PROPRIETARY ARTICLE CERTIFICATE
(Under GFR-2017 Rule 166)

The following goods (Consumables) are required for QUANT STUDIO 5 by Thermo fisher India Pvt. Ltd. installed at NDDTC and it is a closed system machine.

(iv) The indented goods are supplied by M/s. Vision Diagnostics India Pvt. Ltd.

(v) Item Name (Part No.)

1) PDC calibration kit with RNASEP of QS 5 DX HSN/SAC: 90279090r (A31455)

(vi) Reasons/Justification which makes the requirement proprietary:

The real time PCR machine QUANT STUDIO 5 relies on specific calibrators for the optical standardization that are only available from the original equipment manufacturer (OEM)/ Authorized distributors. This exclusivity creates a closed ecosystem where the user is limited to sourcing Calibrators and support from the OEM.

3. It is certified that web search/market survey has been done and found that no other manufacturer is manufacturing similar/equivalent specifications which can fulfil the requirements of End User.
4. It is certified that the purchase is proposed to be made on proprietary usage basis because any other Calibrators if used will lead to deviation and affect the integrity or analysis of the assignment.
