques and interactive discussions through equipment such as PCR, real-time PCR, and HPLC for the training of postgraduate residents in the department. Discussion of internal quality control and discussion on EQAS with postgraduate residents have also been incorporated.

CMEs/Workshops/Symposia/National and International Conferences

1. Organized multiple in-house training sessions for ISO15189: 2012 and 2022 versions
2. ACBI-Subbarao Oration Award on 15 April 2024 at AIIMS, New Delhi
3. Organized Guest Lecture by International Faculty by Prof Jay Kalra during 5th National Conference of ICMLS, 16-17 November 2024 at AIIMS, Delhi
4. Organized conference of the Indian Academy of Biomedical Sciences, North Zone, at AIIMS, New Delhi on 5-6 August 2024

Lectures delivered at CMEs, National and International Conferences

Lectures delivered: 26

Sudip Kumar Datta: 14 **Shyam Prakash: 2** **Suneeta Meena: 1**

Tushar Sehgal: 8 **Rojaleen Das: 1**

Sudip Kumar Datta

1. Acute Kidney Injury, MELAP Diagnostic Week, 1-7 April 2024, Online, Delhi
2. Metabolic Syndrome : Recognizing Red Flags at an Early Stage, CAHO Lab CON 2024, 5 April 2024, Kolkata, India
3. Management of metabolic syndrome through yoga, CME on Yoga, 11 September 2024, MDNIY, Delhi, India
4. Vit-D Receptor variants and their role in Lead Toxicity, Lead CON 2024, 23 October 2024, Delhi, India
5. Molecular Diagnostics: moving towards precision medicine, CME: Precision Medicine in Department of Biochemistry, LLRMC, 8 November 2024, Meerut, India
6. Role of Vit-D Receptor polymorphisms in health and disease: Moving towards Precision Medicine, 50th ACBICON 2024, 5-7 December 2024, Chandigarh, India
7. Moderated Panel Discussion on: Laboratory accreditation in government setups: Challenges and solutions, 50th ACBICON 2024, 5-7 December 2024, Chandigarh, India
8. Panelist: Biological Reference Intervals, 50th ACBICON 2024, 5-7 December 2024, Chandigarh, India
9. Comprehensive Interventions for Minimizing Preanalytical Laboratory Errors, One Day Preanalytical Workshop: AEH Hospitals, Maldives, 12 December 2024, Online
10. Setting up of SMART Lab and total laboratory automation , CME on Recent advances in Diagnostics", 16 December 2024, PG ICH Noida, UP
11. Moderated Panel Discussion on: Optimize, Innovate, Sustain: Advancing Lab Stewardship, 31st AMBICON, 19-21 December 2024, Ahmedabad, Gujarat
12. The ABCs of lab set up: What to expect on the opening day, 11th ACCLMPCON, 11-12 January 2025, Guwahati, India
13. Total Lab Automation**,** South Zone ACBICON 2025**,** 24-25 January 2025, Puducherry, India
14. Ethical issues in Laboratory Medicine in EQAS, CAHO Diagnosticon 2025, 8-9 February 2025, New Delhi, India

Shyam Prakash

1. Metabolic reprogramming and epigenetic perspective from steatohepatitis to hepatocellular carcinoma, XIIIth Annual Meeting of the Indian Academy of Biomedical Sciences 2025, 11-13 February 2025, AIIMS, Bhopal

2. A perspective of transfer RNA-derived RNA fragments and mitochondrial functioning in metabolic dysfunction-associated steatohepatitis liver disease, National conference cum workshop on Sustainable Biotech Solutions for Global Challenges, 17 February 2025, Convention Centre Jamia Hamdard, New Delhi

Suneeta Meena

1. Key needs to enable an effective start of implementation of the framework in India i.e. strengthening bio-risk mitigation and DUR governance taking into account your specific contexts and settings, Global guidance framework for the responsible use of life sciences: mitigating bio risks and governing dual-use research (DUR) WHO Science division, 3 December 2024, Webinar

Tushar Sehgal

1. Exploring AI in Haematology, International conference AI fusion, 29-30 March 2024, Baroda
2. Global hemostasis in coagulation, CME in coagulation at Delhi Society of Hematology (DSH), 8 September 2024, Delhi
3. Quality control in hematology, ICMLS-2024, 16 November –17 November 2024, Delhi
4. ADAMTS13 Assay, CME in Coagulation Disorders, 19 January 2025, Jaipur
5. Stream lining health care services using interfacing devices, International conference on recent advances in Medical Diagnostics from Chemical to AI, 19–21 February 2025, ARSD College Delhi University
6. Von Willebrand Disease, CME on Coagulation Disorder, 7 March 2025, Hyderabad
7. Bleeding in normal coagulation, CME on Coagulation Disorder, 7 March 2025, Hyderabad
8. ADAMTS13 assay, CME on Coagulation Disorder, 7 March 2025, Hyderabad

Rojaleen Das

1. Antibiotic Stewardship in Trauma Surgery patients, National Board of Education Webinar (Dr Rojaleen), 22 March 2025, Online

LECTURES DELIVERED OVER PAST 3 YEARS

2022–2023	2023–2024	2024–2025
15	22	26

List of oral papers/posters presented: 36

1. Akanksha Priya, Shalimar, R Aasarey, Priyatma, N K Vikram, Medha, S Khan, P Das, S Prakash, Modalities for the identification of non-invasive scores and its correlation in assessment of Non-Alcoholic Steatohepatitis patients, XIIIth **Annual International conference of the Indian Academy of Biomedical Sciences**, 11-13 February 2025**,** Department of Biochemistry, AIIMS Bhopal
2. Ginni Bharti, Suneeta Meena, Rojaleen Das, Veena Baloni, Shalini Singhal and Shakeel Ahmed, Congenital Rubella Syndrome: A vaccine preventable diseases continue to footle in a post pandemic era, IABS, 28 November 2024, Delhi, India
3. Islam T Javed, Sharma M, Medha, Seth T and Prakash Shyam, Interaction of Superoxide Dismutase in Sickle Cell Disease Variant Patients, XIIIth **Annual International conference of the Indian Academy of Biomedical Sciences,** 11-13 February 2025**,** Department of Biochemistry, AIIMS Bhopal
4. Hemapriya J, Arulsel S, Shalimar, Naval Vikram K, Pandey Shivam, Meena Suneeta, Prakash Shyam, Association of GATA-4 and Platelet Derived Growth Factor-B in Metabolic (dysfunction) Associated Fatty Liver Disease **(Poster Award)**, American Diagnostics and Laboratory Medicine, 28 July -04 August 2024, Convention Centre, Chicago, USA
5. Medha, Khan S, Priyatma, R Aasarey, Sharma M, Pandey S, Vikram NK and Prakash S, Association of omega-3 and omega-6 fatty acids in Metabolic Associated Steatohepatitis Disease (MASLD) patients, XIIIth **Annual International conference of the Indian Academy of Biomedical Sciences**, 11-13 February 2025**,** Department of Biochemistry, AIIMS Bhopal
6. Medha, Khan Shahid, Priyatma, Aasarey Ram, Priya Akanksha, Vikram NK, Pandey S, Prakash Shyam, Association between serum 25-hydroxy vitamin D and hepatic progression in MASLD patients, Indian Academy of Biomedical Sciences – North Zone 2024, 05-06 August 2024, Department of Laboratory Medicine, AIIMS New Delhi

7. Saroj M, Sharma Meenakshi, Vikram Naval K, Pandey S and Prakash Shyam, An Assessment of dietary evaluation and antioxidant vitamins level in patients with Metabolic Syndrome, Indian Academy of Biomedical Sciences – North Zone 2024, -6 August 2024, Department of Laboratory Medicine, AIIMS New Delhi

8. Naagar S, Arulselvi S, Mahajan S, Subbiah AK, Anuj, Datta SK, Evaluation Of The Role Of Vitamin D Receptor (VDR) Polymorphisms OnThe Efficacy Of Calcitriol Therapy In Stage 3 To 5 Chronic Kidney Disease (CKD): A Prospective Double-Blind Study, 50th ACBICON 2024, 5-7 December 2024, Chandigarh, India1

9. Priyatma, Vikram Naval K, Shalimar and Prakash Shyam, Aggravation of reactive oxygen species with CD163 in patient with HCV infection, XIIIth **Annual International conference of the Indian Academy of Biomedical Sciences**, 11-13 February 2025**,** Department of Biochemistry, AIIMS Bhopal

10. Akanksha Priya, Prakash S, Shalimar, Das Prasenjit Das, Ranjan Abhishek Ranjan, Aasarey Ram Aasarey, Role of Machine Learning Models in Assessing NAFLD Fibrosis and Cirrhosis in Comparison to the Non-invasive scores and Biomarkers in Indian patients, Indian Academy of Biomedical Sciences – North Zone 2024, 5-6 August 2024, Department of Laboratory Medicine, AIIMS, New Delhi

11. Aasarey Ram, Prakash Shyam, Priyatma, Medha, Khan Shahid, Akanksha, Bridging between Prokineticins and T-reg cells in obesity-associated metabolic oxidative dysregulation in NAFLD, Indian Academy of Biomedical Sciences– North Zone 2024, 05-06August 2024**,** Department of Laboratory Medicine, AIIMS New Delhi

12. Aasarey Ram Priyatma, Khan Shahid, Medha, Vikram NK, Shalimar, Prakash S, Role of Oxidized LDL in conjunction with prolidase activity and glycoprotein non-metastatic melanoma protein B expression in NAFLD-associated HCC, XIIIth **Annual International conference of the Indian Academy of Biomedical Sciences,** 11-13 February 2025**,** Department of Biochemistry, AIIMS Bhopal

13. Das Rojaleen, Ahmed Nizam, Das Bharat, Farooque Kamran and Mathur Purva, Characterization of *Klebsiella*isolates from Trauma Patients: Implications for Infection Control and Treatment, Trauma Conference, 28-30 November 2024, Colombo, Srilanka

14. Khan Shahid Khan, Priyatma, Medha, Vikram NK, Pandey S, Ganie Md A, Prakash S, Mitochondrial dysregulatory molecules in PCOS and diabetic patients, XIIIth **Annual International conference of the Indian Academy of Biomedical Sciences**, 11-13 February 2025**,** Department of Biochemistry, AIIMS Bhopal

15. Srivastava Saumya, Datta Sudip K, Bhandari Milan, Sagar Milind, Sikka Kapil, Validation and Performance Evaluation of Mobilab: A Portable Point-Of-Care Battery Operated IOT Enabled Device for Screening of Metabolic Disorders, 4th Research Day, AIIMS, 29-30, January 2024, Delhi, India2

16. Meena Suneeta, Kumar Dinesh, Verma Devendra K, Kumar Arun, Agarwal Sanjay K, Prakash Shyam, Priyatma, Meena Jitendra Kumar, Mathur Purva, Modification in DNA extraction method for detection of Microsporidia in clinical stool samples, Biotech frontiers 2025, 21-22 March 2025, Dehradun, India

17. Prakash Shyam, Bridging between prokineticins expression and Treg cells in obesity-associated metabolic oxidative dysregulation in MAFLD, American Society of Cell Biology (ASCB 2024), 14-18 December 2024, San Diego, USA

18. Meena Suneeta, Srivastava Saumya, Immaculata Xess, Dhawan Rishi, Naranje Priyanka, Prakash Shyam, Purva Mathur, T Velpandianet al, Comparison of triacetylfusarinine C and galactomannan in urine for diagnosis of invasive aspergillosis, MICROCON 2024, 21Nov 2024, Pune, India

19. Dash Suvashis, Hathi Preet, Das Rojaleen, Parekh Aparna, Singhal Maneesh, Challenges and Strategies in Breastfeeding Management for Acute Burn Patients: Proposal of a Case- Based Classification, 2024 ISBI/BBA Congress, August 18-22, 2024, Birmingham United Kingdom

20. Sehgal Tushar, Stream lining health care services using interfacing devices, International conference on recent advances in Medical Diagnostics from Chemical to AI, 19-21 February 2025, ARSD College, Delhi University

21. Sehgal Tushar, Assessment of the NABL guideline of biomedical waste management in clinical laboratory, CliCON –OEH 2025, 25–28 February 2025, Ahmedabad

22. Mishra Chandan, Das Rojaleen and Meena Suneeta, Comparison of anti-microbial susceptibility of *Pseudomonas aeruginoasa* causing community and hospital acquired Urinary Tract Infection – At a tertiary care hospital, Indian Association of Medical Microbiologists, 7 May 2024, New Delhi, India

23. Sehgal Tushar, Verma Bhoj Raj, Waste education is not a waste, CliCON –OEH 2025, 25–28 February 2025, Ahemedabad

24. Sehgal Tushar, Evaluation of the flagging performance of the hematology analyzer (Sysmex XN series) on the basis of Q values, ITM university, 29-30 March 2024, Baroda, Gujarat

25. Sehgal Tushar, Bharti Ginni, Tapasyapreeti M, Chandan M, Nayer Jamshed, Menon Geetha, An assessment of HIS in emergency settings: Focussing on a new element of patient safety, Research day, 30 January 2025, AIIMS, Delhi
26. Sehgal Tushar, Ginni Bharti, Anand Ambika, Gawtham V, Maroof K, Soluble urokinase plasminogen activator receptor: A useful marker in the prediction of mortality in patients with COVID-19, Research day, 30 January 2025, AIIMS, Delhi
27. Sehgal Tushar, Bharti Ginni, Quantification of RBC fragmentation by the automated hematology analyzer, Research day, 30 January 2025, AIIMS, Delhi
28. Upender S, Prakash S, Potential role of ROS and signalling of Nrf-2 gene and its expression in Polycystic ovarian syndrome, 4th CAHO Diagnosti Con, 8-9 February 2025, Eros Hotel, New Delhi
29. Patel Vidhi, Datta Sudip, Utilization of Thyroid Function Test Results In an Apex Tertiary Care Teaching Hospital, 11th ACCLMPCON, 11-12 January 2024, Guwahati, India
30. Mishra Chandan, Meena Suneeta, Mathur Purva, Molecular characterization of carbapenem resistance in isolates causing UTI at an outpatient setting of a tertiary care hospital, CAHO diagnosticon, 10 February 2025, New Delhi
31. Datta Kumar Sudip, Mahajan Sandeep, Naagar Shilpa, Rani Lata, Jinger Pradeep, Karmakar Subhradip, Genotypic characterization of Autosomal Dominant Polycystic Kidney disease (ADPKD) in Indian population: a pilot study, IFCC World Lab 2024, 25-30 May 2024, Dubai, UAE
32. Verma Devendra K, Meena Suneeta, Kumar Dinesh, Kumar Arun, Agarwal Sanjay K, Prakash Shyam, Priyatama, Meena Jitendra K, Mathur Purva, Experience of intestinal Microsporidia infections in renal transplant recipients at a tertiary care hospital, Research Day AIIMS Delhi, 30 January 25, New Delhi
33. Bharti Ginni, Arulselvi S, Trikha Vivek, Mittal Samarth, Datta Sudip Kr, Sehgal Tushar, Malhotra Rajesh, Study of the serum complement C3 and C4 levels in patients undergoing intramedullary nailing for fracture shaft femur, IFCC World Lab 2024, 25-30 May 2024, Dubai, UAE
34. Ginni Bharti, Meena Suneeta, Das Rojaleen, Baloni Veena, Singhal Shalini and Ahmed Shakeel, Trends in Seropositivity of Hepatitis A virus: A laboratory based retrospective study, National Hepatitis Conference, 7 November 2024, ILBS Delhi

1. ACBICON Travel Award, awarded to Ms Shilpa Naagar, SRF, ICMR Project
2. Commendation award in SDG-3 Category

Total number of oral/poster presentations

Presentation	2022–2023	2023–24	2024–25
Oral/poster	23	21	36

RESEARCH

Funded

Ongoing

1. A Two-Arm Longitudinal Randomized Control Trial to Evaluate the Bone Protective Role of an Ayurveda Formulation in Postmenopausal Females, Dr. Ashok Kumar Ahirwar, AYUSH-ICMR, New Delhi, 3 Years, 2025-2028, Rs 197.19 Lakhs
2. Analytical performance of automated nucleic acid extraction system for gastrointestinal infections, Dr. Suneeta Meena, ICMR, 3 Years, 2024-2027,
3. Centre for Advanced Research: Precompliance and clinical validation of implantable and diagnostic devices (Otorhinolaryngology, Ophthalmology, and orthopaedics), Dr Kapil Sikka (PI-Coordinator AIIMS), Dr Sudip Kumar Datta (PI-Diagnostics), ICMR, 5 Years, 2024-2029, Rs 515.18 Lakhs
4. Characterization and expression of transfer RNA-derived small RNAs as a circulating biomarker for disease diagnosis and prognosis in NAFLD, Dr Shyam Prakash, ICMR, 3 Years, 2022-2025, Rs 65.5 Lakhs
5. Clinical Performance Evaluation of a Thyroid Stimulating Hormone (TSH) test kit for Point of care settings, Dr Sudip Kumar Datta, M/s Vidcare Ltd through CMIE, 2 Years, 2024-2025, Rs 3.70 Lakhs

6. Comparison of gut microflora of different age groups of geriatric population on long term Non-Steroidal Anti-Inflammatory Drugs and healthy geriatric population, Dr Rojaleen Das, AIIMS, 2 Years, 2024-2026, 10 Lakhs
7. Development of a SERS based portable device for detection of urinary and salivary cotinine to monitor the compliance towards tobacco abstinence, Dr Sudip Kumar Datta (PI-AIIMS) & Dr Satish Dubey (PI-IITD), DBT-BME, 3 Years, 2024-2027, Rs 170.92 Lakhs
8. Establishment of rapid assay for ADAMTS13 activity to enable the diagnosis of congenital or acquired TTP, Tushar Sehgal, AIIMS, DELHI, 2 Years, 2024-2026, Rs 20 Lakhs
9. Evaluation of Artificial neural network for differentiating Iron deficiency anemia and β-Thalassemia trait in comparison to the conventional methods, Tushar Sehgal, ICMR, Delhi, 2 Years, 2022-2025, Rs 23 lakhs
10. Evaluation of salivary biomarkers as compared to established serum biomarkers in predicting pre –eclampsia: A nested case control study, Dr. Ashok Kumar Ahirwar, AIIMS, Delhi (Intra mural Project), 2 Years, 2024-2026, 10 Lakhs
11. Evaluation of the role of Vitamin D receptor (VDR) polymorphisms on the efficacy of calcitriol therapy in stage 3 to 5 chronic kidney disease: A prospective double-blind study: Funded by ICMR, Dr. Sudip Kumar Datta, ICMR, 3 years 6 months, 2021, -2025, Rs 53.97 Lakhs
12. Molecular interaction of iron trafficking gene variants with mitochondrial dysfunction in metabolically associated fatty liver disease, Dr Shyam Prakash, ICMR, 3 Years, 2022-2025, Rs 55.5 Lakhs
13. Rapid diagnostic evaluation of Micro PCR for Hepatitis B virus DNA quantitation, Dr Shyam Prakash, BigTech Bangalore, 6 Years, 2017-2025, Rs 52 Lakhs
14. Task force to establish reference interval in Indian population, Tushar Sehgal, ICMR, Delhi, 2, 2025, 2027, 1.4 Crore

Completed

1. An expensive and rapid diagnostic method for detection of SARS COV-2 and COVID -19 RNA by loop mediated isothermal amplification (LAMP), Dr Shyam Prakash, Intramural AIIMS, 3 Yeas, 2020-2023, Rs 10 Lakhs
2. Development and validation of Standalone meter for non-invasive salivary glucose quantification, Dr Shyam Prakash, BIRAC (DST), 2 Years, 2022-2024, Rs 10 Lakhs
3. Evaluation of EIP in PUO and its correlation with functional imaging and conventional inflammatory parameters, Tushar Sehgal, Sysmex, India, 2 Years, 2022-2024, Rs 13 Lakhs
4. Evaluation of Rapid TEG in predicting acute trauma induced coagulopathy in severe TBI, Tushar Sehgal, AIIMS, Delhi, 2 Years, 2022-2024, 5 Lakhs
5. Molecular coordination of T-regulatory cells and Prokineticins in obesity and their clinical correlation in obesity associated inflammation in non-alcoholic fatty liver disease and metabolic syndrome, Dr Shyam Prakash, ICMR, 3 Years, 2021-2024, Rs 75.87 Lakhs
6. Triacetylfusarinine C in urine as a potential biomarker for diagnosis of invasive aspergillosis in hematological malignanacy patients, Dr Suneet Meena, Intramural AIIMS, 3 Years, 2022-2025, Rs 9 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. Association of Vitamin D Receptor Gene Polymorphisms with Severity In Dengue Fever Amongst North Indian Adults
2. Carbapenem Resistance in *Pseudomonas aeruginosa* Causing Urinary Tract Infections at a Tertiary Care Setting
3. Comparative analysis on free radical scavenging efficiency in Sickle Cell anaemia patients from diverse geographical regions and insights into the link with iron homeostatic mechanism
4. Comparision of Urine Galactomannan with serum galactomannan for Diagnosis of Invasive Aspergillosis in Patients of Hematological Malignancy
5. Comparison of antimicrobial susceptibility in isolates causing UTI at inpatient and outpatient setting
6. Evaluation Of Blood and Urinary Biochemical Parameters In Autosomal Dominant Polycystic Kidney Disease And Comparison With Healthy And Disease Controls

7. Evaluation of coagulation status in post partum patients in a tertiary care hospital
8. Evaluation of Extended inflammatory parameters for early identification of bacterial sepsis using automated CBC analyser
9. Identification of transcriptomic, lipidomic, and mitochondrial challenges in NAFLD and HCC
10. Impact of teleomere length in reprogramming of glycolytic mediated mitochondrial oxidation in metabolic dysfunction associated steatotic liver disease related hepato cellular carcinoma.
11. Molecular characterization of transfer RNA derived RNA fragments and expression of mitochondrial fusion proteins in Non-alcoholic fatty liver disease.
12. PCOS and its correlation with Vitamin B1, Sex hormone binding globulin and PAI-1
13. Prevalence Of Microsporidia in patients with haematological malignancy and bone marrow transplant recipients
14. Role of Glucose regulated protein-78 and Fatty acid binding protein-4 in Non-alcoholic fatty liver disease and type-2 diabetes mellitus patients.
15. Serological assessment of Varicella Zoster Virus antibody titre in patients receiving Immunosuppressive therapy: Implication for vaccine response and Herpes Zoster Risk
16. Seropositivity of vaccine preventable diseases in healthcare workers
17. Study of Gut Microbiota in Post menopausal women

Completed

1. Association of GRP-78, Zinc, Iron and vitamin C levels in patients with COVID-19 and the occurrence of mucormycosis
2. CAP-53194, a novel predictive tumor inhibitor of polo-like Kinase- 1
3. Effect of varying concentrations of proteins and lipids on electrolyte measurement by direct and indirect ion-selective electrodes
4. Epidemiology of diarrhea among Children under 10 years of age- at a Tertiary care hospital
5. Evaluation of myelin loss and oligodendrocyte pathology in severe traumatic brain injury
6. Molecular coordination of Adropin, Irisin, preptin gene expression in metabolic syndrome and type -2 diabetes mellitus patients
7. Molecular expression and interaction between growth differentiation factor -15 (GDF-15) and nitric oxide regulatory genes in diabetes and metabolic syndrome
8. Molecular interaction of reactive oxygen species in mitochondrial dysfunction and nrf-2 gene expressions in polycystic ovary syndrome (PCOS)
9. Prevalence of Microsporidia in renal transplant recipients at a tertiary care hospital
10. Role of endothelial GATA 4 and Platelet derived growth factor-B in Metabolic associated Fatty Liver Disease
11. Role of Serum Matrix Metalloproteinase 7 Levels in Diagnosis and Prognostication of Infants with Extra-Hepatic Biliary Atresia
12. Structural and functional adaptation in renal, cardiovascular and bone mineral metabolism in living kidney donors: a prospective observational study

Collaborative projects

Ongoing

1. A Prospective Cohort study on Trajectories of Postpartum Weight Risk factor Associated with Weight Retention and its Relationship with metabolic Derangements Till 18 months, Gynecology
2. Advance centre for clinical evaluation of diagnostics of national importance, Department of Biophysics
3. Air Pollution impact on Pregnancy and Early childhood Development in India – (APiPED Cohort), Community Medicine
4. Assessment of eating behavior and nutritional chronotypology and its association with body composition and metabolic parameters in obese adults, Department of Medicine, AIIMS, New Delhi

5. Association of thyroid hormone resistance indices with steatotic liver disease, cardiometabolic risk factors and sarcopenia in Euthyroid Asian Indians with Type 2 diabetes: a cross-sectional study, Department of Medicine, AIIMS, New Delhi
6. Biochemical and enzymatic analysis of bile in choledochal cyst and correlation with histopathological features and expression of immune modulators, Department of Pediatric Surgery, AIIMS, New Delhi
7. Cabergoline as an adjunct to Ovalation Induction in infertile women with Endometriosis: An Open-Randomized Study, Gynecology
8. Determining cutoff for handgrip strength and muscle mass for sarcopenia in Indian adults: A multicenter study across 6 geographical zones, Department of Medicine, AIIMS, New Delhi
9. Effect of body composition on gait, balance and strength in obese individuals in comparison to non-obese individuals, Department of Medicine, AIIMS, New Delhi
10. Effect of nutrition intervention and physical activity on markers of ageing, metabolic derangement and inflammation among Indian adults with obesity: a prospective study, Department of Medicine, AIIMS, New Delhi
11. Effective of an anti inflammatory dietary intervention on inflammatory biomarkers in Coronary Artery Disease patients, Biochemistry
12. Effectiveness of an individualized lifestyle intervention in PCOS women who wish to conceive: a multicenter randomized controlled trial, Multicentric project
13. Evaluation of micro-RNA profiles in the follicular fluid of women with and without PCOS and their correlation with IVF outcomes: A case-control study, Department of Obstetrics and Gynaecology, AIIMS, New Delhi
14. Evaluation of prevalence, regional phenotypic variation, comorbidities, risk factors and the variations in response to different therapeutic modalities among Indian women with polycystic ovary syndrome (PCOS): A Multicenter study across India, Multi-centric project
15. Evolution of cerebral edema, blood-brain barrier disruption and its subsequent restoration, along with the comparison of equiosmolar solutions in pediatric traumatic brain injury patients, Department of Neurosurgery, JPN Trauma Centre, AIIMS, New Delhi
16. Explore the potential of Yoga Nidra (deep relaxation) in managing stress, a key contributor to inflammation and metabolic dysfunction among Indian adults with obesity, Department of Medicine, AIIMS, New Delhi
17. Gut Microbiota in children with moderate to severe Anaemia and its Response to Treatment, Gastroenterology
18. Identification of biomarkers, development of predictive equations and risk scores for Dynapenia, / sarcopenia in obese Indian adults with and without type 2 diabetes mellitus, Department of Medicine, AIIMS, New Delhi
19. Randomized controlled trial to compare the impact of costal expansion exercises and dietary intervention on lung function, rate of perceived exertion, and quality of life in obese individuals, Department of Medicine, AIIMS, New Delhi
20. Randomized Controlled trial to compare the impact of exercise and nutritional interventions on changes in skeletal muscle mass and function in obese patients with sarcopenia, Department of Medicine, AIIMS, New Delhi
21. Study of expression of hypoxia inducible factor and angiogenic cytokine in breast cancer patients receiving hyperbaric oxygen therapy in addition to neoadjuvant chemotherapy, Department of Surgical Discipline, AIIMS New Delhi
22. Study of the evolution of cerebral edema, neuroinflammation and blood-brain barrier disruption in pediatric traumatic brain injuries, Department of Neurosurgery, JPN Trauma Centre, AIIMS, New Delhi
23. To evaluate the personality traits and assess the impact of humanistic psychotherapy for trait-specific intervention on body composition and metabolic parameters in obese subjects, Department of Medicine, AIIMS, New Delhi
24. To evaluate the utility of novel molecular techniques (multiplex PCR, dipstick and NGS) for early identification of ESKAPE organism and antimicrobial profiling in burn wounds, Deptt of Burn and Plastic Surgery

Completed

1. A double-blind randomized placebo-controlled trial comparing genotype-guided standard dosing with a conventional dose escalation strategy of azathioprine in patients with ulcerative colitis, Department of Gastroenterology, AIIMS, New Delhi

2. Randomized controlled trial to compare the effect of dietary intervention and resistance exercises on changes in muscle strength, mass and function in Type-2 diabetes patients with Dynapenia and sarcopenia, Department of Medicine, AIIMS, New Delhi
3. Expression of Immune checkpoints (CTLA-4, PD-1, PD-L1), cytokines and T-reg cells in Lupus Nephritis, Department of Nephrology, AIIMS, New Delhi
4. Comparative evaluation of endocrine disrupter chemicals (organochlorine, organophosphate, Biphenyl A, Phthalate)in polycystic ovary syndrome, type-2 diabetes mellitus and healthy reproductive age Indian women, and their correlation with dietary habits (vegetarian Vs non-vegetarian) and genetic variability, Multi-centric project
5. Role of T- T-Regulatory cells (T-regs) in obesity and their clinical correlation in obesity associated inflammation in type 2 diabetes and chronic kidney disease (CKD), Department of Nephrology, AIIMS, New Delhi
6. To examine myelination and changes in oligodendrocytes in white matter pathology post-severe traumatic brain injury (sTBI) among humans, Forensic Pathology and Molecular DNA, JPNATC AIIMS, New Delhi
7. Comparison of dried blood spots and plasma samples for the quantification of amino acids using the HPLC method among inborn error of metabolism patients, Division of Genetics, Department of Paediatrics, AIIMS, New Delhi
8. Effect of parental presence on stress biomarkers, melatonin level and anxiety scores during induction of anaesthesia in children undergoing ophthalmic procedures. A randomized controlled trial, Department of Anesthesia, RPC AIIMS, new Delhi
9. Study of molecular and peripheral blood biomarkers and their utility to diagnose mild and moderate TBI-induced cognitive impairment, Department of Laboratory Medicine, JPNTC, AIIMS New Delhi
10. A study of the association of metabolic dysfunction-associated fatty liver disease (MAFLD) and dynapenia/ sarcopenia with cardio-metabolic risks, Department of Medicine, AIIMS, New Delhi

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Sudip Kumar Datta was Member, International Federation of Clinical Chemistry & Laboratory Medicine (IFCC) Task Force- Ethics (1st term 2020-2022, 2nd term 2023-2025). He was Member, Technical Advisory Committee for various projects supported under ICMR-MDMS. He was Chairman, Medical Laboratory Instruments Sectional Committee, MHD-10 at Bureau of Indian Standards (BIS). (2023 – till date). He was Member, ICMR Task Force for Establishment of Reference Intervals in Indian Population (TERIP) (2022-till date). He completed PhD thesis evaluation: PGIMER, Chandigarh. He completed MD Thesis evaluation: AIIMS, Jodhpur and PGIMER, Chandigarh. He was State Representative, Delhi for Association of Clinical Biochemists of India (ACBI).

Dr Shyam Prakash was Associate editor of Manipal Journal of Medical Sciences. He was Organizing Secretary of IABS-North Zone 2024 at AIIMS, New Delhi. He was IABS Associate Editor in Journal of Indian Academy of Biomedical Sciences. He was External expert member at DIPAS, Delhi on Phase-I clinical trials (Nano-curcumin formulation for bioequivalence and bio-distribution studies). He was Poster Judge at ASBMB (American Society of Biochemistry and Molecular Biology). He was Poster Judge at ASBMB (American Society of Cell Biology). He completed PhD Thesis evaluation on (a) DIPAS-DRDO, New Delhi and (b) NIMS, Hydrabad. He was Chairperson and panellist for various conferences (IABS-CON, ACBI-CON, ISAR-DCCON, ISBH-2024, etc). He was BMJ South Asian Award 2024 Finalist in the category "Excellence in Medical Education". He was Visiting Faculty in SKIMS (Sher-e-Kashmir Institute of Medical Sciences), Central Research Unit, Srinagar, (J&K).

Dr Suneeta Meena was Panelist and speaker at "Key needs to enable an effective start of implementation of the framework in India i.e.strengthening biorisk mitigation and DUR governance taking into account your specific contexts and settings" by **WHO** Science division.

Dr Tushar Sehgal received Commendation award-AIIMS Research day, 30 January 2025 Innovative devices category, AI based PBF analysis and CBC reporting. Distinguished Abstract award at the Academy of Diagnostic and Laboratory Medicine, Chicago, USA, 28 July–1 August 2024 on the Utility of Kaolin TEG and rapid TEG to predict coagulopathy in severe traumatic brain injury. Ganatantra Diwas Puraskar on 25 January 2025 for inspiring contribution award at International Multidisciplinary research foundation, Vijaywada, AP.

Dr Rojaleen Das Has been awarded with Post Graduate Diploma in Applied Epidemiology from National Institute of Health and Family Welfare On February 2025.

VISITING SCIENTIST

Dr Jay Kalra, Professor, Department of Pathology, University of Saskatchewan, Canada has been invited as Guest of Honor and delivered Plenary lecture on "Error Disclosure in the Laboratory" in the 5th National Conference of Indian Confederation of Medical Laboratory Science (ICMLS) 2024 on 16 November 2024.

Professor Arun Garg, PhD, MD, FRCPC, Consultant Medical Biochemist, Laboratory Medicine and Pathology, Fraser Health; Clinical Professor, Department of Pathology & Laboratory Medicine, UBC; Adjunct Professor, Faculty of Health Sciences, Simon Fraser University

HIGHLIGHTS

The Department of Medicine at AIIMS New Delhi has experienced a year of remarkable progress in clinical care, academics, and public health leadership. Our specialized clinics—including Infectious Disease, Metabolic, Chest, and Sleep—have continued to provide cutting-edge, compassionate care across a wide disease spectrum. Academically, we revitalized our departmental website and integrated Google Classroom to create a dynamic, accessible digital learning environment. This blend of technology with bedside mentorship has strengthened training across MBBS, MD, and DM levels. The department hosted the prestigious "Inquisito" National Medicine Quiz 2025, fostering scholarly exchange and showcasing academic brilliance. Our residents excelled nationally, winning the National Rheumatology Quiz-2024 and receiving Best Paper Presentations during institutional Research Day events—testaments to our emphasis on research-oriented, evidence-based training. Research endeavors flourished, with faculty securing competitive grants and publishing in leading journals. Interdisciplinary grand rounds, simulation-based training, and virtual case discussions enriched postgraduate learning. Public engagement was strengthened through health camps, while our faculty continued to play pivotal roles in national policy-making and curriculum design. With its enduring commitment to excellence, innovation, and service, the department remains a guiding light in India's medical landscape—honoring tradition while forging the future.

EDUCATION

The department is at the forefront of medical education, providing a vibrant and enriching learning environment for both undergraduate and postgraduate students. Our curriculum is thoughtfully designed to integrate lectures, seminars, and an array of interactive sessions, including Clinical Combined Rounds (CCR), Clinical Grand Rounds (CGR), journal clubs, mortality meetings, Infectious Diseases meets, and monthly updates on antibiotic stewardship. These are complemented by rigorous bedside clinical case discussions that offer hands-on learning experiences. In the last 1 year, a strong emphasis is laid on diagnostic stewardship as well as quality improvement initiatives including comprehensive training programs in hand hygiene compliance, rational testing order and infection control. We proudly nurture the academic and professional growth of 70 MD students, 44 DM-Infectious Diseases candidates, and 23 Senior Residents. Our educational philosophy is centered on delivering exceptional training that meticulously aligns learning objectives with practical opportunities and assessments to maximize educational outcomes. We are committed to continuously advancing the caliber of our clinical training to adhere to the most stringent standards of research and patient care.

Our residents also gain invaluable global exposure through international observerships and active participation in national and international conferences, where they present both orally and through posters. Their achievements include accolades in National Quizzes, showcasing the depth of their knowledge and research acumen. Furthermore, our enhanced orientation program for new residents includes research methodology workshops.

Undergraduate education is equally prioritized. MBBS students benefit from a dedicated faculty-mentor model with batch-specific supervision, bedside clinical case discussions, individual bed allotments for focused learning, evening emergency classes, and weekly formative assessments. Simulation-based learning and Basic Life Support (BLS) training are incorporated early into their curriculum to build confidence in real-world settings. Students are actively encouraged to pursue research alongside faculty, with many already contributing to ongoing projects. Our faculty also engage in regular teaching of BSc Nursing students, ensuring they are not only taught theoretical medicine but also its practical, compassionate application at the bedside.

CMEs/Workshops/Symposia/National and International Conferences

1. National Level PG Medicine Quiz "INQUISITO-5", 13 April 2024 at AIIMS, New Delhi
2. National Level PG Medicine Quiz "INQUISITO-6", 30 March 2025 at AIIMS, New Delhi

Lectures delivered at CMEs, National and International Conferences

Lectures delivered: 26

Naval K Vikram: 5	**Manish Soneja: 4**	**Arvind Kumar: 3**	**Neeraj Nischal: 1**
Amandeep Singh: 1	**Animesh Ray: 2**	**Upendra Baitha: 1**	**Siddharth Jain: 9**

Naval K Vikram

1. Stroke in Young, IACMCON-2024, 30th Annual Conference of Indian Association of Clinical Medicine, 27-29 September 2024, Udaipur, Rajasthan
2. Sarcopenia & Sarcopenic Obesity, 36th Annual Conference of Association of Physicians of India-Rajasthan Chapter, RAJAPICON-24, 26-29 October 2024, Jodhpur, Rajasthan
3. Chrono-nutrition with Anthropometric and Metabolic Parameters in Adult Asian Indians, The Obesity Week 2024, 3-6 November 2024, San Antonio, USA
4. Diabetes and liver, World Congress of Diabetes -2025, 13-16 February 2025, Ahmedabad, Gujarat
5. GLP-1 RAs- delivering beyond sugars, AB-MEDCON 2025, 22 March 2025, Bhubaneswar, Orissa

Manish Soneja

1. Mpox: Clinical Symptoms and Differential Diagnosis, NCDC, DGHS, MOHFW, 24 August 2024, Delhi
2. Mpox: Treatment Modalities, NCDC, DGHS, MOHFW, 24 August 2024, Delhi
3. Abdominal TB Management: Physicians Perspective, ESIC FORTNIGHT 2025, 8 March 2025, Delhi
4. Interpretation of Diagnostic tests in Infectious Diseases, APICON, 24 January 2025, Kolkata

Neeraj Nischal

1. Challenges in the management of EPTB**,** Regional Workshop on "Translating Global and Regional Political commitments towards Ending TB into Action in the South-East Asia Region"**,** 24 April 2024**,** Bangkok Thailand

Arvind Kumar

1. Bradyarrythmias: Stable/Unstable, ACLS & BLS Course by American Heart Association, 24 April 2024, International Training Center, AIIMS, New Delhi
2. Tuberculosis - Management of DST, MDR and XDR TB, 2nd National Conference of Advanced Integrated Modern Medicine Conference (AIMCON-25), 9 June 2024, Bettiah, Bihar
3. Escalating Antibiotics in Infectious Disease, 6th Medicine Update, organised by API IGIMS, 1st March 2025, Patna, Bihar

Animesh Ray

1. Fungal colonization vs true pathogen in the respiratory tract, CME "AMR in Fungal Infections", 15th September 2024, Delhi
2. The Microbiome in Bronchiectasis: Clinical Relevance and Implications, NAPCON 2024-26th Joint National Conference on Pulmonary Diseases under the aegis of National College of Chest physicians (India) and Indian Chest Society, 21-24 November 2024, Coimbatore/India

Upendra Baitha

1. Evaluating the impact of selenium supplementation on iron deficiency anaemia : Insights form a clinical trial, APICON - 2025, 24 January 2025, Kolkata, West Bengal

Siddharth Jain

1. Spondyloarthritis difficult case, Ankylosing Spondylitis Assembly 2024, 11 August 2024, New Delhi
2. Panel discussion on SLE, DELHI RHEUMATOLOGY ASSOCIATION MIDTERM CME: What's new in Rheumatology?, 1 September 2024, New Delhi
3. Infection Related Arthritides, IACMCON 2024 (30th Annual Conference of Indian Association of Clinical Medicine), 29 September 2024, Udaipur
4. Inflammasome- the balancing act (far and beyond), IRACON 2024, 21 November 2024, Bengaluru
5. Systematic Review Protocol Building and Registration, SARANSH workshop, 18 December 2024, New Delhi
6. Reference Management Softwares: Zotero, SARANSH workshop, 19 December 2024, New Delhi
7. Risk of Bias (RoB/RoB2), SARANSH workshop, 20 December 2024, New Delhi
8. Creating Summary of Findings Table from GRADEPro, SARANSH workshop, 22 December 2024, New Delhi
9. Antiphospholipid syndrome: Challenges in diagnosis and management, Annual DRA Update 2025, 9 February 2025, New Delhi

Amandeep Singh

1. "Motivational Therapeutics – Managing Obesity and Diabetes", Annual Conference, RSSDI Jharkhand, 2025, 23rd March 2025, Ranchi, Jharkhand

LECTURES DELIVERED OVER PAST 3 YEARS

2022–2023	2023–2024	2024–2025
36	9	28

List of oral papers/posters presented: 10

1. Ajayababu A, Ray A, Singh G, Xess I, A validation study of BM-AspICU algorithm for diagnosing invasive pulmonary aspergillosis in critically ill patients using post-mortem minimally invasive tissue sampling, ERS International Congress 2024- Virtual, 7–11 September 2024, RX Messe Wien in Vienna, Austria
2. Ajayababu A, Ray A, Singh G, Xess I, A validation study of BM-AspICU algorithm for diagnosing invasive pulmonary aspergillosis in critically ill patients using post-mortem minimally invasive tissue sampling, ISHAMASIA 2024, 1-3 August 2024, Bangkok, Thailand
3. Jain S, Bhargavi P, Khan AR, et al, Clinico-Immunological Profile and Treatment Outcomes of Clinically Significant Diaphragmatic Weakness in Patients with Idiopathic Inflammatory Myopathies: Results from the Largest Single-Center Cohort of 16 Cases, American College of Rheumatology (ACR) Convergence 2024, 17 November 2024, Washington DC (USA)
4. Jain S, Jha D, Khan AR, et al, VEXAS syndrome presenting as waxing and waning large vessel phlebitis and periarteritis with minimal vacuolation: Expanding the clinical spectrum, Clinical Rheumatology Conference 2024, 21 April 2024, Hyderabad
5. Kumar A, Y Harlokesh, Wig N, Evaluating The Impact Of Selenium Supplementation on Iron Deficiency Anemia: Insights From A Clinical Trial, 80th Annual Conference of Association of Physicians in India APICON 2025 at Kolkata , 24 January 2022, Kolkata
6. Naval K Vikram, Divya Tripathi, Mansi Mittal, Payal Garg, Mayank Pandey, Mriga Jain, et al, "Chrono-nutrition with Anthropometric and Metabolic Parameters in Adult Asian Indians", The Obesity week 2024, 3rd to 6th November 2024, San Antonio, USA
7. Ray A, Ajay babu A, Jain D, Singh G, Xess I, Wig N, A Validation Study of Bm-AspICU Algorithm For Diagnosing invasive Pulmonary Aspergillosis In Critically Ill Patients using Post-Mortem Minimally Invasive Tissue Sampling, Chest 2024, 6-9 October 2024, Boston, Massachusetts

8. Ray A, Khullar R, Dass J, Kaur J, Wig N, High dose vitamin D3 on haemoglobin levels in mechanically ventilated patients with sepsis: A placebo-controlled randomized trial, 28th Congress of the APSR 2024, 7-10 November 2024, Hong Kong
9. S J Ranveer, Impact of resistance exercise on muscle strength, mass and BMD Osteosarcopenic obese individuals, Obesity Week, 5 November 2024, San Antonio, USA
10. Sinha S, Poster presentation on Post TB Sequelae, ATS, May 2024, San Diego, USA

ORAL/POSTER PRESENTED OVER PAST 3 YEARS

RESEARCH

Funded projects

Ongoing

1. A longitudinal study to assess the incidence of chronic pulmonary aspergillosis in pulmonary tuberculosis patients and identification of Aspergillus immunodiagnostic antigens, Dr. Animesh Ray, AIIMS, Intramural, 3 Years, 2023-2025, Rs 9,99,990
2. A preliminary study to validate BM-AspICU algorithm for diagnosing invasive pulmonary aspergillosis in critically ill mechanically ventilated patients using post-mortem minimally invasive tissue sampling", Dr Animesh Ray, ICMR, 3 Years, 2023-2026, Rs 40,00,000
3. A randomized controlled trail of vitamin D supplementation on leukocyte telomerase length and telomerase activity in obese Individuals from north Indian with non—alcoholic fatty liver disease, Dr. Ranveer Singh Jadon, ICMR, 3 Years, 2024-2027, Rs 23,12,515
4. A randomized placebo-controlled trial to assess efficacy of Vitamin-D supplementation in non-cystic fibrosis bronchiectasis patients, Dr. Animesh Ray, ICMR, 3 Years, 2024-2027, Rs 76,51,252
5. A study on association of Metabolic Dysfunction Associated Fatty Liver Disease (MAFLD) and dynapenia/ sarcopenia with cardio-metabolic risk, Dr Naval K Vikram, ICMR, 3 Years, 2023-2026, Rs 59,13,114
6. A study on the underlying immune deficits and co-infections in patients with chronic pulmonary aspergillosis, Dr Animesh Ray, AIIMS, Intramural, 2 Years, 2024- 2026, Rs 20 Lakhs
7. Advanced study of Obstructive sleep apnea (OSA) in the patients with heart failure: Incorporating Artificial Intelligence in OSA-Heart failure diagnosis and management, Dr Sanjeev Sinha, TIH, IIT, Indore, 3 Years, 2024-2027, Rs 35,70,063
8. Artificial Intelligence based Decision Support System for Diagnosing Ventilator Associated Pneumonia, Dr Animesh Ray, DHR, 3 Years, 2021-2024 (extended till May 2025), Rs 26,86,419
9. Association of Glycemic Variability with Hepatic Steatosis, Sarcopenia and Immunometabolic Parameters in Type 2 Diabetes Patients, Dr Prayas Sethi, AIIMS Intramural, 1 Year, 2024-2025, Rs 5 Lakhs
10. Correlation of muscle and hand grip with body composition in different body mass index participants", Dr Upendra Baitha, ICMR, 3 Years, 2023-2026, Rs 2,22,282
11. Development and Evaluation of a Comprehensive retraining module for patients with obesity to achieve clinically significant weight loss- An open-label randomized controlled trial, Dr Piyush Ranjan, DST, 3 Years, 2023-2026, Rs 46.36 Lakhs
12. Development and Evaluation of an Individualized Weight management module for young adults. Principal Investigator. Amount 57.16 Lakhs. Funded by ICMR, Dr Piyush Ranjan, ICMR, 3 Years, 2022-2025, Rs 57.16 Lakhs
13. Development and validation of an indigenous (1→3)-β-D-glucan (BDG) assay for diagnosing and prognosticating invasive fungal infections, Dr. Animesh Ray, AIIMS, Intramural, 2 Years, 2023-2025, Rs 20 Lakhs
14. Development and Validation of Immunoassays to Aid in Diagnosing and Assessing Treatment Response in Chronic Pulmonary Aspergillosis, Dr Animesh Ray, ICMR, 3 Years, 2024-2027, Rs 59,65,142

15. Development of machine learning models for predicting obstructive sleep apnea. A multicentric study, Dr Sanjeev Sinha, TIH, IIT Bombay DST, 2 Years, 2025-2027, Rs 1.10 Crore
16. Diagnostic accuracy of an AI based screening system for detection of pulmonary tuberculosis using cough sounds and symptoms, Dr. Neeraj Nischal, Wadhwani, 2 Years, 2025-2027, Rs 14 Lakhs
17. Diagnostic accuracy of cell free DNA in Mucormycosis, Dr Arvind Kumar, AIIMS (Intramural), 2 Years, 2025-2027, Rs 2 Lakhs
18. Early Detection of Obesity-Related Glomerulopathy in the Asian Indian individuals: Evaluating the Role of Novel Biomarkers for Kidney Injury- A Cross-Sectional Study, Dr Amandeep Singh, AIIMS New Delhi, 1 Year, 2024-2025, Rs 5 Lakhs
19. Effect of high dose vitamin D3 on hemoglobin concentrations of mechanically ventilated patients with sepsis: A placebo-controlled randomized controlled trial", Dr. Animesh Ray, ICMR, 3 Years, 2022-2025, Rs 50,47,800
20. Efficacy and safety of leuprolide acetate in reducing ovarian toxicity of intravenous cyclophosphamide in young females with autoimmune rheumatic diseases: An assessor-blinded, randomized controlled trial, Dr Siddharth Jain, ICMR, 3 Years, 2024-2027, Rs 84.5 Lakhs
21. Efficacy of Montelukast in reducing incidence of warning signs and severe disease in patients with dengue fever: A phase 2, double-blind, placebo-controlled, randomized trial, Dr Manish Soneja, ICMR, 3 Years, 2024-2027, Rs 75,00,000
22. Evaluating The Association Of Fatty Kidney With Risk Of Cardiometabolic Disorders And Kidney Functions: A Comparative Study Of Metabolically Healthy And Unhealthy Obese And Non Obese Asian Indian Individuals, Dr Amandeep Singh, ICMR, 3 Years, 2024-2027, Rs 98,07,427
23. Evidence synthesis for evidence-based Guidelines on Empirical Use of antibiotic for Upper respiratory infections, Acute undifferentiated fevers and community acquired pneumonia: conducting systematic reviews/meta-analyses, Dr. Animesh Ray, ICMR, 3 Months, 2025,-2025, Rs 5,13,500
24. Long term exposure to air pollution and their correlation with disease severity and outcomes in patients with influenza like illnesses and COVID-19 in Indian Population: A prospective multi-centric study, Dr Upendra Baitha, ICMR, 3 Years, 2024-2027, Rs 1,86,71,755
25. Nebulized amphotericin B added to oral azoles in chronic pulmonary aspergillosis patients: A Placebo-controlled, Double-blinded Multicentric Randomized Controlled Trial (NAB trial), Dr Animesh Ray, ICMR, 4 Years, 2024-2028, Rs 2,89,70,598
26. NMR based CSF metabolomics for biomarker identification of seizures in TBM patients, Dr Bindu Prakash, AIIMS (Intramural), 2 years, 2023-2025, Rs 10 Lakhs
27. NMR-based CSF metabolomics for biomarker identification for poor outcomes in TB Meningitis Patients, Dr Bindu Prakash, AIIMS (interdisciplinary, 2 Years, 2024-2026, Rs 20 Lakhs
28. Prevalence of dynapenia/ sarcopenia and its association with metabolic parameters, body composition and bone mineral density in postmenopausal women: A cross-sectional study, Dr. Ranveer Singh Jadon, DHR, 3 Years, 2023-2026, Rs 9,07,608
29. Randomized control trial to study the impact of weight bearing and resistance exercise with nutritional intervention on bone and muscle health in obese patients with Osteosarcopenia, Dr. Ranveer Singh Jadon, ICMR, 3 Years, 2022-2025, Rs 76,74,989
30. Randomized Controlled Trial to compare the effect of dietary intervention and resistance exercises on changes in skeletal muscle strength, mass and function in Type 2 Diabetes patients with Dynapenia and Sarcopenia, Dr Naval K Vikram, ICMR, 3 Years, 2022-2025, Rs 73,46,403
31. Screening for autoinflammatory syndromes in undiagnosed patients presenting with recurrent or persistent sterile inflammation: A pilot study, Siddharth Jain, AIIMS Intramural, 2 Years, 2024-2026, Rs 10 Lakhs
32. Secondary Cervical Cancer Prevention of Vulnerable Women with HPV and HIV Co-Infection in India. One international multicentric study, Dr. Sanjeev Sinha, National Institutes of Health (NIH), 5 Years, 2024-2029, USD129,171.
33. Study of the upper airway anatomy using magnetic resonance imaging in Indian obese patients with and without obstructive sleep apnoea, Dr Sanjeev Sinha, SERB, DST, 3 Years, 2024-2027, Rs 75 Lakhs
34. Study on the impact of continuous glucose monitoring system on achievement of glycemic and clinical outcomes in critically ill patients, Dr Ved Prakash Meena, Intramural AIIMS, 1 Year, 2023-2025, Rs 5 Lakhs

35. To compare the effect of Indo-Mediterranean Diet with continuous energy restriction diet on hepatic steatosis and fibrosis, RNA Biomarkers, body composition and metabolic parameters in adult with non-alcoholic fatty liver disease, Dr Naval K Vikram, DHR, 3 Years, 2024-2027, Rs 44,78,700
36. To evaluate the personality traits and assess the impact of humanistic psychotherapy for trait specific intervention on body composition and metabolic parameters in obese subjects, Dr Naval K Vikram, ICMR, 3 Years, 2023-2026, Rs 59,43,606
37. To study the role of serum proteomics profiles in subjects with metabolic syndrome, Dr Upendra Baitha, DHR, 3 Years, 2023-2026, Rs 22 Lakhs

Completed

1. A randomized controlled trial of 6 months yogic exercise vs regular physical activity on body composition, multiple metabolic measures in North India individuals with non-alcohohlic fatty liver disease and obesity, Dr Naval K Vikram, DST, 3 Years, 2019-2023, Rs 96,39,720
2. A study on genetic defects predisposing to Chronic pulmonary aspergillosis from a North Indian tertiary referral centre, Dr Animesh Ray, Fungal Infection Trust, International, 1 Year, 2023-2024, Rs 33,60,575/-
3. Adherence Need Assessment tool development and validation among asymptomatic PLHIV to improve adherence to Anti retroviral Therapy", Dr. Naveet Wig, ICMR, 2 Years, 2022-2024, Rs 28 Lakhs
4. Determining the prevalence of respiratory diseases in walk-in-patients, Dr. Sanjeev Sinha, Alveofit, India-Sweden Healthcare Innovation Centre, 18 Months, 2023-2024, Rs 5,13,648
5. Effect of weight loss on hemoglobin and its association with immuno-metabolic parameters in obese patients, Dr Prayas Sethi, Intramural, 2 years, 2022-2024, Rs 5 Lakhs
6. Immunological response to COVID-19 vaccination in adult patients with HIV infection, Dr Neeraj Nischal, ICMR, 2 Years, 2022-2024, Rs 76 Lakhs
7. Randomized controlled trial to compare the impact of exercise and nutritional interventions on muscle functional improvement and changes in skeletal mass in obese patients with sarcopenia, Dr Naval K Vikram, ICMR, 3 Years, 2019-2023 (extension), Rs 83,01,698
8. Sarcopenia in people living with HIV/AIDS: Clinico-metabolic and hormonal correlates and the effect of resistance training exercises, Dr Prayas Sethi, ICMR, 3 Years, 2021-2024, Rs 19 Lakhs
9. Screening for underlying inborn errors of immunity in high-risk adults and assessment of its diagnostic, treatment and prognostic implications, Dr. Siddharth Jain, APLAR (Asia Pacific League of Associations for Rheumatology), 1 Year, 2023-2024, 14000 USD
10. Study of the course of somatic symptoms severity and disability in patients with medically unexplained physical symptoms (MUPS) in an Indian setup- [AIIMS MUPS Cohort Study], Dr Piyush Ranjan, DST, 1 Year, 2021-2022, Rs 9.28 Lakhs
11. Study the effectiveness of pulmonary rehabilitation on functional exercise capacity and health-related quality of life (HRQOL) in patients with post tuberculosis lung disease: a multicentric pre and post-interventional study, Dr Sanjeev Sinha, ICMR, 1.2 Years, 2023-2024, Rs 60,18,226
12. To compare the effect of Intermittent fasting and Continuous energy restriction on body composition, multiple metabolic and physiological parameters in obese adults, Dr Naval K Vikram, ICMR, 2 Years, 2021-2023(extension), Rs 53,16,985
13. To evaluate the gaps in the diagnosis and treatment in extra-pulmonary tuberculosis patients under National Tuberculosis Elimination Programme (NTEP) guidelines among various multi-specialties: a multicentric observational study, Dr Sanjeev Sinha, ICMR, 24 Months, 2023-2025, Rs 63,18,226
14. To study the effect of Vitamin C and Thiamine in patients with sepsis in Indian Population: Single blind, Parallel Group, Randomized controlled trial, Dr Arvind Kumar, ICMR, 3 Years, 2021-2024, Rs 57 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. A study on incidence and factors affecting exacerbation in bronchiectasis patients
2. A Study To Estimate Colonisation Rates of Clostridium difficile in Hospitalised Patients

3. Analysis of clinicopathological profile, treatment pattern and outcome of patient with NSCLC harboring driver mutation
4. Assessment of Epstein-Barr Virus Viremia in Patients with Hemophagocytic Lymphohistiocytosis-A Prospective Cohort Study
5. Association between mups, metabolic syndrome, and sexual dysfunction (erectile dysfunction and premature ejaculation) among adult males: a cross-sectional survey from a tertiary care centre in north India
6. Association of Adipose-Muscle Phenotypes with Clinical and Metabolic Parameters in Adult Patients with Metabolic Dysfunction Associated Steatotic Liver Disease (MASLD)
7. Clinical, immunological, radiological correlates of paradoxical reaction in lymph node tuberculosis in HIV seronegative patients
8. Clinical, Radiological, Microbiological profile of chronic pulmonary aspergillosis patients undergoing resective surgery
9. Clinicodemographic and Electrophysiological Profile of ATT Induced Peripheral Neuropathy in patients with MDR/XDR Extraneurological Tuberculosis : A Cross Sectional Study
10. Clinico-laboratory and Positron emission tomography (PET) scan follow up and outcome of patients with persistent Lymphadenopathy after 6 months of Anti tubercular therapy completion
11. Clinico-pathological characteristics and Survival outcome in patients with chronic myeloid leukemia-CP
12. Clinico-pathological Characteristics and Survival Outcome of Patients with Follicular Lymphoma: A retrospective study
13. Clinico-patho-radiological profile and treatment outcomes in adult patients with Idiopathic Inflammatory Myopathies
14. Comparing the prevalence of obstructive sleep apnea (OSA) in patients suffering from Metabolic Dysfunction-associated Steatotic liver disease (MASLD) and Metabolic Dysfunction and Alcohol associated Liver disease (MetALD)
15. Correlation of ggt/hdl-c ratio with MASLD in type 2 diabetes mellitus patients.
16. Development of a predictive model for identifying causative organisms among patients with clinical suspicion of bacterial sepsis based on clinical, biochemical and radiological parameters
17. Diagnosing Recurrent Pulmonary TB: A comparison of clinico-radio-microbiological and AI based imaging systems
18. Diagnosis of subclinical pulmonary tuberculosis in patients on Anti TNF therapy.
19. Diagnostic accuracy of cell free DNA in mucormycosis.
20. Diagnostic utility of galactomannan detection in BALF corrected by urea dilution for the diagnosis of chronic pulmonary aspergillosis.
21. Diagnostic utility of Genexpert MTB/XDR in Extrapulmonary Tuberculosis.
22. Economic Burden of Drug Resistant Epilepsy in India.
23. Effect of electrical based optimisation on improving electrical and mechanical performance after CRT implantation.
24. Epidemiology, clinical profile, management trends and outcomes in patients presenting with pulmonary artery hypertension in a tertiary care centre in North India.
25. Etiology and Outcome of lung cavity in hospitalized patients.
26. Evaluating the diagnostic utility of predictive model based on clinical findings, laboratory parameters and radiological imaging for detecting fungal infection.
27. Evaluation of current management practices and outcomes in patients with CNS tuberculosis.
28. Evaluation of subclinical myocardial dysfunction in PLHIV on HAART for more than 5 years through speckle echocardiography.
29. Evidence of subclinical tuberculosis in HIV or type 2 diabetes mellitus.

30. Exploring the awareness and understanding of Desmoid/Fibromatosis among healthy care professionals: a knowledge assessment study.
31. Incidence and clinco Microbiological profile of Surgical Site Infections in General Surgery ward in a Tertiary care centre.
32. Incidence of aids and non-aids related events in PLHIV with Immuno-Virological discordance as compared to patients without discordance.
33. Indian medical students' perception on training and evaluation in medical education.
34. In-vitro evaluation of amikacin-meropenem & amikacin-imipenem against carbapenem resistant Pseudomonas aeruginosa.
35. Kinetics of Galactomannan in pediatric patients with Invasive Pulmonary Aspergillosis in Cardiac interventions.
36. Long term health outcomes among post COVID syndrome patients.
37. Management and clinical outcomes in adult patients with mucor mycosis : an ambispective observational study.
38. minimally invasive tissue sampling for determination of cause of death in critically ill hospitalised patients in north india.
39. Practices and outcomes of prophylactic anti-epileptic use in CNS tuberculosis patients: insights from an observational study from tertiary care centre.
40. Prevalence and diversity of non tuberculous mycobacterium in tb and ntm suspects in a tertiary care centre in north India.
41. Prevalence of CRE intestinal colonisation among patients admitted to a medicine ward.
42. Prevalence of EBV DNA and anti EBV antibodies in patients of Multiple Sclerosis, NMOSD and MOGAD.
43. Prevalence of Myosteatosis in Overweight and Obese Individuals: A Cross-Sectional Study.
44. Prevalence, Types and Factors determining Arrhythmias in patients with OSAHS.
45. Prolonged NS1 antigenemia in immunocompromised patients with dengue.
46. Seroprevalence of Varicella-Zoster Virus (VZV) in patients receiving immunosuppressive therapy: Implications for Vaccine Response and Herpes Zoster Risk.
47. Study of anti-tubercular therapy induced liver injury: a hospital based study.
48. Study of treatment outcomes of extra pulmonary tuberculosis and various factors affecting it.
49. Study the Impact of Pearl Millet Consumption on Lipid Profile and body weight.
50. surveillance of hospital acquired UTI and significance of Candiduria in adult medical ICU.
51. Synergy Testing of Ceftazidime-Avibactam Plus Aztreonam in XDR Esherichia Coli and Klebsiella Pneumoniae Strains: Clinical Outcomes and Mortality Analysis.
52. The association between obstructive sleep apnea and coronary plaque using a CT coronary angiography scan - a cross sectional observational study.
53. To assess the response rate of 6 monthly ATT in mediastinal lymph node TB using PET CT.
54. To compare muscle mass, strength and function, biochemical and lifestyle factors between individuals of age (30 to <65 years) and (≥65 years) with Dynapenia/Sarcopenia.
55. To estimate the prevalence of obstructive sleep apnea and to correlate the severity of obstructive sleep apnea with the monocyte to HDL cholesterol ratio in patients with heart failure in the Indian population.
56. To evaluate efficacy for glycaemic control and safety profile of different metformin doses in women with Gestational Diabetes Mellitus- a pilot two arm parallel randomised controlled trial.
57. To study the prevalence of primary hyperaldosteronism in the patients of obstructive sleep apnea.
58. Understanding the Prevalence of Metabolic and Alcohol associated Steatotic Liver Disease (MetALD): Insights from an Indian Tertiary Care Centre.
59. Understanding Tuberculosis Recurrence: A cross sectional study.
60. Utility of orofacial myofunctional therapy in obese patients with obstructive sleep apnea.

Completed

1. A cross-sectional study of patient reported quality of life and cognitive impairment in patients with gastrointestinal stromal tumor
2. Adherence need assessment tool development and validation among PLHID to improve adherence to antiretroviral therapy.
3. Adherence to sepsis care bundle and its effect on patient outcome
4. An observational study to assess the effect of different vitamin D supplementation practices on hemoglobin levels in vitamin D deficient mechanically ventilated patients with sepsis in a medical ICU
5. Assessment of clinico-laboratory parameters and outcomes associated with dysglycemia in patients with sepsis
6. Assessment of CSF cytokines level in patients with confirmed meningitis meningoencephalitis
7. Clinical profile and outcome of ventilator associated pneumonia patients due to carbapenem resistant acenetobacter bauminii
8. Clinico microbial profile of patients with acute cholangitis
9. Clinico-pathological characteristics and survival outcome of patients with Mantle Cell Lymphoma: A Retrospective Study
10. Clinicoradiologic profile and outcome of patients with NPH
11. Detection and Molecular Characterization of Intestinal Parasites in Patients with Functional Dyspepsia
12. Diagnostic accuracy of Gene Xpert Ultra in Tuberculous pleural effusion
13. Diagnostic accuracy of procalcitonin for detecting bacterial infection / sepsis in chronic kidney disease patients
14. Diagnostic utility of Urinary Lipoarabinomannan antigen in diagnosis of spinal tuberculosis
15. Effect of prevalence and/or recurrence of non-tubercular mycobacterial disease on morbidity in structural and airway lung disease
16. Evaluation of lifestyle related factors and biochemical markers for the occurence and severity of Non Alcoholic Fatty Liver Disease in India.
17. Hypomagnesemia and its correlation with clinical outcomes in admitted sepsis patient
18. Impact of costal expansion exercises on lung function, rate of perceived exertion and quality of life in obese individuals
19. Impact of Integrated Stewardship reinforcement among Health Care Workers on Diagnosis and Management of UTI: a Quality improvement study
20. Incidence of cytomegalovirus reactivation in patients with hemophagocytic lymphohistiocytosis: A prospective cohort study
21. Multi-drug resistant and Extensively drug resistant Enterobacterales- Prevalence, Treatment and Outcomes: A Prospective Observational study
22. Incidence and Characteristics of Ventilator-Associated Events (VAE) in an adult ICU
23. NMR based CSF metabolomics for biomarker identification for poor outcomes in TB meningitis patients
24. Non Alcoholic Fatty Liver Discase and its sarco-metabolic correlates in people living with Human Immunodeficiency virus infection
25. Observing the changes in upper airway anatomy using Magnetic Resonance Imaging and correlating with changes in Apnea-Hypopnea index in patients undergoing weight loss with bariatric surgery"
26. Performance of Aspergillus PCR o Mini Bronchoalveolar Lavage fluid for the diagnosis of Invasive Pulmonary Aspergillosis using BM Asp ICU criteria : A cross sectional diagnostic test validation study
27. Post Sepsis Syndrome- A Prospective Observational Study
28. Prevalence and clinical outcomes of RSV in adults with severe acute respiratory infection (SARI)
29. Prevalence and correlates of neurological and neurocognitive disorders in HIV+ patients on ART
30. Prevalence of CMV reactivation and tissue invasive disease in critically ill patients with sepsis: A prospective observational study

31. Prevalence of primary aldosteronism in essential hypertension
32. Prevalence, Incidence and Risk factors for Latent Tuberculosis Infection (LTBI) among Medical Students and Residents
33. Prevalence, Risk Factors and Outcome of Undiagnosed Heart Failure with Preserved Ejection Fraction (HFpEF) Among Patients Admitted with Dyspnea"
34. Prevelance ID strongyloides infection among immunocompromised patients at tertiary centre
35. Seroprevalence of Vaccine preventable disease in health care worker
36. Study of association of Anthropometric measurements and body fat distribution with lipid profile and hsCRP in Adult population
37. Study of Body composition, clinical and metabolic profile of non obese individuals
38. Study of clinical characteristics and evaluation of Molecular Diagnostic techniques in enhancing the diagnosis of PJI
39. To evaluate the effectiveness of enhanced behavioural intervention and use of technology(continuous glucose monitoring) for improving pregnancy outcomes among women with type 2 DM:A three arm parallel randomised controlled trial
40. To study the incidence of tuberculosis in patients with hematological malignancies and cancer specific incidence rates of tuberculosis among them
41. Utility of catheter tips in the diagnosis of catheter-related bloodstream infections at a tertiary hospital in north India - a prospective study
42. Young onset lung cancer: clinicopathological profile, treatment and outcomes

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Naveet Wig Continued to serve as the Personal Physician to the Hon'ble Prime Minister. I am holding several prominent national positions. These include membership in the National Task Force on COVID-19 and the Clinical Research Group on COVID-19 under the Indian Council of Medical Research (ICMR), as well as serving as the Nodal Officer for the WHO Collaborating Centre for Training and Research in Tuberculosis.

Professor Sanjeev Sinha was member of the Association of Physician of India. He was Member of Indiaclen. He was also a Member of National Academy of Medical Sciences (MNAMS). He was also a Member of Indian Chest Society. He was a Member of Indian Thyroid Society. He was a Member of American Thoracic Society. He was a Member of International AIDS Society. He received Fellowship of National Academy of Sciences India (NASI).

He is Member of Medical Board Antarctica Expedition, Govt. of India, Goa. He is Member of Scientific Committee, NACO, Ministry of Health & FW, Govt. of India. He is Member of Health wellness programme, Ministry of Tourism, Govt. of India. Member of FDC, DCGI, India

He is Member of Editorial board of "Cases Journal". He is Member of Review Committee of Journal of Physical Education and Sport Management. Published from South Africa. He is Member of Review Committee of Journal IJMR. He is Member of Review Committee of Journal of Current HIV Research. He is Member of Review Committee of projects funded by DHR, ICMR, Government of India. He received Fellowship of National Academy of Sciences India (NASI). He is Member of council of National Academy of Sciences India (NASI).

He is Member Secretary of AIIMS Ethics Committee of PGR

Dr Ranveer Singh Jadon was awarded fellowship (FICP) of prestigious Indian College of Physician on 24th January 2025 at Kolkata in APICON, 2025.

Dr Animesh Ray awarded Endorsed APSR Short Term Fellowship at Nagasaki University Hospital, Japan (1- 28 February 2025).

Dr Siddharth Jain was Awarded the 2024 Phil Robinson Global Scholarship by the American College of Rheumatology. He won the Best Oral Presentation Award at the Clinical Rheumatology Conference 2024 in Hyderabad.

Dr Amandeep Singh Actively participated as a physician in the Mega Health Camp held at ESIC Alwar, Rajasthan, organized by AIIMS Delhi providing comprehensive healthcare services on 8 March 2025.

Dr Bindu Prakash has Organised INQUISITO - a national PG Medicine quiz on 30 March 2025.

HIGHLIGHTS

The Department of Microbiology was the first department at AIIMS to get its scope of testing NABL-accredited (as per ISO: 15189; 2012) in November 2019, and continues to maintain this since. The NACO National HIV Reference Laboratory (NRL), and HIV Regional Reference Laboratory for Viral Load and Early Infant Diagnosis are accredited since a few years prior. The Department of Microbiology, through Dr. Bimal Kumar Das (Chief Coordinator for AIIMS NABL Accreditation), has also facilitated the completion of accreditation of the scope of testing at the laboratories in JPNATC, Department of Laboratory Medicine, CDER (Oral Pathology), Department of Nephrology, Clinical Porphyria Testing Laboratory during 2024-2025. Other laboratories are in various stages of the process.

National Accreditation Board for Testing and Calibration Laboratories

NABL

CERTIFICATE OF ACCREDITATION

DEPARTMENT OF MICROBIOLOGY, ALL INDIA INSTITUTE OF MEDICAL SCIENCES (AIIMS), NEW DELHI

has been assessed and accredited in accordance with the standard

ISO 15189:2012

"Medical laboratories - Requirements for quality and competence"

for its facilities at

DEPARTMENT OF MICROBIOLOGY, SECOND FLOOR, TEACHING BLOCK, ALL INDIA INSTITUE OF MEDICAL SCIENCES, ANSARI NAGAR, NEW DELHI, SOUTH, DELHI, INDIA

in the field of

Medical Testing

Certificate Number: MC-3267

Issue Date: 15/11/2023 Valid Until: 14/11/2025

This certificate remains valid for the Scope of Accreditation as specified in the annexure subject to continued satisfactory compliance to the above standard & the relevant requirements of NABL.
(To see the scope of accreditation of this laboratory, you may also visit NABL website www.nabl-india.org)

Name of Legal Entity: All India Institute of Medical Sciences

Chief Executive Officer

The Department initiated a DHR Infectious Disease Research and Diagnostic Laboratory (IRDL) under the PM-BHIM scheme in 2024-2025. The Virology Laboratory is a DHR Regional Virus Diagnosis and Research Laboratory (VRDL) since 2019. The Bacteriology, Mycology, and Parasitology verticals are now part of the IRDL.

The Bacteriology laboratory is a nodal centre for the ICMR Antimicrobial Resistance Surveillance and Research Network (AMRSN) since 2013 for *Salmonella* Typhi. The Virology laboratory is an ICMR Influenza Sentinel Surveillance Centre, Apex Referral Laboratory of the National Centre for Vector Borne Diseases Control (NCVBDC) for Dengue and Chikungunya; NACO Regional Reference Laboratory (RRL) for HIV-1 Viral Load and Early Infant Diagnosis (EID); and a National Program for Surveillance of Viral Hepatitis (NPSVH) Laboratory. The Parasitology Laboratory provides state of-art diagnostic facilities for diseases for malaria, visceral leishmaniasis, lymphatic filariasis, and other infections. The Mycology Laboratory is an ICMR Reference Laboratory for Human Fungal Diseases. The HIV Laboratory is a NACO National Reference Laboratory (NRL). The Sexually Transmitted Diseases Laboratory is designated for medical device testing for STDs for ICMR-CDSCO.

The Department provides 24×7 diagnostic services for patient care. Faculty coordinate hospital-acquired infection surveillance activities and training for the Institute.

EDUCATION

UNDERGRADUATE TEACHING:

MBBS for Medical Microbiology

BSc (Nursing)- Medical Microbiology

BSc OT Technology - Medical Microbiology

POSTGRADUATE TEACHING

PhD (Microbiology)

- Lecture - Once/week
- Journal Club - Once/week

MD (Microbiology)

- Lecture/Seminar - Once/week
- Journal Club - once/week
- Tutorial - Twice/month
- Practical Exercise presentation - Twice/month
- Laboratory postings in different sections of the department

DM (Infectious Diseases)

- Seminar - Once/week
- Laboratory postings in different sections of the department

Short term trainees: Nil

No. of Students Registered	2022-2023	2023-2024	2024-2025
MD	19	17	17

CMEs/Workshops/Symposia/National and International Conferences

1. Pest control, promotion of hand hygiene, training of HA/ SA and Nursing Officers, Hands on sessions, Rangoli competition, quiz competition, best out of hospital waste, poster competition during the Special Swachhta Campaign at the Surgical Block, AIIMS New Delhi from 1-15April 2024
2. World hand hygiene day, Surgical Block, AIIMS New Delhi on 5 May 2024
3. One-day internship training program in Microbiological techniques by Department of Microbiology faculty under SERB Scientific Social Responsibility (SSR) at Department of Zoology, Dyal Singh College, Delhi on 29 August 2024, Dyal Singh College, Delhi

4. AIIMS - IAMM-Delhi Chapter Workshop on Fungal Diagnostics on 30 August 2024. AIIMS, New Delhi
5. The Virology Laboratory, as a part of the INSPIRES network (Indian Network of Population-based Surveillance Platforms for Influenza, SARS-CoV2, and other Respiratory Viruses among the Elderly), conducted a 2-day molecular training workshop on 27-28 September 2024 at AIIMS Delhi.
6. IAMM Hands-on workshop on Automated Bacterial Culture, Identification, and Antimicrobial Susceptibility Testing, including Molecular Resistance Markers, on 8 October 2024, AIIMS, New Delhi
7. Antimicrobial Awareness Week organized, Surgical Block, AIIMS New Delhi on 18-22 November 2024
8. IAMM Hands-on Workshop on Integrated Stewardship in UTI workflow on 21 November 2024, BJ Medical College, Pune
9. AIIMS-HISI Delhi Chapter Conference on Shielding the Scalpel: Advancing Surgical Site Infection Prevention on 14 December 2024, in the Surgical Block, AIIMS New Delhi, for microbiologists, surgeons and infection control nurses from across Delhi.
10. EQA workshop for four HIV State Reference Laboratories under the National HIV Reference Laboratory, Department of Microbiology, AIIMS, New Delhi, on 5 February 2025, with participants from Punjab, Himachal Pradesh, Chandigarh and Delhi.
11. The Virology Laboratory, as a NACO Regional Reference Laboratory (RRL) for HIV Early Infant Diagnosis (EID), conducted a 2-days training on the Molecular Diagnosis of HIV-1 on 19-20 February 2025, at AIIMS Delhi.
12. Hands-on –training was imparted to faculty from other medical institutions who made a request for improving their skills in diagnostic parasitology.

Lectures delivered at CMEs, National and International Conferences

Lectures Delivered: 52

Lalit Dar: 4	**Bimal Kumar Das: 3**	**Bijay Ranjan Mirdha: 2**
Immaculata Xess: 1	**Benu Dhawan: 2**	**Seema Sood: 5**
Sarita Mohapatra: 5	**Aashish Choudhary: 6**	**Gagandeep Singh: 7**
Hitender Gautam: 5	**Megha Brijwal: 2**	**Kiran Bala: 1**
Priyam Batra: 5	**Tanu Sagar: 4**	

Lalit Dar

1. Basics of Human Papillomavirus Testing, AIIMS-WHO Cervical Cancer Prevention Workshop, 20 August 2024, Delhi
2. Recently Licensed Vaccines and Newer Approaches for the Prevention of Viral Infections, 3rd Rajasthan Microcon, 28 September 2024, Bikaner
3. Oncogenic Viruses, 1st Annual Clinical Virology Summit, 8 October 2024, Delhi
4. Viral Infections in the Intensive Care Unit, 4th Annual Conference of the Emirates Society of Clinical Microbiology (ESCM), 17 November 2024, Ras Al-Khaimah, UAE

Bimal Kumar Das

1. Molecular testing - Introduction, Indian Association of Medical Microbiology (IAMM) workshop on Automated Bacterial culture, identification and Antimicrobial susceptibility, 8-10 October 2024, Delhi
2. Speaker on Antimicrobial Resistance, LABTECHCON -2024, 43rd All India Medical Laboratory Technologists Association conference, 21-22 October 2024, Delhi
3. Speaker on Surgical infections, AIIMS-HISI Delhi Chapter conference on Shielding the Scalpel: Advancing Surgical Site Infection Prevention, 14 December 2024, Delhi

Bijay Ranjan Mirdha

1. Current situation and control measures for malaria, South Delhi Municipal Corporation, MCD, Delhi under the aegis of NVBD**,** 11 September 2024, Delhi

2. Epidemiology and diagnosis of dengue, South Delhi Municipal Corporation, MCD, Delhi under the aegis of NVBD**,** 11 November 2024, Delhi

Immaculata Xess

1. Approaches for Laboratory Diagnosis of fungal infection including sample processing, Workshop on 'Fungal Diagnostics', 30 August 2024, Delhi
2. Chromoblastomycosis, ISMM Biennial Conference, 21 February 2025, Chennai

Benu Dhawan

1. Therapeutic Options for MRSA and VRE, Hands on Workshop "Automated bacterial culture, identification, antimicrobial susceptibility testing including molecular resistance markers." Under the aegis of IAMM, 10 October 2024, Department of Microbiology, AIIMS, New Delhi.
2. Surgical Site Infection Prevention Today: Bridging Current Insights with Effective Practices, HISI- Delhi NCR Chapter Meet, "Shielding the Scalpel: Advancing Surgical Site Infection Prevention", 14 December 2024, AIIMS, New Delhi

Seema Sood

1. Recent Advances in diagnosis and resistance patterns of *Neisseria gonorrhoeae*, 48th National Conference of IASSTD & AIDS (ASTICON-2024), 29 August- 1 September 2024, New Delhi
2. Diagnostic Stewardship in VAP: Case-based discussion, IAMM Workshop- Hands-on workshop on "Automated bacterial culture, identification, antimicrobial susceptibility testing", 8-10 October 2024, AIIMS, New Delhi
3. Contributions to Microbiology, 64th NAMS Annual Conference & Convocation (NAMSCON 2024)- Plenary Session, 22-24 November 2024, AIIMS, Jodhpur
4. Introduction: Knock, Knock ! It's Nocardia, Clinical Grand Round (CGR), 18 March 2025, AIIMS, New Delhi
5. Non-cystic fibrosis Bronchiectasis, PULMOCRIT-2025 Panel -discussion, 22 March 2025, AIIMS, New Delhi

Sarita Mohapatra

1. Biomedical waste management, Lecture series under Swachh Bharat Abhiyan Scheme**,** 14 June 2024**,** ICMR NICPR, Noida
2. LMIC a monolith is a fallacy to be broken for AMSP, ASPICON 2024**,** 24 August 2024**,** PGIMER, Chandigarh
3. Role of Microbiology in sepsis management, Sepsis Management**,** 28 September 2024**,** Online, Pfizer
4. Infection prevention and control strategies against MDR0s in hospital, Hospital Infection Control (HICON), Gwalior 2025**,** 15 February 2025**,** Cancer Hospital & Research Institute, Gwalior
5. Ensuring disinfectant efficacy and role of environmental surveillance, Hospital Infection Control (HICON), Gwalior 2025**,** 15 February 2025**,** Cancer Hospital & Research Institute, Gwalior

Aashish Choudhary

1. Acute Liver Failure (ALF) due to HAV- Current trends, 1st National CME on 'Hepatitis- An Update' on World Hepatitis Day, 28 July 2024, Mangalagiri, Andhra Pradesh
2. Chandipura Virus re-emergence- An Update, Indian Academy of Paediatrics (IAP) Delhi, 1 August 2024, Delhi
3. Viral gastroenteritis – An Update on Noroviruses, Sapoviruses, Adenoviruses, and Astroviruses), 1st Annual Clinical Virology Summit: 'Winning Over the Viruses', 8 October 2024, Delhi
4. Antiviral drugs- Mechanisms of drug resistance, IAMM Delhi Chapter- PG Masterclass, 29 November 2024, Delhi
5. Stewardship in Clinical Virology, 3rd National Advanced Hands-On Workshop on Antimicrobial Stewardship Practices, 11 January 2025, Mangalagiri, Andhra Pradesh
6. Molecular techniques in Diagnostic Clinical Microbiology, UP-UK MICROCON 2025- 'Bench to Bedside-Combating Antimicrobial Resistance', 14 February 2025, Meerut

Gagandeep Singh

1. Mould Identification, Workshop on 'Fungal Diagnostics', 30 August 2024, Delhi
2. Hospital acquired fungal infections, VMMC & Safdarjung Hospital, 16 September 2024, New Delhi
3. Appropriate Antifungal Therapy, 3rd Advanced National Hands - On Workshop on Antimicrobial Stewardship, 11 January 2025, Vijaywada
4. Therapeutic Drug Monitoring, 3rd Advanced National Hands - On Workshop on Antimicrobial Stewardship, 11 January 2025, Vijaywada
5. Biomedical waste management and management of needle stuck injury, Induction Training Programme for newly recruited Medical Officers' from at NTA, ESIC, 23 January 2025, New Delhi
6. Antifungal resistance, HISICON 2025, 8 February 2025, Lucknow
7. Malassezia infections: an update, ISMM Biennial Conference, 23 February 2025, Chennai

Hitender Gautam

1. Hand Hygiene: Impact on Health Care**,** World Hand Hygiene Day, 7 May 2024**,** Dr. B.R.A. IRCH AIIMS, New Delhi
2. Importance of Hand Hygiene for Health care workers (HCWs), World Hand Hygiene Day, 8 May 2024, Surgical Block, AIIMS, New Delhi
3. Role of Microbiology in Healthcare, SERB (SCIENTIFIC & ENGINEERING RESEARCH BOARD) SCIENTIFIC SOCIAL RESPONSIBILITY (SSR), 29 August 2024, Dyal Singh College, University of Delhi
4. AST in Gram negative bacilli (GNB) focusing on Carbapenem and colistin resistance, IAMM Hands-on workshop on "Automated bacterial culture, identification, antimicrobial susceptibility testing including molecular resistance markers, 9 October 2024, AIIMS, New Delhi
5. Bacterial diarrhoea& AMR, AMR Educate Project Workshop: Fight Against Resistance: Merging Genomics, Photonics, AI, and Clinical Approaches, 21 October 2024, Tromso, Norway

Megha Brijwal

1. Laboratory consideration for COVID-19 diagnosis and NGS workflow, Post pandemic challenges in COVID-19 research, 20 April 2024, Delhi
2. Digital PCR, Advanced techniques in infectious diseases diagnostics, 4 January 2025, Faridabad, Haryana

Kiran Bala

1. Lecture on "Hand Hygiene importance in Health care", World Hand Hygiene day on theme "Promoting knowledge and capacity building of health and care workers", 4 May 2024, New Delhi

Priyam Batra

1. Importance of Hand Hygiene(public lecture—patients and relatives in Surgery OPD), World Hand Hygiene Day, 5 May 2024, AIIMS, New Delhi
2. Biomedical Waste Management, Sampling and vaccination, Orientation workshop for 1st semester MS general surgery Junior Residents, 10 August 2024, AIIMS, New Delhi
3. Antimicrobial stewardship, Pathcon and Lab Expo 2024**,** 20-22 December 2024**,** Manekshaw Convention Centre
4. Longitudinal Rolling Seminar on Thematic Challenges and Remedies Conclusion and Recommendations 1. Bundle approach for preventing SSI 2. Antimicrobial usage in surgical practices**,** 18th National Conference of Hospital Infection Society-India, 6-8 February 2025, SGPGI, Lucknow
5. Hand Hygiene and general canteen upkeep, Food Safety Initiative, 21 February 2025, AIIMS, New Delhi

Tanu Sagar

1. Diagnosis of Lyme diseases: A clinical dilemma (Interesting case reports), Dissemination workshop of Lyme disease task force study and capacity building for entomological methods, diagnosis and management of Lyme disease, 22-24 April 2024, Dibrugarh

2. Laboratory diagnosis of *C. difficile*, Hands-On Workshop On Anaerobes, MICROCON 2024, 21 October 2024, Pune
3. Infection Control, Postgraduate Course in Research Methodology, Writing, and Communication, AIIMS Delhi, 15 November 2024, Delhi
4. Skin processing, Skin Donation Training and Awareness Program in collaboration with ORBO, New Delhi, 21 December 2024, Delhi

Total number of lectures delivered

2022–2023	2023–2024	2024–2025
37	51	52

List of oral papers/posters presented: 56

1. Bala K, Gautam H, Mohan A, Singh UB, Determination of resistant pulmonary tuberculosis with viability assay (fluorescein diacetate staining) for assessing treatment response, 18th Congress of the International Union of Microbiological Societies (IUMS), 23-25 October 2024, Florence, Italy
2. Bala K, Rekha, Sethi P, Singh UB, Diagnostic accuracy of virulence factor urinary lipoarabinomannan antigen (lam) for extra pulmonary tuberculosis in HIV negative population, 18th Congress of the International Union of Microbiological Societies (IUMS), 23-25 October 2024, Florence, Italy
3. Bardoloi T, Xess I, Singh G, Pandey M, Thakar A, Wig N, Mathur P, Diagnostic performance of in- house real time PCR assay on whole blood for diagnosis of Invasive Aspergillosis and Invasive Mucormycosis, ISHAM Asia Congress- Advances in Medical mycology from laboratory to Clinic, 2 August 2024, Bangkok, Thailand[1]
4. Basu A, Biswas J, Chaudhary R, Dhawan B, Chronic sexually acquired reactive arthritis, associated with extragenital *Mycoplasma genitalium* infection in an MSM – a case report, 48th National Conference of IASSTD & AIDS, New Delhi, 31 August-1 September 2024, New Delhi
5. Batra P, Chaudhary K, Gautam H, Mohapatra S, Sood S, Dhawan B, Das BK, Bacteriological Profile and antibiotic susceptibility pattern of Ascitic Fluids of a Tertiary Care Hospital of North India, IAMM Delhi Chapter, 10 August 2024, Delhi
6. Batra P, Gautam H, Falwaria Y, Sharma T, Singh D, Rathore Y, Kataria K, Krishna A, Bansal VK, Das BK, Knowledge, Attitude and Practice towards Antimicrobial Resistance amongst Nursing Officers: A cross-sectional study, XVIII HISICON- Annual Conference of the Hospital Infection Society- India, 6-8 February 2025, Lucknow
7. Batra P, Tanwar M, Arya S, Bakshi A, Soren S, Rai SK, T Nelson, Gautam H, Ranjan P, Joshi M, Mehmood K, Chumber S, Das BK, Assessment of Hand Hygiene Progress using the WHO Hand Hygiene Self-Assessment Framework: a Multimodal multidisciplinary approach at a tertiary care surgical center of a developing nation, HISI Delhi Chapter, 14 December 2024, AIIMS, New Delhi
8. Bhatt R, Bala K, Rath A, Kumar K, Singh UB, Comparative evaluation of genotypic drug susceptibility testing by two platforms XPERT MTB-RIF and XPERT MTB XDR with phenotypic drug susceptibility testing (MGIT-DST) for multi drug resistant tuberculosis, AIIMS 4th Annual Research Day, 30 January 2025, AIIMS, New Delhi

RESEARCH

Funded Projects

Ongoing

1. Antimicrobial susceptibility patterns of pathogens isolated in bloodstream infections vis a vis antibiotic prescribing practices and genotypic clonality of *Acinetobacter baumannii* in various patient care units/areas, Dr Hitender Gautam, Inter-Disciplinary AIIMS IMRG, 1 Year, January 2024, January 2025, Rs 4.90 Lakhs
2. CD4 testing program, Dr. Bimal Kumar Das, NACO, Continuous, 2005, Continuous, Testing kits provided by NACO, Rs 0.50 Lakhs for consumables

3. Characterization of human antibody responses to *Plasmodium vivax* in India". (Through INSPIRE faculty programme), Dr BR Mirdha, Department of Science and Technology, 5 Years, 2023-2028, Rs 7 Crore
4. Clinical and epidemiological study of Lyme disease: a multi-centric taskforce study in India, Dr Nishant Verma, ICMR, 5 Years, 2020-2025, Rs 120.00 Lakhs
5. Comparative genomic and epigenetic analysis for identification of novel biomarkers of uropathogens causing recurrent Urinary Tract Infection, Dr. Sarita Mohapatra, BFI BIOME, 2 Years, 2024-2026, Rs 20.93 Lakhs
6. CRISPR/Cas9 approach targeting virulence and resistance genes of uropathogenic *Escherichia coli*-uncovering its therapeutic potential in urinary tract infection, Dr. Sarita Mohapatra, ICMR, 3 Years, 2025-2028, Rs 26.73 Lakhs
7. Detection and Molecular Characterization of *Diarrheagenic Escherichia coli* as a cause of morbidity and mortality in children under 5 years of age presenting with acute diarrhea, AIIMS Site PI: Dr. Hitender Gautam, Department of Health Research (DHR), 3 Years, 2024-2026, Rs 20.42 Lakhs
8. Detection of HHV-6 viremia in post allogenic hematopoietic stem cell transplant recipients, Dr. Megha Brijwal, AIIMS Intramural research grant (UG Research Mentorship scheme), 6 Months, 2025-2025, Rs 1.50 Lakhs
9. Detection of *Mycoplasma pneumoniae* infections in acute exacerbation of Chronic Obstructive Pulmonary Disease, Dr. Tanu Sagar, AIIMS- Intramural, 2 Years, 2024-2026, Rs 9.80 Lakhs
10. Detection of *Salmonella* serovars and their associated resistance marker directly from blood specimen using paper based DNA biosensor, Dr Bimal Kumar Das, ICMR, 2 Years, 2024-2026, Rs 135.69 Lakhs
11. Detection of viable but non-culturable (VBNC) Gram-negative bacteria in sepsis and meningitis: Clinical significance in AMR stewardship, Dr Hitender Gautam, AIIMS-THSTI Collaborative Project, 2 Years, 2023-2025, Rs 10 Lakhs
12. Development and validation of novel Candida Leucine aminopeptidase 2 based immunoassay for the diagnosis and prognosis of invasive candidiasis among patients with cirrhosis, Dr. Gagandeep Singh, ICMR, 3 Years, 2025-2028, Rs 16 Lakhs
13. Enhancing infectious disease diagnosis quality: External Quality Assurance Program, Dr. Megha Brijwal, ICMR, 3 Years, 2024-2027, Rs 50 Lakhs
14. Establishment of Centre of Advanced Research for Bacteriophage Research and Therapy to combat Multidrug Resistant infections caused by ESKAPE pathogens, Dr. Tanu Sagar, ICMR, 5 Years, 2024-2029, Rs 739.60 Lakhs
15. Evaluation of NF- κB based reactivation of latency in HIV infected individuals who are on antiretroviral therapy for more than 15 years: A Quest for Cure, Dr Bimal Kumar Das, DHR (HRD scheme), 3 Years, 2022-2025, Rs 50.92 Lakhs
16. Evaluation of role of B-1 cells in modulating the response of T cells in HIV infected patients pre and post antiretroviral therapy: Cohort study, Dr Bimal Kumar Das, ICMR, 3 Years, 2022-2025, Rs 50.41 Lakhs
17. Expanded viral etiological investigation of genital ulcer disease with phenotyping and genotyping for antiviral drug resistance in herpes simplex viruses, Dr. Megha Brijwal, ICMR, 3 Years, 2023-2026, Rs 59 Lakhs
18. Exploring SELEX technology for potential POCT development for Genital *Chlamydia trachomatis*, Dr. Seema Sood, ICMR, 3 Years, 2022-2025, Rs 50 Lakhs
19. External Quality Assurance Scheme (EQAS) of National HIV/AIDS Reference Laboratory, AIIMS, Delhi**,** Dr. Bimal Kumar Das**,** NACO**,** Continuous**,** 2005**,** Continuous**,** Rs 14 Lakhs/Annum
20. HIV integrated counseling and testing (ICTC)**,** Dr. Bimal Kumar Das**,** NACO**,** Continuous**,** 2005**,** Continuous**,** Kits are provided by NACO and the rest is taken care of under EQAS budget
21. ICMRs: Advanced Mycology Diagnostic and Research Centre (AMDRC)**,** Dr. Immaculata Xess**,** ICMR**,** 5 Years, 2022-2027, Rs 250 Lakhs
22. Identification of Novel nucleic acid signatures of AMR in ESKAPE pathogens: Role in antimicrobial resistance detection and antimicrobial stewardship, Dr. Hitender Gautam, AIIMS-IGIB Collaborative Project, 2 Years, 2025-2027, Rs 10 Lakhs
23. Infectious Disease Research & Diagnostic Laboratory (IRDL), Dr. Lalit Dar (Coordinating PI) PIs: Dr Bimal K Das, Dr BR Mirdha, Dr I Xess, DHR-ICMR Scheme, Continuous, January 2025, Continuous, Rs 285.55 Lakhs
24. Knowledge, Attitude, and Practices towards herpes zoster (shingles) vaccination among the geriatric population in a tertiary care hospital in Delhi, Dr. Aashish Choudhary, ICMR Call for Short-term Studentship (STS) for 3rd term MBBS/BDS candidates, 3 Months, 2024-2025, Rs 0.30 Lakhs

25. Label-free multiple-beam excitation and plasmon enhanced Raman spectroscopy for rapid and label-free molecular detection of bacteria strains: A point-of-care fast and accurate molecular testing technique, Dr. Sarita Mohapatra (Co-PI), MoE-STARS, 3 Years, 2024-2027, Rs 3.50 Lakhs
26. Micro-nano structured urinary catheter to minimize catheter-associated urinary tract infection, Dr. Sarita Mohapatra (Co-PI), MoE-STARS, 3 years, 2023-2026, Rs 10.67 Lakhs
27. Molecular Epidemiology and In-Vitro Antifungal Susceptibility of Cryptic Aspergillus species from Clinical and Environment samples, Dr. Gagandeep Singh, ICMR, 3 Years, 2022-2025, Rs 35 Lakhs
28. Multi-centric study on prevalence of Mycoplasma genitalium and its resistance markers in the high–risk group (MSM and FSW) attending sexually transmitted disease clinics in North India, Dr Benu Dhawan, ICMR, 3.5 Years, 2021-2025, Rs 28.65 Lakhs
29. NACO Regional Reference Laboratory for HIV early infant diagnosis (EID), Dr. Aashish Choudhary, National AIDS Control Organization (NACO), No fixed duration, 2012, Ongoing, Rs 106 Lakhs
30. NACO Regional Reference Laboratory for HIV viral load (VL), Dr. Aashish Choudhary, National AIDS Control Organization (NACO), No fixed duration, 2019, Ongoing, Rs 64 Lakhs
31. National Program for the Surveillance of Viral Hepatitis, Dr. Aashish Choudhary, Ministry of Health & Family Welfare (MoHFW), 5 Years (extendable), 2020, Ongoing, Rs 1 Lakh
32. Non-tubercular mycobacteria responsible for pulmonary disease and infections in procedures involving prosthetic devices, laparoscopy or following other interventions, Dr. Kiran Bala, AIIMS, Intramural Research Grant, 2 Years, 2023-2025, Rs 4.95 Lakhs (both years)
33. Platform for discovery of novel therapeutic monoclonal antibodies against MDR and XDR *Klebsiella pneumoniae*, Dr. Sarita Mohapatra (Co-PI), DBT-BIRAC, 3 Years, 2023-2026, Rs 4.89 Lakhs
34. Platform for enhanced pathogen detection for meningitis and sepsis: Rapid, portable, and field-deployable diagnostics. IIRPIG-2023-0001405, AIIMS Site PI: Dr. Hitender Gautam, ICMR, 4 Years, March 2024, February 2028, Rs 93.46 Lakhs
35. Point-of-care test development for Bacterial Vaginosis (BV): Bench to bedside (Clinical validation of proof-of-concept), Dr Seema Sood, ICMR, 3 Years, 2024-2027, Rs 75 Lakhs
36. Proteomics study of *Giardia intestinalis* isolates to associate with different clinical spectrum and extrapolate its invasive potential, Dr Nishant Verma, ICMR, 3 Years, 2023-2026, Rs 48.69 Lakhs
37. Quantification of JC Polyomavirus in CSF samples from suspected Progressive Multifocal Leukoencephalopathy patients by Digital PCR**,** Dr. Megha Brijwal, AIIMS Intramural research grant, 1 Year, 2024-2025, Rs 5 Lakhs
38. Regional Virus Research and Diagnostic Laboratory (RL-VRDL), Dr. Aashish Choudhary, Department of Health Research (DHR), 10 Years (extendable), 2019, Ongoing, Rs 986 Lakhs
39. Site-specific biomarkers to differentiate infection from either colonization or aseptic inflammation in ICU, Dr. Hitender Gautam, ICMR, 3 Years, 2023-2025, Rs 73.39 Lakhs
40. To determine the prevalence of common virulence determinants associated with Uropathogenic *Escherichia coli* from community-setting at different geographical regions of India using phenotypic and genotypic methods**,** Dr Sarita Mohapatra, ICMR, 1 Year, 2022-2025, Rs 5.53 Lakhs
41. Validation of blood based transcriptional biomarkers for diagnosis of extrapulmonary tuberculosis, Dr Kiran Bala, AIIMS- IGIB Inter-collaborative Research grant, 2 Years, 2025-2027, Rs 10 Lakhs

Completed

1. Genomic profiling of invasive and hospital acquired Escherichia coli pathotypes from different clinical samples to identify the virulence and antimicrobial resistance markers, Dr. Hitender Gautam, Science & Engineering Research Board SERB (Under DST), 2 Years 6 Months, 2022-2024, Rs 45.46 Lakhs
2. Nodal coordinating center for surveillance network of antimicrobial resistance in salmonella enterica serotype Typhi and Paratyphi, Dr. Bimal Kumar Das, Funded by ICMR, 2 Years, 2018-2024, Rs 239.22 Lakhs
3. Rapid electrochemical detection of MRSA and azithromycin- resistant NG: A Novel strategy, Dr Seema Sood, SERB-TARE, 3 Years, 2021-2024, Rs 15 Lakhs
4. Strengthening Capacity for Genomic Sequencing of Outbreak Prone Respiratory Pathogens like Influenza and Other Respiratory Viruses, Dr Megha Brijwal, CDC, APHL, 10 Months, 2023-2024, Rs 40 Lakhs

5. To determine gut colonization of *Clostridiodes difficile*, Vancomycin resistant Enterococci and Carbapenem Resistant Enterobacteriaceae in recovered COVID cases, Dr Priyam Batra, AIIMS Intramural, 2 Years, 2023-2024, Rs 20 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. A Study to Estimate Colonisation Rates of *Clostridioides difficile* in Hospitalised Patients
2. Detection of azole resistance in Candida parapsilosis by genotypic and phenotypic method
3. Detection of *Pneumocystis jirovecii(P.jirovecii)* and Human Cytomegalovirus (HCMV) infection in immunocompromised individuals.
4. Direct antimicrobial susceptibility testing (AST) on BAL samples from suspected VAP cases
5. Genotypic characterization of measles virus from clinical cases
6. HSV seroprevalence and asymptomatic viral shedding in pregnant women at the time of delivery - A Prospective Study
7. Identification and AMR profile of *Enteroaggregative E. coli* in acute diarrhoea cases
8. Identification of yeasts by MALDI-TOF from positive blood BACTEC bottles
9. Impact of Integrated Stewardship reinforcement among Health Care Workers on Diagnosis and Management of UTI: a Quality improvement study
10. Incidence and characteristics of VAE in an adult ICU
11. Incidence and Clinico-Microbiological Profile of Surgical Site Infections in a General Surgery ward in a Tertiary Care Hospital.
12. Assessment of Epstein-Barr Virus (EBV) viremia in patients with hemophagocytic lymphohistiocytosis: A Prospective Cohort Study
13. Incidence of Cytomegalovirus reactivation in patients with hemophagocytic lymphohistiocytosis: A Prospective Cohort Study
14. In vitro evaluation of amikacin-meropenem & amikacin-imipenem against CRPA
15. Molecular Characterization and antimicrobial resistance profile of Uropathogenic Escherichia coli (UPEC) from patients with UTI in India: Across-sectional study
16. Molecular characterization, prevalence and antimicrobial resistance profile of *Diarrheagenic Escherichia coli* (DEC) pathotypes in the pediatric diarrheal population
17. Molecular detection of viral pathogens causing non-gonococcal urethritis (NGU)
18. Nodal Center for Antimicrobial Resistance Research and Surveillance network to support secondary hospitals
19. Prevalence of CRE intestinal colonisation among patients admitted to a Medicine ward
20. Prevalence of human cytomegalovirus (HCMV) reactivation and tissue invasive disease in critically ill patients with sepsis
21. Prevalence of Shigella in men who have sex with men: A pilot study.
22. Prevalence, risk factors and outcome of *Stenotrophomonas maltophilia*Bacteraemia in a tertiary health care centre in India
23. Assessment of *Toxoplasma gondii* seropositivity and its association with lifetime suicidality in patients with Bipolar Disorder.
24. Prevalence, Virulence Markers, Antimicrobial Resistance Profile of *Enteropathogenic E. coli, Shigella spp, and Aeromonas spp.* among diarrheal cases
25. Study on hepatotropic viruses causing acute liver failure (ALF) in children
26. Study of Non Tuberculous Mycobacteria in surgical site infections with their antimicrobial susceptibility
27. Study of thymidine kinase gene polymorphisms in Herpes simplex virus positive clinical isolates

28. Synergy Testing of Ceftazidime-Avibactam Plus Aztreonam in XDR *Escherichia coli and Klebsiella pneumoniae* Strains: Clinical Outcomes and Mortality Analysis
29. AST and prevalence of *E. coli* in recurrent urinary tract infections
30. *Chlamydia trachomatis* and *Neisseria gonorrhoeae* coinfections in MSM
31. Clinical and microbiological characteristics of *Escherichia coli* isolates causing recurrent urinary tract infections
32. Clinical, radiological, microbiological profile of chronic pulmonary aspergillosis patients undergoing respective surgery
33. Clinico-Microbiological Profile of Patients with Acute Cholangitis
34. Detection and molecular characterisation of parasites from patients with functional dyspepsia (FD).

Completed

1. A study to estimates colonisation rates of *Clostridioides difficile* in hospitalized patients
2. Acute diarrhoeal disease due to typical and atypical enteropathogenic Escherichia coli among under-5 children.
3. BK and JC polyomavirus detection in patients with allogenic hematopoietic stem cell transplant
4. Central line-associated bloodstream infections and bacterial contamination among health care workers in medical ICU: a prospective observational study
5. Comparison of conventional and automated culture for aerobic bacterial isolates in Bacteraemia
6. Detection of Parvovirus B19 infection in patients with hematological disorders
7. Diagnosis of catheter related bloodstream infections at a tertiary hospital in North India- A prospective study.
8. Diagnostic utility of Lipoarabinomannan antigen detection in urine for the diagnosis of Spinal Tuberculosis
9. HCMV disease in pediatric leukemias (ALL and AML)
10. Identification and characterization of microsporidia in HIV-seropositive patients
11. In vitro susceptibility of Omadacycline against Extensively Drug Resistant (XDR) *Acinetobacter baumannii and Klebsiella pneumoniae* clinical isolates from bacterial meningitis and blood stream infections
12. Invasive fungal infection in ACLF patients-A prospective study
13. Point of care Lipoarabinomannan antigen detection in urine for the diagnosis of Pulmonary tuberculosis and Extra pulmonary tuberculosis (EPTB)
14. Prevalence of Histoplasmosis in Patients Suspected with Tuberculosis
15. Prevalence of *Strongyloides* infection among immunocompromised patients at a tertiary care hospital
16. Rapid electrochemical detection of MRSA and azithromycin- resistant NG: A Novel strategy
17. Role of aptamer technology in detection of Bacterial Vaginosis (BV) associated bacteria
18. Screening of stool and rectal swab specimens from admitted patients on antibiotics for Carbapenem resistant Enterobacterales, Carbapenem resistant Acinetobacter baumannii and Clostridioides difficile to detect carriers
19. Screening of stool specimens from admitted patients on antibiotics for Carbapenem resistant *Enterobacterales*, Carbapenem resistant *Acinetobacter baumannii*and *Clostridioides difficile* to detect carriers
20. Study of cytokines in Acute Bacterial Meningitis in pediatric population
21. Studies of malaria with special focus on detection of sub-microscopic malaria, characterization of species and correlation of clinical outcome
22. Study of thymidine kinase gene polymorphism in Herpes simplex virus positive clinical isolates
23. To explore the association of enteric parasitic infections with duodenal eosinophilia in

patients with functional dyspepsia (FD

Collaborative projects

Ongoing

1. A cross sectional study comparing gut microbiome composition of adolescents with depression and healthy controls, Psychiatry
2. A longitudinal prospective study to develop progression prediction models of oral leukoplakia based on oral microbiome shifts, salivary microRNA biomarkers and tobacco cessation compliance, Division of Oral Pathology and Microbiology, CDER
3. A preliminary study to validate BM-AspICU algorithm for diagnosing invasive pulmonary aspergillosis in critically ill ventilated patients using post-mortem minimally invasive tissue sampling, Medicine, AIIMS
4. A study of gut microbiota and microbiome in Hirschsprung disease in children, Paediatric Surgery
5. A study on the incidence and factors determining exacerbations in non-cystic bronchiectasis, Medicine, AIIMS
6. Aerosolized colistin in VAP caused by carbapenem-resistant Acinetobacter, Anaesthesia
7. Ambispective observational study to assess alteration in fecal microbiota in operated patients of choledochal malformation, Department of Pediatrics Surgery
8. AMR-Educate: A multinational and interdisciplinary research-integrated education partnership for a sustainable future against infection and antimicrobial resistance threats". Funded by Norwegian Directorate for Higher Education and Skills, Department of Biophysics and Inland Norway University (INN), Norway
9. APP-DIP: Development of AI based prognostic platform for an early detection of infections in immunocompromised patients. Jointly sanctioned under Indo-Sweden Collaboration in Biotechnology (IITD) & AIIMS, New Delhi. Indo(DBT)-Sweden Collaboration, Indo-Sweden Collaboration in Biotechnology with IIT-D and Department of Medical Oncology, AIIMS, New Delhi
10. Aptamer-based diagnostic test for vulvovaginal candidiasis, Dermatology & Venereology, AIIMS
11. Assessment of Toxoplasma gondii seropositivity and its association with lifetime suicidality in patients with Bipolar Disorder, Psychiatry
12. CDC-AIIMS Cooperative Agreement projects on Influenza and other respiratory viruses, Centre for Disease Control (CDC), Atlanta (USA) and Centre for Community Medicine, AIIMS
13. Characterization of circulating immunological markers in patients with Non lactational mastitis – a cross-sectional study, Department of Surgical Disciplines
14. Characterization of human antibody responses to Plasmodium vivax in India, International Centre for Genetic Engineering Biotechnology (ICGEB)
15. Clinical and Biochemical parameters related with delirium in patients with UTI: A cross sectional study, Department of Geriatric Medicine
16. Clinical profile & outcomes of ventilator associated pneumonia due to MDR & XDR gram-negative bacilli, Department of Medicine
17. Clinical profile and outcome of patients with VAP caused by CRAB, Medicine, AIIMS
18. Clinicopathological spectrum of cystic neutrophilic granulomatous mastitis and role of Corynebacterium as the etiological agent, Department of Pathology
19. Designing novel inhibitory molecules to quench quorum sensing in Gram-negative bacteria, Department of Biophysics, AIIMS, New Delhi
20. Determination of seroprevalence of COVID-19 IgG antibody among healthcare workers involved in Sanitation, housekeeping and Security services, Department of Hospital Administration, AIIMS, New Delhi
21. Development of antimicrobial hydrogel as a denture cleaning agent by dispersed nano metal oxide in alcoholic extract of Neem leaves, Department of Pharmacology
22. Development of metabolite-based point-of-care test for diagnosis of bacterial vaginosis in Indian women, Dermatology & Venereology, AIIMS
23. Development of therapeutic broadly neutralizing monoclonal antibodies against circulating HIV-1 clade C in children and adults, Biochemistry, AIIMS Delhi
24. Effect of a nested multiplex polymerase chain reaction (Biofire®) on the duration of empirical antibiotics and risk of treatment failure in asymptomatic neonates with perinatal risk factors for early-onset sepsis, Department of Pediatrics

25. Effect of anaesthetic agents on intestinal microbiome and cognition in paediatric patients undergoing elective surgeries, Anaesthesiology, Pain medicine & Critical care
26. Etiological profile of infants, children and adolescents presenting with acute, subacute and chronic encephalitis/ encephalopathy in a tertiary care centre in North India, Division of Neurology, Department of Paediatrics, AIIMS, New Delhi
27. Evaluation of a novel herbal antiseptic formulation -SEPIL for the treatment of chronic limb ulcers and pressure ulcers: A randomized, double-blind placebo-controlled trial, Department of Orthopaedic, Jai Prakash Narayan Apex Trauma Centre
28. Evaluation of M1 and M2 macrophages and tissue reaction in the peri-prosthetic soft tissue of the patients with loosening of artificial implants, Department of Pathology
29. Exploration of alternate salivary diagnostic strategies for ovarian cancer, Biophysics, AIIMS
30. Metabolomic signatures for VAP patients due to *Acinetobacter baumannii*, Medicine, AIIMS
31. National Capacity building program for healthcare workers in infection prevention and control (IPC) including biomedical waste (BMW) management for pandemic preparedness, Department of Hospital Administration
32. OH-AMR Diag: Novel technological solutions for rapid detection and screening of AMR from a One-Health perspective, Department of Biophysics & Research Council of Norway, under the Bedrehelse call
33. Outcome of guideline directed pre-operative prophylactic single dose/day vs extended prophylactic antibiotics for urological surgeries: A Randomized controlled study, Department of Urology
34. Post Sepsis syndrome: A prospective Observational study, Department of Medicine
35. Prospective observational study to find infective etiology in patients with idiopathic acute pancreatitis, Gastroenterology and Human Nutrition
36. Prospective study of antimicrobial Resistance in Chronic Lung Disease, Medicine, AIIMS
37. Proteomics study of Giardia intestinalis isolates to associate with different clinical spectrum and extrapolate its invasive potential**,** Gastroenterology and Pediatrics, AIIMS, New Delhi.
38. Regional center for one health program**,** Biotechnology
39. Studies on actinobacteria-derived novel antimicrobials and developing advanced strategies to combat community/ hospital-acquired antimicrobial resistance in MDR pathogens**,** IIT, Delhi
40. Technical development of electro-optic graphene nanoribbon doped liquid crystal cell for the detection of infectious diseases, NPL, New Delhi
41. The Study of Clinical Characteristics and Evaluation of Molecular Diagnostic Modalities In Enhancing The Diagnosis Of Periprosthetic Joint Infection, Department of Medicine
42. To establish Centre of Excellence for Ayurveda Therapy in chronic diseases of women & promoting holistic health care (CAR), Obstetrics & Gynecology

Completed

1. Antifungal Effect of Lactoferricin, a natural potent antimicrobial peptide derived from the innate immunity protein, Lactoferrin and its use in the therapeutics of Mucormycosis, Department of Biophysics
2. Azithromycin- Based Extended-Spectrum Prophylaxis foe Caesarean Delivery: A Randomized Controlled Trial, Department of Obstetrics and Gynaecology
3. Burden of multidrug-resistant neonatal sepsis in district hospital settings in India, Department of Pediatrics
4. Central line-associated bloodstream infections and bacterial contamination among health care workers in medical ICU: a prospective observational study, Department of Medicine
5. Developing an antibiogram based on culture samples of suspected patients of infection presenting to the emergency department, Department of Emergency Medicine
6. Efficacy of cold atmospheric plasma jet for its antimicrobial activity against drug resistant bacterial and fungal pathogen: An in-vitro and in-vivo study, IIT, New Delhi
7. Multi-drug resistant and Extensively drug resistant Enterobacterales- Prevalence, Treatment and Outcomes- A Prospective Observational study, Department Medicine

8. National Capacity Building for healthcare workers in Infection, Prevention and Control including biomedical waste management for pandemic. Funded by USAID & JHPIEGO, Department of Hospital Administration, AIIMS, New Delhi
9. Studies on AMR: Actinobacterial bioactive compounds mediated biofilm inhibition and Molecular insights towards Quorum sensing pathways, IIT, Delhi
10. Utility of Radiolabeled Antibiotics as Imaging Agents in Establishment of a Decision Support Algorithm in Patients with Pyrexia of Unknown Origin (PUO) caused by Infection and its Impact on Short Term and Long Term Clinical Outcomes, Department of Nuclear Medicine, AIIMS, New Delhi

PATIENT CARE

The Department of Microbiology carried out a total of 495078 tests during the year 2024-25

BACTERIOLOGY LABORATORY	
Name of assay/test/investigation	**No. of tests performed**
Blood Culture and identification	43621
Respiratory tract samples: Culture and Identification	26400
Urine Culture and identification	48480
Pus Culture and identification	25517
Stool Culture and identification	3023
CSF/Sterile samples Culture and identification	11206
Latex Agglutination (Antigen detection) from CSF Samples for Bacterial Meningitis	1000
Total	**159247**
Antimicrobial susceptibility testing (including automated VITEK-2)	
Blood Culture	4865
Respiratory tract samples	12350

BACTERIOLOGY LABORATORY	
Urine Culture	8784
Pus Culture	9522
Stool Culture	16
CSF Culture	1822
Total	**37359**
HIC Laboratory	
IV Fluids, environmental samples etc.	21813
CSSD Biological Indicator	2445
CSSD Bowie Dick Pack	1743
Plasma indicator	203
Water Testing	2294
Total	**28498**
Tuberculosis and CB-NAAT	
TB test	
ZN Smear Microscopy	13230
Gene Xpert MTB/RIF	4652
TrueNAT	2327
PCR for *Mycobacterium tuberculosis*	2302
Rapid Culture on MGIT 960	4987
Culture on LJ medium	13230
MGIT Drug susceptibility testing (DST)	56
Line Probe assay	179
Total	**40963**
COVID CB-NAAT	
Gene Xpert/ True NAT	197
Total	**41160**
MYCOLOGY LABORATORY	
Direct microscopy/Culture	
Blood culture/Bone marrow/Blood BACTEC	3281
Respiratory (BAL, Sputum, Tracheal aspirate)	8405
Urine	1607
CSF	1624
Tissue/Biopsy	1482
Skin scrapping/Nail/Hair	65
Fluid (Peritonial, Pericardial and Ascitic fluid)	1918
Pus	1184
Miscellaneous (plates, Swabs, Catheter tips)	2058
Total	**21624**

BACTERIOLOGY LABORATORY	
Fungal Serology/Antifungal/TDM/PCR	
Cryptococcal antigen	2012
Galactomannan antigen	6818
Urinary Histoplasma antigen	173
TDM	1467
Antifungal Susceptibility Testing	1100
PCR	1005
Beta-D-Glucan	171
Total	**12746**
Grand Total	**34370**
PARASITOLOGY LABORATORY	
Name of assay/test/investigation	**No. of tests performed**
SEROLOGICAL INVESTIGATIONS	
Serology for anti-*amoebic* IgG antibodies by ELISA	352
Serology for anti-*echinococus* for IgG antibody by ELISA	328
Serology for anti-*toxoplasma* IgG antibodies by ELISA	274
Serology for *Taenia solium* infection	25
Serology for Strongyloidiasis	390
Serology for Toxocariasis	47
Total	**1416**
INVESTIGATION FOR MALARIA	
Fluorescent staining (Acridine Orange)	7242
Giemsa staining	7242
Quantitative Buffy Coat (QBC) Assay	7242
HRP-II Antigen Detection test	7242
24x7 MP (AO, Giemsa, QBC, RDTs)	**2760**
Total	**31728**
INVESTIGATION FOR KALA-AZAR	
Fluorescent staining (Acridine Orange)	75
Giemsa staining	75
Kala-azar serology (rk-39)	719
24x7 MP (AO, Giemsa, QBC, RDTs)	15
Total	**884**
EXAMINATION OF FECAL SAMPLES FOR INTESTINAL PARASITOSIS	
Direct and concentration techniques	1960
In –vitro Cultures	20
Modified Acid-fast and special staining for intestinal coccidia	1960
PCR assay for the detection of microsporidia species	1960
Total	**5900**

BACTERIOLOGY LABORATORY	
EXAMINATION OF ASPIRATES	
Sputum, pus and other aspirates	**143**
INVESTIGATION FOR FILARIASIS	
Direct and Concentration techniques	650
Acridine Orange	650
Thin Smear examination	650
Thick Smear examination	650
Filarial Antigen detection	650
QBC	650
24×7 Services	245
Total	**4145**
OTHER INVESTIGATIONS	
Investigation for the detection of *Pneumocystis jirovecii* infection (PCP) by staining & PCR assay	360
Cerebrospinal fluid examination for Free living Amoebas (FLAs)	85
Worm Specimens	6
Arthropod Specimens	2
Total	**453**
Grand Total	**44669**
VIROLOGY LABORATORY	
Molecular tests (Real time PCR, Genome sequencing)	
Whole genome sequencing/ NGS for SARS-CoV-2, Influenza A&B, RSV, HMPV (respiratory viruses)	208
Influenza real time multiplex RT-PCR	3590
SARS-CoV-2 real time RT-PCR (COVID-19)	3510
Surveillance for respiratory viruses (Influenza, SARS-CoV-2, and RSV)	1411
Human metapneumovirus (HMPV) real time RT-PCR	86
Respiratory virus panel- multiplex real time PCR	764
HCMV DNA PCR (Urine, Colonic biopsy, CSF etc.)	3835
HIV-1 RT-PCR for Early Infant Diagnosis (DBS samples)	2831
HIV-1 RNA RT-PCR (HIV-1 viral load)	12533
HBV DNA real time PCR (HBV viral load)	1371
HCV RNA real time RT-PCR (HCV viral load)	328
Dengue & Chikungunya virus real time RT-PCR	68
Zika virus real time RT-PCR	06
Genital ulcer disease (GUD) viral panel esp. HSV-1&2	103

BACTERIOLOGY LABORATORY	
BK polyomavirus real time RT-PCR	1431
JC (John Cunningham) polyomavirus real time PCR	96
Fever with Rash- Viral PCR Panel (Measles, Enterovirus, Parvovirus B19, HHV-6 & HHV-7)	6
Viral Meningitis/Encephalitis PCR panel (HSV, Enteroviruses, Parechoviruses, VZV, Mumps)	429
Viral Gastroenteritis PCR Panel (Rotavirus, Norovirus, Sapovirus, Astrovirus, and Adenovirus 40/41)	249
Epstein-Barr virus (EBV) DNA real time PCR	932
Parvovirus B19 real time PCR	427
Enterovirus real time RT-PCR	22
Adenovirus real time PCR	51
Measles real time RT-PCR	11
Mumps real time RT-PCR	10
Monkeypox real time PCR (Orthopox & Mpox)	07
HHV-6 real time PCR	14
HHV-8 real time PCR	11
Dengue virus serotyping by real time RT-PCR	227
Antigen detection	
Dengue NS1 antigen (ELISA)	12742
HBsAg (ELISA/CLIA)	119
Viral Gastroenteritis ICT test (Rotavirus, Norovirus, Adenovirus, etc.)	48
Antibody detection (Serology)	
Anti-Dengue IgM (ELISA)	11308
Anti-Chikungunya IgM (ELISA)	485
Anti-Japanese Encephalitis IgM (ELISA)	134
Anti_HAV IgM (ELISA/CLIA)	129
Anti_HEV IgM (ELISA)	101
Anti-HBc IgM (ELISA/CLIA)	103
Anti-HCV (ICT/CLIA)	101
Anti-Measles IgM (ELISA)	20
Anti-Mumps IgM (ELISA)	15
Anti-EBV (VCA) IgM (ELISA)	290
Direct Microscopy	
Tzanck smear (for HSV 1&2, VZV)	10
PS for Downey cells/atypical lymphocytes (EBV-related Infectious mononucleosis)	3
Cell Culture	
Virus isolation- MDCK, Vero, HEp-2 cells etc.	159
Total	**60334**

BACTERIOLOGY LABORATORY	
SEXUALLYTRANSMITTED DISEASESLABORATORY	
Semen	1374
HVS	706
EPS	49
Urethral Discharge for *N.gonorhoeae* Culture & AST	183
Urethral Discharge for *N.gonorhoeae* PCR	183
Urethral Discharge for CT PCR	183
Cervical Swab for *N.gonorhoeae* Culture & AST	164
Cervical Swab for *N.gonorhoeae* PCR	164
Pharyngeal swab for *N.gonorhoeae* Culture & AST	134
Pharyngeal swab for *N.gonorhoeae* PCR	134
Rectal swab for *N.gonorhoeae* Culture & AST	134
Rectal swab for *N.gonorhoeae* PCR	134
Vaginal swab for BV	127
Blood for *Treponema pallidum* PCR	02
Total Samples	**3671**
Mycoplasma Laboratory	
Chlamydia trachomatis PCR	698
Ureaplasmaurealyticum culture	586
Ureaplasmaurealyticum PCR	673
Mycoplasma hominis culture	586
Mycoplasma hominis PCR	673
*Mycoplasma genitalium*PCR	405
Total	**3621**
ANAEROBIC&SPECIAL BACTERIAL PATHOGEN LABORATORY	
Samples for Anaerobic culture (Blood, Bile, BAL, CSF, Tissue) other samples	721
Clostridiodes difficile	
Stool culture for *C. difficile*	625
Stool samples for *C. difficile* ELISA	400
Stool sample for *C. difficile* PCR	102
Stool sample for *C. difficile* Genexpert	13
Campylobacter	
Stool culture for Campylobacter	9
Special Bacterial Pathogen Laboratory (SBPL)	
Leptospira	
Citrate blood samples for Culture for Leptospira spp.	987

BACTERIOLOGY LABORATORY	
Urine samples for Culture for Leptospira spp.	985
ELISA for Leptospira IgM antibodies	1482
Urine Dark Ground Microscopy	985
Plasma Dark Ground Microscopy	987
Leptospira PCR	421
Scrub typhus and Rickettsia	
IgM ELISA for Scrub typhus	1421
IFA for Scrub typhus	08
Scrub typhus PCR	103
Bartonella	
Samples for *Bartonella* Culture	54
Sample for *Bartonella* IFA (IgG)	54
Sample for *Bartonella* IFA (IgM)	54
Sample for *Bartonella* PCR	19
Legionella pneumophila	
Legionella serology	170
Legionella PCR	166
Legionella urine antigen	67
Mycoplasma pneumoniae	
Mycoplasma IgM antibody detection	180
Mycoplasma PCR	177
Mycoplasma culture	177
Chlamydia pneumoniae	
ELISA for *Chlamydia pneumoniae* IgM antibodies	178
Lyme Disease	
Lyme Disease IgM ELISA	146
Lyme Disease IgG ELISA	146
Lyme Disease IgM Immunoblot	59
Lyme Disease IgG Immunoblot	35
Borrelia 16S Real-time PCR	146
Total	**11077**
SEROLOGYLABORATORY	
Widal test:	10876
VDRL test	14931
Treponema pallidum Hemagglutination Assay(TPHA)	1350
Anti-streptolysin O (ASLO):	15
Standard Agglutination Test (SAT) for *Brucella* antibody	406
H.pylori Stool Antigen	3470
Total	**31048**

BACTERIOLOGY LABORATORY	
MOLECULAR BIOLOGY LABORATORY	
Multiplex (Conventional/Real Time) PCR for Acute Bacterial Meningitis (ABM)	450
Total	**450**
HIV and Immunology Laboratory:	
CD4 Testing	5550
HIV testing	30047
Western blot testing of HIV	16
HIV DBS samples under HIV sentinel surveillance program by NACO	3961
Total	**39574**
GRAND TOTAL	**495078**

External Quality Assessment Scheme (EQAS):

- All the sections in The department participated successfully with 100% or excellent concordance in various EQA/ Proficiency Testing (PT) programs:
- IAMM EQA/PT Programme
- NACO EQA/ PT Programmes
- EQA programme of WHO GASP (Gonococcal Antimicrobial Surveillance Program)
- External quality Assessment Scheme (EQAS) conducted by Indian Association of Tropical Parasitology (IATP), CMC Parasitology EQAS, The Wellcome Trust Research Laboratory, Christian Medical College Vellore and Indian Association of Medical Microbiology (IAMM) (in which the Parasitology Laboratory consistently received "A+" grade)
- Inter-Laboratory Comparison for syphilis serology (VDRL/ TPHA) with Apex Regional STD Centre, Department of Dermatology and STD, VMMC & Safdarjung Hospital, New Delhi.

Patient Care

Item	2022–2023	2023–2024	2024–2025
OPD consultations	Not applicable	Not applicable	Not applicable
Special clinic consultations	Not applicable	Not applicable	Not applicable
Patients provided rehabilitation services	Not applicable	Not applicable	Not applicable
Total inpatient admissions	Not applicable	Not applicable	Not applicable
Laboratory Investigations	355618	455415	495078

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Lalit Dar was Member, National Technical Advisory Group on Immunization (NTAGI). He was Co-Chair, Technical Resource Group, Laboratory Services and STI, National AIDS Control Organization. He was Chair, Technical Resource Group(Laboratories), National Viral Hepatitis Surveillance Programme. He was Member, Advisory Committee, NABL; Member, SAC, ICMR-National Malaria Research Institute; Member, Joint Monitoring Group, EMR, MoHFW (under the Chairmanship of the DGHS); Member, ESI Corporation (Central Government-nominated).

Professor Bimal Kumar Das was Member – Selection Committee Research Section, AIIMS Delhi; Chair- Hospital Infection Control committee, AIIMS Delhi; External Examiner, AIIMS Patna (17 December 24); Examiner, Baba Farid University of Health Sciences, Punjab; Chairperson, M.D. examination (Microbiology), AIIMS Delhi (May 2024).

Professor Bijay Ranjan Mirdha was Chairperson, Institutional Animal Ethics committee (IAEC), AIIMS, New Delhi since 09 February 2024. He was Chairperson, Technical Specifications and Evaluation Committee (TSEC), AIIMS, New Delhi.

He was Expert Member for malaria training under NVBDCP, South District to take teaching and training sessions for Malaria Training intended for Medical Officers & Public Health Nurses. Selection committee member for AIIMS Excellence Award for Basic sciences under the aegis of Research Section, AIIMS, New Delhi for AIIMS Research Day, 2024. Member, National Task force for Early Diagnosis and Treatment of Lymphatic Filariasis. Member, Technical Specification committee for diagnosis and treatment of Kala-azar. Chaired different sessions during various conferences and symposia.

Professor Benu Dhawan received Dr. P.S. Ranganathan Memorial Award by Indian Association for the Study of Sexually Transmitted Diseases and AIDS 48th National Conference of IASSTD & AIDS, New Delhi. 31 August–1 September 2024. (Senior corresponding author of paper).

Professor Seema Sood was Elected as Fellow (FAMS) of the National Academy of Medical Sciences. STD Lab has been identified as a Reference Lab for medical device testing for STDs by ICMR-CDSCO & initiated activities for ISO 17025 as a part of establishment of MDTLs. Invited as Member- Abstract Review Committee & Scholarship Committee for the prestigious STI & HIV Congress, 2025, Montreal, Canada. Elected committee member- IUSTI World Committee (2021-25). To continue for second term (2025-2029). Member- India-Japan Cooperative Science Program (2024-2026). Member- Institute Ethics Committee for PG Research (Basic Science) at AIIMS, New Delhi She was invited as Member of Scientific Advisory Committee-ASTICON 2024. She was invited for authorship of 2 chapters for IASSTD & AIDS Textbook of STIs. She was Member- Institutional Biosafety Committee (IBSC), VMMC & SJH, New Delhi. She was Member- Expert Committee for implementation of eGASP in India constituted by NACO, Min of H & FW, GOI. She was Member- TRG (Surveillance & Epidemiology) under NACP- constituted by NACO, Min of H & FW, GOI. Expert ICMR- PRCon HIV/AIDS and STIs. External Expert- JIPMER, Puducherry. Member- Editorial Team – Indian Journal of STDs & AIDS. Faculty- National Board of Examination (NBE). Reviewer- National/ International journals.

Professor Sarita Mohapatra was Elected as Executive committee member of the "Indian Association of Medical Microbiology" for the period of 3years (2023-2025). She was Elected as President of the "Society of Antimicrobial Stewardship Practices in India" for 2024-25. Resource person for the IAMM Infection Prevention Control Course. She was Selected as reviewing editor for the Journal "Microbiology Spectrum". She was selected as reviewing editor for the Journal "BMC Microbiology".

Professor Aashish Choudhary was Awarded the Satish C. Talwar Memorial Award for Best Published Research Paper entitled 'Varicella-zoster virus (VZV) outbreak in a long-term care unit of a tertiary care hospital in northern India.' at MICRO-D-CON held in New Delhi on 19 October 2024. Member of the Institute Biosafety Committee (IBSE), AIIMS Delhi. Member of the BSL-3 facility, Central Core Research Facility (CCRF), AIIMS Delhi. Member of the DHR-ICMR working group to establish diagnostic algorithm based on syndromic approach under 'One Health'.

Professor Hitender Gautam was Academic Editor in *PLOS ONE* Journal Editorial Board w.e.f September 2024. He was Director Publication Committee: Society of Antimicrobial Stewardship Practices (SASPI) in India. (2024-27). He was Founder Member of Society of Antimicrobial Stewardship Practices (SASPI). He was Faculty Incharge Stores (Non-Plan) for the Department of Microbiology. He was Department Store Verification Committee Member. He was Department Expert for the Selection of Senior Residents at CAPFIMS. He was Expert member/subject expert: ESIC Selection Board for Faculty posts. He was Advisor for the interviews on the various posts for the DNA Division under Rajasthan Public Service Commission (RPSC) at Ajmer, Rajasthan. He was TSEC Committee member for the procurement of "Various Surgical Consumable Items" at AIIMS Hospital Store. w.e.f August 2024. He was External Assessor for Peer assessment of NITRD New Delhi under KayaKalp Award Scheme, 26 December 2025. He was Panelist in Panel discussion at IAMM Delhi Chapter at Department of Microbiology, Maulana Azad Medical College & Associated Hospital, New Delhi on 10 August 2024. "Establishing quality system and Laboratory Accreditation in Microbiology: Challenges & Way Forward". He was Committee member for Operationalization of Laboratory Services of AIIMS-CAPFIMS. He was Nominated faculty from Department of Microbiology for Operationalization of Administrative/Academic Block of AIIMS-CAPFIMS: AIIMS, Committee Member w.e.f 19 July 2024. He was Swachhta Team Committee member for AIIMS, New Delhi. He was AIIMS NABL Coordination Core Committee Member w.e.f October 2022 for NABL Accreditation of all laboratories at AIIMS, New Delhi. He was Department NABL Core Committee Member & Deputy Quality Manager for Department of Microbiology, AIIMS, New Delhi: Department has been NABL Accredited w.e.f. 15 November 2019. He was Running of 24 x 7 laboratory in Department of Microbiology w.e.f 1 June 2022. He was Clean & Green AIIMS Sub-committee member for Key Result areas (KRA)": For KRA 5: Waste Management and For KRA 6: Infection Control. He was Technical Specification & Evaluation Committee (TSEC) member for Antiseptics, Disinfectant & Chemicals at AIIMS w.e.f February 2022. He was Member Secretary: Infection Control Committee in Dr. BRA IRCH, AIIMS, New Delhi. He was Hospital Infection Control Committee (HICC), Core Committee Member AIIMS, New Delhi. He was Hospital Infection Control activities at Surgical block. He was Incharge: Departmental KAYA KALP Committee. Part of AIIMS KAYA KALP Team. KAYA KALP Inspection Management for Department. He was Committee member for MBBS Curriculum reforms & AIIMS Undergraduate Curriculum Organizing Group (AU-COG) at AIIMS, New Delhi. He was External Member of the Constitution of the Board of Studies in the Department of Microbiology at AIIMS Bathinda. He was Board member at AIIMS Bathinda: to design the curriculum and assessment of MBBS undergraduate for the Department of Microbiology

at AIIMS Bathinda. Preparation of E-Learning Module for Under-Graduate Students for Uniform Teaching across India under NMC. Co-Guide for PhD in Medicine by Research Medical Microbiology program at Taxila American University. Central Core Research Facility (CCRF), Proteomics facility Sub-Committee member w.e.f 31 January 2023.

Dr Nishant Verma was Associate editor for the journal "Tropical Parasitology". He was Member - Experts Committee to guide and support the ICMR Infectious Diseases Research and Diagnostic Laboratory (IRDLs) network – Major contribution in developing the modalities for this Pan-India network creation initiative of ICMR particularly for Parasitology vertical. He was NABL accreditation of investigations in parasitology laboratory. He was Member - Core committee for coordination of NABL work at AIIMS. He was Faculty In-charge, Departmental Stores (Plan). He was Departmental DM ID teaching committee member. He was Core committee member for DM infectious diseases curriculum. He was Member-AIIMS under graduate curriculum organizing group. He was Member- Departmental patient safety & quality committee-Pediatrics, pediatric surgery, neonatal unit & neonatal surgery unit - MCH block. He Contributed in NABH accreditation process in Mother & Child Health block and Center for Dental Education and Research. He was Departmental coordinator for the 69th Institute day exhibition. He was Coordinator –AIIMS master plan departmental committee. He was Member of the 'clean & green AIIMS' sub-committee. He was CPIO-RTI. He was Core Group Member: Hospital Infection Control Committee (HICC), AIIMS, New Delhi. He was Incharge – Hospital Infection Control activities at CDER, AIIMS, New Delhi; Incharge - HIC activities at Mother and Child Health block. He was Involved in the development of E-learning modules for undergraduate teaching. He was Executive committee member: Indian Association of Tropical Parasitology. He was Member-Hospital Infection Society- India. He was Member – IAMM; Member-IAMM- Delhi Chapter; Reviewer for several reputed journals; Member - committee for renovation of the BSL-3 laboratory of CCRF. Member – selection committee for recruitment of consultant/computer programmer/……/assistant in various research projects. Member of Microscopy Sub-Committee - for Centralized Core Research Facility (CCRF) at AIIMS, New Delhi. Member- district coordination committee for malaria, office of the chief district medical officer-South district, DGHS-Govt. of NCT of Delhi. MD thesis evaluation – AIIMS Jodhpur.

Dr Megha Brijwal was Member- DHR-ICMR working group to establish diagnostic algorithm based on syndromic approach under 'One Health'.

Dr Kiran Bala was Member- Hospital Infection control core committee, AIIMS, New Delhi. He was Member Secretary-Hospital Infection control subcommittee at National centre of Ageing, AIIMS, New Delhi. He was Member- Infection prevention & control team of centralized core research facility at AIIMS, New Delhi. He was Nodal Officer Information Technology (IT) - Departmental computer related & Information technology & Digitalisation (Nodal IT Officer, Content Provider from Department, Integration of Lab LIS to HMIS, Website updation). He was Faculty coordinator- Organization of Departmental Assessment (Stage III) for admission for Ph. D Programme. He was Committee Member & Member TSEC - Planning and Initiation of Microbiology services at Mother & Child block, Technical specifications & Procurement of various M & E for Mother & Child block. He was Member TSEC- Technical specification evaluation committee for procurement of TB consumables at hospital stores. He was Expert member& TSEC member- BSL-3, BSL-2 Subcommittee of CCRF core committee at AIIMS, New Delhi. (Initiation, Procurement of M& E and designing, framing of SOP). He was Reviewer: BMJ case reports, Frontiers in Medicine, International J of Medicine and public health, Medical mycology, Indian J Med research, Indian J Tuberculosis, Mycopathologia.

Dr Priyam Batra was Member of various institutional committees. Member of the Quality and Patient Safety Committee, Surgical block and the NABH Committee, Surgical Block. Member, General facility committee, CCRF. Cafeteria food safety committee. Co- member Secretary, AIIMS-CAPFIMS committee for blood center and laboratory services. Member, AIIMS-CAPFIIMS committee for academic services. Infection Control Officer, CSSD, Masjid Moth Complex. Committee for outsourcing of disinfectant, general pest and rodent control services. He was Academic editor of Scientific reports, Nature publication; Journal of Laboratory Physicians. He was Reviewer in the following journals. Journal of Global Infectious Diseases. Spectrum Journal; Journal of advances in Medicine and Medical Research; The Lancet Regional Health- Southeast Asia; Indian Journal of Medical Microbiology. Indian Journal of Microbiology; BMC Infectious Diseases; Annals of Clinical Microbiology and Antimicrobials; Medicine; Journal of pathogens; PLOS ONE; Journal of Laboratory Physicians. BMC. Musculoskeletal Disorders. Frontiers in Immunology. Indian Journal of Tuberculosis. Clinical Medicine Insights: Paediatrics. Journal of Pure and Applied Microbiology. Gut pathogens. Canadian J Infectious Diseases. Fellow/Member of various organizations; Hospital Infection Society India (HISI). Indian Association of Medical Microbiologist (IAMM).

Dr Tanu Sagar received First prize in oral presentation: Vrushali Patwardhan, P Dileep, Anusha Rathi, Tanu Sagar, Nishant Verma titled " Leptospirosis: Unveiling the Hidden Threat in a Non-Endemic Region in CAHO DiagnostiCon 2025.

Head NCI

Alok Thakar

Additional Medical Superintendent

Sunil Kumar

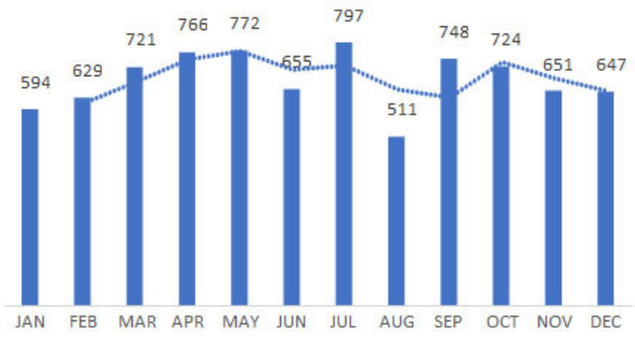
Highlights

The 2nd AIIMS Oncology Conclave 2025 was inaugurated by Union Minister of Health & Family Welfare, Shri Jagat Prakash Nadda, at the National Cancer Institute (NCI), AIIMS Jhajjar on 15 February 2025, marking a significant milestone in the institute's journey since its establishment in 2019. Celebrating six years since its foundation, Minister Shri Shri Nadda praised NCI's rapid evolution into a world-class referral center offering multidisciplinary and patient-centric cancer care. He commended the dedication of doctors, healthcare workers, and administrators in advancing the institute's mission. Event was graced by Dr. M. Srinivas, Director, AIIMS New Delhi, Dr. K. K. Verma and Dr. Nikhil Tandon, Deans at AIIMS and Faculty from NCI, healthcare professionals, policymakers, scientists, and innovators from AIIMS institutes nationwide, PGI Chandigarh, and JIPMER Puducherry.

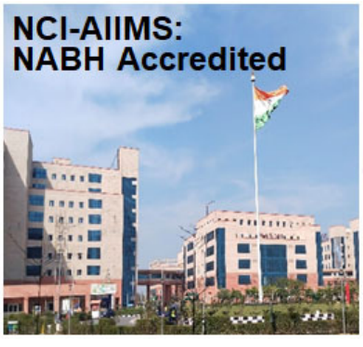
Key features of the event included:

- The Minister's visit to the new Nuclear Medicine Targeted Treatment Ward and Bone Marrow Transplant (BMT) Unit, designed to improve outcomes for thyroid and hematolymphoid cancers.
- Recognition of NCI's innovation ecosystem, highlighting collaborations with startups, engagement of PhD students, research with practical societal applications and Infosys Vishram Sadan which provides affordable accommodation and psychosocial support to families of patients.

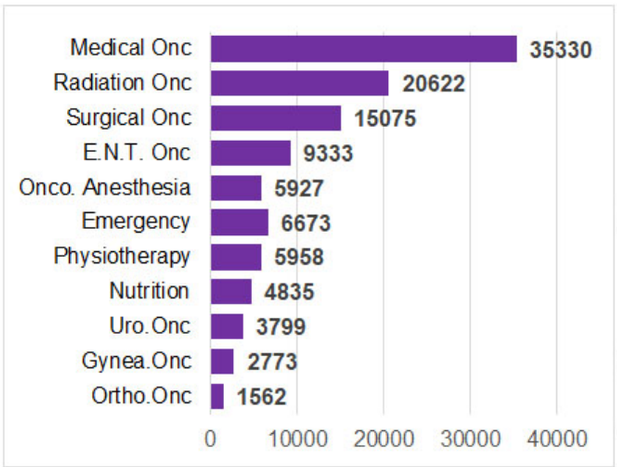
Minister Shri Nadda also emphasized the Government of India's national efforts in cancer prevention and treatment, noting:



- Cancer screening under NHM for individuals aged 30+, with over 49 crore screenings for oral, breast, and cervical cancers at Ayushman Arogya Mandirs.
- Investments exceeding ₹3, 000 crores for State Cancer Institutes and Tertiary Cancer Care Centres from 2014–2026.
- Cancer care infrastructure approved in all 22 new AIIMS, and plans to establish Day Care Cancer Centres (DCCCs) in every district hospital, starting with 200 this year.

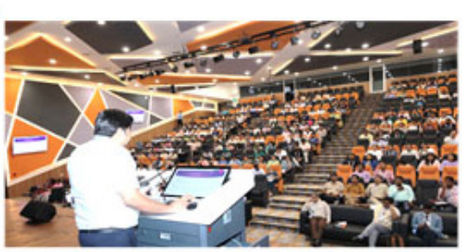


NEW PATIENT REGISTRATIONS 2024
(Annual Registrations: 8215)

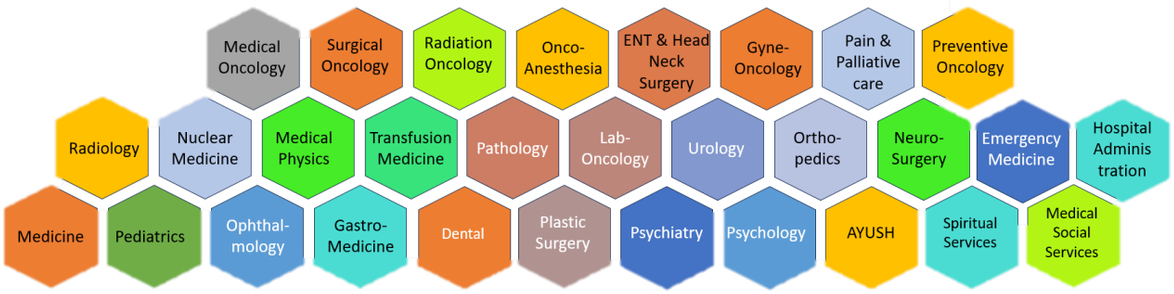


NABH ACCREDITATION

OPD ATTENDANCE (YEAR-2024)



Ayushman Bharat-PMJAY; PM National Relief Fund & RAN Admissions: 2816



AIIMS SURGICAL ONCOLOGY CONCLAVE, SEP 2024

Comprehensive Cancer Care

Cancer Care Services at National Cancer Institute (NCI), Jhajjar

Integrated Cancer Services & Tumor Boards

- Breast
- ENT/Head & Neck
- Gastro-Intestinal
- Gynae Oncology
- Uro/Genito-urinary
- Musculoskeletal
- Hematological/ BMT
- Pediatric
- Neurological & Orbit
- Thoracic & Pulmonary

Specialized Clinics & Cancer Care Services

- Preventive Oncology
- Pain & Palliative Care
- Cancer Emergency Care Services
- Transfusion Medicine
- Onco-Psychiatry & Psychology Services
- Ostomy Care
- Onco-Genetics & Onco-fertility
- Internal Medicine Services- General Medicine, Pulmonary, Endocrine, Gastroenterology.
- Physiotherapy & Rehabilitation Services
- Dental Services
- Alternative Medicine-Ayurveda & Yoga

Support Services

- Tobacco Cessation Services
- Genetic Counselling
- Long term Follow-up
- Medical Social Services
- Dietary services
- Survivor Wellness program
- Vocational Rehabilitation

Diagnostic, Laboratory & Imaging Services

- Radiology
- Nuclear Medicine
- Core Lab
- Pathology
- Microbiology
- Cytogenetics and Molecular pathology
- Medical Physics

Departments

Biochemistry

Additional Professor

Faculty In-Charge: Neurobiochemistry Lab, Neurosciences Center (NSC)

Molecular Diagnostic Facility, National Cancer Institute (NCI), Jhajjar,

Department of Biochemistry,

A.I.I.M.S. New Delhi 110029.

Staff

Neurobiochemistry Lab

Sr. Technical Officers

Archana Bansal Khoob Chand Bimla Bhatt

Technical Officer

Vikas Yadav

HIGHLIGHTS:

The Department of Biochemistry and the Molecular Diagnostic Facility at NCI–Jhajjar continued to advance academic, research, and clinical services through multiple high-impact initiatives. Two major extramural research projects with a combined funding of Rs 16.692 crores are currently ongoing, supporting extensive laboratory and translational research activities. The department plays a key role in academic supervision, overseeing MSc, MD, MCh, DM, and PhD scholars, mentoring postgraduate trainees, and guiding undergraduate students, including recipients of the ICMR-STS Fellowship. Faculty also contributed to institutional academic processes by serving as Internal Examiners for the First MBBS Biochemistry and MD Biochemistry examinations.

The department received seven scientific awards, including three Best Oral and four Best Poster Presentation Awards. The MeitY-funded **iOncology.ai** platform, developed in collaboration with CDAC Pune, received the **Mint Tech4Good Awards 2024 – Gold Category** and significant national media coverage. The platform supports oncology data collection, collation, and AI-enabled diagnostic assistance, and is now operational in R&D mode on the AIIMS intranet and deployed across district hospitals in Delhi, Rajasthan, Madhya Pradesh, Gujarat, and Uttar Pradesh.

Clinically, the facility reinstated advanced diagnostic services at the Neurosciences Center and expanded molecular testing capabilities at NCI, including preneoplastic marker profiling, NMO/MOG antibody testing, and HPV genotyping, significantly improving access for underserved patients. Development of next-generation sequencing (NGS)–based gene panels for solid and hematological malignancies is also underway.

The department contributed to public outreach on cancer prevention, organized scientific programs, and participated in national expert committees such as ICMR, DST-SERB, and DBT-RA. It also supported national academic initiatives through coordination of SWAYAM online courses under the Government of India's digital education platform.

EDUCATION:

No. of short-term/long-term trainees 18

- Guided ten postgraduate students for observational summer training.
- Mentored five undergraduate students through the UG Mentorship Program.
- Supervised three UG students who received the prestigious ICMR-STS Fellowship.

CMEs/Workshops/Symposia/National and International Conferences:

CME	= 1
Symposia	= 02
Plenary Lectures	= 04
Guest Lectures	= 04
Invited Lecture	= 09
National Conference	= 05
International Conference	= 04

Lectures delivered at CMEs, National and International conferences:

Ashok Sharma

1. Invited as a Keynote Speaker and chaired a session in the National-Level Conference on Cancer Biology: Emerging Trends and Future Directions. Transforming Cancer Diagnosis, Prevention, and Treatment: Innovative Approaches with the iOncology.ai Platform, Department of Biotechnology and Bioengineering, Institute of Advanced Research (IAR), 28 February–1 March, 2025, Gandhinagar
2. Invited as a Keynote Speaker and chaired a session in the Emerging Frontiers of Immunobiology and Immunotherapy. "Innovative Approaches in Cancer Prevention and Treatment: Shaping the Future of Oncology", 2nd edition of the GIS (Global Immunology Summit), 13-15 February 2025, BRIC-Translational Health Science and Technology Institute (THSTI) India
3. Delivered an invited talk at the 5th International Global Cancer Consortium, Amity University, 28-31 January 2025, Amity Noida campus
4. Lecture in the Residential Faculty Induction Programme, UGC-Malaviya Mission Teacher Training Centre, JNU (formerly UGC-HRDC), 23 January 2025, JNU, New Delhi
5. Delivered an Invited keynote Lecture for Faculty and students with recent trends and technology on "Innovative Approaches in Cancer Prevention and Treatment: Shaping the Future of Oncology", Department of Biotechnology, Jaipur National University, 11 January 2025, Jaipur,
6. Invited as a Keynote Speaker on the occasion of its 20th anniversary, it has completed 20 years of its establishment to grace the occasion and inspire the faculty and students, 21st Foundation Day of the Institute of Science at Nirma University, 6 September 2024, Gandhinagar
7. Invited as a Speaker: The iOncology.ai Platform: Transforming Ovarian Cancer Diagnosis Through Novel Biomarker Discovery, Golden Jubilee Conference of the Association of Clinical Biochemists of India (ACBICON 2024), 5-7 December 2024, Hotel Mount View, Chandigarh.
8. Invited as a Speaker: The iOncology.ai Platform: Transforming Breast Cancer Diagnosis Through Novel Biomarker Discovery, International Conference on "Advancements in Diagnostic Technologies: Global Healthcare Monitoring", 15-17 November 2024, MNNIT, Prayagraj
9. Invited as a Speaker: The iOncology.AI Platform: An AI-based Platform for the Early Detection of Gynaecological Cancer, First J&K International Conference on Breast Cancer & Awareness cum Screening Camp at University of Kashmir, 22-24 October 2024, Srinagar, Kashmir, India.

LECTURES DELIVERED OVER LAST THREE YEARS

2022-2023	2023-2024	2024-2025
12	10	09

List of oral papers/posters presented:

1. Gupta Rashmi, Ray MD, Sharma Ashok, Epigenetic Potentiation in Dendritic Cell-Based POTE Vaccination: A Promising Strategy for Ovarian Cancer Immunotherapy, Global Immunology Summit, 13-15 February 2025, THSTI, Faridabad, India.
2. Kundu Subhadip, Qazi Sahar, Manav Nisha, Gupta Rashmi, Bimal Prasad Jit, Sharma Ashok*, Reshaping of the genome–nuclear lamina interaction and modulation of the epigenome in response to platinum-based chemoresistance in ovarian cancer, 4th AIIMS Research Day, 28-29 January 2025, AIIMS New Delhi
3. Gupta Rashmi, Jit Bimal Prasad, Ray MD, Sharma Ashok, Epigenetic Potentiation in Dendritic Cell-Based POTE Vaccination: A Promising Strategy For Advancing Ovarian Cancer Immunotherapy", 4th AIIMS Research Day, 28-29 January 2025, AIIMS New Delhi
4. **Kumar Santosh, Surender Sherawat, Ashutosh Mishra, Atul Batra, SVS Deo, Ashok Sharma, Unveiling the biomarker and therapeutic promise of lncRNA AC092718.4 in breast cancer. Best Poster Presentation (2nd Prize), Global Cancer Consortium Conference (GCCC), 28-31 January 2025, Noida, India.
5. ***Kundu Subhadip, Qazi Sahar, Manav Nisha, Gupta Rashmi, Jit Bimal Prasad, Sharma Ashok,* Genome-Wide LAD-Nuclear Lamina Alterations and Epigenetic Reprogramming in Cisplatin-Resistant Epithelial Ovarian Cancer. Best Poster Presentation (1st prize), Global Cancer Consortium Conference (GCCC), 28-31 January 2025, Noida, India.

6. ***Rashmi Gupta, Bimal Prasad Jit, Babul Bansal, MD Ray, Ashok Sharma, POTE as potential therapeutic targets for epithelial ovarian cancer (EOC), (Best Poster Award)(1st prize), OFCON, 18-19 January 2025, Indraprastha Apollo Hospital, New Delhi, India.
7. #Sahar Qazi, Raiyan Ali, Heena Pandya, Deeksha Sharma, Neeraj, Sanju Sharma, Swapna Yenishetti, Lakshmi Panat, Babita Kataria, Babul Bansal, Ekta Dhameja, Rambha Pandey, M.D Ray, GK Rath, Ashok Sharma*, iOncology.ai: An AI powered electronic health record (EHR) cum clinical decision support system (CDSS) for early detection of ovarian and breast cancers. (Oral Presentation), TiE Global Summit 2024, 09-11 December 2024, BIEC, Bangalore, India.
8. Santosh Kuma, Surender Sharawat, Ashutosh Mishra, Atul Batra, SVS Deo, Ashok Sharma, Functional and Clinical Insights into AC092718.4 Expression in Breast Cancer, ACBICON 2024, 4-7 December 2024, Chandigarh, India.
9. Heena Pandya, Bimal Prasad Jit, Sahar Qazi, Subhadip Kundu, Nisha Manav, Rashmi Gupta, Santosh Kumar, Ashutosh Mishra, Atul Batra, Dindyal Mandal, Ashok Sharma, Exploring the role of miRNA in Modulating Cancer-Testis Antigen POTEE Expression in Breast Cancer Cells, ACBICON 2024, 4-7 December 2024, Chandigarh, India.
10. Kundu S, Qazi S, Manav N, Gupta R, Jit BP, Sharma A, Genome-Wide LAD-Nuclear Lamina Alterations and Epigenetic Reprogramming in Cisplatin-Resistant Epithelial Ovarian Cancer, ACBICON 2024, 4-7 December 2024, Chandigarh India.
11. ***Behera Alisha, Manav Nisha, Gupta Rashmi, Kundu Subhadip, Jit Bimal Prasad, Ashok Sharma, POTE Proteins in Epithelial Ovarian Cancer: Emerging Biomarkers for Precision Medicine. (Best Poster Presentation), National Conference on Emerging Trends in Cancer Prevention and Therapeutic Interventions, 25-27 September 2024, Bathinda India,
12. # Jit Bimal Prasad, Kundu Subhaddep, Manav Nisha, Gupta Rashmi, Kumar Santosh, Behera Alisha, Pandya Heena, Sharma Ashok, POTEE a potential regulator of the Notch1 signaling pathway and governs oncogenic phenotype in epithelial ovarian cancer. (Oral Presentation), National Conference on Emerging Trends in Cancer Prevention and Therapeutic Interventions, 25-27 September 2024, Bathinda India,
13. Pandya Heena, Jit Bimal Prasad, Qazi Sahar, Kundu Subhadip, Manav Nisha, Gupta Rashmi, Kumar Santosh, Mishra Ashutosh, Batra Atul, Mandal Dindyal, Ashok Sharma, Investigating the role of miRNA in the regulation of POTEE Expression in Breast Cancer, National Conference on Emerging Trends in Cancer Prevention and Therapeutic Interventions, 25-27 September 2024, Bathinda India,
14. Gupta Rashmi, Jit Bimal Prasad, Ray MD, Sharma Ashok, POTE CTA family: A potential vaccine candidate for DC-mediated immunotherapy in EOC, National Conference on Emerging Trends in Cancer Prevention and Therapeutic Interventions, 25-27 September 2024, Bathinda India,
15. *****Kundu Subhadip, Qazi Sahar, Manav Nisha, Gupta Rashmi, Jit Bimal Prasad, Sharma Ashok, 1. Chemoresistance in Epithelial Ovarian Cancer: A Focus on Genome-Wide LAD-Nuclear Lamina Alterations and Epigenetic Reprogramming. (Best Oral Presentation Award), National Conference on Emerging Trends in Cancer Prevention and Therapeutic Interventions, 25-27 September 2024, Bathinda India,
16. #Jit Bimal Prasad, Kundu Subhadip, Manav Nisha, Gupta Rashmi, Kumar Santosh, Behera Alisha, Pandya Heena, Ashok Sharma, POTEE-Notch1 signaling cross-talk: A potential Regulator of signalling pathway and controls oncogenic phenotype in epithelial ovarian cancer. (Oral Presentation), First J&K International Conference on Breast Cancer & Awareness cum Screening Camp at University of Kashmir, 22-24 October 2024, Srinagar, Kashmir, India.
17. ****Pandya Heena, Jit Bimal Prasad, Qazi Sahar, Kundu Subhadip, Manav Nisha, Gupta Rashmi, Kumar Santosh, Mishra Ashutosh, Atul Batra, Dindyal Mandal, Ashok Sharma. Sharma, Unveiling miRNA's Role in Regulating Cancer-Testis Antigen POTEE Expression in Breast Cancer Cells. (2nd Prize -oral presentation), First J&K International Conference on Breast Cancer & Awareness cum Screening Camp at the University of Kashmir, 22-24 October 2024, Srinagar, Kashmir, India.
18. Gupta Rashmi, Jit Bimal Prasad, Ray MD, Sharma Ashok, POTE protein family: A potential vaccine candidate for DC-mediated immunotherapy in advanced EOC, First J&K International Conference on Breast Cancer & Awareness cum Screening Camp at University of Kashmir, 22-24 October 2024, Srinagar, Kashmir, India.
19. Kundu Subhadip, Sharma Ashok, Chemoresistance In Epithelial Ovarian Cancer: A Focus on Genome-Wide Lamina-Associated Domains (LADs) - Nuclear Lamina Alterations and Epigenetic Reprogramming, First J&K International Conference on Breast Cancer & Awareness cum Screening Camp at the University of Kashmir, 22-24 October 2024, Srinagar, Kashmir, India.

20. *Gupta Rashmi, Jit Bimal Prasad, Bansal Babul, Ray MD, Sharma Ashok, Epigenetic Potentiation of Dendritic Cell-Mediated POTE Vaccination as a Promising Immunotherapeutic Strategy For Human Ovarian Cancer. (Runner Up award in GPT Young Scientist Award), IISC Bangalore, 17-20 October 2024, Bangalore.

ORAL/POSTER PRESENTATIONS OVER LAST THREE YEARS

2022-2023	2023-2024	2024-2025
12	14	20

RESEARCH:

Funded

***Ongoing* = 4 Total Budget = Rs 16.692 Crores**

1. Boron-based therapeutics against RNA viruses and associated post-infection arthritis in chikungunya infection- a preclinical evaluation, Dr. Ashok Sharma, ICMR-GOI, 3 years, 2024-2027, Multicentric Project of total cost Rs 250 Lakhs
2. Study the efficacy of Cancer Healer Therapy Polyherbal Formulation and uncover its anticancer potential in Breast and Ovarian cancer cell lines", Dr. Ashok Sharma, Cancer Healer Centre, 1 year, 2024-2025, Rs 27.2 Lakhs
3. A pilot study evaluating role of homeopathic medicine in cancer patients as adjuvant treatment to chemotherapy/ radiotherapy and correlating with molecular profiling, Dr Ashok Sharma, DBT, 3 years, 2023-2026, Rs 100 Lakhs
4. DBT NCI-AIIMS Translational Cancer Research Centre, Dr Ashok Sharma, DBT, 5 years, 2023-2028, Rs 1000 Lakhs (Under Process) out of 4000 Lakhs (Principally Approved)

***Completed*: 3**

1. Artificial intelligence in Oncology: Harnessing big data and advanced computing to provide personalized diagnosis and treatment for cancer patients, Dr Ashok Sharma, MeitY, 3 years, 2020-2024, Rs 291.67 Lakhs

Ongoing-Research Projects as Co- Principal Investigators (PI): 8

1. Randomized, Open labelled, Phase IIa /IIb Clinical trials to study the safety and efficacy of intravenous estrogen therapy in reducing the incidence of sepsis/septic shock in Trauma Hemorrhagic Shock patients", ICMR, 70L, Professor Sanjeev Kumar Bhoi, ICMR, 3 years, 2024-2026, Rs 70 Lakhs
2. Development of novel cancer immunotherapy by incorporating cancer/testis antigen NY-ESO-1 into Mycobacterium indicus pranii and evaluation of its antitumor efficacy and immune mechanisms using a mouse tumor model, Dr. Pawan Kumar, SERB, 3 years, 2022-2025, Rs 50 Lakhs
3. Determinants of Immune Reconstitution Inflammatory Syndrome (IRIS) in adult non-HIV Central Nervous System Tuberculosis (CNSTB) patients: a prospective cohort study, Dr Deepti Vibha, ICMR, 3 years, 2023-2026, Rs 123.75 Lakhs

Project Completed as Co-Principal Investigators (PI): 5

1. Role of M1 macrophage on DNA methylation and PI3K-AKT signaling pathway analysis in tumor-associated Mesenchymal stem cells in Breast Cancer. AIIMS, Rs 10 Lakhs, 2022-2024 (Two Years), Dr. Pramode Gautam, Department of Biochemistry, AIIMS, New Delhi.
2. Effect of sodium-hydrogen channel (NHE-1) inhibitor in hypoxic cardiac arrest. ICMR, Rs 43 Lakhs, 2022-2024 (Two Years), Dr. Tej Prakash Sinha, Emergency medicine, JPNATC, New Delhi.

3. Clinical and radiologic profile, risk associations, caregiver burden, and clinical outcomes in early and late onset dementia. AIIMS, Rs 10 Lakhs, 2022-2024 (Two Years), Dr. Anu Gupta, Department of Neurology, AIIMS, New Delhi
4. Effect of NHE-1 blocker, Cariporide, on the initiation of return of spontaneous circulation in hypoxic cardiac arrest rat model. ICMR, Rs 44 Lakhs, 2022-2024 (Two Years), Professor Sanjeev Kumar Bhoi, Emergency Medicine, JPNATC
5. Role of Epigenetics and Immune Factors in Female Genital Tuberculosis. ICMR, Rs 6430.857 Lakhs, 2021-2024 (Three Years); Prof JB Sharma, Obstetrics & Gynaecology, AIIMS, New Delhi.

Departmental Projects (including thesis/dissertations): MSc/MD/PhD/Women Scientist/Postdoc: Ongoing: 9

1. To explore the Notch/Cancer testis antigen POTEE signaling axis in chemoresistant relapsed ovarian cancer patients derived organoid/cell model (F No:ICMR-5/3/8/31-ITR-F/2022-ITR)
2. Genome wide analysis of microRNA mediated regulation of Cancer Testis Antigen POTE in Triple Negative Breast Cancer" (DST/WOS-A/LS-266/2021)
3. Molecular Mechanism of Cancer-Testis/Germline Antigen POTEB/B2 in Ovarian Cancer (P–1-2023/15081)
4. Functional Analysis of Human Long Non-Coding RNAs (lncRNA) and their Association with Spatial Genome Organization in Cancer (P 01 2021/14956)
4. Elucidation of HLA-A2 protein structure in complex with Prostate, Ovary, Testis and Embryo (POTE) peptide. (S/7471/2024)
5. Study the Genomic Imprinting and the Regulation of Cancer-Testis antigen POTE in Ovarian Cancer. (S/7160/2024)
6. Study on 3D genome architecture as an epigenetic regulator of pericentromerically localized cancer-testis/ germline antigen POTE in cancer. (P-2018/14773)
7. Elucidation of the Functional aspects and underlying Epigenetic Regulation of POTEB in Ovarian Cancer. (P-2018/14779)
8. Immunotherapeutic potential of novel Prostate, Placenta, Ovary, Testis- Expressed (POTE) Antigen in ovarian cancer. (P/136/19)
9. Randomized controlled trial to assess the effect of riboflavin supplementation with antidepressant treatment in persons with major depressive disorder

UG Mentorship Program

1. Study the Effect of CoX (Cyclooxygenase) Inhibitor on Cancer-Testis Antigen (POTE) in the Ovarian Cancer, (No.F.5-59/IRG/2010/RS), Vedant Garg, Swayam Shakti Tripathy, Ongoing (2024)
2. Revelation of functional interplay between Prostate Ovary Testis Embryo protein (POTE) member E and Notch signalling cross-talk in understanding the platinum resistance phenotype in epithelial ovarian cancer, Sara Kukreja, Tamanya, Nisha Ahlawat, Ongoing (2024)
3. Elucidation of functional Interplay and polymorphism of POTE Protein/ Notch signalling axis and its association with clinical phenotype in epithelial ovarian cancer, Durgam Yashwanth Anantha Parakrama, Completed (2024)

MBBS ICMR-STS Fellowship:

1. Decoding the Biomarker Potential of POTEE in Breast Cancer, Miss Gouri Gupta (202402155), Ongoing (2024)
2. To understand the impact of diclofenac on the expression of POTE in ovarian cancer, Keerthi Teja (202309225), Completed (2024)

MBBS AIIMS Summer Fellowship

1. "Cisplatin induced chemoresistance modulates nuclear lamina and cancer epigenome architecture in epithelial ovarian cancer", Mr Sandeep Kumar Kandi (AIIMS New Delhi- Summer Research Fellowship), Completed (2024)
2. To determine the association between cancer testis antigen expression and immune cell distribution in patients with ovarian cancer, Pragyan Sharma, Completed

Summer Trainee/Observationalship Students:

1. Developing a methylation landscape using systems biology and functional genomics approach for Lung Cancer, Shaista Saman, Ongoing (2025)
2. Harnessing Artificial Intelligence mediated algorithms for identifying epigenetic patterns in Non – Small Cell Lung Cancer, Shaakira Qadri, Ongoing (2025)
3. To explore the potential of herbal compounds as effective treatment for Lung cancer: An in-silico study, Danish Mushtaq, Ongoing (2025)
4. Training on iOncology.ai platform-Ovarian Cancer, Saurabh Rathore, Completed (2024)
5. Training on iOncology.ai platform- Breast Cancer, Pratham Kaushik, Completed (2024)
6. Elucidation of POTE (Prostate, Ovary, Testis and Embryo) Protein expression by in sillico and In vitro Approach in Ovarian Cancer, Manoj Kumar Jana, Completed (2024)
7. Role of Repressive histone modifications on nuclear architecture, Abdur Rehman, Completed (2024)
8. To investigate the effect of epigenetic modulation on resensitizing platinum resistance in EOC, Ms. Mehrose Gani, MSc. Biochemistry, Kashmir University, Completed (March-May 2024) Memorandum No.F.10-39/2024. Acad.II
9. To investigate the impact of Naproxen and diclofenac on cancer testis antigen Notch (1, 2, 3) in platinum sensitive and resistance ovarian cancer, Ms. Eynain Fayaz Waja, MSc. Biochemistry, Kashmir University, Completed (March-May 2024) Memorandum No.F.10-39/2024.Acad.II
10. To investigate the impact of monoclonal antibody therapy on expression of cancer testis antigen CTA, POTE in Ovarian Cancer, Ms. Bashie, MSc. Biochemistry, Kashmir University, Completed (March-May 2024) Memorandum No.F.10-39/2024.Acad.II
11. An AI powered functional genomics and systems biology approach to detect the epigenetic signature patterns in ovarian cancer, Ms. Mansi Sharma, MSc Bioinformatics, Department of Computer Science, Jamia Millia, Islamia, A Central University, Jamia Nagar, New Delhi – 110025, Completed (Feb-April 2024) Memorandum No.F.10-13/2024.Acad.II
12. Decoding the efficacy of homoeopathic plant extracts in ovarian cancer treatment through in-silico analysis, Ms. Ana Abbas – MSc Bioinformatics, Department of Computer Science, Jamia Millia, Islamia, A Central University, Jamia Nagar, New Delhi – 110025, Completed (March-April 2024) Memorandum No.F.10-30/2024.Acad.II

Collaborative projects

***Ongoing*: 3**

1. Randomized, Open labelled, Phase IIa /IIb Clinical trials to study the safety and efficacy of intravenous estrogen therapy in reducing the incidence of sepsis/septic shock in Trauma Hemorrhagic Shock patients", ICMR, 70L, Department of Emergency Medicine, AIIMS
2. Development of novel cancer immunotherapy by incorporating cancer/testis antigen NY-ESO-1 into Mycobacterium indicus pranii and evaluation of its antitumor efficacy and immune mechanisms using a mouse tumor model, DRBRAIRCH, AIIMS
3. Determinants of Immune Reconstitution Inflammatory Syndrome (IRIS) in adult non-HIV Central Nervous System Tuberculosis (CNSTB) patients: a prospective cohort study, Department of Neurology, CNC, AIIMS, New Delhi

***Completed*: 7**

1. Effect of NHE-1 blocker, Cariporide on initiation of return of spontaneous circulation in hypoxic cardiac arrest rat model, Department of Emergency Medicine, AIIMS, New Delhi
2. Clinical and radiologic profile, risk associations, caregiver burden and clinical outcomes in early and late onset dementia, Department of Neurology, CNC, AIIMS, New Delhi
3. Role of Epigenetics and Immune Factors in Female Genital Tuberculosis, Department of Gynaecology, AIIMS, New Delhi
4. Role of M1 macrophage on DNA methylation and PI3K-AKT signalling pathway analysis in tumor-associated Mesenchymal stem cell in Breast Cancer, Department of Biochemistry, AIIMS, New Delhi

5. To Investigate the role of Natural Killer cell in implantation failure and to study immunomodulatory effects of Intralipids in women with elevated uterine Natural Killer Cells in Fresh non-donor IVF cycles-A Randomized control Tria, Department of Gynaecology, AIIMS, New Delhi
6. Urinary novel microRNAs as a biomarker for prediction of acute kidney injury in sepsis, Department of Emergency Medicine, AIIMS, New Delhi

Highlights

On the occasion of the 2nd AIIMS Oncology Conclave and 1st Head and Neck Symposium (15 to 16 February), the department collaborated with multidisciplinary members with a focus on head and neck cancer from various AIIMS and INIs and developed a working group for head and neck cancer to brainstorm future pathways to foster collaborative research and teaching activities.

The 10th Head and Neck Cadaveric Dissection Course was organised for residents and trainees of various AIIMS and INIs interested in Head and Neck Surgery. It was held from 25 to 26 November 2024 and attended by 10 delegates who received hands-on training.

The 4th Microvascular Anastomosis Course and Cadaveric flap harvest for trainees and residents from various AIIMS and INIs was held from 27 to 30 November 2024. Seven delegates received hands-on microvascular anastomosis training in live rat model and harvest of free flaps.

As a part of the International Head and Neck Dissection Course, live surgical demonstration of a wide spectrum of head and neck oncological surgeries was conducted in collaboration with the Department of Oncoanesthesia and Palliative Medicine on 19 March 2025.

AIIMS-NCI-INI Multidisciplinary Case Presentation Series was started on a monthly basis. It is focussed on case-based discussion for trainees in Head and Neck and moderated by faculty from AIIMS and INI. Since its inception on 31 August 2024, 4 monthly case presentations have been conducted with presentations from NCI, AIIMS Rishikesh and AIIMS Gorakhpur.

The Department is undertaking human trials on [99mTc] DTPA anti-cytokeratin collagenous nanoparticle for single-stage sentinel node biopsy.

Education

Residents pursuing MCh Head and Neck Oncology and Surgery course spend 18 months of their course duration in the Department of ENT at NCI-AIIMS. During this period, they are trained in patient care and participate in teaching activities. Patient care includes in-patient and out-patient posting, screening of head and neck cancer patients and managing head and neck cancer emergencies. Residents observe and perform various head and neck surgeries including reconstructive surgeries like regional and free flap reconstruction during this period. Academic lectures, journal clubs and case presentations are undertaken in hybrid mode along with residents and faculty members from AIIMS, New Delhi every week. The theme of the teaching activity is multidisciplinary and includes significant contributions from the Department of Pathology, Department of Radiation Oncology and Department of Medical Oncology.

CME/Workshop/Symposia/Conferences

- 10th Head and Neck Cadaveric Dissection Course: 25 to 26 November 2025
- 4th Microvascular Anastomosis and Cadaveric Flap Harvest Course: 27 to 30 November 2025
- Live-Surgical Demonstration (International Head and Neck Cadaveric Dissection Course)- 19 March 2025

Lectures Delivered: 117

Alok Thakar

1. TransOral Minimal Access Oncology- the concept & the execution, TransOral Surgery Workshop- AIIMS New Delhi, 2-3 April 2024, New Delhi
2. TransOral Robotic Surgery- surgical demonstration, TransOral Surgery Workshop- AIIMS New Delhi, 2-3 April 2024, New Delhi
3. Remote Access Retro-auricular Thyroidectomy- surgical demonstration, Remote Access Thyroid Surgery Workshop- AIIMS New Delhi, 4-6 April 2024, New Delhi
4. Remote Access Retro-auricular Thyroidectomy- cadaveric demonstration, Remote Access Thyroid Surgery Workshop- AIIMS New Delhi, 4-6 April 2024, New Delhi
5. Moderator, Panel- Head-Neck SARCOMA, FHNO Virtual Tumour Board Series, 24 April 2024, Online
6. Minimizing Complications in Lateral Skull Base Surgery, OTOFEST 2024-Emerging Trends in Otology. Army Research & Referral Hospital, Delhi, 26-27 April 2024, New Delhi
7. Infrastructure for Research, NCI-AIIMS Workshop on Cancer Research Priorities, NCI Jhajjar, 7-8 May 2024, Jhajjar
8. Panelist- Physician perspective on clinical trials, Oncology Center of Excellence Project Asha Roundtable--Beyond Borders: Decoding India's Oncology Clinical Trial Terrain U.S. Food and Drug Administration, 30 April 2024, Online
9. Hits and misses as an Academic Surgeon in Head-Neck Oncology, Lecture, AIIMS Kalyani, 10 June 2024, Kalyani
10. Salivary Gland Malignancies- Moderator, Panel Discussion, Delhi Oncology Forum, 27 June 2024, New Delhi
11. Jugulotympanic paragangliomas- surgical nuances and optimizing outcomes, Kashmir ENT Conclave, 4-5 July 2024, Srinagar
12. Cancer Clinical Trials- Priorities, regulatory landscape & Capacity Building- India-(Moderator- Panel discussion), US Cancer Moonshot dialogue, New Delhi, 4-6 August 2024, New Delhi

13. Current Status of Salvage Partial laryngectomy- in Decision Making in laryngeal cancer, Head & Neck Cancer Institute of India Foundation Day Meeting, 10 August 2024, Mumbai
14. Keynote Lecture- Jugulotympanic paragangliomas- the case for surgery, Annual conference of the Neuro-otological & Equilibriometric Society of India, SGPGIMS Lucknow (online), 17 August 2024, Online
15. Moderator- Salivary Gland Tumour, Annual Conference of the Association of Otolaryngologists of India, 29 September 2024, New Delhi
16. Retroauricular Robotic Thyroidectomy- safe and familiar Remote Access approach to the Thyroid, Asia-Pacific Society of Thyroid Surgery, 3-5 October 2024, Bangkok, Thailand
17. Facial reanimation- Split hypoglossal-facial anastomosis, Facial plastics Course, 11 October 2024, New Delhi
18. Glomus Jugulare Excision- How I do it, ISOCON 2024 (Annual Conference of the Indian Society of Otology), 8-10 November 2024, Agra
19. Keynote- Nasopharyngeal Angiofibroma- Bench to Practice, RHINOCON2024, 35th Annual Conference of the All India Rhinology Society, 22-24 November 2024,
20. Loco-Regional Advanced Medullary Thyroid Cancer, UCMS-UChicago International Conference on Head-Neck Cancers, 23-24 December 2024, New Delhi
21. Panellist- Salivary Gland cancers, UCMS-UChicago International Conference on Head-Neck Cancers, 23-24 December 2024, New Delhi
22. KeyNote Lecture- 150Years of Laryngectomy- Current State of Art, & the Future, CNCI Cancer Update, Chittaranjan National Cancer Institute, 24-25 January 2025, Kolkata
23. Panelist- Preservation Strategies and Salvage Total Laryngectomy- who is answerable to the patient? CNCI Cancer Update, Chittaranjan National Cancer Institute, 24-25 January 2025, Kolkata
24. Salvage Partial Laryngectomy, 1st Laryngopharyngeal Cancer Masterclass- MAMC, 8 March 2025, New Delhi
25. Surgical demonstration- superficial parotidectomy, International Head-neck Dissection Course, 17-21 March 2025, New Delhi

Kapil Sikka

1. Demonstrated Neck dissection on cadavers, International Head and Neck dissection course, 17-21 March 2025, Delhi
2. Live surgical demonstration of Laryngectomy and Neck dissection and guided the dissectors, International Head and Neck dissection course, 17-21 March 2025, Delhi
3. Workshop on Nerve monitoring, AIIMS Neuro-otology update 2025, 20-22 February 2025, Delhi
4. Tumor board, AIIMS-Liverpool Head and Neck collaboration, 12 February 2025, Delhi
5. Unique experiences of patients with cancer: survivorship and caregivers perspectives, World Cancer Day, 4 February 2025, Delhi
6. Demonstrated Neck dissection on cadavers, International Head and Neck dissection course, 17-21 March 2025, Delhi
7. Live surgical demonstration of Laryngectomy and Neck dissection and guided the dissectors, International Head and Neck dissection course, 17-21 March 2025, Delhi
8. Optimising treatment decisions in Parotid Cancer, Annual conference of Association of Otolaryngologists of India, 9-12 January 2025, Kochi
9. Cochlear Implant red flags and difficult situations, Annual conference of Association of Otolaryngologists of India, 9-12 January 2025, Kochi
10. Judged the prestigious KU Shah Senior Consultant award paper, Annual conference of Association of Otolaryngologists of India, 9-12 January 2025, Kochi
11. Decision making in management of Parotid Cancers, UCMS-U-Chicago International Conference, 23-24 December 2024, Delhi
12. Demonstrated neck dissection on cadaver, Hands on Head and Neck cadaveric dissection and reconstruction workshop, 21-22 December 2024, Delhi
13. Examined a case discussion on “carcinoma larynx”, 13th ENT Update 2024, 5-7 September 2024, Delhi

14. Demonstrated “Neck dissection” on cadavers, 10th Cadaveric Head and Neck dissection course, 25 - 26 November 2024, Delhi
15. Case based discussion on revision thyroid surgery, 5th Congress of Asia Pacific Society of Thyroid surgery, 3-5 October 2024, Thailand
16. Chaired a session on “Management of complications in thyroid surgery, 5th Congress of Asia Pacific Society of Thyroid surgery, 3-5 October 2024, Thailand
17. Live cadaveric demonstration of Neck dissection and laryngectomy procedures, 41st Annual Conference of Uttar Pradesh Association of Otolarynologists, 27-29 September 2024, Varanasi
18. Challenges in management of Laryngeal Cancers, 10th National conference of Indian Academy of Otorhinolaryngology Head and Neck Surgery (IAOHNS) 2024, 9-11 August 2024, Mangalore
19. Series on PNS tumors, “Mahamana Pandit Madan Mohan Malviya Cancer centre”, 27 June 2024, Varanasi (Virtual)
20. Management of T1 T2 N0 Differentiated thyroid carcinoma, “Post graduate teaching Webinar 2024”, 28-29 April 2024, Mumbai (Virtual)

Chirom Amit Singh

1. Management of Neck in head and neck cancers, AHEAD 2024, 25-27 October 2024, Amrita Institute of Medical Sciences, Kochi.
2. Surgical Video: Pectoralis Major flap, AHEAD 2024, 25-27 October 2024, Amrita Institute of Medical Sciences, Kochi.
3. Moderator: Rehabilitation of paralyzed face, 6th AIIMS Facial Plastic Workshop & CME, 11-13 October 2024, AIIMS, New Delhi
4. Demonstrator: Incision, suturing, local flap, 6th AIIMS Facial Plastic Workshop & CME, 11-13 October 2024, AIIMS, New Delhi
5. Advances in mandibular reconstruction with free fibula flap, Delhi AOICON 2024, 27-29 September 2024, New Delhi
6. Tracheal resection for thyroid lesions, Learning thyroid surgeries CME, 20 July 2024, Max Saket, New Delhi
7. Operative technique discussion: Partial Laryngectomy, TMC Postgraduate program 2024- Webinar, 27-28 April 2024, Online
8. Borderline Operable Advanced Oral Cancers, Do We Have Options? UCMS-UCHICAGO International Conference on Head And Neck Cancers, 23- 24 December 2024, New Delhi
9. Panellist: Management of Oral Cancers- Current Perspectives, IAOHNS 2024, 8-11 August 2024, Manipal
10. Cadaveric demonstration: Radial forearm free flap, Free fibula flap, 3rd MID-TERM IAOHNS 2025, 21-23 March 2025, Chandigarh
11. Cadaveric demonstration: ALT flap, Hands on cadaveric dissection and reconstruction Workshop, 21 December 2024, UCMS, New Delhi
12. Cadaveric demonstration: Total laryngectomy, AIIMS international head & Neck dissection Course, 17-21 March 2024, AIIMS, New Delhi

Rajeev Kumar

1. Panellist on panel discussion on “Management of thyroid nodules”, Transoral Endoscopic & Thyroid Cancer TOET-24 International, 2-6 April 2024, AIIMS, New Delhi
2. Moderator for panel discussion on “Carcinoma Oral Cavity and Oropharynx, ONCO-CON 2024, 13-14 April 2024, Max Institute of Cancer Care, Vaishali, Ghaziabad, UP
3. Surgical steps of total laryngectomy, Workshop on Voice, Airway & Swallowing, 13-14 July 2024, Medanta Hospital, Gurugram
4. Sutureless Thyroidectomy, CME on “Learning Thyroid Surgeries through video vignettes”, 20 July 2024, Max Hospital Saket
5. Lid loading for facial reanimation, IAOHNS 2024 10th National Conference of Indian Academy of Otorhinolaryngology head Neck Surgery, 9-11 August 2024, KMC Manipal, Mangalore

6. Lateral Temporal Bone Resection, NESCON 2024 42nd National Conference of Neuro-Otological & Equilibriometric Society of India, 16-18 August 2024, SGPGI, Lucknow
7. Management of Temporal Bone Malignancies, NESCON 2024 42nd National Conference of Neuro-Otological & Equilibriometric Society of India, 16-18 August 2024, SGPGI, Lucknow
8. Supraclavicular Artery Island Flap (SCAIF) for Head Neck Reconstruction: Lessons Learned and Improvising Results, 46th Annual Conference of Association of Otolaryngologists of India (Delhi State Branch), 27-29 September 2024,
9. Lid Loading, 6th AIIMS Facial Plastics Workshop & CME, 11-13 October 2024, AIIMS, New Delhi
10. Panellist on panel discussion "Rehabilitation of Paralysed Face", 6th AIIMS Facial Plastics Workshop & CME, 11-13 October 2024, AIIMS, New Delhi
11. Demonstrated Rhomboid and Bilobed flap on animal model, 6th AIIMS Facial Plastics Workshop & CME, 11-13 October 2024, AIIMS, New Delhi
12. Voice rehabilitation after total laryngectomy, 10th AIIMS Head Neck Cadaveric Dissection Course, 25-26 November 2024, JPNATC, AIIMS, New Delhi
13. Cadaveric Demonstration of "Total Laryngectomy with TEP insertion", 10th AIIMS Head Neck Cadaveric Dissection Course, 25-26 November 2024, JPNATC, AIIMS, New Delhi
14. Cadaveric demonstration of "Free Fibula Harvesting Technique", 4th AIIMS Hands-On Microvascular Reconstruction Course 2024, 27-30 November 2024, JPNATC, AIIMS New Delhi
15. Examiner for "Carcinoma Oral cavity" case-based discussion, 13th ENT Update 2024, 5-7 December 2024, MAMC, New Delhi
16. Invited talk on "Management of Solitary thyroid nodule, 13th ENT Update 2024, 5-7 December 2024, MAMC, New Delhi
17. Cadaveric demonstration of "Total Maxillectomy" technique, Hands-On Head Neck Cadaveric Dissection & Reconstruction Workshop 2024, 21-22 December 2024, UCMS &GTB Hospital, New Delhi
18. Management of mandible in oral cavity cancers, UCMS-UChicago International Conference on Head- Neck Cancers, 23-24 December 2024, UChicago Centre, New Delhi
19. Radiology of Nose and PNS, 1st Hands on Cadaveric Basic FESS & Anterior Skull-base Workshop, 1-2 February 2025, Dr RML Hospital, New Delhi
20. Open Partial Laryngectomies: When and Why ? 2nd Otorhinolaryngology Update - Head &Neck Oncology, 4 February 2025, GIMS, Greater Noida
21. Salvage Total Laryngectomy, 1st Masterclass on "Laryngopharyngeal Cancers", 8 March 2025, MAMC New Delhi
22. "Surgical technique of Total Thyroidectomy", AIIMS International Head Neck Cadaveric Dissection Course, 17-21 March 2025, AIIMS, New Delhi
23. "Surgical Technique of Total Laryngectomy", AIIMS International Head Neck Cadaveric Dissection Course, 17-21 March 2025, AIIMS, New Delhi
24. Cadaveric demonstration of "Total Maxillectomy", AIIMS International Head Neck Cadaveric Dissection Course, 17-21 March 2025, AIIMS, New Delhi
25. Cadaveric demonstration of "Supraclavicular artery Island Flap", AIIMS International Head Neck Cadaveric Dissection Course, 17-21 March 2025, AIIMS, New Delhi
26. Panellist on panel discussion on "Salivary gland tumours", 3rd Mid-IAOHNS, 22-23 March 2025, PGIMER, Chandigarh
27. Open Partial Laryngectomies, 3rd Mid - IAOHNS, 22-23 March 2025, PGIMER, Chandigarh

Anup Singh

1. Rehabilitation of laryngectomised patient: Clinical perspectives, Workshop on Voice Airway and Swallowing-2024, 13-14 July 2024, Gurugram
2. Clinicoradiological evaluation of Temporal Bone malignancies, ISOCON-2024, 9 November 2024, Agra

3. Imaging Anatomy of Jugular Foramen, ISOCON-2024, 10 November 2024, Agra

Smriti Panda

1. Cadaveric demonstration: Superficial parotidectomy and Total conservative parotidectomy, Head and Neck Cadaveric Dissection Course, AIIMS Gorakhpur, 28 April 2024, Gorakhpur
2. Chyle Leak, Head and Neck Complicon, 23 August 2024, Bengaluru
3. Panellist: Complications in Head and Neck, Head and Neck Complicon, 23 August 2024, Bengaluru
4. Moderator: Panel on work-up of salivary gland tumours, World ENT Academy, 29 May 2024, Online
5. Panellist: Troubleshooting in intraoperative nerve monitoring, Indian Society of Thyroid Surgeons Conference, 8 June 2024, Kolkata
6. Salvage surgery in oral cavity and oropharyngeal cancer, Max Oncology Conference, 13 October 2024, New Delhi
7. Video: Robotic retroauricular thyroidectomy, CME on Thyroid Cancer, 13 July 2024, New Delhi

Research

Funded

Ongoing

1. Centre for Medical Innovation and Enterpreunership (AIIMS BioNEST), Prof Alok Thakar, AIIMS BioNest
2. Minimally invasive nano enabled targeted technology for Sentinel Lymph Node detection in Head-Neck Cancers, Prof Alok Thakar, Biotechnology Ignition Grant-(BIG GRANT) Department of Biotechnology-BIRAC-DBT 2024-25
3. To conduct the pre compliance and clinical validation of implantable and diagnostic devices (Otorhinolaryngology, Opthalmics, and Orthopedic), Kapil Sikka, ICMR, 5 years, 2024-2029, Rs 14.95 Crore
4. Comparative analysis of qPCR, mRNA ISH and p16 IHC for detection of high risk HPV on fine needle aspirates and core needle biopsies in patients with metastatic squamous cell carcinoma in cervical lymph nodes, Prof Chirom Amit Singh, AIIMS Intramural Collaborative
5. Community based model for early detection speech and language training of hearing impaired children in four regions in India Mixed methods Implementation study, Prof Chirom Amit Singh, ICMR Intermediate Grant
6. A Phase IIb/III study to determine efficacy of Curcumin and Metformin to reduce the incidence of second primary tumors of aero-digestive tract in patients with history of head and neck squamous cell carcinoma, Prof Rajeev Kumar (Site PI), NCG, 6 years, 2020-2026
7. Prospective study to evaluate the role of Systemic Bevacizumab therapy in patients with aggressive and complex laryngotracheal and pulmonary recurrent respiratory papillomatosis, Prof Rajeev Kumar, AIIMS Intramural Collaborative Research Project, 3 years, 2021-2024
8. Study to determine the role of mTOR pathway in the pathogenesis of juvenile nasopharyngeal angiofibroma, Prof Rajeev Kumar, AIIMS Intramural Research Project, 3 years, 2021-2024
9. Intraglandular Botulinum Toxin BoNT Injection for Postoperative Head and Neck Fistula Healing- A Pilot Study, Smriti Panda, Intramural early career grant, 2 years, 2024-2026, Rs 5.85 Lakhs
10. Acute and Long-Term Impact of Head and Neck Cancer Treatment on Autonomic Function, Smriti Panda, ICMR- Extramural Small Grant, 3 years, 2025-2028, Rs 84,45,837
11. Transorbital approach to infratemporal Fossa - A cadaveric exploratory Study, Dr Anup Singh, AIIMS Delhi, 2 years, 2024, Rs 5 Lakhs

Concluded

Ongoing Thesis

1. A prospective study to evaluate role of various frailty screening instruments in predicting surgical complications in geriatric head neck cancer patients.
2. Comparative study evaluating Ex-Vivo US aided deep margin assessment with fresh frozen section analysis in T1-T3 tongue carcinoma: Feasibility study
3. Surgical Outcomes In Compartmental Glossectomy And Standard Wide Margin Excision In T2-T3 Oral Tongue Squamous Cell Carcinoma- A Randomised Control Trial
4. Neoadjuvant Chemotherapy Using Lenvatinib In Locally Advanced Differentiated Thyroid Carcinoma- A Phase Ii Open Label Study.
5. Impact of Surgical Manipulation of Tumor on Circulating Tumor Cell (CTC) Kinetics in Oral Cavity Squamous Cell Carcinoma
6. Prospective analysis of predictive factors for tracheal stomal stenosis after total laryngectomy for laryngeal and hypopharyngeal malignancies (2021 -2023, Non funded study)
7. Role of ultrasound in predicting the depth of tumour invasion and lymph node metastasis in early tongue carcinoma.(2017-till date, Non-Funded Study)
8. Comparative evaluation of CAD-CAM planning versus traditional free fibula planning in surgical outcomes in mandibular reconstruction- A Prospective Study

9. Ambispective Analysis Of Clinico-Pathological Characteristics And Treatment Outcomes Of Sinonasal Malignancies
10. Predictors of clinical outcomes in Adenoid Cystic Carcinoma of Head and Neck: An Ambispective Analysis
11. Sentinel lymph node detection in early stages of oral squamous cell carcinoma: comparison between DTPA Cytokeratin- Collagenous Nanoparticle [99m Tc] Tc-DC-ColNP and [99m Tc] Tc-sulphur colloid
12. Assessing Quality of life and surgical outcomes: A Comparison of Robotic and Open Thyroidectomy in patient undergoing thyroidectomy

Completed

1. A Prospective Study to evaluate the impact of Oral Sub mucous Fibrosis (OSMF) on occult and overt lymph nodal metastases in Gingivo-buccal complex carcinomas (GBCC) (T1-T4a) of Oral cavity
2. A prospective study to determine early predictive factors of hypocalcemia in patients undergoing total or completion thyroidectomy
3. Ambispective study to evaluate the utility of Supraclavicular artery island flap [SCAIF] reconstruction in Head and Neck Cancers
4. Ambispective study to assess various primary tumour and ipsilateral nodal factors associated with contralateral nodal metastasis in patients with OCSCC
5. Study evaluating the effectiveness of Barbed suture versus Vicryl suture for pharyngeal closure after total laryngectomy in PCF reduction
6. Role of adjuvant therapy in early stage oral cavity squamous cell carcinoma- An ambispective analysis
7. A Study Analysing “Back To Normalcy” In Oral Cavity Cancer Survivors
8. Role of adjuvant therapy in early stage oral cavity squamous cell carcinoma- An ambispective analysis

Collaborative projects

Ongoing

1. A Phase IIb/III study to determine efficacy of Curcumin and Metformin to reduce the incidence of second primary tumors of aero-digestive tract in patients with history of head and neck squamous cell carcinoma, SPT Trial funded by NCG; Multi-centric
2. Evaluation of specific molecular alterations and tumor immune microenvironment for detection of clinically actionable targets in high grade salivary gland carcinomas, ICMR Funded, Department of Pathology
3. The SWOAR trial: A phase III trial evaluating dysphagia-aspiration related structures & submandibular gland sparing Intensity modulated radiotherapy (SWOAR-IMRT) versus standard IMRT in Head and neck squamous cell carcinoma, Department of Radiotherapy
4. The tumour immune microenvironment of follicular cell -derived thyroid carcinomas across different grades utilizing gene expression and spatial proteomic profiling, Department of Pathology
5. Role of celecoxib in reducing cognitive impairment in patients receiving definitive chemoradiation for head and neck carcinoma: A phase II randomized placebo controlled trial, Department of Medical Oncology
6. Potentially malignant lesion atlas project: Validating the efficacy of a novel, Point-of -care diagnostics and developing an integrated multidimensional, prognostic nomogram, ICMR funded, Department of Preventive Oncology, NCI AIIMS
7. Identification of early candidate biomarkers of oral cancer from the saliva exosomal proteome
8. Utility of pectoralis major myofascial flap in reducing pharyngocutaneous fistula rates after salvage total laryngectomy
9. Potential diagnostic and prognostic biomarkers in precursor lesions of oral squamous cell carcinoma, Department of Pathology
10. Evaluation of specific molecular alterations and tumor immune microenvironment for detection of clinically actionable targets in high grade salivary gland carcinomas, ICMR Funded, Department of Pathology
11. The tumour immune microenvironment of follicular cell -derived thyroid carcinomas across different grades utilizing gene expression and spatial proteomic profiling, DST-SERB Funded, Department of Pathology

12. Role of celecoxib in reducing cognitive impairment in patients receiving definitive chemoradiation for head and neck carcinoma: A phase II randomized placebo-controlled trial, ASCO, Conquer Cancer Foundation International Innovation Grant 2023, Department of Medical Oncology
13. Potentially malignant lesion atlas project: Validating the efficacy of a novel, Point-of -care diagnostics and developing an integrated multidimensional, prognostic nomogram, ICMR funded, Department of Preventive Oncology, NCI AIIMS

Completed

1. Evaluation of genetic profile of olfactory neuroblastoma, Department of Pathology
2. Comparison between kit based and in-house preparation of Tc -99m Ubiquicidin, Department of Nuclear Medicine
3. Utility of 99m Tc- Ubiquicidin scintigraphy in diagnosis of sinonasal mucormycosis, Department of Nuclear Medicine
4. Utility of Ga - 68 - NOTA- UBI in infectious and non- infectious lesions, Department of Nuclear Medicine
5. A phase II study of EMF (Erlotinib+ Methotrexate+ Celecoxib) in platinum refractory recurrent /metastatic head neck squamous cell carcinoma, Department of Medical Oncology
6. Assessment of Oral Microbiome and its significance in upper aerodigestive tract cancers, Department of Medical Oncology

HIGHLIGHTS

In the past year, the Department of Gynaecological Oncology at the National Cancer Institute (NCI), Jhajjar, AIIMS, has made significant strides in clinical care, research, and academic excellence. The department has provided comprehensive multidisciplinary care to patients with gynaecological malignancies, including ovarian, cervical, endometrial, and vulvar cancers. A notable increase in complex cytoreductive and staging surgeries has been observed, along with enhanced integration of systemic therapies and precision medicine. The department has also contributed to several investigator-initiated and collaborative clinical trials, focusing on early detection, novel therapeutics, and survivorship in gynaecological cancers. Major efforts were directed toward streamlining patient pathways, improving access to care, and strengthening palliative and preventive services. Academic activities included regular tumour boards, CMEs, and hands-on training for residents and fellows. The team actively participated in national and international conferences, with several oral and poster presentations showcasing innovative work. Furthermore, community outreach and awareness initiatives were conducted in collaboration with public health agencies, focusing on HPV vaccination and screening for cervical cancer. These combined efforts reflect the department's commitment to delivering evidence-based, patient-centric care while advancing knowledge and capacity-building in the field of gynaecological oncology.

EDUCATION

The Department of Gynaecologic Oncology at the National Cancer Institute (NCI), Jhajjar, actively supports residents and trainees from AIIMS, New Delhi, particularly those enrolled in the MCh Gynaecologic Oncology program. We provide our residents with advanced clinical exposure and hands-on surgical training in managing a wide spectrum of gynaecological cancers, including cervical, ovarian, uterine, vaginal, and vulvar malignancies, within a multidisciplinary cancer care framework. Our department facilitates rotations and short-term training opportunities for residents, integrating systemic therapies, precision medicine, and advanced surgical techniques such as HIPEC. We also engage trainees in tumor boards, research projects, and clinical trials conducted at NCI, fostering their academic growth and research skills. This collaboration ensures that students benefit from the comprehensive cancer care environment at NCI, enhancing their expertise and preparing them to become well- trained gynae-oncologists. Through joint academic activities, workshops, and conferences, we continue to contribute to the shared mission of advancing education, research, and patient-centric care in gynaecological oncology.

CMEs/Workshops/Symposia/National and International Conferences

Workshops Conducted:

AIIMS-WHO Collaborative Centre for Cervical Cancer Prevention and Research Training on Colposcopy and Management of Precancerous Lesions for Maldives and Sri Lanka MoH Officials, Training, 19-24 August 2024, AIIMS, New Delhi

Neena Malhotra

1. "Fertility preservation in Cancer patients", XXIV Annual meeting of Triavandrum Ob-Gyn, Club "ADVANCES 2024", 6 April 2024, Thiruvananthpuram, Trivandrum

2. “Removal of the space occupying lesions of the Uterus: When, Which and How much?”, CME Organized by ARMY Hospital, Ayurvigyan Auditorium, AHRR, 14 April 2024, New Delhi,
3. “Medical and ethical challenges in fertility preservation”, ISAR – ReproMed Update 2024, 12 May 2024, Jodhpur, AIIMS
4. Medical and ethical challenges in fertility preservation – are we ready yet? Wisdom 2024 – A FOGSI National Conference, 21-23 June 2024, ITC Royal Bengal, Kolkata
5. “Ethical And Social Concerns Of Fertility Preservation” at session- Mixed Bag: Spark is Still There, NZIMSCON Conference 2024, 13 July 2024, Hotel Radisson Blu in Faridabad.
6. “Patient – Centric Approach in Fertility Treatments”, 5th IVF Summit & Awards, 25 July 2024, online mode
7. “Genetic Causes and Future Directions”, FOGSI FIGO Global Conference on Updates in Obstetrics and Gynaecology 2024 conference, 24 August 2024, HICC, Hyderabad, Telangana
8. Stem cells in Reproductive Medicine”, “My experience with Dual stimulation? “FUSION 2024, International Conference on reproductive medicine, jointly organized by ESHRE, IFS and ISAR, 13-15 September 2024, Marriot Hotel, Jaipur.
9. “Ovarian Cryopreservation - Global vs Indian Perspective”, “FUSION 2024, International Conference on reproductive medicine, jointly organized by ESHRE, IFS and ISAR, 13-15 September 2024, Marriot Hotel, Jaipur.
10. Cryopreservation in Gynaecological disorders, 62nd AICOG 2025 - Advanced ART Workshop - Session- IV: Precision in Practice Protocols, 8-12 January 2025, Mumbai
11. Keynote Address-I The Future of Fertility Preservation In India, ISSRF – 2025, Conference on Integrating basic biological and applied research into clinical practice for human welfare, 14 February 2025, Jaipur

Seema Singhal

1. Genital tract microbiome and gynaecological cancers, AOGIN India 2024, 5 October 2024, Pondicherry
2. Panel discussion on abnormal vulvar lesions as panelist, AOGIN India, 4 October 2024, Pondicherry
3. Demonstration of Vulvoscopy, AOGIN India 2024, 4 October 2024, Pondicherry
4. Panel Discussion “Fertility Preservation in Gynaecological Cancers”, 23rd Annual International Conference - “RGCON 2025, 22 March 2025, RGCI Delhi
5. Moderator for panel discussion Current Paradigm Shift in Management of Advanced Endometrial Cancer, Webinar on endometrial cancer care, 28 August 2024, AGOI (International webinar)
6. Panel discussion: Future of MIS in India, 31st Annual Conference of the Association of Gynaecologic Oncologists of India, 8 December 2024, AGOICON Kochi
7. Panelist “Panel Discussion on Carcinoma Cervix”, 3rd Oncology updates 2025, 13 April 2025, India Habitat Centre New Delhi
8. Panel Discussion, HEREDITARY GYNAECOLOGICAL CANCERS’ workshop IRC RCOG Annual Conference 2025, 1 March 2025, IIC, New Delhi
9. Debate “Primary HPV Screening or VIA”, 16th National Conference of ISCCP, 13 April 2024, Raipur
10. Lecture “Clinical Implications of Newer Classifications in Endometrial & Cervical Cancers”, Webinar on Implications of Molecular classification of endometrial cancer, 11 December 2024, AGOI (virtual)

Jyoti Meena

1. Moderated a panel on “Interpretation with case scenarios: Normal or Abnormal colposcopy”, AOGIN Interim CME on Skill Enhancing Course in Colposcopy & Treatment of CIN, 4 May 2024, AIIMS, Delhi
2. Panelist for Panel on Cervical Intraepithelial Neoplasia-Difficulty in Decision, CCC-Episode-20 Webinar, 12 June 2024, Online
3. Moderator for Case “Inappropriate hysterectomy for cancer cervix”, AGOI Case presentation series, 10 July 2024, Online
4. Introduction to Cervical Cancer Screening: WHO guidelines, WHO-CC Training on Colposcopy and the Management of Precancerous Lesions for Maldives & Sri Lanka MoH officials, 19 August 2024, AIIMS, Delhi

5. Excisional Procedure: Conization, WHO-CC Training on Colposcopy and the Management of Precancerous Lesions for Maldives & Sri Lanka MoH officials, 21 August 2024, AIIMS, Delhi
6. Discussant for "Hypofractionated radiation therapy in gynecologic cancer", 52 ASGO webinar series, 26 September 2024, Online
7. From Misapprehension to revelation: Story of a Pelvic Mass, AOGD monthly meet, 30 August 2024, Delhi
8. Panelist for panel discussion on "Cervical Challenges: Dynamic case-based discussion", FOGSI IAECON Conference, 7 September 2024, Delhi
9. Molecular classification of ca endometrium, CME: Basics to Breakthrough in Gynae Oncology "Series 2 Endometrial cancer, 14 September 2024, Delhi
10. Panelist for panel discussion on "HPV vaccination in special populations", AOGIN 2024 conference, 5 October 20024, Pondicherry
11. Exploration of Subspecialty Program in Gynecologic Oncology: Europe and USA, ASGO 2024, 30 November 2024, Bali, Indonesia
12. Current Trends in Educational Material Development for gynecologic oncology, ASGO 2024, 1 December 2024, Bali, Indonesia
13. An update on the clinical development for cervical cancer, ASGO Webinar #55 Review Course 2024: Final Session of the Year, 19 December 2024, Online
14. Beyond Routine Care: Addressing Mental Health in Gynaecological Cancer, 1st NCPO-2025, 5 January 2025, Delhi
15. Panelist for panel discussion on "Fertility sparing in gynaecological cancers; walking the tight rope", 23rd Annual International Conference - "RGCON 2025, 22 March 2025, Delhi
16. Panelist in Endometrial cancer genetics case-based discussion, FOGSI Gynaecologic Oncology Committee CME on Integrating Genetics in Women cancer care, 29 March 2025, Delhi

Nilanchali Singh

1. Invasive mole, 13th Webinar of National Society Study of Trophoblastic Disease in India, 8 March 2025,
2. Self-Collection for HPV testing: Challenges and Limitations, Deep Dive into Approaches Towards Cervical Cancer Screening-Understanding the Barriers and Opportunities, 04 February 2025,
3. Hereditary Gynaecological Cancers, Evidence to Excellence: Mastering the Art of Obstetric Decision-Making, 1 March 2025,
4. Case based management of screen positives, Fogsi North Zonal Conference with Yuva, 2025, 21 February 2025,
5. Colposcopy & Treatment of CIN, AOGD Oncology Committee- Colposcopy Workshop Module 2024-2025, 25 July 2024,
6. Shielding Future: Safeguarding Adolescent against Rising Cancer, Adolescent Health Committee, FOGSI & AOGD, 2 May 2024,
7. Cancer Prevention in Young women, AOGD Cervical & Breast Cancer Prevention Committee, 29 April 2024,
8. Cervical Cancer Screening and HPV Vaccination, Moradabad Obs and Gyne Society, 3 July 2024,

Anju Singh

1. Clinical Interpretation of VIA, Workshop for ANMs and PHNs on Strengthening Primary Care for Cervical Cancer Prevention, 23 January 2025, New Delhi, India
2. Pathogenesis of Cervical cancer with special reference to HPV Infection, WHO-CC Workshop for Maldives and Srilanka Delegates, 19-24 August 2024, AIIMS, New Delhi, India
3. Single Visit Approach, WHO-CC Workshop for Maldives and Srilanka Delegates, 19-24 August 2024, AIIMS, New Delhi, India
4. Screening and Treatment Protocol for uniform against resource based (Debate Speaker), ISCCPCON-2024, 13-14 April 2024, Raipur, India
5. Cervical Cancer Screenig- Detect The Detectable, Webinar on Practical Tips in Obstetrics and Gynaecology, 23 August 2024, Webinar, New Delhi, India

6. As Panelist Prevent the preventable and detect the detectable, AOGD 2024, 22-24 November 2024, New Delhi, India
7. As Moderator Demystifying Vulval Conditions, NZYF 2025, 22-23 February 2025, New Delhi, India

Aarthi S Jayraj

1. Management of locally advanced and metastatic cervical cancer (Moderator), IGCS Fellowship program, 11 April 2023, Kenyatta National Hospital and university of Nairobi (Virtual)
2. Endometrial Cancer Master Session: Changing the Landscape (Part II)", 2024 Annual Global Meeting (IGCS 2024), 16-18 October 2024, Dublin, Ireland

RESEARCH

Ongoing

1. Ovarian tissue cryopreservation for fertility p[reservation in young cancer survivors - Comparison of slow freezing and vitrification, Professor Neena Malhotra, ICMR, 4 years, 2020-2025, Rs 87.70 Lakhs
2. Role of Autologous Stem Cells and Platelet rich plasma therapy for regenerating endometrium in women with Asherman's syndrome and atrophic endometrium – A Pilot study, Professor Neena Malhotra, Funded by ICMR, 3 years, 2023-2026, Rs 102 Lakhs
3. Augmented intelligent clinical support systems to aid decision-making for pregnancy outcomes after In-Vitro Fertilisation of Intracytoplasmic sperm injection under my supervision in the Deptt. Obstetrics & Gynaecology, Professor Neena Malhotra, ICMR, 3 years, 2025-2028, Rs 1 crore-20 Lakhs
4. Diagnostic and prognostic value of cell free DNA (cfDNA) in Epithelial ovarian cancer – A cohort study, Seema Singhal, ICMR (under the India Cancer Research Consortium grant), 3 years, 2023-2026, Rs 98.77 Lakhs
5. Evaluation of self-collection with an indigenous device and Point of Care HPV test for cervical cancer screening (Self-Care Cervix study), Seema Singhal, ICMR, 3 years, 2023-2026, Rs 109.78 Lakhs
6. Development of pilot testing of systematic strategy using mobile based application and self collected samples for cervical screening in female sex workers, Seema Singhal, Interdisciplinary Collaborative Intramural Research Project, 2 years, 2024-2026, Rs 9.90 Lakhs
7. To evaluate the role of urinary HPV DNA test for cervical cancer screening using INNO-LiPA genotyping: a pilot study, Dr. Jyoti Meena, Interdisciplinary Collaborative Intramural Research Project, 2 years, 2024-2026, Rs 10 Lakhs
8. A phase-iv single-arm, multicentric, study to assess the safety of SIIPL's QHPV vaccine (cervavac®) when administered in a two-dose schedule to girls and boys aged 9-14 years and in a three-dose schedule to women and men aged 15-26 years, Dr. Jyoti Meena, Serum Institute of India Ltd, 1 year, 2024-2025, Rs 10 Lakhs
9. Comparing of PCR based E6/E7 Oncogene detection in cervical cytology and cervical tissue specimen with histopathology in HPV-Positive women, Dr. Jyoti Meena, Institute Financial thesis grant, 1 year, 2024-2025, Rs 2 Lakhs
10. Counseling of Clients for HPV Self Sampling by ASHAs (Accredited Social Health Activists) and by Physicians: A Randomized, Open-Labelled, Non-inferiority Trial (ASHA-CHAPTER Trial), Science Education and Board Research (SERB), Dr Nilanchali Singh, SERB, 2 years, 2023-2025, Rs 19.86 Lakhs
11. Immunological Landscapes in Persistent HPV Infection in India, Dr Nilanchali Singh, The Bill and Melinda Gates Foundation, 2 years, 2024-2026, $154, 000 USD
12. Role of Vaginal Estrogen Cream in Management of Sexual Dysfunction in Cervical Cancer Survivors: A Randomized Double-blinded Placebo-Controlled Trial (ESTRO-CERVA Study), Dr Nilanchali Singh, AIIMS Early Career Intramural Project, 2 years, 2025-2026, Rs 5 Lakhs
13. Effectiveness and safety of 2 vs 3 doses of HPV vaccine in preventing cervical cancer: An Indian multi-center randomised trial, Dr Anju Singh, IARC-WHO, Rs 46.53 Lakhs
14. A Phase-II/III, Partially Double-blind, Randomized, Active-controlled, Multicentric Study to Assess the Immunogenicity and Safety of SIIPL's qHPV Vaccine Administered Intramuscularly in Healthy Volunteers According to a Two-dose Schedule to Cohort 1 (Girls and Boys Aged 9-14 years) and a Three-dose Schedule to Cohort 2 (Women and Men Aged 15-26 years) as Compared to Merck's HPV6 November 16/18 vaccine (Gardasil®), Dr Anju Singh, DiagnoSearch Science Pvt LTD, Rs 3.47 Lakhs

Completed

1. Validation study of indigenous HPV tests for cervical cancer screening (i-HPV)", Neerja Bhatla/ Seema Singhal, BIRAC, 2 years, 2023-2025, Rs 71.15 Lakhs
2. App-Based Intervention for improving cancer knowledge among Gynaecological cancer patients- GYN-CANCER App (AIIMS UG Research Grant), Dr Seema Singhal, AIIMS (UG research grant), 1 year, 2022-2024, Rs 2 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. Correlation of CA 125 KELIM (ELIMination rate constant K) and chemotherapy response score (CRS) score in patients with High grade serous epithelial ovarian cancer undergoing interval cytoreductive surgery.
2. Multiparametric evaluation of bone health in women with premature ovarian insufficiency: A prospective cross sectional study
3. Sub-endometrial instillation of Platelet Rich Plasma in women with thin endometrium undergoing In-vitro Fertilization cycles-A feasibility study
4. To compare slow freezing and vitrification techniques in ovarian tissue cryopreservation for fertility preservation in cancer survivors.
5. An open labelled, three armed, randomised, placebo controlled trial to study the effect of intra-ovarian platelet – rich plasma versus autologous adult bone marrow-derived stem cell instillation in poor ovarian responders.
6. Comparison of the impact of tele genetics and in-person genetic counselling on patient satisfaction and acceptance of genetic testing in women with Epithelial Ovarian Cancer
7. Fluorescence guided surgery using Near-infrared (NIR) imaging for detection of peritoneal metastases in patients undergoing cytoreductive surgery in epithelial ovarian cancer-A feasibility study
8. Low dose Oral Metronomic Cyclophosphamide and Etoposide combination in Recurrent/Refractory High Grade Endometrial Cancer, a Single Arm Phase 2 Study (DM Medical Oncology)
9. Palbociclib and Anastrozole for patients with Estrogen receptor positive recurrent of metastatic endometrial cancers: A single arm phase 2 study (DM Medical Oncology)
10. Correlation of Neutrophil Lymphocyte Ratio and Platelet Lymphocyte Ratio with Chemotherapy response Score (CRS) in Patient of Advanced Stage Epithelial Ovarian Cancer
11. To assess the impact of menopausal symptoms and coping strategies on quality of life among postmenopausal women
12. Role of pre-treatment controlling nutritional status (CONUT) score and fibrinogen albumin (FA) score in prediction of surgical outcomes and postoperative complications rate in women with epithelial ovarian cancer undergoing cytoreductive surgery.
13. Comparison of PCR based E6/E7 Oncogene detection in cervical cytology and cervical tissue specimen with histopathology in HPV-positive women
14. Impact of Mindfulness Meditation on Neurocognitive Functions in Gynaecological Cancer Survivors: A Randomized Controlled Trial.
15. Venlafaxine versus Placebo for treatment of Vasomotor symptoms in Gynecological Cancer survivors: A Double-blind, Randomized, Placebo-controlled Trial
16. Correlation of paired urinary HPV DNA and provider sampled cervical HPV DNA for cervical cancer screening in pregnant women
17. Exploring the role of cervical metagenomics in acquiring HPV infection, its persistence and its association with cervical precancerous
18. Apixaban in Prevention of Venous Thromboembolism in Advanced Epithelial Ovarian Cancer Receiving Neoadjuvant Chemotherapy: A Randomized Controlled Open-Label Clinical Trial
19. Frailty assessed with G8 questionnaire and FRAIL scale as a predictor of postoperative complications in elderly women with gynaecological malignancies
20. Evaluation of bone-health and menopausal symptoms in gynaecological cancer-survivors
21. Assessment of Cognitive function among Indian women with ovarian, primary peritoneal and fallopian tube cancer: A Pilot Study
22. Impact of Yoga on Quality of Life among Epithelial Ovarian Cancer Survivors: A Pilot Study
23. Correlation between Computed Tomography- Peritoneal Carcinomatosis Index (CT-PCI) and Intraoperative PCI in the surgical management of Ovarian Carcinoma

Completed

1. Sub-endometrial instillation of Platelet Rich Plasma in women with thin endometrium undergoing In-vitro Fertilization cycles-A feasibility study

2. MD-Role of 3-Dimensional cinematic rendering of CT imaging for pre-operative evaluation of disease extent in Epithelial Ovarian Cancer
3. Evaluation of 18F-FDG PET-specific quantitative tumour parameters and sentinel lymph node mapping by radionuclide injection of Tc -99m Sulphur colloid in the management of endometrial cancer
4. A pilot study to evaluate the role of POTE E gene and machine learning as preoperative diagnostic and prognostic prediction tool for epithelial ovarian cancer
5. Correlation of Serum Visfatin, adiponectin and tissue expression of pyruvate kinase M2 with prognostic factors in Carcinoma endometrium
6. Correlation of Haematological parameters with Chemotherapy response Score (CRS) in Patient of Advanced Stage Epithelial Ovarian Cancer
7. Nutritional assessment of Indian women with gynaecological cancers using GLIM criteria and impact of focused prehabilitation protocol on nutrition and perioperative outcomes in women undergoing interval debulking surgery
8. Clinical outcome and biological characteristics of ovarian cancer patients with positive germline mutations in hereditary ovarian cancer predisposing genes and acceptance of cascade testing in Indian women

Collaborative projects

Ongoing

1. Bone marrow sparing extended field CRT with ddNACT in stage IIIC2 carcinoma cervix: A phase 2 study, Radiation Oncology
2. A Randomised, Double-blind, Placebo-controlled, Phase III Study of Olaparib Maintenance Monotherapy in Participants with BRCA Wild Type Advanced (FIGO Stage III-IV) High Grade Serous or Endometrioid Ovarian Cancer Following Response to Standard First-line Platinum-based Chemotherapy (MONO-OLA1) (Collaborative research with Medical Oncology), Medical Oncology
3. Hypo-fractionated radiotherapy in cervical cancer A non-inferiority randomized controlled trial (Collaborative research with Radiation Oncology), Radiation Oncology
4. Implementation Research to Enhance Screening, Early Diagnosis and Initiation of Treatment for Oral, Breast and Cervical cancer in Selected Districts of India. (Collaborative research with Preventive Oncology), Preventive Oncology
5. A Phase 3, Double-Blind, Placebo-Controlled, Multicenter Clinical Study comparing Chemo-Immunotherapy (Paclitaxel-Carboplatin-Oregovomab) versus Chemotherapy (Paclitaxel-Carboplatin-Placebo) in Patients with Advanced Epithelial Ovarian, Fallopian Tube or Peritoneal Carcinoma" (FLORA-5) (Collaborative research with Medical Oncology), Medical Oncology
6. To investigate metabolic perturbations in Endometrial Cancer by targeted transcriptomics approach in Indian cohort, Pathology
7. Establishing a registry for breast and ovarian cancan with mutations in hereditary cancer predisposition genes and a germline DNA repository at AIIMS, New Delhi, Medical Oncology
8. Exploring the genomic footprints and their connotations in vulvar squamous cell carcinoma, Pathology
9. Cisplatin-encapsulated HPV virion-based targeted delivery vehicle validation on cervicotomy samples using high-resolution cryo-electron tomography, Anatomy
10. External delivery of Cisplatin using HPV based nanocarriers for treatment of cervical cancer, Anatomy
11. A comparative study to evaluate the HPV 16/18 testing with the NeuMoDx™ System(s) and Hybrid capture HC2, Lab Oncology IRCH
12. Development of a transvaginal probe-based dermatoscope with automated AI-enabled decision support for detection of cancers and infections, Dermatology Indian Institute of Information Technology, Design and Manufacturing Kancheepuram
13. A Phase-IV, single-arm, multicentric study to assess the safety of SIIPL's qHPV vaccine (CERVAVAC®) when administered in a two-dose schedule to girls and boys aged 9-14 years and in a three-dose schedule to women and men aged 15-26 years, Serum Institute of India Pvt Ltd, Pune
14. Cancer Awareness and Referral Engagement (CARE) program for medical officers/ Specialists in selected district hospital of Haryana, Pfizer, India

15. Effects of circadian rhythm and urinary melatonin levels in the carcinogenesis of endometrial carcinoma, UG Mentorship AIIMS Intramural Grant

Completed

1. Augmenting Cervical Cancer Elimination Effectively in a Region utilizing Affordable TEchnology (ACCELERATE) to enhance cervical cancer screening services for achieving WHO Target goals in the North-East Region of India, A FOGSI-FIGO grant for Rs 2 Lakhs (completed)

Tanima Dwivedi

HIGHLIGHTS

The Laboratory Oncology at NCI-AIIMS collaborates with the Laboratory Oncology Unit at Dr. BRAIRCH to deliver Hemato-Oncopathology services to patients. Within NCI, they have pioneered India's first fully automated laboratory in the government sector, the "Robotic Core Clinical Laboratory". In the past year alone, this facility has conducted a total of

6783679 diagnostic tests. The Robotic Core Clinical Laboratory represents a cutting-edge advancement, providing seamless, round-the-clock services designed to minimize turnaround times and deliver accurate, high-quality digital reports to patients. This innovative approach significantly enhances the standard of patient care by harnessing state-of-the-art automation and precision technology.

DEPARTMENT OF MEDICAL ONCOLOGY

FACULTY AND STAFF

Professor and Head

Sameer Bakhshi

Associate Professor

Akash Kumar

Assistant Professors

Aparna Sharma

Babita Kataria

HIGHLIGHTS

1. BIOSTATISTICS WORKSHOP – In collaboration with Kolkata Gynae-oncology Trials and Translational Research Group (KolgoTrG), NCI-AIIMS organized a 3-day intensive biostatistics workshop for clinicians on 08-10 November 2024. Delegates from various Institute of National Importance(INIs) attended the workshop. International faculty members – Dr. Atanu Bhattarjee (Professor, biostatistics, University of Dundee and Dr. KelleyM. Kidwell from the University of Michigan took lectures on various biostatistics principles. Faculty members from IRCH and NCI also mentored the sessions throughout the workshop.
2. BRAINSTORMING SESSION with KolgoTrG and Gynecologic Cancer Inter Group (GCIG) in Gynae-Oncology: We arranged a brainstorming session for clinical trials in Gynae-oncology on 5 December 2024 under the mentorship of Dr. Michael Bookman – Chair, GCIG and Dr. Mary Eiken, CEO- International Gynecologic Cancer Society (IGCS) - faculty from NCI, IRCH and KolGoTrG presented their research proposals for feedback from the international faculty. Pragmatic clinical trial designs and the feasibility of expanding future trials from AIIMS and KolGoTrG as multi-centric IGCS and The Cervix Cancer Research Network (CCRN) studies were discussed.
3. WORKSHOP for NCI and IRCH Nurses: 5 Nursing officers each from NCI and IRCH participated in the workshop where they were trained for Nurse-led Genetic counseling. NCI hosted the workshop on 5 December 2025 in collaboration with the KolgoTrG team.
4. Department of Medical oncology Dr. B.R.A IRCH amd NCI AIIMS organized the first Multidisciplinary AIIMS Uro-Oncology Update. 23 and 24 November 2024. It included International and National faculty in the field of Genitourinary Oncology.

EDUCATION

Akash Kumar

1. Care of a Geriatric Hematolymphoid malignancy patient, 51st ICON, 30 November 2024, Mumbai

Total number of lectures delivered

Name of faculty	2021–2022	2022–2023	2023–2024

Akash Kumar		-	1

Lectures delivered at CMEs, National and International conferences

1. Antibody Drug Conjugates Topic; "Toxicities of Interest" Speaker, World Congress of Lung Cancer, 10 September 2024, San Diego USA
2. Genomics for Oncologists Workshop: Speaker, World Congress of Lung Cancer, 8 September 2024, San Diego USA
3. Lung cancer: prevention, early detection, treatment modalities, challenges and future scopes of collaborative research' Talk, Workshop for PhD students and Faculty members at CIO (Centre for Integrative Oncology), 1 August 2024, All India Institute of Ayurveda(AIIA), New Delhi, AIIA
4. Role of Tumor Board and Multi disciplinary Team In management of Advanced/ Metastatic NSCLC: Panel Discussion Panel Moderator, NALCCON 2024, 5 October 2024, AIIMS Rishikesh
5. Mediastinal GCT: A Houdini's act Speaker, AIIMS Uro- Oncology Updates, 24 November 2024, AIIMS, New Delhi
6. "Surgical aspects in advanced RCC - CRN, Oligometastatic RCC: Evolving practice" Panelist, AIIMS Uro-Oncology Updates, 24 November 2024, AIIMS, New Delhi
7. Decoding NGS: From therapeutic to Reporting Panelist, Oncology Updates 2024, 27 April 2024, RGCI Delhi

Total number of lectures delivered

Babita Kataria

1. **Nursing students** – Took lecture on "Skin cancer " for MSc (Oncology) Nursing students.
2. **Postgraduate** – Delivered faculty lecture on
   a). Evolution of Oncofertility
   b). Mentored D.M. resident Dr. Navin Bhati for journal club presentation at IRCH and NCI

Lectures delivered at CMEs, National and International conferences

Babita Kataria

1. Invited lecture, Cancer Genetics: Basics and Pedigree drawing, Oncology Updates 2024, 28 April 2024, New Delhi
2. Invited Lecture, Newer drugs in Desmoid: Challenges for us, Desmoid scientific symposium, 14 July 2024, AIIMS, New Delhi
3. Didactic session, Recurrent cervical cancer, IGCS -India ECHO, Project ECHO, 23 August 2024, Online
4. Didactic session, Low-Grade Serous Cancer, IGCS -India ECHO, Project ECHO, 13 February 2025, Online
5. Didactic session, Recurrent Ovarian cancer in low-resource settings, IGCS -India ECHO, Project ECHO, 26 July 2024, Online
6. Panelist, Molecular testing and Gynecological Cancer – Endometrial Carcinoma, 6th Annual conference of Oncology Forum, 03 December 2023, New Delhi, India
7. Panelist, Molecular Tumor Board- Hereditary cancer syndrome, Molecular Tumor Board and Lung Masterclass, 29 November 2024, New Delhi
8. Panelist, Geriatric Oncology Models of Care- Implementation, Challenges, and the Roadmap ahead for collaboration, Geriatric Oncology Workshop, 20 December 2024, Mumbai
9. Chairperson, Session on Gyne-Oncology, Annual Conference of Oncology Forum (OFCON 2025), 19 January 2025, New Delhi

10. Panelist, Brainstorming on Toxicity of IO agents- Prediction, Identification, and Treatment, Breathing Brilliance-Symposium by Rajiv Gandhi Cancer Institute and Research Centre, 22 March 2025, New Delhi
11. Panelist, Case-based discussion: Endometrial cancer, FOGSI and AOGD committee meeting: Integrating Genetics in Women's Cancer Care, 29 March 2025, New Delhi

RESEARCH

Akash Kumar

Grants Ongoing

1. "Improving survival in childhood -Acute Lymphoblastic Leukemia in India (IS-CALL): ICICLE implementation study", Akash Kumar, ICMR, 3 years, 2023-2026, Rs 55 lacs

Departmental projects (including thesis/dissertations)

Ongoing

1. A Phase 2 Open label Randomised Controlled Trial Comparing Modified TPF with Docetaxel-Platinum Regimen as Neoadjuvant Chemotherapy in Locally Advanced Resectable Oral Cavity Cancer (NeoORAL study)

Completed

1. Olanzapine versus fosaprepitant for prevention of chemotherapy induced nausea and vomiting in patients receiving carboplatin (AUC $\geq$ 4) containing chemotherapy regimen: A phase 3 randomized, double-blind, placebo-controlled trial
2. Metformin with neoadjuvant chemotherapy in localized triple negative and HER2neu-positive breast cancer: A prospective phase 2 open label randomised controlled trial (McBETH)

Collaborative projects

Ongoing

1 Designing and implementation of health care model in patients with stage 2breast cancer Radiation Oncology

Aparna Sharma

Ongoing

1. Phosphorylated ALK expression in ALK positive Non small cell lung carcinoma and its impact on survival outcomes", Aparna Sharma, All India Institute of Medical Science Early Career Intramural Research Project 2023-2024, 2 years, 2023-2025, Rs 5 Lakhs
2. Role of celecoxib in reducing cognitive impairment in patients receiving definitive chemoradiation for head and neck carcinoma: A phase II randomized placebo controlled trial, Aparna Sharma, American Society of clinical Oncology, Conquer Cancer Foundation, 1 year, 2024-2024, Rs 16 Lakhs
3. Comprehensive genomic characterization of young onset lung adenocarcinoma in India (YOLA-I study), Aparna Sharma, International Association for study on Lung Cancer (IASLC) /LCFA/ BMS Diparities in Clinical Oncology Research Grant, 2 years, 2024-2026, Rs 180 Lakhs (USD 200000)
4. Multi Institution study by Tata Memorial Hospital Mumbai: Phase 3 randomized study for evaluation of addition of Pembrolizumab to palliative therapy in NSCLC, Site PI: Aparna Sharma, TMH, Mumbai, 2 years, 2024-2026, Rs 19 Lakhs
5. "Metabolic response by FDG PET-CT and its correlation with pathological response and genomic profile in patients of Non-Small Cell Lung Cancer (NSCLC) receiving neoadjuvant chemoimmunotherapy", Aparna

Sharma CO PI: Abhinav Singhal, AIIMS Interdisciplinary Collaborative Intramural Research project, 2 years, 2024-2026, Rs 10 Lakhs

Collaborative projects

Ongoing

1. "Metabolic response by FDG PET-CT and its correlation with pathological response and genomic profile in patients of Non-Small Cell Lung Cancer (NSCLC) receiving neoadjuvant chemoimmunotherapy", Dr. Abhinav Singhal, Department of Nuclear Medicine, NCI Jhajjar

C Senthamil Selvan

HIGHLIGHTS

Medical Physics, NCI is currently involved in taking care of quality assurance and regulatory aspect of Diagnostic Radiology equipments at NCI. The radiation safety aspect of diagnostic radiation generating equipments is also being taken care by Medical Physics, NCI. Radiation equipments at AIIMS, outreach OPDs. The department maintains TLD personal monitoring services for all the departments of NCI AIIMS. We are also member/participant of Radiation Safety Committee, NCI AIIMS which coordinates with all the Radiation Safety Officers at NCI for all the radiation safety and awareness activities at NCI. The Medical Physics, NCI also takes care of regulatory and radiation safety aspects of X ray Blood Irradiator at Department of Transfusion Medicine, NCI, AIIMS.

The department was actively involved in NABH accreditation inspection at NCI AIIMS. We are also providing radiation safety and regulatory aspect management at Department of Nuclear Medicine, NCI.

EDUCATION

1. The faculty of Medical Physics at NCI and Dr BRAIRCH provides lecture/takes classes of Medical Physics for
    a. Post Graduate MD program Radiodiagnosis, AIIMS
    b. Post Graduate MD program of Biophysics, AIIMS
    c. Post Graduate MSc program of Biophysics, AIIMS
    d. BSc MTR program of Radiodiagnosis, AIIMS
2. Delivered a seminar lecture on Radiomics in Medical Imaging at Dr BRAIRCH AIIMS
3. The faculty of Medical Physics is also involved in Radiation safety and awareness teaching programs at NCI AIIMS
4. Co guides of Phd thesis titled, 'Study of Biological effects in low level medical imaging ionizing radiation and their relevance to radiation protection."
5. Delivered a seminar lecture at Centre for Medical and Radiation Physics, National Institute of Science Education and Research, Bhubaneshwar.
6. Nominated as an **(Basic Radiation Physics)** Examiner. in college of medical technology, SGPGI, Lucknow
7. Nominated as Subject Matter Expert for Recruitment of Medical Physicist at AIIMS, Rajkot.

CMEs/Workshops/Symposia/National and International Conferences

1. Participated as chairperson at AOCMP and SEACOMP 2024 at Penang, Malaysia from 11 October to 13 October 2024.
2. Participated as chairperson at AMPICON 2024 at Hyderabad, Telangana from 8 November to 10 November 2024.
3. Participated in International Radiobiology Conference on the "Biological Effects of Space Radiation, Heavy Ions & Human Space Missions - Mechanisms & Biomedical Countermeasures" scheduled from February 27th to March 1st, 2025, Delhi
4. Participated as Chairperson & Panel expert at AMPI NC CON from 13 to 14 April 2024 at Delhi.
5. Member of Scientific Committee for organization of annual conference 2025 of Association of Medical Physicist of India, Northern Chapter at Delhi

Lectures delivered at CMEs, National and International conferences

Medicine

FACULTY AND STAFF

1. Dr Atindra Narayan, Assistant Professor

HIGHLIGHTS:

- Participated as Faculty in a Public Health Lecture on High Blood Pressure at AIIMS, New Delhi, on the occasion of World Hypertension Day, 24th May 2024. Delivered a talk on the management of hypertension and served as a panelist in a discussion covering various aspects of hypertension, including general awareness, treatment strategies, and associated complications in the Indian population.

EDUCATION:

- Training of nurses and supportive health care staff in OPD and Emergency.

Lectures delivered at CMEs, National and International conferences

Name of faculty member

Atindra Narayan:

1. Invited as a Faculty to deliver a talk on "Treatment of Hypertension" at a Public Lecture and Panel discussion on Hypertension on the occasion of World Hypertension Day, 24 May 2024, AIIMS, New Delhi
2. Panelist in panel discussion on high blood pressure on the occasion of World Hypertension Day, 24 May 2024, AIIMS, New Delhi
3. Invited as a Guest speaker to deliver a talk on "Clinical Presentation & Management- Monkeypox" at a CME "Monkeypox Unmasked: Navigating the New Frontier of Infectious Diseases" on 4 September 2024, Faculty of Medicine & Health Sciences, SGT University, Gurugram

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Dr Atindra Narayan Awarded Fellowsip of International Medical Sciences Academy (FIMSA), New Delhi; Participated in - Cohort Studies – Design, Methods and Analysis" workshop from 5th March 2024 to 2nd April 2024, Organized by Clinical Research Unit, AIIMS, New Delhi; Participated in "REDCap Workshop" held on 09th and 10th April 2024, Organised by Clinical Research Unit, AIIMS, New Delhi; Participated in "Systematic Review and Meta-Analysis" Workshop held on 18th and 19th April 2024, Organised by Clinical Research Unit, AIIMS, New Delhi; Invited Faculty at API Delhi state Chapter Mid term CME -2024 Clinical Knowedge and Practice Update and chaired a session on Managing Venous Thromboembolism- Evidence: 21 July, 2024, New Delhi; Invited Faculty at DIABCON 2024 and Chaired a session on Managing Dyslipidemia in Diabetes Mellitus:27 July 2024, LHMC, New Delhi; Participated in "Grant Writing" Workshop held on 30th and 31st July 2024, Organised by Clinical Research Unit, AIIMS, New Delhi; Participated in Protocol Development for Investigator-Initiated Clinical Trials" held on 30th September to 01 October 2024, Organised by Clinical Research Unit, AIIMS, New Delhi; Paricipated in 49th Comprehensive Course on Echo(Hands on Training, JROP Institute, 17-20 October 2024, New Delhi; Invited Faculty at RSSDI 2024 and Chaired a session on session on Lean vs Obese diabetes:14-17 November 2024, New Delhi; Invited Faculty at APICON 2025 and Chaired sessions on session on Fever with periodicity, Importance of ALT:AST Ratio, Isolated Basophilia, Fallacies OF HbA1c, Case based discussion on miliary shadows on CXR: 23–26 January 2025, Kolkata

Neurology

Assistant Professor

Divyani Garg Jasmine Parihar

HIGHLIGHTS

In the year 2024-25, Neurology services further developed ongoing services in patient care, research, and training. The faculty generated 86 publications, presented 30 posters/oral presentations at various national and international conferences, and formed collaborations with prestigious academic institutes. The faculty won many accolades for the institute and served distinguished roles at national and international forums, committees and editorial boards.

The department served numerous outpatients, and provided liaison services with other services in NCI, Jhajjar. Leading the way in patient care, academics, research, and training, the neurology services set great standard for the country and the world and further bolster the care of persons with cancer.

RESEARCH

Funded projects

Ongoing

1. Clinico-genetic and radiological profile of adolescent and adult-onset leukodystrophies, Dr. Divyani Garg (AIIMS Intramural project, Rs 10,00,000/-)

2. Clinical and molecular characterization and development of induced pluripotent stem cell lines in paroxysmal movement disorders, Dr. Divyani Garg (AIIMS-CSIR-IGIB collaborative project, Rs 20,00,000/-)
3. Pan India Registry for Progressive Supranuclear Palsy (PAIR-PSP), Dr. Divyani Garg (Michael J Fox Foundation, Rs 2,30,64,000/-)
4. Differentially expressed synaptic-activity-associated long non-coding RNAs (IncRNAs) in drug-resistant epilepsy (DRE), Dr. Jasmine Parihar (AIIMS Intramural grant, Rs 10,00,000/-)
5. Exploring the potential of focused ultrasound in the treatment of focal drug-resistant epilepsy- A pilot study. Dr. Jasmine Parihar, Anusandhan National Research Foundation, Rs 31,00,000/-

Departmental projects (including thesis/dissertations)

Ongoing

1. Clinicodemographic and electrophysiological profile of ATT-induced peripheral neuropathy in extraneurological MDR/XDR Tuberculosis
2. Efficacy and safety of sunlight therapy in stroke patients: A randomized controlled trial
3. Spectrum and clinical profile of movement disorders in autoimmune encephalitis
4. Multimodality evoked potentials and electroretinogram in patients with Wilson's disease
5. Electrophysiological evaluation of myoclonus in subacute sclerosing panencephalitis
6. Long-term outcomes in patients with autoimmune encephalitis
7. Factors associated with good neurological outcomes in patients with Wilson's disease: A cross-sectional study
8. Non-motor manifestations in Huntington's disease patients and their impact on quality of life
9. Thalidomide as treatment of basal exudates in Tuberculous Meningitis: A prospective randomized open blinded endpoint (PROBE) study Cyclophosphamide in the Treatment of refractory proliferative arachnoiditis in CNS Tuberculosis
10. Dalfampridine for improving visual function in acute demyelinating optic neuritis – A Randomized placebo-controlled trial.
11. Clinical spectrum, imaging features, long term outcomes of functional movement disorders
12. Efficacy of add on melatonin on seizure outcome in focal drug resistant epilepsy patients: An RCT
13. Clinical profile and response to steroids in brachial plexopathy: A prospective cohort study.
14. Efficacy of smartphone based digital application in improving headache related parameters as compared to paper pen diary in patients with migraine- a randomized controlled cross over trial.
15. Transcranial doppler ultrasonography in the diagnosis and prognosis of tuberculous meningitis induced cerebral vasculopathy
16. Correlation of changes in October parameters, optic nerve sheath diameter and MCA waveform by TCD with visual field in IIH.

Collaborative projects

Ongoing

1. Etiological study of hypertrophic pachymeningitis, Department of Neurosurgery
2. A multicenter, international, randomized, placebo controlled, double-blind, parallel group and event driven Phase 3 study of the oral FXIa inhibitor asundexian (BAY 2433334) for the prevention of ischemic stroke in male and female participants aged 18 years and older after an acute non-cardioembolic ischemic stroke or high-risk TIA. Multiple international collaborators.
3. A phase III randomized double blind, efficacy and safety study comparing SCAR442168 to placebo in participants with primary progressive Multiple Sclerosis (PERSEUS). Multiple international collaborators.
4. Understanding prescription patterns for Parkinson's disease prior to referral to a movement disorders centers in India: A cross-sectional study. Multiple centers across India.

Completed

1. A phase III randomized double blind, efficacy and safety study comparing SCAR442168 to placebo in participants with non-relapsing secondary progressive Multiple Sclerosis (HERCULES). Multiple international collaborators.
2. Cultural Considerations in Daily Levodopa Equivalent Dosage: A Study of Global Population. Multiple international collaborators.

Total inpatient admissions	-	-	-
Laboratory Investigations	-	-	-

Community services/ camps

- Dr. Divyani Garg participated in public awareness program for Parkinson's disease.
- Dr. Jasmine Parihar participated in community outreach through a three-day free Medical Check-up Program held at Mundgod, Karnataka**,** in collaboration with the Patient Care Trust (NGO) and AIIMS, New Delhi, contributing to neurological screening and patient education.

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Awards

Divyani Garg

1. Awarded Fellowship by the Royal College of Physicians (FRCP), London, UK

Jasmine Parihar

1. Awarded Smt. Pawan Kumari Jain Award for Young Physician having done outstanding work in the field of Medicine by Association of Physicians of India at the 35th Annual Conference (APIDSC) 2025

Significant events

Divyani Garg

1. Selected for the International Parkinson and Movement Disorder Society International Leadership Program 2024-2025
2. Selected as member of the Genetics Education Subcommittee of the International Parkinson and Movement Disorder Society 2025

3. Selected as steering committee member of the International Parkinson and Movement Disorder Society Clinical Research Methodology Special Interest Group (2025-2027)
4. Steering committee member of the International Parkinson and Movement Disorder Society Women in Movement Disorders Special Interest Group (2023-2025)
5. Steering committee member of the International Parkinson and Movement Disorder Society Pediatric Movement Disorders Special Interest Group (2023-2025)
6. Editorial Board member, Therapeutic Advances in Neurological Disorders journal
7. Assistant Editor, Annals of Indian Academy of Neurology
8. Assistant Editor, Annals of Movement Disorder
9. Conducted the guided poster tour at the Asian and Oceanian Parkinson and Movement Disorder Congress 2025 on Non-motor symptoms in Parkinson's disease
10. DM thesis evaluation for National Institute of Mental Health and Neurosciences (NIHANS), Bengaluru
11. Received ICMR travel grant for non-ICMR scientist
12. Served as quizmaster for the prestigious Indian Academy of Neurology Bar-B-Q quiz for neurology

Jasmine Parihar

1. Chaired a session at Confluence of Specialties in Medicine (COSM) 2025 on Non-invasive Neuromodulation in Headache Disorders: An Update on January 11th, 2025
2. Chaired a session at Neuro-update for the Physicians by API-DSC on Recognition and management of hyperacute stroke on June 1st, 2024
3. Chaired and moderated Data Blitz session at the AOEC on February 21st, 2025.
4. Judged Posters at the DNACON, 2025
5. Completed VIREPA- Neuroimaging Course 4th edition 2024-25 organized by International League Against Epilepsy (Nov 15th, 2024, to April 15th, 2025)
6. Conducted and participated as a tutor in the ASEPA-EEG preconference (AOEC) workshop on February 18-19th 2025 at AIIMS, New Delhi.

Nuclear Medicine

Associate Professors

Abhinav Singhal — Kalpa Jyoti Das

HIGHLIGHTS

The year 2024-25 was only the third year of clinical functioning of the department of Nuclear Medicine in NCI, Jhajjar. The department is currently equipped with PET-CT scanner (128 slice CT) and a dual head SPECT-CT gamma camera whose installation was completed in March 2022, marking the start of diagnostic imaging services with 18F-FDG PET-CT and 99mTc radiopharmaceutical based scintigraphy. In the month of August 2023, 68Germanium-68Gallium generator was procured with installation of automated synthesizer system thus expanding the gamut of PET-CT imaging to include 68Ga-DOTANOC and 68Ga-PSMA scans. The construction of a 21-bedded high dose radionuclide therapy ward (the largest such inpatient facility in India) is complete and awaiting operational license from the regulatory body. The unit is also actively involved in teaching and research.

EDUCATION

1. Postgraduate students pursuing MD degree in Nuclear Medicine are posted on rotational basis and are trained in conducting and reporting oncological PET-CT and various forms of gamma scintigraphy scans.
2. Periodic lectures are taken by the faculty members for the teaching of postgraduate students, technologist, and nursing staff.
3. Journal clubs presented by postgraduate students on the last Saturday of every month discussing the landmark research papers in Nuclear Medicine

4. Three postgraduate students pursuing MD in nuclear medicine allotted to each of the faculty member for MD thesis, making it a total of six PG students currently doing thesis in the department.

Lectures delivered at CMEs, National and International conferences

Abhinav Singhal

1. Personalizing Therapy in Metastatic Hormone-sensitive Prostate Cancer (mHSPC), Uro-Oncology Update, 23-24 November 2024, New Delhi

Total number of lectures delivered

2022–2023	2023–2024	2024–2025

RESEARCH

Funded projects

Ongoing

1. Metabolic response by FDG PET-CT and its correlation with pathological response and genomic profile in patients of Non-Small Cell Lung Cancer (NSCLC) receiving neoadjuvant chemoimmunotherapy, Dr Abhinav Singhal, AIIMS New Delhi, 2 years, 2024-2026, Rs 20,00,000

Departmental projects (including thesis/dissertations)

Ongoing

Abhinav

1. Feasibility of blood glucose optimization using intravenous insulin in patients presenting with unexpected hyperglycemia before 18-FDG PET-CT
2. Success rate of an adaptive intravenous insulin protocol in patients presenting with unexpected hyperglycemia before 18F-FDG PET/CT
3. Evaluation of Ga68-PSMA PET-CT to differentiate post treatment recurrence from radiation necrosis in adult gliomas

Ongoing

Kalpa Jyoti Das

1. Molecular characterization of Breast Cancer using pretreatment 18F FDG PET/CT Radiomics
2. 68Ga PSMA PET/CT to asses expression of PSMA in treatment naïve osteosarcoma patients and predict response to NACT
3. Comparison of Ga-68 PSMA and Conventional staging in TNBC patients
4. Assessment of prevalence and severity of scanxiety in cancer patient undergoing 18F-FDG PET/CT and effect of audiovisual intervention in lowering anxiety levels
5. Assessment of 68 Ga-PSMA-11PET/CT in staging and response assessment to systemic therapy in patients with HCC- A pilot study

Collaborative projects

Ongoing

Abhinav

1. Metabolic response by FDG PET-CT and its correlation with pathological response and genomic profile in patients of Non-Small Cell Lung Cancer (NSCLC) receiving neoadjuvant chemoimmunotherapy, Department of Medical Oncology, NCI Jhajjar, AIIMS New Delhi

HIGHLIGHTS

Lectures delivered at CMEs, National and International conferences

Anuja Pandit

1. Onco- Critical Care in Gynaec-Oncology, NBEMS webinar, 27 February 2025, Delhi
2. CRS and HIPEC for Peritoneal Surface Malignancies: Anaesthesiologists perspective, Indian College of Anaesthesiologists Symposium, 04 December 2024, Delhi

Saurabh Vig

1. Management of malignant ascites and Malignant pleural effusion, - ICMR-AIIMS Capacity Building Workshop in Palliative Care, 20-21 July 2024, National Cancer Institute (NCI), Jhajjar, AIIMS, New Delhi,
2. ERAS in Head and Neck Surgeries, AIIMS International Head and Neck Cadaveric course, 19 March 2024, National Cancer Institute (NCI), Jhajjar, AIIMS, New Delhi,

Shweta Bhopale

1. ICMR-AIIMS Capacity Building Workshop in Palliative Care, - ICMR-AIIMS Capacity Building Workshop in Palliative Care, 20-21 July 2024, National Cancer Institute (NCI), Jhajjar, AIIMS, New Delhi,

Balbir Kumar

1. Delivered Talk on Role of Subcutaneous injection and fluid management in Capacity Building in Palliative Care Workshop organized by Indian Council of Medical Research(ICMR) and AIIMS New Delhi, ICMR Workshop, July 2024, Jhajjar

Prashant Sirohiya

1. Palliative Aspect of Chronic Diseases (COPD, CHF, CRF, HIV, and Neurological Disorder), ICMR-AIIMS Capacity Building Workshop in Palliative Care, 21 July 2024, National Cancer Institute (NCI), Jhajjar, AIIMS, New Delhi
2. Malignant bowel obstruction, ICMR Project titled: “To build the capacity of palliative care services in 10 hospitals in North India to reduce suffering in patients with chronic debilitating conditions”, 29 November 2024, GMC, Chandigarh
3. Pain, 25th Annual Conference of Rajasthan Society of Anaesthesiologists “RAJISACON 2024”, 15 September 2024, Jodhpur
4. Low Back Pain, The Low Backache Conundrum, Department of Anesthesiology, Pain Medicine and Critical Care, GIMS, 1 March 2025, Greater Noida

Raghav Gupta

1. Ethical considerations in end-of-life care, 5th CME Delhi IAPC, April 2024, India
2. ACLS BLS course teaching at Asian Hospital Faridabad, --, May 2024, India
3. ICMR AIIMS Extramural Project: Prognostication at end-of-life care and care of bed ridden patient, ICMR-AIIMS, June 2024, India
4. Newer OHA and anaesthesia, ISA Delhi Webinar, August 2024, India
5. Nerve injury during regional anaesthesia: factors and prevention, RAJISACON, September 2024, India
6. Prehabilitation and drivers of post-operative pain, ISA National YUVACON, September 2024, India
7. CHIP foundation stakeholder engagement cancer prevention and control, CHIP Foundation, October 2024, India
8. Panel and workshop on USG airway assessment, Anaesthesia update 2024, November 2024, India
9. Cancer Pain, Delhi Pain summit, November 2024,

10. Ethical considerations in Palliative Care, NCPO, January 2025, India
11. Palliative care in cancer, IAPCON National, January 2025, India

RESEARCH

Ongoing Extramural Funded / Intramural Funded

1. To build the capacity of palliative care services in 10 hospitals in North India to reduce suffering in patients with chronic debilitating conditions, Dr. Brajesh Kumar Ratre, ICMR, 3 years, 2022-2025, Rs 2.76
2. Effect of goal-directed therapy on post-operative neutrophil gelatinase-associated lipocalin profile in Cytoreductive Surgery with Hyperthermic Intraperitoneal Chemotherapy: a randomized control study, Dr. Raghav Gupta, AIIMS Intramural, 2 years, 2024-2026, Rs 5 plus 5 lakhs

Departmental Projects (including thesis/dissertations)

Ongoing

1. Bed Side Ultrasound to Estimate and Compare Gastric Volumes In Patients Of Gynaecological Malignancies With Other Non-Gastrointestinal, Non-Pelvic Malignancies: A Prospective Observational Study
2. To study the efficacy of palliative surgeries in patients of advanced surgeries in patients of advanced Head and neck and upper GI malignancies facing feeding difficulties: A prospective study

3. Enhancing Splanchnic Neurolysis with Dexmedetomidine: A Dounle-Blind Prospective Randomized Control Trial For Upper-Abdominal Malignancies
4. Efficacy of sublingual atropine vs placebo in management of sialorrhea in head and neck cancer-an open labelled randomized controlled trial
5. Effect of intraoperative esmolol on postoperative pain in breast cancer surgery a randomized control trial
6. Effect of early integration of palliative care with standard treatment in patients of hepatobiliary cancers: a randomised controlled trial
7. Comparison of effect of crystalloids vs Albumin for GDFT on preoperative outcomes in Major abdominal pelvic oncological surgeries: A randomised control trial
8. Assessment of QoL and emotional well-being in patients diagnosed with metastatic spinal cord compression presenting to the palliative care unit in a tertiary care centre: a prospective observational study
9. Correlation of preoperative Ultrasound guided subclavian diameter changes by passive leg raising test and incidence of post-induction hypotension after general anaesthesia in patients of head and neck malignancies: A prospective observational study
10. Burden and Determinants of Burnout Among Palliative Physicians in India-Cross sectional study
11. Predictive Factors of Postoperative Morbidity and mortality in patient undergoing head and neck surgery. A Retrospective observational Study

Completed

1. Cricoid ultrasonography and CT scan to predict the size of Double Lumen Tube in Indian population - A Prospective Observational Study
2. Predictors Of Post-Operative Morbidity and Mortality After Debulking Surgeries For Gynaecological Malignancies – Retrospective observational study
3. Epidural Analgesia On Perioperative Quality Of Recovery In Onco-Surgical Patients Undergoing Unilateral Thoracotomy: A Prospective, Randomized Control, Openlabel, Non-Inferiority, Preliminary Trial (Cepet Trial)
4. Comparison of Intravenous lidocaine and intravenous ketamine for prevention of postoperative catheter related bladder discomfort in patients undergoing transurethral resection of bladder tumor: A randomised control trial
5. Quality OF Life and Cognitive Function Assessment in patients diagnosed with Brain Metastasis Presenting to the Palliative Medicine Department in a Tertiary Care Canter-A Cross Sectional Study
6. A study to compare the efficacy of combination regimen of dexmedetomidine and midazolam versus ketofol (ketamine+propofol) for sedation in awake fiberoptic intubation (AFOI) in head and neck cancer patients- A randomized clinical trial

Ophthalmology

Assistant Professors

Sumit Grover

Deepsekhar Das

HIGHLIGHTS

Ocular oncology services at NCI started in December 2022.

AIM:

- The aims of the Ocular Oncology Service are to provide expert diagnosis and treatment of ocular tumours, to conserve the health and well-being of patients with an ocular tumour and to prolong life.

Objectives:

- The objectives of the Ocular Oncology Service in NCI are to diagnose and treat ocular tumours in the hope of prolonging life and improving quality of life by conserving the eye and useful vision whenever possible.
- To collaborate with medical and surgical oncologists so as to optimize any opportunities for preventing and treating metastatic disease.

Major activities:

- Ocular oncology clinics catering to all intraocular and orbital tumors.
- Epiphora clinic started to evaluate and manage patients developing epiphora as a result of cancer or its treatment.
- Comprehensive ophthalmology services for common ailments like Refractive errors, Cataract, Glaucoma and Diabetic Retinopathy etc.
- Community ophthalmology services in collaboration with Preventive Oncology services NCI.
- Initiated Fundus on Phone AI based screening of retinal diseases in NCI Ophthalmology OPD.
- Faculty actively participated "i-Drone Corneal transportation by drones" project in collaboration with ICMR and Dr. RP centre AIIMS New-Delhi.

EDUCATION

1. Please provide a list of all the academic activities including undergraduate, postgraduate, and paramedical teaching.
   - Training and teaching of Junior residents/ Postgraduate students of Ophthalmology at Outreach OPD NCI Jhajjar.
   - Teaching rounds or Postgraduates students.
   - Training of Optometry interns at outreach OPD for community outreach services.
   - Undergraduate students teaching classes on basic sciences in Ophthalmology.
   - Faculty participated in multiple clinical rounds and case-based teaching of MBBS as well as MD students at RPCentre, AIIMS, New Delhi.

Name of faculty member:

Sumit Grover

1. Participated as faculty in pediatric ophthalmology session, Young ophthalmology society of India "YOSI" annual conference, 27-28 April 2024, Delhi
2. Guest lecture on Calculating "Effective Refractive error coverage"- novel indicator for UHC and participated as moderator in one session, Vision 2020 18th Annual conference, 6-7 July 2024, Ludhiana Punjab
3. Lecture on- Retinoblastoma Screening-Are we there yet!, ACOIN Delhi state chapter meeting and conference, 18 August 2024, Shroff charity eye institute New-Delhi
4. Attended as invited guest faculty- Need for corneal donation in India, Webinar on "corneal donation" on the occasion of corneal donation fortnight virtually organised by centurion university, 2 September 2024, Andhra Pradesh
5. Guest faculty lecture Moderator in one session, 17th SAO conference, 21-23 September 2024, Thimphu Bhutan
6. Participated as faculty Topic- role of non -ophthalmologist human resource in DR screening, Training Programme on Early Screening of Diabetic Retinopathy session organised by community ophthalmology Dr. RP centre AIIMS New-Delhi in collaboration with WHO India, 30 September 2024-05 October 2024, Dr. RP centre AIIMS New-Delhi
7. Participated as panelist in the expert panel in webinar, Diabetes in india-A growing threat to vision & eye health" organised by India vision institute, 11 December 2024, New-Delhi
8. Invited faculty speaker and panelist, Delhi Ophthalmological society DOS Winter meeting, 23-24 November 2024, New-Delhi
9. Participated as distinguished invited speaker on the topic- Slit lamp biomicroscopy, CME organised by Principal Medical officer Civil hospital Gurgaon, 3 March 2025, Gurgaon Haryana
10. Invited as Panelist in on -Understanding the barriers in utilization of LVA among low vision patients, Low vision AIDS webinar organised by ACOIN Delhi state chapter, 5 March 2025, New Delhi
11. Participated as panelist, "Oculoplasty & oncology renaissance" session organised by Dr. RP centre AIIMS New Delhi, 8 March 2025, New Delhi

Total number of lectures delivered.

PATIENT CARE

Special clinics:

1. Ocular Oncology Clinic.
2. Epiphora Clinic for Cancer patients on chemotherapy.

Community Medical Camps attended by Faculty:

1. Attended Annual Medical Camp Organized by "Aarohan "Social service league of St. Stephens College (Uni. Of Delhi) in collaboration with sarcoma Care Foundation and Preventive oncology and Ophthalmology unit NCI (Jhajjar) on 22nd April 2024. Provided ophthalmology services to 200 patients.
2. Participated in the field research and attending eye patients at the Netra Kumbh at Prayagraj UP from 16-21 January 2024 nominated by Hon'ble Director AIIMS. Represented team AIIMS attended around 450 patients in 5 days.
3. Participated in medical camp organised by National institute of health and family welfare NIHFW on the occasion of 48th Annual day. Represented AIIMS and attended around 150 patients on 9th March 2025.
4. Attended, a medical camp organised by PCT-AIIMS at Mundgod Karnataka from 23-25 March 2025. Attended 250 Buddhist monks and other vulnerable population of tribal areas of Mundgod.

Sumit Grover

- Participated as member of Dossier committee pertaining Trachoma elimination in India by NPCB VI MoHFW at Nirman Bhawan New Delhi on 2 May 2024.
- Nominated as section editor of DOS Times "Ocular Oncology section" DOS is the official publication of Delhi Ophthalmological society. May 8, 2024.
- Endowed with ACOIN Assam state chapter oration 2024 award. Delivered the prestigious Late Dr. Prem Prakash Gupta memorial oration at ACOIN Northeast India Summit Sri Sankaradeva Netralaya Guwahati assam on 11 August 2024.
- Was nominated to be the member of the expert committee meeting conducted under the chairmanship of DGHS of India on 30 September 2024 (Monday) from 2.00 pm onwards for having first discussion on formation of National task force on Inclusive eye health under MoH&FW at Resource Centre Room No. 445-A Wing Nirman Bhawan, New Delhi.

Dr. Deepsekhar Das

- Awarded ***Editor Commendation Award*** for work as Assistant Editor of Indian Journal of Ophthalmology on 27 March 2025.
- Awarded ***IJO Award*** for "Disinsert, retract, rotate technique of plaque brachytherapy" by Indian Journal of Ophthalmology on 24 March 2025.

VISITING SCIENTIST N.A

Department of Orthopaedics

Assistant Professors

Love Kapoor

Shrijith Muralidharan B

HIGHLIGHTS

At the National Cancer Institute, we have provided comprehensive range of services and implemented initiatives to address the complex needs of patients with musculoskeletal tumors. Our foremost endeavor has been the inauguration of the Orthopaedic Oncology Outpatient Department (OPD) and Operation Theatre (OT) services. This allows us to provide specialized care from diagnosis to treatment under one roof, ensuring seamless coordination and personalized attention for each patient. One of our key focal points is limb salvage surgeries for complex bone tumors of the extremities. Through advanced surgical techniques and cutting-edge technology, we aim to preserve limb function and quality of life while effectively treating the malignancy. Additionally, we have established expertise in spine tumor surgeries, catering to patients with tumors affecting the spinal column. Emphasizing the importance of collaboration, we have forged partnerships with various departments within the institute, fostering a multidisciplinary approach through Disease Management Groups (DMGs). By bringing together experts from diverse fields, we enhance treatment planning and decision-making, ultimately improving patient care. Furthermore, we have prioritized the procurement of specialized instruments and machinery tailored specifically for musculoskeletal tumor surgeries. This investment enables us to perform procedures with precision and efficiency, staying at the forefront of orthopaedic oncology advancements. In essence, our Orthopaedic Oncology Unit stands as a beacon of hope for patients battling musculoskeletal tumors, offering comprehensive care, innovative treatments, and unwavering support on their journey towards recovery.

EDUCATION

As Assistant Professor in the department of Orthopaedics, we were involved in teaching and mentoring undergraduate and post-graduate students, including delivering lectures and moderating seminars. We were also involved in providing continuing education and training to nursing staff and other healthcare professionals involved in patient care.

1. Lecture on 'Congenital deformities of foot' - Undergraduates
2. Lecture on 'Amputations and Prosthesis' - Undergraduates
3. Seminar on 'Limb Salvage in bone tumors' – Postgraduates
4. Seminar on 'Management of Benign Bone Tumors' – Postgraduates
5. Post graduate Radiology session – X -ray discussion of common Orthopaedic cases
6. Post graduate lecture – "Bone graft and substitutes.
7. Lecture on 'Benign bone tumors 'for undergraduates
8. Post graduate teaching Case presentation – "Tuberculosis of Spine"
9. Post graduate Case presentation – "Bony swelling of distal thigh "
10. Post graduate Radiology session – X -ray discussion of common Orthopaedic cases.
11. Post graduate case presentation- "non-union neck of femur".

Rachna Pasi

HIGHLIGHTS

The Scope and services of the pediatric department were expanded. This included care of the critically ill pediatrics cancer patients, initiation of a pediatric oncology nutrition clinic and childhood cancer survivorship clinic at NCI. The pediatric oncology nutrition clinic aims to prevent and treat malnutrition among children with cancer. Childhood cancer survivorship clinic has been initiated jointly with the medical oncology team to provide comprehensive care to the survivors. This includes monitoring their growth, immunization and late effects of the cancer treatment.

Varsha Mishra

Participated as a faculty for a workshop on advanced pediatric oncology care at the 27th Annual Pediatric Haematology Oncology Conference held at Jammu in November 2024.

Dr Varsha is a member of the pediatric haematology oncology chapter of the Indian Academy of Paediatrics.

Member of the International Society of Pediatric Oncology.

Member of the Indian Childhood Cancer Initiative (ICCI) for Access to Care task force and is involved in formulating the training document for it.

Dr Varsha chaired a session on"The use of PICC lines in pediatric oncology" at the 7th Pediatric Conference of North India.

Initiated Childhood Cancer Survivorship Services at NCI, AIIMS DELHI

Faculty

Assistant Professor

Rachna Pasi

Lectures delivered at CMEs, National and International conferences

Rachna Pasi

1. "18-30 month visits: Monitoring Growth and Development", OPSIS, IAP Agra, April 2024, Agra, UP
2. "9-12 month visit: Nutritional Stumbleblock", TINY to TALL, IAP Faridabad, May 2024, Faridabad, Haryana
3. Applied aspects of epidemiology, investigation, management and prevention of gastrointestinal infections, ACM Academic Initiative -'Updates on Applied Microbiology', May 2024, Madurai
4. "Aplastic Anemia", "Pediatric Conference of North India (PCNI) & 7th National Conference of IAP Medicolegal Chapter (MLCON)-2024" under Hemato-Oncology subspeciality (IAP), September 2024, Delhi
5. "National Consultative meet", 62nd National Conference of IAP PEDICON, January 2025, Hyderabad, Telangana
6. **"Conquering the Triple Threat: Cancer, Tuberculosis, and HIV - Challenges, Innovations, and Hope"**, World TB Day 2025 event, AIIMS Madurai with theme *"Yes! We Can End TB: Commit, Invest, Deliver"*, March 2025, Madurai

AWARDS, HONOURS AND SIGNIFICANT EVENTS

For individual faculty members

- **Dr. Rachna Pasi:** She is certified national trainer for "PINK FOOTSTEP" training program under IAP Presidential Action plan 2025. She has chaired session as chairperson for session "Aplastic Anemia" at Pediatric Conference of North India (PCNI) & 7th National Conference of IAP Medicolegal Chapter (MLCON)-2024" under Hemato-Oncology subspeciality organized at Delhi held in September 2025. She is faculty in charge of special clinic, Pediatric Onco-Nutritional Clinic (PONC) at NCI AIIMS-Delhi, September 2024 (official approval). She has completed Hands-On Workshop on "Research Data Capturing using REDCap" & "Systematic Review & Meta-analysis" organized by the Clinical Research Unit (CRU), Research Section, AIIMS, New Delhi.

Preventive Oncology

Associate Professor

Hari Krishna Raju Sagiraju

Jitendra Kumar Meena

HIGHLIGHTS

In addition to routine clinical screening of oral, breast and cervical cancer, the department caters for risk screening, laboratory testing and referral/follow-ups of other cancers, i.e prostate, colorectal and hereditary, etc. In coordination with other oncology specialties and Disease Management Groups, supportive services, i.e tobacco cessation, HPV DNA testing, cancer education/lifestyle counselling, etc, are routinely provided to cancer patients and at-risk individuals.

Similarly, expansion of community screening services (4964 screened in 2024-25) was done through community outreach programs in Delhi, Haryana (Jhajjar, Gurugram) districts and NP-NCD capacity building initiatives with Haryana and the Govt. of NCT Delhi. In addition to cancer-related services, the Department offers NCD risk profiling, Lab testing and treatment referral support for NCDs i.e Hypertension, Diabetes, Chronic Kidney/Liver disease's etc, in a comprehensive care model for both community outreach and hospital-based services.

The Department regularly conducts Health promotion and Cancer awareness activities to create awareness for cancer risk reduction and early detection at NCI (patients, attendants and staff) and in camp attendees in rural and urban community settings. The Department also conducts weekly AIIMS employee health and wellness sessions and provides cancer screening, lifestyle education and cancer risk management services.

The Department conducted a "Preventive Oncology workshop" during the 5th IAPSM Young Leaders National Conclave to orient and skill young post-graduates and early career faculty in modalities and scope of Preventive Oncology. The department started a PhD program and enrolled a student. The faculty regularly conducts and engages in academic activities (lectures, talks, etc.) for the residents at NCI Jhajjar and offers virtual/physical training to medical officers, nurses, et, c of various state governments to equip them with knowledge and skills related to cancer prevention and early detection along with supportive care. The department currently supports its community outreach services under various extramural research grants from various funding agencies i.e ICMR, HEFA, Ministry of Education and CSR/Industry support in collaboration with Department of Health, Haryana.

EDUCATION

1. PhD program: coursework, sessions in cancer epidemiology, research methodology, biostatistics, etc.
2. Weekly seminar presentations and discussions moderated by faculty and delivered by resident, PhD student and research staff (medical social worker, staff nurse, etc.)
3. Offline and Online training of Healthcare workers in Cancer Prevention & Early Detection of Govt.. of Haryana and NCT Delhi.

Number of PhD Students: 1

CMEs/Workshops/Symposia/National and International Conferences

1. Preventive Oncology Workshop, 5th IAPSM Young Leaders Conclave, AIIMS New Delhi
2. Epicritique Workshop, 5th IAPSM Young Leaders Conclave, AIIMS New Delhi
3. CMIE Health Care Innovation Series, Boot Camp in Oncology, NCI Jhajjar

Lectures Delivered At Cmes, National And International Conferences

Hari Krishna Raju Sagiraju

1. Improve access to early cancer screening, COMMUNITY UPDATE AND LEAD UP EVENT TO FIRST U.S. - INDIA CANCER MOONSHOT DIALOGUE, 28 May 2024, **NCI-Jhajjar**
2. ts for Hypothesis Testing & their Assumptions, Biostatistcs in Oncology (BiO Workshop), 9 November 2024, **NCI-Jhajjar**

Jitendra Kumar Meena

1. Tobacco Cessation and Cancer Screening, ECHO Certificate Course, Nepalese Society of Community Medicine (NESCOM), September 2024
2. Research Methodology, ECHO Certificate Course, Nepalese Society of Community Medicine (NESCOM), March-May 2024
3. Cancer Awareness and Screening Training, ECHO Certificate Course, AIMSRC, Rajsamand, Rajasthan, January 2024

4. Cancer Awareness and Screening Training, ECHO Certificate Course, Govt. Medical College, Chandigarh, February 2024
5. Artificial Intelligence in Health – Boon or Bane? 5th IAPSM Young Leaders Conclave, CCM, AIIMS New Delhi, November 2024
6. End of Lifecare: Bridging Healthcare Proessionals and Society Perspectives, National Academy of Medical Sciences (NAMS, Department of CMFM, AIIMS Jodhpur, February 2024
7. Evidence-based screening strategies for major NCDs, International Course on Public Health Approaches to Non-Communicable Diseases (CCM, SPH PGIMER Chandigarh), World NCD federation, March 2024

RESEARCH

FUNDED PROJECTS

Ongoing

1. Screening for risk factors and precancerous lesions of head & neck and prostate cancers in the geographical areas near National Cancer Institute (NCI)-India, Dr Hari Krishna Raju Sagiraju, Bayer Pharmaceuticals Pvt Ltd, India, 5 years, 2022-2027, Rs 9.0 Cr
2. Assessment of Second-hand Tobacco smoke (SHS) exposure and evaluation of m-Health promotion strategy among attendants of cancer patients at a tertiary cancer hospital, Dr Jitendra Kumar Meena, AIIMS-Intramural, 2 years, 2020-ongoing, Rs 1.5 lacs
4. Oral Potentially Malignant Lesion Atlas Project: Validating the efficacy of a novel, Point-of-Care diagnostics and developing an integrated multidimensional prognostic nomogram, Dr Hari Krishna Raju Sagiraju, ICMR, 3years, 2023-2026, Rs 1.29 Cr
5. Assessment of breast cancer risk profile and factors implicit in differential incidence rates within rural and urban populations in India by developing a machine learning based risk prediction tool, Dr Jitendra Kumar Meena, ICMR, 3 years, 2023-2026, Rs 49.5 Lakhs
6. Life Course Approach to Women's Health: A sustainable strategy for effective cancer prevention in India, Dr Jitendra Kumar Meena, HEFA, Ministry of Education, Govt. of India, 3 years, 2024-2027, Rs 59.5 Lakhs

Completed

1. Cancer Awareness and Referral Engagement (CARE) program for medical- officers/Specialists in selected district hospitals of Haryana, Dr Hari Krishna Raju Sagiraju, Pfizer Global- Extramural, 18 months, 2022-2024, Rs 29.5 Lacs

Departmental projects (including thesis/dissertations)

Ongoing

1. PhD thesis: Multilevel study of factors determining Access to Breast cancer care among patients and their family members

COLLABORATIVE PROJECT

Ongoing

1. Hospital-Based Cancer Registry at National Cancer Institute (NCI), Jhajjar of AIIMS New Delhi, Department of Surgical Oncology, IRCH
2. To build the capacity of palliative care services in 10 hospitals in North India to reduce suffering in patients with chronic debilitating conditions, Department of Onco-Anaesthesia & Palliative Medicine
3. Generate Medical Imaging Datasets (MIDAS) for tobacco-induced oral lesions to enhance research in health in India, Department of Oral Pathology, CDER
4. Collaborative network of public institutions for early identification of Retinoblastoma and other ocular disorders presenting with leukocoria in children- An implementation model, Department of Ophthalmology, RP Center
5. Assessing determinants of continuation or relapse of tobacco consumption and the impact of integrated cessation interventions during radiotherapeutic treatment and follow-up of patients with head and neck Cancer, Department of Radiation Oncology, NCI

Completed

RESEARCH

Funded projects

Ongoing

1. Designing and implementation of health care model in patients with stage 2 breast cancer, Supriya Mallick, ICMR, 3 years, 2024-2027, Rs 1,80,00,000
2. Prophylacti c cranial radiation for patients with high risk triple negative breast cancer and correlation with pCTC and CSF CTC, Supriya Mallick, ICMR, 3 years, 2024-2027, Rs 60,00,000

Completed

1. Optimum radiation dose for palliation in head and neck Squamous cell carcinoma – A phase 3 randomized controlled trial (OpRaH), Supriya Mallick, ICMR, 3 years, 2021-2024, Rs 20,00,000
2. Phase II study of hypo-fractionated accelerated radiotherap y with concurrent and maintenance temozolomide in newly diagnosed IDHwt Anaplastic Astrocytom a (NCI-R 01-HyRAA), Supriya Mallick, AIIMS, 2 years, 2021-2023, Rs 5,00,000
3. Cervical cancer tumour micro-environmen t immune profiling and effect on early response to standard chemoradio therapy in Indian patients, Supriya Mallick, ICMR, 2 years, 2021-2023, Rs 5,00,000

Departmental projects (including thesis/dissertations)

Ongoing

1. A phase ii single arm study to evaluate the impact of stereotactic ablative radiotherapy to oligoprogressive/ oligorecurrent/ oligoresidual sites in patients with advanced breast cancer
2. The hypcon trial 2: a phase ii randomized study Evaluating hypofractionated versus conventional adjuvant concurrent chemo-radiation therapy in head and neck malignancies

Completed

1. Curative approach treatment with SABR in bone only oligometastatic breast cancer
2. Pattern of care and outcome in locally advanced non small cell lung cancer patients in northern india- radiation oncology perspective from a tertiary care centre
3. Comparison between hypofractionated whole breast irradiation vs accelerated partial breast irradiation in early stage breast carcinoma
4. Hypofractionated adjuvant radiation therapy in head and neck malignancies: a randomized phase ii study

Sanjay Kumar Meena Tej Pal Amit Gupta

Highlights:

Currently, our department comprises three assistant professors (1 regular faculty, 2 on contract post). We are getting active support and guidance from the senior Radiology faculty members from IRCH. We actively participate in the resident teaching program, taking classes and seminars for MD students. Additionally, we organize regular clinico-radiology meetings and disease management group discussions. We provide hands-on experience to senior residents in various non-vascular and vascular interventional procedures such as (TACE), gastrostomy, Vacuum Assisted Mammography Biopsies and MRI guided Breast Biopsies. Furthermore, we are involved in various multidisciplinary trials. Recently, our department has been established as the Department of Diagnostic and Interventional Onco-radiology, and in the near future, we will be offering DM course in Diagnostic and Interventional Onco-radiology.

Education:

- Total Senior Residents in department: 4 to 5 on rotation basis from main Radiology department.
- Providing hands-on experience to residents in various non-vascular and vascular interventional procedures and supervising them.
- Regular clinico-radiological meetings and disease management group discussions.
- Routinely taking classes and seminars for MD students.

Future Plan: To introduce DM course in Diagnostic and Interventional Onco-radiology.

Lectures delivered at CMEs, National and International conferences

Name of faculty member:

Amit Gupta

1. 'Performance of a locally-run context aware chatbot in adhering to ACR pediatric imaging guidelines: A comparative analysis with radiologists and generic large language models', Society of Pediatric Radiology (SPR) 2025, 10 April 2025, USA
2. 'AI in medicine: Present and Future', International Society for Heart Research (ISHR) Indian section 2025:, 22 March 2025, Chennai, India

RESEARCH

Funded projects:

Ongoing

1. A phase II Randomized controlled trial to test impact of two different dose levels of maintenance capecitabine on progression free survival in patients with persistent/recurrent/metastatic cervical cancer not progressing on platinum based chemotherapy, Dr Babita Kataria, Dr Sanjay Kumar Meena, AIIMS, New Delhi, 2 years, 2025-2027, Rs 10 lacs

Collaborative projects

Ongoing Projects:

1. Standardizing sequence of Adjuvant Radiation and Systemic therapy for breast cancer STARS A Phase III randomized controlled trial, Department of Radiation oncology, NCI
2. Metabolic imaging of Neoplastic Liver using 31P MRS, Department of NMR, AIIMS New Delhi
3. Genomic characterization of young onset lung adenocarcinoma in India (YOLA-I study). It has been selected as a recipient of the 2023 LCFA/BMS/IASLC Disparities in Clinical Research Grant, Department of Medical oncology
4. Radiological Pathological Correlation in Image Guided Breast Interventions, Department of Pathology and Surgical Oncology, IRCH
5. ICMR Extramural Small Grant: Acute and Long-Term Impact of Head and Neck Cancer Treatment on Autonomic Function, Department of Otorhinolaryngology and Head Neck Surgery, NCI

6. Impact of neoadjuvant chemotherapy on surgical decision and perioperative outcomes in patient with very advanced buccal cancers, Medical Oncology
7. Correlation of depth of invasion with lymph node metastasis in laryngeal and hypopharyngeal carcinoma, Department of Otorhinolaryngology and Head Neck Surgery, NCI
8. Predictors of clinical outcomes in Adenoid Cystic Carcinoma of Head and Neck: An Ambispective Analysis, Department of Otorhinolaryngology and Head Neck Surgery, NCI
9. Prospective Study On Sentinel Lymph Node Biopsy After Neoadjuvant Treatment of Breast Cancer Using Blue Dye Alone and Retrospective Analysis of Lymphedema Rates After Sentinel Lymph Node Biopsy and Axillary Lymph Node Dissection, Department of Surgical Oncology
10. Impact of sarcopenia on oncological outcomes in oral cavity squamous cell carcinoma patients undergoing surgery- An ambispective study, Department of Otorhinolaryngology and Head Neck Surgery, NCI
11. Comparison of Ga-68 PSMA and conventional staging in triple negative breast cancer (TNBC) patients, Department of Nuclear Medicine
12. A Phase 2 Open label Randomised Controlled Trial Comparing Modified TPF with Docetaxel-Platinum Regimen as Neoadjuvant Chemotherapy in Locally Advanced Resectable Oral Cavity Cancer, Department of Medical Oncology
13. Neoadjuvant chemotherapy using Lenvatinib in locally advanced differentiated thyroid cancer – A phase II open label study, Department of Otorhinolaryngology and Head Neck Surgery, NCI

Completed Projects:

1. IntraglandularBotulinum Toxin (BoNT) Injection for Postoperative Head and Neck Fistula Healing: An Open Label Randomized Controlled Trial, Department of Otorhinolaryngology and Head Neck Surgery, NCI

HIGHLIGHTS

Department of Surgical Oncology

During the year 2024–2025, the Department of Surgical Oncology made significant contributions in the domains of patient care, education, and research. The department expanded its surgical services at the National Cancer Institute (NCI), introducing advanced and complex oncological procedures as well as comprehensive diagnostic and therapeutic endoscopy services. Faculty members actively participated in cancer awareness, prevention, and registry activities in collaboration with government bodies and NGOs.

A total of **2, 564 complex major cancer surgeries** and **10,236 diagnostic, therapeutic endoscopic, and minor procedures** were performed during the year.

Key Activities and Steps Taken:

1. Successfully performed over 12,800 major and minor cancer surgeries across IRCH and NCI, maintaining morbidity and mortality rates at par with international benchmarks.
2. More than 45,000 OPD consultations.
3. Launched a special initiative to reduce waiting times for common cancer surgeries at AIIMS (IRCH and NCI).
4. Implemented the ERAS (Enhanced Recovery After Surgery) program to optimize hospital stay and resource utilization.
5. Initiated a Departmental Quality Control Program, including regular morbidity and mortality audits and quality metric assessments.
6. Established a structured computerized clinical database, enhancing data collection and research capabilities.
7. Assigned organ-specific databases to residents (M.Ch and non-academic SRs), with mentorship by faculty for research, conference presentations, and publications.
8. Started hybrid teaching programs to facilitate academic connectivity between IRCH and NCI campuses.

9. Initiated multiple RCTs and collaborative research projects with premier institutions such as IIT, ICMR, DBT, and IISc.
10. Organized several national and international academic events.
11. Achieved a high research output with over 50 publications in peer-reviewed high-impact journals and numerous international presentations.

Action Plan for 2025–26:

The department aims to further enhance patient care and academic excellence in the upcoming year through the following initiatives:

- Introduction of emerging surgical technologies including robotic surgery, navigational surgery, and intraoperative radiotherapy (IORT).
- Expansion of tele-oncology services to improve accessibility and continuity of care.
- Continued development of computerized clinical databases and fast-track surgery programs aligned with ERAS protocols.
- Launch of innovative, patient-centric research projects, particularly tailored to Indian cancer patient demographics.

Summary:

The year 2024–25 marked a milestone for the Department of Surgical Oncology, with the highest number of complex oncology procedures performed to date. Through a robust combination of clinical excellence, academic innovation, and research productivity, the department has set new standards in cancer care and remains committed to its mission of delivering world-class oncological services.

EDUCATION

a. Undergraduate teaching: The faculty was involved in undergraduate teaching by giving didactic lectures and by participating/ moderating seminars on oncological topics.

b. Post graduate teaching: The faculty was involved in teaching and training of 17 M.Ch surgical oncology students and 12 surgical oncology senior residents, DM medical oncology residents and MD radiotherapy junior residents by giving didactic lectures, moderating seminars, journal clubs etc. &clinical teaching during ward rounds and in special cancer clinics of IRCH. The faculty acted as guide and co-guide for M.Ch Surgical oncology, DM medical oncology, MD radio diagnosis, MD radiation oncology thesis projects and PhD projects from various dept. of BRA- IRCH & AIIMS. The faculty was also involved in teaching & training of general surgery &dental surgery residents and MCh Breast & Endocrine surgery trainees, M.Ch Gynecology Oncology trainees on rotation.

c. Para clinical teaching/training: The faculty was involved in the teaching of the MSc nursing oncology students.

CMEs/Workshops/Symposia/National and International Conferences

1. AIIMS Surgical Oncology Conclave (ASOCON 2024) - The Department of Surgical Oncology successfully organized AIIMS Surgical Oncology Conclave (ASOCON 2024) aimed at advanced surgical education of young surgeons. (Organising Chairman- Dr Sunil Kumar, Org Sec- Dr Naveen Kumar).
2. Senior resident wet lab minimally Invasive skill training program in Chennai
3. AIIMS Oncology Conclave at NCI

Lectures delivered at CMEs, National and International Conferences

Lectures delivered: 115

Sunil Kumar:: 10	**MD Ray: 17**	**Ashutosh Mishra: 50**
Sandeep Kumar Bhoriwal: 3	**Jyoti Sharma: 9**	**Naveen Kumar: 5**

Sunil Kumar

1. Care pathways in oral cancer, Care pathways in cancer. Punjab State Cancer Control Program, 19 April 2024, Chandigarh
2. Descriptive Research Group recommendations, ICMR NCI (AIIMS) Research priority conference, 7 May 2024, NCI, Jhajjar

3. Advances in Surgical Techniques for the Treatment of Lung Cancers, Homi Bhabha Cancer Conclave 2024, 24 August 2024, New Chandigarh, Punjab
4. Biomolecular research: the real test is when it reaches the last person on the ladder, 5th ICGA conference, 20 September 2024, NII, New Delhi
5. Central thoracic tumors and extended resections, NATCON 2024, 26 September 2024, Bengaluru
6. Similarities and differences in treating the thymic tumors between the East and the West, Asia Pacific Conference on Lung Cancer, 18 October 2024, Hong Kong
7. Lymphadenectomy for esophageal cancer: 3F vs 2F, GI-HPB Surgery: Cancer & Beyond, 29 November 2024, TMC, Kolkata
8. Minimally Invasive Esophagectomy: where we stand now, OFCON 2024-2025, 19 January 2025, Apollo hospital, New Delhi
9. N2 disease in lung cancer, IASO Midterm Conference 2025, 9 February 2025, Puri, Odisha
10. Sub-xiphoid thymectomy, IASO North Zonal Conference 2025, from 21-22 February 2025, AIIMS, Rishikesh

MD Ray

1. Decision making in colorectal surgery, AIIMS Colo-proctology Symposium: 2024, from 25-27 April 2024, AIIMS, New Delhi
2. Comprehensive Care of geriatric patients with multiple comorbidities: A Multi-disciplinary approach, 4th CME of Delhi State Chapter of IAPC Geriatric Palliative Care: Guiding light through life's transitions, 27 April 2024, AIIMS, New Delhi
3. Role of HIPEC in the treatment of Ovarian Cancer: Current Evidence & Future Perspectives, Bhabha Cancer Conclave 2024, from 24-25 August 2024, New Chandigarh, Punjab
4. Partial Penectomy and Groin Dissection: Anatomy, Steps and Video, CME in Surgery 2024 and Annual Day, 4 September 2024, AIIMS, New Delhi
5. Navigating Complexity in Peritoneal Cancer Management: Addressing Complications Through Case-Based Discussions, AIIMS Surgical Oncology Conclave (ASOCON 2024), from 6-7 September 2024, NCI, AIIMS, Jhajjar
6. presented 3 scientific papers: How HIPEC plays a role along with CRS in all settings of advanced Epithelial Ovarian Cancer: A pilot study on genetic point of view, 14th International Congress on Peritoneal Surface Malignancies: PGOSI-ISSPP 2024, from 26-28 September 2024, Lyon, France
7. presented 3 scientific papers: Role of CRS HIPEC in Carcinoma Ovary where we stand today- With our experience from a tertiary referral oncology centre, India, 14th International Congress on Peritoneal Surface Malignancies: PGOSI-ISSPP 2024, from 26-28 September 2024, Lyon, France
8. presented 3 scientific papers: Does Incisional hernia reducible in patients undergoing Cytoreductive Surgery and HIPEC: An observational clinical study from a tertiary oncology center, India, 14th International Congress on Peritoneal Surface Malignancies: PGOSI-ISSPP 2024, from 26-28 September 2024, Lyon, France
9. Peritoneal Mesothelioma: Current Management and Future Directions, CME 2024: Cancer and beyond, 29-30 November 2024, TMC, Kolkata
10. HIPEC - An evolving treatment approach for Peritoneal Surface Malignancies, ICA Webinar: HIPEC Symposium, 04 December 2024, Online
11. Yoga in Cancer Care: Scope, Evidence and Evolution, 11th International Conference, Kaivalyadhama Yoga Institute and Research Centre, from 4-7 December 2024, Lonavala, India
12. HIPEC in Colo-Rectal Malignancies, ONCOVISION 2025 – FUTURE ONCOLOGY, 19 January 2025, R&R hospital, New Delhi
13. Current Status of HIPEC in Colorectal Cancer, OFCON 2024-2025, 19 January 2025, Apollo hospital, New Delhi
14. Video Presentation – SUBDIAPHRAGMATIC PERITONECTOMY - How I do it? IASO Midterm Conference 2025, from 8-10 February 2025, Puri, Odisha
15. Role of HIPEC in Peritoneal Surface Malignancies, IASO North Zonal Conference 2025, from 21-22 February 2025, AIIMS, Rishikesh

16. Life Style Choices in Cancer Prevention, Cancer Screening & Awareness Camp, 16 March 2025, Mehrauli, New Delhi
17. Sentinel Lymph nodes gynaecological cancers: Current status and the way forward, Beyond the Blade: Advancements in Gynae-Oncology, 23 March 2025, Dwarka, New Delhi

Ashutosh Mishra

1. Role of IASO in Global South, SSO Global Partnership Leadership Summit Society of Surgical Oncology, SSO 2025, 26-29 March 2025, Tampa, Florida, USA
2. Panelist- How to avoid and manage complications, Breastanbul 2024, 10-12 October 2024, Istanbul, Turkiye
3. Chairperson & Judge- Award Paper session, Breastanbul 2024, 10-12 October 2024, Istanbul, Turkiye
4. Faculty & Speaker Breast Oncoplasty Workshop- Tips & Tricks, ABSICON 2024, - 12th Annual Conference of Association of Breast Surgeons of India, 2-4 August 2024, Lucknow
5. Speaker- Level 1 Breast Oncoplasty, ABSICON 2024, - 12th Annual Conference of Association of Breast Surgeons of India, 2-4 August 2024, Lucknow
6. Speaker- AI in Breast Cancer, ABSICON 2024, - 12th Annual Conference of Association of Breast Surgeons of India, 2-4 August 2024, Lucknow
7. Video Based Lecture- Autologous Complete Dermal Flap based Pre pectoral implant-based reconstruction, ABSICON 2024, - 12th Annual Conference of Association of Breast Surgeons of India, 2-4 August 2024, Lucknow
8. Chairperson- Management of Early Breast Cancer, ABSICON 2024, - 12th Annual Conference of Association of Breast Surgeons of India, 2-4 August 2024, Lucknow
9. Speaker- Total Peritoneal Peritonectomy- A Girl with Dancing Frock (Video-lecture, 37th Annual Conference of Indian Association of Surgical Oncology (NATCON) 2024, 26-29 September 2024, Bengaluru
10. Panelist- Role of Fluorescence in Cancer Surgery, 37th Annual Conference of Indian Association of Surgical Oncology (NATCON) 2024, 26-29 September 2024, Bengaluru
11. Panelist- Updates on Ca Esophagus management, 37th Annual Conference of Indian Association of Surgical Oncology (NATCON) 2024, 26-29 September 2024, Bengaluru
12. Chairperson- Recent Advances, Innovations, Start-ups, 37th Annual Conference of Indian Association of Surgical Oncology (NATCON) 2024, 26-29 September 2024, Bengaluru
13. Chairperson- Strengthening cancer care – role of cancer registry - Dr Prashanth Mathur (keynote lecture), 37th Annual Conference of Indian Association of Surgical Oncology (NATCON) 2024, 26-29 September 2024, Bengaluru
14. Chairperson- Intraoperative complications-robotic esophago-gastric surgery - Dr Arul Immanual (Keynote lecture, International Speaker), 37th Annual Conference of Indian Association of Surgical Oncology (NATCON) 2024, 26-29 September 2024, Bengaluru
15. Speaker- Integration of genomics in routine clinical Practice, 5th Indian Cancer Genomic Atlas Conference, 22 September 2024, Delhi
16. Speaker- Genetic testing & Risk Reducing Surgery- Indian Scenario, ABC of Breast Oncoplasty, Workshop & CME, 19-20 September 2024, IGMC, Shimla
17. Video Lecture- Grisotti Flap, ABC of Breast Oncoplasty, Workshop & CME, 19-20 September 2024, IGMC, Shimla
18. Moderator- Panel LABC, Workshop on Breast Cancer Awareness, 18 October 2024, AIIMS New Delhi
19. Speaker - Rotation Mastopexy, Oncoplastic Breast Surgery Training Workshop, 9-10 November 2024, Ahmedabad
20. Masterclass- SLNB, Oncoplastic Breast Surgery Training Workshop, 9-10 November 2024, Ahmedabad
21. Video lecture- ADM based Implant Recon, ASICON 2024, 84th Annual Conference of Association of Surgeons of India, 13-14 December 2024, Agra, UP
22. Video lecture- Implant based Breast recon, ASICON 2024, 84th Annual Conference of Association of Surgeons of India, 13-14 December 2024, Agra, UP
23. Panelist- locally Advanced Breast cancer, ASICON 2024, 84th Annual Conference of Association of Surgeons of India, 13-14 December 2024, Agra, UP

24. Moderator- Debate- Is BCS always an option in EBC, ASICON 2024, 84th Annual Conference of Association of Surgeons of India, 13-14 December 2024, Agra, UP
25. Chairperson- Panel- Melanoma, ASICON 2024, 84th Annual Conference of Association of Surgeons of India, 13-14 December 2024, Agra, UP
26. Lecture- Surgery in OMBC, Delhi Breast Oncology Group, 7 December 2024, Delhi
27. Video based lecture- Breast Implant, ASOCON 2024- AIIMS Surgical Oncology Conclave 2024, 8 September 2024, Delhi
28. speaker- Metastatic Neck nodes in thyroid cancer, ASI Time- Symposium - Online, September 2024, Delhi
29. Speaker- Surgical Prevention in Various cancers, CME- 6th CME of Indian Association of Palliative care & Oncology Nursing Association, September 2024, Delhi
30. Talk- Chest wall perforator transposition flaps - A new paradigm for Partial Breast Reconstruction, CME- AIIMS Bathinda "World Plastic Surgery Day", 15 July 2024, Bathinda, Punjab
31. Video Lecture- MICAP Flap- Tips and Tricks, Oncoplasty Breast Surgery Training Workshop Module 2, Kolkata, 1-2 February 2025, Kolkata
32. Speaker- Therapeutic Mammoplasty, Oncoplasty Breast Surgery Training Workshop Module 2, Kolkata, 1-2 February 2025, Kolkata
33. Panelist- Management in LABC, Oncoplasty Breast Surgery Training Workshop Module 2, Kolkata, 1-2 February 2025, Kolkata
34. Speaker- Axillary Surgery in 2024 in carcinoma breast: Finding the Balance Between Treatment and Overtreatment, IASO- MIDCON 2025, Puri, 8-10 February 2025, Puri
35. Speaker- Fluorescence Guided surgery In Oncology, IASO- MIDCON 2025, Puri, 8-10 February 2025, Puri
36. Chairperson- Oligometastatic colorectal Cancer, IASO- MIDCON 2025, Puri, 8-10 February 2025, Puri
37. Chairperson- 3-Field Esophagectomy: Striking the Balance Between Necessity and Overtreatment, IASO-MIDCON 2025, Puri, 8-10 February 2025, Puri
38. Speaker- Management of Axilla in Carcinoma Breast- Axillary Dissection, ASI- TIME, 5 February 2025, Webinar
39. Speaker- Fluorescence Imaging in Breast Reconstruction (Deep Dive), Specialized learning opportunity for Surgeons- Lapguru, 2 March 2025, Live Webinar
40. Keynote Lectures- Risk reducing surgery in breast cancer, ABSI-MIDCON 2025, Udaipur, 7-8 March 2025, Udaipur
41. Video Lecture- Implant ADM based breast reconstruction, ABSI-MIDCON 2025, Udaipur, 7-8 March 2025, Udaipur
42. Speaker- ICG in Gynaecological Cancer Management, OFCON 2025- Apollo Hospital, 18 January 2025, Delhi
43. Panelist: management of Penile Carcinoma, Uro-Oncology Update 2024, 23-24 November 2024, AIIMS Delhi
44. Panelist: Future of Breast cancer research in the Survivorship field, AOC 2025: Breast Cancer, 15-16 February 2025, NCI Jhajjar
45. Panelist: "Promoting Empathy and Understanding of Cancer to Reduce Its Impact ", World Cancer Day 2025, AIIMS New Delhi, 2025, Delhi
46. Panelist – From Progress to Practice: Harnessing best approaches in cervical cancer elimination in India, Empowering India towards a Cervical cancer free future, 17 November 2024, Online Webinar
47. Speaker- Management of Axilla SLNB, IASO Mastery of Surgery, 18 February 2025, Online webinar
48. Speaker- Familial & Hereditary Breast Cancer Research Network in India, AIIMS ONCOLOGY CONCLAVE, 2025, Breast Cancer, 15-16 February 2025, NCI Jhajjar
49. Panelist- Head and Neck Cancers in India, AIIMS ONCOLOGY CONCLAVE, 2025, Head and Neck Symposium, 15-16 February 2025, NCI Jhajjar
50. Panelist - "Setting Research Priorities for breast Cancer in India, CMR-NCI National Workshop on Cancer Research Priorities, 2024, May 2024, NCI Jhajjar

Sandeep Kumar Bhoriwal

1. Lapaeoscopic D3 Right Hemicolectomy, NZIASOCON, 21 February 2025, Rishikesh

2. Management of Her 2 Neu Breast cancer, ABSIMIDCON, 07 March 2025, Udaipur
3. Interactive Networking Session, AIIMS Oncology Conclave 2025, 16 March 2025, Jhajjhar

Jyoti Sharma

1. Talk: challenges on, Non extremity and Non abdomen Fibromatosis, Scientific Symposium on Desmoid Tumors, 14 July 2024, AIIMS Delhi
2. Talk: Breast Oncoplasty, CME in General surgery & Annual Day, 2 September 2024, AIIMS Delhi
3. Panelist: Oncoplasty in Breast cancer: How to choose, SELSICON 2024, 17 October 2024, AIIMS Delhi
4. Moderator: Soft tissue sarcoma, IASO, NATCON, 27 September 2023, Bengaluru
5. Panelist: management of Penile Carcinoma, Uro-Oncology Update 2024, 23-24 November 2024, AIIMS Delhi
6. Talk: challenges in ISR, OFCON 2024-2025, 18-19 January Apollo Hospital, Delhi
7. Master Video: SLNB in Indian Set up, IASO MIDCON 2025, 8 February 2025, Puri
8. Moderator: Future of Breast cancer research in the Survivorship field, AOC 2025: Breast Cancer, 15-16 February 2025, NCI Jhajjar
9. Moderator: Young breast cancer, ABSI MIDCON, 7-8 March 2025, Udaipur

Naveen Kumar

1. Navigating the Evolution of Esophagectomy for better patient outcomes – Tips and Tricks-, IASO, NATCON, 27 September 2023, Bengaluru
2. Uniportal surgery: Tips and trics, IASO, NATCON, 27 September 2023, Bengaluru
3. Fluorescence guided surgery, IASO MIDCON 2025, 8 February 2025, Puri
4. Uniportal Segmentectomy, IASO MIDCON 2025, 8 February 2025, Puri
5. Ligasure in Oncology, ABSI MIDCON, 7-8 March 2025, Udaipur

Babul Bansal

1. Panellist: “Navigating Complexity in Peritoneal Cancer Management: Addressing Complications”, ASOCON 2024, NCI Jhajjar, 2024, INDIA
2. Oral Presentation: “Soft Tissue Sarcoma of the Extremities”, Surgery Update 2024, MAMC New Delhi, 2024, INDIA
3. Panellist: “Case-Based Scenario in Palliative Care”, NATCON IASO 2024, Bengaluru, 2024, INDIA
4. Chairperson: Session on Head and Neck Cancer, OFCON 2024, New Delhi, 2024, INDIA
5. Panellist: “Encouraging Healthcare Systems to Provide Personalized Care”, World Cancer Day 2025, AIIMS New Delhi, 2025, INDIA
6. Debate Speaker: “HIPEC vs No HIPEC in Gastric Cancer”, IASO MIDCON 2025, Puri Odisha, 2025, INDIA
7. Oral Presentation: “Continuous Intraoperative Nerve Monitoring”, Workshop on Intraoperative Nerve Monitoring, Max Saket, 2025, INDIA
8. Oral Presentation: “Role of HIPEC in Ovarian Cancer”, ONCO-PULSE 2025, New Delhi, 2025, INDIA
9. Moderator: “Surgical Anatomy for Neck Dissection”, Oncology Forum Academy, Dharamshila Hospital, 2025, INDIA
10. Moderator: “NIFTP” and “Management of Dedifferentiated and Anaplastic Thyroid Cancer”, Oncology Forum Academy, Max Vaishali, 2025, INDIA

Jyoutishman Saikia

1. Panel Discussion-Breast Oncology, ASOCON, NCI AIIMS Jhajjar, 6-7 September 2024, NCI Jhajjar, Haryana
2. Moderator- Case Discussion (Journal Club presentation), NASO Conference, BBCI Guwahati, 19 October 2024, Guwahati, Assam
3. Speaker: Deescalation of axillary surgery in Breast cancer, NASOCON, SCI Guwahati, 7-8 December 2024, Guwahati Assam

4. Panel Discussion: Case based (LABC, Oligometastatic setting), IASO MIDCON, 8-10 February 2024, Puri, Odisha
5. Speaker: Chest wall perforator flaps in partial breast reconstruction -Indications and outcomes, IASONZCON 2025, 21-22 February 2025, Rishikesh, Uttarakhand
6. Panel Discussion: Case based discussion on young breast cancer, ABSI MIDCON, 7-8 March 2025, Udaipur, Rajasthan

Amitabha Mandal

1. Panel discussion - Managing Hepatobilliary Surgical Complications, ASOCON 2024 AIIMS Surgical Oncology Conclave, 6-7 September 2024, New Delhi
2. Video lecture – VATS esophagectomy, CME 2024 GI-HPB Surgery, 29-30 November 2024, Kolkata
3. Panel discussion – Locally advanced gall bladder cancer, IASO MIDCON 2025, 8-10 February 2025, Puri, Odisha
4. Lecture – Local flap in Head & Neck, IASONZCON 2025, 21-22 February 2025, Rishikesh
5. Panel moderation – Recent advances in colorectal PSM, IASONZCON 2025, 21-22 February 2025, Rishikesh

30. Bittu Bhukkal, Dr SVS Deo, Dr Sunil Kumar, Dr Sandeep, Dr Manish and Dr Madiwalesh, Oral Presentation: Lymph Node Dissection in Malignancies of Oral Cavity – Are Current Guidelines Optimal? An Analysis of 1926 Cervical Lymph Node Dissections, MAX CANCER CONGRESS:2023, 29 April to April 2023, Delhi

31. Bittu Bhukkal, Dr SVS Deo, Dr Sunil, Dr Sandeep, Dr Naveen, Dr Amitabaha and Dr Chandan, Oral Presentation: Demographic profile, surgical outcome, recurrence pattern, and long-term survival of 123 Gastroesophageal junction tumors from a tertiary cancer care center in North India, 6th OFCON: 2023, 2-3 December:2023, Delhi
32. Bittu Bhukkal, Dr SVS Deo, Dr Sunil Dr Naveen and Dr Amitabaha, Poster Presentation: D2 lymphadenectomy in 199 patients for gastric cancer; A study of feasibility, morbidity, mortality, recurrence pattern and survival, 6th OFCON: 2023, 2-3 December:2023, Delhi
33. Bittu Bhukkal and Prof Dr. MD Ray, e-Poster Presentation: Role Of RPLND in Advanced Ovarian Cancer, 37th NATCON: 2024, 26-29 September 2024, Bengaluru
34. Bittu Bhukkal, Prof Dr SVS Deo, Oral Presentation: Innovative Diagnostics: Assessing Fluorescence Dye and spectroscopy in oral cancer: A Pilot Study, 37th NATCON: 2024, 26-29 September 2024, Bengaluru

List of oral papers/posters presented: 13

1. UICC Technical Fellowship Award 2024, Geneva, Ashutosh Mishra, Breast Cancer surgery focusing on Partial and Whole breast reconstruction. NHS, UK
2. FARIS 2023- Third rank in Fellowship exam, Ashutosh Mishra, Fellow – Association of Robotic and Innovative surgeons of India, India
3. ISDS Kitajima Prize session. (Best 4 Abstracts) International Surgical week (ISW 2024) 50th World Congress of the International Society of Surgery ISS/SIC, Kuala Lumpur, Malaysia, Ashutosh Mishra Sunil Kumar, "Is Incidental gall bladder cancer in endemic region truly incidental? Long- term oncological outcomes of Incidental gall bladder cancer patients following curative resection" titled oral paper presentation, Kuala Lumpur, Malaysia
4. Surg Onc Bowl Competition Runner up, Ashutosh Mishra, SSO 2025, Tampa, Florida
5. IASO -ESSO Fellowship award, Chinmay Bagla, Ashutosh Mishra, Current Landscape and Challenges of Breast Cancer Genetics at a Tertiary Care Centre in India, NATCON, Bangalore, September 2024
6. Best poster award, Chinmay Bagla, Ashutosh Mishra, SVS Deo, Sandeep Bhoriwal, Jyoti Sharma, Scope of post NACT SLNB in LABC in Indian patients. Will it de-escalate ALNDs? Analysis of 1998 Indian breast cancer patients, ABSI, Lucknow, 2024
7. Best Poster Presentation, Meenu Rani Prof MD Ray, Role of CRS + HIPEC in ca ovary where we stand today – with our experience from tertiary refwrral oncology centre, India, ASOCON 2024
8. Oral Presentation, 4th prize, Meenu Rani Prof M D Ray, Role of CRS + HIPEC in ca ovary where we stand today – with our experience from tertiary refwrral oncology centre, India, OFCON 2025, 18-19 January Apollo Hospitals, New Delhi
9. Poster Presentation, Meenu Rani Sandeep Bhoriwal, Shivani Kapila, Gurpreet Singh, Amit Kumar, Sunil Kumar, Comparative analysis of Open Vs Minimally invasive surgery in esophagectomy patients, OFCON 2025, 18-19 January Apollo Hospitals, New Delhi
10. Best Oral Presentation, Meenu Rani Jyoti Sharma, SVS Deo, Sunil Kumar, Jyoutishman Saikia, Sandeep Bhoriwal, Ashutosh Mishra, Pulmonary Metastasis in patients with soft tissue sarcoma – Tailoring the Treatment, MIDCON 2025, 8-10 February, Puri
11. Best Oral Presentation, Meenu Rani, Jyoti Sharma, SVS Deo, Sunil Kumar, Jyoutishman Saikia, Sandeep Bhoriwal, Ashutosh Mishra, A decade of follow up of ypung NSCLC Patients in india.Is it time to rinf alarm ? MIDCON 2025, 8-10 February, Puri
12. Best Paper Award, Dr Bittu Bhukkal, Dr SVS Deo, Dr Sunil, Dr Sandeep, Dr Naveen, Dr Amitabaha and Dr Chandan, Oral Presentation: Demographic profile, surgical outcome, recurrence pattern, and long-term survival of 123 Gastroesophageal junction tumors from a tertiary cancer care center in North India, 6th OFCON: 2023
13. Best Paper Award, Dr Bittu Bhukkal, Prof Dr SVS Deo, Oral Presentation: Innovative Diagnostics: Assessing Fluorescence Dye and spectroscopy in oral cancer: A Pilot Study, 37th NATCON:2024

ORAL/POSTER PRESENTATIONS OVER LAST THREE YEARS

Presentation	2021–2022	2022–2023	2023-2024	2024-2025
Oral/poster	26	54	50	40

Research

Funded

Ongoing

1. A randomized trial comparing neoadjuvant chemotherapy vs upfront surgery and adjuvant chemotherapy for gastric cancer, Dr Sunil Kumar, ICMR, 3 years, 2023-2026, Rs 3 Lakhs
2. Cognitive computing approach based analysis of genomic information in blood plasma for diagnosis and prognostic for cancer, Dr Sunil Kumar, iHub Anubhuti-IIITD, 3 years, 2023-2026, Rs 10.05 Lakhs
3. Design and development of bio-active patient-specific mandible implants for cancer patients, Dr Sunil Kumar, DBT, 18 months, 2024-2026, Rs 12 Lakhs
4. Evaluation of cell free DNA in early detection of pleural spread and assessment of minimal residual disease in plasma among non-small cell lung cancer patients undergoing curative surgical resection, Dr Jyoutishman Saikia, AIIMS Intramural interdepartmental project, 2 years, 2025-2027, Rs 20 Lakhs
5. Hospital Based Cancer Registry, Dr Sunil Kumar, ICMR NCDIR, On yearly renewal basis, 2024-2025, Rs 30 Lakhs
6. Pattern of Recurrence and Clinico-Molecular correlation in Relapsed Epithelial Ovarian Cancer patients undergoing Secondary CRS+ HIPEC, Prof M D Ray, ICMR DHR, 3 years, 2023-2026, Rs 35.68 Lakhs
7. Population Based Cancer Registry in India, Dr Sunil Kumar, ICMR NCDIR, 3 years, 2024-2027, Rs 34 Lakhs
8. Pre operative prediction of ideal volume of surgical resection in breast conservation surgery post neoadjuvant systemic therapy (PREVOL-BCS) using clinical, imaging, histological information and multidimentional analysis among surgically treated breast cancer patients: A pilot study, Dr Jyoutishman Saikia, AIIMS Intramural, 2 years, 2025-2027, Rs 10 Lakhs
9. Study on imaging parameters and metabolomic profiling in breast cancer, Dr Jyoti Sharma, AIIMS, 2 years, 2024-2026, Rs 15 Lakhs

Completed

1. Clinical significance of cell-free DNA in intraoperative pleural lavage fluid and plasma in patients undergoing pulmonary metastasectomy, Sunil Kumar, AIIMS Intramural, 2 years, 2017-2019, Rs 10 Lakhs
2. Evaluation of peri-operative efficacy of Divya-Cystogrit-Diamond capsules as Immunonutrient in patients with Advanced Ovarian Cancer undergoing Cytoreductive Surgery and HIPEC: A Double-blind Randomized Placebo-controlled Pilot study, Prof M D Ray, Patanjali Research Institute, Haridwar, 2 years, 2023-2025, Rs 5.39 Lakhs
3. Gut microbiome dysbiosis in pathogenesis of CRC, Dr Jyoti Sharma, AIIMS, 2 years, 2022-2024, Rs 10 Lakhs
4. Patterns of Care and survival Studies (POCSS) on Gall bladder Cancer (GBC) in Hospital Based Cancer Registries, Dr Sunil Kumar, ICMR NCDIR, 4 years, 2020-2024, Rs 13.75 Lakhs
5. Role of circulating tumour DNA (Ct-DNA) as a surrogate marker in ovarian cancer – A pilot study, Dr Ashutosh Mishra, AIIMS, 2 years, 2021-2024, Rs 10 Lakhs

Departmental projects

Ongoing

1. A comparative prospective clinical observational study in HIPEC vs NIPAC in the management of advanced epithelial ovarian cancer.
2. A Phase II Randomised controlled trial to evaluate the role of oral metronomic chemotherapy followed by surgery vs upfront surgery in patients with operable squamous cell carcinoma of oral cavity
3. A phase II RCT comparing PMMC flap outcomes using conventional and ICG techniques in oral cancer
4. A prospective observational comparative study on effects of prophylactic HIPEC in locally advanced colon cancer
5. A prospective observational comparative study on effects of prophylactic HIPEC in locally advanced colon cancer
6. An open-label, parallel-group randomized controlled trial comparing post-mastectomy prepectoral and subpectoral implant based breast reconstruction in breast cancer patients
7. An open-label, parallel-group randomized controlled trial comparing post-mastectomy pre-pectoral and subpectoral implant-based breast reconstruction in breast cancer patients.

8. Bedside ultrasound to estimate and compare gastric volumes in patients of gynaecological malignancies with other non-gastrointestinal, non-pelvic malignancies – A prospective observational study
9. Comparison of efficacy between chemotherapy and neoadjuvant long course chemotherapy and radiotherapy in rectal adenocarcinoma: a randomised control study
10. Comparison of outcome between Ivor Lewis and Mc Keown's esophagectomy in SCC in lower esophageal cancer – a randomized pilot study
11. Comparison of Outcome of Mckeown verses Ivor Lewis Esophagectomy in Squamous Cell Carcinoma of Lower Esophagus: A Pilot Randomised Control Study
12. Comparison of pet-ct and endobronchial ultrasound with surgical histopathology for mediastinal nodal staging of non-small cell lung cancer in patients undergoing surgery
13. Cytoreductive Surgery and Hipec In Relapsed Epithelial Ovarian Cancer - A Phase Iii Randomised Control Trial And Descriptive Study To Evaluate Effect Of Hipec In Hrd/Brcawt Genomic Profile
14. Feasibility and Accuracy of SLNB In Primary Epithelial Ovarian Cancer (PEOC) (FIGO Stage I-III)- A Prospective Pilot Study And Retrospective analysis to evaluate the prognostic and predictive significance of Ki-67 and p53 in treated primary advanced epithelial ovarian cancer.
15. Feasibility and Accuracy of SLNB In Radiologically Node Negative Primary Epithelial Ovarian Cancer (PEOC) (FIGO Stage I-III)- A Prospective Pilot Study
16. Fluorescence-guided surgery using near-infrared imaging for detection of peritoneal metastasis in patients undergoing cytoreductive surgery in epithelial ovarian cancer – a feasibility study
17. Neoadjuvant FOLFIRINOX vs Long Coure chemoradiotherapy in non-metastatic resectable carcinoma rectum – a RCT
18. Neoadjuvant Short Course Radiotherapy in Combination with Chemotherapy for Squamous Cell Carcinoma of Esophagus: A Single Arm Phase II Pilot Study
19. Neoadjuvant short course radiotherapy in combination with chemotherapy for squamous cell carcinoma of Esophagus: A single arm phase II pilot study
20. Prospective study on sentinel lymph node biopsy after neoadjuvant treatment of breast cancer using blue dye alone And Retrospective analysis of lymphedema rates after sentinel lymph node biopsy and axillary lymph node dissection
21. Role of circulating tumour DNA (Ct-DNA) as a surrogate marker in ovarian cancer – A pilot study.

Completed

1. A Phase II Randomised controlled trial comparing pectoralis major myocutaneous flap using conventional and Indocyanine green angiography technique in oral cancer
2. A Phase II Randomised controlled trial comparing pulmonary complications in retrosternal vs posterior mediastinal gastric conduit placement in patients undergoing Esophagectomy
3. A pilot study to assess role of preoperative chemoradiotherapy in locally advanced / recurrent extremity soft tissue sarcoma & audit of soft tissue sarcoma database.
4. A Prospective study on microbiome dynamics and gut dysbiosis in early onset colorectal cancer patients and A prospective study on critical anatomical evaluation of sphincter complex in low and mid rectal cancer patients
5. A study evaluating MIS for of colorectal cancer patients and learning basic laboratory techniques of molecular biology for miRNA extraction in colon and rectal cancer patients
6. Ambispective study comparing perioperative outcomes between Hyperthermic Intraperitoneal Chemotherapy (HIPEC) and Early Postoperative Intraperitoneal Chemotherapy (EPIC) with audit and analysis of Peritoneal Surface Malignancy Database
7. Ambispective study comparing perioperative outcomes between Hyperthermic Intraperitoneal Chemotherapy (HIPEC) and Early Postoperative Intraperitoneal Chemotherapy (EPIC) with audit and analysis of peritoneal surface malignancy database.
8. Comparison of efficacy between neoadjuvant chemotherapy and neoadjuvant concurrent chemoradiation in squamous cell carcinoma esophagus: A Pilot Randomised Control Study
9. Evaluation of cell free DNA in early detection of pleural spread and assessment of minimal residual disease in plasma among non-small cell lung cancer patients undergoing curative surgical resection

10. Feasibility and Accuracy of SLNB In Radiologically Node Negative Primary Advanced Epithelial Ovarian Cancer (PAEOC) (FIGO Stage II-III)- A Prospective Pilot Study And Retrospective analysis to evaluate the prognostic and predictive significance of Ki-67 and p53 in treated primary advanced epithelial ovarian cancer.
11. Feasibility study of indocyanine green fluorescence dye for intraoperative assessment of gastric or colonic conduit perfusion in oesophageal cancer surgeries – a prospective validation studyand update and analysis of hepatobiliary and pancreatic cancer database
12. Functional recovery and return to work after Thoracic surgery in patients with Malignant thoracic Diseases: A Prospective study
13. Nomogram for predicting health related quality of life in esophageal cancer patients after esophagectomy
14. Pilot study to evaluate the role of Toluidine Blue Dye and Narrow Band Imaging for assessment of malignant and potentially malignant disorders in oral cavity and update and analysis of Oral Cancer Database
15. Prospective study of in person versus online cancer genetic counseling And Ambispective evaluation of patients undergoing risk reducing surgery.
16. Prospective study on the expression of cancer-testis antigen (CT45) in the patients of advanced epithelial ovarian cancer undergoing Hyperthermic Intraperitoneal Chemotherapy and its correlation with response to platinum based chemotherapy
17. The feasibility of implementation and compliance of "enhanced recovery after surgery (ERAS)" protocol in cytoreductive surgery (CRS) with Hyperthermic intraperitoneal chemotherapy (HIPEC) at a tertiary care centre - a prospective cohort study and audit and analysis of ovarian cancer database.
18. The prevalence of BRCAness related somatic mutations in uterine leiomyosarcoma

Collaborative projects

Ongoing

1. A single arm phase II study of single agent Pemetrexed in Platinum Resistant/Refractory Epithelial Ovarian or Primary Peritoneal Cancer, Department of Medical Oncology, Dr BRA IRCH, AIIMS, New Delhi
2. An integrated metabolomics and lipidomics approach for identifying biomarkers for early diagnosis and histological subtyping of the Non-small cell lung cancer, Department of NMR, AIIMS New Delhi
3. Artificial intelligence in Oncology: Harnessing big data and advanced computing to provide personalised diagnosis and treatment for Cancer patients, Department of Bio-Chemistry. AIIMS, New Delhi
4. "Building Biobanks, Identifying Biomarkers, Determining Metabolic Targets, and Developing Therapeutic Platforms for the Management of Colon Cancer in India through Precision Medicine", Regional Center for Biotechnology, Faridabad
5. Building Biobanks, Identifying Biomarkers, Determining Metabolic Targets, and Developing Therapeutic Platforms for the Management of Colorectal (CRC) Cancer in India through Precision Medicine, Regional Centre For Biotechnology, Faridabad
6. CAPE-CERV Trial – Capecitabine Maintenance in Metastatic Cervical Cancer, Medical Oncology
7. Clinical profile and outcomes in patients with carcinoma penis and evaluation of Health-related quality of life (HRQoL) in survivors, Department of Medical Oncology, AIIMS, New Delhi
8. DBT NCI-AIIMS Translational Cancer Research Centre (Phase-1), Biochemistry
9. Developing DdpMPyPEPhU as a breast cancer using AI-guided enumeration-based optimisation, synthesis and preclinical evaluation in PDX model multitargeted drug for, ICMR
10. Development of microRNA-based biomarkers for ovarian cancer, Department of Reproductive Biology, AIIMS, New Delhi
11. Elucidating the therapeutic role of docetaxel-loaded-HSP70 peptide complex in PDX Mouse Model, ICMR
12. Establishing a registry and germline repository of breast and ovarian cancers with hereditary predisposition, Department of Medical Oncology, AIIMS, New Delhi
13. Establishment of Registry and Germline DNA Repository for Breast and Ovarian Cancers with Hereditary Predisposition at AIIMS, New Delhi, Medical Oncology
14. Evaluation of low dose Nivolumab with neoadjuvant chemotherapy in non-small cell lung cancer: A phase II open label randomised clinical trial (ELON, Department of Medical Oncology, AIIMS, New Delhi

15. Exploring the Efficacy of Intermittent Fasting with Time-Restricted Eating (TRE) on Survival in Gynecological Cancers, Medical Oncology
16. Finding novel diagnostic and prognostic biomarkers in ovarian cancer, Department of Lab Oncology, Dr BRA IRCH, AIIMS, New Delhi
17. Histopthological, immunohistochemical and molecular study of appendiceal epithelial neoplasms, Department of Pathology, AIIMS New Delhi
18. Homologous Recombination Deficiency in Carcinoma Ovary – Analysis of Real-World Data, Medical Oncology
19. Implementation study to improve survival in stage II Breast cancer, ICMR
20. Molecular Mechanism of Cancer-Testis/Germline Antigen POTEB/B2 in Ovarian Cancer, Biochemistry
21. Oral Metronomic Therapy (OMT) vs Physician's Choice Chemotherapy in Platinum-Resistant Advanced Ovarian Cancer, Medical Oncology
22. Phase -II proposal submitted entitled "Design and development of bio-active patient-specific mandible implants for cancer patients, Department of Mechanical Engineering Indian Institute of Technology, Delhi
23. PLANET Trial, Medical Oncology
24. Post-operative intraperitoneal chemotherapy after interval cytoreduction in epithelial ovarian cancer (POICE 2024): multicenter, randomized, phase III trial, Department of Medical Oncology, JIPMER, Puducherry
25. Preoperative Prediction of Ideal Volume of Surgical Resection in Breast Conserving Surgery (PREVOL-BCS),
26. Retrospective analysis to study clinico-pathological aspects of Adrenocortical carcinoma and their outcome in Indian patients as tertiary cancer centre, Department of Medical Oncology, AIIMS, New Delhi
27. Role of R2Tp Complex in Thyroid Cancer, Biochemistry
28. Role of Tel2 in Thyroid Cancer, Biochemistry
29. To determine the role of differentially expressed micro-RNAS and their protein targets present in the tumour site of pancreatic cancer patients, Department of Biotechnology, AIIMS New Delhi
30. Tumor Immune Microenvironment of Follicular Cell-Derived Thyroid Carcinomas, Pathology
31. Utilizing comprehensive genomic and immune profiling in gynaecological adenocarcinomas for developing pragmatic management strategies, Department of Pathology, AIIMS, New Delhi

Completed

1. A Phase II randomized controlled trial to evaluate the role of oral metronomic chemotherapy followed by surgery vs upfront surgery in patients with operable squamous cell carcinoma of oral cavity and a descriptive study to determine the role of p53 as a biomarker to predict chemotherapeutic response for oral metronomic therapy with analysis of oral cavity cancer patient database, Department of Surgical Oncology, AIIMS, New Delhi
2. Assessment of cell free DNAS (cf-DNA) as a biomarker in common gastrointestinal track cancers, Department of Medical Oncology, Dr BRA IRCH, AIIMS, New Delhi
3. Comparison of analgesic efficacy of Ultrasound guided thoracic Paravertebral block versus surgeon guided Serratus Anterior Plane block for acute postoperative pain in patients undergoing thoracotomy for lung surgery-A prospective randomized study, Department of Onco-Anesthesia
4. Immunotherapeutic potential of novel Prostate Ovary Testis Embryo (POTE) Antigen in Ovarian Cancer, Department of Bio-Chemistry. AIIMS, New Delhi
5. Outcomes of Metastatic Colorectal cancers over 15 years- experience from tertiary care centre, Department of Medical Oncology
6. Role of Cancer Testis Antigen gene (CT45) as a diagnostic and prognostic biomarker in Primary Ovarian Cancer, Lab Oncology Unit, Dr BRA IRCH, AIIMS, New Delhi
7. The prevalence of BRCAness related somatic mutations in uterine leiomyosarcoma, Department of Medical Oncology, Dr BRA IRCH, AIIMS, New Delhi

PATIENT CARE

Facilities available in the Department:

1. Inpatient Beds 45 (BRA-IRCH) & 64 (NCI)
2. Major Operation theaters – 4 (IRCH) & 3 (NCI)
3. Endoscopy and Minor OT Complex – 1 each at IRCH and NCI
4. MDT Organ Based Special Clinics and OPDs (10 each at IRCH and NCI).

Special Advanced Oncology Programs

1. Robotic Surgery Program
2. Oncoplasty and Reconstructive Oncology program
3. Thoracic oncology clinic
4. Hepato-biliary and pancreatic clinic
5. Peritoneal Surface Malignancy & HIPEC program.
6. Minimally Invasive Surgical Oncology Program
7. Cancer Genetics and Risk reducing Surgery Program
8. Palliative Surgical Oncology Program

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Dr Ashutosh Mishra elected as National Representative – EYSAC European Society of Surgical oncology. Appointed as Member Scientific Committee- Society of Surgical Oncology, USA. elected as Editorial Secretary, Indian Association of Surgical Oncology (2024-2025). Elected as Digital Secretary, Indian Association of Surgical Oncology (2024-2025).

Elected as Director of Education, Association of Breast Surgeons of India. Elected as Treasurer and UICC Coordinator, Oncology Forum, Delhi. Elected as Board of Directors- Breastics 24. Participated as invited guest in SSO Global partners Leaders Summit, Tampa, Florida.

Dr Jyoti Sharma invited as Section Editor in Indian Journal of Surgical Oncology. Organizing secretary of AIIMS Oncology Conclave, NCI held on February 15-16 2025 at NCI

Dr Jyoutishman Saikia- Organizing Committee, ASOCON 2024 AIIMS Surgical Oncology Conclave, 6-7 September 2024. Organizing Committee, AOC 2025 – AIIMS Oncology Conclave, 15-16 February 2025, New Delhi.

Dr Naveen Kumar - Fellow of American college of surgeon(FACS). Fellowship in robotic and innovative surgery(FARIS). Elected as Executive member, Delhi oncology Forum. Elected as Executive member, Communication Committee.

Dr Babul Bansal elected as Executive member, Delhi oncology Forum.

Community Service

Dr Sunil Kumar is providing free cancer care services and student awareness for Cancer in Bihar & Jharkhand through an NGO, Chandrakanti Devi Cancer Foundation.

Transfusion Medicine, NCI, Jhajjar

Associate Professor

Diptiranjan Rout

HIGHLIGHTS

The centre is committed to promoting voluntary blood donations to ensure safe blood for all. Over the past year, the centre has conducted 336 outdoor voluntary blood donation drives with an average of 47+ voluntary blood donations per day, rendering replacement donation free transfusion services at NCI for all the cancer patients. To encourage the community support for fostering our commitment, the centre felicitated 7 of our esteemed

voluntary blood donor organisers on the 6th NCI Foundation Day on 12 February 2025.

EDUCATION

1. Postgraduate teaching for MD (Transfusion Medicine) students.
2. Diptiranjan Rout
    1. Automation – A vehicle to enhance quality in component production? 12th Transmedcon 2024, 27-29 September 2024, Chennai

PATIENT CARE

Facilities available in the department (including special clinics and/or special laboratory facilities) The centre provides round-the-clock transfusion services to all the patients with leukoreduced blood components as a standard of care. Following are the routine facilities available at the centre:

1. Walk-in voluntary donation facility.
2. Mobile Blood donation van for outdoor donation drives.
3. 24x7 blood component issue facility.
4. Automated Blood Component Separation facility.
5. Automated Immunohaematology by serology and advanced molecular techniques.
6. Automated Infection screening facility by serology and molecular techniques.
7. Quality control facility for blood components.
8. Walk-in Cold storage facility (4°C and -30°C) for blood components.
9. Irradiation facility (100% irradiated platelets and need based irradiated cellular products). 10. Clinically significant rare blood group antigen typing facility.

Community services/camps, etc.

The centre is driven forward with thmission to ensure "Safe Blood For All". The centre conducts numerous voluntary donation drives in collaboration with various local organisation and social workers to collect blood units through voluntary activities. The last few years have witnessed a surge in the number of such drives, thus, facilitating better and safer transfusion services to all the cancer patients in NCI.

HIGHLIGHTS

The Urology Department at the NCI Jhajjar campus offers comprehensive cancer care for patients with genitourinary malignancies. The department currently comprises two faculty members and operates two outpatient clinics every week (Wednesdays and Fridays). Additionally, two dedicated uro-oncology operating theatres are functional each week. The department has significantly expanded its clinical capabilities by successfully performing several advanced procedures, including the first radical nephrectomy with IVC thrombectomy, laparoscopic radical cystectomy with urinary diversion, and sentinel lymph node dissection using dual dyes (fluorescent and methylene blue) for renal cell carcinoma, muscle-invasive bladder cancer, and penile cancer, respectively.

EDUCATION

The faculty members of the department actively participated in Continuing Medical Education programs, symposia, national and international conferences throughout the year, where they delivered lectures and shared their expertise. In addition, the faculty conducted lectures for undergraduate and nursing students (BSc and MSc). M.Ch (19 students) and fellowship trainees (3 fellows) from the main department at AIIMS, New Delhi, were posted at the NCI Jhajjar campus on a monthly rotational basis, where they received hands-on training in various aspects of uro-oncology. The M.Ch students and Fellows actively participated in group discussions conducted via Google Classroom cloud-based platform, where various nuances of uro-oncological procedures, urological cancer guideline updates, and recent clinical trials were regularly discussed.

HIGHLIGHTS

The department provides comprehensive nephrology services, including cost-effective renal transplantation. ABO-incompatible transplants are routinely performed. Transplant recipients receive free immunosuppressive drug level monitoring and infection surveillance. Around-the-clock haemodialysis is offered at nominal rates and is free for patients below the poverty line. Bedside dialysis is available across hospital departments, including the Trauma Centre and other AIIMS blocks.

A renal bio-repository is maintained to support research in primary glomerular diseases and chronic kidney disease. Faculty members contribute actively to national policy-making on CKD, dialysis, and transplantation. The department also runs an interventional nephrology program focused on vascular and peritoneal access, and is recognized by the International Society of Nephrology as a training center for nephrology fellows.

The department hosted the annual Delhi Nephrology Society update at the JNU Auditorium, AIIMS, drawing wide participation from nephrologists and trainees across Delhi NCR, along with distinguished national and international faculty. It also co-organized the AIIMS Mayo Clinic Update in Kidney Disease & Transplant with the Mayo Clinic College of Medicine, which received broad acclaim from faculty nationwide. We organized the inaugural AIIMS Interventional Nephrology Workshop on 28–29 September 2025, which saw enthusiastic participation from nephrologists across India.

EDUCATION

Long-term training

The department administers the DM Nephrology program, a three-year degree course designed for post MD/DNB (Medicine and Pediatric) candidates. Selection for this program is based on merit through the All India Entrance Examination conducted by AIIMS. The department also organizes examinations for other AIIMS-like institutions including interviews for entrance examination. Nine candidates were enrolled in the DM Nephrology course at AIIMS, New Delhi during this period. Additionally, residents from the departments of pediatric nephrology and pathology frequently participate in training courses in Nephropathology. Each semester, the department accommodates two to three non-academic junior residents for a maximum duration of 6 months each.

Short-term training

The department is providing short-term training for following:

1. Postgraduates from the department of Internal Medicine, Geriatric Medicine, Emergency Medicine, Urology, Anesthesia, Infectious disease, Critical Care Medicine & Transfusion Medicine are posted on rotational basis for a variable period of few weeks to few months.
2. Our center has been selected as International Intervention Nephrology Center by the International Society of Nephrology. We have trained nephrologists from Nigeria and Burma under this program.

CMEs/Workshops/Symposia/National and International Conferences

- The department organized the annual Delhi Nephrology Society Update at the JNU Auditorium, AIIMS on 7th April 2024, which witnessed strong participation from nephrologists and trainees across Delhi NCR, along with eminent national and international faculty.

- We organized the inaugural AIIMS Interventional Nephrology Workshop on 28–29 September 2025, which saw enthusiastic participation from nephrologists across India.
- We co-hosted the AIIMS Mayo Clinic Update in Kidney Disease & Transplant in collaboration with the Mayo Clinic College of Medicine on 7-8 December 2024, an event that was widely appreciated by faculty from across the country.

RESEARCH

Funded projects

Ongoing

1. A multi-center, randomized, double-blind, placebo controlled, parallel group, phase III study to evaluate the efficacy and safety of LNP023 in primary IgA nephropathy patients, Soumita Bagchi, Novartis Ltd, 5 Years, 2021-2026, Rs 5.88 Lakhs/year (CRC salary) + Rs 2 Lakhs per patient
2. A multicentre, randomized, double-blind, parallel group, placebo-controlled study to evaluate the efficacy and safety of iptacopan (LNP023) in complement 3 glomerulopathy, Soumita Bagchi, Novartis Ltd, 3 Years, 2022-2025, Rs 5.59 Lakhs/year (CRC salary) + Rs 2.24 Lakhs per patient
3. A Phase 2b/3, Multi-part, Randomized, Double-Blinded, Placebo-Controlled Study to Evaluate the Efficacy and Safety of Atacicept in Subjects with IgA Nephropathy (IgAN), Soumita Bagchi, Vera Therapeutics ltd, 5 Years, 2024-2029, Rs 5.31 Lakhs per patient
4. A Phase 4, 52-week, single arm, multicenter post marketing surveillance to evaluate the safety of Desidustat for the treatment of anemia in subjects with chronic kidney disease (CKD)., Dipankar Bhowmik, Zydus, 2 Years, 2024-2026, CRC salary + Rs 25, 000 per patient
5. A phase II. Open -Label Study of NM8074 in patients with Atypical Hemolytic Uremic syndrome (aHUS) at AIIMS., RK Yadav, Novalmed Therapeutics, 1 Year 6 Months, 2023-2025, Rs 1.29 Lakhs per patient
6. A Phase III, Randomised, Double -Blind, Active-controlled Study to Assess the Efficacy, Safety and Tolerability of Baxdrostat in Combination with Dapagliflozin Compared with Dapagliflozin Alone on Chronic Kidney Disease (CKD) Progression in Participants with CKD and High Blood Pressure., Arunkumar, Astra Zeneca, 3 Years, 2024-2027, ≈ Rs 2.50 Lakhs per patient
7. A Prospective, Double-Blind, Multicentric, Randomized, Placebo-controlled Clinical Trial to Evaluate the Efficacy and Safety of Budesonide in Patients with Primary IgA Nephropathy (IgAN), Soumita Bagchi, Fourrts Pharma Ltd, 3 Years, 2024-2026, Rs 1.98 Lakhs per patient
8. A randomized, double-blind, placebo-controlled, parallel-group, multicenter Phase 3 study to investigate the efficacy and safety of FInerenone, in addition to standard of care, on the progression of kidney disease in patients with Non-Diabetic Chronic Kidney Disease (FIND-CKD), Arunkumar, Bayer, 3 Years, 2023-2026, Rs 43,000/yr (CRC salary) + ≈ Rs 2,50,000 per patient

9. An adaptive, randomized, double-blind, dose exploration, parallel group, placebo-controlled, multicenter phase 2 trial to evaluate the efficacy, safety and tolerability of LNP023 in combination with standard-of-care with and without oral corticosteroids in adult patients with active lupus nephritis Class III-IV, +/- V, Arunkumar, Novartis, 4 Years, 2022-2026, Rs 43,000/ yr (CRC salary) + ≈ Rs 1,90,000 per patient
10. Expression of Immune checkpoints (CTLA-4, PD-1, PD-L1), cytokines and T-reg cells in Lupus Nephritis, Sandeep Mahajan, ICMR, 3 Years, 2021-2024, Rs 86.17 Lakhs
11. Role of T-regulatory cells (T-regs) and their clinical correlation in obesity associated inflammation in type-2 diabetic & CKD, Sandeep Mahajan, ICMR, 3 Years + 1 Year extension, 2019-2023, Rs 56.53 Lakhs
12. Studies of Heart & Kidney Protection with BI 690517 in combination with empagliflozin: A multicentre, international, randomized, double-blind, placebo-controlled clinical trial of the aldosterone synthase inhibitor BI 690517 in combination with empagliflozin in patients with chronic kidney disease. (EASi-KIDNEY Trial, Sandeep Mahajan, George Institute, 5 Years, 2025

Completed

1. An adaptive seamless randomized, double blind, placebo-controlled, dose ranging study to investigate the efficacy and safety of LNP023 in primary IgA nephropathy patients, Soumita Bagchi, Novartis Ltd, 2 Years, 2019-2021, Rs 1,98,000 per patient
2. A randomized, treatment open-label, dose-blinded parallel group, three arm, proof-of-concept clinical trial to investigate the efficacy and safety of LNP023 compared with rituximab in the treatment of subjects with idiopathic membranous nephropathy, Soumita Bagchi, Novartis Ltd, 4 Years, 2019-2023, Rs 5.88 Lakhs per year (CRC salary) + Rs 2,00,000 per patient

Departmental projects (including thesis/dissertations)

Ongoing

1. A prospective multi-centric randomized open label trial to assess efficacy of Hydroxychloroquine (HCQ) in reducing proteinuria in moderately severe primary IgA Nephropathy (EQUALITY study)
2. B lymphocytes sub-population in patients with IgA Nephropathy (IgAN): A Cross-Sectional Study
3. Clinical outcome with low dose CMV prophylaxis & evaluation of CMV specific immunity in kidney transplant recipients
4. Clinical presentation and outcome of norovirus infection in renal transplant recipients: a retrospective analysis
5. Clinical profile and long-term outcome of AA Amyloidosis- a retrospective study
6. Clinical profile and long-term outcome of biopsy proven tubule-interstitial diseases-a retrospective study
7. Compliance and efficacy of hepatitis B vaccination in patients with CKD
8. Factors affecting graft outcomes in deceased renal transplant.
9. Incidence & determinants of PTDM in renal transplant recipients: A 1 year prospective cohort study
10. Predicting accuracy and efficacy of a novel wrist wearable device measuring body fluid of patients at risk of volume overload
11. Pre-donation assessment of Cystatin C to improve prediction of pre and post donation GFR in potential living kidney donors
12. Prevalence and risk factors of Sarcopenia in dialysis dependent CKD patients and their post-transplant follow up
13. Retrospective multi-centric study for evaluating the clinical course and outcome of IgA nephropath
14. Comparison of clinical outcomes of ABO incompatible with ABO compatible kidney transplantation Clinico-Pathological Profile and Outcomes of Rejection in Renal Allograft Recipients

Completed

1. Evaluation of changes in measured GFR, Echocardiography, markers of bone mineral metabolism and carotid intimal medial thickness (CIMT) after renal donation

2. Correlation of serum Immunoglobulin A/complement factor 3(IgA/C3) with the clinical and histologic severity in patients with IgA nephropathy
3. Impact of pregnancy on renal survival and pregnancy outcomes in women with primary glomerular diseases: a retrospective study
4. Health related quality of life in adult patients with primary glomerular diseases in India
5. A study to access the effectiveness of Nurse Driven enhanced recovery after surgery Programme (ERAS) on quality of recovery patient satisfaction and hospital stay of patients undergoing renal transplant at AIIMS, New Delhi.
6. Frequency and genetic characterization of Mycoplasma pneumoniae and Pneumocystis jirovecii in immunocompromised patients
7. A study to assess the prevalence of sexual dysfunction and its related factors in female patients with Lupus Nephritis at AIIMS, New Delhi.
8. Clinical Profile, Clinicopathological Correlation and treatment outcomes in Lupus Nephritis

Collaborative projects

Ongoing

1. Assessment of Fok I polymorphism of VDR gene, vitamin D and parathyroid hormone levels in stage 4-5 CKD patients., Department of Lab Medicine
2. Evaluation of novel target antigens in membranous nephropathy and their clinical correlation: an attempt to reclassify cases based on target antigens in the Indian population, Department of Pathology
3. Genotypic characterization of Autosomal Dominant Polycystic Kidney disease (ADPKD) in Indian population: a pilot study., Department of Lab Medicine
4. Improving maturation rates of AV fistula haemodialysis access in CKD V patients using autologous adipose tissue derived mesenchymal stem cells: a double blind, randomised placebo-controlled trial., Department of Cardiovascular Radiology & Endovascular Interventions
5. Study of the utility of Apolipoprotien E immunohistochemistry in the evaluation of C3 glomerulopathy, Department of Pathology

Completed

1. Analysis of symptom burden and quality of life in patients undergoing hemodialysis and under the follow-up of a tertiary care centre: A prospective observational study, Onco-Anaesthesia & Palliative Medicine
2. Anemia: Exploring the role of vitamin D, essential elements and lifestyle in Indian Population (ICMR project)., Department of Pharmacology and Medicine
3. Short term and long-term outcomes following laparoscopic donor nephrectomy and open donor nephrectomy: An ambispective comparative cohort study, Department of Surgery
4. To study the effect of 24 hour versus standard 7 day prophylactic antibiotic regimen in renal transplant recipients, Department of Surgery

PATIENT CARE

Facilities available in the department

In addition to providing general nephrology care for all nephrology related illnesses, department provides state-of-the-art renal replacement therapy; hemodialysis, CAPD and renal transplant at very low cost to any patient of end stage renal disease. Department provides swap transplant and ABO incompatible renal transplant. During hemodialysis, ultrapure water is provided to machine so that absolutely safe hemodialysis can be provided to patients. Interventional Nephrology is routinely practiced in the department, with all types of temporary vascular access procedures performed in-house.

Special laboratory facilities

Department provides immunosuppressive drug monitoring free of cost to transplant patients. Apart from renal function tests, serum bicarbonate levels, iron function tests and osmolality assessment are performed in the departmental laboratory. Accurate assessment of proteinuria is provided to renal patients in the laboratory. The renal lab is NABL accredited.

Following number of patients were provided respective facility

Patient care *(other items may be added/removed as per activity of department)*

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Dipankar Madhusudhan Bhowmik is President Delhi Nephrology Society and awarded Fellow International Society of Nephrology.

Professor Sandeep Mahajan was Elected Deputy Chair of the ISN South Asia Regional Board (2025–2027) and ISN Council Member (2025–2029); also serves on the International Home Dialysis Consortium, ISOT Council (2023–2025), and as Secretary of the Peritoneal Dialysis Society of India (2023–2025).

Professor Soumita Bagchi is Associate Editor for *Seminars in Dialysis* and Subject Editor (Glomerular Diseases) for *Nephrology (Carlton)*; on the Editorial Board of *BMC Nephrology*; member of the Scientific Program Working Group for WCN 2025 and the TTS CMV guideline consensus group.

Dr Raj Kanwar Yadav received the TTS-ISOT La Renon International Mentee-Mentor Award at TTS 2024 (Istanbul) and the Shri Loknath Saraf Memorial Award for contributions to medicine by Rajasthan Ratnakar, Delhi.

Dr Arun Kumar Subbiah is the national representative of the Youth National Portal of the European Renal Association; member of expert committee of the FSSAI (Food Safety and Standards Authority of India); Member of the Youth Committee of the Indian Society of Nephrology; Assistant Editor – Indian Journal of Organ Transplantation and Junior Editor – Journal of Nephrology.

VISITING SCIENTIST

None

9.23 Nuclear Magnetic Resonance

Professor and Head

Rama Jayasundar

Professors

S Senthil Kumaran | Uma Sharma | Virendra Kumar

Scientists

Sujeet Kumar Mewar | Pawan Kumar | Dushyant Kumar

HIGHLIGHTS

The clinical MRI facility is functioning 24 × 7, with two 3 Tesla MRI and one 1.5 Tesla MRI.

EDUCATION

The faculty and Scientists participated and delivered lectures for courses titled "Course 10: Structural Biology and NMR Technology, Course 11: Bioinformatics" and "Molecular Medicine", of M. Biotech programme of the Department of Biotechnology, AIIMS; MBBS Course Third Semester and MD Physiology course.

CMEs/Workshops/Symposia/National and International Conferences

Lectures delivered at CMEs, National and International Conferences

Lectures delivered: 37

Rama Jayasundar: 31 **S Senthil Kumaran: 2** **Uma Sharma: 3**

Virendra Kumar: 1

Rama Jayasundar

1. Ayurveda: a consciousness-based medical system (gave online), International Conference on The Science of Consciousness, 22 April 2024, California, USA/online
2. MR-based research in Ayurveda, National Education Policy (NEP) Orientation and Sensitization programme, UGC-HRDC (University Grant Commission -Human Resource Development Centre), JNU, 8 May 2024, New Delhi
3. Ayurveda: a holistic system of medicine, 1st Special Course for Diplomats, Ministry of External Affairs, Govt of India, 9 August 2024, New Delhi
4. Ayurvedic approach to ocular health, ARVO-Indian Chapter of the Association for Research in Vision and Ophthalmology-Association of USA, 27 September 2024, New Delhi
5. Research methodologies, Faculty Development Program, Kanpur University, 25 October 2024, Kanpur
6. MR-based research in Ayurveda, Guest lecture Series, AIIMS Jammu, 07 November 2024, Jammu
7. Past, present and future of clinical MR Imaging, International Day of Radiology, AIIMS Jammu, 8 November 2024, Jammu
8. Applications of MR in research in ayurveda, International Conference - Communication and Dissemination of Traditional Knowledge (CDTK-2024), CSIR-National Institute of Science Communication and Policy Research (CSIR-NIScPR), 13 November 2024, New Delhi
9. Basics and introduction to Nuclear Magnetic Resonance, Special lecture Series, Teaching Course for Biochemists, AIIMS, 25 November 2024, New Delhi
10. Applications of NMR, Special lecture Series, Teaching Course for Biochemists, AIIMS, 26 November 2024, New Delhi
11. Basics and introduction to Nuclear Magnetic Resonance, Teaching Course for Anatomy Students, AIIMS, 2 December 2024, New Delhi

12. Applications of NMR in Medicinal plants, International Conference - Translational Trends in Natural and Health Sciences (TTNHS-2024), 5 December 2024, Bathinda
13. Journey of a woman physicist, National Conference - Science Technology Research and Entrepreneurship (STREE-2024), 7 December 2024, Bhopal
14. Ordinary women, extraordinary footprints in pre-independent India, Residential Faculty Induction Programme, UGC-HRDC (University Grant Commission -Human Resource Development Centre), JNU, 20 January 2025, New Delhi
15. Applications of NMR, Teaching Course for Biophysicists, AIIMS, 20 January 2025, New Delhi
16. Panelist - Physics Syllabus for UG and PG courses under NEP, Learning Outcome-based Curriculum Framework (LOCF) Expert Committee Workshop for Physics, 31 January 2025, New Delhi
17. Panelist - Physics Syllabus and relevant IKS content for UG and PG courses under NEP, Learning Outcome-based Curriculum Framework (LOCF) Expert Committee Workshop for Physics, 1 February 2025, New Delhi
18. Research methodologies for ayurveda, Conference on Research methodologies in ayurveda, 24 February 2025, New Delhi
19. Women in Science in Pre-Independent India, National Science Day, University of Delhi, 28 February 2025, New Delhi
20. Introduction to MRI and other imaging systems, Teaching Course for MBBS, AIIMS, 1 March 2024, New Delhi
21. Ayurveda for Children, In-house Workshop for Children, Isha Yoga Centre, 11 March 2025, Coimbatore
22. The Science of Ayurveda, In-house Workshop for Children, Isha Yoga Centre, 11 March 2025, Coimbatore
23. Understanding of health and disease in ayurveda and modern medicine, In-house Workshop for Children, Isha Yoga Centre, 12 March 2025, Coimbatore
24. Sustainable healthcare, In-house Workshop for Children, Isha Yoga Centre, 12 March 2025, Coimbatore
25. Applications of MR in ayurveda, Guest Lecture, Isha Yoga Centre, 13 March 2025, Coimbatore
26. NMR of medicinal plants, Guest Lecture, Isha Yoga Centre, 13 March 2025, Coimbatore
27. Ayurveda: connecting the dots and sensing the past, CME Guest Lecture Series, Kanha Shantivanam Heartfullness Institute, 19 March 2025, Hyderabad
28. Ayurveda and modern medicine: why & where they differ and how the differences matter, CME Guest Lecture Series, Kanha Shantivanam Heartfullness Institute, 20 March 2025, Hyderabad
29. MR-based research methodologies for ayurveda, CME Guest Lecture Series, SJSAC College, 28 March 2025, Chennai
30. NMR metabolomics of medicinal plants, CME Guest Lecture Series, SJSAC College, 29 March 2025, Chennai
31. Basic principles of NMR- Classical picture, resonance condition, etc. Structural Biology Course, MBiotechnology, AIIMS, 6 January 2023, New Delhi

S. Senthil Kumaran

1. Neuro-navigation & Role of TMS in structural brain lesions, 9th CME on Neuromodulation and 6th Hands-on Workshop, 19-21 December 2024, AIIMS, New Delhi
2. Understanding Parkinson's Disease using Magnetic Resonance Techniques, 11th Annual Scientific Meeting of the ISMRM Indian Chapter, 27 February – 1 March 2025, IIT Hyderabad

Uma Sharma

1. Metabolic Biomarkers of Depression and Gluten Ataxia. Needs and Approaches for Neuroimaging, 18 July 2024, Online, New Delhi
2. A Journey in the Path of Science: Inspiration & Challenges, Women's Day, 7 March 2025, Gurugram
3. Applications of NMR-based Metabolomics and MRI in understanding Pathophysiology of Gluten-Related Disorders. 4th Indo-Japan Workshop, 8 March 2025, New Delhi

Virendra Kumar

1. Role of NMR and MRI in Prostate Cancer 4th World Congress on Translational Cancer Research & immunotherapy, 10-12 February 2025, Jaipur

26	41	39

RESEARCH

Ongoing

1. An integrated metabolomics and lipidomics approach for identifying biomarkers for early diagnosis and histological subtyping of the Non-Small-Cell-Lung Cancer, Uma Sharma, ICMR, Govt. of India, 3 Years, 2024-2027, Rs 106.78 Lakhs

2. Detection of Early Signs of Postural Function Decline in Parkinson Patients using EEG and fMRI, Dr. Aayushi Khajuria, Under Professor S Senthil Kumaran as Mentor, Department of Science and Technology, 5 Years, 2023-2028, Rs 39.36 Lakhs

3. Elucidating pathophysiology of rheumatoid arthritis and identification of biomarkers of response using metabolomics and proteomics, Uma Sharma, ICMR, Govt. of India, 3 Years, 2021-2024, Rs 44.23 Lakhs

4. Functional MRI based target localization in brain stimulation in Depression, Dr Priyanka Bhat, Under Professor S Senthil Kumaran as Mentor, DBT Bio Care, 3 Years, 2024-2026, Rs 32.53 Lakhs

5. Identification of early biomarkers for Parkinson's disease using Radiomics and Metabolomics approach in an experimental PD model and patients with PD, Dr Sadhana Kumari, Under Professor S Senthil Kumaran as Mentor, DHR Women Scientist, 3 Years, 2023-2026, Rs 48.72 Lakhs

6. Identification of Metabolic Biomarkers by using Metabolomics and Metagenomics of Prostate Cancer Associated Microbiome to Distinguish Aggressive Prostate Cancer, Virendra Kumar, DHR, Govt. of India, 3 Years, 2022-2025, Rs 55.5 Lakhs

7. Identification prognostic diagnostic Biomarkers Parkinson's Disease deep learning methods, Professor S. Senthil Kumaran, DHR, 3 Years, 2023-2026, 18.78 Lakhs

8. Immunomodulatory effects, protease inhibitory activity and spectroscopic characterisation of select ayurvedic prophylactics and formulations: In vitro studies for novel SARS Cov infection**,** Rama Jayasundar**,** Ministry of AYUSH, Govt. of India**,** 3 Years, 2021-2024, 67.69 Lakhs
9. Metabolic profiling of prostate cancer to identify biomarkers using Nuclear Magnetic Resonance Spectroscopy and Mass spectrometry, Dr. Sujeet Kumar Mewar, AIIMS New Delhi, 2 Years, 2024-2026, Rs 10 Lakhs
10. Metabolomic fingerprinting to identify serum metabolites in patients with heart valve diseases using ^{1}HNMR spectroscopy", Pawan Kumar, AIIMS New Delhi, 2 Years, 2022-2025, Rs 8.2 Lakhs
11. NMR-based CSF metabolomics for biomarker identification for poor outcomes in TB Meningitis patients, Virendra Kumar, AIIMS (Interdisciplinary), 2 Years, 2024-2026, Rs 20 Lakhs
12. Scientific validation of ayurvedic concepts of guna and anupana by studying its interplay with NMR phytometa bolomics and permeability analyses in intestinal and liver cells**,** Rama Jayasundar**,** ICMR, Govt. of India**,** 3 Years, 2022-2025, 23 Lakhs
13. Semi-automatic segmentation and classification of MR images through ischemic stroke as case studies**,** Rama Jayasundar**,** Koita Centre for Digital Health (KCDH), IIT Bombay, 2 Years, 2024-2026, 15 Lakhs
14. Structural and functional Changes with Occlusion therapy in Anisometropic Amblyopes using FMRI And Diffusion Tensor Imaging**,** Rama Jayasundar**,** AIIMS, New Delhi**,** 2 Years, 2022-2024, 10 Lakhs

Completed

1. Elucidating the structural, neurobiological changes and identification of non-invasive biomarkers using magnetic resonance imaging and spectroscopy in major depressive disorder, Uma Sharma, SERB, Govt. of India, 3 Years, 2020-2023, 33.08 Lakhs
2. Exploring Auditory Perception in House crows using functional magnetic resonance imaging and Neuroanatomical Techniques, Professor S. Senthil Kumaran, SERB, 4 Years, 2021-2024, Rs 36.42 Lakhs
3. Identification of prognostic and diagnostic biomarkers in Parkinson's Disease (with juvenile/young onset) using deep learning methods, Professor S, Senthil Kumaran, DHR, 1.9 Years, 2022-2024, Rs 37.40 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. A Study of pathophysiology of rheumatoid arthritis and identification of biomarkers of response using Metabolomics and Proteomics
2. Brain functional changes and metabolic alterations in spinocerebellar ataxia
3. Development of neuro-vascular coupled computational modelling in stroke using multimodal imaging
4. Exploring neuroimaging and metabolomic markers associated with opioid dependence and pharmacotherapy.
5. Immunomodulatory effects, protease inhibitory activity and spectroscopic characterisation of select ayurvedic prophylactics and formulations: In vitro studies for novel SARS-Cov infection
6. Investigating the Pathophysiology of Treatment-Resistant Schizophrenia Using Multi-Parametric Magnetic Resonance Approaches and Metabolomics.
7. MR and other techniques based phenotyping and correlation with prakruti type in healthy population
8. Neuromodulation-Induced Metabolic and Morphological Alterations in an Experimental Model of Parkinson's Disease: An MR Investigation
9. NMR metabolomics and pharmacological assays for functional signatures of medicinal plants used in ayurveda
10. Scientific validation of ayurvedic concept of guna and anupana by studying its interplay with NMR Phytometabolomics and permeability analysis in intestinal and liver cells
11. Understanding the structural and neurobiological changes in the patients with major depressive disorder using magnetic resonance imaging and spectroscopy

Completed

1. NMR phytometabolomics and analysis of chemosensory signatures of select ayurvedic medicinal plants
2. NMR spectroscopic analysis and anticancer evaluation of select ayurvedic polyherbal formulations

3. Role of Magnetic Resonance in assessing therapeutic efficacy of ayurvedic and yoga interventions in stroke

Collaborative projects

Ongoing

1. Analysis of anti-neurotoxicity of amyloid beta in Alzheimers (AD) disease pathology targeting lipooxygenases, Department of Biophysics, AIIMS, New Delhi
2. Assessment of neuroprotective potential of safinamide treatment in animal model of Ischemic stroke, Department of Pharmacology, AIIMS, New Delhi
3. CARE -Neuroassistive technologies in Stroke Recovery, Department of Neurology, AIIMS, New Delhi
4. Evaluation of decanoic acid in ischemia reperfusion injury in middle cerebral artery occlusion model of stroke in rats, Department of Pharmacology, AIIMS, New Delhi
5. Immunomodulatory effects, protease inhibitory activity and spectroscopic characterisation of select ayurvedic prophylactics and formulations: *In vitro* studies for novel SARS Cov infection, Department of Biochemistry, AIIMS, New Delhi
6. Material characterization of brain tissue and development of tissue-device interaction based neurosurgical simulation tool, Department of Neurosurgery, AIIMS, New Delhi
7. Metabolomic profiling of donor and recipient in pediatric patients undergoing hematopoietic stem cell transplantation, Department of Pediatrics, AIIMS, New Delhi
8. Modulation of AMPA receptor: Effect on post-stroke damage after focal cerebral ischemia reperfusion injury in rats, Department of Pharmacology, AIIMS, New Delhi
9. Scientific validation of ayurvedic concept of guna and anupana by studying its interplay with NMR Phytometabolomics and permeability analysis in intestinal and liver cells, Department of Biochemistry, AIIMS, New Delhi

Completed

1. Elucidating the pathobiology of classical ayurvedic interventions in post stroke recovery using Magnetic Resonance and other technique based structural, functional and chemical, biomarkers, Department of Neurology, Department of Neuroradiology, AIIMS, New Delhi
2. Spectroscopic analysis of medicinal plants for standardization and quality assessment, Department of Ocular pharmacology and pharmacy, AIIMS, New Delhi

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Rama Jayasundar was Nominated member of the National Steering Committee for Indigenous MRI-A National Mission', Ministry of Electronics & Information Technology (MeitY), Govt of India. She was nominated Adjunct Professor in the Koita Centre for Digital Health, Indian Institute of Technology (IIT) Bombay, Mumbai. She was Member of the Learning Outcome-based Curriculum Framework Committee for UG and PG Physics, University Grants Commission (UGC), Ministry of Education, Govt of India. She was nominated member of the Curricular Area Groups for Science, National Council of Educational Research and Training (NCERT), Ministry of Education, Govt of India. She was nominated member of the Curricular Area Groups for Indian Knowledge Systems, NCERT, Ministry of Education, Govt of India. She was Selection Committee Member for Scientist posts, CSIR-Indian Institute of Chemical Biology (CSIR-IICB), Kolkata. She was Selection Committee Member for Scientist IV, National Brain Research Centre (NBRC), Manesar, Haryana. She was Nominated as the Chairperson for the committee on Neuroimaging Facility, NBRC, Manesar, Haryana. She was Nominated member of Governing Body of National Council of Science Museums (NCSM), Ministry of Culture, Government of India. She was Nominated Chairperson of the Executive Committee of Northern Zone of NCSM, Minister of Culture, Government of India. Honourable President of India's nominee (Visitor's nominee) for selection committee at the Department of Biosciences & Bioengineering, IIT Bombay, Mumbai. Honourable President of India's nominee (Visitor's nominee) for selection committee at the Department of Biomedical Engineering, IIT, Hyderabad. She was nominated member of the Scientific Advisory Committee, International Research Institute of Ayurveda, Government of Kerala. She was Nominated member of the Scientific Advisory Committee, National Brain Research Centre (NBRC), Manesar, Haryana. She was nominated member of the Scientific Advisory Committee, Translational Health Science and Technology Institute (THSTI), Department of Biotechnology (DBT), Government of India. She was nominated Adjunct Professor in the Department of Heritage and Technology, IIT, Hyderabad. She has Honorary post of Vice-President of the organisation Shakti, which works for the empowerment of women through Science and Technology. She was nominated member of the Society of the Indian Institute of Advanced Study (IIAS), Shimla, Ministry of Education, Department of Higher Education, Government of India. She was nominated Governing Body member of the Forum on Indian Traditional Medicine (FITM) by Research and Information System for Developing Countries, Ministry of External Affairs, Govt of India. She was Keynote Speaker for National Science Day, Indraprastha University, Delhi. She was Interviewed by Infinity Foundation based in Princeton, USA. She was Interviewed by Indic Academy, India. She was Interviewed for a podcast, Kanha Shanti Vanam podcast, Heartfulness Institute, Hyderabad. She was reviewer for (i) J Medical Physics, (ii) J BioSciences, (iii) Food Biophysics, (iv) Biomed J, (v) Current Science, (vi) J Ayu Integ Med, (vii) J Comp Med Res, (viii) PLOS one.

Professor Uma Sharma completed PhD Thesis Examiner for IIT Delhi and Delhi University.

Professor Virendra Kumar was Listed in World's Top 2% Scientists by Standford-Elsevier. He was External Expert, Board of Studies (BoS), for three years (2021-24), Department of Bio-Science, Manipal University, Jaipur. He was Evaluator for Faculty Promotion, Center for Biomedical Magnetic Resonance (CBMR), Lucknow. He was Reviewer for Journals: a. Scientific Reports, Springer Nature; b. Cancer Imaging, Springer Nature; c. Computers in Biology and Medicine, Elsevier; d. IEEE Access; e. BMC Urology; f. Frontiers in Oncology.

Highlights

We have expanded our landscape of theranostics and are now regularly doing FAPi therapies. Metabolic PET-guided biopsies are being regularly undertaken for patients requiring the same.

Nuclear Medicine in the Cardiothoracic Centre (CTC) is now equipped with a dedicated cardiac CZT camera for cardiac SPECT imaging assessment of myocardial perfusion in management of patients with coronary artery diseases. PET studies for evaluation of myocardial viability and infective/inflammatory cardiomyopathies are also routinely performed. The faculty delivered a total of 47 lectures in various national and international forums. The department published eighty full papers in peer-reviewed and indexed National & International journals along with 42 published abstracts this year. A total of 73 presentations were made in national and international conferences with 5 awards received. The Faculty were awarded four prestigious orations and chaired various sessions in national meetings. On the research front, the department has 8 research fundings from various organizations/funding agencies.

Education

Lectures in seminars for undergraduates students in various semesters by senior faculty.

No. of Postgraduate students: 62 (33 MD Nuclear Medicine students & 39 MSc. Nuclear Medicine Technology students). A total of 9 DM Nuclear Medicine therapy are also enrolled.

Thesis and research papers by MD, DM and MSc students.

Journal Club/Seminars/Case presentations by MD and DM students. Inter-departmental discussions and meetings and Intra-department lectures by Faculty.

'On site' teaching of MD students while reporting clinical studies.

The department organized the 9th Annual Conference of Nuclear Medicine Physicists Association of India (NMPAICon) on 15 and 16 February 2025 in AIIMS, New Delhi.

Lectures delivered: 47

CS BAL

1. Evidenced based management of cancers, TATA Memorial Centre XXII Annual Conference, EBM 2024, 29 February 2024, Mumbai
2. Use of modern age theranostics (68Ga-FAPI PET CT) in radioactive iodine refractory DTC., RGCON 2024, 22nd Annual International Conference, 15 March 2024, New Delhi

3. Novel systemic targeted therapies/Approaches in differentiated thyroid cancer, RGCON 2024, 22nd Annual International Conference, 15 March 2024, New Delhi
4. 225Ac-PSMA-617 Alpha Therapy: Current Status In Treating Aggressive Prostate Cancer, 7th Theranostics World Congress, 22 March 2024, AIIMS, New Delhi
5. Glypican 3 therapy, AACR Annual Meeting, 06 April 2024, San Diego, CA, USA
6. Oncologic application of PET/CT, Invited Faculty for teaching by IAEA, Indian Consulate in Vienna, Austria, 22 July 2024, Virtual, online, Rangoon
7. FAPi therapy in cancers, Symposium on the science and medicine of FAPI-based theranostics, 7 August 2024, Berlin, Germany
8. Thyroid diseases therapies, 2024 SNMMI therapeutics conference, 19 September 2024, Maryland, USA
9. India-Nuclear Medicine, 2024 NANETS multipiscipllinary NET medical symposium, 21 November 2024, Chicago, USA
10. Theranostic Nuclear Medicine, 56th Annual Conference of the Society of Nuclear Medicine, 06 December 2024, KMCH, Coimbatore

Rakesh Kumar

1. Functional Imaging and Theranostic in Oncology, CME, 20 April 2024, Rishikesh
2. Incremental value of Bone SPECT/CT for bone metastases, IAEA Teaching, 25 August 2024, Cairo, Egypt
3. Reads with the expert: Case Presentation, IAEA Teaching, 25 August 2024, Cairo, Egypt
4. SPECT/CT in sentinel lymph node imaging/biopsy, IAEA Teaching, 26 August 2024, Cairo, Egypt
5. 99mTc-MIBI SPECT/CT for parathyroid adenoma and carcinoma., IAEA Teaching, 26 August 2024, Cairo, Egypt
6. SPECT/CT in rare applications: Liver/Renal/Brain Tumours, IAEA Teaching, 27 August 2024, Cairo, Egypt
7. Reads with the experts, IAEA Teaching, 28 August 2024, Cairo, Egypt
8. The Zebra in the room: What are neuro-endocrine tumours? IAEA Teaching, 28 August 2024, Cairo, Egypt
9. MIBG SPECT/CT in the diagnosis, staging and treatment response, IAEA Teaching, 28 August 2024, Cairo, Egypt
10. SSTR SPECT/CT diagnosis, staging & selection of pts for PRRT, IAEA Teaching, 29 August 2024, Cairo, Egypt
11. Read with the experts, IAEA Teaching, 29 August 2024, Cairo, Egypt
12. Thyroid Imaging, Surgery Update, 26 September 2024, New Delhi
13. FDG Vs FAPI in HCC, ILBS CME, 28 September 2024, New Delhi
14. PET/CT in Breast Cancer, IPET, 7 October 2024, Vienna, Austria
15. PET/CT in Lung Cancer, IPET, 7 October 2024, Vienna, Austria
16. PET/CT in Colon Cancer, IPET, 7 October 2024, Vienna, Austria
17. PSMA PET/CT in staging of P Cancer, EANM 2024, 21 October 2024, Hamburg, Germany
18. Nuclear Medicine Imaging in Pediatrics, Annual conf Haryana Chapter, 9 November 2024, Faridabad
19. FAPI PET/CT imaging, RT update, 16 November 2024, Bhubneshwar
20. PET/CT in Gastroenterology, Annual Conf ISG, 16 December 2024, Varanashi
21. Nuclear Imaging in Peds Surg, Ped Surg Update 2025, 5 February 2025, New Delhi
22. FAPI as Theranostic tracer, SRMNIM Cuceava, Romania, 28 March 2025, Online

Chetan Patel

1. Review of ICOS CRP data entries, Consultancy Meeting, 15 May 2024, IAEA, Vienna, Austria

Anil Kumar Pandey

1. Validation of Dynamic Stochastic Resonance (DSR) for converting a low-count nuclear medicine image into a high-count image: a phantom study, European Association of Nuclear Medicine 2024 Congress, 21 October 2024, Hamburg, Germany

Madhavi Tripathi

1. Needs and approaches for Neuroimaging, Importance of Nuclear Neuroimaging in the treatment of Neurological disorders, 18 July 2024, Delhi
2. Emerging role of PET in Neuro-oncology, Unravelling the challenges and Dilemmas in Neuro-oncology Imaging, 25 July 2024, Delhi
3. Role of Nuclear Medicine in ageing and Neurodegeneration, National Multi-disciplinary Conference in Medical Specialties, 14 November 2024, Greater Noida
4. Functional Imaging in DRE, Consortium for Research, education, social awareness and training in Neurosciences (CREST), 12 January 2025, Delhi
5. Functional evaluation in DRE: SPECT & PET, ISNR Annual Conference, 23 February 2025, Bengaluru

Nishikant Damle

1. Approach to Metabolic Bone Disease: Role of NM, ANMPICON 2024, 27 September 2024, Chandigarh
2. Role of Nuclear Medicine in Thyroid diseases, SPEEDCON-THYROID 360, 31 August 2024, Delhi
3. Localization of parathyroid lesions using NM techniques, Department of Surgery Annual Day CME, 2 September 2024, New Delhi

Shamim A. Shamim

1. Radionuclides in Current urology practice**,** CMR URO-ONCOLOGY, 27 April 2024**,** Patna
2. Advances in Functional Imaging & Theranostics in Oncology**,** Advances in Functional Imaging & Theranostics in Oncology**,** 21 April 2025**,** Rishikesh
3. PSMA Based theranostics in Prostate cancer**,** CME Uroancillaricon**,** 22 February 2025**,** Bhubaneswar

Bangkim Chandra Khangembam

1. Nuclear Cardiology and AI – A clinical perspective, 9th Annual Conference of the Nuclear Medicine Physicists Association of India (NMPAICON 2025, 15 – 16 February 2025), 16 February 2025, New Delhi
2. Artificial Intelligence in Nuclear Cardiology – A Hot Knife Through Butter, 15th Biennial Conference of Nuclear Cardiological Society of India (NCSICON, 8-9 March 2025), 09 March 2025, Faridabad

Total number of lectures delivered

2022–2023	2023-2024	2024-2025
33	61	47

List of oral papers/posters presented: 73

1. Singhal Abhinav, Damle Nishikant Avinash, Gupta Yashdeep, Khangembam Bangkim Chandra, Preliminary results from a trial of a standardized intravenous insulin protocol for the management of unexpected hyperglycemia before 18F-FDG PET scans, International Conference on Hybrid Imaging (IPET 2024), 7-11 October 2024, Vienna/Austria

ORAL/POSTER PRESENTATIONS OVER PAST 3 YEARS

2022–2023	2023-2024	2024-2025
61	43	73

RESEARCH

Funded

Ongoing

1. A prospective, Randomized Controlled, open-label, multicenter Trial to evaluate Efficacy, Safety and Patient-reported Outcomes of Peptide Receptor Radionuclide Therapy (PRRT) with Lutetium (177Lu) Edotreotide compared to Best Standard of care in Patients with Well-differentiated Aggressive Grade2 and Grade 3, Dr. C. S. Bal, PSI CRO PHARMA INDIA PRIVATE LIMITED, 5 Years, 2022-2026, Rs 25 Lakhs

2. A Randomized, Double –blind, placebo-Controlled Phase III Study to evaluate the efficacy and safety of Dabrefenib plus trametinib in previously treated patients with locally advanced or metastatic, radio-active iodine refractory BRAFV600E mutation-positive Differentiated Thyroid cancer, Dr CS Bal, NOVARTIS PHARMACEUTICALS PRIVATE LIMITED, 5 Years, 2022-2026, Rs 20 Lakhs

3. Clinical efficacy of 177Lu-FAPi radioligand therapy in metastatic Breast Cancer (mBC) patients, refractory to other conventional treatments (ICMR funded project), Dr. Shamim A. Shamim, ICMR, 3 Years, 2024-2027, Rs 59 Lakhs

4. Diagnostic Accuracy of 68GaPSMA-11 PET/CT and Conventional Imaging for Initial Staging of Intermediate and High-risk Prostate Cancer Patients (the PROCA Study)" funded by the Dr Rakesh Kumar, International Atomic Energy Agency (IAEA), Vienna, Austria, 5 Years, 2022-2025, 25, 000 Euros

5. Evaluating the diagnostic Utility of FDG PET-guided biopsy in FUO'. interdisciplinary project, two years.**,** Dr Madhavi Tripathi, Intramural, 2 years, 2024-2026, Rs 10 + 10 Lakhs

6. IAEA Transthyretin Amyloid Cardiomyopathy study (iTAC study), Dr. Kh. Bangkim Chandra (PI) & Dr Chetan D. Patel (co-PI), International Atomic Energy Agency (IAEA), 5 Years, 2021- ongoing, 25, 000 Euros

7. International study on imaging in Cardio-Oncology Study (iCOS), Dr Chetan D Patel, International Atomic Energy Agency (IAEA), 5 Years, September 2019 -ongoing, 25,000 Euros

8. Paediatric Osteomyelitis: Enhancing Detection Sensitivity of Tc-99m MDP Bone Scan Studies, Dr. Anil Kumar Pandey, ICMR, 3 years, 2025-2028, Rs 33 lacs

Completed

1. Comparison of Re-188-HDD Lipiodol Transarterial Radionuclide Therapy (TART) with Re-188-DEDC Lipiodol TART in the Management of advanced Hepatocellular Carcinoma: A Randomized control trail, Dr Shamim A Shamim, ICMR, 5 Years, 2019-2024, Rs 47.57 Lakhs
2. Role of 177Lu-PSMA therapy in patients with Adenoid Cystic Carcinoma, Dr. Shamim A. Shamim, Intramural Funding, 3 Years, 2021-2024, Rs 10 Lakhs
3. Utility of Radiolabelled Antibiotics as Imaging Agents in Establishment of a Decision Support Algorithm in Patients with Pyrexia of Unknown Origin (PUO) caused by Infection and its Impact on Short Term and Long-Term Clinical Outcomes, Dr Nishikant A Damle, ICMR, 4 Years, 2019-2024, Rs 36 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. 177Lu-DOTATATE Peptide Receptor Radionuclide Therapy (PRRT) and Capecitabine plus Temozolomide (CAPTEM) for Grade 2 and Grade 3 Advanced Neuroendocrine Tumors (NETs)
2. A comparative study of 99mTc-EC and 99mTc-DMSA scans for assessing differential renal function in children undergoing initial evaluation for suspected PUJO
3. A comparative study of 99mTc-EC and 99mTc-DMSA scans for assessing differential renal function in voluntary kidney donors
4. A pilot study to assess the status of PSMA as a theranostic target in advanced /heavily pretreated pancreatic ductal adenocarcinoma
5. A pilot study to assess the status of PSMA as a theranostic target in recurrent glioblastoma multiforme
6. A simplified lymphoscintigraphy staging system for lymphedema: intra- and interobserver agreement and feasibility of machine learning for automated classification
7. A study on the correlation between inflammatory markers in blood and 18F-FDG uptake in bone marrow and spleen in patients with pyrexia of unknown origin
8. Artificial Intelligence for Diagnosis, Local staging, Prognostication of Prostate cancer based on Ga-68 PSMA-11 PET/CT scan and data from multiple clinical modalities
9. Assessment of labelling efficiency, dosimetry and safety profile of ^{188}Re-N-DEDC/lipiodol trans-arterial radionuclide therapy in hepatocellular carcinoma
10. Automatic classification of Ga-68 PSMA-11 PET/CT scan for the diagnosis and staging of patients with Prostate cancer
11. Clinical Profile and Treatment Outcomes of Patients with Tumor-induced Osteomalacia-cia: A Single-center Experience
12. Comparison of diagnostic accuracy of Contrast Enhanced Ultrasound (CE-US) with Sestamibi/SPECT for localisation in Primary Hyperparathyroidism (PHPT): A pilot study.
13. Comparison of Efficacy of F-18 FDG PET and Ga-68 FAPI-46 PET in diagnosis and staging of gastric cancer.
14. Comparison of Emory, Cedar Sinai, 4D-MSPECT and Myometrix softwares for the assessment of Left Ventricular Ejection fraction & Left ventricular volumes using Tc99m-MIBI on CZT SPECT: Correlation with 2D-Echocardiography
15. Comparison of Ga-68 DOTANOC PET-CT with F-18 FDG PET-CT in diagnosis of Cardiac Sarcoidosis
16. Design and methods of the YOGICAD study- A probe trial to evaluate the efficacy of yoga based cardiac rehabilitation in Post PCI patients
17. Diagnostic accuracy of 68 Ga-FAPI-46 PET/CT in Multiple Myeloma patients: A Comparative analysis with 18 F-FDG PET/CT
18. Diagnostic accuracy of 68Ga-NODAGA-JR-11 PET/CT in Neuroendocrine tumor
19. Enhancement of Tc-99m MDP Pediatrics Bone Scan Images Using Blind Deconvolution Algorithm
20. Establishment of normal values of LVEF on 99mTc-MIBI myocardial perfusion CZT SPECT in the Indian population: A correlative analysis with four cardiac software platforms and 2D echocardiography

21. Estimation of Whole-body Radiation exposure to the personnel during Radiolabeling of various Technetium-99m labelled Radiopharmaceuticals
22. Evaluation of ^{68}Ga DOTANOC PET/CT in the diagnosis of sarcoidosis in patients with PUO.
23. Evaluation of extramedullary disease sites in patients with acute myeloid leukemia using F-18 FDG PET-CT
24. Evaluation of Newer Diagnostic Modalities in Indeterminate Thyroid Nodules
25. Fibroblast Activation Protein Targeted Nuclear Theranostics in Metastatic Ovarian Adenocarcinoma: A prospective study
26. Immune microenvironment of Anaplastic Thyroid Carcinoma
27. IVIM-DKI with parametric reconstruction method for staging and assessment of chemotherapy response in lymphoma
28. Prediction of EGFR mutation in non-small cell lung cancer by F-18 FDG PET/CT Radiomics
29. Prediction of high-volume disease in treatment naïve prostate cancer patients undergoing PSMA PET/CT: a machine learning approach
30. Prediction of Moderate to Severe Reversible Ischemia Using Machine Learning Based on Clinical and Stress Myocardial Perfusion Imaging Parameters
31. Predictive value of 99mTc Mebrofenin Hepatobiliary Scintigraphy in evaluating liver function and volumetry in pre- and post- radioembolization in hepatocellular carcinoma (HCC) patients
32. Prevalence of Prodromal Parkinsonism in a cohort of GBA1 carriers
33. Radionomics for prostate cancer risk stratification: A machine learning approach
34. Retrospective analysis of image quality in 99m Tc-MDP
35. Role of F-18 FDG PET CT in the management of Chordoma
36. Role of FDG-PET guided biopsy in PUO
37. Role of Ga-68 PSMA PET in re-RT planning for recurrent high grade gliomas (HGG)- A pilot study
38. Role of pre-processing before compression nuclear medicine image in discrete cosine transformation.
39. Role of Transarterial Embolisation in Metastatic Lung Lesions
40. Striatal to Occipital Ratios (SORs) on [99m-Tc] TRODAT SPECT Imaging
41. Texture analysis for characterization of carcinoma prostate based on 68Ga-PSMA PET/CT
42. Texture analysis to characterize Renal Cell Carcinoma with 18F-FDG PET/CT
43. To correlate the 68Ga-FAPI expression on PET/CT in Hepatobiliary and Pancreatic Malignancies with FAP immunohistochemistry
44. To evaluate FAPI as a potential theranostic in soft tissue sarcoma using 68Ga-FAPI-46 PET/CT and 177Lu-FAPI 46 therapy
45. Treatment response evaluation using 68Ga-PSMA-11 PET/CT in Patients with metastatic castration resistant prostate cancer using percist 1.0 and pswg3 criteria

Completed

1. 68Ga-PSMA PET/CT in Metastatic Renal Cell Carcinoma
2. A machine learning approach to classify skeletal metastasis in bone scintigraphy
3. A probe trial to evaluate the efficacy of yoga based cardiac rehabilitation in Post PCI patients
4. A randomized double blind sham controlled trial for evaluating effectiveness and tolerability of high definition transcranial direct current stimulation in depression
5. A study on the correlation between inflammatory markers in blood and F18 FDG uptake in bone marrow and spleen in patients with pyrexia of unknown origin
6. Assessment of correlation between 2-hour radioactive iodine uptake and 99m Technetium pertechnetate (99m TcO4−) uptake on thyroid scintigraphy in patients with thyrotoxicosis

7. Assessment of disease extent and tumour burden via metabolic indices and textural analysis of tumour in ^{68}Ga-DOTANOC PET/CT in pediatric patients with neuroblastoma-role of ^{68}Ga-DOTANOC PET/CT in comparsion to ^{131}I-mIBG SPECT/CT
8. Comparison of diagnostic accuracy of Contrast Enhanced Ultrasound (CE-US) with Sestamibi/SPECT for localisation in Primary Hyperparathyroidism (PHPT): A pilot study
9. Comparison of normal field of view and extended field of view in obese patients undergoing myocardial perfusion SPECT on CZT camera
10. Comparison of normal field of view and extended field of view in obese patients undergoing myocardial perfusion SPECT on CZT camera
11. Comparison of whole-body MRI with 18-FFDG PET/CT in pediatric lympho-hisiocytic neoplasm
12. Diagnostic accuracy of 68 Ga-FAPI-46 PET/CT in Multiple Myeloma patients: A Comparative analysis with 18 F-FDG PET/CT
13. Dynamic salivary scintigraphy: normal pattern and reference values in Indian Population
14. Dynamic salivary scintigraphy: normal patterns and reference values in the Indian population
15. Establishment of normal values of left ventricular ejection fraction on Tc-99m MIBI myocardial perfucion CZT spect in the indian population: a correlative analysis with four cardiac software platforms and 2D echocardiography
16. Evaluation of 68Ga-DOTANOC PET/CT in the Diagnosis of Sarcoidosis
17. Evaluation of Newer Diagnostic Modalities in Indeterminate Thyroid Nodules
18. FDG-PET/MRI co-registration in non-lesional drug-refractory epilepsy.
19. Hepatobiliary scintigraphic evaluation of gallbladder ejection fraction using a fatty meal protocol: establishment of reference values in the Indian population
20. Hepatobiliary scintigraphy evaluation of gall bladder ejection fraction using fatty meal protocol: establishment of reference values in the Indian population
21. Incremental value of CT over planar and SPECT alone in evaluating solitary lesion on Bone Scintigraphy
22. Incremental value of CT over planar and SPECT alone in evaluation of solitary lesion on bone scintigraphy
23. Mesial temporal SUVR on Tau PET in ADD, non-AD dementias & control groups
24. Normative data of percent colonic transit and its correlation with colonic geometric center
25. Normative data of percent colonic transit and its correlation with colonic geometric center
26. Personnel Dosimetry during FDG-PET Image Guided Automated Robotic Arm-Assisted Biopsies
27. Predictive value of 99mTc Mebrofenin Hepatobiliary Scintigraphy in evaluating liver function and volumetry in pre- and post- radioembolization in hepatocellular carcinoma (HCC) patients
28. PSMA PET Radiomics for prostate cancer risk stratification: a machine learning approach
29. Radionomics for prostrate cancer risk stratification: a machine learning approach
30. Role of 99mTc- Ethambutol Scintigraphy In Diagnosis of Pulmonary and Extra Pulmonary Tuberculosis
31. Role of 99mTc-MDP SPECT/CT bone scan in evaluation of vertebral lesions and its advantage over planar bone scintigraphy
32. Role of 99mTc-Pyrophosphate Imaging in detection of transthyretin cardiac amyloidosis (ATTR-cardiac amylodosis) in high risk population
33. Role of 99m-Tc-Ubiquicidin scintigraphy in diagnosis of orthopaedic implant infection
34. Role of F-18 FDG PET/CT in assessment of treatment response to neoadjuvant chemotherapy in primary extraocular retinoblastoma
35. Role of F-18 Fluoride PET/CT in diagnosis and assessment of response to radiofrequency ablation in Osteoid Osteomas
36. Role of PET-CT in assessment of treatment response to neo adjuvant chemotherapy in primary extraocular retinoblastoma

37. Role of pre processing before compression nuclear medicine image in dicrete cosine transformation
38. Role of SPECT-CT bone scan in evaluation of vertebral lesions and its advantages over planar bone scintigraphy
39. SPECT Image enhancement using fuzzy logic INT operator
40. Study of PD-L1 expression in parathyroid carcinoma
41. Study of prevalence of concomitant Transthyretin Amyloidosis in elderly patients with severe aortic stenosis by PYP scan
42. To study the clinical profile, investigations and outcome of patients undergoing parathyroidectomy: A retrospective and prospective experience
43. Treatment response evaluation using 68Ga-PSMA-11 PET/CT in Patients with metastatic castration resistant prostate cancer using percist 1.0 and pswg3 criteria
44. Utility of 99m-Tc Ubiquicidin in differentiation of infective and noninfective lesions
45. Validation of dynamic stochastic resonance for converting a low count nuclear medicine image into a high-count image: a phantom study
46. Validation of Dynamic stochastic resonance for converting a low count nuclear medicine image into a high count image: a phantom study
47. Visual vs SPM evaluation of FDG-PET studies in drug refractory epilepsy

Collaborative projects

Ongoing

1. A comparison of modulating effect of cTBS and low frequency rTMS on cortical excitability in children and adolescents aged 5-14 years with Lesional Drug refractory Epilepsy (Focal epilepsy or electrical status epilepticus in sleep): An open label randomized non-inferiority crossover study”., Pediatric Neurology
2. A cross-sectional study to assess the severity of neurogenic bowel dysfunction, quality of life, functional status, and whole bowel transit in spinal cord injury, Department of Physical Medicine and Rehabilitation, AIIMS, New Delhi
3. A Phase III, Open-label, Multicenter, Randomized study evaluating the safety and efficacy of Polatuzumab Vedotin in combination with Rituximab plus Gemcitabine plus Oxaliplatin (R-GEMOX) versus R-GEMOX alone in patients with relapsed/refractory diffuse large B-cell lymphoma., Medical Oncology
4. Aortic and lung inflammation following COVID: a marker of cardiac event an Indo-Australian joint project- funded by Department of Science & Technology, Cardiology
5. Clinical and radiological profile, risk associates, caregiver burden and clinical outcomes in early and late onset dementia., Neurology
6. Comparing the diagnostic utility of 18F-FDG PET/CT with bone marrow biopsy in detecting bone marrow metastases in newly diagnosed Neuroblastoma, Department of Pediatrics, Division of Pediatric Oncology, AIIMS, New Delhi
7. Comparison of 68Ga PSMA PET/CT scan with Multiparametric MRI of the prostate for loco-regional staging in patients with intermediate to high risk prostate cancer., Urology
8. Comparison of Suprascapular Nerve Block and Capsular Hydrodilatation in Adhesive Capsulitis of Shoulder: A Randomized Controlled Trial, Department of Physical Medicine and Rehabilitation, AIIMS, New Delhi; Department of Radiodiagnosis and Interventional Radiology, AIIMS, New Delhi
9. Diagnostic Accuracy of 68Ga PSMA-11 PET-CT and conventional Imaging for Initial staging of Intermediate and High Risk Prostrate cancer Patients (PROCA study), Urology
10. Efficacy of yoga based cardiac rehabilitation in Post-PCI patients: A prospective randomized, open-label, blinded end-point trial- funded by Ministry of AYUSH, CIMR, Cardiology
11. Evaluating the spectrum of etiologies for rapidly progressive dementias in a tertiary care setting., Neurology
12. Inflammatory Cardiomyopathy: A study using Artificial Intelligence to validate a diagnostic algorithm combining novel proteomic biomarkers, non-contrast MRI and somatostatin receptor based PET/CT, Cardiology, Cardiac Radiology

13. Minimally invasive nano enabled targeted technology for Sentinel Lymph Node SLN detection., ENT
14. Role of Liquid biopsy in Diagnosis, Risk Stratification and Response monitoring in Neuroblastoma, Department of Pediatrics, Division of Pediatric Oncology, AIIMS, New Delhi
15. The role 68Ga PSMA PET/CT scan as a single staging modality in prostate cancer‘., Urology

Completed

1. A prospective multimodal evaluation of Subacute Sclerosing Panencephalitis in children., Pediatric Neurology
2. A randomized double-blind sham-controlled trial for evaluating effectiveness and tolerability of high-definition transcranial direct current stimulation in depression, Psychiatry
3. A study to determine the prognosis of patients with cardiac involvement with sarcoid: development of diagnostic and treatment algorithms., Cardiology, Cardiac Radiology
4. Advanced Neuroimaging techniques in drug resistant focal Epilepsy., Neuroimaging and Interventional Neuroradiology
5. Comparative assessment of PET and ASL-MR perfusion techniques along with usefulness of novel MRI markers for early detection of primary dementia., Neuroimaging and Interventional Neuroradiology
6. Efficacy of repetitive transcranial magnetic stimulation(rTMS) therapy in ESES in children: A single arm interventional study., Pediatric Neurology
7. Evaluation of factors impacting prognosis in skull base osteomyelitis, ENT
8. The effect of a structured home-based exercise program on the functional outcome in patients with knee osteoarthritis and its predictors for successful outcome, Department of Physical Medicine and Rehabilitation, AIIMS, New Delhi

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor CS Bal received the Infosys best paper in oncology in 4th Annual Research day, 30 January 2025, AIIMS and was awarded the 2024 Sun Pharma Science Foundation Research Fellowship for Medical Sciences (Clinical Research) in recognition of his pioneering contributions to Therapeutic Nuclear Medicine.

Professor Rakesh Kumar is Editor in Nuclear Medicine Communications (Official Journal of British Society of Nuclear Medicine).

Professor Chetan D Patel Delivered "Professor RD Lele Oration" at the 22nd Annual Association of Nuclear Medicine Physicians of India (ANMPI) Conference at the Post Graduate Institute of Medical Education & Research, Chandigarh, September 2024. He was Chairperson in the Nuclear Cardiology session in the 56th SNMICON in Coimbatore on 6 December 25 and in the 15th Biennial conference of the NCSI on 8.3.25 in Sarvodaya Hospital in Faridabad Harayana. He was Member Store Purchase Committee of Center for Integrative Medicine & Research (CIMR). He was Chairman, Selection Committee for recruitment of core staff at CIMR under COE Scheme, AYUSH.

Professor Anil Kumar Pandey was Hal Anger Oration; 8th Annual Conference of Nuclear Medicine Physicist Association of India (NMPAICON 2024) 23-24 February 2024. Shri Mata Vaishno Devi Narayana Superspeciality Hospital (SMVDNSH), Katra, at Jammu. He was Chairperson/Organizing Committee/Scientific committee at 9th Annual Conference of Nuclear Medicine Physicists Association of India, 15 February 2025 to 16 February 2025, AIIMS, New Delhi.

Professor Madhavi Tripathi received the 'Brig. SK Mazumdar Oration' in the 56th Annual Conference of SNMI in Coimbatore, India. She got an oral presentation award in the AOCNMB held in Bali, Indonesia in September 2024.

Dr Shamims PhD student won the Shakuntala Krishnamurthy best paper award in hepatology in SNMICon 2024 Conference in Coimbatore.

Dr Khangembam Bangkim Chandra received two Best Poster Awards at International Conference on Hybrid Imaging (IPET 2024), 7-11 October 2024, Vienna, Austria. One Highlight Abstract in Highlight Lecture at International Conference on Hybrid Imaging (IPET 2024), 7-11 October 2024, Vienna, Austria. He received Best Paper Award at 56th SNMICON 2024, 5-8 December 2024, Coimbatore, India. He was chaired a session on "Robotics and AI in Nuclear Medicine" at the 9th Annual Conference of the Nuclear Medicine Physicists Association of India (NMPAICON 2025, 15 – 16 February 2025), held at AIIMS, New Delhi. He is a Member of the Indian College of Nuclear Medicine (MICNM). He was a member of the Advisory Committee of the 9th Annual Conference of the Nuclear Medicine Physicists Association of India (NMPAICON 2025, 15–16 February 2025), held at AIIMS, New Delhi. He is a Member of the Hospital Infection Control Committee (HICC), AIIMS, New Delhi.

HIGHLIGHTS

The Department continues to serve as a pillar of excellence in women's healthcare across all stages of women's life by providing comprehensive patient care through subspecialities including Reproductive Medicine, Maternal-Fetal Medicine, Minimally Invasive Surgeries, Gynae Oncology and Urogynaecology besides High-Risk Obstetrics and General Gynaecology. Department is also running Anaemia, Gynae-endocrinology and Menopause clinic to address hormonal and nutritional needs of women. Department has expanded Oncofertility services to support the unique needs of young women undergoing cancer treatment, effectively bridging oncology and reproductive care. Integration of Yoga, Birth Planning, and Respectful Maternity Care into routine obstetric practice has enhanced patient satisfaction and clinical outcomes. As part of its patient education initiatives, department has developed comprehensive patient information leaflets and Antenatal Care Booklet to provide essential guidance to pregnant women throughout their pregnancy. Hands-on training programs were conducted on contraceptive implants and department received Appreciation Award for the highest number of sub-dermal implant insertions. The department also organised training and workshops on Respectful Maternity Care and ultrasonography for faculty, residents and nurses.

Regular obstetrics and gynaecology services are provided at CRHSP, Ballabgarh alongwith OPD services at Jhajjar. There is a dedicated Gynae Oncology OPD and OT services at NCI, Jhajjar as well. As a WHO Collaborating Centre for Cervical Cancer Prevention and Research, department conducted international training program in Colposcopy and Management of Precancerous Lesions for Ministry of Health officials from Maldives and Sri Lanka. Through adoption of advanced diagnostics and minimally invasive surgical techniques, department remains committed to delivering state-of-the-art evidence-based care.

EDUCATION

Undergraduate Teaching

Undergraduates are posted in the department for clinical postings from 4th semester onwards. Didactic lectures are taken for 6th and 8th semester students. The list of didactic lectures delivered during this period is as follows:

Total UG lectures: 42

Postgraduate teaching:

Total PG Seminars: 31

Menopausal hormonal therapy (MHT)

Innovations in teaching techniques

1. Skill lab Training activities for undergraduate and postgraduate students
    a. Dry Skill Lab: Pelvic examination, Normal Delivery, CuT insertion, Episiotomy suturing, CTG Interpretation
    b. Wet Skill Lab: Cadaveric Workshops, LEEP and Thermal Ablation
2. Simulation training activities for undergraduate and postgraduate students to ensure adequate skills
    a. Drills: PPH, Eclampsia, Shoulder Dystocia, Maternal Collapse
    b. Basic Life Support
3. Endoscopic Training
    a. Robotic Simulation Activities and Port Placement on Cadavers
    b. Pelvic Endotrainers
4. Dedicated training sessions for the interns to enhance their skills through competency-based training along with comprehensive abortion care training on regular basis
5. Weekly classes for students of sub-specialties in the department (Reproductive Medicine/Gynae Oncology/ Urogynaecology/Minimally Invasive Gynaecology/Fetal Medicine)
6. Morning 8-9 am journal clubs initiated to discuss landmark trials in the field of Obstetrics and Gynaecology
7. Regular audit of gynaecological procedures in addition to perinatal and caesarean audits.
8. Orientation program of junior, senior residents and staff nurses was introduced at the beginning of monthly labour room posting to enhance their skills related to intrapartum care, obstetric emergencies and respectful maternity care.
9. Classes on basics of ultrasound in obstetrics and gynaecology for better understanding and enhancing the skills in ultrasound
10. Small group discussions for respectful abortion care involving faculty, senior and junior residents and staff nurses
11. SOPs in obstetrics were drafted by department to streamline the clinical care provided to patients

CMEs, Workshops, Symposia, National and International Conferences

1. USG simulator course and 3D/4D workshop, 29 April 2024, AIIMS, New Delhi
2. Advocacy meet- International Midwifery Day, 3 May 2024, New Delhi
3. Skill Enhancing Course in Colposcopy & Treatment of CIN AOGIN Interim CME, 4 May 2024, AIIMS, New Delhi
4. Fetal Neurocon 2024 – Live demonstration workshop on fetal neurosonography, 9 August 2024, AIIMS, New Delhi
5. AIIMS WHO CC Training on Colposcopy and Management of Precancerous Lesions for Maldives and Sri Lanka MoH Officials, 19-24 August 2024, AIIMS, New Delhi
6. Training on Subdermal Single Rod Contraceptive Implants organized by Department of Obstetrics and Gynaecology, AIIMS, New Delhi with WHO India Country Office, 6 September 2024, AIIMS, New Delhi

7. Workshop on Respectful Maternity Care, Annual Conference of NARCHI Delhi, 5 October 2024, AIIMS, New Delhi
8. Training on Injectable Contraceptive MPA (IM and SC), organised by Department in collaboration with Directorate of Family Welfare and WHO-Country Office for India, 8 November 2024, AIIMS, New Delhi
9. Cervical cancer awareness initiative for EHS & their dependents, 11-17 November 2024, AIIMS, New Delhi
10. Training on Respectful Maternity Care for Faculty, Residents, Nurses and Support staff in association with Astrika Foundation, 15-16 November 2024, AIIMS, New Delhi
11. Workshop on Positive Birthing Experience & Respectful Maternity Care, 17 November 2024, AIIMS, New Delhi
12. Workshop Daily Practice in Fetal Medicine, 46th Annual Conference of AOGD 2024, 21 November 2024, AIIMS, New Delhi
13. Live Hysteroscopic Surgery Workshop Cum Symposium" under aegis of Hysteroscopy Society of India, 15 December 2024, New Delhi
14. Workshop on Respectful Maternity Care, Sir Ganga Ram Hospital, 28 December 2024, New Delhi
15. POISE- Ultrasound workshop, 1 March 2025, New Delhi
16. Screening and vaccination drive for EHS on occasion of international women's week, 3-8 March 2025, AIIMS, New Delhi

Short- & Long-Term Training

1. Dr Neha Nayak, 3 April-1 May 2024, 1 month, Gynae-Onco, Bir Hospital, Nepal
2. Dr Anamika Jha, 18 April-14 May 2024, 1 month, Urogynaecology, Bir Hospital, Nepal
3. Dr Sabina Shrestha, 18 April-14 May 2024, 1 month, Urogynaecology, Bir Hospital, Nepal
4. Dr Neseema Sedhain, 18 April-14 May 2024, 1 month, DM (Rep. Med), Bir Hospital, Nepal
5. Dr Komathy Chockalingam, 1-26 July 2024, 4 weeks, Elective training in Obs. & Gynae, Lancaster University Medical School, UK
6. Dr Aminath Limya, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Indhira Gandhi Memorial hospital, Maldives
7. Dr Thasneem Faroog, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Indhira Gandhi Memorial hospital, Maldives
8. Dr Aminath Zahra, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Indhira Gandhi Memorial hospital, Maldives
9. Dr Aminath Amaal, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Hulhumale hospital, Maldives
10. Dr Aminath Juhaina Hameed, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Hulhumale hospital, Maldives
11. Dr Aishnath Neena Shareef, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Indhira Gandhi Memorial hospital, Maldives
12. D.I Senadeera, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Castle Street Hospital for Women, SriLanka
13. K.S Jayasinghe, 19-24 August 2024, 6 days, Preventive Gynaeoncology, German SriLanka Friendship Hospital for women Galle, SriLanka
14. R.D Wijesinghe, 19-24 August 2024, 6 days, Preventive Gynaeoncology, National Hospital Kandy, SriLanka
15. Thanuya Mahendran, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Teaching Hospital Jaffna, SriLanka
16. I.N.S Herath, 19-24 August 2024, 6 days, Preventive Gynaeoncology, Family Health Bureau, SriLanka
17. Professor Pikee Saxena, 20 July-19 October 2024, 3 months, Reproductive Medicine, LHMC
18. Dr Ambreen Qureshi, 23 September-22 December 2024, 3 months, Maternal Fetal Medicine, Govt. Medical College, Srinagar

19. Dr Nalini Arora, 16 October-30 November 2024, 13 days, Fetal Medicine, PGIMER& ESIC Medical College, Kolkata
20. Dr Poojan Dogra, 16-30 November 2024, 15 days, Maternal Fetal Medicine, AIIMS, Bilaspur
21. Dr Rupshnata Gogoi, 01-28 February 2025, 1 month, Maternal Fetal Medicine, Assam Medical College, Dibrugarh

Neena Malhotra

1. Country adaptation of Essential Childbirth Care course (ECBC) Inter professional Midwifery Education Toolkit for sexual, reproductive, maternal and newborn health in India, Expert Group consultation: Country adaptation of Essential Childbirth Care course (ECBC), 4 April 2024, Hyderabad
2. Challenges in reproduction in post IVF world, XXIV Annual meeting of Triavandrum Ob-Gyn, Club "ADVANCES 2024", 6 April 2024, Trivandrum
3. Fertility preservation in Cancer patients, XXIV Annual meeting of Triavandrum Ob-Gyn, Club "ADVANCES 2024", 6 April 2024, Trivandrum
4. Removal of the space occupying lesions of the Uterus: When, Which and How much?, CME Organized by ARMY Hospital, Ayurvigyan Auditorium, AHRR, 14 April 2024, New Delhi
5. SWAYAM – ART OF NATURAL BIRTHING Keynote on International midwifery day, workshop and Advocacy meeting, MGIMS, 3 May 2024, Maharashtra
6. Medical and ethical challenges in fertility preservation, ISAR – ReproMed Update 2024, 12 May 2024, AIIMS, Jodhpur
7. Demystifying Genital tuberculosis for clinicians, Futurecon Conference, 19 May 2024, Bhubaneswar
8. Understanding Adenomyosis; imaging, effect on fertility and impact on ART outcome, Futurecon conference, 19 May 2024, Bhubaneswar
9. PCOS & Infertility, FOGSI COGS Amazing Ovary conference, 8-9 June 2024, Coimbatore
10. Beyond the pill – oral contraceptive in Endometriosis, CME, Jaipur Obstetrics and Gynaecology Society, 11 June 2024, Jaipur
11. The intricacies of frozen embryo transfer: When, how & current evidence., Attending ISAR Regional and MSR Annual Conference, 15-16 June 2024, Shirdi
12. Medical and ethical challenges in fertility preservation – are we ready yet?, Wisdom 2024 – A FOGSI National Conference, 21-23 June 2024, Kolkata
13. Ethical And Social Concerns of Fertility Preservation at session- Mixed Bag: Spark is Still There, NZIMSCON Conference 2024, 13 July 2024, Faridabad
14. Voices of change initiative, where we are bringing together obstetrician and gynaecologists, Workshop on Birthing, ASTRIKA Foundation, 19 July 2024, Bangalore
15. Fertility management and ART in PCOS, Annual Meeting of Society of Maternal Fetal Medicine, 20 July 2024, Udaipur
16. Patient – Centric Approach in Fertility Treatments, 5th IVF Summit & Awards, 25 July 2024, Online

17. Assessment of blood flow in uterus and ovaries – Clinical significance of perifollicular & Endometrial blood flow., ISAR – ASPIRE Regional Conference – The Art and science of conception, Challenges and opportunities, 2 August 2024, Pune
18. Moderator "Infertility (Case discussion), 25th Practical Course and CME- 2024, MAMC, 9 August 2024, New Delhi
19. Genetic Causes and Future Directions, FOGSI FIGO Global Conference on Updates in Obstetrics and Gynaecology 2024 conference, 24 August 2024, Hyderabad
20. Factor VII- A Game Changer in preventing PPH, Modern approach in Ob-gyn practice innovation to implementation, NORTH ZONE FOGSI, 8 September 2024, Kosambi, Ghaziabad
21. Ultrasound in ART, Role of PRP, "FUSION 2024, International Conference on reproductive medicine, jointly organized by ESHRE, IFS and ISAR, 13-15 September 2024, Jaipur
22. Stem cells in Reproductive Medicine, My experience with Dual stimulation?, "FUSION 2024, International Conference on reproductive medicine, jointly organized by ESHRE, IFS and ISAR, 13-15 September 2024, Jaipur
23. Understanding differences in when to time stimulation, luteolysis, trigger, LH suppression, "FUSION 2024, International Conference on reproductive medicine, jointly organized by ESHRE, IFS and ISAR, 13-15 September 2024, Jaipur
24. Ovarian Cryopreservation – Global vs Indian Perspective, "FUSION 2024, International Conference on reproductive medicine, jointly organized by ESHRE, IFS and ISAR, 13-15 September 2024, Jaipur
25. The enigmatic Female Genital Tuberculosis: Have We Reached a Consensus in Management?, 46th Annual Conference of AOGD, 23 November 2024, New Delhi
26. Ovulation Induction Protocols for IUI, IUI Workshop at 92nd Foundation Day of the Department of Obstetrics and Gynecology KGMU Lucknow organizing a IUI workshop, 29 November 2024, Lucknow
27. One Stop fertility scan, FERTICON, 14-15 December 2024, Akola
28. Fertility preservation and endometriosis- present scenario, fact or fiction, Endometricon, 20-22 December 2024, Varanasi
29. Cryopreservation in Gynaecological disorders, 62nd AICOG 2025 – Advanced ART Workshop – Session- IV: Precision in Practice Protocols, 8-12 January 2025, Mumbai
30. Imaging in Obgyn Workshop – Session 3: Imaging in Infertility, AICOG 2025, 8-12 January 2025, Mumbai
31. Moderator on Imaging in Obgyn Workshop – Scanning in Fertility, AICOG 2025 Workshop, 8-12 January 2025, Mumbai
32. Updates in Infertility – what every gynaecologist should know?, AICOG 2025, C G Saraiya CME, 9 January 2025, Mumbai
33. Uterine Factors: Recurrent Implantation Failure, AICOG 2025, 11 January 2025, Mumbai
34. IFS Session-One Stop Fertility Scans – How Meaningful?, 29th ISAR Annual Conference, 8 February 2025, Lucknow
35. Keynote Address-I The Future of Fertility Preservation in India, ISSRF – 2025, Conference on Integrating basic biological and applied research into clinical practice for human welfare, 14 February 2025, Jaipur

Vatsla Dadhwal

1. Management of Isoimmunised Pregnancy, FETOVISION 24, 19 April 2024, Kolkata
2. Invasive Procedures in Multiple Pregnancies, SFM Delhi Chapter Online Quarterly Meeting, 29 April 2024, Virtual
3. Fetal Interventions – an overview, Fetal Medicine Symposium, 2 May 2024, Virtual
4. Ultrasound Learning : Doppler study in FGR, Postgraduate Academic Fiesta, 7 July 2024, LHMC, New Delhi
5. Rh Isoimmunised pregnancy: Optimizing Intrauterine and Transplacental Therapy from T1-T3, PG Forum : Maternal Haematology and Fetology, 13 July 2024, Safdarjung Hospital, New Delhi

6. Intrauterine Transfusion (IUT): Video Presentation, Society of Fetal Medicine Delhi Chapter Quarterly Meeting, 3 August 2024, UCMS & GTB Hospital, New Delhi
7. Role of natural course of CNS disorders in adequate antenatal counselling, Neurocon 2024 Society of Fetal Medicine, 9-11 August 2024, Gurugram
8. Setting the Scene – Indian Context: Aneuploidy Screening and testing in Multiple pregnancy, Fetal Medicine Foundation India (FMSI), 24 August 2024, Dehradun
9. Complications specific to Monochorionic Pregnancies – Tailored approach, Fetal Medicine Foundation India (FMSI), 24 August 2024, Dehradun
10. RH is immunization, Pregnancy management, Rhesus Awareness Masterclass Gurgaon Obstetrics and Gynaecology Society CME, 19 October 2024, Gurgaon
11. First Trimester Early Prenatal Care: How to get it right?-Case-Based approach, 46th Annual Conference of AOGD 2024, 21 November 2024, AIIMS, New Delhi
12. Twin-Twin Transfusion Syndrome: All We Need to Know, Society of Fetal Medicine Observes World TTTS Awareness Month, 17 December 2024, Online

JB Sharma

1. Stress urinary Incontinence, FOGSI ICOG CME MOGDCON, 23 June 2024, Muzaffarpur
2. Over active Bladder, AICOG 2025, 8 August 2025, Mumbai

Neeta Singh

1. IVF Access and Affordability: Exploring the Ethical, Autonomy, and Insurance Aspects of Assisted Reproduction, National IVF Summit 2024, 14 June 2024, New Delhi
2. Immunotherapy in IVF, current evidence, CME at Amrita Hospital, 23 August 2024, Faridabad
3. Current evidence on role of immunotherapy in IVF, FUSION Conference 2024, 15 September 2024, Jaipur
4. What we learnt from the POSITIVE trial? "Breast cancer and fertility", 11th Annual Conference of Fertility Preservation Society of India (FPSI), 28-29 September 2024, Hyderabad
5. A case for fertility preservation and egg freezing for all and POR, ISAR-UNS Collaborative Masterclass, 23-24 November 2024, Bangalore
6. Addressing thin endometrium challenges in Assisted Reproductive Technology, 67th All India Conference of Obst. & Gynae (AICOG), 10-12 January 2025, Mumbai
7. Fertility sparing in gynaecological cancers; walking the tight rope, 23rd Annual International Conference – "RGCON 2025, 22 March 2025, New Delhi

K Aparna Sharma

1. Shoulder Dystocia Drill, PG-Academic fiesta, 28 April 2024, RML hospital
2. Hypertensive disorders in pregnancy, CME by Mathura Obstetrics and Gynaecology Society, 27 April 2024, Mathura
3. Thalassemia in Pregnancy, SFM World Thalassemia Day Webinar, 8 May 2024, Online
4. Respectful maternity Care, Webinar by South Asia Social Norms and Agency Learning Collaborative (SA-SNALC), 16 May 2024, Online
5. Preeclampsia: Consideration in Everyday Practice, Webinar by Society Fetal Medicine, 22 May 2025, Online
6. Controversies in Myomectomy, ART summit, 15 June 2024, Shirdi
7. GDM: Managing the growing tide, Web Conference on High Risk Pregnancy, 23 June 2024, Online
8. Multiple Pregnancy, Webinar by OGSSI, 28 June 2024, Online
9. NT+DM+PLGF: what do the numbers mean, SFM outreach prgram, 30 June 2024, Zirakpur
10. Multiple Pregnancy, Gurukul Classes, 6 July 2024, Online
11. Phenotype Genotype, Multidisciplinary Approach Towards Fetal Care, 7 July 2024, Pune

12. FNAIT, PG Forum: Maternal Haematology and Fetology, 13 July 2024, New Delhi
13. Gender equality in global health, Innovation to Implementation: Advancing Healthcare through Digital Health, 20 July 2024, Delhi
14. POCQI; Step 1 and 2, Quality Improvement Workshop, 2 August 2024, LHMC
15. Technologies for Monitoring Fetal Well-being, National FOGSI Convention, 6 August 2024, New Delhi
16. Ventriculomegaly, Fetal Neurocon, 9 August 2024, Gurgaon
17. Fetal Growth Restriction (Case Discussion), 25 Practical Course and CME, 10 August 2024, New Delhi
18. IOL – Efficacy and safety in clinical practice, FOGSI FIGO Global Conference on Updates in Obstetrics and Gynaecology 2024, 25 August 2024, Hyderabad
19. Rh Negative Pregnancy, IAECON 2024, 7 September 2024, Ghaziabad
20. Rh Isoimmunization; Still a Problem?, Annual Conference of Still birth society of India, 15 September 2024, Hyderabad
21. Intrauterine transfusion, CUSP, 27 September 2024, Chennai
22. Prenatal Genetic testing, CUSP, 29 September 2024, Chennai
23. TORCH SEROLOGY, Precongress WS on fetal Medicine, 19 November 2024, New Delhi
24. Surgery Checklist, Consent, and Risk Management: Simulation Session, 46th Annual Conference of AOGD, , 22 November 2024, New Delhi
25. National Stakeholder Convening for Improving PPH outcome, USAID SAMVEG, 23 November 2024, Online
26. Fetal Interventions in Twin and Multiple Pregnancy: Challenging Cases, GEFOG health foundation webinar, 24 November 2024, New Delhi
27. Twin Twin Transfusion Syndrome: All We Need to Know, TTTS awareness webinar, 17 December 2024, Online
28. Early Pregnancy Scan, 67th AICOG, 8 January 2025, Mumbai
29. Rare but Not Alone: From Awareness to Action, SFM Webinar on Rare Disease Day, 27 February 2025, Online
30. CTG in the Labour Room: Strategies for Effective Fetal Monitoring, IRC RCOG India North Annual Conference 2025, 1 March 2025, New Delhi
31. Haematological Disorders in Pregnancy, IRC RCOG India North Annual Conference 2025, 2 March 2025, New Delhi
32. Every Journey Matters, SFM webinar on Birth Defects, 3 March 2025, Online
33. Tackling Maternal weight gain with Yoga", 1st International Conference on Advances in Integrative Medicine -AIM 2025, 7 March 2025, New Delhi

Garima Kachhawa

1. Rudimentary horn: Diagnostic dilemma in adolescence, National Adolescent Health Conference NAHICON 24, 27-28 July 2024, Patna
2. Energy Sources in Hysteroscopy, IAECON 2024 FOGSI IAECC, 8 September 2024, Ghaziabad Delhi NCR
3. Basic infertility Dilemmas- what every gynecologist encounters?, 67th AICOG-2025, 8-10 January 2025, Mumbai
4. Challenges in the Management of Hypertension in Pregnancy, METCAD 2025, 22-23 February 2025, Mussoorie

Reeta Mahey

1. Fertility preservation- case based discussion, Webinar by Special Interest Group (Fertility Preservation), 4 July 2024, Online webinar
2. Counselling for fertility preservation- What a counselor should know, Webinar by Indian Fertility Society, 17 August 2024, Online Webinar
3. Management strategies for infertility in PCOS women, YUVA-ISAR, 26-27 October 2024, Patna, Bihar
4. Ethical dilemmas in fertility preservation and OTC in adolescents, FERTIVISION 2024, 8 December 2024, Ahemdabad

5. Endoscopy before and after IVF, IAGE Conference, 24-26 January 2025, Rajgir, Patna

Vidushi Kulshrestha

1. Ultrasound diagnostic dilemmas: A-V malformations, 4th Annual Conference of Greater Noida Obstetrics & Gynaecological Society (GNOGS), 7 April 2024, Greater Noida
2. Amniotic fluid embolism, 2nd North India Gynaec Forum (NIGF) Annual Conference, organized by UP Chapter of NIGF in collaboration with Gorakhpur Chapter of ISOPARB & Gorakhpur Obs. &Gynaec Society, 27 July 2024, Gorakhpur
3. Sudden Maternal Collapse, 2nd North India Gynaec Forum (NIGF) Annual Conference, 27 July 2024, Gorakhpur
4. Removal of Implant, Training on Subdermal Single Rod Contraceptive Implants (SDI)collaboration with WHO, 6 September 2024, AIIMS, Delhi
5. FAQs: Interactive session, Training on SDI, 6 September 2024, AIIMS, Delhi
6. Medical Eligibility for Implants, Training on SDI, 6 September 2024, AIIMS, Delhi
7. Subdermal implant (SDI) insertion technique, Training of Trainers (ToT) Programme for subdermal contraceptive implant at GJPWMC Hospital, JDWNRH, Thimphu; in collaboration with Ministry of Bhutan and WHO, 15 January 2025, Thimphu, Bhutan
8. Post-insertion Instructions and Follow-up Care, ToTProgramme for SDI, 15 January 2025, Thimphu, Bhutan
9. SDI Removal technique, ToT Programme for SDI, 15 January 2025, Thimphu, Bhutan
10. Post-removal Instructions and Care, ToT Programme for SDI, 15 January 2025, Thimphu, Bhutan
11. Removal of Implant Requiring Special Skill, ToT Programme for SDI, 15 January 2025, Thimphu, Bhutan
12. Eligibility and Client Assessment for Implants, ToT Programme for SDI, 15 January 2025, Thimphu, Bhutan
13. SDI-Care of Arm Model, ToT Programme for SDI, 15 January 2025, Thimphu, Bhutan
14. SDI-FAQs, ToT Programme for SDI, 15 January 2025, Thimphu, Bhutan
15. SDI-Management of Side Effects and Problems, ToT Programme for SDI, 15 January 2025, Thimphu, Bhutan
16. Technical aspects of subdermal implants, Training Programme for SDI, in collaboration with Directorate of Family Welfare, Safdarjung Hospital, 20-21 March 2025, New Delhi
17. Myoinositols in GDM, 36th Annual UP Conference of UPCOG 2025, 23 March 2025, Agra

Seema Singhal

1. Primary HPV Screening or VIA, 16th National Conference of ISCCP, 13 April 2024, Raipur
2. Current Paradigm Shift in Management of Advanced Endometrial Cancer, Webinar on endometrial cancer care, 28 August 2024, AGOI (International webinar)
3. Genital tract microbiome and gynaecological cancers, AOGIN India 2024, 5 October 2024, Puducherry
4. Abnormal vulvar lesions, AOGIN India, 4 October 2024, Puducherry
5. Demonstration of Vulvoscopy, AOGIN India 2024, 4 October 2024, Puducherry
6. Future of MIS in India, 31stAnnual Conference of the Association of Gynaecologic Oncologists of India, 8 December 2024, AGOICON Kochi
7. Clinical Implications of Newer Classifications in Endometrial & Cervical Cancers, Webinar on Implications of Molecular classification of endometrial cancer, 11 December 2024, AGOI (virtual)
8. Fertility Preservation in Gynaecological Cancers, 23rd Annual International Conference – "RGCON 2025", 22 March 2025, RGCI Delhi
9. Hereditary Gynaecological Cancers, IRC RCOG Annual Conference 2025, 1 March 2025, New Delhi
10. Carcinoma Cervix, 3rd Oncology updates 2025, 13 April 2025, New Delhi

Jyoti Meena

1. Interpretation with case scenarios: Normal or Abnormal colposcopy, AOGIN Interim CME on Skill Enhancing Course in Colposcopy & Treatment of CIN, 4 May 2024, AIIMS, New Delhi
2. Cervical Intraepithelial Neoplasia-Difficulty in Decision, CCC-Episode-20 Webinar, 12 June 2024, Online
3. Inappropriate hysterectomy for cancer cervix (Case Presentation), AGOI Case presentation series, 10 July 2024, Online
4. From Misapprehension to revelation: Story of a Pelvic Mass, AOGD Monthly Meet, 30 August 2024, Delhi
5. Introduction to Cervical Cancer Screening: WHO guidelines, WHO-CC Training on Colposcopy and the Management of Precancerous Lesions for Maldives& Sri Lanka MoH officials, 19 August 2024, AIIMS, New Delhi
6. Excisional Procedure: Conization, WHO-CC Training on Colposcopy and the Management of Precancerous Lesions for Maldives& Sri Lanka MoH officials, 21 August 2024, AIIMS, New Delhi
7. Cervical Challenges: Dynamic case based discussion, FOGSI IAECON Conference, 7 September 2024, Ghaziabad Delhi NCR
8. Molecular classification of ca endometrium, CME: Basics to Breakthrough in Gynae Oncology "Series 2 Endometrial cancer, 14 September 2024, Delhi
9. Hypofractionated radiation therapy in gynecologic cancer, 52 ASGO webinar series, 26 September 2024, Online
10. HPV vaccination in special populations, AOGIN 2024 conference, 5 October 2024, Puducherry
11. Exploration of Subspecialty Program in Gynecologic Oncology: Europe and USA, ASGO 2024, 30 November 2024, Bali, Indonesia
12. Current Trends in Educational Material Development for gynecologic oncology, ASGO 2024, 1 December 2024, Bali, Indonesia
13. An update on the clinical development for cervical cancer, ASGO Webinar #55 Review Course 2024: Final Session of the Year, 19 December 2024, Online
14. Beyond Routine Care: Addressing Mental Health in Gynaecological Cancer, 1st NCPO-2025, 5 January 2025, Delhi
15. Fertility sparing in gynaecological cancers; walking the tight rope, 23rd Annual International Conference – "RGCON 2025, 22 March 2025, Delhi
16. Endometrial cancer genetics case-based discussion, FOGSI Gynaecologic Oncology Committee CME on Integrating Genetics in Women cancer care, 29 March 2025, Delhi

Rajesh Kumari

1. Cervical cancer among WLHIV Screening, linkage & Treatment, National distance learning seminar series I-TECH, 20 December 2024, Online

Juhi Bharti

1. Ovulation Induction protocols and brief overview of Assisted Reproductive Technology, Training course on Basic management of infertility for Healthcare Professionals organised by National Institute of Health and Family Welfare, 6 August 2024, Delhi
2. One Stop Fertility Scan, Workshop on USG in infertility at ARTiculate 2024, 2nd Annual conference of IFS, Bihar chapter, 25 August 2024, Patna
3. Tubal Evaluation: SIS, HyCoSy, HyFoSy, Workshop on USG in infertility at ARTiculate 2024, 2nd Annual Conference of IFS, Bihar chapter, 25 August 2024, Patna
4. ART Regulations – What every gyanecologist should know, FUSION 2024, International conference on Reproductive Medicine, 13 September 2024, Jaipur
5. Uterus:Function and structural anomalies, Teaching module of IFS-Amity Program: "Diploma in Clinical ART (DCR), 4 October 2024, Noida
6. Cervix and fallopian tube: Function and structural anomalies, Teaching module of IFS-Amity Program: "Diploma in Clinical ART (DCR), 4 October 2024, Noida

7. Shoulder Dystocia Drill, NARCHI Delhi 2024, 30th Annual Conference, 5 October 2024, Delhi
8. Troubleshooting in Embryo Transfer, FERTIVISION 2024, 20th Annual Conference of Indian Fertility society, 6 December 2024, Ahmedabad
9. Integrative medicine in women health, 1st International Conference on Advances in Integrative Medicine (AIM) 2025: *Ancient Inspiration, Modern Evidence*, 7 March 2025, Delhi
10. Puberty for boys and girls, Puberty workshop at DPS, East of Kailash, 18 March 2025, Delhi

Nilanchali Singh

1. Cancer Prevention in Young women, AOGD Cervical & Breast Cancer Prevention Committee, 29 April 2024, Delhi
2. Shielding Future: Safeguarding Adolescent against Rising Cancer, Adolescent Health Committee, FOGSI & AOGD, 2 May 2024, Online
3. Placenta Accreta Spectrum, Surgical Skills under aegis of FOGSI Safe Motherhood Committee and National Association of Mentors for Adolescent Health (NAMAH), 2 July 2024, Online
4. Cervical Cancer Screening and HPV Vaccination, Moradabad Obs and Gyne Society, 3 July 2024, Online
5. Concerns related to menstrual and pregnancy-related issues in patients with Systemic Lupus Erythematosus (SLE), Indo-Nepal Lupus Awareness Initiative: Lupus, Menstrual and Pregnancy: Your Doubts, 21 July 2024, Online
6. Colposcopy & Treatment of CIN, AOGD Oncology Committee- Colposcopy Workshop Module 2024-2025, 25 July 2024, Online
7. Self-Collection for HPV testing: Challenges and Limitations, Deep Dive into Approaches Towards Cervical Cancer Screening-Understanding the Barriers and Opportunities, 4 February 2025, Online
8. Casebased management of screen positives, North Zone Yuva FOGSI 2025, 21 February 2025, Delhi
9. Hereditary Gynaecological Cancers, Evidence to Excellence: Mastering the Art of Obstetric Decision-Making, 1 March 2025, Online
10. Invasive mole, 13th Webinar of National Society Study of Trophoblastic Disease in India, 8 March 2025, Online

Richa Vatsa

1. Management of Gestational Diabetes Mellitus- For OHAs, Mobicon: Intersection Of Medicine And Obstetric, , 20 April 2024, AIMS, Mohali, Punjab
2. Gender Affirmative Care –Gynecologist's Perspective Management of Differences in Sex Development, Workshop on Child and Adolescent Gender Affirmative Care "Looking at Children and not just Boys & Girls", 8 June 2024, AIIMS, New Delhi
3. Hypertensive Emergency in Pregnancy, ACOG SAFOG FOGSI Postgraduates Virtual Simulation, supported by Stanford University USA, David Geffen School of Medicine at UCLA, USA, AIIMS, New Delhi & Trainee services institute of medical sciences, Pakistan, 27 July 2024, Online
4. Enhancing Prenatal Care: From Chromosomes to Corticosteroids, Organised by OFMAG, 13 August 2024, Online
5. Tips and Tricks of Simple ovarian cystectomy, Yuva IAGE:The Bihar Chapter, 24 January 2025, Rajgir

Deepali Garg

1. Managing the complications of endoscopy, FOGSI certified basic endoscopy training programme, 12 April 2024, Delhi

Archana Kumari

1. Ultrasound in ART: Friends forever, Webinar, 27 June 2024, Online
2. Frozen embryo transfer for all, YUVA ISAR 2024, 27 October 2024, Patna, Bihar

Anju Singh

1. Screening and Treatment Protocol for uniform against resource based (Debate Speaker), ISCCPCON-2024, 13-14 April 2024, Raipur
2. Case Scenarios and discussions on maternal Near Miss, Not to Miss- The Maternal Near Miss Webinar, 21 June 2024, Online
3. Pathogenesis of Cervical cancer with special reference to HPV Infection, WHO-CC Workshop for Maldives and Srilanka Delegates, 19 August 2024, AIIMS, New Delhi
4. Single Visit Approach, WHO-CC Workshop for Maldives and Srilanka Delegates, 23 August 2024, AIIMS, New Delhi
5. Cervical Cancer Screenig- Detect The Detectable, Webinar on Practical Tips in Obstetrics and Gynaecology, 23 August 2024, Online
6. Prevent the preventable and detect the detectable, AOGD 2024, 22 November 2024, New Delhi
7. Clinical Interpretation of VIA, Workshop for ANMs and PHNs on Strengthening Primary Care for Cervical Cancer Prevention, 23 January 2025, New Delhi
8. Demystifying Vulval Conditions, NZYF 2025, 22-23 February 2025, New Delhi

Neha Varun

1. Screening and diagnosis: Controversy to consensus, 39th National conference of Indian society of perinatology and reproductive biology, 27 April 2024, Raipur
2. Contraception in special situations, MTPCON, 31 August 2024, Latur
3. Approach in previous LSCS, NARCHI (workshop), 3 October 2024, Delhi
4. Episiotomy: Video session, NARCHI, 6 October 2024, Delhi
5. Prevent the preventable and detect the detectable., AOGD, 22 November 2024, Delhi
6. Subcutaneous Implants and Demonstration of Implants, East Zone Yuva FOGSI, 20 December 2024, Siliguri
7. Subdermal Implants: Practical tips & tricks, North zone Yuva FOGSI, 23 February 2025, Delhi
8. Safety in Hysterectomy Tips & Tricks, IAGE-AAGL, 15 March 2025, Pune

Soniya Dhiman

1. Shoulder dystocia: Skill & Drill, Postgraduate Academic Fiesta, ABVIMS & Dr RMLH, 28 April 2024, New Delhi
2. Assisted Breech Vaginal Delivery, Postgraduate Academic Fiesta, ABVIMS & Dr RMLH, 10 November 2024, New Delhi

Anubhuti Rana

1. Invasive Procedures in Multiple Pregnancies, SFM Delhi Chapter Online Quarterly Meeting, 29 April 2024, Online
2. Counselling session on Down syndrome in previous pregnancy, Postgraduate Academic Fiesta, 7 July 2024, New Delhi
3. Essence of MNM Reporting, Not to Miss: Maternal Near Miss (organized by National Association of Mentors for Adolescent Health India, NAMAH), 16 August 2024, Online
4. Management of side effects of Implants, Training on Subdermal Single Rod Contraceptive Implants, 6 September 2024, New Delhi
5. Early Prenatal Care: How to get it right?, Daily Practice of Fetal Medicine: Preconference workshop AOGD, 21 November 2024, New Delhi
6. Drugs used for Special Population, International Pharmacology Conference and 54th Annual Conference of Indian Pharmacological Society-IPSCON 2024, 29 November 2024, New Delhi

Sushree Monika Sahoo

1. Beyond the Epidural: Non Pharmacological Labour Analgesia, North Zone Yuva FOGSI-2025, 23 February 2025, Delhi

Swati Tomar

1. Cervical Cancer: Everything you need to know, Pan Caribbean Partnership against HIV and AIDS (PANCAP) Webinar on HPV, Anorectal and Cervical Cancers- Prevention, Screening, Diagnosis and Treatment, 21 May 2024, Online
2. WHO Cervical Cancer Elimination Strategy, FOGSI North Zonal Conference with YUVA 2025, 25 February 2025, New Delhi

LECTURES DELIVERED OVER PAST 3 YEARS

2022-2023	2023-2024	2024-2025
200	170	192

LIST OF ORAL PAPERS/POSTERS PRESENTED: 140

1. Afreen Z, Dadhwal V, Kulshrestha V…..Bharti J11, An insight to incomplete motherhood: Emotional turmoil of women undergoing second trimester medical termination of pregnancy for fetal anomalies, AICOG 2025, 10 January 2025, Mumbai
2. Afreen Z, Dadhwal V, Kulshrestha V…..Vatsa R.7, Emotional response & mental health of women undergoing 2nd trimester medical termination of pregnancy for fetal anomalies., NARCHICON Delhi, 5 October 2024, New Delhi
3. Agarwal M, Vatsa R, Bharti J, Dhiman S., Laparoscopic management of adenomyoma in unicornuate uterus masquerading as functional rudimentary horn., 46th AOGD Annual Conference 2024, 24 November 2024, New Delhi
4. Agarwal S, Bharti J, Bharti S…..Malhotra N, Shared symptoms, divergent paths: Exploring dengue and HELLP in pregnancy., 46th AOGD Annual Conference 2024, 22-24 November 2024, New Delhi
5. Aggarwal A, Deoghare M, Nisha…..Sharma JB.2, A comparative study of complications in two surgical approaches for stress urinary incontinence: Autologous rectus fascia sling surgery and transobturatormidurethral tape., SOVSI, 8-9 February 2025, New Delhi
6. Aggarwal A, Kumari R, Sharma JB…..Deoghare4, Navigating the challenge: Managing huge Gartner's cyst. A video presentation., Urogynaecon 2024, 26 May 2024, Bhatinda
7. Aggarwal A, Sharma JB, Kumari R…..Khan M, Evaluating patient outcomes after the Manchester Operation: A clinical study, 46th AOGD Annual Conference 2024, 22-24 November 2024, New Delhi
8. Aggarwal A, Sharma JB, Kumari R…..Khan M.6, Manchester surgery: Pioneering progress and clinical excellence, RECOGYN 2024, 27-29 September 2024, Gurgaon
9. Aggarwal A, Sharma JB, Kumari R…..Deoghare M, Revitalizing Comfort: A case series on intra-vesical cocktail therapy for bladder pain syndrome management., 1st FEPPA Annual Conference, 20-21 April 2024, Gurgaon
10. Agrawal S, Dhiman S, Yadav A….Malhotra N9, Unveiling maternal and perinatal outcomes in Eisenmenger Syndrome: A case series from an apex institute., 67th AICOG, 08-12 January 2025, Mumbai
11. Anuhya S, Garg D, Sahoo MS....Yadav S, Anterior vaginal wall endometrioma- Masquerading as Gartner's cyst., NARCHICON Delhi, 05 October 2024, New Delhi
12. Bagdi R Sharma KA, Dadhwal V, Rana A, From detection to decision: Managing variants of uncertain significance in prenatal genetic testing- A report of three cases, FMF World Congress 2024, 29 June-3 July 2024, Prague, Czech Republic
13. Bajaj S, Sahoo SM, Meena J….Dadhwal V., Navigating challenges of a metallic valve: A tale of arrhythmia complicating restenosis., NARCHICON, 3 October 2024, New Delhi
14. Bharti J, Malhotra N, Soni S, Swetha GG., Does endometriosis impact ovarian response and oocyte competence in women undergoing IVF.ICSI cycles., FUSION 2024, 15 September 2024, Jaipur

15. Bharti S, Bharti J, Kulshrestha V….Malhotra N., Role of uterine artery embolization (UAE) in management of vascular Retained products of conception with severe bleeding-Experience from a tertiary hospital., 46th AOGD Annual Conference 2024, 24 November 2024, New Delhi
16. Bhati M, Singhal S, Kumari R….Malhotra N., Patterns of emergency care in gynecologic oncology at a tertiary care center: Lessons learned., AGOICON 2024, 06-08 December 2024, Kochi
17. Bhavana, Mahey R, Jayraj AK….Tomar S, An interventional study on effect of laparoscopic ovarian drilling in anovulatory infertile PCOS women resistant to Letrozole + HMG based ovulation induction, 67th AICOG-2025, 8-12 January 2025, Mumbai
18. Bhavana, Mahey R, Jayraj AK….Tomar S, Comparison of laparoscopic ovarian drilling and step- up gonadotropin therapy on follicular response in anovulatory infertile polycystic ovarian syndrome women undergoing ovulation induction cycles- Randomized controlled trail, 20th Annual Conference of the Indian Fertility Society, 6-8 December 2024, Gandhinagar
19. Bhavana, Mahey R, Jayraj AK…Tomar S12, Comparison of laparoscopic ovarian drilling and step- up gonadotropin therapy on follicular response anovulatory infertile polycystic ovarian syndrome women undergoing ovulation induction cycles- Randomised controlled trail, 4th Research Day, AIIMS, 30 January 2025, New Delhi
20. Challa A, Nagpal S, Taneja B….Kachhawa G5, Machine learning based multi-omics data integration for diagnosis of bacterial vaginosis in Indian women, 25th World Congress, International Union against Sexually Transmitted Infections (IUSTI), 17-20 September 2024, Sydney, Australia
21. Challa A, Nagpal S, Tyagi R….Kachhawa G13, Multiomics strategies for elucidation of pathophysiology of bacterial vaginosis., International Conference on Reproductive Biomedicine, 14-16 February 2025, Jaipur
22. Chekuri K, Kaur M, Dadhwal V…. Varun N., Clinical dilemma: Co-existing fetal supraventricular tachycardia and placenta percreta, 46th AOGD Annual Conference 2024, 23 November 2024, New Delhi
23. Chinchewadi A, Sharma A, Rana A….Sharma JB, Successful pregnancy outcome in a rare case of steroid resistant Nephrotic Syndrome, 46th AOGD Annual Conference 2024, 22-24 November 2024, New Delhi
24. Dadhwal V, Sharma KA, Kaur M, Rana A., A case with unique ultrasound features of congenital CMV infection., Fetal Neurocon 2024 – Live demonstration workshop on fetal neurosonography, 09 August 2024, AIIMS, New Delhi
25. Dahiya D, Dadhwal V, Sharma KA, Rana A., Prenatal diagnosis of Vein of Galen Malformation: A case series, Fetal Neurocon, 08 August 2024, New Delhi
26. Das N, Saini SK, Sharma DN…..Singhal S., Bone marrow sparing extended field CRT with ddNACT in Stage IIIC2 carcinoma cervix: A phase II study., ESTRO Congress 2024, 03-07 April 2024, Glasgow, UK
27. Dave K, Negi A, Singh A…Kachhawa G., Facing a postpartum twist: Battling Bell's palsy in hypertensive pregnancy., 46th AOGD Annual Conference 2024, 22-24 November 2024, New Delhi
28. Deoghare M, Sharma JB, Kumari R., Combining Manchester-Fothergill procedure along with iliococcygeous muscle suspension for young women with uterine descent and cervical elongation: A video presentation, Urogynaecon 2024, 26 May 2024, Bhatinda
29. Deoghare M, Sharma JB, Kumari R 3, Various pain manifestations following laparoscopic sacrohysteropexy and sacrcolpopexy, 1st FEPPA Annual Conference, 20-21 April 2024, Gurgaon
30. Deoghare M, Sharma JB, Kumari R…..Aggarwal A, A comparative study of surgical complications in autologous rectus fascia pubovaginal sling surgery and transobturatormidurethral tape procedure for SUI, 49th Annual Meeting of IUGA 2024, 19-22 June 2024, Singapore
31. Deoghare M, Sharma JB, Kumari R…..Khan M, Purandare's cervicopexy in treatment of genital prolapse in reproductive age women, 46th AOGD Annual Conference 2024, 22-24 November 2024, New Delhi
32. Deoghare M, Sharma JB, Kumari R….Khan M, Various mesh related complications following laparoscopic sacrohysteropexy and sacrcolpopexy, RECOGYN2024 3rd World Congress of Reconstructive & Cosmetic Gynaecology, 27-29 September 2024, Gurgaon
33. Deoghare M, Sharma JB, Kumari R….Khan M, A novel technique using autologous rectus sheath for treatment of genital prolapse in reproductive age women: Beyond the traditional, International Continence Society 54th Annual Meeting 2024, 23-25 October 2024, Madrid, Spain

34. Dhiman S, Chaudhary T, Bharti J….Malhotra N, Experience with two different methods of tubal patency testing after introduction of an evidence-based 3D Hysterosalpingocontrast sonography (HYCOSY) with conventional Hysterosalpingography (HSG) technique, NZYF 2025, 21-23 February 2025, New Delhi

35. Dhiman S, Gupta A, Sharma KA….Malhotra N, Rheumatic heart disease in pregnancy: Experience from an apex institute of India, RCOG World Congress 2024, 15-17 October 2024, Muscat, Oman

RESEARCH

Funded

Ongoing

1. A Multicentre Randomised Trial of Screening with sFlt1.PlGF and planned induction delivery to prevent preeclamsia at term, PI- Eduardo Gratacos (Barcelona) PI Dr K Aparna Sharma (India), BCNatal (Hospital Clínic and Hospital Sant Joan de Deu) (Barcelona)-Roche Diagnostics, 2 Years, 2023-2025, Kits provided

2. A Multicentric Evaluation of Indian Population-Specific Tools for Antenatal Estimation of Gestational Age, Dr Shinjini Bhatnagar Dr K Aparna Sharma, DBT, 2 Years, 2024-2026, Rs 35.08 Lakhs

3. A phase-iv single-arm, multicentric, study to assess the safety of SIIPL's QHPV vaccine (cervavac®) when administered in a two-dose schedule to girls and boys aged 9-14 years and in a three-dose schedule to women and men aged 15-26 years, Dr Jyoti Meena, Serum Institute of India Ltd, 1 Year, 2024-2025, Rs 9.24 Lakhs

4. A Prospective Cohort Study on Trajectories of Postpartum Weight, Risk Factors Associated with Weight Retention, and Its Relationship with Metabolic Derangements Till 18 Months, Dr Archana Kumari, DHR, 3 Years, 2023-2026, Rs 52 Lakhs

5. Assessment of markers of Preeclampsia after delivery and correlation with future risk factors of cardio vascular disease in women, Dr Garima Kachhawa, ICMR, 3 Years, 2022-2025, Rs 51.77 Lakhs

6. Augmented intelligent clinical support systems to aid decision-making for pregnancy outcomes after In-Vitro Fertilisation of Intracytoplasmic sperm injection, Professor Neena Malhotra, ICMR, 3 Years, 2025-2028, Rs 120 Lakhs

7. Comparing of PCR based E6.E7 Oncogene detection in cervical cytology and cervical tissue specimen with histopathology in HPV-Positive women, Dr Jyoti Meena, Institute Financial thesis grant, 1 Year, 2024-2025, Rs 2.00 Lakhs

8. Comparison of combined diffusion-weighted and non-contrast MRI with contrast-enhanced MRI in staging of endometrial carcinoma, Dr Swati Tomar, AIIMS Early Career Intramural Grant, 2 Years, 2024-2026, Rs 4.68 Lakhs
9. Counseling of Clients for HPV Self Sampling by ASHAs (Accredited Social Health Activists) and by Physicians: A Randomized, Open-Labelled, Non- inferiority Trial (ASHA-CHAPTER Trial), Science Education and Board Research (SERB), Dr Nilanchali Singh, SERB, 2 Years, 2023-2025, Rs 19.86 Lakhs
10. Development and Validation of phone-based App, Swasth Garbh, for improving antenatal care (ameliorating maternal and fetal health), Dr Vatsla Dadhwal Dr Deepali Garg, DHR ICMR, 3 Years, 2022-2025, Rs 12.81 Lakhs
11. Development of pilot testing of systematic strategy using mobile based application and self-collected samples for cervical screening in female sex workers, Dr Seema Singhal, Dr Sanjay Rai, AIIMS Intramural Grant, 2 Years, 2024-2025, Rs 10 Lakhs
12. Development, implementation and evaluation of Protocolized Cardio-Obstetric Care in improving maternal Cardiac, obstetric and fetal outcomes of Pregnant Women with Heart Diseases in INDIA" also called as–National Pregnancy And Cardiac diseases–INDIA Study Group (NPAC INDIA), Dr Vatsla Dadhwal Dr K Aparna Sharma, ICMR, 4 Years, 2024-2028, Rs 3.34 Lakhs
13. Development, implementation and evaluation of Protocolized Cardio-Obstetric Care in improving maternal cardiac, obstetric and fetal outcomes of Pregnant Women with Heart Diseases in INDIA (NPAC India Study), Dr K Aparna Sharma, ICMR, 3 Years, 2024-2027, Rs 9.84 Lakhs
14. Diagnostic and prognostic value of cell free DNA (cfDNA) in Epithelial ovarian cancer – A cohort study, Dr Seema Singhal, Indian Cancer Research Consortium ICMR, 3 Years, 2023-2026, Rs 98.46 Lakhs
15. Effect of modifiable lifestyle factors on sperm quality in male seeking for infertility treatment: Cross-sectional study, Professor Neeta Singh, Institute Funding, 1 Year, 2024-2025, Rs 2 Lakhs
16. Effectiveness and safety of 2 vs 3 doses of HPV vaccine in preventing cervical cancer: An Indian multi-center randomised trial, Dr Anju Singh (PI since February 2024), IARC-WHO, 2008-2025, Rs 46.53 Lakhs
17. Effectiveness of an individualized lifestyle intervention in PCOS women who wish to conceive- A multicentred randomized controlled trial, Professor Neena Malhotra, ICMR, 5 Years, 2023-2028, Rs 174.23 Lakhs
18. Effectiveness of yoga in reducing anxiety and depression and its impact on reproductive outcome in women undergoing IVF.ICSI: Randomized Control Trial., Professor Neeta Singh, Institute Funding, 1 Year, 2024-2025, Rs 5 Lakhs
19. Efficacy of add-on Ayurveda and Yoga intervention on reproductive and metabolic outcome in women with PCOS undergoing ovulation induction cycles A multicentric randomized controlled trial, Dr Reeta Mahey, Ayush-ICMR, 3 Years, 2025-2028, Rs 200.00
20. Evaluation of efficacy and safety of different dosage of oral micronized progesterone sustained release formulation in treatment of threatened miscarriage and its impact on parameters in immunomodulation and uteroplacental blood flow: A randomized control trial, Dr Anubhuti Rana, Medwiz Healthcare Communication Pvt. Ltd, 1.5 Years, 2024-2026, Rs 40.64 Lakhs
21. Evaluation of efficacy and safety of intravenous ferric carboxymaltose in pregnant and postpartum women with mild to moderate iron deficiency anaemia, Dr Anubhuti Rana, Torrent Pharmaceuticals Ltd, India, 1 Year, 2024, 31 March 2025, Rs 25.08 Lakhs
22. Evaluation of self-collection with an indigenous device and Point of Care HPV test for cervical cancer screening (Self-Care Cervix study), Dr Seema Singhal, ICMR, 3 Years, 2023-2025, Rs 109.43 Lakhs
23. Expression of immune checkpoints in circulation and at maternal-fetal interface and its correlation with whole exome sequencing-based genetic variants in pre-eclampsia., Dr Deepali Garg, ICMR, 3 Years, 2023-2026, Rs 85 Lakhs
24. Immunological Landscapes in Persistent HPV Infection in India, Dr Nilanchali Singh, The Bill and Melinda Gates Foundation, 2 Years, 2024-2026, Rs 133.00 Lakhs
25. Implementation of WHO ANC Model using web based application in primary, secondary and tertiary health care levels by trained health care providers, semi-skilled healthcare providers and community health workers, Dr K Aparna Sharma, DST, 2 Years, 2022-2025, Rs 66.69 Lakhs

26. Novel use of Etonogestrel (ETN) Subdermal Implant (SDI) in adolescents and reproductive age group women with endometriosis and its comparison with Levonogestrel Intra-Uterine System (LNG-IUS): A non-inferiority prospective pilot study, Dr Neha Varun, ICMR, 3 Years, 2025-2028, Rs 61.89
27. Optical Monitoring of Placental Oxygenation and Metabolism, Dr Vatsla Dadhwal Dr K Aparna Sharma, Welcome Leap, 3 Years, 2024-2026, Rs 31.99 Lakhs
28. Optical monitoring of placental oxygenation and metabolism, PI-Dr Shubrabrata Mitra, UCLH PI Dr K Aparna Sharma (India), Wellcome Leap, WEISS (Welcome EPSRC Centre for Interventional and Surgical Sciences), Tommy's, 3 Years, 2023-2026, Rs 31.99 Lakhs
29. Optimizing Maternal Outcomes: Adapting Quantitative Blood Loss Measurement in Routine Maternity Care, Dr K Aparna Sharma Dr Aparna Sridhar, UCLA DGSOM Global Health Seed Grant Program, 1 Year, 2025-2026, Rs 19.30 Lakhs
30. Ovarian tissue cryopreservation for fertility preservation in young cancer survivors – Comparison of slow freezing and vitrification, Professor Neena Malhotra, ICMR, 4 Years, 2020-2025, Rs 87.70 Lakhs
31. Prevalence of Sarcopenic obesity in PCOS and efficacy of individualised lifestyle modifications for Sarcopenic obesity treatment: A Matched Case Control and pre-post intervention study, Dr Deepali Garg, ICMR, 3 Years, 2025-2028, Rs 50 Lakhs
32. Prospective evaluation of etiological factors, trajectory of comorbidities and, efficacy and safety of various therapeutic agents among Indian women with Polycystic ovary syndrome (PCOS) : A Multicentric ICMR-PCOS Cohort Study Phase-II, Professor Neena Malhotra, ICMR, 5 years, 2023-2028, Rs 146.95 Lakhs
33. Role of Artificial Intelligence in Fetal Imaging Workflows; Prospective Evaluation, Dr K Aparna Sharma, Origin AI, 1 Year, 2024-2025, Rs 14.60 Lakhs
34. Role of Autologous Stem Cells and Platelet rich plasma therapy for regenerating endometrium in women with Asherman's syndrome and atrophic endometrium – A Pilot study, Professor Neena Malhotra, ICMR, 3 Years, 2023-2026, Rs 102.00 Lakhs
35. Role of Serum Autotaxin in Intrahepatic Cholestasis of Pregnancy in Indian Women, Dr Soniya Dhiman, Institute Intramural Grant, 2 Years, 2021, Extended for 2024-2025, Rs 5 Lakhs
36. Role of Vaginal Estrogen Cream in Management of Sexual Dysfunction in Cervical Cancer Survivors: A Randomized Double-blinded Placebo-Controlled Trial (ESTRO-CERVA Study), Dr Nilanchali Singh, AIIMS Early Career Intramural Project, 2 Years, 2025-2026, Rs 5 Lakhs
37. Root cause analysis (RCA) of non-responders to Iron folic acid treatment among women of reproductive age (WRA) at community setting, Professor Neena Malhotra, ICMR, 3 Years, January 2025, January 2028, Rs 200 Lakhs
38. SAHELI: Study and Action on Hysterectomy: Evidence on Women's Health through the Life Course in India", Dr Archana Kumari, DBT Wellcome India Alliance, 4 Years, 2024, 2028, Rs 31.36 Lakhs
39. Smartphone app for management of gestational diabetes mellitus in urban and rural settings in India: A randomized controlled trial, Dr Deepali Garg, ICMR, 3 Years, 2022-2025, Rs 65 Lakhs
40. Targeted bile acid metabolomics in patients with intrahepatic cholestasis of pregnancy and its correlation with perinatal outcomes: A prospective observational cohort study, Dr Sushree Monika Sahoo, AIIMS Early Career Intramural Grant, 2 years, 2024-2026, Rs 10 Lakhs
41. To evaluate the role of urinary HPV DNA test for cervical cancer screening using INNO-LiPA genotyping: a pilot study, Dr Jyoti Meena Dr Aashish Choudhary, Interdisciplinary Collaborative Intramural Research Project, 2 Years, 2024-2026, Rs 6 Lakhs
42. Use of Artificial Intelligence for the ultrasound assessment of fetal biometry- Comparison of automated to manual measurement of estimated fetal weight, PI- Dr Asma Khalil (London) PI Dr K Aparna Sharma (India), St Georges University -Samsung, 2 Years, 2025-2027, USG machine
43. Validation of performance of multiparametric risk prediction models for preeclampsia in early pregnancy and determination of the best fit model for Indian Population, Dr K Aparna Sharma, AIIMS-THSTI, 2 Years, 2024-2026, Rs 5 Lakhs
44. Validation study of indigenous HPV tests for cervical cancer screening (i-HPV)", Dr Neerja Bhatla Dr Seema Singhal, BIRAC, 2 Years, 2023-2025, Rs 71.15 Lakhs

Completed Projects

1. Evaluation of newer molecular methods and antigen based diagnostic modalities against RNTCP recommended methods in EARLY DIAGNOSIS of Female Genital Tuberculosis, Professor J B Sharma, Central TB Division, Ministry of Health and Family Welfare, 3 Years, 2020-2024, Rs 67 Lakhs
2. A Phase-II/III, Partially Double-blind, Randomized, Active-controlled, Multicentric Study to Assess the Immunogenicity and Safety of SIIPL's qHPV Vaccine Administered Intramuscularly in Healthy Volunteers According to a Two-dose Schedule to Cohort 1 (Girls and Boys Aged 9-14 years) and a Three-dose Schedule to Cohort 2 (Women and Men Aged 15-26 years) as Compared to Merck's HPV6 November 16/18 vaccine (Gardasil®), PI-Dr Anju Singh (Since February 2024), Serum Institute of India Pvt. Ltd, Pune, 5 Years, 2018-2024, Rs 3.47 Lakhs
3. A randomised controlled trial to study the outcome of 'Routine episiotomy' versus 'No episiotomy' on perineal injury and pelvic floor dysfunction during normal vaginal delivery among primigravida women: A pilot study., Dr Archana Kumari, AIIMS intramural grant, 2 Years, 2021-2023 extended till 2024, Rs 8.80 Lakhs
4. A Randomized controlled trial of Autologous Rectus Fascia Pubovaginal sling versus Mid-Urethral Sling procedure versus Burch Colpo suspension in women with stress urinary incontinence, Professor J B Sharma, ICMR, 3 Years, 2019-2024, Rs 70 Lakhs
5. A randomized controlled, assessor blind, parallel groups, multicenter trial in India comparing the efficacy and safety of FE999049 (follitropin delta) with follitropin alfa (GONAL-F) in controlled ovarian stimulation in women undergoing an assisted reproductive technology programme, Professor Neena Malhotra, Ferring Pharmaceuticals, 2 Years, 2022-2024, Rs 25 Lakhs
6. App-Based Intervention for Improving Cancer Knowledge among Gynecological Cancer Patients- GYNACANCER App, Dr Nilanchali Singh, AIIMS Intramural grant, 1 Year, 2023-2024, Rs 2 Lakhs
7. Assessing & creating fertility awareness among youth in premier Indian Technical Institutions., Professor Neeta Singh, Melinda & Gates Foundation, 4 Years, 2020-2024, Rs 5 Lakhs
8. Characterization of the uterine microbiota from women with unexplained infertility and recurrent implantation failure planned for in-vitro-fertilization (IVF)- A pilot study, Professor Neena Malhotra, AIIMS Research Grant, 2 years, 2022-2024, Rs 10,00,000
9. Circulatory exosomal microRNA as marker of endometriosis- A Pilot study., Dr Juhi Bharti, Intramural-AIIMS, 6 Years, 2018-2024, Rs 10 Lakhs
10. Development of Gynae Cancer Care app to improve patient experience, Dr Seema Singhal, AIIMS UG grant, 1 Year, 2023-2024, Rs 2 Lakhs
11. Development, Validation, and Feasibility Assessment of an Artificial Intelligence-Based System for First Trimester Fetal Ultrasound Imaging and Interpretation: A Retrospective Multi-Center Study, Dr K Aparna Sharma, Origin AI, 1 Year, 2023-2024, Rs 8.80 Lakhs
12. Effect of Yoga on maternal and perinatal outcome in Pregnancy with department of Science and Technology, Professor J B Sharma, DST Ayush, 3 Years, 2020-2024, Rs 37 Lakhs
13. Evaluation of stress biomarkers in pregnancy and correlation with maternal-fetal outcomes, Dr Anju Singh, AIIMS early career intramural grant for research project, 2 years, 2021-2024, Rs 5 Lakhs
14. National Registry on SARS-COV-2- infection among pregnant women and their neonates (PanInPreg COVID Registry), Prof Vatsla Dadhwal, ICMR (COVID registry), 5 Years, 2020-2024, Rs 2.01 Lakhs
15. Phase IV study of Dienogest (Visanne) amongst Indian women with endometriosis in real world clinical practice (VISAGE study)., Dr Vidushi Kulshrestha, Bayer pharmaceuticals, 1.5 Years, 2023-2024, Rs 1 Lakh
16. Rapid point of Care Detection of HPV-Associated Malignancies, Dr Rajesh Kumari (PI since 2024), NCI, USA through Arizona State University, USA, 5 Years, 2017-2024, Rs 2.98 Lakhs
17. Validation of Preeclampsia Congo Red Detection kit (Point-of-Care test): Multicentric trial, Dr K Aparna Sharma, Perkin-Elmers, 2 Years, 2019-2024, Funding for Kits

Departmental projects (including thesis/dissertations)

Ongoing

1. A Multicentre Randomised Trial of Screening with sFlt1.PlGF and planned induction delivery to prevent preeclamsia at term.
2. A Multicomponent intervention for strengthening respectful maternity care-Quality improvement study. (MS Thesis)

3. A Prospective Cohort Study to Evaluate the Feasibility and Accuracy of Fetal Vibroacoustic Stimulation as a Tool for Prenatal Screening for Hearing loss.
4. A Prospective Study to Compare Early versus Late Postpartum Oral Glucose Tolerance Test Screening in Patients with Gestational Diabetes.
5. A randomised Controlled Trial to study the effect of autologous intrauterine Platelet Rich Plasma infusion on pregnancy outcomes in women with previous Implantation failures undergoing Frozen Thawed Embryo Transfer Cycles. (MS Thesis)
6. A study to assess midbrain measurements appropriate for gestational age fetuses in second and third trimester. (MS Thesis)
7. Adverse perinatal outcomes in pregnancies with small for gestational age fetuses as compared to growth restricted fetuses as per the delphi consensus and appropriately grown fetuses. (MS Thesis)
8. An open labelled, three-armed, randomised, placebo-controlled trial to study the effect of intra-ovarian platelet-rich plasma versus autologous adult bone marrow-derived stem cell instillation in poor ovarian responders. (MCh Thesis)
9. Apixaban in Prevention of Venous Thromboembolism in Advanced Epithelial Ovarian Cancer receiving Neoadjuvant Chemotherapy: A Randomized Controlled Open-label Clinical Trial. (MCh Thesis)
10. Assessment of Fetal liver parameters in patient with high risk of fetal growth restriction. MS Thesis)
11. Assessment of various factors affecting follicular response to letrozole treatment in infertile women with PCOS. (MS Thesis)
12. Cabergoline as an adjunct to ovulation induction in infertile women with endometriosis- Open label RCT. (MS Thesis)
13. Clinical Efficacy of autologous fascia lata and urethral sling versus polypropylene mesh outside-in transobturator tape in management of Stress urinary incontinence. (MS Thesis)
14. Clinical Efficacy of Levonorgesterol Intrauterine System versus Etonogestrel Implant in the management of Symptomatic Adenomyosis.
15. Clinical efficacy of LNG-IUS Vs Etonogestrel Implant in the management of symptomatic adenomyosis-A randomized trial.
16. Comparison of combination of dinoprostone vaginal insert and intracervical foleys catheter vs dinoprostone vaginal insert for Cervical ripening in term induction- Randomized Controlled Trial. (MS Thesis)
17. Comparison of efficacy of urine and cervical HPV DNA for cervical cancer screening in pregnant women. (MS Thesis)
18. Comparison of flexible progestin-primed ovarian stimulation protocol (PPOS) with flexible GnRH antagonist protocol in polycystic ovary syndrome (PCOS) women undergoing IVF/ICSI cycles: A pilot randomized controlled trial. (MCh Thesis)
19. Comparison of oral Iron vs FCM in pregnant females with iron deficiency Anemia: An open labelled Randomized Controlled Trial. (MS Thesis)
20. Comparison of oral versus intramuscular vitamin b12 therapy in antenatal women with anemia with vitamin b12 deficiency- open label- non inferiority RCT. (MS Thesis)
21. Comparison of outcome of transabdominal and transvaginal cervical cerclage in improving perinatal outcome: case-control study.
22. Comparison of PCR based E6/E7 Oncogene detection in cervical cytology and cervical tissue specimen with histopathology in HPV-positive women. (MCh Thesis)
23. Comparison of the impact of telegenetics and in-person genetic counselling on patient satisfaction and acceptance of genetic testing in women with Epithelial Ovarian Cancer. (MCh Thesis)
24. Correlation between clinical features of adenomyosis and MUSA features. (MS Thesis)
25. Correlation of CA 125 KELIM (elimination rate constant k) and Chemotherapy Response Score (CRS) in patients with High grade Epithelial ovarian cancer undergoing interval cytoreductive surgery. (MS Thesis)
26. Correlation of CA125 and chemotherapy response score in patients with high grade serous epithelial ovarian carcinoma undergoing interval cytoreductive surgery. (MS Thesis)

27. Correlation of paired urinary HPV DNA and provider sampled cervical HPV DNA for cervical cancer screening in pregnant women.
28. Does rTMS (Repetitive transcranial magnetic stimulation) improve the outcome of in vitro fertilization in infertile women with moderate to severe depression: A pilot randomized controlled trial. (MS Thesis)
29. Efficacy of co-administration of clomiphene citrate and letrozole to conventional GnRH antagonist protocol in expected poor responders undergoing IVF/ICSI cycles: A Randomized Controlled Trial. (MCh Thesis)
30. Efficacy of LNG IUS vs Implant in management of HMB and pain in adenomyosis. (MS Thesis)
31. Evaluation of coagulation status in postpartum patients in a tertiary care hospital.
32. Evaluation of maternal ophthalmic artery doppler indices in pregnant women with preeclampsia versus suspected preeclampsia. (MS Thesis)
33. Evaluation of Positron Emission Tomography- Peritoneal Carcinomatosis Index (PET- PCI) in disease assessment of women with advanced ovarian cancer undergoing surgery. (MCh Thesis)
34. Exploring the role of cervical metagenomics in acquiring HPV infection, its persistence and its association with cervical precancerous lesions. (MCh Thesis)
35. Fertility related quality of life in and depressive anxiety symptoms in infertile couple with male factor infertility – cross sectional study. (MS Thesis)
36. Fluorescence guided surgery using Near-infrared (NIR) imaging for detection of peritoneal metastases in patients undergoing cytoreductive surgery in epithelial ovarian cancer-A feasibility study. (MCh Thesis)
37. Frailty assessed with G8 questionnaire and FRAIL scale as a predictor of postoperative complications in elderly women with gynaecological malignancies. (MCh Thesis)
38. Impact of menopausal symptoms and coping strategies on quality of life of menopausal females. (MS Thesis)
39. Impact of Mindfulness Meditation on Neurocognitive Functions in Gynaecological Cancer Survivors: A Randomized Controlled Trial. (MCh Thesis)
40. Impact of yoga on the quality of life of epithelial ovarian cancer survivors: a pilot study. (MS Thesis)
41. Multiparametric evaluation of bone health in women with premature ovarian insufficiency: Prospective cross-sectional study. (MS Thesis)
42. Optimal dose and duration of Letrozole for Ovulation Induction in Infertile Women with Polycystic Ovarian Syndrome: A Randomised Controlled Trial. (MS Thesis)
43. Prediction of small for gestational age neonates at 18-24 gestational weeks by uterine artery doppler, maternal factors and estimated fetal weight- An Ambispective cohort study. (MS Thesis)
44. Prevalence and clinical profile of Caesarean Scar Defect and Caesarean Scar Disorder after Caesarean Delivery. (MS Thesis)
45. Progesterone-primed versus conventional antagonist stimulation during the luteal phase in poor ovarian responders undergoing DuoStim protocol- a pilot study. (MCh Thesis)
46. Role of cardiovascular markers in predicting adverse maternal and perinatal outcomes in women with preeclampsia. (MS Thesis)
47. Role of Pre-treatment Controlling Nutritional Status (CONUT) Score and Fibrinogen-Albumin (FA) Score in prediction of surgical outcomes and postoperative complications rate in women with Epithelial ovarian cancer undergoing cytoreductive surgery. (MCh Thesis)
48. Role of serum estradiol levels in letrozole-FET versus HR-FET cycles: A pilot randomized controlled trial.
49. Safety of Eptacog Alfa in Severe Postpartum Haemorrhage in India: A Phase IV Interventional Study
50. The development and evaluation of an artificial intelligence (AI) image recognition device to improve cervical pre-cancer screening and management in low-and middle-income countries (Save Cervix).
51. The role of combined hormonal pill (ethinyl estradiol plus levonorgestrel) before hysteroscopy polypectomy in reproductive-aged women: “A randomised double blinded placebo-controlled trial”. (MS Thesis)
52. To assess role of trans-perineal ultrasonography in postmenopausal women for pelvic floor function. (MS Thesis)
53. To compare ESI and Cu IUCD in terms of contraceptive efficacy and side effect profile. (MS Thesis)

54. To compare slow freezing and vitrification techniques in ovarian tissue cryopreservation for fertility preservation in cancer survivors
55. To compare the effect of endometrial preparation using natural cycle versus hormone replacement cycle on frozen embryo transfer outcomes in ovulatory infertile women: A randomised controlled trial. (MCh Thesis)
56. To compare the efficacy of Stop GnRH agonist-antagonist protocol with conventional IVF stimulation protocols (GnRh antagonist protocol and long GnRh agonist protocol) in terms of IVF outcomes: A randomized controlled trial.
57. To compare the patient-reported outcomes during infertility workup after introducing an evidence-based three-dimensional/four-dimensional Hysterosalpingo-Contrast Sonography over conventional Hysterosalpingography technique: A Randomized Controlled Trial. (MS Thesis)
58. To compare the safety and efficacy of repeated GnRH agonist injections versus rescue hCG for modified luteal phase support in predicted hyper-responders undergoing IVF cycles: A randomized controlled trial. (MCh Thesis)
59. To Evaluate the Effect of Dietary Intervention on Gestational Weight Gain among Pregnant Women: A Randomised Controlled Trial. (MS Thesis)
60. To evaluate the effect of Ormeloxifene on unscheduled vaginal bleeding in women using LNG-IUS. (MS Thesis)
61. To study the contraceptive efficacy and side effects of sub-dermal contraceptive implant (Implanon): Prospective Cohort study.
62. To study the Effect of transcervical intralesional vasopressin on duration of surgery in women undergoing hysteroscopic myomectomy: A randomised controlled trial. (MS Thesis)
63. To study the efficacy of Cabergoline as an adjunct to Metformin in management of overweight & obese women with PCOS. (MS Thesis)
64. To Study the prevalence of metabolic syndrome and to evaluate the diagnostic accuracy of neck circumference as a screening tool for metabolic syndrome in women with PCOS- Cross sectional study. (MS Thesis)
65. Use of Artificial Intelligence for the ultrasound assessment of fetal biometry- Comparison of automated to manual measurement of estimated fetal weight.
66. Use of sHLA-G as potential biomarker of embryo quality for clinical outcomes in women undergoing IVF/ICSI non donor cycles- A prospective observational study. (MCh Thesis)
67. Venlafaxine versus Placebo for Treatment of Vaso-motor Symptoms in Gynecological Cancer Survivors: A Double-blind, Randomized, Placebo-controlled Trial. (MCh Thesis)

Completed

1. A prospective double blind randomized controlled trial comparing clinical pregnancy rates between conventional benchtop incubator and time lapse imaging in women undergoing IVF/ICSI non donor cycles. (MCh Thesis)
2. A randomized Controlled Trial on efficacy of single dose of intraoperative dexamethasone in reducing post op pain in C section. (MS Thesis)
3. Assessment of cognitive function among Indian women with ovarian, fallopian tube and primary peritoneal cancer-pilot study. (MS Thesis)
4. Azithromycin based extended spectrum prophylaxis for cesarean delivery- A Randomized Controlled Trial. (MS Thesis)
5. Clinical outcomes and biological characteristics of ovarian cancer patients with germline mutations in hereditary ovarian cancer predisposing genes and acceptance of cascade testing in Indian women. (MCh Thesis)
6. Clinicopathological Profile and Obstetric Outcome of Pregnant Women with Persistent Adnexal Masses
7. Comparison between patient-controlled analgesia and multimodal parenteral analgesia for pain relief in 2nd trimester abortions. (MS Thesis)
8. Comparison of effect of cabergoline versus dienogest in serum proinflammatory markers in endometriosis. (MS Thesis)
9. Comparison of induction of labor with conventional vs Spaced regimens of dinoprostone gel in women with unfavourable Bishop. (MS Thesis)

10. Comparison of Maternal Childbirth Experience: Labour Care Guide vs Modified WHO Partograph with Maternal Childbirth Experience Scale (MCBES)
11. Comparison of risk assessment and surveillance protocol with routine antenatal care for prediction of fetal growth restriction and adverse perinatal outcome- Randomized Controlled Trial. (MS Thesis)
12. Correlation of Neutrophil Lymphocyte Ratio and Platelet Lymphocyte Ratio with Chemotherapy Response Score (CRS) in Patient of Advanced Stage Epithelial Ovarian Cancer. (MCh Thesis)
13. Development And Validation of a Predictive Model For Vaginal Birth After Caesarean Section Based on Demographic, Clinical and Ultrasound based Factors.
14. Efficacy of extended regimen of letrozole in infertile women with PCOS-A Randomized Controlled Trial. (MS Thesis)
15. Emotional response and mental health of women undergoing second trimester Medical Termination of Pregnancy for fetal anomalies. (MS Thesis)
16. Evaluation of bone health and menopausal symptoms in gynaecological cancer survivors. (MS Thesis)
17. Evaluation of circulating microRNA in women with and without polycystic ovarian syndrome and their correlation with IVF Outcomes: A case-control study. (MCh Thesis)
18. Evaluation of knowledge, attitude, perception and concerns regarding COVID 19 vaccine among pregnant and lactating women
19. Evaluation of outcomes of modified McIndoe vaginoplasty using amnion in patients with vaginal agenesis
20. Feasibility and Outcome of Minilaparotomy Assisted Laparoscopic Myomectomy For Large Myomas
21. Immature platelet parameters in pregnancies identified as screen positive for preeclampsia- Prospective Comparative study. (MS Thesis)
22. Nutritional Assessment of Women with Gynaecological Cancers and the Impact of Focused Prehabilitation Protocol on Nutrition and Perioperative Outcomes after Interval Debulking Surgery. (MCh Thesis)
23. Placebo controlled randomized trial to assess the use of antibiotic prophylaxis for non hysterectomy gynecological laparoscopic surgeries. (MS Thesis)
24. Pregnancy Outcomes in Women with Complete Heart Block: Experience from a Tertiary Care Hospital
25. Randomized Controlled Trial to study effect of ovarian drilling vs step up gonadotrophin therapy in anovulatory infertile women with PCOS undergoing OVI cycles. (MS Thesis)
26. Role of 3D volume rendering of CT Imaging for preoperative evaluation of disease extent in epithelial ovarian cancer. (MS Thesis)
27. Role of ethanol sclerotherapy on ovarian reserve and reproductive outcome in women with endometriomas. (MS Thesis)
28. Role of IETA USG criteria and hysteroscopy in assessment of endometrial lesion in AUB. (MS Thesis)
29. Soluble E-selection level in women with polycystic ovarian syndrome and its Comparison with QRISK-3 Score as a marker of Cardio-Vascular Risk.
30. Sun-endometrial instillation of platelet-rich plasma in women with thin endometrium undergoing in-vitro fertilization cycles- A feasibility study. (MCh Thesis)
31. To assess the antiseizure drug blood concentration of pregnant women with epilepsy in each trimester for detection of any pharmacokinetic variation compared to baseline level and to evaluate pregnancy related maternal and neonatal outcomes in women with epilepsy on anti-seizure medication therapy.
32. To study incidence of OASIS in postpartum women using intraoital ultrasonography. (MS Thesis)
33. To Study the Efficacy of Lignocaine in Distension Medium in Improving Pain Score During Office Hysteroscopy: A Double Blind Randomized Controlled Trial. (MS Thesis)

Collaborative projects

Ongoing

1. A comparative study to evaluate the HPV 16.18 testing with the NeuMoDx™ System(s) and Hybrid capture HC2, Department of Laboratory Oncology, IRCH

2. A descriptive cross-sectional study to assess Knowledge, Attitude and Practice regarding contraceptives among pregnant women coming to Gynae OPD AIIMS Delhi, College of Nursing
3. A Morphological Study of Human Temporomandibular Joint Articular Disc, Department of Anatomy
4. A Phase3, Double-Blind, Placebo Controlled, Multicenter Clinical Study comparing Chemo-Immunotherapy (Paclitaxel-Carboplatin-Oregovomab) versusChemotherapy (Paclitaxel-Carboplatin-Placebo) in Patients with Advanced Epithelial Ovarian, Fallopian Tube or Peritoneal Carcinoma" (FLORA-5), Medical Oncology
5. A prospective cohort study to assess the breast-feeding rate and analyze the predictors of low milk volume among mothers of preterm admitted in a tertiary care facility, College of Nursing, AIIMS, New Delhi
6. A Randomised, Double-blind, Placebo-controlled, Phase III Study of Olaparib Maintenance Monotherapy in Participants with BRCA Wild Type Advanced (FIGOStage III-IV) High Grade Serousor Endometrioid Ovarian Cancer Following Response to Standard First-linePlatinum-based Chemotherapy (MONO-OLA1), Medical Oncology
7. A study on vascular functions and their associated molecular markers in women with ovarian endometriosis, Physiology
8. A Two-Arm Longitudinal Randomized Control Trial to Evaluate the Bone Protective Role of an Ayurveda Formulation in Postmenopausal Females., Department of Lab Medicine
9. Abnormal metabolism and gonadotropin-imbalance: Exosomal metabolomic profiles in Granulosa cells and follicular fluid of polycystic ovary syndrome patients with and without insulin resistance., Department of Zoology, University of Delhi
10. Aptamer-based diagnostic test for vulvovaginal candidiasis, Department of Dermatology
11. Assessment of Anxiety and Depression in Patient with Epithelial Ovarian Cancer After 1st line Chemotherapy: A Cross-sectional Observational Study, Department of Psychiatry
12. Augment cognition of adolescent girls and community on menstrual health and hygiene on prototype through the integration of state-of-the-art tools and emerging technologies with Behaviour Change and Participatory Communication for sustainable development, Birla Institute of Technology, Mersa, Noida
13. Bone marrow sparing extended field CRT with ddNACT in stage IIIC2 carcinoma cervix: A phase 2 study, Radiation Oncology
14. Cisplatin-encapsulated HPV virion-based targeted delivery vehicle validation on cervicotomy samples using high-resolution cryo-electron tomography, Department of Electron Microscopy
15. Comparative evaluation of sphenopalatine ganglion block and dexmedetomidine nebulization for treatment of post – dural puncture headache in obstetrics patients: a randominsed trial, Department of Anesthesiology, Pain Medicine & Critical Care –
16. Comparison of stress response in newborn delivered via caesarean section under general anaesthesia versus regional anaesthesia: a prospective observational study, Department of Anaesthesiology
17. Decoding Congenital Hereditary Endothelial Dystrophy (CHED) and correlating genotype and microbiome with clinical outcomes and exploring the potential for Gene Therapy, Department of Ophthalmology
18. Development of a transvaginal probe-based dermatoscope with automated AI-enabled decision support for detection of cancers and infections, Department of Dermatology & Indian Institute of Information Technology, Design and Manufacturing, Kancheepuram
19. Development of an Aptamer-based point-of-care diagnostic test for preterm risk assessment through salivary estriol measurement using a commercially available glucometer, IIT-Delhi
20. Development transvaginal probe- based dermatoscope with automated AI-enabled decision support for detection of cancers and infection. Funded by ICMR (First in the World Challenge), Department of Dermatology and Venereology. AIIMS, New Delhi
21. Effect of pre-operative and post-operative counselling on prevalence of depressive symptoms, anxiety and stress in women planned for gynecological surgery, Department of Psychiatry
22. Effect of structured yoga on polycystic ovarian syndrome (PCOS)., Department of Anatomy
23. Efficacy and safety of depot leuprolide acetate on ovarian toxicity of monthly intravenous cyclophosphamide in young female patients with systemic autoimmune rheumatic diseases: A randomized controlled trial, Medicine

24. Establishing a registry for breast and ovarian cancan with mutations in hereditary cancer predisposition genes and germline DNA repository at AIIMS, New Delhi, Medical Oncology
25. Evaluation of coagulation status in postpartum females, Department of Lab Medicine
26. Evaluation of salivary biomarkers as compared to established serum biomarkers in predicting pre –eclampsia: A nested case control study, Department of Lab Medicine
27. Evaluation of the effect of fibrinogen on peripartum haemorrhage in Placenta accreta spectrum (PAS) disorders, a double blind randomized controlled trial., Department of anaesthesiology
28. Exploring HSA-MIR-1290 and its targets in idiopathic recurrent pregnancy loss, Department of Bio-physics
29. Exploring the genomic footprints and their connotations in vulvar squamous cell carcinoma, Pathology
30. External delivery of Cisplatin using HPV based nanocarriers for treatment of cervical cancer, Department of Electron Microscopy
31. Genetic determinants of premature and primary ovarian failure., Department of Anatomy
32. Hypo-fractionatedradiotherapyincervicalcancer A non-inferiority randomized controlled trial, Radiation Oncology
33. Identifying Dysregulation of miRNAs and their targets in Idiopathic Recurrent Pregnancy Loss., Department of Bio-physics
34. Implementation Research to Enhance Screening, Early Diagnosis and Initiation of Treatment for Oral, Breast and Cervical cancer in Selected Districts of India, Preventive Oncology
35. Late-night salivary cortisol levels among pregnant and postpartum women and in women using oral contraceptive pills, Department of Endocrinology
36. Low dose Oral Metronomic Cyclophosphamide and Etoposide combination in Recurrent. Refractory High Grade Endometrial Cancer, a Single Arm Phase 2 Study, Medical Oncology
37. Molecular Mechanisms involved in the development of insulin resistance by the environmental exposure of phthalates, Department of Ocular Pharmacology, RPC
38. Palbociclib and Anastrozole for patients with Estrogen receptor positive recurrent of metastatic endometrial cancers: A single arm phase 2 study, Medical Oncology
39. Point-of-care test development for Bacterial Vaginosis (BV): Bench to bedside (Clinical validation of proof-of-concept), Department of Microbiology
40. Predictors of breastfeeding failure in late preterm infants at 6 weeks of postnatal age: A prospective cohort study., Department of Pediatrics
41. Prevalence of dynapenia. sarcopenia and its association with metabolic parameters, body composition and bone mineral density in postmenopausal women: A cross-sectional study., Department of Medicine
42. Project entitled “Characterization of the uterine microbiota from women with unexplained infertility and recurrent implantation failure planned for in-vitro-fertilization (IVF)- a pilot study”, Department of Microbiology
43. Qualitative identification of HPV-16 virus in cervical cytology with PAP negative samples, Department of Electron Microscopy
44. Real world safety and efficacy of PARP inhibitors in platinum-sensitive epithelial ovarian cancer: a retrospective analysis, Medical Oncology
45. Role of Bisphenol A in pathogenesis of PCOS: A case control study., Department of Ocular Pharmacology
46. Study of oxidative stress on sperm Shelterin expression and Chromatin function in infertile males, Department of Reproductive Biology
47. To compare the opioid sparing effects of combination of dexamethasone, paracetamol and ketorolac (DexPak) VS paracetamol, ketorolac (PaK) in patients undergoing total laparoscopic hysterectomy: A prospective double blind randomized controlled trial., Department of Anaesthesiology, Pain Medicine & Critical Care
48. To evaluate the role of ultrasonography and MRI in the Mapping of deep pelvic endometriosis using the idea protocol., Department of Radiodiagnosis

49. To investigate metabolic perturbations in Endometrial Cancer by targeted transcriptomic approach in Indian cohort, Pathology
50. Understanding the impact of a ketogenic diet and yoga therapy on the gut microbiome and serum metabolites in polycystic ovary syndrome (PCOS) : A case control study, Department of Anatomy

Completed

1. Assessment of novel salivary biomarkers as compared to established serum biomarkers in predicting pregnancy complications and adverse outcomes-a pilot study, Department of Lab-medicine
2. Augmenting Cervical Cancer Elimination Effectively in a Region utilizing Affordable Technology (ACCELERATE) to enhance cervical cancer screening services for achieving WHO Target goals in the North-East Region of India., A FOGSI-FIGO grant
3. Development of a metabolite-based point-of-care test for diagnosis of bacterial vaginosis in Indian women., Department of Dermatology and Venereology, AIIMS, New Delhi
4. Evaluation of serum placenta derived pregnancy specific beta-1 glycoprotein as marker of preeclampsia, Department of Lab-medicine
5. Exploring male factor in recurrent pregnancy losses: A genomic & proteomic based approach, Department Of Bio-Physics
6. Exploring proteomic and genomic factors associated with idiopathic recuurent pregnancy losses in male partner of affected couples, Department of Bio-physics
7. Expression analysis of miRNAs linked to oxidative stress marker sperm proteins in idiopathic recurrent pregnancy loss, Department of Bio-physics
8. Psychological Trauma in Pregnancy Loss: Development of a Multidimensional Assessment Tool and a Group Intervention Module", Department of Psychiatry
9. Role of Aptamer technology for detection of Sialidases of Bacterial Vaginosis (BV) associated bacteria., Department of Microbiology
10. To evaluate combination of biochemical and biophysical marker in prediction of preeclampsia., Department of Physiology, AIIMS, New Delhi

PATIENT CARE

In addition to services at AIIMS Main Hospital, Gynae Cancer Clinics are running at IRCH thrice weekly. The department provides round the clock obstetrics and gynaecology services to patients at CRHSP, Ballabhgarh. The complete range of gynecological oncology services is being provided at NCI, Jhajjar.

a. Facilities available in the department (including special clinics and/or special laboratory facilities)

- Antenatal clinic
- High risk pregnancy clinic
- Postnatal clinic
- Family Planning clinic
- IVF Clinic
- Gynae Cancer Clinic (at IRCH)
- Preventive Oncology services
- Gynae endocrinology clinic
- Menopause clinic
- Urogynaecology clinic
- OPD at National Centre for Ageing
- Diet and Yoga classes for antenatal women
- Onco-fertility OPD
- Birth Planning and Labour ward Tour
- Breast feeding Classes

b. Community Services / Camps

- International Yoga Day was celebrated in the department on 21 June 2024.

- Celebrated “Mobilisation Fortnight” (Dampati Sampark Pakhwada) from 27 June to 10 July 2024.
- Celebrated “Population Stabilisation Fortnight” (Jansankhya Sthirta Pakhwasa) from 11 to 24 July 2024.
- On the occasion of World Population Day, 11 July 2024, patient education and awareness related posters were displayed in patient care areas by the family planning unit and 3 Naukkad Nataks were organized.
- Celebrated “World Breastfeeding Week” from 1 to 7 August 2024.
- Celebrated “National Nutrition Week” from 1 to 7 September 2024.
- Cervical cancer awareness initiative for EHS and their dependents from 11 to 17 November 2024. Total 230 women employees were screened and managed.
- No-Scalpel Vasectomy (NSV) Camp was organized by the Family Planning Unit from 16 to 20 December 2024.
- Training course on No-Scalpel Vasectomy (NSV) was organized by the Family Planning Unit & department of Surgery, AIIMS, New Delhi from 16 to 20 December 2024.
- A Nukkad natak was conducted to raise public awareness as a part of ‘Anemia Mukti Bharat’ initiative on 26 December 2024.
- Street Play to raise public awareness on Family Planning was conducted in the OPD on 28 February 2025.
- Celebrated International Women’s Week from 3 to 8 March 2025 in collaboration with Rotary International focusing cervical screening and vaccination drive for EHS beneficiaries. A total of 240 girls were vaccinated during this drive.
- To raise public awareness on Tobacco Initiative under National Tobacco Control Programme (MoHFW) a Street Play was organized in the Mother and Child Block on 6 March 2025
- The department celebrated “POSHAN PAKHWARA” from 20 March to 4 April 2025 which included a “Health talk on Importance of Millet in diet during Pregnancy and Lactation Period”.
- Implementation of U-WIN portal (MoHFW) at delivery point was done which consist of registration & vaccination details of new-born with the features of individualized tracking of beneficiaries for vaccination status.
- Prenatal Meditation – Yoga classes are organized on every Monday/Wednesday/Friday from 1.00 PM to 2.00 PM in Mother & Child Block, New Delhi.
- Medical Camps:
    a. Dr Seema Singhal conducted Awareness Programs and screened 150 inmates at Tihar Jail Hari Nagar and 100 at Central Jail Mandoli. The screen positive cases were called for treatment at AIIMS and collaborated with colleagues at DDU and Safdarjung Hospital for treatment.
    b. Dr Seema Singhal participated in cervical awareness camp at Noida, UP
    c. Dr Nilanchali Singh attended Medical Camp organized by Kargil & Asoka Mission at Kargil, Ladakh from 7th – 13th July 2024
    d. Dr Rajesh Kumari attended Free Medical Camp organized by Patient care trust hosted in Sera Jhe Monastic University, Bylakuppee, Mysore from 23th – 26th July 2024
    e. Dr J.B Sharma attended Annual charitable medical camp in Ladakh
    f. Dr Nilanchali Singh attended Medical Camp organized by SVS from 30th Novembe to 2nd December 2024 at Pratapgarh, U.P
    g. Dr Deepali Garg attended Free Medical Camp from 23-25 March 2025 at Mundgod, Hubli, Karnataka
- Health Talks:

    DD News Interactive Session with Cancer Survivors and viewers on cervical cancer

    Swasth Kisan talk on Pregnancy and Thalassemia by Dr Rajesh Kumari

    Swasth Kisan talk on Care during Pregnancy by Dr Swati Tomar on 15 February 2025.

    Cancer Awareness Talk on Doordarshan 27 March 2025

1. Details of procedures carried out during 2024-2025

Year	2022-2023	2023-2024	2024-2025
Benign Gynecological Surgeries

Family planning programme is one of the important National programmes in India with the objectives of achieving population stabilization, promoting reproductive health and reducing maternal, infant and child mortality and morbidity.

The department continued uninterrupted Family planning OPD 6 days a week to provide the following services:

- Postpartum /interval ligation
- Postabortion ligation
- Medical Termination of Pregnancy
- Contraceptive methods- IUCD, Implant, LNG-IUS insertions
- Follow-up of patients for monitoring/managing the complications due to IUCD and postpartum IUCD
- Counselling and referring male patients for Non Scalpel Vasectomy (NSV)
- Regular post-natal clinics along with antenatal clinics

Various contraceptives methods are available free of cost. Injectable Contraceptive, MPA (Medroxyprogesterone acetate) under Antara program and Chhaya also available. Implanon insertion training was imparted to department faculty members and services are now in place for insertion of Implanon as a contraceptive to admitted patients.

Number of family planning methods given in 2024-2025

Method	Numbers (2022-2023)	Numbers (2023-2024)	Numbers (2024-2025)
MTP	633	573	606
Oral contraception (pkt)	**2643**	**2114**	**1452**
DMPA	264	254	104
Interval Cu-T	360	319	348
PPIUCD	682	529	468
Post abortion IUCD	95	103	103
LNG-IUS insertion	131	161	210
Tubal ligation	418	381	343
Vasectomy	26	27	15
Implanon	35	198	335

List of Visiting Faculty in Department of Obstetrics & Gynaecology

1. Dr Gnanaraj Justin Paul 02 April 24 Registries of pregnancy in women with heart disease in India Institute of Cardiology, Rajiv Gandhi Government General Hospital, Madras Medical College
2. Dr Jayathilaka Chandani Anoma 22 August 24 Interative session with Trainees during Training on Colposcopy and Management of Precancerous Lesions for Maldives and Sri Lanka MoH Officials WHO SEARO
3. Dr Peter Lim 09 September 24 Robotics in Complex Gynaecological Surgeries Center of Hope, Reno, Nevada, USA
4. Mary Eiken 03 December 24 International Collaborative research oppurtunities in Gynae oncology IGCS CEO
5. Dr Asima Mukhopadhyay 03 December 24 Research in Gynae oncology James Cook University Hospital, UK

6. Professor Neville F. Hacker 19 March 25 Interactive session in gynae oncology University of NSW, Sydney
7. Professor Kailash Narayan 19 March 25 Interactive session in gynae oncology Peter Mac Callum Cancer Centre & Icon cancer, Melbourne, Australia
8. Ms. Manju Lata 28 March 25 Health Talk on Cervical Cancer Awareness in Gynae OPD AIIMS, New Delhi

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Neena Malhotra was Head of WHO collaborative centre for research in Human Reproduction and Prevention of Cervical Cancer. She was President Elect Indian Fertility Society (2024-2026). She was Sr. Vice President IFS (2022-24). She was Chairperson of the FOGSI Imaging science society of FOGSI Committee 2025-2027. She Delivered Dr Prabha Mehra Oration on "Challenge to ART in this century" during 92nd Foundation Day of the Department of Obstetrics and Gynecology KGMU Lucknow organizing a IUI workshop on 29 November 2024. She Delivered IFS Oration The future of fertility preservation in India during FERTIVISION 2024 on 8 December 2024. She Received Lifetime achievement award by Indian Society for the Study of Reproduction and Fertility (ISSRF) at the 35th Annual Conference on 14 February 2025 at Jaipur. She was Examiner for Part 3 MRCOG examination organized by Royal College of Obstetricians and Gynaecologists London, UK at Le Meridian, New Delhi on 13 May 2024. She was Expert Member of the Standing Selection Committee Meeting for selection of Faculty posts in the Department of Obst. & Gynaecology, AIIMS Guwahati on 25–26 June 2024 at AIIMS, Guwahati. She was External Expert Member of Screening Committee for promotion of faculty in the department of Obstetrics & Gynaecology of UCMS & GTB Hospital, Delhi. (Online) 17 August 2024. She was Expert Member of the Standing Selection Committee for the selection of Faculty posts for Assessment Promotion Scheme in the Department of Obst. & Gynaecology, NEIGRIHMS, on 29 August 2024 at ICMR, New Delhi on Hybrid Mode. She was Trainer at Thimpu, Bhutan for ToT for Master Trainers in collaboration with Ministry of Health, Bhutan on 15–16 January 2025 organised by UNFPA. She was Chairperson in Departmental examination MD, MBBS, M.ch (Gynae – Oncology). She was Invited to State Level celebration of International Women's Day 2025 at Gangtok, Sikkim on 7–8 March 2025. She was Member – Committee to examine issues related to faculty – w.e.f. February 2024; Member – Constitution of NCI Coordination Committee at NCI Jhajjar, w.e.f. 2024; Member –Teaching Schedule Committee for Phase II/III for the MBBS, w.e.f. 2024; Member – Anti Ragging Committee (ARC) at AIIMS w.e.f. 2024-2025; Member – Central Committee/Sub – Committee 2024; Member – Technical expert COE Committee for Rare Diseases 2025; Member of NITI Aayog Committee to prepare a roadmap to make AIIMS, New Delhi a world class institution in Medical Research and Practice at Board Room on 20 April 2024.

Professor Neeta Singh received the Best paper award at 10th world congress of MIS Endo Dubai February 2026 at Dubai UAE. She was Awarded the Best Video presentation at 10th Endo-Dubai conference of Endoscopic Surgery at Dubai, UAE on 20-22 February 2025. She Conferred with the prestigious 'ISAR Appreciation Award 2024 in recognition of extraordinary accomplishments & contribution in the field of Reproductive Medicine and women's health by the Indian Society for Assisted Reproduction (ISAR). She Received prestigious Honorary Fellowship FRCOG (Ad eundem) of Royal College of Obstetrics &Gynaecology in 2024. She Conferred with the prestigious 'FOGSI Movicol Corion Award 2024' (First Runner-up) for the best Research during the 67th All India Congress of Obstetrics & Gynaecology (AICOG 2025), Mumbai.

Professor K Aparna Sharma was invited speaker for Global Advisory Board, Women Lift Health, Global Congress in Daressalam, Tanzania, 4 May 2024; Dr PushpalathaDamaraju Keynote Address, XVIth Annual Conference MAATRIKA 2024, ISOPARB Hyderabad Chapter, 23 November 2024; CL Jhaveri Prize for Best Paper of the Conference on Misc Theme, AICOG, 2025, Mumbai, 11 January 2025; Keynote address on Immunological Disorders in Pregnancy at 67th AICOG, Mumbai, 10 January 25; Keynote address on Immunological Disorders in Pregnancy at Annual Congress of OGGSCON, Chennai, 10 March 25; Nominated from AIIMS, for CAMES Simulation Master Class, Copenhagen, 19-23 August 2024; Peer reviewer for Sops for prevention and management of anaemia in pregnant women (PW) coming to the hospitals and maternity home. Directorate of Family Welfare, Government of NCT of Delhi. https:..hfw.delhi.gov.in.sites.default.files.FW.circulars-orders.anaemia_sop_2024.pdf. She was Member, Technical Consultation for Strengthening Anemia Mukt Bharat Programme by ICMR; 2 April 2024; Member, Anti-Cancer drug committee, DGHS, Government of NCT of Delhi; Member, SFM Academic council; Member, Project Review Committee, ICMR, 30 May 2024; Assessor, State Quality team, MOHFW, Government of NCT of Delhi; DST's Subject Expert Committee (SEC-HFN) under WISE-SCOPE Fellowship Program of WISE-KIRAN Division; External Expert Member on the Screening Committee for promotion of the faculty members of UCMS under DACP Scheme-2008; Expert, review of WHO Essential Respectful Care Course (ERCC) Draft Module; Expert committee meeting to review the progress of the Mission Mode project titled "Feasibility, Acceptability and Costs of providing comprehensive preconception care services to young couples in Maharashtra; Technical Expert Committee to advise the Government on use of Injection FCM in pregnancy as a part of the AMB program. 18 December 24; Experts for ICMR-PSC Intramural Proposal Review, ICMR-RCN Division, 2024.

Professor Garima Kachhawa was Expert for formulating the referral policy among hospitals for Delhi NCR under Directorate General Health services, Ministry of Health & Family welfare. On panel of experts for Integrated Emergency Care among hospitals by DG ICMR. On panel of experts for Project Review. Screening committee for extramural grants of ICMR. Member of technical advisor committee, ICMR. Central Public Information officer, RTI, for department of Obstetrics & Gynaecology, AIIMS. HIGHLIGHTS

The Department of Orthopaedics at AIIMS has doctors with specializations in the field of sports medicine, paediatric orthopaedics, hand surgery, joint replacement, musculoskeletal oncology, spine surgery and treatment of complex trauma. The recent innovations in orthopaedics surgery such as navigated joint replacement, revision hip and knee replacements, navigated bone tumor surgery, minimally invasive spine surgery, vascularised grafting for non-unions, limb reimplantation, arthroscopic PCL and shoulder surgery are all being practiced here. The department also has dedicated research labs namely 3D printing lab, Genetic lab, Gait lab, which provided them both national and international recognition. ICMR and CSIR funded research projects are also being carried out.

EDUCATION

- Full term post-graduate residency program of MS (Ortho) for three years - 23 students
- Nonacademic Senior resident - 14
- The following fellowship courses are being conducted at the Department:
    - Fellowship in Arthroscopy - 2
    - Fellowship in Musculoskeletal Oncology - 2
    - Fellowship in Arthroplasty - 2

Short & long-term training programs are also being conducted in the department regularly

CMEs/Workshops/Symposia/National and International Conferences

1. Current Concepts in Arthroplasty (CCA 2024) 2-4 August 2024, New Delhi
2. 4th AIIMS International Spine Deformity Course, 27-29 March 2025, New Delhi
3. Cadaveric course on arthroscopic meniscal repair on 11 January 2025
4. High Tibial Osteotomy Workshop on 17 November 2024

Lectures delivered at CMEs, National and International Conferences

Lectures Delivered: 139

Ravi Mittal: 14 **Shah Alam Khan: 4** **Vijay Kumar: 65**
Bhavuk Garg: 22 **Mohd Tahir Ansari: 4** **Venkatesan Sampath Kumar: 11**
Vivek Shankar: 5 **Vikrant Manhas: 14**

Ravi Mittal

1. Double row rotator cuff repair, SMAW, 7 April 2024, Delhi
2. MCL and PMC injury of knee, NZIOACON, 6 April 2024, Patiala
3. Role of HTO in era of arthroplasty, Hip and knee Conference, 21 April 2024, Patna
4. Meniscus root and ramp lesion, UPACON, 27-28 July 2024, Agra

5. Instructor, UPACON, 27-28 July 2024, Agra
6. How to plan for HTO at basic osteotomy course, MAMC, 25 August 2024,
7. Live surgery for ACL reconstruction and medial meniscus repair, Bhatinda knee course, 26-27 October 2024, Bhatinda
8. Tibial bone defects in TKR, Bhatinda knee course, 26-27 October 2024, Bhatinda
9. Nonunion of proximal humerus, CEZCON, 17-19 October 2024, Agra
10. Malunion of extra articular proximal tibia, OTTSCAN, 5-6 October 2024, Varanasi
11. Habitual dislocation of patella, UPORT OCON, 8 February 2025, Greater Noida
12. Why I prefer HTO over UKR, UPORTHOCON, 8 February 2025, Greater Noida
13. Why I prefer HTO over UKR, ASAMI congress, 9 February 2025, Chandigarh
14. Medial open wedge HTO, ASAMI congress, 9 February 2025, Chandigarh

Shah Alam Khan

1. Tumor Immune Microenvironment in Osteosarcoma, MSTS (Musculoskeletal Tumor Society) 2024, 11-13 September 2024, Chicago
2. Limb salvage in Pelvic Tumors, Indian Orthopaedic Association Conference IOACON 2024, 2-7 December 2024, Bangalore
3. Management of Pelvic GCTs, DOACON, 7-9 November 2024, New Delhi
4. Management of common Paediatric Orthopaedic conditions, Annual Conference of Association of Rural Surgeons of India, 11-13 February 2025, Guneyari

Vijay Kumar

1. Alignment in TKR, NZOACON 2024, 5-7 April 2024, Patiala
2. Diagnosis and Management of infected THR, NZOACON 2024, 5-7 April 2024, Patiala
3. Acetabular Reconstruction in Revision THR, NZOACON 2024, 5-7 April 2024, Patiala
4. Implant Selection in TKR. 5th Annual Jaipur Shoulder Knee Course, 27-28 April 2024. Jaipur
5. Relive Surgery on UKA. 5th Annual Jaipur Shoulder Knee Course, 27-28 April 2024. Jaipur
6. Moderator and Chairperson for Session on UKR, 5th Annual Jaipur Shoulder Knee Course, 27-28 April 2024. Jaipur
7. TKR in Extra articular Deformity. 01st AIIMS Deoghar Cadaveric Workshop cum CME on Total Knee Replacement, 16 June 2024, Jharkhand
8. Instructor for Cadaver TKR Workshop. 1st AIIMS Deoghar Cadaveric Workshop cum CME on Total Knee Replacement, 16 June 2024, Jharkhand
9. Implants Selection in Primary TKR, MAC 2024, 6-7 July 2024, Indore, MP
10. TKR in Stiff Knee. MAC 2024, 6-7 July 2024, Indore, MP
11. TKR in extra Articular deformity. MAC 2024, 6-7 July 2024, Indore, MP
12. Panellist for Primary TKR session, MAC 2024, 6-7 July 2024, Indore, MP
13. History of Oxford UKR and Anteromedail Arthritis, CCA 2024, 2-4 August 2024, Delhi
14. Indications for DAA, CCA2024, 2-4 August 2024, Delhi
15. Radiotion Hazards and safety, ABC of Trauma, 9-1 August New Delhi
16. Dislocation following THA: Strategy, APAS 2024, 21-24 August 2024, Mumbai
17. Biomechanics of Hip and Restoration of centre of Rotation, APAS 2024, 21-24 August 2024, Mumbai

18. Moderator for session on Revision Total Hip Replacement. IV Congress of Traumatologists and Orthopaedists of the Republic of Kazakhstan with International Participation and the III Congress of the Kazakhstan Association of Traumatologists and Orthopaedists, 28-29 August 2024, Kazakhstan
19. Delivered a Guest Lecture on "Coated Implants in Total Knee Replacement". IV Congress of Traumatologists and Orthopaedists of the Republic of Kazakhstan with International Participation and the III Congress of the Kazakhstan Association of Traumatologists and Orthopaedists, 28-29 August 2024, Kazakhstan
20. How to do uncemented THR: Tips and Tricks, 10th UPOA Arthroplasty Course 2024, 1 September 2024, Lucknow
21. Moderated session on Revision Total Knee Arthroplasty, 10th UPOA Arthroplasty Course 2024, 1 September 2024, Lucknow
22. Revision of Intrapelvic Cup: How to stay Safe, 44th SICOT Orthopaedic World Congress, 25-26 September 2024, Belgrade, Serbia
23. Infected THR in Elderly: What's new in 2024, 44th SICOT Orthopaedic World Congress, 25-26 September 2024, Belgrade, Serbia
24. Dual Mobility in THR, Max Smart Arthroplasty Meeting, 28-29 September 2024, Delhi
25. Reconstruction Strategy in Femur for Revision THR. Arthroplasty Summit 2024, 5-6 October 2024, Pune
26. Panelist for Panel Discussion on Revision THR. Arthroplasty Summit 2024, 5-6 October 2024, Pune
27. THR in fused hip and hip spine relationships. IAACON 2024, 18-20 October 2024, Bhubaneswar
28. Moderated Live Surgery on Revision THR. IAACON 2024, 18-20 October 2024, Bhubaneswar
29. Judge for Best Paper by young Surgeons. IAACON 2024, 18-20 October 2024, Bhubaneswar
30. CR Knee: Salvaging PCL, IAACON 2024, 18-20 October 2024, Bhubaneswar
31. Valgus Knee. 2nd Bathinda Knee Course, 26-27 October 2024. Bathinda
32. Performed a Live Surgery on TKR. 2nd Bathinda Knee Course, 26-27 October 2024. Bathinda
33. Understanding CPAK Classification at, DOACON 2024, 9-10 November 2024, Delhi
34. THR for Bony Ankylosis, JKOACON, 15-16 November 2024, Jammu
35. Soft Tissue Balancing in THR, JKOACON, 15-16 November 2024, Jammu
36. Alignment in TKR, JKOACON, 15-16 November 2024. Jammu
37. UKR- Relive Surgery, JKOACON, 15-16 November 2024. Jammu
38. Intrapelvic cup: Staying Safe, Wiroc 2024, 29 November 2024, Webinar
39. Video Presentation on Posterior Approach. IOACON 2024, 2-7 December 2024. Bengaluru
40. Chairperson for session on Revision TKR. IOACON 2024, 2-7 December 2024. Bengaluru
41. Saw Bone Demo on SROM and Reclaim Stem, RAC 2024, 13-15 December 2024, Delhi
42. UKR- Relive Surgery, 15thCawanpore Arthroplasty Course, 21-22 December 2024, Kanpur
43. Acetabular Defects – Video, 15thCawanpore Arthroplasty Course, 21-22 December 2024, Kanpur
44. Moderator for Session on Coronal Plane Deformity in TKR, 15thCawanpore Arthroplasty Course, 21-22 December 2024, Kanpur
45. Chairperson for session on Direct Anterior Approach THR, 15th Cawanpore Arthroplasty Course, 21-22 December 2024, Kanpur
46. Revision TKR: Tips and Tricks, ROSACON 2025, 10-12 January 2025, Rajasthan
47. Dislocation in THR, ROSACON 2025, 10-12 January 2025, Rajasthan
48. Performed Live Surgery on CR TKR in Valgus Knee. IAA Arthroplasty Forum 2025, 18 January 2025, Jodhpur
49. Kinematic Alignment in TKA. IAA Arthroplasty Forum 2025, 18 January 2025, Jodhpur
50. Complication in CR TKA. IAA Arthroplasty Forum 2025, 18 January 2025, Jodhpur
51. Moderated Live Surgery of CR TKA. IAA Arthroplasty Forum 2025, 18 January 2025, Jodhpur

52. Moderated Case Presentations Sessions, IAA Arthroplasty Forum 2025, 18 January 2025, Jodhpur
53. Dual Mobility Cup, ISHKS Webinar, 15 February Webinar
54. Acetabular Reconstruction in Revision THR at, UAIOCON, 1 March 2025, Haldwani
55. Revision TKR: Simplified, POACON 2025, 02 March 2025, Mohali
56. Posterior Approach of Hip: Vedio Presentation, NEOSCON 2025, 7-9 March 2025, Sikkim, Gangtok
57. Moderated a session on General Orthopaedics, NEOSCON 2025, 7-9 March 2025, Sikkim, Gangtok
58. CR TKR: Relive Surgery, NEOSCON 2025, 07-09 March 2025, Sikkim, Gangtok
59. Management of Intraoperative Fracture in THR, IAA CADAVER HIP Course, 16 March Bhatinda
60. Knee Instability : Causes, presentation and Management, 2nd Knee and Hip Cadaveric Workshop, 22-23 March 2025, Lucknow
61. Instructor for Cadaveric Workshop. 2nd Knee and Hip Cadaveric Workshop, 22-23 March 2025, Lucknow
62. Management of Bone Loss in Revision THR. 2nd Knee and Hip Cadaveric Workshop, 22-23 March 2025, Lucknow
63. Sagittal Balancing in TKR. JOA Knee Arthroplasty Symposium, 30 March 2025, Ranchi, Jharkhand
64. Performed a Live TKR Surgery. JOA Knee Arthroplasty Symposium, 30 March 2025, Ranchi, Jharkhand
65. Alignment in TKR, NZOACON 2024, 05-07 April 2024, Patiala

Bhavuk Garg

1. Preop Planning of Kyphosis, Second Ambedkar Cadaveric Spine Workshop, 6 April 2024, Delhi
2. Skiving In Robotic Spine Surgery, DSSCON, 13-14 April 2024, Delhi
3. Neuromuscular Scoliosis, AO Scoliosis Week, 25 April 2024, Online
4. Carpal Instabilities, NBE Webinar, 26 April 2024, Online
5. Cervical Spine Injuries, NAMS Invited Lecture, 17 May 2024, Online
6. AI in Spine Deformity Correction, APSS Meeting, 14-16 June 2024, Hong Kong
7. Osteoporosis in Urban Aging Athlete, Osteoporosis Update 2024, 20 October 2024, Delhi
8. Role of EOS Imaging In Deformity Evaluation, ISSICON 2024, 25-28 October 2025, Delhi
9. Robotic Spine Deformity Surgery: Tips and Tricks, ISSICON 2024, 25-28 October 2025, Delhi
10. Newer Technological Advances in Scoliosis Surgery, DOACON 2024, 8-10 November 2024, Delhi
11. Dural Tears, Cadaveric Workshop On Microscopic Spine Surgery, 15 December 2024, Delhi
12. 3D Printing in Spine Surgery, 3D Printing Workshop For Medical Devices, Simulation And Innovation, Neuro-Engineering Workshop Series, Supported by ICMR COE-AIIMS+IITD, 15 December 2024, Delhi
13. Cell to Structures, WIROC 2024, 21-22 December 2024, Mumbai
14. Back Pain, Dos and Dont's, 1 January 2025, Delhi
15. EOS: Does Apex Control Matter, ASSICON 2025, 16-18 January 2025, Bengaluru
16. Spinal Osteotomies, World Neurosurgery Conclave, 19-23 March 2025, Gurugram, HR

Moderator/panelist/chairperson

1. Robotic Spine Surgery Webinar, , 6 October 2024, Online
2. Invited Talks, ISSICON 2024, 25-28 October 2024, Delhi
3. Cadaveric Workshop On Robotic Spine Surgery, ISSICON 2024, 25-28 October 2024, Delhi
4. Journal Club on TB Spine, NBE, 13 November 2024, Online
5. Case Discussions On Degenerative Spine, ASSICON 2025, 16-19 January 2025, Bengaluru

6. Cadaveric Demonstration Of Percutaneous Pedicle Screw Insertion, World Neurosurgery Conclave, 19-23 March 2025, Gurugram, HR

Mohd Tahir Ansari

1. Perilunatedislocations : total anatomical reconstructions, CEZCON, 2024, 19 October 2024, Agra
2. Terrible Triad, CEZCON, 2024, 18 October 2024, Agra
3. Against the clock: Mastering Neglected Perilunate Fracture-Dislocations, ISSHCON, 2024, 04 October 2024, Bengaluru
4. Acute Hand Trauma, DOACON, 2024, 08-10 November 2024, New Delhi

Venkatesan Sampath Kumar

1. GCT spine, sacrum and pelvis- current standard of practice, CME on Bone Tumors, 14 April 2024, Jaipur
2. Case based discussion – GCT and GCT mimics, CME on Bone Tumors, 14 April 2024, Jaipur
3. Spectrum of Clubfoot Deformity, Workshop on Clubfoot, 19 July 2024, Kozhikode
4. Tendo Achilles Tenotomy, Workshop on Clubfoot, 19 July 2024, Kozhikode
5. Limb reconstruction workshop – Cases around the elbow, 11th Annual Conference of the Indian Musculoskeletal Oncology Society (IMSOS) "IMSOS-2025, 13-16 March 2025, Goa, India
6. Denosumab helps in curettage in GCT, 11th Annual Conference of the Indian Musculoskeletal Oncology Society (IMSOS) "IMSOS-2025, 13-16 March 2025, Goa, India
7. Pathoanatomy of Clubfoot , Comprehensive Ponseti Method Workshop, 25 March 2025, Ahmedabad, Gujarat
8. Pirani Clubfoot Score, Comprehensive Ponseti Method Workshop, 25 March 2025, Ahmedabad, Gujarat
9. Ponseti "Hand Positions", Comprehensive Ponseti Method Workshop, 25 March 2025, Ahmedabad, Gujarat
10. Common Errors in Ponseti Method, Comprehensive Ponseti Method Workshop, 25 March 2025, Ahmedabad, Gujarat

Moderator/Panelist

1. Palliative versus curative care in metastatic disease, DOACON 2024, 8-10 November 2024, Delhi

Vivek Shankar

1. Thoracic Ossification of Ligamentum Flavum in Indian Men with Spinal Canal Stenosis with Spastic Paraparesis and Treatment with Laminectomy with High-speed Burr with Constant Irrigation: A Report of Two Cases", SICOT Orthopaedic World Congress at the Sava Centre, 25-27 September 2024, Belgrade, (Serbia)
2. Thoracic Ossification of Ligamentum Flavum in Indian Men with Spinal Canal Stenosis with Spastic Paraparesis and Treatment with Laminectomy with High-speed Burr with Constant Irrigation: A Report of Two Cases, 46th Annual Meeting of the Royal College of Orthopaedic Surgeons of Thailand (RCOST 2024), 17-19 October 2024, Pattaya Exhibition and Convention Hall (PEACH), Pattaya
3. Aging Spine in Elderly, Caho Guest Lecture Online, 20 October 2024,
4. Complications in Spine Surgery, IOACON 2025, 5-7 December 2024, Bengaluru
5. ASSI Research Group Session-Spinal Infection, Assicon 2025, 16-18 January 2025, Bengaluru

Vikrant Manhas

1. Faculty–Complex Hip Arthroplasty Workshop, UAIOACON 2024, March 2024, Rishikesh, India
2. Total hip arthroplasty via Direct anterior approach- tips and tricks, UAIOACON 2024, March 2024, Rishikesh, India
3. Infected TKR: Revision, 13rd SICOT Educational Day, 44th SICOT Orthopaedic World Congress, 24 September 2024, Belgrade, Serbia

4. Moderator–Q&A Session, Basic hip, 4th SMART Conclave on Knee and Hip Arthroplasty, 29 September 2024, New Delhi, India
5. Direct anterior approach for revision hip- case based discussion, 4th SMART Conclave on Knee and Hip Arthroplasty, 29 September 2024, New Delhi, India
6. Acetabular Exposure & Cup Preparation, IAACON 2024 Cadaveric Workshop–Direct Anterior Approach to Hip, 17 October 2024, Bhubaneswar, India
7. Direct anterior approach for revision hip, IAACON 2024 Cadaveric Workshop–Direct Anterior Approach to Hip, 17 October 2024, Bhubaneswar, India
8. Speaker–Re-live video: DAA on normal OT table, IAACON 2024 – Main Conference, 18 October 2024, Bhubaneswar, India
9. Chairperson–Modular THA/Revision Panel Discussion, IAACON 2024 – Main Conference, 18 October 2024, Bhubaneswar, India
10. Bone Donation & Banking, ORBO Training Programme – AIIMS, 21 January 2025, New Delhi, India
11. Panelist–PJI, DAIR, TB, Revision THA, ROC 2025, 1 February 2025, Mumbai, India
12. Direct anterior approach for complex and revision THA. RML-DOA Knee & Hip Arthroplasty Cadaveric Workshop, 11–12 January 2025, New Delhi, India
13. Advancing Direct anterior approach in complex THA, UPORTHOCON 2025, 9 February 2025, Greater Noida, India
14. Valgus knee, KGMU Arthroplasty Conclave, 22–23 March 2025, Lucknow, India

LECTURES DELIVERED OVER PAST 3 YEARS

2022–2023	2023–2024	2024–2025
95	138	139

List of oral papers/posters presented: 25

1. Garg B, Does Hi-PoAD technique work for congenital scoliosis: A single centre case series, ISSICON 2025, 25-28 October 2024, New Delhi4
2. Garg B, How Does Posterior Fusion Affects Muscle Activation Pattern in Adolescent Idiopathic Scoliosis: A Walking Emg Analysis, SRS annual meeting 2024, 10-14 September 2024, Barcelona, Spain
3. Garg B, Integration and Application of Artificial Intelligence and Surface Topography in Scoliosis Screening, ISSICON 2024, 25-28 October 2024, New Delhi3
4. Garg B, Is the Morphology of the Apical Pedicles Influenced by Apical Rotation or the Coronal Curve Magnitude in Adolescent Idiopathic Scoliosis, ISSICON 2024, 25-28 October 2024, New Delhi
5. Garg B, Role of 3D Gait Analysis in Targeted Rehabilitation for Enhancing Outcomes in Patients with Spinal Cord Injury, ESMAC 2024, 9-14 September 2024, Oslo, Norway
6. Garg B, Role Of 3d Gait Analysis In Targeted Rehabilitation For Enhancing Outcomes In Patients With Spinal Cord Injury, ISSICON 2024, 25-28 October 2024, New Delhi2
7. Garg B, Role of 3D Gait Analysis in Targeted Rehabilitation for Enhancing Outcomes in Patients with Spinal Cord Injury, ESMAC 2024, 9-14 September 2024, Oslo, Norway
8. Garg B, The Role Of Nicotine Replacement Therapy In Pain Management For Abstinent Smokers Undergoing Spinal Fusion: A Randomized Controlled Trial, World Congress On Pain Research And Management 2024, 24-25 October 2024, Dubai1
9. Khan SA, Kapoor L, Kumar VS, Saad S, Barwad A, Mridha A, Gamanagatti S, Bakhshi Set al, Evaluation of Tumor Immune Micro-environment for PD-L1 score and Tumor Infiltrating Lymphocytes in high grade osteosarcoma & their correlation with disease progression, MSTS meeting, 11-13 September 2024, Chicago, USA
10. Kumar V, Ojha M, A Sugumar P, Janardhanan R, Shankar V, Nag H, Evaluation of outcome following bilateral sequential TKA done at short interval, 44th SICOT Orthopaedic World Congress, 25-26 September 2024, Belgrade, Serbia

11. Kumar V, Ojha M, Nayak T 1, Kashyap L, Comparison in efficacy of transdermal buprenorphine versus ketoprofen patches for postoperative analgesia in total knee Arthroplasty: A randomised control trial.,. 97thAnnualMeeting of the Japanese Orthopaedic Association (JOA 2024), 23-26 May 2024, Fukuoka, Japan
12. Kumar V, Ojha M, Shankar V, Gamanagatti S, Use of CT Angiography and Temporary Balloon Catheter Placement to Prevent Vascular Complication in Case of Revision THR with Intrapelvic Hardware.,. 44th SICOT Orthopaedic World Congress, 25-26 September 2024, Belgrade, Serbia
13. Kumar V, Ojha M 2, Behera A 1, Shankar V, Outcomes of Revision total hip Arthroplasty using prefabricated porous coated flanged acetabular cup having caudal hook for obturator foramen and lugs for illium fixation.,. 44th SICOT Orthopaedic World Congress, 25-26 September 2024, Belgrade, Serbia
14. Kumar VS, Correlation of nutritional status and vitamin D deficiency in children with knee deformities, POSICON 2025, 2-5 January 2025, Ahmedabad, India
15. Kumar VS, Outcomes of hemiarthroplasty in proximal femur reconstructions: a retrospective analysis from a tertiary referral centre, IMSOS 2025, 13-16 March 2025, Goa, India
16. Kumar VS, Vishwakarma A, Prospective study to assess the prevalence of knee deformities in children and its correlation with nutritional status & regulators of bone metabolism, APOA YSF 2025, 22 February 2025, Coimbatore, India5
17. Madan R, Kumar V, Malhotra R, Kinematic Vs Mechanical Alignment in Bilateral Total Knee Arthroplasty: A Prospective Randomized Controlled Trial to Evaluate Clinical, Functional and Radiological Outcome, 44th SICOT Orthopaedic World Congress, 25-26 September 2024, Belgrade, Serbia
18. Madan R, Kumar V, Malhotra R, Optimizing Total Knee Arthroplasty: Exploring Gait Dynamics in Kinematic vs. Mechanical Alignment, 44th SICOT Orthopaedic World Congress, 25-26 September 2024, Belgrade, Serbia
19. Manhas V, A Comparative Prospective Analysis of Muscle Trauma in Total Hip Arthroplasty Using DAA: Standard OT Table vs Orthopaedic Fracture Table, 44th SICOT Orthopaedic World Congress 2024, 25-27 September 2024, Belgrade, Serbia

RESEARCH

Funded

Ongoing

1. A comparative study between pentoxifyline and Teriparatide for the treatment of postmenopausal osteoporosis: A randomized controlled Trial, Dr. Bhavuk Garg, ICMR, 3 Years, 2022-2025, Rs 106.21 Lakhs
2. A comparative study to evaluate the Immunoporotic effect of first-line therapies (Bisphosphonates, Teriparatide and denosumab) in Osteoporosis.,. Vikrant Manhas, Intramural interdisciplinary (Intramural funded), 1 Year, 2023-2024, Rs 10 Lakhs
3. A Prospective single arm multi-centric post marketing clinical follow-up study to evaluate the safety and performance of pedicle screws in patient with spinal disorders, Dr Bhavuk Garg, Auxien Medical Private Limited, 3 Years, 2023-2026, Rs 7.30 Lakhs
4. A Randomized controlled trial to evaluate the efficacy of multimodal Ayurveda interventions in Jaanu Sandhigatavata (Primary Knee Osteoarthritis), Dr Uma Kumar, Dr Vijay Kumar, Dr Danveer Badu, Dr RK Arya, Dr BD Chaudhary, Ayush, 3 Years, 2022-2025, Rs 98.66 Lakhs
5. Biomechanical study on the efficacy of rehabilitation for subjects with trauma-induced gait impairment, Dr Bhavuk Garg, DRDO, 3 Years, 2022-2025, Rs 58 Lakhs
6. Cross sectional Hospital based study to assess prevalence of knee deformities in children audits correlation with Nutritional Status and regulators of bone metabolism, Dr Venkatesan Sampath Kumar, ICMR, 3 Years, 2023-2026, Rs 36.04 Lakhs
7. Determination and safety of feasibility of Thoracic Laminar Screw through morphometric analysis and cadaveric use followed by the development of a commercially viable complete laminar screw insertion system, Dr Bhavuk Garg, ICMR, 3 Years, 2023-2026, Rs 13.68 Lakhs(1st Year)
8. Development of wireless imaging system and wireless light source for arthroscopy, Ravi Mittal- AIIMS, Delhi, Jay Dhariwal -IIT Delhi, AIIMS, IIT, 2 Years, 16 December 2022-2024, Rs 5 Lakhs
9. Integrated Surgical Platform with Navigation, Robot, Simulation & Training for Total Knee Arthroplasty, Professor Mohanasankar Sivaprakasam, IIT Madras, Subodh P S, CDAC Thiruvananthapuram, Dr Vijay Kumar, AIIMS Delhi, Ministry of Electronics and Information Technology (MeitY), 4 years and 6 months, 15 March 2024-14 September 2028, Rs 3405.60 Lakhs
10. Integration and application of artificial intelligence in care of patients with scoliosis, Dr Bhavuk Garg, ICMR, 3 Years, 2023-2026, Rs 84.63 Lakhs
11. Long term effects of COVID-19 on the musculoskeletal system, Shah Alam Khan, AIIMS, 2 Years, 2023-2025, Rs 10 Lakhs
12. Magnetron plasma-controlled Ag-doped tricalcium phosphate films for testing antimicrobial efficacy for orthopaedic implants, Vikrant Manhas (AIIMS-PI), ICMR, THREE, 3 Years, 2025-2028, Rs 135.00 Lakhs
13. Multi-Centric Clinical Trials of Indigenous TKP 2.4 Implant and Pilot Production of TKP 2.4, Professor Shah Alam Khan, Dr. Venkatesan Sampath Kumar, NFTDC, 5 Years, 1 March 2022-2027, Rs 18 Lakhs
14. Skeletal muscle regeneration following total knee arthroplasty: limitations of the intrinsic stem cell pool.,. Vikrant Manhas, AIIMS-UCL Collaboration (Intramural funded), 2 Years, 2023-2025, Rs 10 Lakhs/year
15. Using Instrumented Gait Analysis to assess complex periacetabular and distal femur recontructions, Dr. Venkatesan Sampath Kumar, Ministry of Education, Govt. of India (under Scheme for Promotion of Academic and Research Collaboration), 2 Years, 2024-2026, Rs 36.26 Lakhs

Completed

1. Comparative evaluation of genetic and cytokines profile in age-matched North Indian subjects with and without knee Osteoarthritis: A follow up study, Dr Bhavuk Garg, ICMR, 3 Years, 2021-2024, Rs 12.44 Lakhs
2. Gait pattern analysis of children with bilateral genu valgum deformity of lower limbs.,. Vikrant Manhas, Intramural funded, 1 Year, 2023-2024, Rs 2 Lakhs
3. Investigate the Immunoporotic role of Bisphosphonates in treating postmenopausal osteoporosis.,. Vikrant Manhas, Intramural funded, 1 Year, 2023-2024, Rs 5 Lakhs

4. Role of biomarkers in patients undergoing major musculoskeletal tumor surgery and its correlation with different anesthetic techniques and peri-operative outcomes, Dr Venkatesan Sampath Kumar, All India Institute of Medical Sciences, New Delhi, 2 Years, 2022-2024, Rs 10 Lakhs
5. To develop low cost Indigenous Magnetic Growth Rod for Early onset Scoliosis patients, Dr Bhavuk Garg, ICMR, 3 Years, 2021-2024, Rs 80 Lakhs

Departmental projects (including thesis/dissertations)

Ongoing

1. A prospective randomised control study to compare between Augmented Reality and Conventional Method in patients undergoing Bilateral Total Knee Arthroplasty
2. A Randomised Control Study of preoperative Oral Carbohydrate loading versus non caloric drink in patients undergoing Total Knee Replacement Surgery
3. An Ambispective study evaluating the Clinical and functional patient-related Outcomes following arthroscopic Anterior cruciate ligament Reconstruction using five stranded technique
4. Comparison of Analgesic efficacy of pericapsular block versus Quadratus Lumborum Type III Block in adult patients undergoing unilateral Hip Arthroplasty: A Randomised Control Trial
5. Coronal Plane Alignment of the Knee CPAK Epidemiological Evaluation and Functional Assessment following Total Knee Arthroplasty TKA in Indian Population
6. Demographic study of primary malignant bone tumors around the knee joint- a retrospective study from a tertiary referral centre
7. Electron microscopic evaluation of hip capsule and surrounding structures in Developmental Dysplasia of Hip and its correlation with re-dislocation rates
8. Evaluation of complex regional pain syndrome of hand in patient presenting in a tertiary care centre
9. Functional and Oncological outcomes of giant cell tumor of bone around wrist and hand: An Ambispective Observational study
10. Gait Analysis in Patients with Adolecent symptomatic flexible flat foot and its correlation with clinical and Radiological Parameters.
11. Parent's Information Needs, Treatment concerns, and Psychological Well-being in Idiopathic and Congenital Scoliosis: A Cross Sectional Comparative Study in a Tertiary Hospital in Delhi
12. Prospective study to assess the correlation of SPECT/CT and clinical functional scores in patients undergoing HTO pre-operatively and 6 months post-operatively
13. Prospective study to assess the involvement of subscapularis in rotator cuff tears: clinical, Radiological and arthroscopic evaluation
14. Retrospective Analyses of Outcomes of Revision Total Hip Arthroplasty Using Prefabricated Porous Coated Flanged Acetabular Cup having Caudal hook for obturator foramen and flanges for ilium fixation
15. Role of CT Angiography and Preoperative Permanent Embolization or Temporary Balloon Catheter Placement to Prevent Vascular Complication in Case of Revision THR with Intrapelvic Cup Migration.
16. Role of PET-CT in response assessment of Zoledronate in Giant Cell Tumor of Bone – A prospective Cohort. study
17. The Study of Clinical Characteristics and Evaluation of Novel Diagnostic Modalities in enhancing the diagnosis of periprosthetic joint infection
18. To evaluate the stress distribution in proximal tibia and clinicoradiological outcomes following primary total knee replacement using stem tibial compon
19. To study the analgesic effectiveness of Anterior Femoral Cutaneous nerve Block in addition to Proximal Adductor Canal Block and Local Infiltration Analgesia in patients undergoing unilateral Primary Total Knee Arthroplasty: A randomised Control Trial
20. Unfolding the role of epigenetic methylation of cell cycle and DNA damage repair pathways in pediatric sarcoma.

21. Unicompartmental knee arthroplasty vs high tibial osteotomy for anteromedial osteoarthritis of the knee in young patients – a randomized controlled trial
22. Utility of Fine Needle Aspiration Cytology assisted with Cell Block are Diagnosis of Bone and Soft Tissue Tumors.

Completed

1. A Pilot parallel arm Randomized control trial evaluating the impact of yoga intervention in treating post traumatic limb fractures which develop complex regional pain syndrome (CRPS I) and assessment of their quality of life
2. A randomised control trial to compare the radiological and functional outcomes of comminuted distal radius fractures 2r3c3.1 and 2r3c3.2 treated with only volar plating versus combined volar and dorsal plating
3. Ambispective study on epidemiology and functional outcome of ACL reconstruction
4. Comparative study between Arthroscopic bone grafting to non-vascularized bone grafting for nonunion of the scaphoid fracture: A Non Randomized Control Trial
5. Correlation of instrumented gait analysis in patients of primary osteoarthritis of knee with functional and outcome score and radiograph grade in Indian population
6. Evaluation of Outcomes following sequential Bilateral TKA done at Short interval Retrospective outcome analysis for THA in acetabular protrusio
7. Prospective study to assess knee deformities in paediatric outpatients and its correlation with nutritional status and regulators of bone metabolism
8. Triple Randomised Controlled Trial Comparing The Accuracy And Safety Between Free Hand, O-Arm Navigated And Robot-Assisted Pedicle screw Placement In Thoracolumbar Spine

Collaborative projects

Ongoing

1. A Randomised Control Study of preoperative Oral Carbohydrate loading versus non caloric drink in patients undergoing Total Knee Replacement Surgery, Department of Anesthesia, Pain Medicine and Critical care, AIIMS, New Delhi
2. A Randomized controlled trial to evaluate the efficacy of multimodal Ayurveda interventions in Jaanu Sandhigatavata (Primary Knee Osteoarthritis), Department of Rheumatology, AIIMS, New Delhi
3. Comparison Between Kit Based and In House Preparation of 99mTc- Ubiquicidin, Department of Nuclear Medicine/AIIMS Delhi
4. Comparison of analgesic efficacy of PENG block and interscalence block for shoulder manipulation procedures, Department of Anaesthesiology
5. Comparison of Analgesic efficacy of pericapsular block versus Quadratus Lumborum Type III Block in adult patients undergoing unilateral Hip Arthroplasty: A Randomised Control Trial, Department of Anesthesia, Pain Medicine and Critical care, AIIMS, New Delhi
6. Comparison of selective trunk block and corner pocket approach of supraclavicular brachial plexus block: A prospective randomized controlled trial, Department of Anaesthesiology
7. Comparsion of ultrasound guided out-of-plane versus in-plane costoclavicular block approach for children undergoing unilateral upper extremity surgery-A randomized controlled Trial, Department of Anaesthesiology
8. Effectiveness of usg guided hydrodissection in treatment of mild to moderate carpal tunnel syndrome, Department of Radio-diagnosis/AIIMS Delhi
9. Efficacy of HES with ropivacaine in supraclavicular brachial plexus block under usg guidance, Department of Anaesthesiology
10. Femoral Alignment Guide System “AlignAssure” In Total Knee Arthroplasty. IIT Delhi
11. Integrated Surgical Platform with Navigation, Robot, Simulation & Training for Total Knee Arthroplasty, IIT Madras, CDAC Thiruvananthapuram

12. Investigating the Diagnostic Potential of Gut-Associated Metabolites in Post-Menopausal Osteoporotic Women and Exploring Their Therapeutic Potential in Pre-Clinical Mode of Osteoporosis: An Osteoimmunological Approach, ICMR
13. Pre-compliance and clinical validation of implantable and diagnostic devices (Otorhinolaryngology, Opthalmics, and Orthopedics), ICMR
14. Randomized Controlled Trial Evaluating the Efficacy of Transcatheter Arterial Embolization in Moderate Medial Knee Pain Refractory to Optimal Non-Surgical Management - A Pilot Study. Department Of cardiac radiology, AIIMS
15. Role of 99m-Tc-Ubiquicidin scintigraphy in diagnosis of orthopaedic implant infection, Department of Nuclear Medicine/AIIMS Delhi
16. Role of CT Angiography and Preoperative Permanent Embolization or Temporary Balloon Catheter Placement to Prevent Vascular Complication in Case of Revision THR with Intrapelvic Cup Migration. Department of Radiology, AIIMS, New Delhi
17. Safety and efficacy of transcatheter arterial embolization in patients with lateral epicondylitis refractory to conservative management, Department of Cardioradiology
18. Safety and efficacy of transcatheter arterial embolization in patients with lateral epicondylitis refractory to conservative management, Department of Cardioradiology
19. The Study of Clinical Characteristics and Evaluation of Novel Diagnostic Modalities in enhancing the diagnosis of periprosthetic joint infection, Division of Infectious Disease, Department of Medicine, AIIMS, New Delhi
20. To delineate the Immunoporotic role of Regulatory and Effector B cell (Breg-Beff) axis in the pathophysiology of osteoporosis, Department of Biotechnology, AIIMS
21. To study the analgesic effectiveness of Anterior Femoral Cutaneous nerve Block in addition to Proximal Adductor Canal Block and Local Infiltration Analgesia in patients undergoing unilateral Primary Total Knee Arthroplasty: A Randomised Control Trial, Department of Anesthesia, Pain Medicine and Critical care, AIIMS, New Delhi
22. To study the analgesic effectiveness of Anterior femoral cutaneous nerve block in addition to Proximal adductor canal block and Local infiltration analgesia in patients undergoing unilateral primary total knee arthroplasty, Department of Anesthesiology, Pain Medicine and Critical Care, AIIMS
23. Trans-arterial Embolization for Clinical Improvement in Adhesive Capsulitis. Department Of cardiac radiology, AIIMS
24. Trans-arterial Embolization for the management of Achilles tendinitis. Department Of cardiac radiology, AIIMS
25. Trans-arterial Embolization for the management of Early hip arthritis. Department Of cardiac radiology, AIIMS

Completed

1. Comparison between medial and lateral approaches of USG guided costoclavicular block for upper limb surgeries-a pilot interventional randomized control trial, Department of Anaesthesiology
2. Comparison of ultrasound guided double injection vs triple injection technique of intertruncal approach of supraclavicular block: a randomized non- inferiority trial, Department of Anaesthesiology
3. Effectiveness of ultrasound guided hydrodissection in treatment of mild-moderate carpal tunnel syndrome, Department of Radiology
4. Establishing the Ideal time point for imaging of tuberculous lesions using 99mtc-Ethambutol scintigraphy.,. Department of Nuclear Medicine, AIIMS
5. Role of biomarkers in patients undergoing major musculoskeletal tumor surgery and its correlation with different anesthetic techniques and peri-operative outcomes, Department of Anesthesiology, Pain medicine and critical care

6. The comparison of clinical and radiological outcomes of total hip arthroplasty with direct anterior approach versus posterior approach – A randomized control trial, Department of Orthopaedics, AIIMS
7. To compare the Forgotten Joint score, clinical, radiological outcomes and gait parameters in patients undergoing total knee arthroplasty with ultra-congruent bearing versus cruciate-retaining bearing: A Randomized control trial.,. Department of Orthopaedics, AIIMS

PATIENT CARE

Under the title: Patient care/supportive activities: please include information regarding:

(a) facilities available in the department (including special clinics and/or special laboratory facilities)

(b) community services/camps, etc.

Please also provide data wherever appropriate.

Patient care (other items may be added/removed as per activity of department)

Professor Shah Alam Khan and Dr Venkatesan Sampath Kumar are running the clubfoot clinic and are nodal faculty for supporting patient care services at NCI Jhajjar

Professor Bhavuk Garg is involved in running the scoliosis clinic

Professor Mohd Tahir Ansari has been involved with treatment of general orthopaedic patients and hand related illness patients in general orthopaedic OPD and Hand Clinic

Dr Venkatesan Sampath Kumar was part of a public lecture on Paediatric Rheumatic Diseases at AIIMS, New Delhi

Item	2021–2022	2022–2023	2023–2024	2024–2025
OPD consultations		2, 23, 498	2, 01, 192	206355
Special clinic consultations		3063	4400	4350
Patients provided rehabilitation services			66, 717	51, 636
Total inpatient admissions	5312	8869	9365	11368

CLINIC NAME	Number of Patients Catered
Scoliosis Clinic	675
Hand Clinic	258
CTEV Clinic	3400
Sports Clinic	17

Minor OT procedures	1136	1547	2683
Admissions	4711	6657	11368

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Ravi Mittal was External expert for APS meeting for NEIGHRIMS Shillong at ICMR on 29 August 2024. Radio talk on joint pains at AIR FM radio on 4 June 2024.

Professor Shah Alam Khan Delivered Plenary lectures at important sessions of the Annual conference of the Indian Orthopaedic Association held in Bengaluru, December 2024.

Professor Vijay Kumar was President North Zone Orthopaedics Association. Joint Secretary of IAA. Legal Chair Indian Society of Hip and Knee Surgeons. Organising Secretary of Current Concepts in Arthroplasty 2024, New Delhi, 2-4th August 2024. Scientific Chairman of Revision Arthroplasty Conference 2024 (RAC 2024), New Delhi, 13-15 December 2024. TV shows- Hello Doctor on DD Urdu, Fit India Healthy India on DD Urdu, Arthritis on Daily News Live.

Professor Bhavuk Garg received ASSI publication Award 2025. He also received ASSI publication Award 2024. He received Medical dialogue Blackbuck Research Award 2024. He received IMA Academic Award 2024.

Dr Venkatesan Sampath Kumar received Best Paper Award in CCA 2024. He also received Best Thesis Award in APOA- YSF 2024.

Dr Vikrant Manhas was Review Committee Member of the Committee constituted by AIIMS for Rashtriya Arogya Nidhi (RAN).

He was Review Committee Member for examination and approval of medicines disbursed for OPD patients in the Department of Orthopaedics by Free Generic Pharmacy at AIIMS, New Delhi. He was Office in charge of GEM (Unit-I) in the Department of Orthopaedics. He was Office-in charge (Unit- I) of Disability assessment and certification in the Department of Orthopaedics. He was Moderated the Q&A Session on Basic Hipat the 4th SMART Conclave on Knee and Hip Arthroplasty, conducted on29th September 2024at New Delhi, India. He was Chaired a Scientific Session at the International Symposia on Bone Health (ISBH 2024), held on 9th November 2024 at New Delhi, India. He was Completed the Programme on Implementation of NABH 5th Edition Standards for Hospitals, organized by National Accreditation Board for Hospitals & Healthcare Providers (NABH)at AIIMS, New Delhi from 19 to 21 September 2024.

VISITING SCIENTIST

Dr Lie Tijauw Tjoen from Denny, Singapore gave a guest lecture on “Shoulder Instability in Asia: Are we that different? Algorithm and Strategies in dealing with minor and major bone loss” on 8 April 2024.

HIGHLIGHTS

The Department undertook its first Auditory Brain Stem Implant in January 2025. It is now among a group of select global institutions with such experience and has expanded its expertise in cutting edge implantation otology.

The department continued its activities to impart quality education to its own students and also to delegates and observers.

The department was committed to providing quality education to its own residents, students, fellows, and other delegates both online and offline. Department conducted various conferences and meetings including cochlear implant workshop and International Head and Neck cadaveric hands on workshop Department also conducted an Otology workshop. The Third SK Kacker Oration was delivered by Padma Shree Professor Milind Vasant Kirtane, Professor Emeritus, Seth G. S. Medical College & Hon. Surgeon at KEM Hospital, Mumbai. The oration was largely attended by various ENT specialists from India and Abroad and many students of Prof Milind Vasant Kirtane.

EDUCATION

The formal lecture schedule for the MBBS students is included in the 6th and 8th semesters and consists of 1-hour lectures. The undergraduate students are posted in the ENT department (OPD and Ward) for a total period of 2 months on rotation basis. Here they learn the basic ENT examination, become familiarized with diagnosing the common ENT diseases and learning the elementary management, including communication skills.

The clinical training consists of

1) Two classes on introduction to the clinical aspects of ENT including proper Ear, Nose and throat examination
2) Bed side teaching and case discussion on common ENT conditions like CSOM, Deviated Nasal septum, Nasal polyps, Cancer larynx etc
3) They are also exposed to common ENT procedures

For postgraduates, major goals are patient care, teaching, research ability, and team work.

PG student will have to do presentation of seminar/paper, research writing, and acquire Clinical decision making ability & management expertise. Postgraduate students perform major and minor surgical procedures under supervision of a faculty member/a senior resident. They are trained to perform major and minor operations independently. During training, they are posted for exposure to Audiology Section and Vestibular Laboratory, Learn bedside history taking in ward, OT exposures, casualty, ICU requirement and their visit to related disciplines such as Neurosurgery/Anaesthesia. Care of indoor (Medical; preoperative and postoperative) patients. Attends operation theatre and emergency operations. Assists ward rounds and visit other wards with senior colleagues to attend call/consultations from other deptt. They also participate in the teaching sessions in ward for bedside clinical aspect, in specialty clinics in afternoon in seminar/journal Club and do emergency duty as per Roster of the deptt. Postgraduate student also have to do thesis under guidance of faculty.

The department also runs the MCh Head and Neck Surgery super speciality course and fellowship in Skull Base surgery. The MCh residents have been allocated duties in the respective specialties in OPD, OT and also attend academic activities

jointly with departments of radiation oncology, medical oncology, pathology, neurosurgery etc. MCh residents and Skull Base Fellows also are encouraged to participate in research projects jointly with faculty members. They present Seminars and Journal clubs by rotation. MCh residents are also posted in NCI Jhajjar for clinical and academic duties..

The department also organizes workshops and conferences for benefits of national and international delegates from time to time on various recent topics of interest. The department also welcomes delegates for observership from India and abroad and hosts them to observe departmental activities, specialty clinics, seminars and operative procedures.

Online teaching schedules continued over virtual platforms during the pandemic.

The department recently hosted Prof Terry Jones, Liverpool and Prof Kyung Tae, Seoul, South Korea. Collaborations helped us take further our intents of Biobank establishment and minimal invasive thyroid surgery further.

Long Term Training:

None

Short Term Training:

- Dr PK Rathore, Professor, Department of ENT, Maulana Azad Medical College, New Delhi, 2 Months, 1 March 2025-30 April 2025
- Dr Ranjan Raychowdhury, Professor, Department of Otolaryngology - Head & Neck Surgery, Vivekananda Institute of Medical Sciences, Ramakrishna Mission Seva Pratishthan, West Bengal University of Health Sciences, one month, 10 March 2025-4 April 2025
- Dr Swati N Chandel, Junior Resident (ENT), Institute of Medical Sciences, Banaras Hindu University, Varanasi, one month, 27 February 2025-26 March 2025
- Dr Seema Monga, Professor and Head, Deptt of ENT & Head Neck Surgery, HIMSR, New Delhi, two weeks, 22 June 2024 to 1 July 2024
- Ms Kashika Singh, Medical Student, University of Southampton, UK, 1 Month, 4 April 2024-3 May 2024

Elective training:

- Department had observers and rotation postings from Departments of Emergency Medicine, Radiation Oncology, Neurosurgery, Pediatrics and Physiology.

Number of students/trainees registered in the Department.

Name of Course	2022-2023	2023-2024	2024-2025
MS (Otorhinolaryngology)	05	17	6
MCh Head-Neck Surgery and Oncology	04	04	07
Fellowship in Skull Base Surgery (Otorhinolaryngology)	01	--	01
Senior Resident (Non-Academic)	05	04	07
Senior Resident (Non-Academic) AIIMS-CAPFIMS	--	--	06

CMEs/Workshops/Symposia/National and International Conferences

1. Transoral, Endoscopic and Thyroid Course 2024, 2– 6 April 2024
2. 6th AIIMS Facial Plastics Workshop & CME from 11-13 October 2024
3. Cadaveric Dissection Course Transtemporal Approaches to Jugular Foramen, from 19-20 November 2024
4. Head & Neck dissection Course from 25-26 November 2024
5. 4th Hands on Microvascular Reconstruction Course from 27-30 November 2024
6. 1st Auditory Brainstem Implant(ABI) Program from 21-22 January 2025
7. AIIMS Neuro-Otology Update 2025 workshop from 20-22 February 2025.
8. International Head & Neck Dissection Course - 2025 from 17-21 March 2025.

Lectures delivered at CMEs, National and International Conferences

RESEARCH

Funded

Ongoing

1. A Phase IIb/III study to determine efficacy of Curcumin and Metformin to reduce the incidence of second primary tumors of aero-digestive tract in patients with history of head and neck squamous cell carcinoma, Rajeev Kumar (Site PI), NCG, 6 Years, 2020-2026, Rs 420 Lakhs
2. A Pilot Study of Speech Therapy Software to Teach Speech to Children with Severe and Profound Congenital Sensorineural Hearing Loss, Arvind Kumar Kairo, ICMR, 3 Years, 2025-2028, Rs 30 Lakhs
3. A randomized controlled pilot study to evaluate the effect of systemic omalizumab as compared to that of nasal corticosteroid & antihistaminic on adenoid hypertrophy in symptomatic paediatric patients, Prem Sagar (chief guide), Dr Manpreet (PG thesis candidate), AIIMS, New Delhi, 2 Years, 2024-2026, Rs 2 Lakhs
4. A study on frailty, cognitive dysfunction and associated comorbidities with Hearing loss in Geriatric population, Kapil Sikka, ICMR, 3 Years, 2024-2027, Rs 30.90 Lakhs
5. Acute and Long-Term Impact of Head and Neck Cancer Treatment on Autonomic Function., Smriti Panda, ICMR- Extramural Small Grant, 3 Years, 2025-2028, Rs 84.46 Lakhs
6. Centre for Medical Innovation and Enterpreunership, Alok Thakar, (AIIMS BioNEST), 4 Years, 2020 - Ongoing, Rs 475 Lakhs
7. Community based model for early detection speech and language training of hearing impaired children in four regions in India Mixed methods Implementation study, Chirom Amit Singh, ICMR, 3 Years, 2025-2028, Rs 778.76 Lakhs
8. Device fabrication and clinical validation of a novel mechanical handheld suction device for tracheostomy tube cleaning: a pilot study, Prem Sagar (chief guide), Dr Ritu Dudi (PG thesis candidate), AIIMS, New Delhi Intramural project, A-832, 2 Years, 2023-2025, Rs 2 Lakhs
9. Intraglandular Botulinum Toxin BoNT Injection for Postoperative Head and Neck Fistula Healing- A Pilot Study, Smriti Panda, Intramural early career grant, 2 Years, 2024-2026, Rs 5.85 Lakhs
10. Investigating Pathophysiologic Mechanisms and Biomarkers in Meniere's Disease: A Multi-Objective Study, Anup Singh Riyaz Mir Ahmad, AIIMS-Delhi, 2 Years, 2025-2027, Rs 20 Lakhs
11. Local application of specific Unani drug for medical management of Oral submucous fibrosis (OSF): A randomized controlled clinical trial, Arvind Kumar Kairo, CCRUM, Ministry Of Ayush, 2 Years, 2023-2025, Rs 35 Lakhs

12. Prospective study to evaluate the role of Systemic Bevacizumab therapy in patients with aggressive and complex laryngotracheal and pulmonary recurrent respiratory papillomatosis., Rajeev Kumar, AIIMS Intramural Collaborative Research Project, 3 Years, 2021-2024, Rs 20 Lakhs
13. Study of the development of radio resistance mechanism in oral cancer via single-cell profiling of patient-derived tumor models., Hitesh Verma/Dr R P Singh (JNU), ICMR, 1 Year, 2023-2024, Rs 54.37 Lakhs
14. Study to determine the role of mTOR pathway in the pathogenesis of juvenile nasopharyngeal angiofibroma, Rajeev Kumar, AIIMS Intramural Research Project, 3 Years, 2021-2024, Rs 20 Lakhs
15. To conduct the pre compliance and clinical validation of implantable and diagnostic devices (Otorhinolaryngology, Opthalmics, and Orthopedic), Kapil Sikka, ICMR, 5 Years, 2024-2029, Rs 1495.00 Lakhs
16. To determine the efficacy of outpatient antimicrobial therapy (OPAT) with Liposomal amphotericin B in invasive sinonasal mucurmycosis, a randomised controlled trial, Poonam Sagar, Research section, AIIMS, Delhi, 2 Years, 2024-2026, Rs 10 Lakhs
17. Transorbital approach to infratemporal Fossa - A cadaveric exploratory Study, Anup Singh, AIIMS-Delhi, 2 Years, 2024-2026, Rs 5 Lakhs

Completed

1. Development of single-cell derived clonal spheroids as a tool for drug discovery in cancer research with focus on Head and Neck Cancer., Hitesh Verma/R.P. Singh, DST under DPRP scheme, 3 Years, 2021-2024, 300 Lakhs
2. Exome sequencing and molecular characterization in juvenile nasopharyngeal angiofibroma 2021-22, Hitesh Verma/Bhupinder verma, AIIMS Research, 2 Years, 2021-2024, 20 Lakhs

Departmental projects (including thesis/dissertations) *Ongoing*

1. A prospective cohort study to evaluate the feasibility and accuracy of fetal vibroacoustic stimulation as a neonatal hearing screening tool
2. A prospective study to correlate rhinomanometry findings in DNS with clinical, Endoscopy and radiology findings pre and 3month post surgery
3. A prospective study to evaluate role of various frailty screening instruments in predicting surgical complications in geriatric head neck cancer patients.
4. A randomised control trial on the efficacy of steroid nasal douches and antifungals in AFRS patients - a clinical, radiological and biochemical correlation
5. A randomised controlled pilot study to evaluate the effect of systemic omalizumab as compared to that of nasal corticosteroids & antihistaminics on adenoid hypertrophy in symptomatic pediatric patients
6. A Randomised Controlled Trial evaluating dual therapy of oral steroids and intranasal corticosteroids versus intranasal corticosteroids only to prevent recurrence in Chronic Rhinosinusitis with nasal polyposis after functional endoscopic sinus surgery
7. A Randomized Control Trial to compare the outcomes of endoscopic and microscopic stapes surgery
8. Aggressiveness of head and neck paragangliomas and mitochondrial superoxide production: an observational prospective study.
9. Ambispective study to assess the Universal Newborn Hearing Screening program
10. Assessment of auditory and cognitive performance in children undergoing ear surgeries: A comparative study.
11. Comparative analysis of qPCR, mRNA ISH and p16 IHC for detection of high risk HPV on fine needle aspirates and core needle biopsies in patients with metastatic squamous cell carcinoma in cervical lymph nodes
12. Comparative study evaluating Ex-Vivo US aided deep margin assessment with fresh frozen section analysis in T1-T3 tongue carcinoma: Feasibility study
13. Descriptive study of the anatomical variations of the Superficial Temporal artery and the Posterior Auricular artery in the patients with Unilateral Microtia and its implications on the surgical outcomes in Auricular Reconstruction surgery
14. Device fabrication and clinical validation of a novel mechanical handheld suction device for tracheostomy tube cleaning: A pilot study
15. Effect of maxillary morphology on eustachian tube function in children with adenoid hypertrophy: an observation study

16. Impact of NACT on surgical decision and perioperative outcome in patients with very advanced buccal cancers
17. Neoadjuvant chemotherapy using Lenvatinib in locally advanced differentiated thyroid cancer – An open label phase II study
18. Outcomes of patients surgically treated for lateral skull base tumors with special reference to quality of life
19. Patterns of laryngopharyngeal injury in patients of corrosive ingestion presenting to emergency department
20. Prospective audit of type 1 tympanoplasty and evaluation of factors affecting the outcome
21. Randomized Control Trial to Analyse the effect of Intra Operative switch On (IOSO) of Cochlear Implant As Compared To delayed switch On of Cochlear Implant On electrical Impedance measurement and Auditory Skills Development In Pediatric patients With Congenital Profound idiopathic Non-Syndromic SNHL
22. Role of preoperative nutritional intervention in improving surgical outcome in patients with oral squamous cell carcinoma: A randomised controlled trial
23. Study evaluating the effectiveness of Barbed suture versus Vicryl suture for pharyngeal closure after total laryngectomy in PCF reduction
24. Surgical Outcomes in compartmental glossectomy and standard wide margin excision in T2-T3 oral tongue squamous cell carcinoma – A randomized control trial
25. To assess the DOI in laryngeal & hypopharyngeal carcinoma and correlate results with nodal metastasis
26. To determine accuracy and consistency between ex vivo Ultrasound (USG) aided and Frozen section analysis of the deep margin of the resected specimen compared to final histopathology in Oral Tongue squamous cell carcinoma.
27. To evaluate poor prognostic factors in laryngotracheal stenosis: An ambispective study
28. To evaluate prospective auditory cortical activity changes on functional near infrared spectroscopy in prelingual profound SNHL patients undergoing cochlear implantation
29. To study the efficacy of Posterior Nasal Neurectomy as treatment modality in patients with Persistent Moderate to Severe allergic rhinitis along with medical management.

Completed

1. A comparative study to evaluate functional outcomes following tongue reconstruction with radial artery forearm free flap and infrahyoid myocutaneous flap
2. A longitudinal Survey to assess Patient Satisfaction for Nurse Initiated Follow Up Tele-Consultation among patients discharged from a selected tertiary care hospital.
3. A Prospective Study to measure the objective and aesthetic outcomes in patient undergoing septorhinoplasty
4. ACE-2 receptor expression in sino-nasal mucosa in patients with COVID 19 associated mucormycosis
5. Ambispective cohort study to evaluate the effect of Supraglottoplasty on Tracheomalacia in pediatric patients with Congenital Laryngotracheomalacia (CTRI/2023/06/054248)
6. Ambispective study to assess various primary tumour and ipsilateral nodal factors associated with contralateral nodal metastasis in patients with OCSCC
7. Ambispective study to evaluate the utility of Supraclavicular artery island flap [SCAIF] reconstruction in Head and Neck Cancers
8. An evaluation of HLA, phagocytic function and trace elements in cases of sinusitis, invasive fungal sinusitis and non-invasive fungal sinusitis
9. An OMR sheet based feed-back survey on in-patient satisfaction regarding various hospital services in a selected tertiary care hospital.
10. Evaluation of short term and long-term effects of cochlear implantation on vestibular function (CTRI/2023/07/054709)
11. Salivary MicroRNA: Their utility as bio-marker during molecular changes in the tobacco users vs tobacco non-users
12. Short term & long term effects of cochlear implant on vestibular apparatus

Collaborative Projects

Ongoing

1. A Phase III, Randomized Controlled Study of Utility of Pectoralis Major Myofascial Flap in Reducing Pharyngocutaneous Fistula Rates After Salvage Total Laryngectomy, Multicentric, TMH, Mumbai
2. Evaluation and management trends for carcinoma arising in the thyroglossal duct cyst – a multi-institutional experience, Multicentric, TMH, Mumbai
3. Evaluation of CRISPR mediated ATOH1 knock-in on hair cell differentiation in cell lines derived from the murine organ of Corti, Department of Biochemistry
4. Evaluation of specific molecular alterations and tumor immune microenvironment for detection of clinically actionable targets in high grade salivary gland carcinomas, ICMR Funded, Department of Pathology
5. Evaluation of Vestibular function in patients with CSOM, Govt Medical College, Jammu
6. Evidence for Effect of Antibioics-Mediated Dysbiosis in Nasal Microbiome on Disease outcome in Upper Respiratory Infection, Collaborative project with Biotechnology, SEAS, Bennet University
7. Genetic signatures of Cisplatin-induced hearing loss in pediatric cancer survivors, Department of Pediatric Surgery, AIIMS, New Delhi
8. He Psychological impact of age related special sensory loss on mental health, cognition and quality of life in older adults, Department of Geriatrics
9. Impact of intermittent hypoxia on oxidative and inflammatory pathway in OSA, Department of physiology
10. Intra-nasal steroids alone and in combination with Levocetirizine, and/or Montelukast for moderate to severe allergic rhinitis in children: a randomized controlled trial, Department of Pediatrics, New Delhi
11. Investigating the Differential Gene expression of HSP 70 family proteins Across Various stages of Oral SCC, Department of Biochemistry
12. A randomised, sham controlled, double blind study to evaluate the efficacy of and safety of intra-thecal OAV101 in patients with later onset type-2 spinal muscular atrophy who are ≥ 2 to < 18 years of age, treatment naive, sitting, and never ambulatory., A phase 3 Clinical trial (STEER) by Novartis Pharmaceuticals. ClinicalTrials. gov Identifier: NCT05089656.
13. Perioperative anaesthetic management of paediatric congenital laryngomalacia- A retrospective study, Department of Anaesthesiology, AIIMS, New Delhi
14. Potential diagnostic and prognostic biomarkers in precursor lesions of oral squamous cell carcinoma, Pathology
15. Potentially malignant lesion atlas project: Validating the efficacy of a novel, Point-of -care diagnostics and developing an integrated multidimensional, prognostic nomogram, ICMR funded, Department of Preventive Oncology, NCI AIIMS
16. Prevalence and pattern of vestibular dysfunction in vestibular schwannoma patients undergoing resection at a tertiary care hospital, Department of Physiology, AIIMS, New Delhi
17. R2TP expression and its significance in thyroid cancer, Department of Biochemistry
18. Role of celecoxib in reducing cognitive impairment in patients receiving definitive chemoradiation for head and neck carcinoma: A phase II randomized placebo-controlled trial, ASCO, Conquer Cancer Foundation International Innovation Grant 2023, Department of Medical Oncology
19. Sleep Micro architecture and cognitive function in OSA, Department of physiology
20. Study to determine the role of mTOR pathway in the pathogenesis of juvenile nasopharyngeal angiofibroma, Department of Pathology, AIIMS, New Delhi
21. The HYPCON Trial 2: A phase II randomized study evaluating hypo-fractionated versus conventional adjuvant concurrent chemoradiation therapy in head and neck malignancies, Department of Radiotherapy
22. The SWOAR trial: A phase III trial evaluating dysphagia-aspiration related structures & submandibular gland sparing Intensity modulated radiotherapy (SWOAR-IMRT) versus standard IMRT in Head and neck squamous cell carcinoma, Department of Radiotherapy
23. A study on the effect of genetic manipulation on mammalian inner ear cells, Biochemistry

24. The tumour immune microenvironment of follicular cell -derived thyroid carcinomas across different grades utilizing gene expression and spatial proteomic profiling, DST-SERB Funded, Department of Pathology
25. To assess the efficacy and safety of oral Sirolimus in vascular malformation: A prospective pilot assessor-blinded interventional study, Department of Dermatology, AIIMS, New Delhi
26. To evaluate the role of multiparametric MRI and shear wave elastography in evaluation of salivary gland neoplasms, Department of Radiology
27. Treatment strategies and clinical outcomes in adult patients with mucormycosis: an ambispective observational cohort study., Department of Medicine, AIIMS, New Delhi
28. Utility of DDPCR as novel method to detect CT DNA in Head & Neck Cancer, Department of laboratory oncology
29. Assessment of *PRKD* and *SS18* gene alterations in low grade salivary gland adenocarcinomas, AIIMS Intramural Undergraduate Research grant (2024-2025)
30. Comparative analysis of qPCR, mRNA ISH and p16 IHC for detection of high risk HPV on fine needle aspirates and core needle biopsies in patients with metastatic squamous cell carcinoma in cervical lymph nodes, CollaborativeIntramural, AIIMS
31. Comparative evaluation of vestibular functions using subjective visual vertical in adult patients with chronic otitis media, Govt Medical College, Jammu
32. Comparison of pulsed radio-frequency versus conventional radio-frequency in secondary glossopharyngeal neuralgia: A randomised controlled trial, Department of Anaesthesiology, AIIMS, New Delhi
33. Disease phenotypes in neonates with severe bronchopulmonary dysplasia: a descriptive cohort study, Department of Pediatrics, Division of Neonatology, AIIMS, New Delhi
34. Effect of Cochlear implantation on middle ear and saccular function, Collabrative project with AIISH, Mysuru

Complete

1. Exome sequencing and molecular characterization in juvenile nasopharyngeal angiofibroma, Collaborative project with Biotechnology Department AIIMS New Delhi
2. Evaluation of genetic profile of olfactory neuroblastoma**,** Department of Pathology
3. Molecular Basis of Mucormycosis infection, Biotechnology
4. Prevalence and pattern of traumatic dental injury in children and adolescents with severe to profound hearing impairment reporting to a tertiary care centre in North India, Pediatric Dentistry, CDER, AIIMS, New Delhi

PATIENT CARE

Apart from OPD, Operation theatre and minor OT services, the department runs a rehabilitation unit of audiology and speech pathology and specialty clinics in Audiology and skull base with cochlear implant, rhinology, vertigo, voice and swallowing, and twice a week Head and neck cancer clinic. Department also provides rural services at CRHSP Ballabgarh and Outreach OPD, Jhajjar. The statistics are as follows:

Ward Admissions: D4 Ward: 8403*

*Long admissions: 4600

*Short Admissions: 3803

Number of patient operated

Main OT: *Major cases- 4468 *Minor Cases- 262

Total – 4730

Minor OT OPD procedures: 35130

Number of patient seen in OPD

New patients- 39984 Old registration - 83411

Total - 123395

Total Number of Patients seen in RUAS: 6607*

*New Patients: 3227 *Old Registrations: 3380

Total audiological tests done (PTA + Tympanometry + FFA + BERA + OAE + ASSR): 23185

AWARDS, HONOURS AND SIGNIFICANT EVENTS

Professor Alok Thakar was Appointed to the Strategic Advisory Board- Liverpool Head-Neck Centre. He was Project In-charge of Centre for Medical Innovation & Entrepreneurship (CMIE). He was Lead Expert for ENT of National Health Authority. He was Consultant (ENT) to the Honourable Vice President of India. He was Member- Expert committee for Review of National Program for Prevention and Control of Deafness. He was Co –Chairperson-Subcommittee for Medical Devices, Standing National Committee on Medicines. He was Council Member of Asia-Pacific Society of Thyroid Surgery (APTS). He was Advisory Board member -Global Healthy Hearing Ears. He was Member of WHO Regional Expert Group on Hearing Care for South-East Asia. He was Head-Neck Oncology Specialty Board-Member of National Board of Examinations. He was Scientific Director of UChicago-UCMS Webinar Series on Head-Neck Onco Surgery. 3 Keynote Lectures.

Professor Rakesh Kumar was President of Association of Otorhinolaryngologist of India (Delhi Branch) for 2024-2025. He was Chairperson of MHD-04 BIS, looking after standard of ENT instruments. He was Member of the following National and International Scientific Bodies and Associations; a) The Association of Otolaryngologists of India; b) Member of facial reconstructive society of India; c) Member of Cochlear Implant Group of India; d) Neuro-Otological & Equilibriometric Society of India; e) All India Rhinology Society; f) AOI Delhi State Branch g) Delhi Medical Council.

Professor Kapil Sikka was Awarded the fellowship, American College of Surgeons, FACS, in 2022. He was Reviewer, Indian J Otology, Indian J Otolaryngology, Head and Neck Surgery, Indian J Pediatrics, Indian J Cancer, Laryngoscope Investigative Otolaryngology, Indian J Neurology. He was Joint Secretary, Association of Otolaryngologists of India, Delhi State Branch. He was Member of Medical Board, AIIMS. He was Hony Treasurer, Foundation for Head Neck Oncology (FHNO), 2023. He was Member, editorial team for research directory, AIIMS. He was Member, Executive Committee, AOI Delhi State Branch. He was Member, Advisory board for implementation of ADIP Cochlear Implant Program. He was Empaneled faculty for academic activities of National Board of examinations. He was Reviewer BMJ innovations. He was Assistant Editor, Indian Journal of Otology. He was Nodal Officer, AIIMS, National program for prevention and control of deafness. Instrumental in initiating ABI Program at AIIMS. Part of evaluation and surgery for first ABI at AIIMS ON 20 January 2025. He was Vice-Chairman, Otorhinolaryngologic Research Society of AIIMS (ORSA), 2024. He was Appointed Additional MS, New RAK OPD- 28 March 2024. He Delivered "Prof RN Mishra UPAOI Oration" on "Hearing loss: emerging scenarios and solutions"at 41st Annual Conference of Uttar Pradesh Association of Otolarynologists 27-29 September; 2024 at IMS, Varanasi.

Professor Chirom Amit Singh Conducted Microvascular anastomosis workshop, live rat model, 27-30 November 2024. He was Technical expert group member of Ministry of Health and Family Welfare.

Professor Rajeev Kumar received Academic Awards: "Best **Publication Award** for year 2024-25" for my work on "Pre-*vascular Facial Nodes: Sentinel station for metastasis in Gingivo-Buccal Complex Cancers"* by Delhi AOI during 46th Annual Conference of Association of Otolaryngologists of India (Delhi State Branch) held from 27-29 September 2024. He wasAwarded **Gold Medal** for video presentation in RP SONI video presentation award category for "surgical technique of open partial supraglottic laryngectomy" by Delhi AOI during 46th Annual Conference of Association of Otolaryngologists of India (Delhi State Branch) held from 27-29 September 2024. He was **Editor** in Clinical Key Now, ENT subspecialty, Elsevier (App based). He was **Member of the following National and International Scientific Bodies and Associations of** Indian Society of Otology (ISO/LM/1134); The Association of Otolaryngologists of India (LM - 4070); Foundation for Head and Neck Oncology (LM-280); Neuro-Otological & Equilibriometric Society of India; All India Rhinology Society; AOI Delhi State Branch (LM-572); Delhi Medical Council (41154); European Head Neck Society (EHNS); Asia Pacific

Thyroid Society (APTS);National Academy of Medical Sciences (MNAMS); Indian Academy of Otorhinolaryngology - Head Neck Surgery (677); Indian Society of Thyroid Surgeons (ISTS; LM -298). He was a) Reviewer for official publication of Association of Otolaryngologists of India - Indian Journal of Otorhinolaryngology and Head & Neck Surgery w.e.f 21 February 2013. He was Reviewer for Journal of Medical Case Reports; He was Reviewer for "Indian Journal of Radiology and Imaging"; He was Reviewer for "Clinical Otolaryngology"; He was Reviewer for "World Journal of Paediatric Surgery"; He was Reviewer for "BMJ Case reports"; He was Reviewer for "Cureus".

Professor Prem Sagar received Gold Medal in Senior Consultant Award Paper Presentation for paper titled "Serum Prestin level as a coherent marker of inner ear health: a cross-sectional observational study to determine the normative value and role in Meniere's Disease" in 46th Annual Conference of Association of Otolaryngologists of India, Delhi State (Delhi AOICON 2024) in Pride Plaza, Aerocity, New Delhi from 27-29 October 2024. She received Silver medal in Senior Consultant Award for: oral presentation titled "Vestibular function alteration following cochlear implantation: evaluation of the effect of surgery and continued usage of cochlear implant" in 21st National conference by Cochlear Implant Group of India, CIGICON 2024, organized by AIIMS, Patna, 30-31 August 1 September 2024. She received Second prize/Silver medal in Senior Consultant Award Paper for paper titled "Antenatal hearing screening by Foetal Vibroacoustic Stimulation: Interim results of a prospective cohort study" in 32nd Annual National Conference of the Indian Society of Otology, ISOCON 2024 in Agra, Uttar Pradesh, 8-10 November 2024. She was Organizing secretary of Neuro-Otology Update in AIIMS, New Delhi, 20-22 February 2025. She Organized 3rd Professor SK Kacker Oration by Prof Milind Vasant Kirtane on 21 February 2025 at AIIMS, New Delhi. She was Member of Expert group for review of Health Benefit Packages for ENT under AB-PMJAY, MOHFW, Govt. of India. She was Specialist in the Medical Cell of National Health Authority under the project/task on standard treatment guidelines, Health Benefit Packages, Quality Assurance, Govt. of India. Co-opt Member of the panel on ENT Sectional Committee looking after and setting up the standard of ENT Surgery Instruments, MHD 04 by Bureau of Indian Standards. She has applied for patent of invention "A system for cleaning tracheostomy tube" (Indian patent application No- 202311022027). Member of National Academy of Medical Sciences. Member of: a. Society of Ear Nose and Throat Advancement in Children, Philadelphia, USA. b. National Academy of Medical Sciences; c. Cochlear Implant Group of India; d. Neuro-Otological and Equilibriometric Society of India; e. Indian Society of Otology; f. Association of Otolaryngologists of India; g. Foundation for Head and Neck Oncology; h. All India Rhinology Society; i. Facial Reconstructive & Cosmetic Surgery Trust (India); j. Association of Otolaryngologists of India, Delhi State Branch. She was Executive editor in Clinical Key Now, ENT subspecialty, Elsevier (App based). She was Reviewer in a. ORL, Karger publishers; b. Annals of Otology, Rhinology & Laryngology; c. Indian Pediatrics Journal d. Developmental Medicine & Child Neurology, official journal of the American Academy for Cerebral Palsy and Developmental Medicine and the British Paediatric Neurology Association e. Chest, Official Publication of the American College of Chest Physicians f. Indian Journal of Otolaryngology and Head Neck Surgery g. International Archives of Otorhinolaryngology; h. Allergy & Rhinology; i. Trends in Anaesthesia and Critical Care; j. Journal of International Medical Research k. BMJ Innovations l. BMJ Case Reports; m. Frontiers in Surgery, section Otorhinolaryngology& Head Neck Surgery; n. Cureus Journal of Medical Science o. LIFE journal; p. Indian Journal of Medical Research; q. Journal of Clinical Medicine, Otolaryngology section; r. Children; s. Advances in Therapy.

Dr Hitesh Verma was Member of Medical Board, AIIMS. He was Departmental Nodal Officer for PM-JAY, Website. He was Reviewer BMJ Open, Laryngoscope, Medicine, Journal of Otolaryngology – Head & Neck Surgery, Clinical Otolaryngology, Indian Journal of Otolaryngology and Head & Neck Surgery etc. He was Hony Treasurer, Delhi AOI 2021-2023. He was Hony Treasurer, Otorhinolaryngologic Research Society of AIIMS (ORSA), 2024. CPIU, Department of ENT; Panelist for ENT related problems. India TV (04 October 24), Zee TV (11 November 24) & Doordarshan (25 October).

Dr Poonam Sagar was Organized 6th AIIMS Facial Plastics Workshop & CME, 11-13 October 2024, AIIMS Delhi; Temporal Bone Workshop Coordinator in AIIMS Neuro- Otology Update 2025 (20-22 February 2025, AIIMS Delhi). Organized departmental activity on World Hearing Day 3 March 2025- Interactive Awareness Talk on Hearing loss and prevention and elderly hearing screening.

Dr Smriti Panda was International Visiting Scholarship (IVS)-2024: American Academy of Otolaryngology- Head and Neck Surgery (AAO-HNSF).

VISITING SCIENTIST

Professor Kyung Tae, Director, Hanyang University Hospital Cancer Center, Seoul, South Korea visited the Department from 28 March 2024 till 6 April 2024 who was awarded the Infosys Chair in Oncology under AIIMS Endowment Fund.

Padma Shree Professor Milind Vasant Kirtane, Professor Emeritus, Seth G. S. Medical College & Hon. Surgeon at KEM Hospital, Mumbai visited the Department on 21 February 2025 and was awarded the 3rd Professor S.K. Kacker Oration.

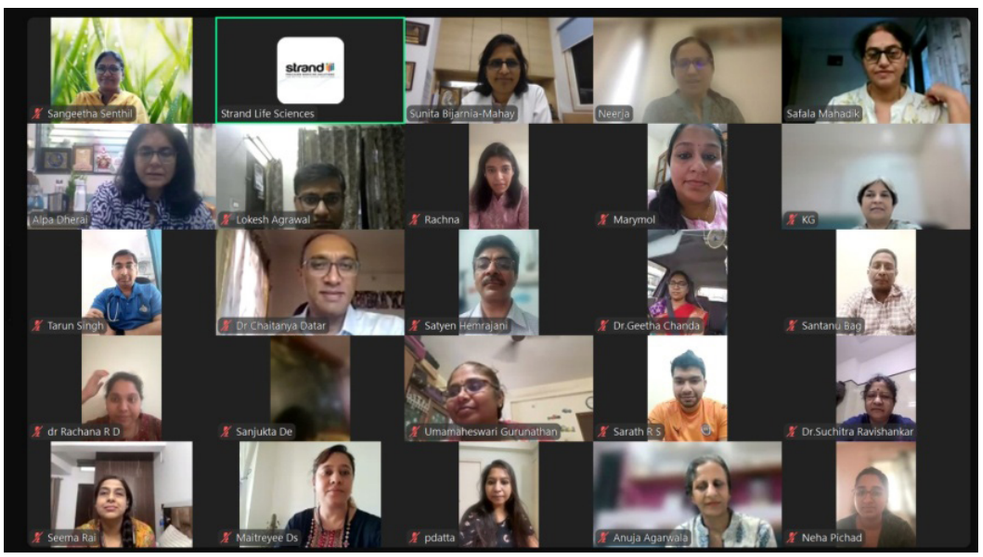
HIGHLIGHTS

Genetics Division

The Division of Genetics was involved in organizing the following events:

- **Indo-US Rare Summit: The Indo-US Bridging RARE Summit 2024,** held from November 16-18 at the Indian National Science Academy in New Delhi, India, successfully concluded its mission to advance global partnerships in rare disease advocacy, research, and innovation. The Summit, which lasted three days, brought together over 400 delegates both in-person and online, including patient advocates, researchers, policymakers, and industry leaders for a transformative event.



- The Division of Genetics, Department of Pediatrics at the All India Institute of Medical Sciences (AIIMS), New Delhi, and the Department of Medical Genetics at Maulana Azad Medical College (MAMC), New Delhi, have jointly organized a workshop to raise awareness of rare disorders among medical professionals on 22nd February 2025 under the aegis of the Ministry of Health and Family Welfare (MoHFW), Government of India. The event brought together various healthcare professionals, including principals from different government medical colleges, healthcare practitioners in both government and private sector institutions across the Delhi National Capital Region (NCR), residents, researchers, and patient advocacy groups, in addition to officials associated with the rare disease program from MoHFW and WHO India. Approximately 96 participants from 24 hospitals in the Delhi NCR have registered for the event.

- Under the aegis of the Indian Society of Inborn Errors of Metabolism, a foundation course on inborn errors of metabolism was held online from December 21, 2024, to March 15, 2025, followed by an offline capsule course on March 19 and 20, 2025.

Neonatology Division

- The Division of Neonatology has remained the WHO Collaborating Centre (WHO-CC) for Training and Research in Newborn Care since its establishment in 1997.
- The Division established a Comprehensive Lactation Management Center, 'Payodhi, ' which was inaugurated on 10 February 2025. The Center addresses the donor milk needs of sick babies in the NICU. We mentored Safadarjung Hospital, New Delhi, and BP Koirala Institute of Health Sciences Nepal to establish similar services.
- The WHO-CC offers an online ENCC course for healthcare professionals, including doctors and nurses, at www.ontop-in.org In 2024-25, the platform hosted two Sick Newborn Care Courses and facility-based newborn nursing courses for nurses from the South East Asian Region (SEAR) including Dhaka Medical College, Bangladesh Shishu Hospital and Institute, Sir Salimullah Medical College & Mitford Hospital, Kurmitola General Hospital in Dhaka, and Chittagong Medical College in Chattogram. In the first course (21st Sick Newborn Care Course, 27 January 2024 to 4 June 2024), 146 doctors participated, and 29 doctors successfully passed. In the 12th Facility-Based Newborn Nursing Course (28 January 2024 to 14 May 2024), 157 nurses participated, and 63 nurses passed. In the second course, the 22nd Sick Newborn Care Course (2 November 2024 to 16 February 2025), 130 doctors participated, and 60 doctors passed. In the 13th Facility-Based Newborn Nursing Course (2 November 2024, to 2 February 2025), 206 nurses participated, and 40 nurses passed.
- WHO-CC also offers self-directed learning for facility-based preterm infant care with the course "Eliminating Retinopathy of Prematurity by Improving Quality of Care " on the platform www.pretermcare-eliminatingrop.com. A total of 1562 participants registered last year and learned best practices for the care of preterm infants.
- WHO-CC also offers self-directed learning on Quality Improvement through the POCQI workbook (Point of Care Quality Improvement) available at https://workbook.pocqi.org/. Last year, 920 participants registered and learned best practices on QI.
- The Division's faculty is mentoring 15 Special Newborn Care Units (SNCUs) in Madhya Pradesh that report high caseloads and adverse outcomes. A dedicated team of 15 mentors, under our guidance and supervision, supports these facilities daily. The primary aim is to improve the quality of care and reduce neonatal mortality across these high-burden units.
- The Division is leading the SANKALP program in Khargone district, Madhya Pradesh, which focuses on achieving a single-digit Neonatal Mortality Rate (NMR). This initiative serves as a demonstration model and is expected to generate critical evidence to guide national policy toward the SDG 3 target of reducing NMR to single digits by 2030.
- The faculty recently published the 'District Hospital' sepsis study findings in The Lancet Global Health. The study's objective was to evaluate the burden of culture-positive sepsis in secondary health facilities, i.e., the district hospitals and special care newborn units (SNCUs). This study, funded by the Bill & Melinda Gates Foundation, was conducted in five district hospitals across India. We established a district hospital–tertiary site dyad, where a tertiary hospital acted as a mentoring site and provided access to the microbiology laboratory and support for the district hospital investigators during the study's implementation. The study enrolled approximately 6600 neonates and found a high incidence of culture-positive sepsis, case-fatality rates, and multidrug resistance among common pathogens in neonates admitted to SNCUs.
- The DM Neonatology program completed 25 years, a moment of pride and reflection for all associated with it. A commemorative gathering was held to mark this milestone, bringing together alumni and faculty in remembrance and celebration. Former faculty members graced the occasion, and support departments were felicitated for their longstanding contributions. Alumni from the program, now spread across the country and beyond, are doing exceedingly well and carrying forward the values instilled during their training. On this occasion, a special logo for the NICU was unveiled, symbolizing the program's guiding principles—Dedication, Compassion, and Excellence.
- QI program in NICU: We run a comprehensive quality improvement (QI) program in our unit that involves nurses, doctors, and other NICU team members in a workshop aimed at enhancing quality improvement for our residents and nurses. The Division of Neonatology initiated six quality improvement (QI) projects in the NICU: improving exclusive breast milk feeding, increasing the duration of kangaroo mother care (KMC), reducing sound levels in the NICU, minimizing unnecessary crowding and foot traffic, and decreasing prescription and transcription errors. Each project is led by a team leader (nurse or doctor), with four to five members assigned specific roles. QI meetings are held every four to six weeks to discuss progress, challenges, and potential solutions.
- Simulation lab: The team established a state-of-the-art simulation lab (model unit for simulation and skill training) with the support of UNICEF and developed a curriculum comprising 18 simulation scenarios for sick newborn care training. The goal for the next year is to implement a cascading system of simulation and skill training aimed at enhancing the competencies of providers working in medical colleges and district hospitals for the care of sick newborns.

Neonatal Resuscitation Program for undergraduates and residents at SET facility

Inauguration of the Comprehensive Lactation Management Centre (CLMC), Payodhi at the Division of Neonatology, AIIMS, New Delhi (February 10, 2025)

Child Neurology Division

The Child Neurology Division has been a "Centre of Excellence and Advanced Research for Childhood Neurodevelopmental Disorders Since 1 December 2017 and is dedicated to advancing research, academics, and the empowerment of both professionals and parents.

Academic outreach includes:

- A national webinar on Cannabidiol in Epilepsy in association with the Association of Pediatric Neurology
- 71 international webinars conducted with the AOCN, attended by participants from over 74 countries

As a part of a humanitarian access program for children with Spinal Muscular Atrophy (SMA):

- 42 children are currently receiving intrathecal Nusinersen (Spinraza)
- 23 children have been treated with intravenous Zolgensma
- 16 patients are receiving Risdiplam

We are actively involved in several multicentric global clinical trials, including:

- Intrathecal Zolgensma in Type 2 SMA
- Intravenous Eteplirsen (Exon 51 skipping agent) in Duchenne Muscular Dystrophy (DMD)

In addition, two patients with Cerebral Adrenoleukodystrophy underwent Hematopoietic Stem Cell Transplantation (HSCT) this year.

Our team also contributed to significant policy updates, including the inclusion of the AIIMS-modified INCLEN diagnostic tool for Autism in the official gazette notification for persons with disabilities.

Our team conducted the public health lecture in Autism on 22 April 2024, creating awareness regarding this emerging health problem to the public.

Also conducted the workshop on "Holistic Management of Autism" in AIIMS, New Delhi in collaboration with COE, IAN and AOCN on 21 to 22 September 2024

Furthermore, in collaboration with The Hans Foundation, we launched the project **"Holding Hand in Magical Years**," aimed at providing comprehensive, integrated services for children with neurodevelopmental disabilities under one roof.

Fig: Various events in Child Neurology Division Between 2024 - 2025

Pediatric Oncology Division

- Departmental symposium Frontiers in Pediatrics: Multi Specialty Symposium 25.1.25
- Late effects & Survivorship Meeting August 3& 4 2024
- Pediatric Oncology division has become member of the St. Jude Global Alliance.

Vandana Jain

Education

Pediatric Endocrinology Division

- Dr. Vandana Jain organized a 'Case-based Symposium on thyroid disorders' for postgraduates on 30 November 2024
- Dr. Vandana Jain organized a PG Masterclass in Disorders of Sex Development on 19 October 2024
- One short-term trainee came for Pediatric Endocrinology training under Dr Vandana Jain in June-July 2024: Dr Amit Kumar, Associate Professor of Pediatrics, IGIMS Patna
- Dr. Vandana Jain organized Professor OP Ghai Memorial oration by Professor PSN Menon on 9 November 2024
- Dr. Rajni Sharma served as examiner for the postgraduate case "Congenital Adrenal Hyperplasia in Childhood" in Pediatric Endocrinology for Postgraduates Program by the Indian Society for Pediatric and Adolescent Endocrinology (ISPAE) on 31 July 2024.

Genetics Division

Short-term trainees:

1. Dr. Manali Satiza Senior Resident, Hematology, 11 September 2024-20 September 2024, 10 days, Department of Pediatrics, Genetics, Prof M Mahapatra Department of Hematology, AIIMS New Delhi.
2. Dr. Aradhana Sarma, MD, 1 October 2024-20 October 2024, 20 days, Department of Pediatrics, Genetics, Professor Kalpana Luthra Department of Biochemistry AIIMS, New Delhi.
3. Dr. Anandam Biswas MD, 1 October 2024-20 October 2024, 20 days, Department of Pediatrics, Genetics, Professor Kalpana Luthra Department of Biochemistry AIIMS, New Delhi.
4. Dr. Madhubala Manoharan, MD, 1 October 2024-20 October 2024, 20 days, Department of Pediatrics, Genetics, Professor Kalpana Luthra Department of Biochemistry AIIMS, New Delhi.
5. Dr. Sanjana Irukulla, MD, 1 October 2024-20 October 2024, 20 days, Department of Pediatrics, Genetics, Professor Kalpana Luthra Department of Biochemistry AIIMS, New Delhi.
6. Dr. Abhishek Malik, Senior resident, Hematology, 1 December 2024-10 December 2024, 10 days, Department of Pediatrics, Genetics, Prof M Mahapatra Department of Hematology, AIIMS New Delhi.
7. Dr Jaideep Lochan, 7 October 24-03 February 2025, 4 months, Department of Pediatrics, Genetics,
8. Dr. Mahabharathi Senior resident, Hematology, 1 January 2025-10 January 25, 10 days, Department of Pediatrics, Genetics, Prof M Mahapatra Department of Hematology, AIIMS New Delhi.
9. Dr. Ritesh Ranjan Sah Senior Resident (DM Neonatology), 2 January 2025-15 January 2025, 15 days, Department of Pediatrics, Genetics, Dr. M Jeeva Sankar Department of Pediatrics, AIIMS New Delhi.
10. Dr. Ilika De Junior Resident, 1 March 2025-31 March 2025, 1 month, Department of Pediatrics, Genetics, Dr. Sudip Kumar Datta Department of Laboratory Medicine, AIIMS New Delhi.

Neonatology Division

- The division conducted two workshops on Neonatal Resuscitation Program at SET facility for hands-on skill training of undergraduate students and postgraduate residents of emergency medicine, pediatric surgery, obstetrics and gynecology in different batches to equip them with basic skills in resuscitation of newborns. In addition, the division has organized a Standard Treatment Protocol workshop for undergraduates.
- For the MBBS teaching program, the Department of Pediatrics has contributed to the development of skill modules for undergraduate medical students, including pulse oximeter, chest compression and pediatric resuscitation, neonatal orogastric feeding, and lumbar puncture for the SET facility.

- In the DM program, the division has organized weekly workshops covering topics such as bedside echocardiography, parenteral nutrition, ventilator settings in respiratory disorders, and neonatal equipment. These workshops are led by a senior DM resident in their final year, under the mentorship of division faculty. Other DM and senior MD residents are also involved. In addition, the division has organized five integrated seminars and case discussions involving other disciplines in the teaching program.
- The division has organized weekly workshops on topics such as Kangaroo Mother Care, Parenteral Nutrition, and Basic Neonatal Equipment training. These workshops include hands-on training for residents and nurses.
- We run a comprehensive quality improvement (QI) program in our unit that involves nurses, doctors and other NICU team members in a quality improvement workshop for our residents and nurses. The Division of Neonatology has initiated six quality improvement (QI) projects in the NICU: improving exclusive breast milk feeding, increasing the duration of kangaroo mother care (KMC), reducing sound levels in the NICU, minimizing unnecessary crowding and foot traffic, and decreasing prescription and transcription errors. Each project is led by a team leader (nurse or doctor) with four to five members assigned specific roles. QI meetings are held every four to six weeks to discuss progress, challenges, and potential solutions.

Child Neurology Division

- **Diagnostic tools which we have developed and validated for neurodevelopmental disorders-** ASD, ADHD, Epilepsy and neuromotor impairments (NMI) are being used in international research. We have made their **training teaching sessions as well as training modules** We have taken online/ face to face **training sessions** for UK and Malawi for all 4 tools. Recently we organized training sessions for experts from Pakistan, Tanzania, UK and USA for Autism and NMI. They have been translated into various languages
- Developmental Assessment and Neurological Examination resource material including a 2-pager development assessment checklist has been made available on the website. Developmental Assessment kits have also been made.

Innovative Educational activities:

- **Website (**www.pedneuroaiims.org**)** including audiovisuals for clinicians on various neurological/ neurodevelopmental disorders and parents.
- **Pedneuroaiims Diagnostics: Mobile app for diagnosing Autism, epilepsy, ADHD, neuromotor impairments** (on google and apple platforms)
- **E-learning modules in Child Neurology** (https://pedneuroaiims.chalopadho.com)
- **E learning modules of Epilepsy webinars:** you tube with around 16000 viewership till date and. QR code:
- **AI based remedial education program for SLD: http://readabled. com**

Weekly/Fortnightly webinars: Have been organizing weekly/fortnightly webinars in collaboration with AOCN, India every Wednesday 8:00 to 9:30 pm on various aspects of pediatric neurology.

Pediatric Oncology Division

- Pediatric Oncology Division won the first prize in the national quiz at the mid term pediatric Hematology-Oncology conference held at Nagpur, NCI, Maharashtra

Pediatric Rheumatology and Clinical Immunology Division

Short-term training

Name	Training	Designation and Institute	From	To
Dr. Rinku Saini	Short-term observership Pediatric Rheumatology	Associate Professor, Pediatrics, SMS, Jaipur	24 May 2024	07 June 2024

CMEs/Workshops/Symposia/National and International Conferences

Pediatric Endocrinology Division

- Dr. Vandana Jain organized the PCNI post-conference workshop on Endocrine Disorders in Children on 23 September 2024, at AIIMS, New Delhi

- Dr. Vandana Jain was the local organizing core committee member for the 13th Biennial Scientific Meeting of the Asia Pacific Pediatric Endocrine Society (APPES) and 25th APPES Fellows School, September 2024

Genetics Division

The Division of Genetics was involved in organizing the following events:

- **Indo-US Rare Summit with Indo-US Rare -**The **Indo US Bridging RARE Summit 2024**, held from November 16-18 at the Indian National Science Academy, New Delhi, India
- Under the aegis of the Indian Society of Inborn Errors of Metabolism, A FOUNDATION COURSE ON INBORN ERRORS OF METABOLISM in online mode from 21 December 2024 to 15 March 2025 followed by an offline Capsule course on 19 and 20 March 2025 in Maulana Azad Medical College and Chacha Nehru Bal Chikitsalya, Delhi
- Nieman Pick disease Day celebrations 16 October 2024, AIIMS, New Delhi
- First anniversary of Newborn screening 28 September 2024, AIIMS, New Delhi
- Rare disease day– 22 February 2025, AIIMS, New Delhi

Pediatric Nephrology Division

- An interactive teaching session in a hybrid format on 'Management of thrombotic microangiopathy' was held on the occasion of World Kidney Day on 12 March 2025. The session was attended by 30 postgraduate students, fellows, senior residents, and faculty from medical colleges across Delhi and 100 virtual attendees on Zoom platform. The workshop involved case-based discussions on pediatric and adult cases with thrombotic microangiopathy (TMA), including pregnancy-associated and post-transplantation TMA, by faculty and residents from PGIMER Chandigarh, SGPGI Lucknow and AIIMS, New Delhi.
- An online weekly webinar series, Pediatric Nephrology Core Curriculum: Nephrology Education from a Pediatric Residents Outlook (NEfPRO): Led by the Division faculty as part of activities of the Indian Society of Pediatric Nephrology (ISPN), the online series includes 28 weekly webinars during March-October 2024 and is led by nationwide experts in pediatric nephrology and attended by ~400 postgraduate students in Pediatrics across India.
- The third nationwide quiz on pediatric nephrology for postgraduates in Pediatrics: Led by the Division faculty as part of activities of the ISPN, the quiz was conducted in college, divisional, zonal and national rounds during June-December 2024, and was enabled by enthusiastic participation from 161 medical colleges or institutes, and over a hundred faculty members, nationwide.
- The division co-organized the Annual Conference of the Indian Society of Pediatric Nephrology in December 2024 at The Lalit, New Delhi. More than 400 delegates, including faculty, fellows, postgraduate residents, and allied health professionals from across India, attended the event, which included four parallel pre-conference workshops.

Child Neurology Division

List of Events Organized by the Division

1. Public Health Lecture on Autism Awareness month, Department of Pediatrics, AIIMS, New Delhi, 22 April 24, JLN Auditorium AIIMS, New Delhi
2. Workshop on "Holistic Management of Autism: Current Update", COE Department of Pediatrics & IAN in collaboration with AOCN, 21 to 22 September 2024, S.E.T. Facility, Conference Block, AIIMS

Pediatric Oncology Division

- Departmental symposium Frontiers in Pediatrics: Multi Specialty Symposium 25 January 2025
- Late effects & Survivorship Meeting 3 & 4 August 2024

Pediatric Rheumatology and Clinical Immunology Division

1. Workshops, 18 January 2025, MCB Board Room, AIIMS, New Delhi
2. Master class in Pediatric Rheumatology, 19 January 2025, Dr. Ramalingaswami Board Room, AIIMS, New Delhi

Lectures delivered at CMEs, National and International Conferences

Lectures delivered: 364

Madhulika Kabra: 19	**Pankaj Hari: 9**	**Sheffali Gulati: 95**
Rakesh Lodha: 9	**Rachna Seth: 18**	**Ramesh Agarwal: 11**
Vandana Jain: 14	**Aditi Sinha: 14**	**Neerja Gupta: 16**
M Jeeva Sankar: 32	**Kana Ram Jat: 15**	**Jhuma Sankar: 10**
Biswaroop Chakrabarty: 9	**Rajni Sharma: 12**	**Anu Sachdeva: 13**
Prashant Kumar Jauhari: 8	**Narendra Kumar Bagri: 18**	**Ankit Verma: 2**
Menka Yadav: 6	**Deepika Kainth: 7**	**Jitendra Meena: 17**
Rashmi Shukla: 2	**Kajal Jain: 4**	**Yadav Dhaneshwar (M.S.S.O): 4**

Pankaj Hari

1. Urinary tract infection & primary VUR, Nephrology Education from A Pediatric Resident's Outlook (NEfPRO): Webinar Series, 26 July 2024 (Virtual), Delhi
2. Kidney transplantation in children, Nephrology Education from A Pediatric Resident's Outlook (NEfPRO): Webinar Series, 20 September 2024 (Virtual), Delhi
3. Best Practices & Standards Committee, International Pediatric Nephrology Association Council Meeting, 23-24 September 2024, Spain
4. ANCA vasculitis, 36th Annual Conference of the Indian Society of Pediatric Nephrology 2024 (ISPNCON 2024), 8 December 2024, New Delhi
5. Implementation of SRNS and SSNS guidelines in low resource settings – achievements and challenges, 20th International Pediatric Nephrology Association (IPNA) Congress, 19-23 February 2025, Cape Town, South Africa
6. Management of UTI and primary VUR, 20th International Pediatric Nephrology Association (IPNA) Congress, 19-23 February 2025, Cape Town, South Africa
7. Current status of antibiotic prophylaxis in children with VUR, Update on management of primary vesicoureteric reflux 2025, 2nd March 2025, New Delhi
8. ISPN UTI guideline in a nutshell, "Navigating Pediatric UTIs and VUR in rural and urban India: A Workshop for Healthcare Professionals", 8 March 2025 (Virtual), New Delhi
9. Developing evidence based guidelines, Regional Capacity Building in Systematic Reviews in India-SARANSH Workshop, 20 December 2024, AIIMS, New Delhi

Madhulika Kabra

1. Genomic testing in clinical practice: Utility & pitfalls, Invited Talk at Maharishi Dayanand University Rohtak, 24 April 2024, Rohtak
2. Overview of Treatment of Genetic Disorders, DHR workshop organized by NIRRH Mumbai, 27 June 2024, Online
3. Understanding the less explored world of Adult Clinic -Genomics, National Symposium on Genetic Diseases Organized by Rare Disease India Foundation, 13 July 2024, New Delhi
4. Approach to Dysmorphic Child, ICMR Course SGPGI, 31 July 2024, Lucknow
5. Neurodegerative disorders, ICMR course SGPGI, 31 July 2024, Lucknow
6. Moderator for panel: capacity building for rare Disease COEs, SMARTCON 2024, 24 August 2024, New Delhi
7. Genetics of Respiratory Diseases: When to order, what to order, how to interpret? Delhi Respicon Organized by Pediatric Respiratory Society, 25 August 2024, New Delhi
8. Introduction to National rare disease policy, 7th National conference ISIEM -24, 21 September 2024, Jaipur
9. Treatment of Genetic Disorders overview & Current status, Master Class IAP Medical Education Chapter IAP Vijayawada, 2 October 2024, Online

10. Prenatal genetic testing beyond Exome & Microarray, NARCHI Delhi 2024, 4 October 2024, New Delhi
11. Comprehensive Newborn Screening, Perinatal Conference IAP Hadoti Kota, 10 November 2024, Kota
12. Epidemiology of Rare Diseases and Digitization, 2nd Indo US Rare Summit 2024, 17 November 2024, New delhi
13. National policy for Rare Diseases – Challenges & Way forward, ICBD 2024 6th International Conference on Birth Defects, 28 November 2024, Jaipur
14. Public lecture Genes, Genomes & Birth Defects, ICBD 2024 6th International Conference on Birth Defects, 28 November 2024, Jaipur
15. Diagnostic Application of Genetics in Pediatric Office Practice, 1st National Conference of IAP South Delhi, 15 December 2024, New Delhi
16. Expert panelist Workshop on EYE or AI for Dsmorphology, 9th Annual Conference of SIAMG, 5 December 2024, Ahmedabad
17. Recent advances in treatment of Genetic disorders, Certificate course in Essentials of Clinical Genetics IAP Kerala & SIAMG, 10 December 2024, Online
18. Landscape of rare Genodermatosis in India, CME on Rare Dermatological disorder conference Organized by Department of Dermatology & Venereology AIIMS, New Delhi & IADVL, 18 January 2025, New Delhi
19. Birth Defects Prevention & Screening: Strategies for early intervention, RBSK Training Activity, 20 January 2025, Online

Sheffali Gulati

1. Recent Trend in Autism, National Trust, 2 April 24, Online
2. Recent advances in Autism, Department of Education Lady Irwin College (University of Delhi), 3 April 2024, Seth Ram Lal Hall Lady Irwin College DU
3. To be a Guest Speaker Topic "Health Benefits of Music Therapy", IMTA, 7 April 2024, Virtual
4. To be a Coordinator for the Neurofibromatosis conclave, AOCN, 11 April 2024, Indian Habitat Centre
5. As a chief Guest for Shristi Foundation Day, Shristi Institute for Child &Adolescent Mental Health, 13 April 24, DLF Public School, Sahibabad
6. Public Health Lecture – Autism Awareness Month, J.L. N, AIIMS New Delhi, Depatment of Pediatrics, 22 April 2024, New Delhi, India
7. Exploring the unchartered territory of Artificial Intelligence in Child Neurology Conducting a SIG, 18th International Child Neurology Congress (ICNA), 7 May 2024, Cape Town, South Africa
8. Autism Spectrum Disorder- current concepts and conducting the symposium, 18th International Child Neurology Congress (ICNA), 9 May 2024, Cape Town, South Africa
9. Conducting the workshop – Aritficial Intelligence –Artificial/Augmented Intelligence Applications in Education & Research, 18th International Child Neurology Congress (ICNA), 10 May 2024, Cape Town, South Africa
10. Pre Recorded Experiences in Emerging Therapies, Indian Association of Muscular Dystrophy Conclave, 11 May 2024 ?
11. Panel Discussion Key challenges for SMA management SOC for SMA Management, Roche Pharma India, 25 May 2024, Virtual
12. As a Panelist Expectations for transformation in clinical research (Phase I/Early Phase, Cell gene studies/CART), Indian Society for Clinical Research (ISCR), 30 May 2024, CDSCO Office, FDA Bhawan Delhi
13. To be a Keynote Speaker on "Assessment and Early Intervention", Association of Rehabilitation Professionals and Parents, 15 June 2024, Kerala school, Qutub Garh, Sec-8 R.K. Puram, New Delhi
14. "Ketogenic diet in Epilepsy", Sri Ramachandra Institute of Higher Education and Research (SRIHER), 22 June 2024, Dental BASEMENT Au 27 June 2024 ditorium (SRIHER 29 June 2024), Chennai
15. To be an expert to share the Clinical experience of Global Managed Access program with Onasemnogene Abeparvoved and Steer gene therapy., Novartis Healthcare Private Limited, 27 June 2024, Virtual

16. To deliver a talk on "Metabolic Stroke", Indian Stroke Association and Indian Academy of Neurology, 29 June 2024, J W Marriott Hotel, Bengaluru/Virtual
17. Neuromuscular Disorder, Indian Academy of Pediatrics (IAP), 2 July 2024, Virtual
18. Talk on epilepsy in Neurodevelopmental disorder, Indian Epilepsy Society, 6 July 2024, Jaipur
19. To be an expert for the 2nd batch of Training on implementation of revised Disability Assessment Guidelines of MOSJE Session on Specific Learning Disability/Autism Spectrum Disorder/Intellectual Disability/Chronic Neurology conditions, Ministry of Social Justice & Empowerment Department of Persons with Disabilities (DEPwD), Government of India, 18 July 2024, Vallabh Bhai Patel Bhawan, AIIMS, Bhopal, Madhya Pradesh
20. Session "Burden and Determinants of Early Childhood Development Disorders in India", CAPHER-India, 24 July 2024?
21. To attend "Donors FacilitationProgram", ORBO, 2nd August 24, Dr Ramalingaswami Boardroom AIIMS
22. As an expert for the YES journal club, Amrita Institute of Medical Sciences, Faridabad HR, 5 August 24, Virtual
23. Introduction of EEG basics, Department of AIIMS Bhatinda & Association of Child Neurology (AOCN), 9 August 24, Pre recorded
24. Women in Medicine: Pioneers of Change, All India Institute of Medical Sciences Rishikesh, 10 August 2024, Auditorium All India Institute of Medical Sciences Rishikesh
25. To be examiner for Post –Doctoral Fellowship Examination, AIIMS, Jodhpur, AIIMS, Jodhpur, 17 August 2024, AIIMS, Jodhpur
26. "Epilepsy in Children &Neonates", IES, 24 August 2024, Hotel Leela Ambience Shahdara
27. To be a panelist in panel discussion on "Navigating the hurdles: Innovative solutions for rare disease treatment" Deliver a talk on "Gene therapy for SMA", Cure SMA, 24 August 2024, Lemon Tree Convention Center, sec-60, Gurugram
28. Topic: "Autism – Red Flags" Panel discussion: Role of Allied Health in ASD management, World Neurosciences Summit - IV 2024, 25 August 24, Hotel JW Marriott, Atrocity ND
29. Panelist in panel Discussion: Management in Epilepsy patient – A case-based Approach, World Neurosciences Summit - IV 2024, 25 August 2024, Hotel JW Marriott, Atrocity ND
30. Training on Trainers (TOT) "workshop for Action ND follow-up study" **Agenda Review,** BRIC – Translational Health Sciences & Technology Institute, Department of Biotechnology, Govt of India, 29 August 2024, Hotel Udman, Panchshila Park, Delhi

30. AIIMS Modified-INCLEN Diagnostic Tools for Autism Spectrum Disorder (INDT-ASD – Review and Practice-Session-1, BRIC – Translational Health Sciences & Technology Institute, Department of Biotechnology, Govt of India, 29 August 2024, Hotel Udman, Panchshila Park, Delhi

30. AIIMS Modified-INCLEN Diagnostic Tools for Autism Spectrum Disorder (INDT-ASD – Review and Practice-Session-2, BRIC – Translational Health Sciences & Technology Institute, Department of Biotechnology, Govt of India, 29 August 2024, Hotel Udman, Panchshila Park, Delhi

30. AIIMS Modified – INCLEN Diagnostic Tool for Epilepsy (INCLEN- INDT-EPI) – Review and Practice – Session-1, BRIC – Translational Health Sciences & Technology Institute, Department of Biotechnology, Govt of India, 29 August 2024, Hotel Udman, Panchshila Park, Delhi

30. AIIMS Modified – INCLEN Diagnostic Tool for Epilepsy (INCLEN- INDT-EPI) – Review and Practice – Session-2, BRIC – Translational Health Sciences & Technology Institute, Department of Biotechnology, Govt of India, 29 August 2024, Hotel Udman, Panchshila Park, Delhi

30. How to train others for AIIMS modified INCLEN tools, BRIC – Translational Health Sciences & Technology Institute, Department of Biotechnology, Govt of India, 29 August 2024, Hotel Udman, Panchshila Park, Delhi
