

Research Interviewer (Counselors)(2 positions)

Position Starting:February 2015

Overview:

We are hiring three Research Interviewers to be a part of the Assessment team for an international research study conducted by AIIMS, Delhi in collaboration with St. John's Research Institute (SJRI) Bangalore and the University of California, San Francisco (UCSF). The 5-year “DriSti” study was designed to implement and evaluate an intervention to reduce AIDS stigma among health professionals in North and South India.

Job Description:

This study will implement and evaluate the impact of a culturally-specific intervention developed for nursing students and ward staff in government and private hospitals. The assessment team will be trained on research ethics and methodology, including data collection procedures, confidentiality, informed consent, and administration of the evaluation in mock sessions. This post involves conducting electronic tablet administered interviews and intervention. The Research Interviewers will screen, consent, and schedule participants for interviews. All Assessment staff will be supervised by the site coordinator and the India study manager (based in Bangalore).
