

ALL INDIA INSTITUTE OF MEDICAL SCIENCES, ANSARI NAGAR, NEW DELHI

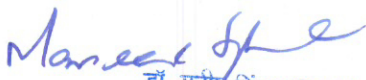

Department of Plastic, Reconstructive & Burns Surgery

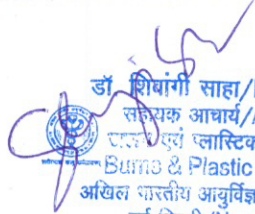

PROPRIETARY/ SPECIFIC BRAND GOODS CERTIFICATE

1	Item/ Type/ Model No. required along with the Specifications	Laparoscopic Surgery Set with HD Camera 3D 4K with accessories (Robotic Camera Holding Arm+Laproscopy Instruments)
2	Is the item a spare part attachment or accessory for existing equipment	No
3	Name of the Manufacturer/ Supplier of the item proposed by the indenter	M/s Karl Storz SE & Co KG, Germany
4	Are the Sole Manufacturer/ Sole Distributor of the item	Yes
5	Is there any other item with similar/ equipment specifications available in the market to meet the job requirement envisaged?. If the answer is yes, why the same can't be procured?	No
6	What were the efforts made to locate alternative source of supply or use other substitutes?	Checked online/ offline and not available on GeM Portal
7	Why Open/ limited tender can't be resorted to, for locating alternative source?	3D technology offers spatial visualization of the surgical site; 4K UHD technology provides increased resolution that enhances depth perception cues, leading to clearer visualization and better anatomical differentiation of the surgical field with a broader color scale and wider color space. Fluorescence-guided surgery (FGS), using the Rubina® Lens, is very helpful in open and laparoscopic surgeries, offering improved visualization of anatomy, margin identification, real-time reliability, and a low complication rate. It is easy to use and saves time. The ARTIP SOLO robotic camera guidance system, for holding and guiding laparoscopes, paired with the TIPCAM1 Rubina, allows the operating surgeon to maintain stability and precise control of the field of view. Precise control via joystick minimizes smudging of the front lens. It provides camera guidance and simultaneous use of the instruments for the surgeon
8	Are the Proprietary items certifying that the rates are reasonable or not	Yes
9	Any other justification for procuring item for single source	Proprietary product of M/s Karl Storz SE & Co KG, Germany, featuring 2D and 3D visualization of the surgical field in rigid endoscopy with 4K resolution, including 2D/3D images and new NIR/ICG fluorescence modes, paired with the Robotic Camera Holding Arm ARTIP SOLO for optimal patient outcomes. It is a specific equipment/technology not available with any other manufacturer or supplier.

 Signature of Indenter/Additional Professor
 (Demanding Office)
 आचार्य और अध्यक्ष शल्य चिकित्सा विभाग
 Department of Plastic, Reconstructive & Burns Surgery
 A.I.I.M.S., Ansari Nagar, New Delhi-110029

It is certified that above mentioned item is required to be procured on single tender basis as the source of the supply is definitely known and limited tender system could be dispensed with as they would serve no useful purpose in this particular case. Also, market survey has been done and found that no other manufacturer is manufacturing similar equipment which can fulfil vital requirements of the department.
