**STORES OFFICER (RS)**

**Encl: Related documents enclosed.**

- 1. PAC Certificate enclosed.**
- 2. Performa Invoice**

**JUSTIFICATION:**

These are Brain tumor samples and are extremely critical samples. We will need accurate results and will not be able to repeat any of the samples in case of any errors in sample processing during sequencing.

M/s Med genome is the only company in India which is CAP accredited for doing Next Generation Sequencing and is using the HiSeq 4000 sequencing system which is reproducible and fast. CAP accreditation is a quality benchmark for analysing human samples for DNA and RNA sequencing based projects. As our samples are extremely precious and critical in nature, we would like to give the order to a reputed and reliable company that can provide fast, accurate, dependable and reproducible results without any need to repeat the sequencing of any sample.
