### ABOUT Us

The central library of Institute came into existence in 1866 and named as Dr. B.B. Dikshit Library in 1973 by the name of the founder director of the Institute. This Library building consists of two floors with a carpet area of 27,000 square feet and seating capacity of 300 readers. The library services remains open round the clock, seven days a week (24 X 7). The entire library is air-conditioned with CCTV surveillance, 3M Security system and Wi-Fi facility to access Electronic Resources.

### OBJECTIVES

- ◆ To identify information needs of faculty members, doctors, research scholars, nurses and paramedical professionals.
- ◆ To develop well balanced and up-to-date collection and organize it as per the users' need that will enable the readers to use the library resources to the maximum.
- ◆ To provide seamless access to information. Act as gateway to digital and electronic information and develop a single access point library.
- ◆ To develop and conduct tutorials for the users to enable them to effectively utilize the facilities and resources made available by the library.
- ◆ To act as a vital link between information sources and users.

### VISION OF NEXT GENERATION HEALTHCARE LIBRARY

- ◆ Dr. B. B. Dikshit Library to refocus and enhance its research, development, training, and information services to make more biomedical data findable, accessible, interoperable and reusable, to invent the tools and services to turn data and information into knowledge and insight, and to develop the workforce capable of doing so.

### Next Generation Healthcare Library Goals & Objectives

| Goal 1<br>Accelerating Discovery (Single Point Search) and advance healthcare through data-driven research.  | Goal 2<br>Reach more people in more ways through enhanced dissemination and engagement.   | Goal 3<br>Build a workforce for data-driven research and health.   |
