- 1. PAC Certificate enclosed.**
- 2. Specification of equipment.**

(2)

## Specification of PC based Spirometer

- Quantity: 05 Nos.  
Amount: Rs. 1,00,00,000/-
1. Flow Sensor should be using the latest technology preferably Ultrasonic for infection control
  2. Should be easy to operate and be calibration free
  3. Have a high accuracy
  4. Should be able to measure all Spirometry variable including F/V loop
  5. Run from the USB port of any PC with facilities to store data
  6. Meets ATS/ ERS Criteria
  7. Bio calibration check feature.
  8. Ready to use GDT interfacing possibility
  9. Inspiratory and expiratory real- time curve should be there.
  10. Should not be influenced of humidity, barometric pressure, contamination
  11. No cleaning, no maintenance needed
  12. High accuracy for low flows (Resistance free measurements)
  13. Life time free software up gradation
  14. A carrying case should be provided.
  15. The system should be with the following compulsory accessories/goods
    - a. Nose Clips – 25 Nos.
    - b. Mouth Pieces – 8000 each
  16. Should have predicted equation for Indian adult and paediatric population
  17. Should be FDA approval
  18. Laptop with i5 processor, 2 GB RAM, 500GB Hard drive and 14" TFT, with pre-loaded windows and MS Office and Acrobat and reader for PDF files.
  19. Colour printer
  20. Should be light weight, compact and easy to carry
