Feedback : Dear Sir/Ma'am, I just wanted say thanks to all the staff of Cardiac department and specially to Dr. Bisoi Sir. He is like God himself on this planet for me. My son (Sarthak) when he was only 2 months old in January 2011 he had a problem in his heart veins and have many holes also in his heart. according to the doctors the veins are connected to the hearts with lungs and mind wrongly and they have to do a surgery immediately as soon as possible. and they were recommend me to go to the Medicity Medanta hospital in Gurgaon. But it was too expensive for me. so I decided to visit to AIIMS. and it was a like boon for me. I met to Dr. Bisoi and requested him to please check ones my problem and he was did for me even he was so busy at that time but he was took my case on an priority basis and he was complete the surgery and all and now with God grace I am playing with my son very happily. now he is 5 years old already. he is growing very good. I will always being debtor of God and Dr. Bisoi both in my whole life. And i can't pay back in my entire life. Now I am feeling very very happy when I am sharing my own experience of the AIIMS with other people. Thanks a lot. Thanks again. Thanks Best Regards Vivek Thailand
